## WEATHERPROOF BOOTS FOR TWIST-LOCK® PLUGS & CONNECTORS

### APPLICATIONS

- **Food processing plants, restaurants, job sites, marinas**
- **Used on electrical equipment such as tools, extension cords and food processing equipment exposed to water, mud, and other liquids**

### FEATURES & BENEFITS

- **Black elastomer material withstands harmful effects of UV rays and many chemicals**
- **Heavy hand-grip knurl provides improved no-slip gripping area**
- **Graduated step design at cord entry enables boot to be easily cut, for use with a wide range of cord sizes**

HUBBELL® Wiring Device-Kellems

No. 3D230

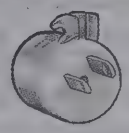
### GROUP A
**15A Insulgrip Straightblade plugs & connectors**

**No. 3D229.** Short Weatherproof Boot for Insulgrip Plugs. Black. Hubbell brand (HBL6023). Shpg. wt. 0.1lbs. List.....$13.36. Each .....**$10.69**

**No. 3D230.** Long Weatherproof Boot for Insulgrip Connectors. Black. Hubbell brand (HBL6024). Shpg. wt. 0.3 lbs. List .....$14.88. Each .....**$11.91**

### GROUP B
**20 & 30A 3-Wire Twist Lock plugs & connectors**

**No. 3D231.** Short Weatherproof Boot for Insulgrip Plugs. Black. Hubbell brand (HBL6031). Shpg. wt. 0.3 lbs. List.....$16.93. Each .....**$13.54**

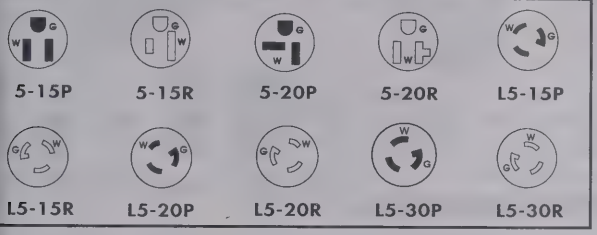


**No. 3D232.** Long Weatherproof Boot for Insulgrip Connectors. Black. Hubbell brand (HBL6032). Shpg. wt. 0.4 lbs. List .....$18.98 Each .....**$15.19**

### GROUP C
**20 & 30A 4 & 5-Wire Twist Lock plugs & connectors**

**No. 5C992.** Short Weatherproof Boot for Insulgrip Plugs. Black. Hubbell brand (HBL6035). Shpg. wt. 0.3 lbs. List.....$21.01 Each .....**$16.8**

**No. 3D233.** Long Weatherproof Boot for Insulgrip Connectors. Black. Hubbell brand (HBL6036). Shpg. wt. 0.6 lbs.List .....$23.9- Each .....**$19.1**



# ADAPTERS

No. 3D188

No. 3D294

### APPLICATIONS

- Factories, construction sites, utilities
- For use with tools and other portable equipment where the plug on equipment does not match receptacle to be plugged into

### LISTINGS & APPROVALS

- UL lists only those adapters where rating of both ends is the same even though configurations may differ (i.e. they list an adapter with NEMA configuration 5-20R on one end and L5-20P on the other)

### FEATURES & BENEFITS

- One piece construction for compact size
- Nylon bodies are impact resistant and withstand abuse

**Caution:** Where adapters have different ratings on blade and slot ends, the following precautions must be exercised in their use:

1. Over current protection is determined by blade end
2. Adapter use should be limited to lowest rated end of adapter in order to prevent overheating

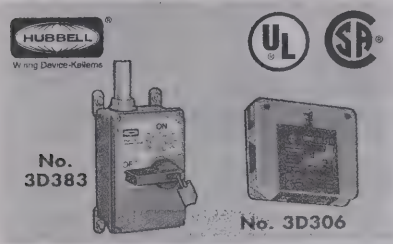
*) Not UL Listed.

# PENDANT STATIONS

No. 5C317

- Momentary operation
- For electric motor hoists and remote control of machinery
- Durable yellow polymer housing resists industrial abuse
- No. 5C317 is a two-button single speed pendant with mechanical interlock to prevent actuating both buttons simultaneously; No. 3D319 has no mechanical interlock
- Both fit 0.375-0.625" diameter cords
- Nylon cord grip and sealing ring keep out dust and moisture
- Rated at 6A for 120V and 3A for 240V
- 5C317 has two normally open contacts; 3D319 has a normally open and a normally closed contact
- Operating temperature range: 25 to 140°F (32° to 60°C)
- Approximately 9.2L x 1.1W x 2.4"D
- UL Listed (E12119); CSA Certified (LR12268); NEMA 4X rating

**No. 5C317.** (CPB21) Shpg. wt. 0.8 lbs. List $79.65. Each ..... **$63.75**



**No. 3D319.** (CPB20) Shpg. wt. 0.8 lbs. List $94.09. Each ..... **$75.30**

## UL LISTING AND CSA CERTIFICATION

When choosing products from this section, look for the UL and CSA symbols. Those Listed and/or Certified products meet or exceed rigid standards established for personal safety and maximum product life. UL file number and CSA Certification are indicated in the individual listings.

# DISCONNECT SWITCH, TWIST-LOCK® DEVICES, & WEATHERPROOF BOOTS

## CIRCUIT-LOCK DISCONNECT SWITCH

- Nonmetallic enclosure is NEMA Type 4X, Type 12K
- Galvanized steel internal frame bonds grounds and assures structural integrity
- Horsepower rated disconnect switch
- Accepts auxiliary contact capable of signaling PLC controllers
- Large, high visibility, padlockable, red switch handle accepts a 5/16" padlock for lockout provision
- 3/4" NPT watertight conduit fitting

- Use to provide On/Off switched control of direct wired motor loads.
- Meets NEC Article 430 requirements for a separate disconnect means within sight of all motor loads
- Directly locks wired motor loads in Off position to comply with OSHA lockout/tagout regulations

## 50A TWIST-LOCK® DEVICES

- Used with tools, food processing equipment, portable generators, conveyors, motors, etc.

### PLUGS & CONNECTORS

- Supertough ribbed nylon housing offers superior impact/crush resistance and secure gripping; withstands industrial chemicals, solvents and hydrocarbons
- Three-piece thermoplastic clamp assembly with stainless steel fast lead screws provides durable grip
- 6/6 nylon nose—Rynite terminal cover is heat and impact resistant
- Stainless steel shroud on plugs protects plug blades from damage
- One piece grounding contact on 4 wire devices provides a more reliable grounding system for a safer device
- Box terminal with Allen-head threaded slug permits high clamping pressure on conductors without damaging strands

### RECEPTACLES

- Base provides excellent heat/flame resistance and dimensional stability
- Metallic nose piece can not be distorted to mate with wrong device
- Mounting and grounding system provides low resistance ground path
- Box terminal with threaded slug permits high clamping pressure on conductors without damaging threads

(†) Nos. 3D245, 3D274, and 3D275 for replacement use only. See other singly-rated 50A Twist-Lock® devices above.

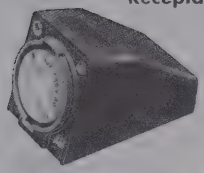
## WEATHERPROOF BOOTS

### WEATHERPROOF BOOTS SPECIFICATIONS AND ORDERING DATA

| Description | Color | Hubbell Model | Stock No. | List | Each | Lots 5 | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| Short Seal-Tite Boot for 50A Plugs | Black | 7716C | 3D272 | $46.29 | $37.05 | $33.33 | 0.3 |
| Long Seal-Tite Boot for 50A Connector Bodies | Black | 7717C | 3D273 | 46.31 | 37.05 | 33.34 | 0.4 |

- For tools, extension cords, & food processing equipment exposed to water, mud, and other liquids
- Elastomer material withstands harmful UV rays and many chemicals
- Heavy hand-grip knurl provides an improved no-slip gripping area
- Covers easily slip over device housin without requiring cable removal

When the spec calls for brand names, you'll find the best here.

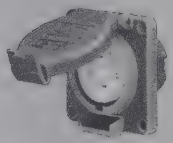


# SAFETY SHROUD™ TWIST-LOCK® SYSTEM

SAFETY-SHROUD ™ TWIST-LOCK® SYSTEM

HUBBELL Wiring Device-Kellems

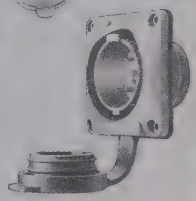
WATERTIGHT SAFETY-SHROUD ™ TWIST-LOCK® SYSTEM



No. 4CV48 Angle Housing Receptacle

No. 4CV49 Surface Mounting Receptacle

No. 4CV51 Receptacle



No. 4CV53 Male Plug

No. 4CV54 Connector Body

No. 4CV50 Semi-flush Receptacle

No. 4CV52 Safety-Shroud™ Plug

No. 4CV55 Male Inlet

## SAFETY-SHROUD™ TWIST-LOCK® SYSTEM

APPLICATIONS

- General manufacturing, assembly areas, shipyards, utilities, convention centers, and construction sites ,
- Use in heavy-duty industrial areas, tools, portable generators, conveyors, motors, and portable lighting

LISTINGS AND CERTIFICATIONS

- UL Listed and CSA Certified

SAFETY-SHROUD™ PLUG FEATURES AND BENEFITS

- Helps eliminate bent and broken plug blades
- Mates with most NEMA locking connector bodies
- Provides protection to personnel by reducing the chance of inadvertent contact with blades when connecting or disconnecting energized devices
- Reduces exposure to arcing when disconnecting and connecting plugs under load
- Lockout/tagout hole allows compliance to OSHA regulation 29 CFR 1910.147
- Allows engagement with mechanical interlock enclosure which helps prevent make and break under load

SAFETY-SHROUD™ RECEPTACLE FEATURES AND BENEFITS

- Semi-flush receptacle mounting provides lowest installed profile when plug is not in use with receptacle. Designed for installation on 2 gang boxes
- Straight receptacle housing provides a low installed profile when the plug is not in use with receptacle. Designed for installation on single gang boxes
- Angle receptacle housing provides low installed profile when plug is in use with receptacle. Designed for use on single gang boxes
- Internal keying on receptacle aligns blades for quick mating of devices
- Accepts all NEMA locking plugs, allowing interchangeability with existing devices

## WATERTIGHT SAFETY-SHROUD™ TWIST-LOCK® SYSTEM

APPLICATIONS

- Food processing, pharmaceuticals, paper industry, shipyards and general manufacturing facilities
- Watertight Safety-Shroud™ Twist-Lock® will perform in any hostile environment

LISTINGS AND CERTIFICATIONS

- UL Listed and CSA Certified: Type 4, 4X, 12
- IP66 Suitability
- Compliance with California Code of Regulations Title 8, Article 51, Subsection 2510.7(b), which requires shrouding for devices exceeding 300 volts

SAFETY-SHROUD™ PLUG FEATURES AND BENEFITS

- Helps eliminate bent and broken plug blades, leading to longer equipment life
- Extends life of mating receptacles by eliminating damage caused by insertion of bent blades
- Extra protection of personnel by significantly reducing chance of inadvertent contact with blades when connecting or disconnecting energized receptacles or connectors
- Reduces exposure to arcing when connecting or disconnecting plugs under load
- Lockout/tagout hole allows compliance with OSHA regulation 29 CFR 1910.147
- Sealing gland and thermoplastic guard assure sealing when fully connected

SAFETY-SHROUD™ PANEL OR BOX MOUNT RECEPTACLES AND INLETS FEATURES AND BENEFITS

- One-step push-to-close spring-loaded cover with latch allows for fast opening and closing of lift cover. Result: environmental sealing is assured
- High impact, thermoplastic housing for heavy-duty industrial environments
- Mfg. number and color-coded voltage rating are easily visible when in use

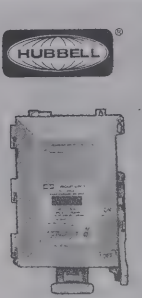
Also suitable for 208V. Only receptacles and plugs 480V AC or less are HP rated.
NOTE: Watertight Safety-Shroud™ receptacles can be used with Type 4X mechnically interlocked Twist-Lock® enclosure No. 4CV76.

**DON'T DELAY... ORDER FROM GRAINGER NOW!**

**Place your order with your local Grainger branch, and you'll be assured of prompt service, technical support, and our "No Hassle" return policy on any product ordered.**

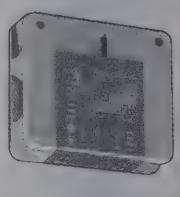
# CIRCUIT-LOCK FUSED MECHANICAL INTERLOCK DEVICES

**APPLICATIONS**



- Factories, convention centers, job sites
- Used on welders, conveyors, portable motors, food processing equipment

**LISTING & APPROVALS**



- UL Listed & CSA Certified

**FEATURES & BENEFITS**

- Incorporates fused disconnect switch and receptacle in one compact, non-metallic unit
- Helps meet NEC requirement for a separate disconnect means within sight of all motor loads; provides over-current protection at point-of-use
- Mechanism detects presence of plug, and if plug is inserted properly, switch engages and turns ON. Eliminates abuse and handle breakage due to heavily applied forces when plug is incorrectly mated
- Rated as a watertight NEMA 4X, 12K enclosure
- Nonmetallic enclosure can be connected to metallic conduit and not interfere with ground continuity
- Use appropriate Class J time delay fuse
- Handle accepts up to 5/16" padlock shackle and can be locked in off position for compliance with OSHA lockout requirements
- Offset conduit entry prevents condensation from falling directly on interior electrical components
- Horsepower rated disconnect switch handles large motor loads
- Adjustable mounting feet can be used in three positions for tight fit applications and are ductile to allow mounting on irregular surfaces
- Auxiliary contact kit permits the use of control circuits to signal external equipment, especially PLC controllers

# SWITCHED TWIST-LOCK® ENCLOSURES

No.6C655

- Receptacle (not included, order separately) is angled down to provide low profile and helps control cable arc of bend
- Compact design rated NEMA 3R and 12K
- Large, replaceable, gasketless door and hinge assembly provides easy access and weatherproofing
- Movable feet may be used in horizontal or vertical position, or may be removed and premarked holes drilled for Type 1 or 3R installations
- Complies with OSHA lockout requirements
- No. 4CV76 is a Type 4X mechanically interlocked Twist-Lock® enclosure that accepts any 20A or 30A Hubbell watertight safety-shroud Twist-Lock® receptacle (receptacle not included)

# CIRCUIT-LOCK FUSED DISCONNECT SWITCH

- Applications include industrial, institutional, hospital, and agricultural
- Used to provide on/off switched control of direct wired motor loads
- UL Listed and CSA Certified
- Accepts J class fuses for superior interrupting ability
- Fuses cannot be accessed until switch is turned OFF for safety
- Meets NEC Article 430 requirements for separate disconnect means within sight of all motor loads
- Offers ability to lock directly wired motor loads in OFF position to comply with OSHA lockout/tagout regulations
- Nonmetallic enclosure is NEMA Type 4X (washdown, corrosion resistant) and Type 12K (dust-tight)
- Galvanized steel internal frame bonds grounds and assures structural integrity
- Horsepower rated disconnect switch for making and breaking under loads
- Accepts auxiliary contact capable of signalling PLC controllers
- Large, high visibility, padlockable, red switch handle accepts 5/16" padlock for lockout provision
- Two 3/4" NPT watertight conduit fittings for easy installation

Fused Disconnect Switch No. 3D340

Auxiliary Contact Kit No. 3D303

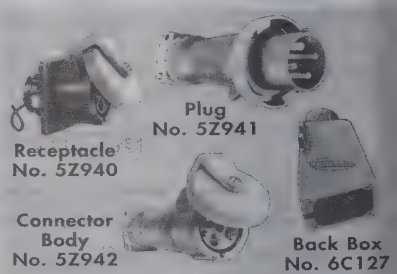
# BOXES FOR PIN & SLEEVE RECEPTACLES

- For mounting pin & sleeve receptacles shown on previous pages
- Meets IP67 requirements: Dust-tight and watertight
- Non-metallic models are high-grade thermoplastic, resist chemicals, abuse and UV rays. Meet Type 4X when installed with watertight conduit hub
- Metallic models are cast aluminum with gray enamel paint for corrosion resistance. Back box is high grade thermoplastic
- Four way box can be rotated so conduit enters from top, bottom or sides
- Angle wall box adapter allows 20A & 30A receptacles to be mounted to a standard outlet box (1 or 2 gang, or 4 or 4 11/16" square)



Back Box
No. 4CT37

- No. 4CT37 can be used with watertight safety-shroud 20A and 30A Twist-Lock™ receptacles. Hub not included

# PIN & SLEEVE DEVICES

- Used for heavy equipment, computers, welders, temporary power, tools, food preparation and processing equipment motors, pumps and commercial fishing vessels
- All devices built to IEC 309 standards
- Rated by amperage and voltage with a distinct non-interchangeable configuration for each rating
- Color coded by voltage for quicker identification of mating devices
- Nylon housing provides corrosion and impact resistance
- Gasketed locking ring, spring-loaded cover provide a dust-proof, watertight seal between plug/connector
- Neoprene sealing glands give watertight seal at cable entry point
- Heavy-duty cable grips handle a wide range of cable sizes and prevent strain on terminals
- Thermoset polyester contact carrier resists arcing, internal heat build-up
- Solid pins provide long life, reliable electrical contact, maximum conductivity
- Self-adjusting sleeves with beryllium copper insert springs provide constant contact pressure and a wiping action for minimum temperature rise, tight fit and easy insertion
- Box terminals permit high clamping pressure on conductors without damaging strands
- Shroud on plugs protect pins against impact and abuse

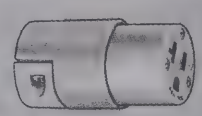
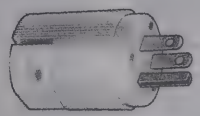
# INDUSTRIAL CORROSION RESISTANT/HIGH VISIBILITY 15 & 20A STRAIGHT BLADE DEVICES

## APPLICATIONS



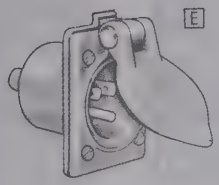
- Food processing facilities
- Chemical platting facilities
- Outdoor recreation—tents, carnivals, circus, concerts
- Recreational Vehicles
- Marine—Ship to Shore Power



## LISTINGS & CERTIFICATIONS

- All are UL Listed
- All are CSA Certified except 20A straight blade T slot devices

## FEATURES & BENEFITS



- Nickel plated brass components
- Heat resistant interiors
- Resistant to chemical and harsh marine environment

## SWITCHED TWIST-LOCK® ENCLOSURES

- Receptacle is angled down to provide low profile and helps control cable arc of bend
- Compact design rated NEMA 3R and 12K
- Large, replaceable, gasketless door and hinge assembly provides easy access and weatherproofing
- Movable feet may be used in horizontal or vertical position, or may be removed and premarked holes drilled for Type 1 or 3R installations
- Complies with OSHA lockout requirements
- No. 4CV76 is a Type 4X mechanically interlocked Twist-Lock® enclosure that accepts any 20A or 30A Hubbell watertight safety-shroud Twist-Lock® receptacle (receptacle not included)

No. 6C655

**ENERGY SAVING PRODUCTS FOR HOME, FARM, AND INDUSTRY**

Including blowers, fans, furnaces, heaters, lighting, motors, controls, thermostats, water heaters, and other items. See Index under Energy Saving Products.

# STRAIGHT BLADE PLUGS AND CONNECTORS

### APPLICATIONS

- Factories, light assembly areas, schools, offices and homes
- Use on tools, lighting, test equipment, and other portable equipment

### LISTING & APPROVALS

- UL Listed and CSA Certified (except configurations 5-20R & 6-20R)

### FEATURES & BENEFITS

- Nylon devices have fluted body design providing sure grip
- Clear wiring for termination inspection; provides molded-in wire gauge
- Cord clamp seats flush with body for all cables rated 10/3 ST to 18/3 SVT
- Removable snap-in cable grip insert for smaller cable sizes. Molded-in cable gauge indicates when insert is required
- Rubber devices resist cold, abrasion, grease, oils, acids and impact

# GROUND FAULT CIRCUIT INTERRUPTERS

No. 5C394

LEVITON

E48380

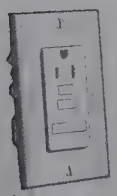
- Provided with Decora wallplate

**APPLICATIONS**

- Hospitals, hotel/motel, offices, retail
- Used to protect people from line-to-ground electrical shock hazards in areas like bathrooms, kitchens, and around spas & pools

**LISTING**

- Conforms to UL Standard 943 Class A (GFCI), and 498 (receptacle)



**FEATURES**

- Lexan face on Hospital Grade version for extra impact resistance and LED indicator light
- Feed-through ready
- 1⅛" receptacle depth for extra wall-box room
- Silver alloy contacts
- Temperature tolerance range –31 to 158°F

**Note:** GFCI-type receptacles should not be used in critical care patient areas or for electrical life support equipment applications because of the possibility of power interruptions.

# COMBINATION SWITCH/GFCI OUTLETS

No. 5C410

LEVITON

E48380

**APPLICATIONS**

- For bathrooms & kitchenettes in hotels, motels, homes and efficiency housing
- Replaces switch/outlet combination device

**LISTING**

- Conforms to UL Standard 943 Class A (GFCI), and 498 (receptacle)

**FEATURES**

- Can be common- or split-feed wired
- 1⅛" receptacle depth for extra wall-box room
- Temp. tolerance range -31 to 158°F
- Switch rating is 1000W 125V AC; Outlet 15A 125V AC; Feed-Through 20A 125V AC

**Note:** GFCI type receptacles should not be used in critical care patient areas or for electrical life support equipment applications because of the possibility of power interruptions.

SELECT QUALITY PRODUCTS FROM LEADING MANUFACTURERS WITH PROVEN PERFORMANCE

Grainger features quality products from the brand name manufacturers you know and trust. More than 900 national brands are listed in the Brand Index at the back of this catalog.

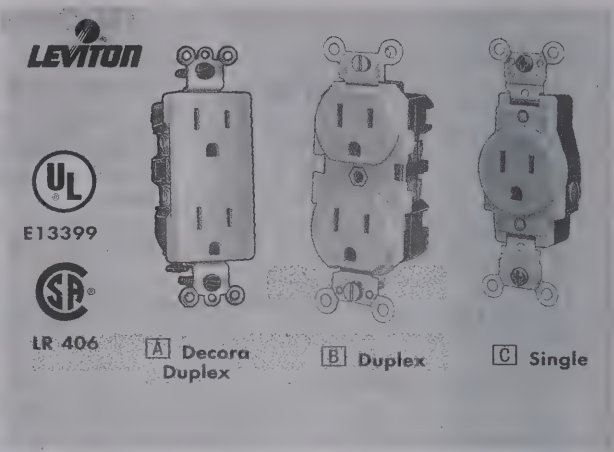
THE RIGHT STUFF. RIGHT HERE. RIGHT NOW.

It's more than just a slogan with Grainger. More than 78,000 products, most in stock and available for same day shipping, are available with a call to your local branch. And when you need product selection assistance, count on our trained personnel for fast, accurate answers to your technical questions.

# STRAIGHT BLADE RECEPTACLES

## HOSPITAL & SPECIFICATION GRADE RECEPTACLES

### APPLICATIONS



- Hospitals, laboratories, emergency care facilities, factories, institutions, offices
- Used in patient and treatment rooms, for industrial and test equipment, fans/blowers, lighting fixtures, etc.

### LISTING & APPROVALS

- Hospital Grade—UL Hospital Grade Listed; CSA Certified (except config. 5-20R); meet Fed. Spec. WC596
- Specification Grade—UL Listed, CSA Certified (except config. 5-20R); meet Fed. Spec. WC596

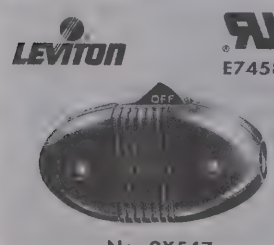
### FEATURES & BENEFITS

- Molded nylon body and cover for impact resistance
- Double-wipe, corrosion-resistant power contacts on Hospital Grade. Specification Grade versions utilize copper alloy double wipe contacts
- Spring-backed, large head terminal screws
- Hospital versions have Groundamatic self-grounding clips riveted at one end of mounting strap and a locked-in strap; Specification versions have Groundamatic self-grounding strap, locked into base

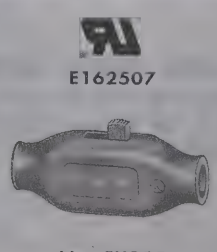
## COMMERCIAL & RESIDENTIAL GRADE RECEPTACLES

### APPLICATIONS

- Offices, retail, homes
- For light fixtures, office equipment, small appliances, etc.



### LISTING & APPROVALS



- UL Listed, CSA Certified (except config. 5-20R)

### FEATURES & BENEFITS

- Large-head terminal screws accept up to #10AWG copper or copper-clad wire
- Residential devices have Quickwire push-in terminals that accept up to #14AWG copper or copper-clad wire
- Break-off plaster ears for best flush alignment

## FEED-THROUGH CORD SWITCHES

**No. 2X547 Feed-Through Cord Switch** provides On-Off positions. Accepts 2-wire, 18 AWG SJ and SJT cords up to 0.25" diameter. Rated 10A at 125VAC and 5A at 250VAC. UL Recognized (E7458). Brown. Leviton brand (5410).

**No. 2X547.** Shpg. wt. 0.1 lbs. List $2.99. Each.....**$2.43**; Lots 10.....**$2.19**; Lots 20.....**$2.02**

**No. 5X855 Feed-Through Cord Switch** provides LO-HI-OFF positions. Widely used for 2-speed fan control. Accepts 3-wire, 16 AWG SJ and SJT cords up to 0.34" diameter. Rated 10A at 125VAC and 5A at 250VAC. UL Recognized (E162507). Black.

**No. 5X855.** Shpg. wt. 0.1 lbs. List $3.29. Each.....**$3.13**; Lots 10.....**$2.97**

*When the spec calls for brand names, you'll find the best here.*

# WALL SWITCHES

## SPECIFICATION GRADE

**APPLICATIONS**
- Institutional, office, school, retail, and agricultural
- Use on lighting, motor loads, heating & AC, pumps, blowers & oil burners

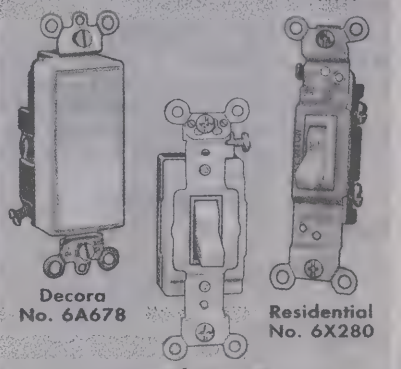
**LISTINGS & APPROVALS**
- UL Listed, CSA Certified, and meet Fed. Spec. WS896

**FEATURES & BENEFITS**
- Switch mechanism fully enclosed in rugged housing providing strength, track and arc resistance
- One-piece, movable contact arm of heavy gauge copper alloy guarantees smooth, quiet, firm toggle action
- Silver-cadmium oxide contacts
- Deep wire wells and large head, deep slotted-terminal screws
- Heavy-gauge rust-resistant steel grounding screw and clip
- Shallow (3/4" deep) body allows quick installation

**SPECIALTY VERSION**
- PL versions have neon lamp that glows, indicating when load is on

## COMMERCIAL AND RESIDENTIAL GRADE

**APPLICATIONS**
- Use for lighting, appliances, and fans in offices, retail, homes



**LISTINGS & APPROVALS**
- UL Listed and CSA Certified except as noted below

**FEATURES & BENEFITS**
- Large-head terminal screws accept up to #10 AWG copper or copper-clad wire
- Captive mounting screws
- Silver-cadmium oxide contacts for maximum conductivity
- Heavy gauge, rust-resistant steel mounting strap
- Residential devices have Quickwire push-in terminals that accept up to #12 AWG copper or copper-clad wire
- Break-off plaster ears for best flush alignment

**SPECIALTY VERSION**
- Illuminated versions have neon lamp that glows, indicating when power is on

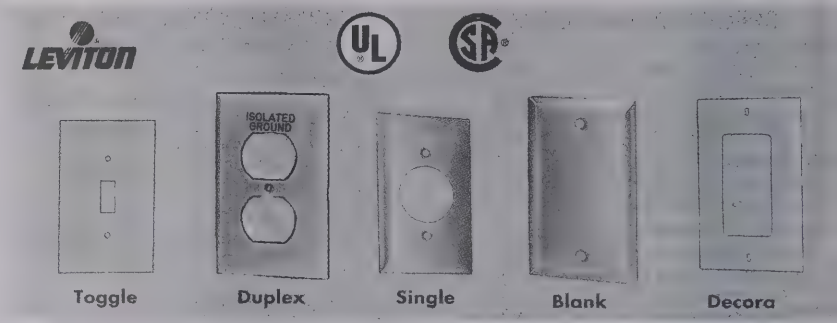
# WALL PLATES

## APPLICATIONS



- Institutions, offices, wholesale/retail, hotel/motel
- Used indoor to protect devices from the elements and protect people from accidental contact with devices

## LISTINGS & APPROVALS

- UL Listed and CSA Certified

## FEATURES & BENEFITS

- Molded of urea or phenolic for high dielectric strength and arc resistance
- Resistant to fading, discoloration, oils, grease, organic solvents, and moisture

(†) Mid-way wall plates are 3/8" higher and 3/8" wider than standard size plates to cover wall imperfections. (*) Inside diameter is 1.406".

# DECORA DIMMERS AND FAN SPEED CONTROLS

**For Use In Restaurants, Hotels, Stores, and Residential Installations**

## A TOUCH DIMMERS

- **Features touch on and off operation; ivory has ivory touch panel; white has white touch panel**
- **Solid state circuitry includes radio interference filter**
- **For incandescent lighting only**
- **120VAC, 60Hz only; max. watts: 600**
- **UL Listed (E31373)**

**Note:** When 2 units are ganged together, each unit should not be loaded beyond 500W. When 3 or more are ganged together, each unit should not be loaded beyond 400W.

## B, C & D FAN SPEED CONTROLS

- **For ceiling, attic, kitchen, or bathroom fans with split capacitor or shaded pole motors only**
- **Nos. 5C343 and 5C344 have manual low-speed trim adjustment ensures proper restart after power interruption to prevent motor overheating**
- **Compact size fits standard wall box and is suitable for ganging**
- **Silver-center rotary knobs**
- **UL Listed (E54101)**
- **CSA Certified (LR3413)**

**Nos. 5C347 and 5C348.** Slide control, 5A 120VAC. 60 Hz only.

**Nos. 5C343 and 5C344.** Wall mounted controls operate 1 or 2 units within rating limits. **Rating:** 600W, 5A, 120VAC.

**Nos. 5C345 and 5C346.** Wall mounted controls have full range dimmer. Operates 1 fan and 1 light within range limits. **Rating:** Speed control 300W, 2.5A, 120VAC; Dimmer 300W, 2.5A, 120VAC.

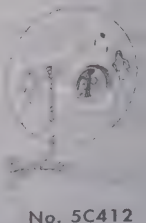
*) Includes both units for 3-way circuit.

# PORCELAIN LAMPHOLDERS



LEVITON E3810

No. 5C406

No. 5C407

No. 5C412

**Porcelain lampholders** are for use in industrial, commercial and residential applications. Screw terminal connections. Mount directly to 3¼" or 4" ceiling box. Top wired. Accepts medium screw base lamps not to exceed ratings shown in chart. Pull chain models have short chain with connector and 3 feet of braided cord and bell at end.

**No. 5C407** has removable interior mechanism with captive mounting screws. **No. 5C412** includes outlet. Used for pull-chain lampholders and hanging fixture bowls. Removable interior mechanism.

### PORCELAIN LAMPHOLDERS SPECIFICATIONS AND ORDERING DATA

E

### A TONE TEST SET

- Isolates & tests telephone, data, HVAC systems, security or alarm wiring appls.
- Emits 2 different traceable tones for tracing pairs or locating broken wire pairs in walls
- Tests for continuity, shorts or open lines • Verifies line condition and polarity
- Rubber grommet prevents chafing on test leads

### B SPEAKER PROBE

- Used with tone test set No. 6C082 to trace and identify single wires or wire pairs
- Includes two replaceable tips and one 9-volt battery

### C SPLICEPRO TOOL KIT

- Kit includes 1 crimping tool; 1 space cutting blade; 20 B-type splices; 20 UR-type splices
- Tool crimps 22-26 gauge wire using UR or B-type splices
- Calibrated for exact compression to maximize splice reliability
- Adjustable for right or left handed use
- Replacement splices sold separately below

### D and E REPLACEMENT SPLICES

- B and UR-type splices • Sold in packages of 100

Greenlee Telcom crimpers available on pg 1323

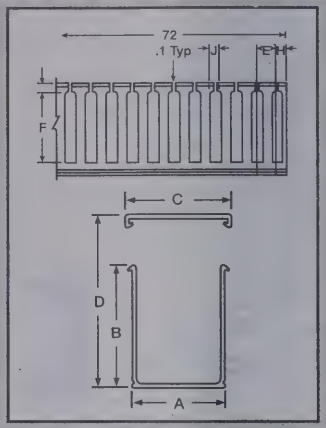
# TAYLOR® OPEN SLOT WIRING DUCT

## TAYLOR® OPEN SLOT WIRING DUCT



- Used in panels or applications requiring neat wire layout
- Vinyl (PVC) construction
- Snap-back wire retention feature traps installed wires
- Straight deep slots allow larger wire sizes all the way to the bottom
- Edges are buffed smooth to minimize wire chafing
- Standard 6 ft. length
- Patented "no slip" snap-on covers interlock with duct sidewalls to prevent vibration slippage
- Meets JIC requirements

Thomas&Betts

E49405

Shown No. 3LR62 with No. 3LR73

### DON'T FORGET THE BACK OF THE BOOK! MANY CROSS-REFERENCE GUIDES AND INDEXES HELP MAKE PRODUCT SELECTION EASIER

**Besides complete National Brand and Product Indexes, the back section of this catalog contains a Terminology and Technical Data Section as well as a handy Stock Number/Page Number Cross-Reference Guide. And don't forget, if you need assistance with product selection, help is as close as a call to your local branch.**

### UL LISTING AND CSA CERTIFICATION

When choosing products from this section, look for the UL and CSA symbols. Those Listed and/or Certified products meet or exceed rigid standards established for personal safety and maximum product life. UL file number and CSA Certification are indicated in the individual listings.

# DIGITAL PANEL METERS

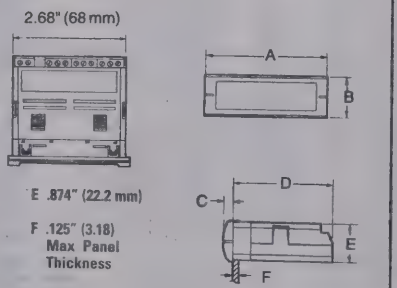
No. 1X331
3/64 DIN Mini-Max DC Process Meter



Minority-Owned Business

No. 2T870
1/8 DIN AC Voltmeter

Dimensions for 1/8 DIN AC Voltmeters and DC Process Meters

Dimensions for 3/64 DIN Mini-Max DC Process Meters

A 2.84" (72 mm)
B .945" (24 mm)
C .158" (4 mm)
D 2.36" (60 mm)
E .874" (22.2 mm)
F .125" (3.18) Max Panel Thickness

## 1/8 DIN DC PROCESS METERS

- Bright red LED display, 0.56" high
- 3½ or 4½ digit displays
- Screw terminal connectors standard
- 120 VAC powered
- Display hold

# DIGITAL PANEL TEMPERATURE METERS AND CURRENT CALIBRATORS

No. 2T907
Temperature Meter

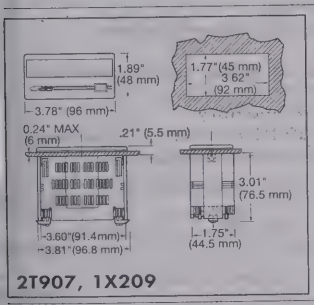
No. 3LW52

No. 2T900
Isolated Two-Wire Transmitter
(Protective Hood Not Included)

Minority-Owned Business

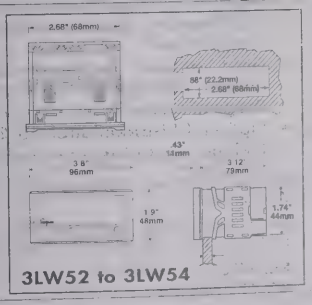
## 1/8 DIN TEMPERATURE METER

- 4½ digit red LED display, 0.56" high
- User selectable °C or °F
- Screw terminals for easy signal and power wiring
- 120 VAC powered



| Signal Type | Simpson Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|
| T/C* | F45-1-80-0-F | 2T907 | $189.00 | 1.6 |
| RTD Pt100 | F45-1-90-0-F | 1X209 | 189.00 | 1.6 |

(*) Jumper-configurable for type J, K, T, R, S, or E thermocouples.



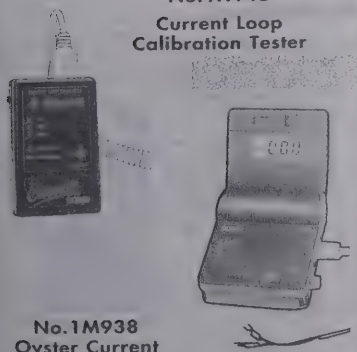
## 3/64 DIN TEMPERATURE METERS

- 4-digit red LED display, 0.56" high
- Fits standard 3/64 DIN cutout
- User selectable input type and °C or °F
- Screw terminal connectors for easy installation
- 85-250 VAC powered

| Signal Input | Temp. Range | Simpson Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| Type J T/C | -328° F to 2192°F<br>-200° C to 1200°C | M240-0-91-0-F | 3LW52 | $165.00 | 0.3 |
| Type K T/C | -328° F to 2498°F<br>-200° C to 1370°C | M240-0-92-0-F | 3LW53 | 165.00 | 0.3 |
| RTD Pt100 | -328° F to 1562°F<br>-200° C to 850°C | M240-0-93-0-F | 3LW54 | 165.00 | 0.3 |

2T907, 1X209

3LW52 to 3LW54



## ISOLATED TWO-WIRE 4-20mA TRANSMITTERS

- 1.73" in diameter
- Can be mounted in almost any size thermal protection head
- Field adjustable input span
- Accuracy of 0.1% of span
- Enhanced RFI and EMI protection

| Signal Type | Simpson Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|
| Type J | TR700-2-1-2-500° | 2T900 | $209.00 | 1.0 |
| Type K | TR700-2-2-2-400° | 2T901 | 209.00 | 1.0 |
| Type T | TR700-2-3-2-300° | 2T902 | 209.00 | 1.0 |

EXTECH INSTRUMENTS

No.1H146
Current Loop Calibration Tester

No.1M938
Oyster Current Calibrator

## CURRENT LOOP CALIBRATION TESTER

- Simulates output values of 4mA, 12mA and 20mA
- Provides current source for setting up engineering units on process indicator
- Accurate to 0.1mA
- Overload indication when load exceeds 240 ohms
- Complete with calibration cable, spade lugs, case and 9V battery

**No. 1H146.** Extech brand (412440-S). Shpg. wt. 0.7 lbs. Each.....$89.00

## CURRENT CALIBRATORS

- Accuracy (typ.): ±0.075%
- Resolution: 0.01mA (0-19.99mA); 0.1mA (0-24.0mA); 0.1% (-25 to 125.0%)
- Measure: 0-24mA Current signals
- Source: 24mA for loads to 350 ohms
- Input/Output ranges and display: -25.0 to 125% (0-24mA); 0 to 19.99mA; 0 to 24.0mA
- Adjustable 0-24mA source for loads up to 350 ohms
- Displays to 0.01mA, 0.1mA or 0.1%
- Large 3½ digit LCD display built into adjustable cover
- Three modes: Current Source, Current Measurement, Power/Measure 2-wire Transmitters
- Includes 9V battery, calibration cable and neckstrap

## OYSTER CURRENT CALIBRATOR

**No. 1M938.** Extech brand (412300). Shpg. wt. 0.8 lbs. Each.....$199.00

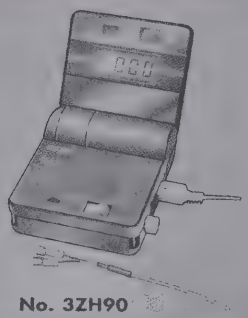
## OYSTER CURRENT CALIBRATOR WITH NIST CERTIFICATE

**No. 1M936.** Extech brand (412300-NIST). Shpg. wt. 0.9 lbs. Each.....$264.00

## VINYL CARRYING CASE

**No. 1M966.** Extech brand (14000). Shpg. wt. 1.1 lbs. Each.....$30.00

# CURRENT AND VOLTAGE CALIBRATORS

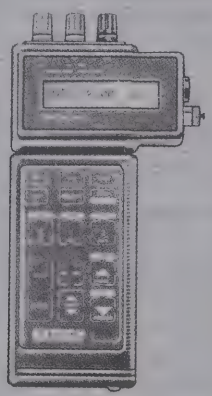


## EXTECH CURRENT AND VOLTAGE CALIBRATORS

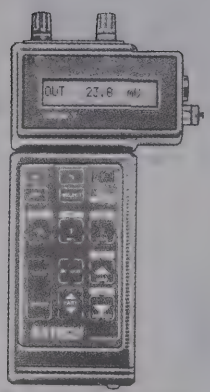
- Source: 0-24mA, 0-10V; Measure: 0-50mA, 0-19.99V
- Accurate to ±(0.075% ± 1 digit)
- Display 4.00 to 20.0mA or as 0.0 to 100.0%
- Hand-held or benchtop operation
- Adjustable display with Auto-Off when case is closed
- Includes calibration cable, 9V battery and instructions

**No. 3ZH90.** Extech brand (412355). Shpg. wt. 0.8 lbs. Each ..... $199.00

**No. 3ZH91.** Extech brand (412355-NIST). Shpg. wt. 1.0 lbs. Each ..... $264.00



**No. 3ZH64.** 117VAC Adapter for 3ZH90 and 3ZH91. Extech brand (149118). Shpg. wt. 0.4 lbs. Each ..... $17.00



No. 3ZH90

No. 3ZH64

No. 4KC39

No. 4KC37

## EXTECH UNICAL CALIBRATOR SERIES

- Precise single-function calibrators source or measure voltage or current
- Voltage model (4KC37 and 4KC38) ranges: 0-100mV, 0-1V, 1-5V, 0-10V. Accuracy 0.1% of reading
- Current model (4KC39 and 4KC40) ranges: 0-22mA, 4-20mA. Accuracy 0.05% of reading
- Also displays in %
- Membrane keypad and ABS plastic housing for rugged, shock-proof durability
- High contrast 16-character alpha-numeric LCD for output, input and programming displays
- Quick-access fuse protection and slide-off battery compartment
- Gold terminals for banana plug or bare wire connection minimizes thermo-electric errors
- Programmable ramp time with memory
- Optional bi-directional RS-232 PC interface and software
- Includes batteries, carrying case and instructions

**No. 4KC37.** Unical Voltage Calibrator. Extech brand (423404). Shpg. wt. 2.2 lbs. Each ..... $499.00

**No. 4KC38.** Voltage Calibrator with NIST Certificate. Extech brand (423404-NIST). Shpg. wt. 2.2 lbs. Each ..... $599.00

**No. 4KC39.** Unical Current Calibrator . Extech brand (423405). Shpg. wt. 2.2 lbs. Each ..... $499.00

**No. 4KC40.** Current Calibrator with NIST Certificate. Extech brand (423405-NIST). Shpg. wt. 2.2 lbs. Each ..... $599.00

**No. 4KC48.** RS-232 Interface, Cable and Software. Extech brand (423934). Shpg. wt. 0.3 lbs. Each ..... $199.00

## PROCESS CALIBRATOR MULTIMETER™

### Precision Current, Voltage, Frequency Calibrator Plus True RMS Multimeter

- 15 DMM/Calibrator functions including temperature, duty cycle, & resistance
- Calibrator simultaneously sources AND measures with large dual display status
- Programmable output memory for scan, 999 step, and continuous modes
- Bi-polar constant-current output load to 500 ohms with 0.03% accuracy
- Large 4,000/40,000 count backlit LCD for primary/secondary functions
- Includes RS-232 interface cable and software
- 1 microVolt/Amp resolution with 0.03% basic DCV accuracy
- 1ms peak hold, plus data hold and dynamic recording modes
- Separate input and output jacks with fuse protection
- Includes input/output test leads, temperature probe, 9V battery, external battery pack, protective holster, software, interface cable and case

***New*No. 4PC70.** Calibrator/multimeter. Extech brand (CMM-15R). Shpg. wt. 3.0 lbs. Each ..... $499.00

***New*No. 4PC71.** Calibrator/multimeter with NIST Certification. Extech brand (CMM-15R-NIST). Shpg. wt. 3.0 lbs. Each ..... $574.00

***New*No. 4PC63.** RS232 Interface cable and software. Extech brand (423235). Shpg. wt. 0.5 lbs. Each ..... $69.00

New

No. 4PC70

# 710 SERIES PROCESS CALIBRATORS

The Fluke 710 series Process Calibrators are single-function handheld calibrators. Compact, lightweight and easy to transport. Each is EMI tolerant, dust and splash-resistant, and features a removable battery door for quick battery changes. Covered under a 3 year Fluke warranty.

## PROCESS TOOL SELECTION GUIDE

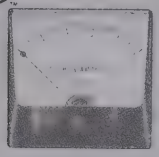
## ACCESSORIES

### PNEUMATIC TEST PUMP

- Rugged handheld pressure pump
- Generates either vacuum to -11.6 psi/-0.8 bar or pressure to 360 psi/25 bar
- 3/8-BSP (ISO228) female parallel thread fitting for the reference gauge or pressure module
- 1/8-BSP (ISO228) female parallel thread fitting for the unit under test



**New No. 4TP98.** Shpg. wt. 3.0 lbs.
Each ..... $395.00

- AC meters iron-vane type
- DC meters self-shielded movement
- UL Recognized (E91015N)
- Includes template and mounting screws

## B CENTURY METERS

- 2½, 3½, and 4½" sizes
- Phenolic case • ±2% accuracy
- Glass window resists scratches
- DC meters self-shielded movement
- AC meters iron-vane type
- UL Recognized (E91015N)
- Includes template and mounting screws

## C TRU-VUE METERS

- 3½ and 4½" sizes
- Clear acrylic windows for modern look
- ±2% accuracy
- DC meters self-shielded movement
- AC meters iron-vane type

## D PERCENT LOAD METERS

- Provide visual monitoring of load conditions of AC or DC motors while running
- Help prevent overloading and motor burnout
- Three-color segmented scale for easy reading
- ±2% accuracy
- Must be used with appropriate current transformer (AC type) or shunt and potentiometer (DC type). Not furnished with units
- UL Recognized (E91015N)

## E ELAPSED TIME METERS

- 0.1% of reading accuracy (per 24 hrs.)
- Non-resettable
- Maintain life and performance records based on operating time
- Used extensively on generators, gasoline and diesel engines, computers, copy machines, telephone equipment, production lines

## ANALOG PANEL METERS

| Key | Dimensional Diagram† | Size (In.) | Range | Simpson Model | | Stock No. | Each | Shpg. Wt. |

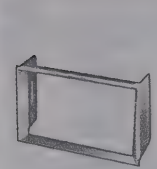
| E | 13 | 1½ | 99,999.9 (117 VAC) | 03622 | 1T874 | 34.50 | 0.3 |



(*) Dual set point relays included. (†) See below for mounting dimensions. (**) External 5 Amp current transformer required. (‡) Round shape. (***) Load meter must be used with its appropriate current transformer (AC type) or shunt with DC model not furnished with unit. Rule of thumb on DC units: Multiply load motor rating on back panel of motor by 1.25. For AC models multiply by 1.5. (††) Single set point relay included.

| 400 | 5 | 01305 | 1W710 | 35.00 | 0.8 |
| 500 | 5 | 01301 | 1T853 | 34.50 | 1.0 |
| 600 | 5 | 02303 | 1W724 | 35.00 | 0.8 |
| 750 | 5 | 02459 | 1W734 | 43.00 | 0.8 |
| 1000 | 5 | 02304 | 1W731 | 59.95 | 0.8 |

## AC TO DC CURRENT TRANSDUCERS

- For use with 4-20mADC digital panel indicators and controllers to measure higher levels of AC current
- 24V DC power required; can be from meter excitation output
- Terminals are No. 10-32 brass screws with flatwasher and lockwasher

| Range Primary | Range Secondary | Simpson Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 5 AC A | 4-20 DC mA | 37000 | 1X135 | $235.00 | 1.6 |
| 50 | 4-20 | 37001 | 1X137 | 263.00 | 1.6 |
| 100 | 4-20 | 37003 | 1X139 | 279.00 | 1.6 |
| 150 | 4-20 | 37004 | 1X141 | 289.00 | 1.6 |
| 300 | 4-20 | 37006 | 1X143 | 312.00 | 1.6 |

## METAL TRANSITION RTD ASSEMBLY

- Rugged 316 stainless steel probe resists corrosion
- 48 inches of FEP Teflon-coated wire and stripped leads
- Maximum operating temperature 1600° F
- .118 dia. x 12" long

| Type | Material | Simpson Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| RTD Pt100 | 316 SS | 21244 | 3LW50 | $149.00 | 0.4 |

## COMPRESSION FITTINGS

Used to mount RTD assembly at a given depth, or to mount a thermocouple head on an assembly. Can be applied to any point along a sheath. Single-threaded. 3/16" O.D. 1/8" NPT connection.

| Type | Length (In.) | Simpson Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| Non-Adjustable | 1¼ | 21237 | 3LW49 | $23.95 | 0.1 |
| Adjustable | 1¼ | 21253 | 3LW51 | 23.95 | 0.1 |

## EXTERNAL PORTABLE AND SWITCHBOARD SHUNTS

- For use with DC panel mount and switchboard ammeters where external shunts are required
- Adjusted for 50 mV drop
- Portable shunt has phenolic base

| Range | Simpson Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|
| **PORTABLE MODELS** | | | | |

## BEZEL KITS

- Provides attractive, modern finish for analog panel meters
- Die cast with black satin finish
- Designed for behind panel mounting

| Meter Size (In.) | Simpson Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|
| 3½ Wide-Vue | 01253 | 1W697 | $16.50 | 0.3 |
| 4½ Wide-Vue | 01123 | 1W695 | 18.50 | 0.4 |
| 3½ Tru-Vue | TV3BK | 1X453 | 13.00 | 0.3 |
| 4½ Tru-Vue | TV4BK | 1X463 | 16.00 | 0.4 |

## SPLASH-PROOF COVER

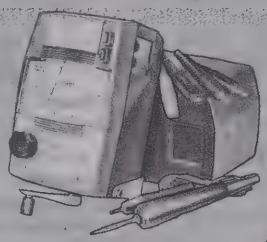
- Fits 1/8 DIN Simpson panel meters and controllers
- Provides NEMA 4 protection against dust and water in rough industrial conditions
- Easily removed for access to meter buttons

**No. 2T912.** Simpson Model 45003. Shpg. wt. 0.3 lbs.
Each ..... $37.00

Measure it, record it, calibrate it — You'll get it right with Grainger.

# HAND-CRANKED AND BATTERY-OPERATED MEGOHMMETERS

TEST INSTRUMENTS

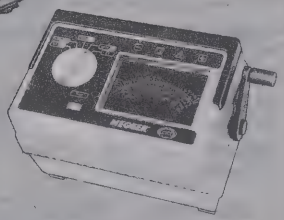


Megohmmeters can be used to detect insulation deterioration caused by moisture, corrosion, dirt, or normal aging. Also, for all types of electrical maintenance tests on cables, motors, generators, electronic components, and wiring circuits. Hand cranked models do not need batteries, providing reliability even in cold temperatures. Always consult user manual and applicable local electrical and safety codes prior to use.

AMPROBE INSTRUMENT

FREE DELIVERY on orders of $900 or more
See Freight Policy

## A AMPROBE Nos. 1T039 & 1T041

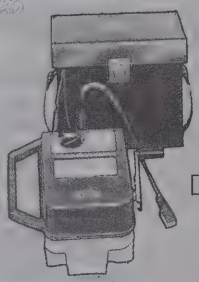


- Constant voltage generator
- Accuracy (typ.): ±5% (0.1 to 50MΩ)
- High impact housing
- Megohm and low ohm ranges
- Rugged cross coil movement
- Supplied with test leads and carrying case

A No. 1T039

## B BIDDLE No. 3T841 MAJOR MEGGER®

- For safe testing of sensitive electronic components
- Accuracy (typ.): ±1.25% of scale length
- Continuity range up to 5000 ohms
- Lightweight, only weighs 2.25 lbs.
- Easy-to-read white-on-black scale uses no multipliers
- Impact-resistant housing
- Safety check, AC voltage range with automatic discharge
- Supplied with carrying case and test leads

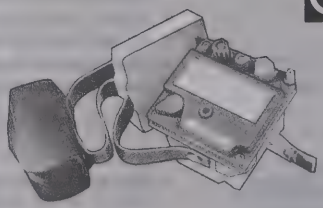


B No. 3T841

BIDDLE INSTRUMENTS

## C BIDDLE No. 3T843 MAJOR MEGGER®

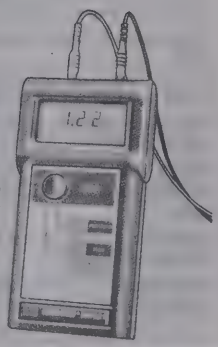
- Extended range up to 20,000 megohms for high-grade insulation testing
- Accuracy (typ.): ±1.25% of scale length
- Lightweight, only weighs 5 lbs.
- Molded handle for easy grip
- Supplied with test leads and rigid vinyl case



C No. 3T843

## D AEMC No. 2T600

- Designed to withstand harsh marine environments
- Brushless alternator with solid state rectifier
- Constant test voltage across entire range
- Fuse protected on ohms range
- Aluminum alloy case and lid sealed against water and dust
- 3 test voltages
- Accuracy (typ.): ±2.0% of full scale
- 3 terminal guard lead system for stable reading
- Supplied with test leads, strap and lead pouch



AEMC® INSTRUMENTS

D No. 2T600

## E AVO Nos. 4TM47 & 4TM48

- Continuity range measures down to 0.01Ω to assist fault finding in electrical circuits
- Automatic discharge of the item under test to safe levels
- "V" symbol flashes if more than 25V AC or DC are present to prevent contact with dangerous voltages
- Single test voltage avoids accidental application of excessive volts
- Automatic power down after five minutes inactivity to preserve battery life

# BATTERY-OPERATED MEGOHMMETERS

Megohmmeters can be used to detect insulation deterioration which can be caused by moisture, corrosion, dirt, or normal aging. These instruments are ideal for all types of electrical maintenance tests on cables, motors, generators, as well as tests on electronic components and wiring circuits. Always consult user manual and applicable local electrical and safety codes prior to use.

## [A] SUPCO No. 3T105 MEGOHM TESTER

- Full range scale up to 1000 megohms
- Inexpensive alternative to taut band type megohmmeters
- LED display
- Includes test leads with alligator clips, carrying case
- Requires two 1.5V "C" batteries (not included)

## [B] B&K Nos. 3GD33, 3GD34, and 3GD35

- Accuracy (typ.): ±5% of reading
- Built-in battery check
- Includes 6 "AA" batteries, carrying case, test leads, and instructions

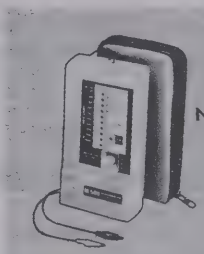
## [C] AMPROBE No. 3T243

- Accuracy (typ.): ±5% FS
- Mirrored scale
- Fuse protected
- Voltage test range AC/DC
- Automatic discharge
- Rugged taut band meter movement
- Includes test leads, carrying case, adapter clips, and fuse
- Requires 8 "AA" batteries (not included)

## [D] AMPROBE No. 6T372

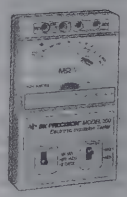
- Accuracy (typ.): ±3% of reading, ±2 digits
- Built-in timer and signal automatically performs dielectric absorption ratio test
- Sampling rate of no less than 2 times/second
- Audible and visual indication in the auto mode
- Automatic shut-off after 3 minutes
- Requires 6 "AA" batteries (not included)
- Includes test leads, alligator clips, and carrying case

## [E] BIDDLE No. 3T847 ANALOG MEGGERS®



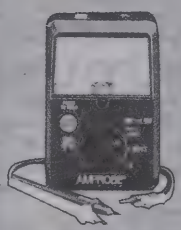
- For single-voltage spot testing
- Accuracy (typ.): ±2.5% of scale length
- Automatically discharges capacitive circuits
- Automatically indicates voltage if connected to an energized circuit
- All models supplied with test leads, "9V" battery, fuse and case

## [F] BIDDLE No. 3T850 ANALOG/DIGITAL MEGGER®



- Accuracy (typ.): Analog ±1.5% of scale length; Digital ±2% of rdg. ± 2 digits
- Analog and digital LCD display
- Analog scale gives a rapid indication of insulation condition or permits monitoring of variable measurements as experienced with capacitive test specimens
- 3 digit digital display provides easy to read, precise measurement
- Automatic discharge of capacitive circuits
- Audible continuity indicator
- Visual warning of connection to energized circuit exceeding 25V
- Includes test leads, 6 "AA" batteries, two fuses and case

## [G] AEMC No. 3JD09



- Accuracy (typ.): ±5% of reading
- Compact, lightweight, designed for use in harsh environments
- Fuse protected input
- Built-in self battery test
- True Megohmeter® constant test voltage
- Complies with IEC, UL, CSA, GS, VDE standards
- Includes shock-proof rubber housing, case, test leads and alligator clip, 4 "AA" batteries, and manual

# BATTERY-OPERATED MEGOHMMETERS

## [A] B&K PRECISION No. 3GD36

- High-accuracy digital readout
- Accuracy (Typ.): 1.5%
- Integral water resistant carrying case stores test leads

## [B] BIDDLE Nos. 3T852 & 3T853 MAJOR MEGGER® SERIES

- Accuracy (typ.): ±1.25% of scale length
- Lightweight, weighs 2.25 lbs. or less
- Dual operation model No. 3T853 operates off internal rechargeable battery or line power for long-term or in-shop testing
- Easy-to-read white-on-black scale uses no multipliers
- Impact-resistant safety yellow case
- 6 "AA" alkaline (No. 3T852) or NiCad (No. 3T853) batteries
- Includes test leads, batteries, internal charger and rigid vinyl carrying case

## [C] BIDDLE No. 3T854 DIGITAL AUTORANGING MEGGER®

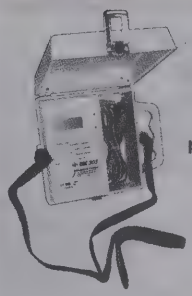
- Autoranging on four insulation ranges to 5000 megohms
- Autoranging on four continuity ranges to 5000KΩ
- Accuracy (typ.): ± 2% RDG ± 2 digits
- 3½ digit LCD shows reading plus units of measurement
- Tone indicator sounds for range changes, providing fast measurements
- Tone also indicates the presence of low resistance or high voltage, providing greater safety to user
- Includes test leads, 6 "AA" alkaline batteries, and carrying case

## [D] BIDDLE No. 3T856 BENCHTOP MEGGER® TEST SET

- All-purpose test set recommended for benchtop applications requiring high sensitivity up to 200GΩ
- Accuracy (typ.): ±2% + 2 digits
- Low-voltage range (50V DC) ideal for safe testing of sensitive electronic components
- Pushbutton testing with safety interlock switch for 1000 volt operation
- Includes 6 "AA" batteries, leads, prods, clips, and protective cover

## [E] BIDDLE No. 3T857 MEDIUM-DUTY MEGGER® TEST SET

- Ideal for field tests where high voltage tests at high sensitivity are required
- Accuracy (typ.): ±1.5% of scale length at 68°F (20°C); scale is 4.84" long
- Completely portable
- Direct reading to 100,000MΩ
- Test button can be locked for extended test periods
- Safety voltmeter acts as a capacitive discharge monitor
- Guard terminal prevents surface leakage errors
- Complete with NiCad battery pack, built-in charger and charger cord
- Includes (3) 10 ft. test leads and case



## [F] AEMC Nos. 2T593 & 2T594 MEGOHMMETERS

- Fast charging circuit for high capacitance samples
- Accuracy (typ.): ±5% of reading
- Lock-on switch for hands-free testing
- Fuse protection built-in
- Includes test leads, spare fuse, case and eight 1.5V "AA" alkaline batteries
- Dual operation, batteries or AC module
- AC Module not supplied; order No. 2T604 AC module listed below

## No. 2T604 AC MODULE

- For use with Nos. 2T593 and 2T594

**No. 2T604.** AC Module.. Shpg. wt. 2.4 lbs.

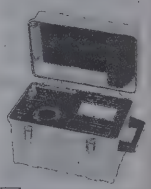
# BATTERY AND LINE-OPERATED MEGOHMMETERS, INSULATION BREAKDOWN & DIELECTRIC TESTERS

## BATTERY-OPERATED MEGOHMMETERS

### [A] EXTECH No. 3ZH75

- Accuracy (typ.): ±3% + 5 digits
- 0.65" Digital LCD display
- Power lock for 3 minute test
- Auto power-off and data hold functions
- Includes 6 AA batteries, 30" test leads and case with neckstrap

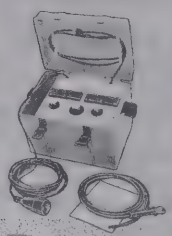


### [B] AEMC No. 3JD08

- Accuracy (typ.) ± 5% of reading
- Rugged, weather-proofed field case
- Fuse protected input, 600V safety test range
- Rechargeable battery with low battery indicator
- Built in clock/timer, earth and guard terminals for stable reading
- Complies with IEC, UL standards
- Includes Ni-Cad battery, set of three leads, AC line cord and manual

[A] No. 3ZH75

EXTECH INSTRUMENTS



[B] No. 3JD08

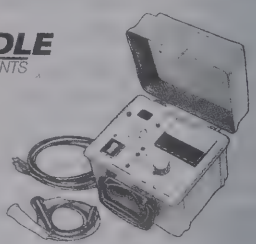
## LINE-OPERATED MEGOHMMETERS

### [C] [D] BIDDLE Nos. 3T859 & 3T860

- Accuracy (typ.): 2% FS
- Variable test voltages up to 5kV for No. 3T859 and up to 15kV for No. 3T860
- Highly sensitive to 100,000MΩ for No. 3T859 and up to 300,000MΩ for No. 3T860
- Line-powered for extensive testing
- Circuit breaker protected
- Light enough to hand-carry
- Supplied with ground lead and shielded high voltage lead
- Impact resistant case with removable lid, lead storage space, and adjustable carrying strap

[C] No. 3T859

BIDDLE INSTRUMENTS



[D] No. 3T860

## INSULATION BREAKDOWN TESTERS

- Performs withstand tests to meet UL specifications
- Accuracy (typ.): ±2% of meter scale
- Suitable for production, maintenance or lab applications
- Visual and audible failure indications
- Adjustable leakage current 0.3mA-12mA AC, 0.43mA-17m A DC
- Packed with safety features: automatic failure shutdown, recessed high voltage connections, push-to-test switches and interlocked ground circuit
- Nos. 3T874 and 3T875 have three-prong NEMA 5-15R receptacles

BIDDLE INSTRUMENTS

No. 3T874

| Output Voltage Range | Max. Ouput Current | Biddle Model | Stock No. | Each | Shpg. Wt. |

## DIELECTRIC TESTERS

- Multi-range voltmeters and microammeters to measure leakage current down to 0.1mA
- Accuracy (typ.): ±2% of meter scale
- Contin. variable output voltage with excellent resolution
- Fast-charging of high capacitance samples
- Protected against overloads or test sample breakdown
- Includes 10 ft. 3 wire input line cable, 15 ft. shielded HV output cable with guard terminal and heavy spring clip, and 10 ft. ground connection cable with heavy spring clip

# MILLIOHM METER, MICRO OHM METER AND EARTH/GROUND RESISTANCE TESTER

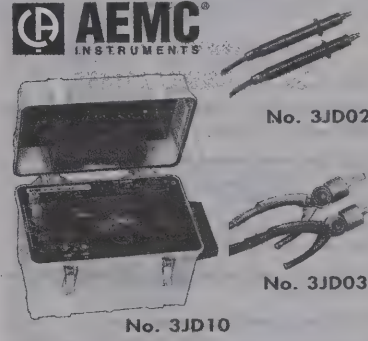
## PRECISION MILLIOHM METER

- Accuracy (typ.) ± 0.75% of reading
- Measure resistance of motor coils, transformers and printed circuit board layout. Aerospace composite repair, weld testing (ground systems)
- 5 Resistance ranges: 200mΩ/2000mΩ/20Ω/200Ω/2KΩ: smallest resolution on 200mΩ range 100μΩ
- Large 0.7" (18mm) LCD 1999 count
- 4-wire cables with Kelvin clip connectors
- Manual zero display adjust
- Overange indication
- Built into compact, durable field service housing with protective cover
- Wide operating conditions: 32-122°F < 80% RH
- Complete with Kelvin clip connectors and power cord built into case

New

EXTECH INSTRUMENTS

No. 4PC52



**No. 4PC52.** Extech brand (380460). Shpg. wt. 2.7 lbs. Each .....$349.00

Always consult user manual and applicable local electrical and safety codes prior to use.

## MICRO OHM METER

- Accuracy (typ.) ± 0.25% of reading
- Resistance range (Ohms): 2000μ/20m/200m/2000m/20/200.
- Test current: 10A/1A/1A/100mA/10mA/10mA
- Rugged, weather-proof field case
- Rechargeable battery with low battery indicator
- Four terminal Kelvin resistance measurement
- Complies with IEC, UL standards
- Includes Ni-Cad battery, AC line cord and manual
- Test leads sold separately below

**No. 3JD17.** Carrying bag. Will hold all 3 sets of leads. AEMC brand (211.32). Shpg. wt. 0.4 lbs. Each.....$56.90

## EARTH/GROUND RESISTANCE TESTER

Earth/ground resistance testers are used to determine the resistance of earth surrounding a ground rod. Used to check grounds to determine compliance with NEC, OSHA and other specifications. Always consult user manual and applicable local electrical and safety codes prior to use.

- Accuracy (typ.): ±1.5% + 0.1Ω on 1.0 to 50.0Ω range
- Clamp-on measurement of ground resistance and current without disconnecting any conductors
- Digital auto-ranging display
- Reading hold switch
- Battery life indicator and auto shut-off
- Rugged Lexan jaws accommodate 1000 MCM cable
- Includes carrying case calibration test loop, "9V" battery and manual

AEMC® INSTRUMENTS

## EARTH/GROUND RESISTANCE TESTERS

Earth/ground resistance testers are used to determine the resistance of earth surrounding a ground rod. Used by electrical contractors, power utilities, telephone and CATV technicians, and inspectors who check grounds to determine compliance with NEC, OSHA, and other specifications. Always consult user manual and applicable local electrical and safety codes prior to use.

### Ⓐ BIDDLE No. 3T865

- Accuracy (typ.): ±2% FS (100Ω)
- "READ/OFF/CHECK" switch for quick and simple testing
- For three-terminal fall-of-potential measurements or two-terminal reference checks
- "CHECK" switch to verify probe resistance and continuity
- Easy-to-read analog scale requires no multipliers
- Molded handle for easy grip
- Requires no zero or calibration adjustment before testing
- Comes with 4 "C" alkaline batteries
- Requires the use of No. 3T868 ground kit; order separately

### Ⓑ AEMC No. 2T597

- Accuracy (typ.): ±3% of range
- Built-in battery check
- Direct reading—4.9" easy-to-read linear scales
- Rugged taut band meter movement, 25Ω mid scale
- Built-in calibration switch compensates for temperature variations, high auxiliary rod resistance, and battery voltage drops
- 3-terminal fall-of-potential method
- Includes three 1.5V "AA" batteries
- Requires the use of No. 2T603 ground kit; order separately

### Ⓒ BIDDLE No. 3T867

- Accuracy (typ.): ±2% of rdg. ±3 dig
- Four-terminal method allows for soil resistivity measurements
- Versatile resistance range from 0.01 to 19.99K ohms for simple to complex applications
- Warns of interference from excessive noise or high probe resistance to ensure greater accuracy
- Includes rechargeable batteries with internal charger
- Requires the use of 3T869 ground kit; order separately

### Ⓓ AMPROBE No. 4JZ30

- Accuracy ± 2% of reading ±2 digits
- Measures earth ground resistance (Ω)
- Water resistant unit is autoranging, with 100 memory locations
- Powered by 4 D batteries (not supplied)
- RS-232 download
- Includes: 4 measuring rods and cables, safety test lead, RS232 interface cable, software, soft carrying case and instructions

### PORTABLE EARTH/GROUND RESISTANCE TESTER SPECIFICATIONS AND ORDERING DATA

| Key | Ground Resistance Range (Ω) | Resolution (Ω) | Operating Frequency (Hz) | Measuring Current (mA) | Earth Voltage (AC) | Power Supply | Display | Mfr. | Mfr.'s Model | Stock No. | Each | Shpg. Wt. |

BIDDLE INSTRUMENTS

C No. 3T861
Tool/Appliance Tester

AMPROBE INSTRUMENT

F No. 3JD11
Artificial Neutral

## D DIGITAL LEAKAGE CURRENT CLAMP-ON AMPROBE No. 3JH49

- Measures AC leakage current, AC low current, AC voltage
- Used to determine presence of current on ground panel conductors
- 0.01-20mA AC range
- Data hold, 3½ digit LCD, 40 Hz to 1 KHz Frequency response on 0-500V AC range
- Batteries last about 100 hours
- Includes carrying case, test leads, two AA batteries, and instructions

**No. 3JH49.** Amprobe brand (DLC-100). Shpg. wt. 1.6 lbs. Each.....$486.00

## A AC CURRENT LEAKAGE TESTER SIMPSON No. 1T809

- For measurement of leakage current in 120/240V AC appliances and electrical equipment in accordance with ANSI C101.1-1992, IEC 990 and UL 1459
- Leakage current: .3, 1, 3, 10 M.I.U.
- Frequency response current (unweighted): 0-100 mA RMS
- Accuracy: ±2% F.S. @ 60 Hz

**No. 1T809.** Simpson brand (228). Shpg. wt. 3.5 lbs. Each.....$549.00

## B EXTECH AC LEAKAGE CURRENT TESTER No. 4KC26

- Large shielded clamp jaw (1.2") measures to 10µA resolution
- 4 digit 4000 count LCD with fast (50ms) bargraph transients display
- 50/60Hz filter minimizes high frequency noise and harmonics
- Five AC current ranges; 40mA, 400mA, 4A, 40A, 60A
- Accuracy (typ.): ±(1.0% ± 3 digits)
- Wide frequency response 40Hz-1KHz
- AC voltage (400V) and resistance (400 Ohms) functions
- Automatic power off with override and low battery indicator
- Max/Min and Data Hold with Push-button zero
- Complete with two 1.5V AA batteries, test leads and carrying case

**No. 4KC26.** Extech brand (380943). Shpg. wt. 1.0 lbs. Each.....$299.00

## C TOOL/APPLIANCE TESTER BIDDLE No. 3T861

- For performing electrical safety checks to reduce possibility of shock hazard
- Three-in-one instrument tests ground continuity, leakage and insulation breakdown, plus operational test
- Complete UL and ANSI testing in less than one minute
- Maintains compliance with OSHA safety regulations
- Ground checks: 3V AC, 25A, 0.10Ω pass/fail threshold
- Leakage test: 0-10mA AC
- Insulation breakdown test: 0-3 KVAC, 0.3-12mA
- Operational test: 15A AC max.
- Provides meter readings for current and voltage
- Meets UL 45 testing requirements
- Easy to use; color coded panel leads you through test
- Audible and visual failure indications
- Completely self-contained for easy portability
- Front panel NEMA 5-15 output receptacle, with adapters available to convert to a 20 ampere plug or twist lock up to 30 amperes
- Operates on 120V AC, 60 Hz

**No. 3T861.** Biddle brand (235303). Shpg. wt. 34.0 lbs. Each.....$2960.00

## E GROUND FAULT/CURRENT LEAKAGE DETECTOR AEMC No. 3JD06

- Accuracy (typ.) ± 0.5% of reading
- Clamps around conductor without interrupting AC service
- Works with digital multimeters having AC mV range
- For use on grounded single and three-phase systems
- Ungrounded systems require optional artificial neutral 3JD11
- Optional carrying case (No. 3JD16)
- Current range: 500µ to 6A; 500mA to 200A

**No. 3JD06.** AEMC brand (1201.42). Shpg. wt. 4.0 lbs. Each.....$749.00

**No. 3JD16.** Carrying Case. AEMC brand (2118.09). Shpg. wt. 2.0 lbs. Each.....$59.95

## F AEMC ARTIFICIAL NEUTRAL No. 3JD11

- For use with No. 3JD06 ground fault detector
- Generates artificial neutral conductor for measurement of fault current on 3 wire systems
- Internal buzzer sounds when neutral connection is grounded
- Three LEDs indicate the presence of voltage on each phase
- Includes four 5 ft. leads with detachable clips, eight AA batteries and carrying case
- Voltage range: 30-600V; frequency: 45-65Hz; phase resistance: 3.9 KΩ ± 5%; power supply: eight AA batteries

**No. 3JD11.** AEMC brand (1971.01). Shpg. wt. 5.0 lbs. Each.....$649.00

FULL LINE OF AMPROBE CASES, TEST LEADS AND ACCESSORIES

## A AMPROBE ROTARY SCALE, ANALOG CLAMP-ON METERS

- Rotary volt and amp scales show one range at a time
- Accuracy (typ.): ±3% FS
- High-energy protection; 600V fusing provides additional protection for user and meter
- Unbreakable magnifying window
- Pointer lock "freezes" pointer at reading
- No. 1T008 and No. 1T009 have manual-set surge indication capability. Measures motor starting currents and voltage increases lasting 1/6 second or longer
- Includes carrying case and leads
- No. 1T010 includes extendo leads and deluxe carrying case
- No. 6T263 features drop-proof construction and 3500V case breakdown voltage
- Prepackaged electrical service kits include:

**No. 1T589** includes No. 4X221 meter, current extender to 1200 amps, pencil-type leads, alligator clip, line splitter, and master carrying case

**No. 1T018** includes No. 4X221 meter, current extender to 1200 amps, pencil-type leads, alligator clip, line splitter, master carrying case, and 3-phase line sequence indicator

**No. 1T019** includes No. 4X221 meter, pencil-type leads, alligator clip, line splitter, and front fold case

## B AMPROBE FLAT SCALE, ANALOG CLAMP-ON METERS

- Drop-proof up to 5 ft.
- Accuracy (typ.): ±3% FS
- Ohmmeter fused to 250V AC
- Average sensing, RMS calibrated
- Pointer lock
- Temperature measurement capability with optional temperature probes
- Includes test leads. Requires one "AA" battery (not supplied)
- No. 2T967 includes carrying case

(*) Requires one "AAA" battery, not supplied.

## AMPROBE ENERGIZER/LINE SPLITTER

- Increase current measuring sensitivity of clamp-ons by 10 times for more precise current readings on small appliances and fractional horsepower motors
- 15 amp capacity
- "Splits" two-conductor line cord for readings at outlets under load
- Permits voltage measurement at outlet under actual conditions
- Ground adapter No. 1T691 (not supplied) for No. 1T073 enables energizer to maintain existing equipment ground while taking current measurements on 115V AC/15A equipment
- No. 1T073 includes carrying case and adapter that permits series connection of energizer for low current readings on permanently wired equipment

**No. 1T073.** Line Splitter. Amprobe brand (A-47L). Shpg. wt. 0.3 lbs. Each.....$32.85

**No. 1T691.** Ground Adapter. Amprobe brand (ADP-46). Shpg. wt. 0.3 lbs. Each.....$15.25

AMPROBE INSTRUMENT

No. 1T691 Shown With No. 1T073

EXTECH INSTRUMENTS

No. 3ZH94

## EXTECH THREE-WIRE AC LINE SEPARATOR

- Allows clamp meter measurements of AC current on power cords to 15 amps
- Separates high conductor from neutral and ground
- Two cavities: X1 for direct readings, X10 for increased sensitivity
- Simultaneous check for high/neutral voltage

**No. 3ZH94.** Extech brand (480172). Shpg. wt. 0.3 lbs. Each.....$15.00

EXTECH INSTRUMENTS

No. 4PC56

**B & K Nos. 1T149, 1T150, 3GD37, and 3GD38**

- Accuracy (typ.): 1T049 ± 1.5% reading ± 5 digits; 1T150: ± 1.5% RDG ± 5 dig; 3GD37: ± 1.5% RDG ± 5 dig; 3GD38: ± 1.5% RDG ± 5 dig
- Analog bar graph on 1T150, 3GD37
- Data hold on all, peak hold on Nos. 1T150, 3GD37, and 3GD38
- Min/Max on 3GD37
- Includes test leads, battery, carrying case and instructions
- 1T150 measures frequency (with test leads): 320 Hz / 3.2 KHz / 32 KHz
- 3GD37 measures frequency (with test leads): 100 Hz / 1 KHz / 10 KHz / 100 KHz / 400 KHz
- 3GD37 capacitance: 4nf / 40nf / 400nf / 4μf / 40μf

**EXTECH AC/DC CLAMP-ON AMMETERS Nos. 4KC22, 4KC23, 4KC24, 4KC25, and 4TM12**

- 4TM12, 4KC24, and 4KC25 measure temperatures to 1400°F with K-type thermocouple
- 4KC22 and 4KC23 have a 200mV DC range
- Resistance measurements plus diode check, overload protection in all ranges
- No. 4TM12 includes true RMS and temperature functions
- Adjustable zero, data hold and peak hold for recalling in-rush current
- Hand-guard complies with IEC-1010-1 safety requirements
- Includes 9V battery, test leads, carrying case and bead wire thermocouple probe (for Nos. 4TM12, 4KC24 and 4KC25)

**EXTECH No. 4PC53**

- 200A mini clamp digital multimeter
- Economical DC/AC current clamp-on
- AC current measurements to 10mA, DC current to 100mA
- Accuracy (Typ.) ±1.2% ±5 digits
- Bright 0.5" (1999 count) LCD with data hold
- Low battery and over-range indication
- Includes test leads, battery, and case

**EXTECH No. 4PC56**

- 200A mini clamp digital multimeter
- DC/AC current measurements to 10 mA plus voltage, frequency and resistance
- Accuracy (Typ.) ±1.0% ±2 digits
- 4000 count full function LCD with 40 segment bargraph
- Auto zero for DC current, data hold, Min/Max recall, and continuity check
- Includes case, test leads, wrist strap, and two "AA" batteries

**EXTECH No. 4PC57**

- Clamp meter with true RMS measurements on distorted waveforms up to 400A
- 1mA AC or 10mA DC resolution plus 0.1Hz
- Accuracy (Typ.) ±1.5% ±7 digits
- Full function 0.5", 3¾ digit (3999 count) LCD with data hold and Min/Max recall
- Non-contact frequency measurements to 1Mhz
- One touch auto-zero for DC current
- Low battery and over-range indication
- Includes two "AA" batteries and case
- Mini size for portability

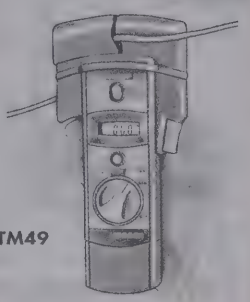
**ORDERING HAS NEVER BEEN EASIER!**

Whether you phone, fax, write or stop by your local branch to place an order, Grainger can tailor sales terms to meet your needs. Ask about establishing an open line of credit or pay with your VISA, MasterCard, or American Express card.



# CLAMP-ON METERS

## MEGGER® Flexicamp® CLAMP-ON-METER

- Eliminates the requirement of splitting cable or removing covers
- Operates as both a "traditional" single-wire and unique multi-wire current clamp-on meter
- Measures current, voltage and resistance
- Includes a "data hold" feature for making measurements in awkward locations
- Complies to IEC1010-2-032 Category III international safety standards
- Measures current in one-, two- or three-wire cables

Circuitry of No. 4TM49 eliminates zeroing effect in multi-conductor cables requiring cable be split to get a proper current reading. Use in applications where current needs to be measured without breaking circuit or splitting cables. Can also be used as a traditional single-wire clampmeter for general maintenance work in electrical machinery and installations.

## FLUKE® DIGITAL CLAMP-ON METERS

FLUKE

No. 3LV92

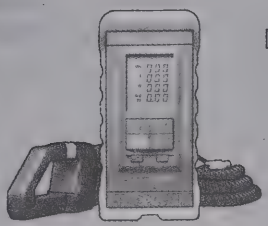
No. 1W550

No. 6T127

FLUKE Nos. 3LV91 and 3LV92
- Accuracy (typ.): 1.0% + 3 digits DC volts to 600 V maximum, 1.9% DC current to 1000A maximum
- Maximum hold button captures readings - use for motor starting current applications
- Includes soft case, 9V battery, test leads, and manual
- No. 3LV91 same as 3LV92, but includes NIST certified calibration

FLUKES Nos. 5U836 and 1W550
- General purpose meter measures AC current, voltage, resistance and continuity
- Display hold button captures readings for later viewing
- Accuracy (typ.): 1.2% of reading ± 3 digits (AC volts)
- Low battery indicator
- Meets UL, CSA and TUV certification standards
- No. 1W550 same as 5U836 but true RMS
- Includes soft case, test leads and 9V battery

FLUKE Nos. 6T127, 6T128, 1W548 and 1W554
- Accuracy (typ.): ±2%
- Display hold
- Combination digital/analog display 10,000 count LCD
- Frequency capability: 0.5 Hz to 10KHz
- Beeper provides audible feedback
- Clip on holster No. 6T201 included replacement holster available, see Index
- Auto and manual ranging
- Includes 9V batteries



Nos. 6T128 and 1W554 Only:
- Crest-Instantaneous peak current readings
- Records maximum, minimum and average frequency or RMS current
- 3 second running average of RMS current or frequency
- 1W548 same as 6T127 but NIST traceable calibration included
- 1W554 same as 6T128 but NIST traceable calibration included

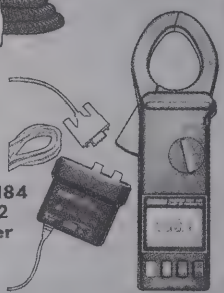
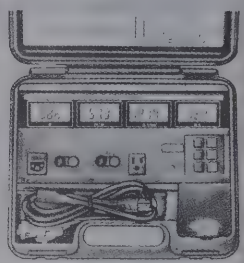
# WATTMETERS, DATALOGGING WATTMETER AND POWER ANALYZERS

A No. 1A227

B No. 2T592



C No. 3ZH76



New

D No. 4PC54

No. 3ZH84 RS-232 Adapter

E No. 3ZH82

F No. 4KC20

## A TIF WATTMETER No. 1A227

- Reads true power
- Accuracy (typ.): ±2% reading ±1 digit
- For single, split and three-phase power sources
- Reads 0.01KW to 199.9KW
- Dual range for low and high kilowatts
- Includes 9V battery and carrying case

## B AEMC POWER METER No. 2T592

- Power 0-300KW
- True RMS measurements
- Displays amps, volts, power factor, KW, KVar, KVa, Hz
- Auto-ranging
- Peak and memory functions
- Single and three phase balanced power measurement
- LCD display shows four different measurements
- Accuracy (typ.): ±2%
- Includes holster, 500 amp c.t., voltage leads, test probes, 4 "AA" batteries and carrying case

## C EXTECH WATT METER DMM No. 3ZH76

- Measures true power up to 6000W. Includes test leads and 9V battery

## D EXTECH 400A DC/AC WATT CLAMP-ON No. 4PC54

- High resolution (10W or 100 mA) power clamp meter
- Measures AC/DC power, voltage, and frequency
- Large 4000 count LCD with 40 segment bargraph
- Basic DC Accuracy of 1.5%±3 digits
- 0.9" Jaw opening
- One-touch auto zero adjust for DC current
- Data hold, Max/Min recall, and low battery alert
- Includes two 1.5V "AA" batteries, test leads, and carrying case
- No. 4PC55 is the same as 4PC54 but includes NIST certification

## E EXTECH CLAMP-ON POWER DATALOGGER No. 3ZH82

- Measure true power, apparent power, power factor, current, voltage, resistance, continuity and frequency
- Display true RMS, volts, amps, watts, Max/Min and average
- Datalog up to 1600 measurements
- 4-Digit (10,000 count) LCD with 40 segment bargraph
- 1.8" jaw capacity, AC/DC to 1000A, 1000KW power
- Autorange/Manual override, diode test, continuity beeper
- Optional RS-232 adapter with PC software
- Optional 3-phase adapter for balanced or unbalanced loads
- Includes 9V battery, alligator clips, test leads and case

**No. 3ZH84.** RS-232 Adapter with Windows™ Software. Extech brand (382062). Shpg. wt. 0.6 lbs. Each.....$79.00

**No. 3ZH83.** 3-Phase Adapter. Extech brand (382061). Shpg. wt. 0.4 lbs. Each .....$79.00

## F EXTECH TRUE RMS POWER ANALYZER No. 3JC99 & POWER ANALYZER/ DATALOGGER No. 4KC20

- Accuracy (typ.): ± 0.9% ± 4 digits
- No. 4KC20 stores over 1000 records
- Four simultaneous displays of watts, PF or VA, V or Hz, amps
- Measure and monitor single-phase power, power factor, voltage, current, and frequency
- Supplied with RS232 interface and Windows based software to monitor readings on PC, display of KWH, phase angle, and print reports plus data manipulation
- Analyze single-phase device (appliance, PC, motor, etc.) power demands
- Connect device to be tested via standard wall socket or binding posts
- Includes Windows™ software, serial cable, 8 AA batteries, case, power test cord, AC adapter, and instructions

# AMPROBE KILOWATT-HOUR METERS

**Accuracy (typ.): ±1% (1-400 full load)**

**Pre-wired for easy installation**

**Digital display**

**Wide current range**

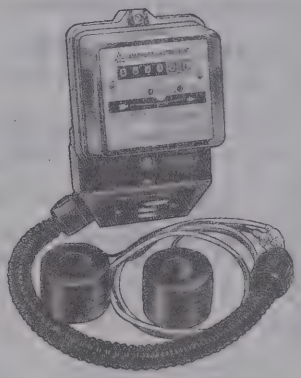
**Single and polyphase**

**Non-demand**

**Utility grade accuracy and reliability**

**6-digit cyclometer displays electromechanical measurement, even during power failures**

**Battery back-up to display memory is not needed**



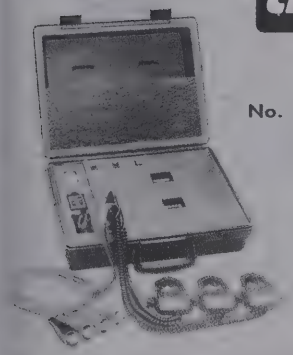
**Unbreakable poly-carbonate covers/non-combustible bases**

**25-Year Warranty—text of warranty available on request. See "Manufacturers' Warranties" on page opposite inside back cover**

**ilowatt-Hour Meters** are designed to meet the needs of building wners and contractors. Meters utilize a lower magnetic bearing hich reduces rotor friction, mimimizes wear, eliminates maintenance, and reduces tilt error. Quick slide interconnect plugs in the pre-wired bus, within the flexible conduit, to the industry standard current transformers. All corresponding interconects are labeled to simplify installation. An anti-reverse device included to prevent theft of energy. Amprobe brand.

Replacement Parts Available
1-800-323-0620

AMPROBE INSTRUMENT



No. 6B458

# TIF KILOWATT-HOUR METER

No. 1T967

- **Measures true power (KW) consumed at any instant, not apparent power (KVA)**
- **Combination kilowatt and kilowatt-hour meter**
- **Cumulative total of power used up to 10,000 KWH**
- **Accuracy ±2% at unity power factor above 90 volts input**
- **Electronic monitors warn of potential problems such as power interruption or input overrange**
- **Measures 3-phase unbalanced loads and 4-wire systems**
- **Battery back-up protects data up to 30 minutes**
- **0 to 2.5V DC analog output for chart recorders, data loggers or meters**
- **Use Datalogging Multimeter No. 1M964. See Index for listings**
- **LCD display reads KW, KWH and volts/amps; low battery indicator**
- **Clamp-on current transducers; use with any power factor**
- **Includes 60 Hz current probe, 3-phase volt probe, 115-9V adapter**
- **200 KW, 60 Hz**
- **90-530V AC**
- **1 to 500 amps AC continuous; max. 600 amps intermittent; 1.25" jaw capacity**
- **3½ digit LCD display**

No. 1T967. Tif brand (TIFKW220-3AV). Shpg. wt. 9.0 lbs. Each.....$980.00

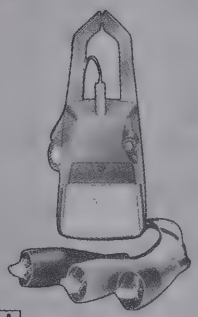
# POWER FACTOR METERS AND CLAMP-ON CURRENT TRANSFORMERS

## ANALOG MODEL

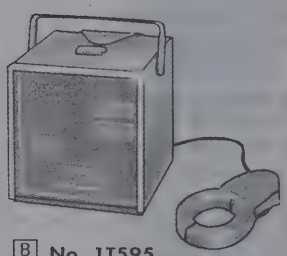
### [A] TIF No. 1T965

- Reads as low as 3 amps without connecting add-ons
- Accuracy (typ.): ±3% FS
- Indicating meter cannot be damaged when overranging
- Needs no batteries—self-powers from the "hot" line
- Includes carrying case and 3 voltage probes



## DIGITAL MODEL

### [B] AMPROBE No. 1T595



- Switchable LED readout indicates volts, amps, or power factor and allows determination of KVA, KW, KVAR and exact value of capacitance needed for power factor correction capacitors
- Accuracy (typ.): Volts—±1% of reading ±2 LSD; Amps—±2% of reading ±2 LSD
- Overrange and leading power factor indication
- Optional current transformers extend current range to 3600A (No. 1T082) or 6000A (No. 1T081); see Index for listings
- Supplied with clamp-on probes and 115V AC, 60 Hz line cord

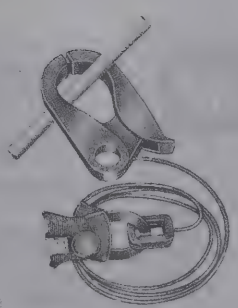
## CLAMP-ON CURRENT TRANSFORMERS



### AMPROBE DECA-TRAN®

- Extends current ranges by 10 times up to 1200 amps intermittent duty (20 seconds maximum)
- Accommodates cable up to 2" in diameter or 2000 MCM, and bus bar 3/4" x 2½"
- Insulated for use on circuits up to 3000 volts, 4200 volts peak accuracy is ± 3%
- Instrument clamps around pick-up coil at end of 2 ft. line cord

### AMPROBE AMPTRAN®

- Flexible-link, clamp-on current transformers extend the current ranges of Amprobe clamp-on instruments by 50 times
- With four link, 3600A intermittent (No. 1T082)
- With 6 link, 6000A intermittent (No. 1T081)
- Supplied with carrying case
- No. 1T081 with centering bars, and nonconductive wing nuts

HELPFUL GUIDES TO TERMINOLOGY AND TECHNICAL DATA ARE PROVIDED FOR MANY OF OUR PRODUCTS. SEE PAGES AT BACK OF CATALOG

# ANALOG MULTIMETERS

esigned for the maintenance and service of air conditioning, heating, refrigeration, ppliances, electric motors, electrical devices, and equipment. Always consult user manal and applicable local electrical and safety codes prior to use. Built for everyday use. nalog meters have a mechanical method of displaying the applied signal which is better than digital multimeters for observing changes, adjusting for peak or dip, and for istantaneous response.

## AMPROBE Nos. 1T034 to 1T036, 6B576, 6B577, and 1T032

- Taut band meter movement
- Accuracy (typ.): ±3% of full scale (V-DC), ±4% of full scale for No. 6B576
- Sensitivity: 10KΩ/V-AC, 30KΩ/V-DC (except No. 1T036 is 100KΩ/V-DC, No. 6B577 is 2000Ω/V-DC)
- Fuse protected; Nos. 1T036 & 6B577 can withstand momentary misapplicaton of 250V max.
- No. 1T035 is drop-proof
- No. 6B576 has 13 ranges including three battery test ranges
- Nos. 1T032, 1T034, 1T035 & 1T036 measure temperature with optional temperature probe (available thru Grainger Parts Operations)
- Unique features of No. 1T036: Mirrored, color-coded scale reduces parallax error; self-locking stand/handle; recessed glass window reduces scratches and static electricity
- Battery powered—Nos. 1T032, 1T034, 1T035 & 6B577 use one 1.5V "AA" (not supplied), No. 1T036 uses two "C" cells (not supplied), No. 6B576 uses one "AA" battery (included)
- Include all-weather test leads and fuse; No. 6B576 & 6B577 include test leads, one "AA" battery and instructions

## DON'T FORGET THE BACK OF THE BOOK! MANY CROSS-REFERENCE GUIDES AND INDEXES HELP MAKE PRODUCT SELECTION EASIER

Besides complete National Brand and Product Indexes, the back section of this catalog contains a Terminology and Technical Data Section as well as a handy Stock Number/Page Number Cross-Reference Guide. And don't forget, if you need assistance with product selection, help is as close as a call to your local branch.

# ANALOG MULTIMETERS

## [A] SIMPSON No. 1T811

- Self-shielding, taut band movement
- Accuracy (typ.): ±2% FS (V-DC)
- Sensitivity: 20KΩ/V-DC; 5KΩ/V-AC
- Shock and drop resistant multimeter
- Varistor protected from overloads
- Includes test leads and batteries

## [B] SIMPSON 260 SERIES

- External access battery and fuse compartment
- Accuracy (typ.): ±2% FS (V-DC)
- Sensitivity: 20KΩ(V-DC), 5KΩ(V-AC)
- Taut band; varistor protected movement
- AC frequency response to 100KHz
- Up to 250 amp AC capability with Amp-Clamp® Current Extender No. 2T416 or 2T978
- Nos. 1TC61 and 1TC62 feature yellow meter case for visibility and user safety awareness; ABS plastic provides high-impact protection
- UL Listed (E65244)
- Separate jack for 500V DC range
- Additional features (see Features Comparison Chart above)
- Includes "9V" and "D" cell batteries, test leads, and fuse; optional carrying cases for Nos. 1A587, 3T438, 1TC61, 1TC62, and 1T779 available below

**Exclusive Features No. 3T438:**

- Drop resistant construction
- Extra large viewing area
- 4 color keyed scales
- More ranges including lower power ohms

## SIMPSON FEATURE COMPARISON CHART

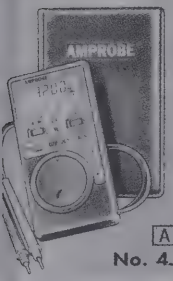
## VOLTAGE LEADS FOR SIMPSON METERS



Extra leads, fuses, and batteries extend the usefulness of your instrument. Accessories, depending on duty, can wear out, become lost or damaged, or may need replacement. Some instruments are even more versatile with optional accessories.

AMPROBE INSTRUMENT

Replacement Parts Available
1-800-323-0620

A No. 4JZ27

B No. 1T033

C No. 6B548

D No. 6B580

E No. 1T020

No. 6T058 Jaw Adapter

## A AMPROBE No. 4JZ27

- Shirt pocket size: 2.1W x 4.3H x 0.5" thick
- 32 Segment analog bar graph
- Accuracy (typ.): ± 0.7% of reading ± 2 digits
- Diode check and audible continuity
- Data Hold
- Includes two watch batteries (357), permanently attached non-replaceable leads, carrying case and instructions

## AMPROBE Nos. 6B582 and 1T033

- Accuracy (typ.): ± 1% of reading ± 2 digits
- DCV, ACV, DCA, audible continuity and diode test
- No. 1T033 measures frequency from 1Hz to 20MHz

## C AMPROBE Nos. 6B548, 6B550 and 6B551

- Accuracy (typ.): 6B548; ± 0.5% of reading ± 2 digits, 6B550; ± 0.8% of reading ± 1 digit, 6B551; 0.3% of reading ± 2 digits
- 6B551 only measures frequency from 0 to 1MHz, capacitance from 3.999mF to 39.99µF
- 6B550 is true RMS and average responding for comparison of readings due to harmonics
- All models come with leads, batteries, holsters and manuals

## D AMPROBE No. 6B580

- Accuracy (typ.): ±0.8% + 2 digits
- Auto and manual ranging
- Data hold button
- Diode test and continuity beeper
- Includes protective holster, tilt stand, test probe holders, battery, test leads and instruction manual
- Choice of Low or High power ohms
- Push button offset to compensate for lead resistance
- Auto power OFF

## ACCESSORY HEADS FOR 1T020

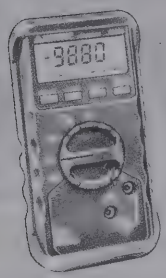
- Accuracy (typ.): ±0.7% of reading + 2 digits
- 3200 counts, 65 segment bar graph
- 3/8" LCD display, Auto power OFF
- Diode check and continuity beeper
- UL listed, CE certified
- Includes meter, test leads, case and 2 "AA" batteries

**No. 6T058.** Jaw adapter for No. 1T020. 300 AC amp capacity with 1.18" jaw opening. Accuracy (typ.): ±1.9%. Amprobe brand (PMM-C).
Shpg. wt. 0.4 lbs. Each.....$49.85

**No. 4JZ34.** Dual K-Type Thermocouple Transducer. -58 to 1832°F with optional K-probes. Amprobe brand (PRT-2).
Shpg. wt. 1.0 lbs. Each.....$94.85

**No. 4JZ35.** Relative Humidity Transducer. 10 to 95% range. Amprobe brand (PRH-2).
Shpg. wt. 1.0 lbs. Each.....$95.85

**No. 4JZ32.** Capacitance Transducer. 0.1 to 4200µF range. Amprobe brand (PCAP-2).
Shpg. wt. 1.0 lbs. Each.....$54.85



**No. 4JZ31.** DC Microamp Current Transducer. 1mVDC per 1µA. Amprobe brand (PMAP-Z).
Shpg. wt. 1.0 lbs. Each.....$19.85

# DIGITAL MULTIMETERS

AMPROBE INSTRUMENT

No. 4JZ23

No. 3JH46

No. 1T049

No. 3T249

Replacement Parts Available 1-800-323-0620

FULL LINE OF AMPROBE ACCESSORIES AVAILABLE

## AMPROBE Nos. 4JZ23, 4JZ24, 4JZ25 and 4JZ26

- Accuracy (typ.): ± 0.3% of reading ± 3 digits
- 50 mS record, max, min, max-min, average readings and analog bar graph
- Measures temperature (0 to 932°F), with 'K' type thermocouple (not included) continuity, diodes, relative mode/zero
- 4JZ24, 4JZ25 and 4JZ26 measure frequency (10Hz to 50KHz) and measure capacitance (1μF to 10mF)
- 4JZ26 has harmonics index(HIX) % value displayed, high HIX means presence of harmonics
- All meters include holster, test leads, 9V battery and instructions

## AMPROBE Nos. 1T049 and 3T249

- Accuracy (typ.): ± 0.8% of reading ± 1 digit
- Industrial quality with bench-top multimeter features
- No. 3T249 is true RMS and has backlit display
- Dual readings (AC voltage and frequency)
- 41 segment analog bar graph
- Read frequency from 5Hz to 4MHz
- Read capacitors from 4nf to 4mf
- Modes: record, max/min, max/min/ave, sort
- 3 year warranty
- Includes meter, test leads, holster, 9V battery and instructions

## AMPROBE No. 3JH46

- Accuracy (typ.): DC voltage ± 0.2% ± 2 digits
- Dual display on 8 ranges LCD
- 3¾ digit 4000 count, 4¾ 40,000 count
- Min/max average, store and recall
- Manual and auto-ranging
- Capacitance 4nf to 4mf
- Frequency 5Hz to 250KHz
- Bar graph
- Fuse protected, overload protected, auto off
- Audible continuity
- Includes 9V battery, holster, test leads and instructions

B&K PRECISION

No. 1T417

No. 3T059

## B&K PRECISION No. 1T417

- Accuracy (typ.): 0.7% of reading + 2 digits
- Continuity buzzer
- 32-segment bar graph
- 4.4H x 2.2W x 0.4"D
- Range hold
- Auto power OFF
- Data hold
- Over-range indicator
- 3200 count LCD display
- Includes test leads, batteries, case, and instructions

## B&K PRECISION No. 3T059

- Accuracy (typ.): ±0.5% reading + 1 digit
- Capability of 5 instruments in 1; volt-ohm-ammeter, capacitance meter, frequency counter, logic probe, transistor, and diode tester
- Impedance (typ.): 20MΩ
- Audible continuity beeper and Peak Hold™
- Low battery, polarity, and overrange indication
- Frequency counter range: 20 Hz to 4MHz
- Capacitance range: 4 nF to 40 mf
- Transistor gain ($h_{FE}$): 0-1000
- Includes detachable tilt stand, test leads, fuse, battery, and holster

# MULTIMETER SELECTION CONSIDERATIONS

**. Analog or Digital Multimeter?**

igital meters. Easy-to-read, high resolution displays reduce eading errors; accurate readings from a distance. Many meters rovide analog bar graphs to measure fast changing signals. eads accuracy as a percent of reading. Typical accuracies: ±0.1 0 0.5%. Electrical protection provided in current ranges by fuses nd input limiting on volts and ohms.

nalog meters. Best for observing changes, adjusting for peak or ip, and for instantaneous response. User needs to identify prop- r scale and determine exact needle location. Scale division lim- s resolution. Reads accuracy as a percent of full scale. Typical ccuracies: ±1.0 to 5.0%. Meters can be damaged while measuring n wrong mode or range.

**. Portable meter or stationary?**

ortable meters are either pocket size or hand-held. Pocket size eters are useful for quick reference and are generally less xpensive. Hand-held meters are more durable and accurate; usu- lly for more advanced applications.

tationary (benchtop) meters are used in applications that emand high accuracy. They are higher in price and usually offer dditional features.

**. What use/environment will you be working in?**

xample: There are meters made especially for harsh environ- ents or meters that can be read in dark areas.

**4. What ranges do you need?**

Example: Consider that some low-cost multimeters may have only one current range, limiting the use on some applications. Other meters may have an upper voltage limit of 750V to 1000V, depending on the model.

**5. What accuracy do you need?**

Example: Much of the cost of a meter is based on its accuracy. 0.7% accuracy is usually sufficient for field use while 0.04 to 0.1% is usually required for a lab environment.

**6. What special features do you need?**

Example: Autoranging—High-speed autoranging instantly selects the correct range and automatically places the decimal point; there is no need to choose manually from ranges per function. Touch Hold—Locks reading on display with an audible tone, even after removing test leads. Holds reading until a new reading is taken. Provides additional safety when the user must watch placement of test leads. Other features include O-Ring Sealed, Test Lead Storage, Holster... these are just a few.

**7. Is versatility valuable to you?**

Accessories extend the capabilities of multimeters for use in high voltage, current, power, and frequency applications. Some also allow for temperature measurement.

# DIGITAL MULTIMETERS

## [A] WAVETEK No. 4KC07

Accuracy (typ.): ±0.25% + 1 digit
Diode test
Data hold
Auto ranging and auto power OFF
Low battery indicator
6.7H x 1.7W x 1.6"D
Includes replaceable long and short probe tips, one black lead, alligator clip, attached soft case, battery, and instructions

## [B] WAVETEK No. 2A154

Accuracy (typ.): ±0.5% + 4 digits
Audible continuity
Data hold and Probe Hold™
Auto ranging and auto shut-off
Over range indicator
Records maximum voltage or minimum resistance
Low battery indicator
5.2H x 1.1W x 0.7"D
Includes test lead, battery, and instructions

## [C] WAVETEK Nos. 4JZ98 and 4JZ99

Accuracy (typ.): 0.8% + 1 digit
No. 4JZ98 is manual ranging; 4JZ99 is auto-ranging
Include permanently attached test leads, holster, 9V battery, and instructions

**FOR FEATURE COMPARISONS, SEE WAVETEK MULTIMETER SELECTION GUIDES ON NEARBY PAGE**

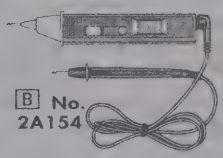
## [D] WAVETEK Nos. 4JZ95, 4JZ86, 4JZ87, and 4JZ88

- Accuracy:
  No. 4JZ95: 0.8% + 1 digit
  No. 4JZ86: 0.7% + 1 digit
  Nos. 4JZ87 and 4JZ88: 0.5% + 1 digit
- Audible continuity and diode test
- No. 4JZ86 includes safety tester that operates with or without the battery installed
- Nos. 4JZ87 and 4JZ88 include logic tester
- No. 4JZ88 measures capacitance to 20μF and has transistor tester
- All include a pair of test leads, spare fuse, 9V battery, and instructions

## [E] WAVETEK Nos. 4JZ93 and 4JZ94

- Accuracy (typ.): 0.5% + 1 digit
- Both meters have fully fused, current input jacks, incorrect input warning, 10 minute auto OFF, and data hold
- No. 4JZ94 also measures capacitance to 32μF
- Include a pair of test leads, spare fuse, 9V battery, and instructions

## [F] WAVETEK No. 3T267



- Accuracy (typ.): 0.25% + 3 digits
- True RMS with full 4 digit, 10,000 count, LCD display
- 41 segment bargraph
- Probe Hold™ and Auto Min./Max™
- Includes holster, one pair test leads, 9V battery, and instructions

# DIGITAL MULTIMETERS

## [A] WAVETEK Nos. 1T424, 4JZ91, 1T421, and 4JZ92

- Accuracy (typ.): ±0.5% + 1 digit
- All have diode test, continuity beeper, and auto OFF
- Nos. 1T424 and 4JZ92 measure temperature: No. 1T424 -4°F to 1400°F; No. 4JZ92 -22°F to 2000°F. Both include K-type mini-connector bead probe rated -40°F to 500°F
- 4JZ91 and 4JZ92 have 20A AC and DC current range. (limited to 60 sec.)
- Nos. 1T421, 4JZ91, and 4JZ92 measure frequency and capacitance (also include a pair of alligator clips)
- Include one pair of test leads, spare fuse, 9V battery, and instructions

## [B] WAVETEK No. 4JZ96

- Accuracy (Typ.); ± 0.05% + 3 digits
- High accuracy, True RMS with 4½ Digit Display
- Has diode test, continuity beeper, and frequency and duty cycle measurement
- Includes one pair of test leads, 9V battery, and instructions

## [C] WAVETEK Nos. 4JZ89 and 1T423

- Accuracy (typ.): ±0.25% + 2 digits
- No. 4JZ89 is average reading; No. 1T423 is true RMS
- Both read capacitance to 40mF and frequency to 400KHz
- Min/Max, Data Hold and Relative Mode
- Include holster, one pair of test leads, 9V battery, and instructions

## [D] WAVETEK No. 4JZ90

- Accuracy (typ.): ±0.10% + 2 digits
- True RMS or average responding
- Frequency counter to 2MHz and capacitance meter to 2000µF
- Has intermittent detector, Probe Hold™ Auto Min/Max™, 50nS pulse detector, and peak hold
- Backlit display
- Includes holster, one pair of test leads, 9V battery, and instructions

## [E] WAVETEK No. 3T075

- Accuracy (typ.): ±0.25% + 1 digit
- Heavy-duty, high performance, true RMS meter with analog and digital display
- High energy transit protected to 10KV
- Has Probe Hold™ and Auto Min/Max™
- Includes holster, heavy-duty test leads with alligator clips, 9V battery, and instructions

## [F] WAVETEK Nos. 4KC05 and 4KC06

- Accuracy (typ.): ±0.25% + 2 digits
- Drop-proof to 10 feet
- O-ring seals make unit dustproof and leakproof
- No. 4KC06 has backlit display, measures capacitance; has Min/Max and peak hold
- Include holster, one pair of test leads, 9V battery, and instructions

## FLUKE ACCESSORY COMPATIBILITY CHART

**Can be used to find which accessories are compatible with a meter or which meter is compatible with an accessory.**

) find accessories compatible with meter:
Find meter stock number at top of chart
Check column for compatible symbols and follow row across to
id accessory stock number at right

To find meter compatible with accessory:
1. Find accessory stock number in right column
2. Check across row for compatible symbols and follow column up to find meter stock number

**ey: (V) Compatible (—) Not Compatible (v) Included (1) Above 40 amps AC; 1A resolution (2) Min. accuracy is 20A, AC (3) A resolution for AC; 1A resolution above 320A DC (4) Min. accuracy is 10A, AC (5) 1 V resolution DC only (6) 1A resolution r AC or DC current (7) Min. accuracy is 15A, AC (8) Include test leads, alligator clip set, and test probes (9) 1 Degree reso- tion (10) 1 PSIG/1 inch HG resolution**

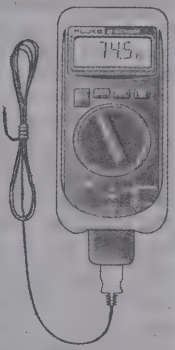
(*) V-Chek—Simplifies measurement of Ohms/Continuity with more than 4.5V present across input jacks by automatically switching to AC or DC volts, whichever is greater. (†) See "Manufacturers Warranties" on page opposite inside back cover. (●) Feature of meter. ( — ) Meter does not have this feature. (‡) 3 year warranty. (#) 1 year warranty.

FLUKE



A No 3LV97

B No. 6T089

B No. 3LV89

B No. 4KD91

## A Nos. 3LV97 and 3LV98

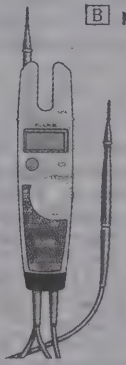
**Exceptional value and ease of use, one-hand operation**
**4000 count digital display**
**Auto selection simplifies voltage measurements in power environments. When measuring ohms/continuity with more than 4.5 volts present across the input jacks, the meter automatically switches to measuring AC or DC volts, whichever is greater. Input impedance is approx. 2kΩ, helps to determine if voltage is from leakage ("ghost voltages") or a connection. Overload protection provided if circuit checked on ohms mode**
**Automatic reading of volts AC & DC**
**Continuity beeper**
**High visibility yellow housing**
**Includes test leads, "9V" battery and manual**

### OPTIONAL HOLSTER

**. 6T090.** Shpg. wt. 1.0 lbs.
ch.....$11.00

### THERMAL COUPLE ADAPTER

**. 4PD16.** Fluke brand (80-AK) Shpg. wt. 1.0
. Each .....$14.00



## B Nos. 6T087, 6T088, 6T089, 3LV89 and 4KD91

**All feature:**

- **One-hand operation, 3¾ LCD display**
- **4000 count, autoranging display**
- **Nos. 6T088, 6T089, 3LV89 and 4KD91measure capacitance up to 9999µF and feature a V-Chek™ function that automatically selects and displays AC/DC volts or ohms, whichever is greater**
- **Include test leads, "9V" battery, and manual**
- **UL Listed (E59794); CSA Certified (LR44340)**

**No. 6T089, 3LV89 and 4KD91:**

- **Min./Max. recording mode with relative time clock**
- **Continuity Capture™ provides visual display of opens or shorts as brief as 250µs**
- **No. 3LV89 offers same features of No. 6T089, with easy-to-use rotary dial. High visibility yellow housing makes it easy to locate on the job or in a toolbox**
- **No. 4KD91 offers the same features of Nos. 6T089 and 3LV89 plus temperature -40 to 750°F (-40 to 400°C) microamps measurements to 200µA. Also includes No. 6T090 holster, thermocouple adapter No. 4PD16, and bead probe No. 1T322**

C No. 4KF16

## C Nos. 4KF16 thru 4KF19

- **Automatically measures Volts AC and DC with precise digital resolution.**
- **Continuity beeper**
- **Easy and accurate Open Jaw™ current measurement**
- **Display Hold/Automatic Power Down/Low Battery Indicator**
- **Compact design with neat probe storage**
- **Includes two "AA" batteries and users manual**
- **Two year warranty**
- **Nos. 4KF18 and 4KF16 include NIST Traceable Calibration Certificate**
- **Optional carrying case No. 4PD22**

e: Always consult user manual and applicable electrical codes prior to purchase.

# DIGITAL MULTIMETERS

## FLUKE HAND-HELD DIGITAL MULTIMETERS

**All multimeters on this page feature:**

- Automatic Touch Hold®
- Diode test, sleep mode, Auto/Manual ranging, audible continuity beeper
- Accuracy (typ.): 0.3% ±1 dig.
- Include "9V" battery, fuses and instructions
- 4KD79, 4KD80, 4KD81, 4KD92, 4KD93 and 4KD94 include "Premium Electrician's Test Lead Set". Set includes test lead set, alligator clip, and test probes
- The rest of the meters include test lead set only

**A Nos. 4KD82, 4KD83, 4KD95 and 4KD96**

- 600V CAT II per IEC-1010 safety rating, UL 3111 Listed, CSA & TUV approval
- General purpose models for a wide range of applications
- High-resolution 3200 count display with analog bargraph
- Include protective holster with flex stand
- Nos. 4KD83 and 4KD96 include fused current ranges
- Nos. 4KD82 and 4KD83 include NIST Traceable Calibration Certificate

**B Nos. 4KD79, 4KD92, 4KD84 and 4KD97**

- 600V CAT III per IEC-1010 safety rating, UL 3111 Listed, CSA & TUV approval
- Include all features of the meters listed above
- All four models include fused current ranges to 10.0A
- Larger display, ergonomic styling
- Rugged overmolded case
- Nos. 4KD79 and 4KD84 include NIST Traceable Calibration Certificate

**C Nos. 4KD80, 4KD93, 4KD85 and 4KD98**

- 600V CAT III per IEC-1010 safety rating, UL 3111 Listed, CSA & TUV approval
- Include all features of the meters listed above plus:
- 1000V CAT III per IEC-1010 safety rating
- Nos. 4KD80 and 4KD85 include NIST Traceable Calibration Certificate

**D Nos. 4KD81, 4KD94, 4KD86 and 4KF02**

- 600V CAT III per IEC-1010 safety rating, UL 3111 Listed, CSA & TUV approval
- Include all features of the meters listed above plus:
- High resolution 4000/10,000-count display with analog bargraph
- True-RMS measurements
- Frequency counter (0.8Hz to 20.0KHz), capacitance measurements (0.1nf to 9,999µf)
- Low-ohms range with Zero calibration, Smoothing™ mode

A No. 4KD95 B No. 4KD97

C No. 4KD93 D No. 4KF02

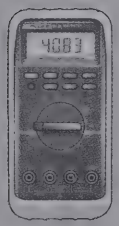
**LIFETIME WARRANTY**

Fluke warrants 20 and 70 Series multimeters for life of product. See "Manufacturers' Warranties" on page opposite inside back cover.

New

### FLUKE MULTIMETER SERVICE KIT NO. 4TR06

Includes fluke 87-3 digital multimeter, 80i-400 AC current clamp on, TL-20 Test lead set, Duracase™, harmonic video, training and application booklets.



**New No. 4TR06.** Fluke brand (KIT-87). Shpg. wt. 7.0 lbs.
Each ..... $484.00

# DIGITAL MULTIMETERS

## FLUKE

New

Ⓐ No. 4KF03

Ⓑ No. 1A741

Ⓒ No. 2A426

Ⓓ No. 4KD99

**LIFETIME WARRANTY**

**Fluke warrants 20, 70, and 80 Series Multimeters for life of product. Text of warranty available upon request. See "Manufacturers' Warranties" on page opposite inside back cover.**

### Ⓐ Nos. 4KF03, 4KD87, 4KF04, 4KD88, 4KF05, 4KD90, 4PD19, and 4PD20

- Back Light on all models for easier reading
- New LCD display with larger digits and better viewing angle
- 4000 count display updates 4 times per second, analog display updates 40 times per second
- Measures frequency 0.5 Hz to 200K Hz; duty cycle 0.1% to 99.9%; capacitance 10pF to 5mF
- Splash and dust proof; sealed and EMI shielded
- Nos. 4KD90 and 4KF05 have 19,999 count, 4½ digit high resolution mode; 250µS peak, Min-Max hold. 4KF04, 4KF05, 4KD88, and 4KD90 are true RMS
- Includes holster with flex stand, test leads, aligator clips, "9V" battery, and manual
- 4PD19 and 4PD20 include "premium test lead set". Set includes test lead set, alligator clip, and test probes.
- UL Listed (E59794); CSA Certified (LR44340) IEC-1010-1 1000V cat III input protection

### Ⓑ Nos. 1A741, 1W495, 1T244 and 1W497

- Laboratory precision models have 20,000 count display
- Relative reference stores first reading and then measures ± variations from that point
- Nos. 1A741 & 1W495 have frequency measurement capability and dBm or relative dB measurements
- Self diagnostic capability; low battery indicator
- Includes "9V" battery, test leads, spare fuse, and manual
- UL Listed (E59794)

### Ⓒ Nos. 2A426 and 1W542

- Rugged, sealed construction models
- Conforms to power line surge test for major feeders as defined in IEEE-587-190, Category B
- Analog bargraph, fused 10 amp range, impedance (typ.): 10MW
- Nos. 2A426 & 1W542 have min-max recording, store highest and lowest readings to monitor AC/DC voltage, current or resistance for seconds or days
- Relative reference feature on Nos. 2A426 & 1W542 hold input with subsequent readings deviating ± from this point
- Includes "9V" battery, test leads, spare fuse, and manual
- UL Listed (E59794); CSA Certified (LR44340), water and chemical resistant

### Ⓓ Nos. 4KD99 and 4KF01

- New ProcessMeter™is a digital multimeter and loop calibrator in one tool
- Precision 1000V, 440 mA multimeter with similar features to No. 4KF05
- 20 mA DC current source/loop calibrator with simultaneous mA and % of scale readout
- Manual Step (25%, Coarse, Fine) plus Auto Step and Auto Ramp
- 1000V Cat III per IEC-1010 safety rating, 3 year warranty
- Includes test leads, protective holster, "9V" battery and users manual
- No. 4KD99 has same features as 4KF01, but includes NIST Traceable Calibration Certificate

**GRAINGER HAS OVER 350 BRANCHES NATIONWIDE**

**e're well stocked with items you use everyday and our salespeople are knowledgeable, courteous professionals who care bout your business. To find the branch nearest you, check the Branch Locations listed in the front of this catalog.**

# FLUKE GRAPHICAL MULTIMETERS

- A new category of high performance troubleshooting tools
- High accuracy true-RMS or average responding measurements
- DC to 1 Mz digital waveform display
- TrendGraph™ Mode—an electronic strip chart recorder to plot meter readings up to 30 hours
- 10 MHz frequency counter on Nos. 4KD89 and 1W593; 2 MHz on No. 1W586 and 1W583
- In-circuit component test, logic test modes; waveform memory and backlit display on Nos. 4KD89 and 1W593
- Measures conductance to 3000 nS; capacitance from 10000 pf to 10000 uf
- Diode test, Min./Max., peak hold, view mode, duty cycle, pulse width, glitch capture, and backlit display
- All units can be connected to a PC using the 4KF14 software and interface cable sold below
- Include test leads and instruction manual
- Nos. 1W583 and 1W593 include NIST Traceable Calibration Certificate
- Use compact soft case No. 4KD78, see Index for listing

FLUKE

A
No. 1W586

B
No. 4KD89

Soft Carrying Case No. 1W519

## ACCESSORIES FOR GRAPHICAL MULTIMETERS

### ACCESSORIES ORDERING DATA

| Description | Fluke Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|
| External Battery Charger | BC7210 | 1W512 | $109.00 | 3.0 |
| Replacement Battery | BP7217 | 1W515 | 99.00 | 2.0 |

## ORDERING HAS NEVER BEEN EASIER!

Whether you phone, fax, write or stop by your local branch to place an order, Grainger can tailor sales terms to meet your needs.

Ask about establishing an open line of credit or pay with your VISA, MasterCard, or American Express card.

# BENCH-TYPE DIGITAL MULTIMETERS AND CHARTLESS DIGITAL RECORDERS

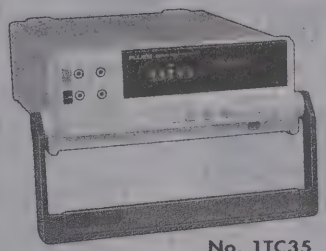
## LUKE DUAL DISPLAY MODELS

### Nos. 1TC35 thru 1TC38 and 1W556

- Multifunction vacuum fluorescent dual display
- For applications requiring two different measurements of the same signal; e.g. power supply testing, where V-DC output can be viewed on primary display while V-AC ripple is shown on secondary display
- Accuracy (typ.): ±0.02% of reading + 2 digits
- Impedance (typ.): 10MΩ
- True RMS voltage and current. RS-232 interface
- Frequency measurement to 1 MHz
- dB measurements with selectable reference impedances of 2 to 8000 ohms and audio power from 2 to 16 ohms
- Compare (High/Low/Pass) function for quick intolerance tests
- 0.05% DC current accuracy for 4-20mA current loop service
- Touch Hold, Relative, and Min.-Max., audible continuity, and diode test, closed-case calibration
- Includes line cord and test leads
- Nos. 1TC36 and 1TC38 include rechargeable lead acid battery for up to 8 hours operation on 16 hour recharge
- Nos. 1TC37 and 1TC38 include IEEE-488.2 interface
- No. 1W556 same as No. 1TC35, but includes NIST traceable calibration certificate
- CSA Certified (LR44340)

**No. 4KF13.** Quickstart 45 PC software. Fluke brand (S45). Shpg. wt. 5.0 lbs.

Each ..... $95.00



## B & K PRECISION DIGITAL DISPLAY

### Nos. 4KF68, 4KF69, 4KF70

- For applications requiring high accuracy, 50,000 count resolution
- Accuracy: 0.025%, DCV No. 4KF70; 0.05% DCV, No. 4KF69; 0.1% DCV, No. 4KF68
- ACV Response: 100kHz, Nos. 4KF70 and 4KF69; 30kHz, No. 4KF68
- Input Impedance: 10 MΩ or 1 GΩ, Nos. 4KF70 and 4KF69; 10 MΩ, No. 4KF68
- True RMS voltage and current (AC and AC+DC)
- RS-232 interface, dBm, Min./Max./Avg. (Nos. 4KF70 and 4KF69)
- Pulse width, VA, pulse count (No. 4FK70)
- Temperature (No. 4KF69) -200°C to +800°C
- Capacitance to 50,000mF
- Test leads and instruction manual included

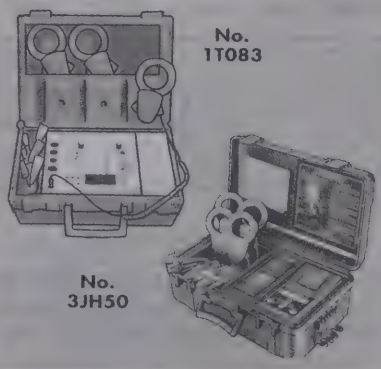
## CHARTLESS DIGITAL RECORDERS Nos. 1T083 and 3JH50

o. 1T083:

- 4 digit LED display recall and display more than 41 days of data from 44 separate functions
- Input range: 0 to 750V AC, 0 to 1000 A AC, 40 to 400 Hz
- Functions include: present readings, peak, time of peak, min.-max. readings, time of min.-max. readings, average readings, sweep of present readings, total time, voltage and amperage

o. 3JH50:

- Information can be downloaded to a computer or displayed on built-in 160 x 160 pixel display
- Records information for 14 to 20 days (The exact recording time depends on the number of parameters that are being recorded)
- Up to 8 channels of information; 4 voltage channels; 4 current channels
- Measures: watts, VARS, VA, PF, KWH
- Input range 0 to 600V AC, 0-1000A AC, 40 to 2000 Hz

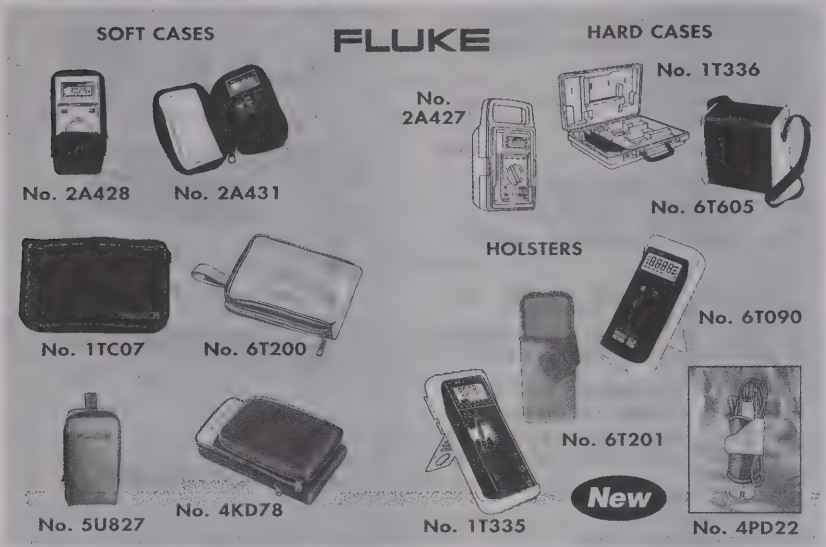


For Both:

- Operational voltage 120 or 240V AC, 50 or 60 Hz
- Auto ranging, true RMS, molded carrying case
- Includes: 3 current clamps, 3 voltage clips, power cord, and instructions. No. 3JH50 also includes computer interface cable and software

**No. 1T083.** Amprobe brand (DM1). Shpg. wt. 8.0 lbs. Each..... $1111.00

**No. 3JH50.** Amprobe brand (DMII). Shpg. wt. 8.0 lbs. Each..... $1895.00



AMPROBE INSTRUMENT

No. 1T083

No. 3JH50

# CARRYING CASES

## SOFT CASES

### RUGGEDIZED SOFT CASE No. 2A428

Compatible with Fluke 20, 70 and 80 series DMMs (with or without optional holster). Water-resistant zipper, inside pocket for test lead storage. Fluke brand (C25).

**No. 2A428.** Shpg. wt. 1.0 lbs. Each.....$22.00

### SOFT CASE No. 1A742

Similar to ruggedized case but smaller and without accessory storage space or water resistant zipper. One internal pocket. Fluke brand (C90).

**No. 1A742.** Shpg. wt. 1.0 lbs. Each.....$17.00

### SOFT CASE No. 6T200

Fluke brand (C12A).

**No. 6T200.** Shpg. wt. 1.0 lbs. Each.....$13.00

### SOFT CASE No. 5U827

Vinyl replacement case holds unit and test leads. Has one inside pocket. Fluke brand (C31).

**No. 5U827.** Shpg. wt. 1.0 lbs. Each.....$16.00

### COMPACT SOFT CASE No. 4KD78

Tough nylon case with detachable front pouch for small accessories. Fluke brand (C781).

**No. 4KD78.** Shpg. wt. 2.0 lbs. Each.....$39.00

### COMPACT SOFT CASE No. 4KD77

Vinyl case with shoulder strap. Test lead and other compact accessory storage in removable upper pouch. Fluke brand (C40).

**No. 4KD77.** Shpg. wt. 2.0 lbs. Each.....$50.00

### COMPACT SOFT CASE No. 2A431

Vinyl case with belt loop holds meter, manual, and leads. Fluke brand (C50).

**No. 2A431.** Shpg. wt. 1.0 lbs. Each.....$17.00

### TEST LEAD CASE No. 1TC07

Vinyl test lead/probe carrying case with two inside pockets. Size: 7¼ x 4¼ x 1½". Fluke brand (C75).

**No. 1TC07.** Shpg. wt. 1.0 lbs. Each.....$9.00

**SEE FLUKE MULTIMETER ACCESSORY CHART FOR COMPATIBILITY OF METERS AND CASES**

## HARD CASES

### HARD CASE No. 2A427

Heavy-duty case has top cover that snap on back of meter to serve as tilt stand. Carrying handle and storage compartment for test leads. Fluke brand (C20).

**No. 2A427.** Shpg. wt. 2.0 lbs. Each.....$30.00

### UNIVERSAL CASE No. 1T336

Use with all Fluke DMM's/accessories and series 50 thermometers. Polypropylene case provides protection against rough handling and bad weather. Fluke brand (C100).

**No. 1T336.** Shpg. wt. 5.0 lbs. Each.....$30.00

### DURA CASES Nos. 6T605 & 6T606

Heavy-duty cases hold meter and accessories in separate internal compartments. Cover converts to a tilt-stand for easy meter viewing. Allows meter use while in case. Comes with adjustable carrying strap. High visibility yellow with gray cover.

**No. 6T605.** Fluke brand (C17Y). Shpg. wt. 4.0 lbs. Each.....$39.00

**No. 6T606.** Fluke brand (C28Y). Shpg. wt. 3.0 lbs. Each.....$39.00

## HOLSTERS

### MULTIPURPOSE HOLSTER No. 1T335

Lead storage on back. Includes flexible tilt stand. Fluke brand (C70Y).

**No. 1T335.** Shpg. wt. 1.0 lbs. Each.....$17.00

### HOLSTERS Nos. 3T429 & 1TC05

Lead and probe storage on back. Includes flexible tilt stand. Fluke brand (C81Y/C81G).

**No. 3T429.** (Yellow). Shpg. wt. 1.0 lbs. Each.....$16.00

**No. 1TC05.** (Grey). Shpg. wt. 1.0 lbs. Each.....$16.00

### HOLSTER No. 4PD22

Fuke brand (H5).

***New*** **No. 4PD22.** Shpg. wt. 0.5 lbs. Each..$14.95

### HOLSTER No. 6T201

Fluke brand (C30).

**No. 6T201.** Shpg. wt. 1.0 lbs. Each.....$15.00

### HOLSTER No. 6T090

Fluke brand (C10).

**No. 6T090.** Shpg. wt. 1.0 lbs. Each.....$11.00

**SELECT QUALITY PRODUCTS FROM LEADING MANUFACTURERS WITH PROVEN PERFORMANCE**

**Grainger features quality products from the brand name manufacturers you know and trust. More than 900 national brands are listed in the Brand Index at the back of this catalog.**

# SPECIALTY ACCESSORIES

## FIBER OPTIC METER, SOURCES AND JUMPER CABLES

ug into standard diameter banana jacks the front of most multimeters. Quickly d accurately verify fiber optic cable sysm performance. Assists in installation d maintenance of fiber optic cable sysms. Several light sources available for sting different cable types and lengths: 0 nM or 850/1300 nM.

- **Output: 1mV per 1dB**
- **Application range: 800 - 1600 nM**
- **Acceptable fiber types: 9/125 to 100/140 µm**
- **Absolute accuracy: ±0.25 dB**
- **Relative accuracy: ±0.15 dB**
- **Jumper cables and accessory coupling accessories allow for easy connections of fiber optic meter and light sources to the cable under test**

**. 3LW06.** Fiber Optic Meter. Fluke brand. OM) Shpg. wt. 1.0 lbs. Each ..... $295.00

**No. 3LW08.** 850/1300 nM Light Source. Fluke brand. (FOS 850/1300) Shpg. wt. 1.0 lbs. Each ..... $495.00

**No. 3LW09.** 850 nM Light Source. Fluke brand. (FOS 850). Shpg. wt. 1.0 lbs. List $195.00. Each ..... $195.00

**No. 4KF06.** Fiber Optic Accessory Coupling ST/ST. Fluke brand. (FOA-ST/ST). Shpg. wt. 1.0 lbs. Each ..... $12.50

**No. 4KF07.** Fiber Optic Jumper Cable ST/FC. Fluke brand. (FOC-ST/FC). Shpg. wt. 1.0 lbs. Each ..... $49.00

**No. 4KF08.** Fiber Optic Jumper Cable ST/SC. Fluke brand. (FOC-ST/SC). Shpg. wt. 1.0 lbs. Each ..... $39.00

**No. 4KF09.** Fiber Optic Jumper Cable ST/SMA. Fluke brand. (FOC-ST/SMA). Shpg. wt. 1.0 lbs. Each ..... $55.00

**No. 4KF10.** Fiber Optic Jumper Cable ST/ST. Fluke brand. (FOC-ST/ST). Shpg. wt. 1.0 lbs. Each ..... $32.00

## HIGH VOLTAGE PROBES

**UTION:** High voltage probes are not intended for electrical lity applications in which high voltage is also accompanied by h energy. They are only intended for use in lower energy plications such as television and CRT troubleshooting.

easures up to 40KV DC or 28 KV RMS. uke brand (80K-40).

**. 1T321.** Shpg. wt. 2.0 lbs. ch ..... $119.00

ctends measurement capabilities up to KV DC or peak AC, 10 KV RMS. Fluke and (80K-15).

**w No. 4TP90.** Shpg. wt. 2.0 lbs.Each ... $149.00

ctends measurement capabilities to 00V DC or peak AC. Fluke brand (80K-6).

**. 1T320.** Shpg. wt. 2.0 lbs. Each ..... $65.00

## UNIVERSAL TEMPERATURE PROBE

vitch selectable for °C or °F. 350V DC or ak AC isolation. Suitable for air, surface, d non-corrosive liquid measurements. nge: –50° to 150°C (–58° to 320°F). curacy: ±1°C (1.8°F), 0° to 100°C. Fluke and (80T-150U).

**. 1T330.** Shpg. wt. 2.0 lbs. Each ..... $120.00

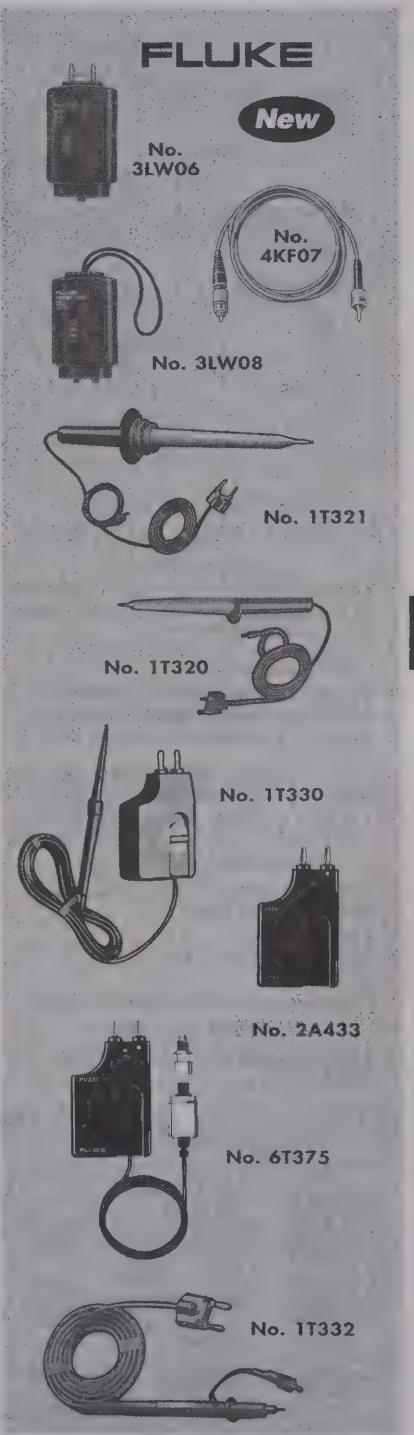
## HIGH FREQUENCY PROBE

- **DC output for high frequency AC inputs from 0.25 to 30V RMS**
- **Frequency range: 100kHz to 500 MHz**
- **Accuracy (typ.): ±0.5 dB above 0.5V**

**. 1T332.** Fluke brand (85RF). Shpg. wt. 1.0 s. Each ..... $99.00

## THERMOCOUPLE MODULE

Converts any 10M ohm DMM into thermometer via standard banana plugs. Use K-type thermocouple with mini-connectors. Switch selectable for °C or °F. Measurement range: –58° to 1832°F (–50° to 1000°C). Instrument range shown spans various probe types. The probe type will determine the actual range. See Index for probe listings. One No. 1T322 bead probe included. Fluke brand (80TK).



**No. 2A433.** Shpg. wt. 1.0 lbs. Each ..... $70.00

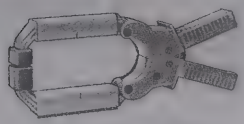
## PRESSURE/VACUUM MODULE

Plugs into standard diameter banana jacks on the front of many multimeters, to add digital pressure and vacuum measurements to its capabilities.

- **Measures HVAC/R, hydraulic and pneumatic pressures; 0.5 to 350 psi**
- **Measures vacuum to 29.99" Hg**
- **Compatible with most popular DMM's**
- **Accuracies (typ.): Vacuum—±1% of reading (±0.5" Hg); Pressure—±1% of reading (±0.3 PSI)**
- **Transducer sealed in 316 stainless steel, compatible with variety of liquids and gases**
- **Displays results in English (PSI or "Hg) or metric (kPa or cm Hg)**

**No. 6T375.** Shpg. wt. 2.0 lbs. Each ..... $269.00

## DON'T DELAY... ORDER FROM GRAINGER NOW!



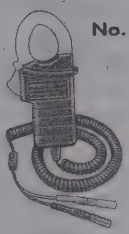
**Place your order with your local Grainger branch, and you'll be assured of prompt service, technical support, and our "No Hassle" return policy on any product ordered.**

# AC AND AC/DC CLAMP-ON CURRENT PROBES

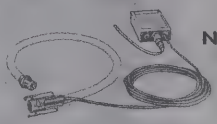
No. 3JD07

AEMC INSTRUMENTS

No. 3JD15

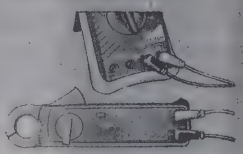


AMPROBE INSTRUMENT



No. 6T374

No. 3JH41



No. 3JH42

No. 3JH44

EXTECH INSTRUMENTS

No. 4KC27

No. 4KC21

## AEMC CURRENT PROBES Nos. 3JD05, 3JD07, 3JD12, 3JD13, and 3JD15

- Extend current measuring capabilities of multimeters, scopes, power instruments, and recorders
- Clamp-on design measure without interrupting power
- AC and AC/DC models available
- True RMS measurement (within frequency) when used with true RMS multimeter
- Accuracy (typ.): Nos. 3JD05 and 3JD07: 2% of reading, No. 3JD12: 1.5% of reading, No. 3JD13: 1% of reading, No. 3JD15: 0.5% of reading

## AMPROBE No. 3JH42

- True RMS clamp-on AC (when used with true RMS DMM
- Coiled cable
- Accuracy (typ.): 1.9%
- UL Listed
- Carrying case and manual included

## AMPROBE No. 3JH41

- AC/DC clamp-on TRMS (use with TRMS DMM)

## AMPROBE No. 3JH44

- Flexible current transducer
- Designed to fit around conductors with limited space
- Compatible with most digital multimeter/chart recorders. data loggers, oscilloscopes
- ACF 3000 is 24" in length and can accommodate a 7" conductor
- Includes 2 AA batteries, lead, and instructions

## AMPROBE No. 6T374

- Overload protection to 800 amps AC/DC
- Accuracy (typ.): 0-100A: 2%±1A, 100-600A: 2%±2A
- Multimeter input impedance 5KΩ
- Universal leads compatible with all makes of multimeters
- Includes "9V" battery and carrying case

## EXTECH LOW CURRENT AC/DC MINI 30A CLAMP-ON ADAPTER No. 4KC2

- Adapter outputs 1mV per count and displays on any DMM with at least a 200mV input range
- Measures low current with high resolution to 0.1mA AC and 1mA DC
- Basic DC accuracy of 2%
- One-touch zero adjust for DC measurements
- Low battery alert
- Includes 1.5V AA batteries, cable for plugging into DMM and carrying cas

## EXTECH 2000A AC/DC CLAMP-ON ADAPTER No. 4KC21

- Accuracy (typ.): 2%
- Adapter outputs 1mV per count and displays on any DMM with at least a 200mV input range
- Non-contact current measurements can also be displayed on oscilloscop
- 2.5" Jaw opening
- Manual zero adjust, low battery aler
- Use No. 1H151 carrying case
- Includes 9V battery and cable terminated with banana plugs

(*) With banana plug. (†) Limited Availablity—contact local branch.

# AC AND AC/DC CLAMP-ON CURRENT PROBES AND REPLACEMENT FUSES

Clamp-on current probes are designed to extend the current-measuring capacity of meters or recorders. They perform current measurements without interrupting circuit connections. Current from the primary is coupled to the secondary and attenuated at the given ratio of the probe. This attenuated current is used to drive the input of the meter or recorder. Always consult user manual and applicable local electrical and safety codes prior to use.

## A FLUKE No. 1T343

- Compact
- Accuracy (typ.): ±2.5% +0.15A

## B FLUKE No. 2A432

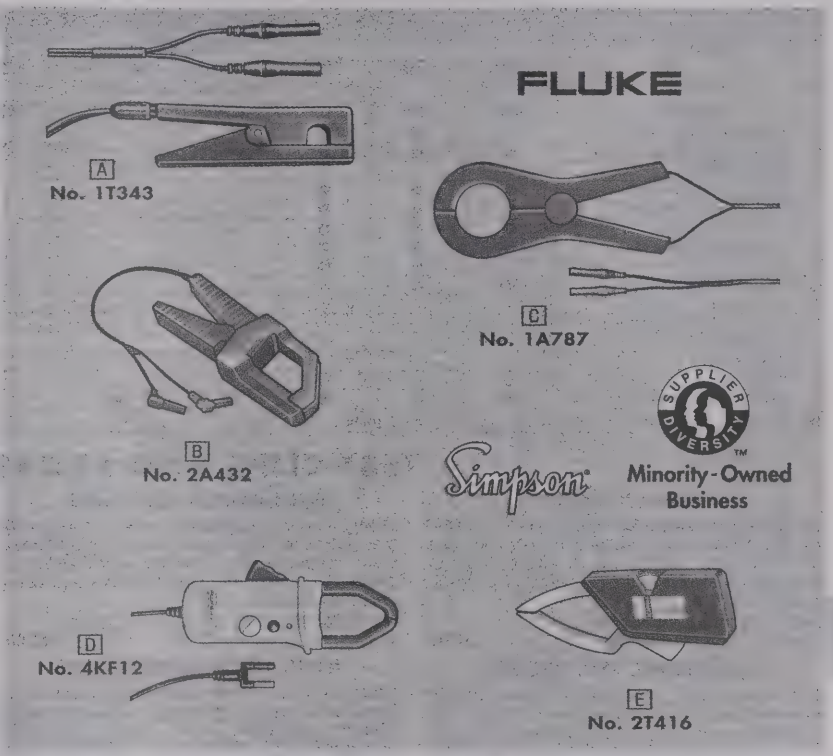
- Maximum conductor size: one 1.18" or two 0.98"
- Accuracy (typ.): ±3% + 0.4A

## C FLUKE No. 1A787

- Accuracy (typ.): ±2% of range

## D FLUKE Nos. 4KF11 and 4KF12

- Rugged AC/DC current clamps
- DC current Zero control for nulling out jaw/sensor offset
- Superior noise immunity for use on adjustable speed drives
- Accuracy (typ.): 4KF11 ±2.0% of reading +0.5A; 4KF12 ±3.5% of reading +0.5A
- IEC 1010, CAT III-600V safety rating



## E SIMPSON Nos. 2T416 and 2T978

- No. 2T416 for analog VOMs having 0-2.5 or 0-3V AC range such as Simpson 260-8 and others with reverse insulated input terminals
- No. 2T978 is compatible with Simpson 260-6XLMP, 260-8Xi, & 260-8XPi
- Accuracy (typ.): ±3% FS
- UL Listed (E65244)

## FLUKE BATTERY ELIMINATOR

For use with Fluke Model Nos. 37, 8020B, 021B, 8026B, 8060A, 8062A and 8024B. Fluke brand (A81-115).

**No. 1T333.** Shpg. wt. 2.0 lbs. Each.....**$32.00**

# TEST CLIPS AND PROBES

### ALLIGATOR CLIPS

**Use with Right Angle Test Lead Set** (No. 1T341 or 3LW19) or other standard point probes. 600V Cat. III, 1000V Cat. II, 10A maximum. Includes one red and one black clip. Fluke brand (AC70A).

**No. 1T334.** Shpg. wt. 0.1 lbs.
Each ..... $8.00

### ELECTRONIC TEST PROBES

For electronic probing of high density components or boards. IC insulator cap prevents shorting of adjacent IC legs. Probe has tapered 0.160" (4mm) steel tip. 1000V, 10A maximum. One red and one black probe. Fluke brand (TP80).

**No. 1TC20.** Shpg. wt. 1.0 lbs.
Each ..... $20.00

### LARGE JAW ALLIGATOR CLIPS

Fully insulated, nickel plated banana-jack alligator clips. Large 0.787" (20mm) jaw opening. 600V, 10A maximum. One red and one black clip. Fluke brand (AC85A).

**No. 1TC25.** Shpg. wt. 1.0 lbs.
Each ..... $12.00

### BANANA-JACK ALLIGATOR CLIPS

Standard 0.313" (8mm) jaw opening. 1000V, 10A maximum. Two red and two black clips. Fluke brand (AC75).

**No. 1TC22.** Shpg. wt. 1.0 lbs.
Each ..... $9.00

### INDUSTRIAL TEST CLIPS

Safety-designed, spring-loaded alligator clips. Wide 0.787" (20mm) jaw opening. 1000V, 10A maximum. One red and one black clip. Fluke brand (AC20).

**No. 1TC21.** Shpg. wt. 1.0 lbs.
Each ..... $23.00

### HOOK-STYLE TEST CLIPS

Safety-designed, spring-loaded clips with hook grip. 0.400" x 0.80" (10mm x 2mm) hook size. 1000V, 3A maximum. One red and one black clip. Fluke brand (AC80).

**No. 1TC23.** Shpg. wt. 1.0 lbs.
Each ..... $18.00

### PIN-GRABBER TEST CLIPS

Spring-loaded pin-grabber hooks for use with test points in close contact areas. 4" (100mm) shaft length, grabber extends 0.375" (9.5mm). 1000V, 1A maximum. One red and one black clip. Fluke brand (AC83).

**No. 1TC24.** Shpg. wt. 1.0 lbs.
Each ..... $22.00

### INSULATION PIERCING CLIP

Clamp-type test probe has spring loaded stainless steel tip for piercing insulated wires. Pierces insulated wires from 30 AWG (0.25mm²) to 14 AWG (1.5mm²). 250V, 5A maximum. Contains one probe. Fluke brand (AC89).

**No. 1TC26.** Shpg. wt. 1.0 lbs.
Each ..... $23.00

### INDUSTRIAL TEST PROBES

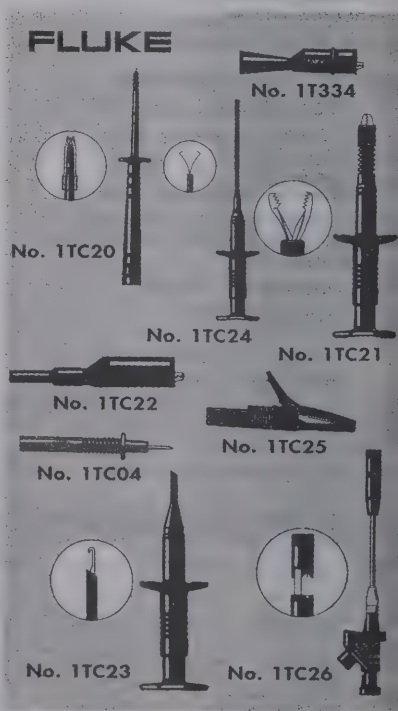
Very sharp, extra-long 0.750" (19mm) stainless steel tip. For reaching deep test points or recessed components; will pierce insulation. 1000V, 10A maximum. One red and one black probe. Fluke brand (TP20).

**No. 1TC04.** Shpg. wt. 1.0 lbs.
Each ..... $9.00

### SLIM-REACH™ TEST PROBES

Safety-designed probes with slender Slim-Reach bodies have stainless steel tips. Use for reaching closely-spaced deep test points or recessed terminals. Rated for 10A, CAT III 1000V. UL listed. No. 4PD26 has flat 0.07" x 0.11" (1.78 x 2.79mm) blade designed to hold securely in blade-type electrical wall sockets. No. 4PD27 has a 0.08" (2mm) diameter tip for electronics work. Compatible with No. 1T334 alligator clips above. No. 4PD28 has 0.16" (4mm) diameter tip designed to fit securely in IEC electrical wall sockets. Fluke brand (TP1, TP2, and TP4).

***New* No. 4PD26.** Shpg. wt. 1.0 lbs.
Each ..... $9.90



***New* No. 4PD27.** Shpg. wt. 1.0 lbs.
Each ..... $9.90

***New* No. 4PD28.** Shpg. wt. 1.0 lbs.
Each ..... $8.00

### TEST LEAD EXTENSION SET

Extend the length of safety shrouded tes leads an additional 59" (1.5m). Set has on red and one black silicon-insulated exten sion lead with straight, safety shrouded 4mm connectors on both ends. One end is female banana socket; other end is male banana plug. Cat. III 1000V. Fluke brand (TL21).

***New* No. 4PD24.** Shpg. wt. 1.0 lbs.
Each ..... $14.50

# TEST LEADS

## TEST LEADS

### FLEXIBLE TEST LEADS

Shrouded right angle connectors on both ends; 63"L, one red, one black. Fluke brand (TL22).

**No. 1TC08.** Shpg. wt. 1.0 lbs. Each .....**$18.00**

### FLEXIBLE TEST LEADS—STRAIGHT

**Same as No. 1TC08** (TL22) except shrouded right angle connector on one end, shrouded straight connector on the other. Fluke brand (TL24).

**No. 1TC09.** Shpg. wt. 1.0 lbs. Each .....**$18.00**

## TEST LEAD SETS

### 2-WAY CLIP TEST LEAD SET

Solid, spring-loaded copper clips with wide jaw opening and serrated teeth. Large piercing needle for penetrating larger gauge wires. Shrouded right angle connector. 250V, 10A maximum. Fluke brand (TL28).

**No. 1TC11.** Shpg. wt. 1.0 lbs. Each .....**$25.00**

### 4mm DIAMETER TEST LEAD SET

Use with same meters as No. 1TC08 (TL22). Recommended for probing 4mm sockets as well as open terminals and printed circuit boards. Removable insulated IC caps are included for probing closely-spaced leads. Cat III 1000V. Fluke brand (TL74).

***New* No. 4PD25.** Shpg. wt. 1.0 lbs. Each ...**$19.90**

### 5-WAY MULTIPOINT TEST LEAD SET

5 ways to connect: 1) U-shaped nose for blade-shaped terminals; 2) notched jaw for gripping screw heads, bare wire or terminals; 3) serrated teeth for gripping threaded or wire-wrapped terminals; 4) cluster of sharp needles for piercing small gauge (#22-#28 AWG) wires; 5) large piercing needle for penetrating larger gauge wires. Shrouded right angle connector. 250V, 10A maximum. Fluke brand (TL26).

**No. 1TC10.** Shpg. wt. 1.0 lbs. Each .....**$35.00**

### RIGHT ANGLE TEST LEAD SETS

Safety shrouded right angle inputs. 1500V, 10A maximum. Fluke brand (TL75).

**No. 1T341.** Shpg. wt. 1.0 lbs. Each .....**$10.00**

Safety shrouded right angle inputs. Recommended for µV measurements. 1500V, 10A maximum. Fluke brand (TL70A)

**No. 3LW19.** Shpg. wt. 0.3 lbs. Each .....**$11.00**

### REPLACEMENT LEAD SET

Straight shrouded banana plugs on both ends. Detachable probes with standard point tips. 1500V, 10A maximum. Fluke brand (Y8132).

**No. 1T349.** Shpg. wt. 1.0 lbs. Each .....**$15.00**

### REPLACEMENT LEAD SET

**(Not Shown)**

Similar to No. 1T349 above, but with exposed banana plugs on one end. Fluke brand (Y8131).

**No. 1TC03.** Shpg. wt. 1.0 lbs. Each .....**$15.00**

### SLIM-FLEX TEST LEAD SET

Retractable, insulated needle point test leads adjust to desired length. 350V, 2A maximum. Fluke brand (Y8140A).

**No. 1T351.** Shpg. wt. 1.0 lbs. Each .....**$27.00**

## TEST LEAD KITS

### SHROUDED TEST LEAD KIT

Interchangeable tips: 2 alligator clips, 2 spade lugs, 1 retractable hook tip, and 2 standard pointed tips. Shrouded banana plugs and carrying pouch. Fluke brand (Y8134).

**No. 1A786.** Shpg. wt. 1.0 lbs. Each.....**$37.00**

### STANDARD TEST LEAD KIT

Same as kit above, but with exposed banana plugs. Fluke brand (Y8133).

**No. 1T350.** Shpg. wt. 1.0 lbs. Each .....**$36.00**

## INDUSTRIAL TEST LEAD SET

Set consists of 1TC08 leads, stainless steel industrial test probes 1TC04 and industrial alligator clips 1TC21. 1000V 10A max. Suggested for electrical/HVAC applications. Fluke brand (TL20).

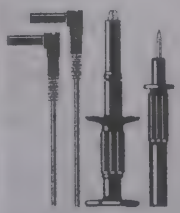
**No. 3T432.** Shpg. wt. 2.0 lbs. Each .....**$43.00**

FLUKE **New**

No. 1TC08

No. 1TC11

No. 1TC10



Nos. 1T341 & 3LW19

(†) Kits include: 1 red, 1 black test probe.

Measure it, record it, calibrate it — You'll get it right with Grainger.

# DATALOGGING SYSTEM/ PHASE ROTATION MULTIMETER

The MultiMeter/Data Acquisition Datalogging System monitors and records AC/DC voltage/current, frequency, capacitance, resistance, and temperature. With optional multimeter adapters, monitors and records airflow, humidity, light, and RPMs (See Index). Nos. 3ZH85, 3ZH95 and 1M960 are software accessories to the following instruments: No. 1M942 (RH/Temperature Meter), No. 1M944 (Thermo-Anemometer), No. 1M946 (Light Meter) and No. 3JD01 (Pressure and Vacuum Meter), No. 4KC30 (Conductivity Meter), No. 4KC32 (Dissolved Oxygen Meter), No. 4KC34 (Moisture Meter), No. 4KC29 (Anemometer).

### PC INTERFACE MULTIMETER No. 1M956:

- **Large 3½ digit LCD display with Data Hold**
- **Ranges include: DCV to 1000V; ACV to 750V; DCA/ACA to 20A; resistance to 20MΩ, capacitance to 20mF; frequency to 20M Hz; temperature to 1000°C/1999°F**
- **Overload warning**
- **PC Interface: Built-in RS-232 serial port (DB9) with optical isolation**

**No. 1M956.** Extech brand (383273).
Shpg. wt. 2.4 lbs. List $209.00. Each.....$199.00

### COMPUTER SOFTWARE (Included with No. 1M956):

- **Windows™ based**
- **Automatic Data Collection with user selectable timing intervals**
- **Data displayed on PC as Analog Meter, Graph, Digital LED, and/or Data List**
- **Audible High/Low alarms**
- **Data can be saved as ASCII for Lotus™, Excel™, or other graphing and data programs**
- **Includes multimeter with stand, 9V battery, temperature probe and test leads, data acquisition software, RS-232 serial cable, and carrying case**

### DATALOGGING MULTIMETER No. 1M964:

- **Same features as No. 1M956, plus built-in datalogger that stores up to 4000 readings**
- **Go/No-Go digital signal output jack for quality control and industrial automation**
- **Record modes: Normal or Min./Max.**
- **Includes software to configure multimeter (function, time sequences) and to transfer stored data to a PC**

**No. 1M964.** Extech brand (383274).
Shpg. wt. 0.4 lbs.Each .....$399.00

### DATA ACQUISITION SOFTWARE & CABLE No. 3ZH85

- **Recommended for heavy-duty series with RS-232 interface**
- **Programmable sample times from 1 to 3600 sec., used for log times, included analog and digital displays, graphing, data lists, min. and max. values and start and stop recording times**
- **Data can be imported into Lotus™ or Excel™ for analysis**
- **Includes Windows™ software and 36" serial cable**

**No. 3ZH85.** Extech brand (407000).
Shpg. wt. 0.3 lbs. Each .....$49.00

### METERBOSS SOFTWARE No. 3ZH95

- **Displays instruments on screen as digital readout or bargraph**
- **Easy to use pull-down menus with "Hypertext" help utility**
- **Supports Extech instruments with RS-232 interface**
- **Select datalogging time interval for each meter**
- **Displays relationships between meters**
- **Program multiple visual/audible alarms**
- **Graph or playback logged data**
- **Includes DOS software and user manual**

**No. 3ZH95.** Extech brand (480957).
Shpg. wt. 0.5 lbs. Each .....$129.00

### PORTMUX RS-232 MULTIPLEXER No. 4KC51

- **Use with MeterBOSS No. 3ZH95 sold above.**
- **Connect up to 5 instruments to one PC com port**
- **Cascade multiple PortMUX devices to create as many serial ports as desired**
- **Self-contained power supply and circuitry; no boards to install in your PC**
- **Visual indication of TRANSMIT and RECEIVE**
- **Complete with D9M to D9F 3 ft. cable, D25 to D9 adapter and AC adapter**

**No. 4KC51.** Extech brand (480900).
Shpg. wt. 1.8 lbs. Each .....$199.00

### DATALOGGING MODULE No. 1M960:

- **Used with Light Meter No. 1M946, Vane Anemometer No. 1M944, Conductivity Meter No. 4KC30, Dissolved Oxygen Meter No. 4KC32, Moisture Meter No. 4KC34, Anemometer No. 4KC29, and Hygrothermometer No. 1M942**
- **32K RAM memory (stores up to 8000 readings)**
- **User configurable to capture readings at time intervals from 1 second to 99 hours**
- **Low battery indicator**
- **Readings can be transferred to PC for analysis**

**No. 1M960.** Extech brand (380340).
Shpg. wt. 0.9 lbs. Each .....$299.00

**No. 3JC92.** AC Adapter (for Nos. 1M956, 1M964). Shpg. wt. 0.8 lbs. Each .....$19.00

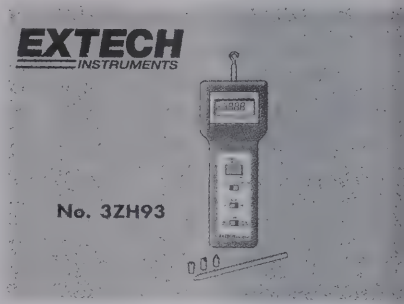
### PHASE ROTATION MULTIMETER No. 1M962

- **3-phase power indicator for motors included multimeter and temperature functions**
- **Phase range: up to 450Hz, 80-480V AC;. Capacitance range: up to 20mF**
- **Frequency range: up to 100KHz**
- **Temp. range: up to 752°F/400°C**
- **Phase indicator identifies correct or incorrect wiring configuration**
- **200/600VAC; 2/20/200/600VDC; 200/2K/20K/200K/2000K/20M/ 200M/2000M ohms measurements**
- **Continuity beeper and diode tests**
- **Includes rubber holster, color coded test leads, alligator clips, multimeter test leads, temp. probe and 9V battery**
- **3½" LCD display. No auto-ranging. UL Listed**

**No. 1M962.** Extech brand (380224).
Shpg. wt. 1.6 lbs. Each.....$89.00

**No. 1M940.** Vinyl Carrying Case. Extech brand (409997)
Shpg. wt. 0.3 lbs. Each.....$19.00

# DIGITAL FORCE AND MOISTURE METERS, THICKNESS GAUGE AND CONTINUITY TESTERS



## EXTECH DIGITAL FORCE GAUGE

- Measures tension (Pull) or compression (push)
- Selectable ounces or grams (0.15 to 176 oz., 3 to 5000g)
- ±0.2% accuracy, 0.05 oz/gram resolution
- Zero/Tare (relative) control, Peak Hold
- Battery or optional AC operation
- Includes flat, cone, chisel compression tips, tension hook tip, 5" extension rod, 4 AAA batteries, carrying case and instructions

**No. 3ZH93.** Extech brand (475000).
Shpg. wt. 2.5 lbs..Each ..... **$329.00**

**No. 3ZH65.** AC Adapter 117VAC. Extech brand (153117). Shpg. wt. 0.5 lbs. Each ..... **$15.00**

**No. 3ZH66.** AC Adapter 230 VAC. Extech brand (153230). Shpg. wt. 0.6 lbs. Each ..... **$15.00**

No. 3ZH93

## EXTECH HEAVY-DUTY WOOD MOISTURE METER

- Displays wood moisture from 9-30% with 0.1% resolution and 4% accuracy
- Memory contains 9 groups with calibration data for approx. 150 species of wood
- Built-in self-calibration with manual temperature compensation
- Super large 1.4" (36mm) LCD also displays recalled Min/Max readings
- Data Hold plus automatic power off
- Built-in RS-232 serial interface
- Optional Windows data acquisition software with cable No. 3ZH85 and Datalogger No. 1M960
- Complete with 2-pin moisture probe, 40" cable, 10 spare pins, protective holster, 9V battery and instructions

**No. 4KC34.** Extech brand (407777).
Shpg. wt. 1.4 lbs. Each ..... **$299.00**

No. 4KC34

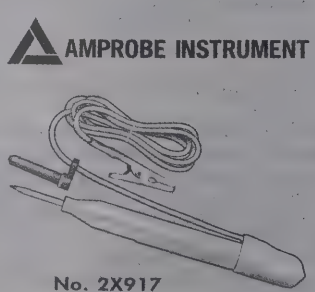
## CONTINUITY TESTERS

### IDEAL No. 3T897

- Pocket sized tester used for checking continuity for dead circuits, grounds on conduit systems, or identifying wires in multi-wire cables*
- Applications include electrical control equipment, panel-board wiring and many others (not for use on line voltage)
- Requires two "AA" batteries (not supplied)
- Includes 4 ft. removable cord with alligator clip

**No. 3T897.** Ideal brand (61-030).
Shpg. wt. 0.2 lbs. Each ..... **$15.64**

(*) Always consult user manual and applicable local electrical and safety codes prior to use.

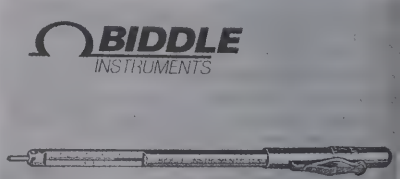


No. 3T897

### AMPROBE No. 2X917

- Pocket size, 6½" long
- Checks continuity with power off
- Tests switches, fuses, circuits, and cables
- 46" test lead
- Includes two "AAA" batteries

**No. 2X917.** Amprobe (PY-11). Shpg. wt. 0.2 lbs. Each ..... **$3.45**



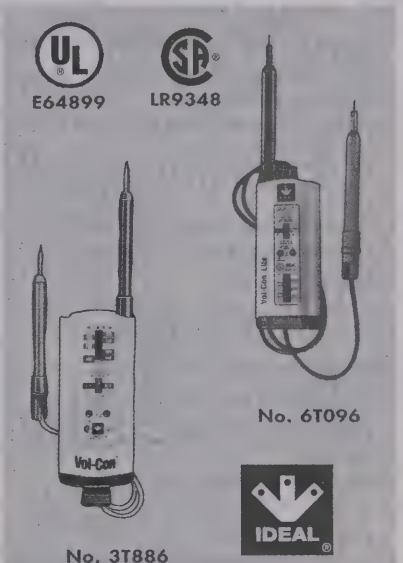
No. 2X917

## BIDDLE COATING THICKNESS GAUGE

- Reaches every contour easily
- Not affected by vibrations or temperature—special stabilized magnet used
- Easy to use—requires no set up time
- Ranges: 0.00025 to 0.020" (0.25 to 20 mils) or 5 to 500 microns
- Measures thickness of non-magnetic materials over a ferrous base
- Calibrated to NIST calibration standards

**No. 3JG87.** Biddle brand (280282).
Shpg. wt. 0.1 lbs. Each ..... **$230.00**

No. 3JG87



**DESK SPACE AT A PREMIUM? USE THE GRAINGER CD-ROM, ELECTRONIC CATALOG TO REVIEW THOUSANDS OF PRODUCTS!**

**Our Grainger Electronic Catalog is a state of the art CD-ROM selection guide which features products and information from our General Catalog. The perfect reference tool when you need product and technical information on the road. Contact your local branch for more information.**

## VOLTAGE/CONTINUITY TESTERS

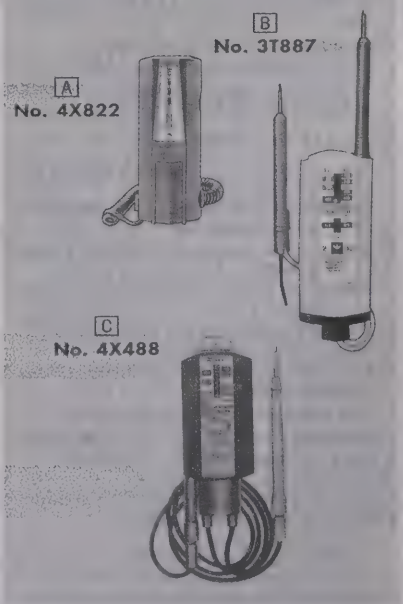
Voltage testers are designed to give approximate voltage readings for power line identification. Can be used to differentiate between 120, 208, 480, etc. volt lines, but do not give exact voltage readings. If exact voltage readings are needed use an analog or digital multimeter.

- Test for circuit continuity, identification of AC or DC, DC polarity, blown fuses, grounding, and current leakage
- Low-voltage indicator: as low as 6V AC or DC
- Non-switching continuity tester: automatically protected against damage from accidental contact with live voltage
- Built-in safety check allows testing of the lead set for breakage before applying the tester to voltage
- No. 6T096 prods include current limiting resistors that act as fuses in case of accidental shorts or breakdowns and limit current in leads to prevent dangerous arcing
- Long-life LED and neon indicator lamps
- Plug-in prod and lead assembly for quick changes
- Spring-loaded safety shields protect prod tips; lock back for open area testing
- Flexible, 30" oil-resistant vinyl leads
- Body of tester has built-in cavities to store and protect prods when not in use; No. 6T096 fits in shirt pocket—4½" long
- High impact plastic case with ultrasonically-welded seams; leather case for No. 3T886 available below
- UL Listed (E64899); CSA Certified (LR9348)

| Voltage | | Frequency Range (Hz) | Ideal Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| Volts DC | Volts AC | | | | | |
| 120/240/600 | 120/240/480/600 | 25 to 60 | 61-076 | 3T886 | $52.10 | 0.8 |
| 120/240 | 120/240/480 | 25 to 60 | 61-100 | 6T096 | 65.80 | 0.4 |

## VOLTAGE TESTERS

### [A] AMPROBE Nos. 4X822 and 1T025



- Shirt pocket sized testers with visual readout
- "Thermometer style", lighted, voltage level display
- 115V AC receptacle check chart on unit to inspect outlets for correct wiring
- No. 1T025 has audible buzzer when voltages as low as 12V are applied
- Neon lamp design does not affect most SCR circuits

### [B] IDEAL No. 3T887

- Two separate voltage indicators, solenoid type and neon test, for backup safety
- Long, slim prod tips permit probing of all types of receptacles
- Spring-loaded safety shields guard prod tips; lockable for open area testing
- Prod and lead assembly plugs in easily for quick change; built-in strain and bend reliefs
- Flexible and oil-resistant vinyl leads; 30" long
- Ultrasonically-welded ABS plastic case is dust and splash proof; leather case available below
- UL Listed (E64899); CSA Certified (LR9348)

### [C] SQUARE D No. 4X488

- Determines nominal DC voltage and 60 Hz AC circuits
- Solenoid type
- Safety designed probe tips with spring loaded retractable shrouds to prevent contact with exposed terminals or bare wires
- Sealed in shockproof molded case
- Includes two 28" test leads and magnetic DC polarity

| Key | Voltage Range | | Frequency Range (Hz) | Mfr. | Mfr's. Model | Stock No. | Each | Shpg. Wt. |

**No. 4DC77.** Carrying case for No. 4X488. Square D brand. Shpg. wt. 0.4 lbs. Each ..... $35.60

**No. 6T098.** Leather Case for Nos. 3T887. IDEAL brand (61-010). Shpg. wt. 0.5 lbs. Each ..... $20.44

# VOLTAGE/ CONTINUITY TESTERS

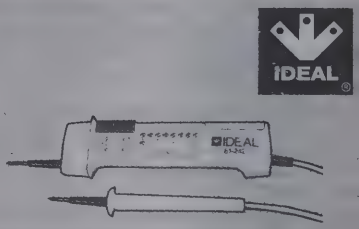
### A IDEAL No. 3T888

- High-resistance voltage and continuity tester
- Tests continuity in the 0 to 2 megohm range and polarity
- Tests semi-conductors for uniformity (diode test)
- Self test for checking tester functions
- Audible signal for continuity and self-test circuit
- Input resistance: over 660 kΩ
- Voltage surge proof: 10 kV 0-PK (1.2/50mS)
- VDE Certified
- 0-100 Hz frequency range
- Includes one "12V" battery

### B GREENLEE No. 3T113

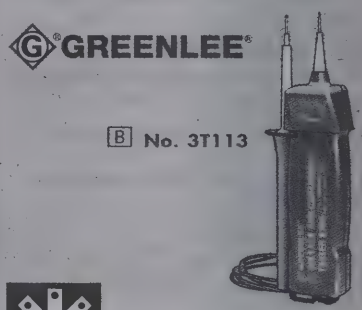
- Voltage and continuity tester
- Switchless, dial-free measurement of AC/DC voltage with automatic range selection
- Indicates continuity or resistance without switching
- Single probe identifies hot side; no ground needed
- In case of accidental contact over 700 volts, protective resistor will open to break current
- Audible buzzer plus LED analog indicator
- Includes two "AA" batteries
- Limited lifetime warranty. See "Manufacturers' Warranties" on page opposite inside back cover

### C IDEAL No. 3T889



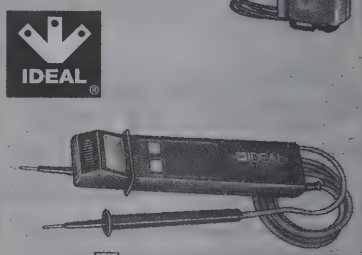
- Microprocessor controlled, digital display, audible signals
- High-input resistance (over 660 kΩ) is safe at high voltages
- Features an automatic On/Off switch to save battery life and automatic change of mode, which indicates type of voltage
- Includes reading hold button and automatic battery check
- Tests semi-conductor, polarity, phase and resistance
- Five per second measuring cycle
- Automatic switch-over in three modes
- Peak voltage stability: 10 kVpk. (1.2/50mS)
- Accuracy of 1.5% of reading ± digit
- Includes one "9V" battery

### D ETCON No. 3T109



- 4-in-1 vibration sensing/solenoid type audible voltage/continuity tester
- Audible and visual indication from 6 to 80 volts AC/DC
- Audible, visual, and solenoid indication from 80 to 600 volts AC/DC
- Audible and visual continuity indication through 300KΩ
- Automatic testing for continuity through 300KΩ and buzzer for DC voltage and continuity
- Positive/negative pole indication from 6 to 600 volts DC identified by neon lamp
- UL Listed
- Retractable and locking spring loaded shrouds protect metal probes
- Case has provision as prod holder for one-handed operation or for quick prod storage
- Self-extinguishing, high-impact sealed case and prod assemblies
- Replaceable leads with metal piercing probes (order below)
- Test lead strain relief assembly

### E FLUKE No. 4KF15



- High resistance voltage and continuity tester with LED and audible indicators
- One piece unit has attached test leads with strain relief
- Automatically switches between volts and continuity
- At low impedance, continuity LED lights and beeper sounds
- Auto On/Off feature
- 1000V maximum operating voltage
- Input Impedance: 1MΩ
- Includes two "AA" batteries
- One year warranty. See "Manufacturers' Warranties" on page opposite inside back cover

MSHA
Mine Safety and Health Administration

H No. 1T184

I No. 1A756

J No. 1A758

(Shown attached to No. 1A756)

## A FLUKE Nos. 3LV90 & 4PD18

- Easy to use, touch tip to outlet or cord to indicate presence of voltage
- Pocket size—5¾" long
- Visual indicator
- Range: No. 3LV90 Line Voltage—90-600 volts AC; No. 4PD18 Control Voltage—24-90 volts AC
- UL, CSA and TUV listed
- Include 2 "AAA" batteries

**No. 3LV90.** Fluke brand (1AC-A1). Shpg. wt. 0.2 lbs. Each ..... $20.95

**New No. 4PD18.** Fluke brand (1LAC-A). Shpg. wt. 0.2 lbs. Each ..... $21.95

## B AMPROBE No. 6T377

- Distinguishes between live and neutral wires in single and three phase supply
- Pocket-size—5⅝" long
- Visual indicator
- Voltage range: 110-600V AC
- Sensitivity: illuminates red at 0.157" (4mm) distance from wire carrying 220V AC
- Includes 2 "AAA" batteries

**No. 6T377.** Amprobe brand (VP-440). Shpg. wt. 0.1 lbs. Each ..... $17.95

## C GREENLEE No. 6T094

- Senses voltage without contacting live circuits
- Pocket-size—5¼" long
- Range: 50 to 600V AC
- Audible and visual indicators
- Pocket clip acts as On-Off switch
- UL and ULC Listed
- Includes 2 batteries
- Limited lifetime warranty

**No. 6T094.** Greenlee brand (1010). Shpg. wt. 0.2lbs. Each ..... $18.15

## D AMPROBE No. 4JZ37

- Handheld, detects metal
- AC voltage tester (70 to 600VAC)
- Continuity tester with adjustable volume level
- Self-test
- DC polarity and battery check (2-36VDC)
- Diode and fuse tester
- Audible and visual indication
- Comes with 4 button batteries (LR44, AG13, A76 or equivalent)

**New No. 4JZ37.** Amprobe brand (VCM-2). Shpg. wt. 0.3 lbs. Each ..... $17.85

## E AMPROBE No. 4JZ28

- Screwdriver style tester
- AC voltage test (contact 70-250VAC and non-contact 70-600VAC)
- Fuse tester
- DC voltage test to 250VDC
- Polarity test 1.5V-36VDC
- Continuity check 0-50 MΩ

**New No. 4JZ28.** Amprobe brand (CVF-3). Shpg.wt. 0.3 lbs. Each ..... $9.85

## F TIF No. 1T960

- TIC tracer, AC voltage detector (30-1500V)
- Audibly signals when voltage is present
- Ideal for checking fuse boxes and electrical circuits
- Checks for proper grounding of power tools
- UL Listed (E130399)
- Includes batteries

**No. 1T960.** TIF brand (TIF100). Shpg. wt. 0.7 lbs. List $49.93. Each ..... $39.95

## G GREENLEE No. 3T472

- Personal safety tool detects live AC voltage between 24 and 1500V AC without contact to wire
- Adjustable sensitivity, detects voltage up to 3 ft. away in high voltage areas
- Audible and visual warning indicators
- Limited lifetime warranty. See "Manufacturers' Warranties" on page opposite inside back cover

**No. 3T472.** Greenlee brand (2010). Shpg. wt. 0.4 lbs. Each ..... $81.50

## H TIF No. 1T184

- AC voltage and continuity capacitor tester
- Tests capacitors audibly
- Detects AC voltage without connections (30-1500V)
- Tests circuit continuity
- UL Listed (E130399)
- Includes test leads and 9V battery

**No. 1T184.** TIF brand (TIF300CC). Shpg. wt. 0.7 lbs. Each ..... $49.95

## I TIF No. 1A756

- High/low AC voltage detector
- Ranges: low 30 to 1500V AC; high 1500 to 122,000V AC
- Detects AC volts without connections
- Adaptable to No. 1A758 "Hot Stick" for use on high voltage range
- UL Listed (E130399)
- MSHA Approved
- Includes 9V battery

**No. 1A756.** TIF brand (TIF300HV). Shpg. wt. 1.0 lbs. Each ..... $53.00

## J TIF Nos. 1A758 & 1T963

- "Hot Stick" telescoping extension must be used with No. 1A756 when in the high voltage range above 1500VAC. 3 ft. maximum extension

**No. 1A758.** TIF brand (TIF310). Shpg. wt. 1.5 lbs. Each ..... $53.00

**No. 1T963.** Carrying Case for 1A756. TIF brand (TIF303HV). Shpg. wt. 0.3 lbs. Each ..... $14.95

# CAPACITOR, RECEPTACLE, AND GFCI TESTERS

## AUDIBLE CAPACITOR TESTER

### A TIF No. 3X983

- Fast, accurate capacitor testing from 1 to 2000µf
- Pocket size instrument audibly checks all types of capacitor, diodes, continuity in fuses, transformers, motors and circuits
- Checks for leaky, open or shorted capacitors
- Built-in leads and one button control
- Portable, battery operated, includes battery and case

**No. 3X983.** TIF brand (TIF660).
Shpg. wt. 1.0 lbs. Each ..... $29.95

## DIGITAL CAPACITOR CHECKERS

### B SUPCO No. 3T106

- Provides values for start and run capacitors from 0.01 to 10,000 µf
- Checks for open/short conditions
- Pocket size 2⅝W x 1⅜D x 4¼"L
- 5/16 inch, 4-digit LED display
- Two range switch: 0.01 to 10 µf and 10 to 10,000 µf
- 4 "AA" 1.5V batteries (not supplied)
- Includes vinyl carrying case

**No. 3T106.** Supco brand (MFD-10).
Shpg. wt. 0.5 lbs. Each ..... $64.95

### C B&K PRECISION No. 1T578

- 9 ranges from 200pF to 20mFD
- 3½ digit LCD display
- Basic accuracy 0.5%
- Battery powered by 9V battery

**No. 1T578.** B&K Precision brand (810B).
Shpg. wt. 1.0 lbs.Each ..... $99.00

### D B&K PRECISION No. 1A836

- 10 automatically selected ranges
- 3½ digit LCD display with overrange indicator
- Accuracy (typ.): 0.2% of reading
- Full scale range 199.9pFD to 199.9mFD (reads 0.1pFD to 0.2FD)
- Zero control compensates up to 25pFD of test lead capacitance
- Battery powered by 4 "C" size cells, NiCad, alkaline or zinc carbon (not included)

**No. 1A836.** B&K Precision brand (830).
Shpg. wt. 1.6 lbs. Each ..... $350.00

### E RECEPTACLE TESTER

- Test and fault identification in 3-wire, 125V AC circuits
- Tests for open ground, reverse polarity, open hot, open neutral, hot and ground reversed, hot on neutral with hot open
- Features super-bright indicator lights and convenient "push-pull" shape
- Not for use on circuits employing isolation transformers (cardiac care)
- UL Listed (E60043); CSA Certified (LR9348)

**No. 3T885.** Ideal brand (61-035).
Shpg. wt. 0.1 lbs. Each ..... $14.66

## GFCI TESTERS

### F ETCON No. 3T111

- For use on standard ground fault circuit interrupter (GFCI) protected, 120V single-phase receptacle
- Tests 120V AC receptacles for correct wiring and GFCI for trip at 5mA
- UL Listed (E136836) as a receptacle tester and as a GFCI tester
- Tests GFCI protection outlets to ensure units will not trip below 5mA (test current 1.9mA) and will trip above 5mA (test current 6.8mA)
- Compact, shirt-pocket size fits into tight spaces
- High visibility lamps and easy-to-read chart enable convenient usage

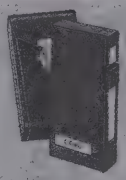
**No. 3T111.** ETCON brand (CT101).
Shpg. wt. 0.5 lbs. Each ..... $22.74

### G IDEAL No. 3T884

- Test GFCI wiring sequence and mechanical operations in same test, reducing call backs
- Intentionally overloads the actual GFCI breaker to test mechanical operation, also checking for proper wiring sequence
- Convenient push-pull, non-slip, ergonomic design
- Impact resistant, thermoplastic case
- Automatically tests: correct wiring, open ground, reverse polarity, open hot, open neutral, hot on neutral, hot and ground reversed with open hot, ground fault interruption
- Not for use on circuits employing isolation transformers (such as cardiac care)
- UL Listed (E60043); CSA Certified (LR9348)

**No. 3T884.** Ideal brand (61-051).
Shpg. wt. 0.1 lbs. Each ..... $28.65

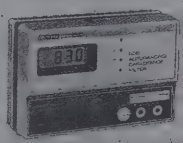
### H GREENLEE No. 3T117



- Tests and indicates condition of GFCI and circuits
- Indicator lights identify wiring errors
- Lightweight, portable
- Tests GFCI trip at 3mA, 5mA, 7mA, 10mA, and 30mA
- Limited Lifetime Warranty; see "Manufacturers' Warranties" on page opposite inside back cover

**No. 3T117.** Greenlee brand (5708). Shpg. wt. 0.5 lbs. Each ..... $99.50

### I ETCON No. 5U746



- Digital voltage tester 80 to 150V AC
- Tests receptacle for correct wiring
- Provides a timed GFCI test that trips a GFCI at 6mA independent of voltage present and indicates exact time required to trip the GFCI. Permits field test of a GFCI according to UL standards
- Automatic data hold function
- Instruction manual included

**No. 5U746.** ETCON brand (CT103).
Shpg. wt. 1.0 lbs. Each ..... $92.95

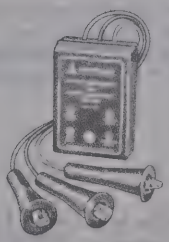
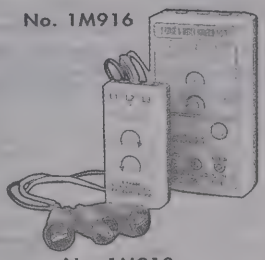
# MOTOR ROTATION METERS

AMPROBE INSTRUMENT GREENLEE AMPROBE INSTRUMENT EXTECH INSTRUMENTS



No. 1T100



No. 3T471

No. 3T114

No. 4JZ36

No. 1M916

No. 1M918

## PHASE SEQUENCE TESTING APPLICATIONS

- Permits electrical contractor or industrial maintenance electrician to permanently connect the terminals of the motor being installed, without first energizing the motor by a temporary hook-up
- Eliminates the need for temporary connections which can be time consuming, costly and hazardous, particularly where large high voltage motors are involved
- Protects drives that should not be rotated in the wrong direction
- Safeguard solid state electrical devices from reverse polarity damage
- Always consult user manual and applicable local electrical and safety codes prior to use

### PHASE SEQUENCE INDICATORS

### AMPROBE No. 1T100

- Determines phase sequence of 3-phase electrical circuits when used with any Amprobe clamp-on, multimeter or other meter with appropriate voltage range
- Operating Range: 0 to 560V
- Frequency Range: 25 to 60 Hz
- Includes carrying case

**No. 1T100.** Amprobe (PSA-1). Shpg. wt. 0.8 lbs.
Each ..... $46.85

### GREENLEE No. 3T471

- Indicates phase sequence/rotary field from 70 to 700V
- Lights show which phase is lost
- Insulated alligator clips
- No batteries or moving parts
- Limited Lifetime Warranty. See "Manufacturers' Warranties" on page opposite inside back cover

**No. 3T471.** Greenlee brand (5700).
Shpg. wt. 0.5 lbs. Each ..... $93.50

### PHASE SEQUENCE/MOTOR ROTATION INDICATORS

### GREENLEE No. 3T114

- Tests 3-phase power
- Operating range: 70 to 700V
- Combination solid state rotary field/phase sequence indicator and motor rotation indicator
- Independently operated—two units in one
- No AC power required for motor rotation indication
- Includes color-coded, double-insulated leads and carrying case
- Limited Lifetime Warranty. See "Manufacturers' Warranties" on page opposite inside back cover

**No. 3T114.** Greenlee brand (5774).
Shpg. wt. 3.8 lbs. Each ..... $326.00

### AMPROBE No. 4JZ36

- Simple to use, small compact design
- Identifies both the correct phase sequence of live three-phase line voltage and phase/winding sequence of deenergized three-phase motors
- Integrated test leads eliminate the need for test lead swapping
- Voltage range from 20 to 600VRMS
- Frequency range: 50-400Hz
- Phase loss and bright LED indicators
- Includes 9V battery and instructions

**No. 4JZ36.** Amprobe brand (PRM-1).
Shpg. wt. 1.0 lbs.. Each ..... $89.85

### EXTECH Nos. 1M918 and 1M916

- Check phase sequence and live lines
- Test Range: 100 to 660V AC
- Test Phase Orientation: 3-phase power (50-70 Hz freq. range)
- 5-LEDs provide correct/incorrect phase orientation and 3-phase live check
- Include 3 large alligator clips
- Motor Rotation and 3-Phase Tester No. 1M916 also measures the rotation direction of motor shafts; ensuring motor wiring is safe and correct

### PHASE ROTATION INDICATOR/TESTER

**No. 1M918.** Extech brand (480300).
Shpg. wt. 0.5 lbs.. Each ..... $59.00

**No. 1M916.** Extech brand (480303).
Shpg. wt. 0.9 lbs. Each ..... $99.00

### MOTOR ROTATION, 3-PHASE INDICATOR/TESTER

**No. 1M940.** Vinyl Carrying Case for No. 1M916. Extech brand (409997). Shpg. wt. 0.3 lbs.
Each ..... $19.00

**No. 1H152.** Carrying case for 1M918. Extech brand (409992). Shpg. wt. 0.2 lbs.
Each ..... $10.00

# STRIP CHART RECORDERS

- Easy loading chart paper
- Operate in any position
- Neat, pressure sensitive chart paper
- Access window for making notes on chart
- Portable
- Operates on 115V AC, 60 Hz
- Select from take-up reel or nontake-up reel models
- Portable units supplied with motor line cord
- Use 2½" x 30 ft. strip chart, one supplied with recorder. Take-up reel models capable of using 2½" x 60 ft. charts. For replenishment see below

### Recorder Imprinting Rates (IR) and Time Duration (TD) of Strip Charts

To determine how often the variable will be printed (IR) and how long the chart will last (TD) on all Amprobe Strip Chart Recorders, see Chart below. Note: To find spikes, sags, surges, see No. 2T970.

## CHART SPEED

| | 1" / Hr | | 6" / Hr | | 12" / Hr | | 24" / Hr | |
|---|---|---|---|---|---|---|---|---|
| **Non-Take-Up Reel Models** | **IR** | **TD** | **IR** | **TD** | **IR** | **TD** | **IR** | **TI** |
| Single Variable & Time Sharing (30 Ft. Chart) | 1 per min. | 15 days | 1 per 10 sec. | 2½ days | 1 per 5 sec. | 30 hrs. | — | — |
| **Take-Up Models** | | | | | | | | |
| Single Variable (30 Ft. Chart) | 1 per 2.5 sec. | 15 days | — | — | 1 per 2.5 sec. | 30 hrs. | 1 per 2.5 sec. | 1 hr |
| Single Variable (60 Ft. Chart) | 1 per 2.5 sec. | 30 days | — | — | 1 per 2.5 sec. | 60 hrs. | 1 per 2.5 sec. | 3 hr |
| Time Sharing (30 Ft. Chart) | 1 per 60 sec. | 15 days | 1 per 10 sec. | 2½ days | 1 per 5 sec. | 30 hrs. | — | — |
| Time Sharing (60 Ft. Chart) | 1 per 60 sec. | 30 days | 1 per 10 sec. | 5 days | 1 per 5 sec. | 60 hrs. | — | — |

## TEMPERATURE RECORDER SPECIFICATIONS AND ORDERING DATA

| Temperature Ranges (°F) | Probe† | Take-Up Reel | Chart Speed (In. / Hr.) | Amprobe Model | Stock No. | Each | Shpg. Wt. |

| **J** | Bare Wire | 32° to 1190 | 6 ft. Thermocouple | TC-6 | **3T447** | **19.80** | 0.2 |

## STRIP CHARTS FOR TEMPERATURE RECORDERS ABOVE

| Used with Nos. | Temperature Range (°F) | Chart Length (Ft.) | Amprobe Model | Stock No. | Each | Qty. / Pkg. | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| **1T059 or 1T063** | –3.5 to 118 | 30 | 3118B | **1T065** | **$45.20** | 6 | 0.5 |
| **1T059 or 1T063** | –40 to 60 | 30 | 4060B | **1T064** | **45.20** | 6 | 0.5 |
| **1T059 or 1T063** | 70 to 210 | 30 | 70210B | **1T066** | **45.20** | 6 | 0.5 |
| **1T622** | 32 to 272 & 212 to 452 | 60 | 452F-6B | **2T989** | **78.20** | 6 | 1.0 |
| **1T622** | 390 to 830 & 750 to 1190 | 60 | 1190F-6B | **1T715** | **78.20** | 6 | 1.0 |

# STRIP CHART RECORDERS

- For complete descriptive information on recorders, recorder imprinting rates and time duration of strip charts, see nearby page
- Models with true RMS sensing capability are for conditions where power does not have a pure sine wave signal

**NOTE:** See the Index for recorders which record spikes, sags, surges, kilowatt/amperes, events, temperature, humidity, and pressure also available.

## AC VOLTAGE RECORDERS

### VOLTAGE RECORDER SPECIFICATIONS AND ORDERING DATA

| Volts | Phase AC | True RMS | Take-Up Reel | Chart Speed In. / Hr. | Amprobe Model | Stock No. | Each | Shpg. Wt. |

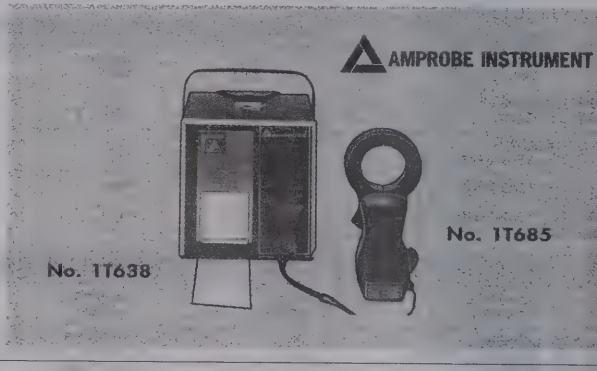
*) Time sharing recorder—can be set up to record up to 3 voltage readings (phase voltages or separate circuits) on one chart.
†) Time sharing recorder—can be set up to record up to 3 AC current readings (phase currents or separate circuits) on one chart.
#) Time sharing recorder which can record single phase voltage and current on one chart. (‡) Limited Availability - contact local branch.

# STRIP CHART RECORDERS

## KILOWATT/AMPERE RECORDER MODULES



- Provide a permanent record. Easy loading chart paper
- Neat, pressure sensitive chart paper
- Operate in any position
- Access window for making notes on chart
- Portable models
- Select from take-up reel or nontake-up model
- Monitor power consumption or current load over a period of time
- Requires KW/ampere transducer, Stock No. 1T685 or No. 1T684 (not included, order below)
- 800A AC range
- No. 1T637 features a take up reel
- Operates on 115V AC, 60 Hz; line cord supplied

| Kilowatts | When Used w/Transducer | Chart Spd. in./Hr. | Amprobe Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|

### RECORDER CHARTS

**No. 2T450.** 30 ft. chart for 1T638. 6 rolls per box. Amprobe brand (840W82B). Shpg. wt. 1.0 lbs. Each ..... $45.2

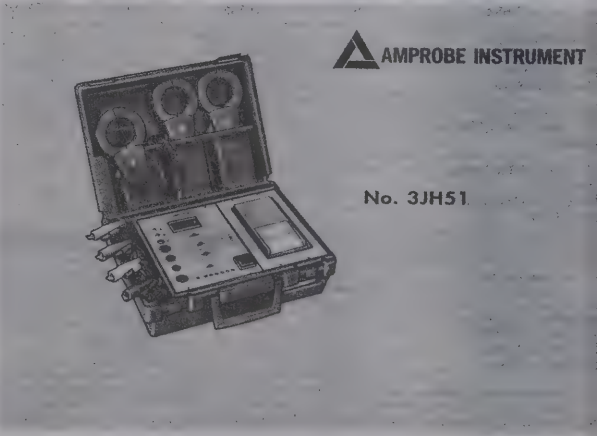
**No. 2T983.** 60 ft. chart for 1T637. 6 rolls per box. Amprobe brand (840W82-6B). Shpg. wt. 1.0 lbs. Each ..... $78.2

## KILOWATT/AMPERE TRANSDUCERS

- Measures kilowatts, 1 phase
- Measures amperes AC, 1 phase
- Determine KVA and power factor
- May be used with any digital multimeter that will accept standard banana plug test leads and has ranges of 0-2, 10, or 20V AC/DC; and a 10 megohm input impedance
- Jaw capacity 2" diameter or 2000 MCM
- Case voltage breakdown 3000V AC
- May be used with an accessory recording module No. 1T638 or No. 1T637 to record the power (KW) up to 400KW or current up to 800 amperes

**No. 1T684.** Amprobe brand (AW-81).. Shpg. wt. 2.0 lbs. Each ..... $389.00

**No. 1T685.** Amprobe brand (AW-80).. Shpg. wt. 2.0 lbs. Each ..... $349.00



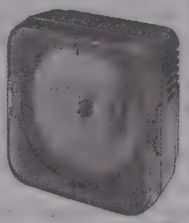
**Specifications:**

- No. 1T685 ranges: 0-1000 amps AC (50-60Hz); 0-20/200KW (single phase) with voltage input of up to 240V AC (+10% maximum) and current input of 0-150A/1000A (50-60Hz)
- No. 1T684 ranges: 0-1000 amps AC (50-60Hz); 0-40/400KW (single phase) with input of 208-550V AC (+10% maximum) and current input of 0-150/1000 amps AC (50-60Hz)
- Accuracy: KW, ±2.8% of reading; amps, ±2% of reading based on Sinusoidal Waveform
- Circuit protection: overload protected to 2000 amps AC and 400V AC No. 1T685; 600V AC No. 1T684

## PORTABLE KWH RECORDER

- Records watts/vars or KWH
- Works on balanced or unbalanced systems and three phase or single phase systems
- Leads are 5' long and can be extended to 100' using 18-gauge copper wire
- Current range: 0-200/400/800 amps
- Voltage range: 0-120/208/220/240/277/480/550 VAC
- Accuracy (typ.): Watts ± 3% full scale; vars. ± 4% full scale
- Complete with test leads, case, and 3 current transducers and instructions

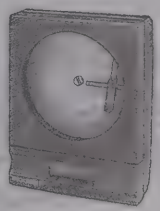
**No. 3JH51.** Amprobe brand (LAW78KWH-T-12). Shpg. wt. 8.0 lbs. Each ..... $1646.00



## SUPER COMPACT TEMPERATURE RECORDER

Verify the temperatures of food and other perishable products during transport. Rugged, compact case and special ranges for refrigeration, freezers, incubators and ambient conditions. Dual range capability (Celsius or Fahrenheit recording determined by the chart used on the recorder). Optional tamper seal can be used to insure integrity of the chart.

- Chart Size: 3", Case Size: 3.6 x 3.6 x 2.2"
- Temperature Sensor: Spiral wound bi-metal
- Accuracy: +2°F, (+1°C) of full scale
- Mounting: Free standing, wall mounted or suspended
- Includes "AA" battery and one pen
- Order charts below



| Range | Rotation | Dickson Model | Stock No. | Each | Shpg Wt. |

## DISPOSABLE TEMPERATURE RECORDER

This one-use recorder is suitable for proving the integrity of shipments with temperature critical storage parameters. Includes a tamper proof starting tab, document of shipment sheet and mounting tape.

- Accuracy: +1°F (0.6°C) from 10° to 70°F (-12° to 21°C)
- Chart Type: Pressure sensitive strip 32" to 43" long, 3 1/16" wide
- Spiral wound bi-metal sensor
- Operating Range: -20° to 135°F (see specific ranges below); 0 to 95% RH (Non-condensing)
- Dimensions: 7.18 x 5.75 x 2.12"

| Range | Recording Time | Dickson Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|

## K-THERMOCOUPLE REMOTE SENSING TEMPERATURE RECORDERS

Monitor and record temperature using a K-Thermocouple probe. Accept any type "K" thermocouple plug-in probe with mini-connector. Digital display and 8" diameter chart for easy-to-read results. No. 3JG77 for mid-range temperature recording, No. 3JG79 for high temperature recording.

- **User selection of chart rotation time (1, 7 & 31 day) and temperature range**
- **No. 3JG77 Temperature Ranges: –50 to 50°F/C, 0 to 100°F/C, 0 to 250°F/C, or 0 to 500°F**
- **No. 3JG79 Temperature Ranges: 0 to 250°F/C, 0 to 500°F/C, 0 to 1000°F/C, or 0 to 2000°F**
- **No. 3JG77 Sensor: Flexible 4 ft. bead wire K-thermocouple probe, teflon coated**
- **No. 3JG79 Sensor: 6" high temperature basic K-thermocouple probe with 4 ft. teflon coated cable**
- **Temperature Accuracy: ± 0.3% of reading, ±1°C (±1.8°F)**
- **High/low audio-visual alarm**
- **User calibration**
- **Min./Max. function**
- **Power Supply: 120V AC adapter (4 "D" batteries for back-up power not included)**
- **Dimensions: 10.5 x 13.2 x 2.8"**
- **Includes one probe, one pen, and one box of charts (No. 3JG77 0 to 100°F/C) (No. 3JG79 0 to 1000°F/C)**

## DUAL-PEN TEMPERATURE RECORDER WITH DATA LOGGING

- **Recorder accuracy: ±.5% of chart range and ±1.8°F (1°C) recorder only**
- **User selection of chart rotation time (1 and 7 day) and temperature range (all F or C) 0 to -100°, 0 to -50°, -50 to 50°, 0 to 50°, 50 to 100°, 0 to 100°, 0 to 250°, 0 to 500° (F only)**
- **Chart size: 6", case size: 7 9/16 x 7 9/16 x 3 1/4", Panel cut-out dimensions: 6.9 x 6.9 (DIN compatible)**
- **Sample interval: 1 min. in 24 hour mode, 6 min. in 7 day mode**
- **Data logger stores: 3,840 sample points (1,920 each pen)**
- **Software: Microsoft Windows™ 3.1, Windows™ 95, Windows™ NT and Windows™ 98 compatible**
- **Download free demo software at www.loggerdemo.com**
- **Power supply: 120VAC adapter ("9V" battery back-up)**
- **LCD display, SPST alarm/relay contact with independently adjustable Min./Max. set points, user calibration**
- **Alarm contact: 24V/.5A SPST normally open contact**
- **Includes two pens, 9V battery, 60 charts, two 4 ft. K-Type teflon coated bead probes**

## MICROPROCESSOR-BASED TEMPERATURE/HUMIDITY RECORDER WITH DATALOGGING

- Temperature Accuracy: ±2°F (±1°C)
- Humidity Accuracy: ±0.5% FS, ±2% RH from 0 to 60%, ±0.5% FS, ±3% RH from 61 to 95%
- Temperature Ranges for self-contained models (Nos. 4JZ04 & 4JZ05): 32° to 100°F and 0° to 38°C
- Temperature Ranges for remote probe model (No. 4JZ06): 0° to 100°F, 0° to 85°C, 0° to 185°C, and 0° to 50°F
- Humidity Range: 0 to 95% (non-condensing)
- Chart Size: 6", Case Size: 7⁹⁄₁₆ x 7⁹⁄₁₆ x 3½", Panel Cut-Out Dimensions: 6.9 x 6.9" (DIN compatible)
- User selection of chart rotation time (1 & 7 day) and temperature range
- Datalogger Sample Rate: Samples once every 10 seconds and stores an average reading once every 5 minutes
- Datalogger stores 2000 temperature, 2000 humidity points
- Temperature Sensor: High precision thermistor
- Humidity Sensor: Capacitance type
- Power Supply: 120V adapter ("9V" battery back-up)
- LCD display (Nos. 4JZ05 & 4JZ06 only), audible alarm, remote probe, alarm and relay contacts (No. 4JZ06 only)
- Power Status: LED indicator
- Includes two pens, and 60 charts (0° to 100°F)
- Optional: Software and interface cable No. 4TK83

## TEMPERATURE/HUMIDITY/DEW POINT RECORDER

- Records and displays temperature and humidity or temperature and dew point
- Flexible design allows user to choose temperature range, °C or °F, humidity, or dew point recording, and rotation time (1, 7, or 31 day)
- Temperature Ranges: –20° to 120°F, 40° to 110°F, –20° to 50°C, 5° to 40°C
- Temperature Accuracy: ±1.8°F (±1.0°C)
- Humidity Accuracy: ±2% between 0 and 60%, ±3% between 61 and 95%
- High/low audio-visual alarm for all variables
- User calibration of all variables
- Remote sensing capability with optional extension cord No. 6T592
- Dimensions: 10.5 x 13.2 x 2.8" with 8" diameter chart
- Includes two pens, AC adapter, one box of 60 "C417" charts (–20° to 120°F, 7 day)

# PRESSURE RECORDERS AND UNIVERSAL INPUT RECORDER

## PRESSURE RECORDERS

- Applications include pipelines, gas distribution and pressure stations, and service and investigatory work in plant maintenance
- Accuracy (typ.): ± 2% FS; battery chart movement
- 4" minicorder packs 7 day or 24 hour pressure recording capability into compact, stem/wall mountable case
- Pressure measuring elements (heat treated) prevent hysteresis-related inaccuracies
- Dial assembly mounted in strong, all-metal case; door sealed against rubber gasket by spring latch
- 1/4" NPT connection
- Case Size: 5¼ x 5¼ x 4"
- Include one box of 60 charts, pen, "AA" alkaline battery, and instructions

| Range (PSI) | Rotation | Dickson Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 0 to 100 | 7 Day | PR4-100P-B-7-S | 2T468 | $349.00▲ | 5.0 |

## WEATHER-RESISTANT PRESSURE RECORDER

Pressure recorder is housed in a fiberglass NEMA 4X case which provides protection against corrosion, windblown dust and rain, splashing water, and hose-directed water.

- Accuracy: ± 2% full scale; battery chart movement
- Chart Type: 4" diameter
- Response Time: 1 to 5 seconds
- Mount: 1/4" male NPT connection
- Case Dimensions: 6.5H x 6.9W x 4.25"D
- Includes one box of 60 charts, pen, "AA" battery, and instructions

| Range (PSI) | Recording Time | Dickson Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 0 to 100 | 24 Hour | PW401 | 3LC58 | $449.00▲ | 2.0 |

## UNIVERSAL INPUT RECORDER

Features selectable output ranges, recording times and alarm levels. Remote sensing capability with powered voltage or optional current transmitters. Screw terminals provide easy connection of input transmitter. Microprocessor controlled.

- Input Ranges: 0-20mA, 4-20mA, 0-5Vdc, 1-5Vdc
- Output Ranges: User selectable including decimal point placement

| | | | |
|---|---|---|---|
| 0 to 10 | 0 200 | 0 to 45 | 150 to 250 |
| 0 to 100 | 0 to 2000 | 0 to 500 | -20 to 50 |
| 0 to 1000 | 0 to 250 | 0 to 60 | -20 to 120 |

| 0 to 150 | 0 to 300 | -.10 to .10 | -50 to 50 |

- Accuracy: Approximately 0.3% full scale ±1 digit (recorder only)
- Sensor Capability: Any powered voltage or current transmitter with specified recorder input
- Ambient Operating Conditions: 32° to 122°F (0° to 50°C); 0 to 90% RH (non-condensing)
- Chart Size: 8" diameter
- User calibration, alarms, Min./Max.
- Power Supply: 120V AC adapter (4 "D" back-up batteries not included)
- Dimensions: 10.5 x 13.2 x 2.8"
- Includes pen, one box of 60 charts (0 to 100, 7 day), AC adapter

**No. 3JG76.** Dickson brand (ESx). Shpg. wt. 12.0 lbs. Each ..... $629.00▲

## DIFFERENTIAL PRESSURE RECORDER

- Ideal for isolation and clean room pressure recording
- Accuracy: ±.004 ±3% of full scale
- User selection of chart rotation time (1, 7 & 31 day) and pressure range
- Output Range: User selectable (inches of water column) –.10 to .10, –.15 to .25, 0 to .15, 0 to .25
- Sensor: Differential pressure (subject to no greater than 1" water column)
- High/Low audio-visual alarm
- Power Supply: 120V AC adapter (4 "D" back-up batteries not included)
- Min./Max. function
- Dimensions: 10.5 x 13.2 x 2.8"
- Includes pen, starter box of 8" charts, 6 ft. of tubing, AC adapter, and instruction manual

**No. 4JZ03.** Dickson brand (PRxA).
Shpg. wt. 8.5 lbs. Each..... $899.00▲

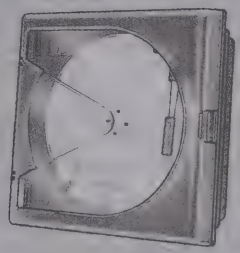
# CHART RECORDERS AND DATALOGGERS

## ON/OFF EVENT RECORDER

**DICKSON**
*The Leader In Recorders*

- Records the exact time equipment is energized and the duration of each operation or cycle
- Indicates faulty or abnormal operating of thermostats, controllers, motors, or heating units
- Records total down-time of conveyors, assembly lines or other intermittently operated electrical equipment
- Designed for parallel connection across the line or device terminals
- Used with units of any size operating on standard 120V to 240V AC
- Case Size: 6¼W x 6¼H x 3½"D
- 24 hour chart recording
- Wall mountable
- Five ft. alligator clip cords
- Includes one box of 60 charts, battery, pen and instruction manual



No. 2T470

**o. 2T470.** Dickson brand (EV4-02). Shpg. wt. 5.0 lbs. Each ..... $379.00▲

## ANALOG SIGNAL RECORDER WITH DATA LOGGING

- Programmable recording times and ranges, and data logging
- Analog input signals (user selectable): 0-20mA, 4-20mA, 0-5VDC, 1-5VDC
- Recorder accuracy: 0.5% full scale (recorder only)
- Ambient operating conditions: 32° to 122° F (0 to 50° C), 0 to 95% RH (noncondensing)
- User selection of chart rotation time (1 and 7 day) and ranges (0 to +10, 0 to +100, 0 to +14, 0 to +200, 0 to +300, -.10 to +.10, -20 to +120, -50 to +50)
- Chart size: 6' diameter, Case Size: 7⁹⁄₁₆ x 7⁹⁄₁₆ x 3¼", panel cut-out
- Dimensions: 6.9 x 6.9 (DIN compatible)
- Sample interval: 1 min. in 24 hour mode, 6 min. in 7 day mode
- Data logger stores: 3,840 sample points (1,920 each pen)
- Software: Microsoft Windows™3.1, Windows™ 95, Windows™ NT and Windows™ 98 compatible
- Down load free demo software at www.loggerdemo.com
- Power supply: 120VAC adapter (9V battery back-up)
- LCD display, SPST alarm/relay contact with independently adjustable Min./Max. set points, user calibration
- Sensor compatibility: any powered voltage or current transmitter with specified input range
- Alarm contacts: 24V/.5A SPST normally open contact
- Power status: LED indicator
- Includes pen, 9V battery, 60 charts, instruction manual and calibration statement

NOTE: 4TK88 must accompany the initial purchase of the 4TK92 in order to operate data logging function

## VR101S VOLTAGE EVENT RECORDER SYSTEM

**FLUKE**

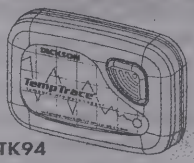
**New**

- Captures and time stamps sags, swells, transients, outages and frequency variations
- Capture limits are user selectable
- Stores up to 4,000 events
- Monitors 120V receptacles, where many critical loads get their power
- VR101S includes everything you need to get started, including EventView™ software for Windows™ and optical interface cable
- Additional VR101 recorders can be purchased separately so you can monitor several locations at once

No. 4TR07
(Laptop computer not included)

**lew No. 4TR08.** Fluke brand (VR101S). Shpg. wt. 1.0 lbs. Each ..... $595.00

**lew No. 4TR07.** Fluke brand (VR101). Shpg. wt. 1.0 lbs. Each ..... $495.00



**TECHNICAL REFERENCE LITERATURE**

## CURRENT LOOP AND VOLTAGE DATA LOGGER

- Easy to use, PC-base recording
- Current loop inputs: Number of channels, 2 - selectable between 0-20mA and 4-20mA
- Voltage inputs: Number of channels, 2 - selectable between 0-10VDC and 0-1VDC
- Sensor compatibility: Any powered voltage or current transmitter with specified input range
- Accuracy (Internal Ambient Thermistor Temperature Sensor):±.5°F(.25°C) at +77°F (.25°C). Better than 1°F (.5°) over -22 to +122°F (-30 to 50°C)
- Total number of channels: Five - 1 for on-board temperatures, 2 for voltage (0-1VDC and 0-10VDC) and 2 for current loop (0-20mA and 4-20mA)
- Data storage: 12-bit stored, 21,500 sample points (sample points depending on number of channels used)
- Sample rate: records data in configurable 10 second to 8 hour intervals
- Dimensions: 2.8 x 2.1 x .7"
- Power supply: lithium battery, 10-year life (factory replaceable)
- Input connections: removable screw-type terminal block
- Software: Microsoft Windows™ 3.1, Windows™ 95, Windows™ NT, and Windows™ 98 compatible
- 4TK89 must accompany the initial purchase of the 4TK91 in order to operate
- Download free demo software at www.loggerdemo.com1

## TEMPERATURE DATA LOGGER

- Temperature range: -40 to ±176°, -40 to +80°C (non-condensing
- Temperature accuracy: 158°F to 176°F ±2.25°F (70 to 80°C ±1.25°C), 32°F to 158°F ±1.4°F (0 to 70°C ±0.75°C), 32°F to -40°F; -2,25°F, +7.65°F (0 to -40°C; -1°C, +3.5°C)
- Data storage: 7,680 sample points
- Sample interval: records data in configurable 10 second to 24 hour intervals
- Dimensions: 3.1 x 2.1 x 0.9"
- Power supply: 3.0V lithium coin cell, 9 month life at 1-minute sampling (user replaceable)
- Memory: Non-volatile (retains data even when battery is removed) compatible
- Contact your local Grainger branch to order software and computer interface cable

***New*** **No. 4TK94.** Dickson brand (SL100). Shpg. wt. 1.0 lbs. Each..$69.00▲

## DUAL-CHANNEL TEMPERATURE DATA LOGGER

- Temperature range: -40 to +176°, -40 to +80°C (non-condensing)
- Temperature accuracy: 158°F to 176°F ±2.25°F (70 to 80°C ±1.25°C), 32°F to 158°F ±1.4°F (0 to 70°C ±0.75°C), 32°F to -40°F; -2,25°F, +7.65°F (0 to -40°C; -1°C, +3.5°C)
- Remote thermistor probe range: -40° to +248° F, -40 to +120° C
- Data storage: Single channel operation - 7,680 sample points; Dual channel operation - 3,840 point per channel
- Sample interval: records data in configurable 10 second to 24 hour intervals
- Dimensions: 3.1 x 2.1 x 0.9"
- Power supply: 3V lithium coin cell, 9-months life at 1-minute sampling (user replaceable)
- Memory: Non-volatile (retains data even when battery is removed)
- Contact your local Grainger branch to order software and computer interface cable
- Exterior probe not included. Order part number A-150 from Grainger Parts Operations

***New*** **No. 4TK95.** Dickson brand (SL120). Shpg. wt. 1.0lbs. Each.$89.00▲

## TEMPERATURE/HUMIDITY DATA LOGGER

- Temperature range: -40 to ±176° 140 to +80°C (non-condensing)
- Temperature accuracy: 158°F to 176°F ±2.25°F (70 to 80°C ±1.25°C), 32°F to 158°F ±1.4°F (0 to 70°C ±0.75°C), 32°F to -40°F; -2,25°F, +7.65°F (0 to -40°C; -1°C, +3.5°C)
- Humidity range: 25% to 95% RH (non-condensing)
- Humidity accuracy: ±5% over 25 to 95% RH range at 77°F (+25°C)
- Data storage: Single channel operation - 7,680 sample points; Dual channel operation - 3,840 point per channel
- Sample interval: records data in configurable 10 second to 24 hour intervals
- Dimensions: 3.1 x 2.1 x 0.9"
- Power supply: 3.0V lithium coin cell, 9 month life at 1-minute sampling (user replaceable)
- Memory: Non-volatile (retains data even when battery is removed)
- Contact your local Grainger branch to order software and computer interface cable

## TEMPERATURE AND HUMIDITY DATA LOGGERS

fordable PC-based recording of temperature and humidity. Selectable recording time d sample rate allow customization of the recording function.

**Temperature Range: –22° to 122°F, –30° to 50°C (non-condensing)**
**Temperature Accuracy: better than .25°C at 25°C, 0.5°F at 75°F**
**Humidity Range: 10% to 90% RH (non-condensing)**
**Humidity Accuracy: ±2% between 10% and 90% RH at 77°F (25°C)**

- **Data Storage: Single channel operation: 11-bit stored - 21,500 sample points; Double Channel Operation: 11-bit stored - 10,750 sample points**
- **Power Supply: Lithium battery, 10 year life (average). Factory replaceable**
- **Software and interface cable ordered separately; Order No. 4TK89**

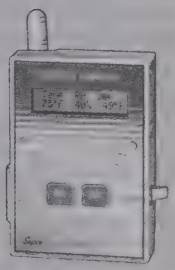
## HAND-HELD DIGITAL DATA LOGGER



**Dual function capability.—Use as a conventional hand-held instrument or to record and store data for future use**
**Include Windows™ 95 software for data analysis, review, and storage.**
**Logger automatically recognizes each probe and adapter, and becomes five different data loggers in one instrument**
**Records data up to 40 days**

- **Remote probes provide versatile operation for any logging application**
- **Menu-driven operation, set-up on site without a computer**
- **View recording instantly, or print data without the need of a computer by connecting to a parallel printer**
- **Power Supply: 115V AC adapter ("9V" back-up battery not included)**
- **Dimensions: 5⅛ x 3½ x 1½"**

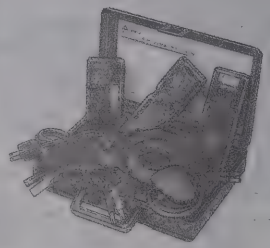
# AMPROBE AT SERIES—ADVANCED WIRE TRACING KITS



Easy to use, portable tracers designed to handle a majority of wire tracing applications.

- **Nos. 5U768 and 5U769 for use on energized circuits**
- **No. 5U770 for use on unenergized circuits only**
- **No. 5U771 for use on energized or unenergized circuits**
- **Trace conductor buried up to 13 ft.**
- **Trace and identify load-side equipment from the circuit breaker while energized**
- **Trace line-side wiring without power interruption on circuits from 9 to 600V AC or DC (No. 5U768 voltage range: 9-300V AC or DC)**
- **Trace open wires over a mile, wire in conduit or the conduit itself, locate ground faults and shorts, identify individual wires in a bundle**
- **All units are fully fused**

**Receivers:**

- **Two detectors pick up electromagnetic signals (short) or electrostatic signals (open)**
- **Sensitivity selection: x1, x10, x100 coarse gain adjustment; 0-10 fine adjustment**
- **Short/Open Mode performance: 20½ ft. in air under test conditions**
- **60 Hz rejection at 120 dB**
- **10 digit LED display**
- **ABS plastic case**
- **Operate on one "9V" alkaline battery**

**ACCESSORIES FOR WIRE TRACER KITS**

**Kit performance and capabilities may be upgraded with the addition of the accessories listed below.**

## No. 5U768

**Commercial Circuit Tracing Kit** includes receiver, load signal generator (9-300V AC or DC), two cordsets, plug adapter, and manual. Amprobe brand (AT-2001).

**No. 5U768.** Shpg. wt. 5.0 lbs. Each .....**$529.00**

## No. 5U769

**Industrial Circuit Tracing Kit** includes receiver, No. 5U778 load signal generator (9-600V AC or DC), two cordsets, plug adapter, and manual. Amprobe brand (AT-2002).

**No. 5U769.** Shpg. wt. 4.0 lbs. Each.....**$600.00**

## No. 5U771

**Industrial Multipurpose Tracing Kit** includes receiver, No. 5U778 load signal generator (9-600V AC or DC), No. 5U779 transmitter, No. 5U763 clamp-on transmitter, two cordsets, plug adapter, and manual. Amprobe brand (AT-2004).

**No. 5U771.** Shpg. wt. 5.3 lbs. Each..... **$841.00**

## No. 3JH47

**Industrial Multipurpose Tracing Kit** includes everything in No. 5U771 kit plus Battery Pack No. 5U772 and charger No. 5U773. Amprobe brand (AT-2005).

**No. 3JH47.** Shpg. wt. 7.0 lbs. Each ..... **$972.00**

## No. 5U770

**Commercial Open Tracing Kit** for use on unenergized lines only. Traces buried or hidden conductors up to a mile until break is found. Includes receiver, No. 5U779 transmitter, one cordset, plug adapter and manual. Amprobe brand (AT-2003).

**No. 5U770.** Shpg. wt. 4.5 lbs. Each..... **$554.00**

## No. 5U778

**Load Signal Generator** (included with Nos. 5U769 and 5U771 kits). Connects to an energized line to allow tracing of line side conductors when used with kit receivers. Voltage range: 9-600V AC or DC. Operating frequency: 32.768 KHz. Transmits 2 pulses with 0.0625 sec. duration every 0.5 seconds. Current Output: low mode—35 mA peak, 4 mA average; high mode 70 mA peak, 6 mA average. ABS plastic housing. Amprobe brand (S2600).

**No. 5U778.** Shpg. wt. 0.5 lbs. Each .....**$223.00**

## No. 5U779

**Transmitter** (included with No. 5U770 and 5U771 kits). Transmits a signal into an unenergized conductor to locate opens when used with kit receivers. Operating frequency: 32.768 KHz. Transmits 2 pulses with 0.0625 sec. duration every 0.5 seconds. Operates on 9V alkaline battery or with No. 5U772 24V battery booster sold separately below. Amprobe brand (T2200).

**No. 5U779.** Shpg. wt. 0.8 lbs. Each .....**$179.00**

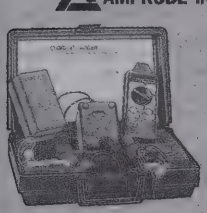
## No. 5U763

**Inductive Clamp** (included with No. 5U771 kit). Clamps around energized line and plugs into No. 5U779 transmitter. Induces a signal onto the load side to enable identification of equipment on that circuit. Amprobe brand (A2201).

**No. 5U763.** Shpg. wt. 0.7 lbs. Each..... **$172.00**

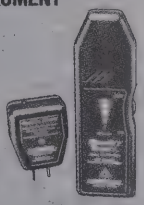
## No. 5U772

**Battery Booster.** 24V Nicad rechargeable battery will triple the output of the No. 5U779 transmitter. For use on runs over one mile or when using No. 5U763 inductive clamp on runs over 200 ft. Amprobe brand (B2024).



**No. 5U772.** Shpg. wt. 1.3 lbs. Each .....**$128.50**

## No. 5U773



**Recharger/Converter.** 115V AC/24V DC converter to recharge No. 5U772 battery booster (in 8 hours) or to directly boost No. 5U779 transmitter. Amprobe brand (B2025).

**No. 5U773.** Shpg. wt. 1.0 lbs. Each .....**$37.25**

## AMPROBE CT SERIES—CIRCUIT TRACER KITS

**For energized circuits—without power interruption**

**Typical applications: locate breakers, neutral/ground lines, shorts and ground faults; locate and follow wires in floors, walls, conduit, computer cables, controls, alarms and under carpet wiring**

**Both models include carrying case, 9V battery, spare fuse**

**No. 6T378 includes probe, transmitter, pigtail connector and power cord**

**No. 3T029 features a minimum long range capability of 13.0 feet to detect telephone wires, traffic signal wires, highway lighting wires, and CATV cables beneath city streets. Includes probe, transmitter, earphone, power cord, high voltage converter, pigtail connector, adapter, and power cord**

SPECIFIC APPLICATIONS FOR CT SERIES VOLTAGE RANGES

9-50V AC/DC:

- Locate fuses
- Trace computer cables, relay control panels
- Trace control wiring for HVAC and security/fire alarms
- Pinpoint shorts to ground in control wiring, cars, boats, aircraft, security/fire and HVAC

50-140V AC/DC:

- Locate circuit breakers, mains, transformers
- Identify neutral lines for installing GFI breakers, one line diagrams
- Pinpoint shorts to ground in distribution systems, equipment, under carpet wiring, heating cables
- Follow path of Romex or wires in conduit through walls, floors, ceilings

140-600V AC only:

- Trace 480-600V Delta or Wye system circuits

| Voltage Range Capability | | | | | | Amprobe Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|---|---|
| 9-50V AC / DC | 50-140V AC / DC | 140-600V AC | 6-300V AC / DC | 9-300V AC / DC | 300-600V AC | | | | |
| — | — | — | — | Yes | — | CT100 | **6T378** | **$362.00** | 2.8 |
| Yes | Yes | Yes | Yes | — | Yes | CT326B | **3T029** | **809.00** | 5.0 |

### GREENLEE No. 6T095

**Traces power without interrupting circuits**

**Voltage range 9 to 300V AC and DC 50/60 Hz**

**Applications Include:**

**ocate and identify breakers and fuses**

**race concealed wiring in walls, under floors, and underground**

**ocate junction box, relays, transformers, and switches**

**race wiring in conduit**

**ind shorts to ground**

**Includes receiver, transmitter, adapter plug, receptacle blade, test lead, 9V battery, and carrying case**

**Limited lifetime warranty**

**. 6T095.** Greenlee brand (2007).Shpg. wt. 2.9 s.Each.....$376.00

### IDEAL CIRCUIT BREAKER IDENTIFIER KIT No. 3ZK29

**Positively identify circuit breakers or fuses without guesswork or service interruption**

**Plug-in transmitter lets one person test, identify, and troubleshoot single-phase 120V energized outlets or incandescent light fixtures**

- Multi-functional E-Z Check® Plus transmitter verifies proper wiring sequence and GFCI operation
- Hand-held receiver, with adjustable sensitivity level, identifies specific circuit breakers or fuses with a flashing LED light and audible tone as the operator scans the box

**No. 3ZK29.** Ideal brand (61-052). Shpg. wt. 0.5 lbs.. Each.....$58.65

**No. 3ZK31.** Replacement Transmitter. Ideal brand (LA-2246). Shpg. wt. 0.2 lbs. Each.....$35.40

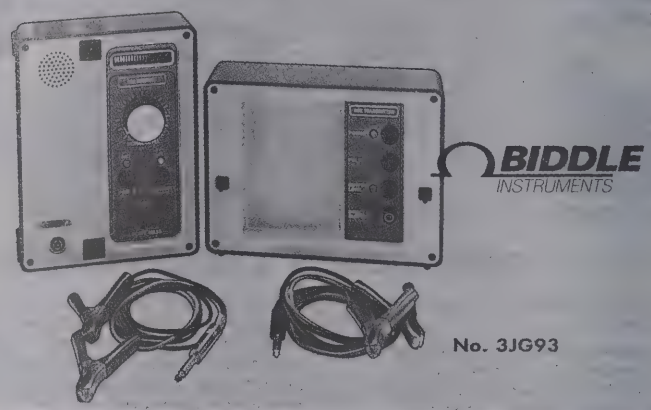
**No. 3ZK32.** Replacement Receiver.Ideal brand (LA-2247). Shpg. wt. 0.4 lbs. Each.....$41.35

### ETCON No. 5U745

- Circuit tracer quickly and easily traces branch circuits
- Locates circuit breakers, fuses, control circuits, hot neutral and ground wires, conduit, and short circuits in walls and underground
- Voltage range 24 to 300V AC
- Easy-to-read LED display; provides audible and visual indication
- Not affected by line noise from computers, dimmers, and surge protectors
- Includes receiver, transmitter, tracing leads, and instructions. (9V batteries not included, see Index under Batteries, Transistor)

**No. 5U745.** Etcon brand (CP115). Shpg. wt. 0.8 lbs. Each.....$186.00

### AMPROBE No. 3JH48



- Identify circuit breakers or fuses in 120V circuits
- For residential applications
- Audible tone and LED display
- Adjustable sensitivity
- Made in the USA
- UL Listed
- Uses 9V battery (not included)
- Includes instructions

**No. 3JH48.** Amprobe brand (BT-100). Shpg. wt. 2.0 lbs.. Each.....$39.85

# CABLE TRACERS

## SPLIT-BOX PIPE AND CABLE LOCATOR No. 3JG93

- Energized or de-energized lines tracing
- Trace buried cable without digging up the cable
- Conductive or inductive coupling
- Virtually indestructible
- Mass locator capabilities
- Peak and null detection capabilities
- Hand-held and lightweight
- Output frequency: 126 kHz
- Includes: Four C batteries, protection tote bag, 3' direct-connect cable, ground rod, and instructions

No. 3JG93

**No. 3JG93.** Shpg. wt. 7.0 lbs. Each .....$920.00

## PREFIXES AND CONVERSION FACTORS

The conversion factors shown below are among those found most useful to instrument engineers. They are accurate to four or five places. Higher accuracy is almost never warranted in industrial instrumentation except in special cases.

Shown also is a set of prefixes, some of which are in common use, as in megatons, kilowatts, millivolts, and centimeters, to indicate decimal multiples and submultiples of units. These prefixes are internationally accepted.

### PREFIXES

| | | | | | | | | |
|---|---|---|---|---|---|---|---|---|
| $10^{12}$ | tera | (T) | 10 | deka | (da) | $10^{-9}$ | nano | (n) |
| $10^{9}$ | giga | (G) | $10^{-1}$ | deci | (d) | $10^{-12}$ | pico | (p) |
| $10^{6}$ | mega | (M) | $10^{-2}$ | centi | (c) | $10^{-15}$ | femto | (f) |
| $10^{3}$ | kilo | (k) | $10^{-3}$ | milli | (m) | $10^{-18}$ | atto | (o) |
| $10^{2}$ | hecto | (h) | $10^{-4}$ | micro | (μ) | | | |

### LENGTH

Centimeters – cm
x 0.394 = Inches

Feet – ft.
x 30.48 = Centimeters
x 0.3048 = Meters

Inches – in.
x 2.540 = Centimeters

Meters – m
x 3.281 = Feet
x 39.37 = Inches
x 1.094 = Yards

### VOLUME

Cubic Centimeters – cu. cm or $cm^3$
x 0.06102 = Cubic inches

Cubic Feet – cu. ft.
x 28320 = Cubic centimeters
x 7.481 = Gallons

Cubic Inches – cu. in.
x 16.39 = Cubic centimeters

Gallons – gal.
X 8.322 = Pounds of water

Liter – l
x 0.2642 = Gallons

### TEMPERATURE

Degrees Celsius – °C
(°C x 9/5) + 32 = °F

Degrees Fahrenheit – °F
(°F - 32) x 5/9 = °C

### WEIGHT

Kilograms – kg
x 2.205 = Pounds

Pounds – lb.
x 453.6 = Grams

### LIGHT

Lux
x 0.0929 = Foot candle

# SEMICONDUCTOR TESTERS, LCR METERS, AND PROBE METER

## SEMICONDUCTOR TESTERS

### [A] B&K PRECISION No. 6T079

**Large, high contrast, 0.8" digit LCD readout**

**26 user ranges for versatile test selection**

**Capacitance range: 0.1pF to 20mF**

**Resistance range: 0.1Ω to 20MΩ**

**Use for testing transistors, SCRS, diodes, LEDs, and batteries under actual load conditions**

**Drop proof at 5 ft.**

**Includes heavy-duty case and tilt stand for bench-top use**

**o. 6T079.** B&K Precision brand (815). Shpg. t. 1.0 lbs. Each ..... **$99.00**

### [B] B&K PRECISION No. 1T156

**Industrial transistor tester**

**Tests diodes, SCRs, FETs, and Darlingtons**

**High/Low drive**

**Works in-circuit**

**Identifies all three transistor leads**

**Random lead connection**

**Audibly and visually indicates good transistor**

**Automatic NPN/PNP determination**

**Positive Si/Ge identification**

**Collector Current: 125mA**

**Base Current: 1mA (LO) or 250mA (HI) at 4% duty cycle**

**Includes 3 test leads with mini-lock clips**

**CSA Certified (LR29957)**

**o. 1T156.** B&K Precision brand (520B). Shpg. t. 5.0 lbs. Each ..... **$435.00**

### [C] B&K PRECISION No. 1T155

**Portable transistor tester**

**In/out-of-circuit tests for good/bad transistors, FETs, SCRs, and Darlingtons**

**Identifies transistor as NPN or PNP and P- or N-channel FETs**

**Identifies FET gate lead, all transistor leads in Low drive, base lead in High drive and all leads of SCR**

**Collector Current: 125mA**

**Base Current: 250mA or 1mA**

**Includes 3 test leads with mini-lock clips and carrying case**

**o. 1T155.** B&K Precision brand (510). Shpg. t. 1.0 lbs. Each ..... **$265.00**

## LCR METERS

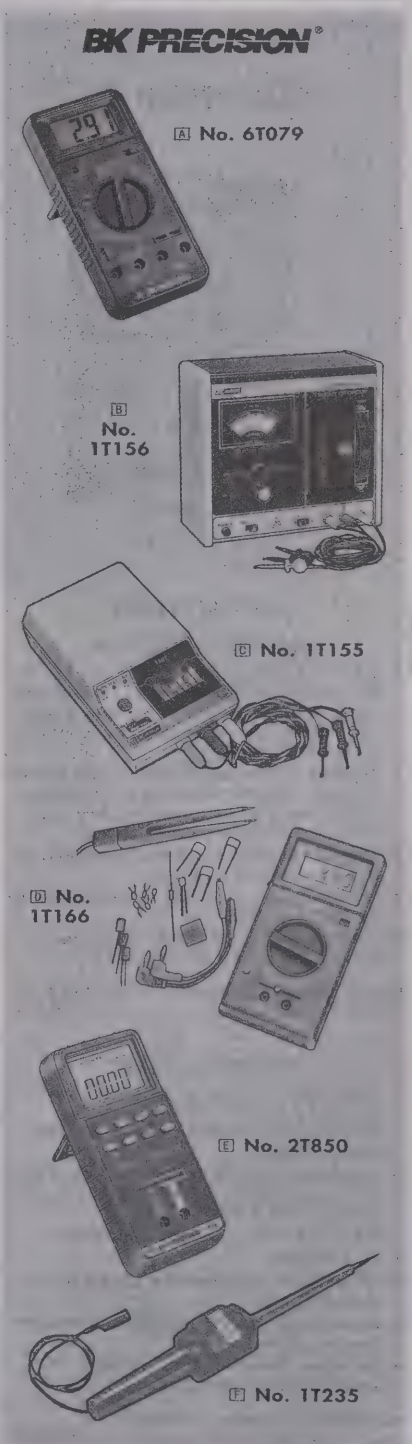
### [D] B&K PRECISION No. 1T166

- **Nine capacitance ranges from 200pF to 20mF**
- **Seven resistance ranges from 2Ω to 20MΩ**
- **Seven inductance ranges from 200mH to 200H**
- **3½ digit LCD display**
- **Function and ranges are manually selected**
- **Accuracy (typ.): capacitance, ≤0.5mF ±1% ±1 digit; resistance, ≤1M ±1% ±1 digit; inductance, 2H ±1%**
- **Low battery and overload indicator**
- **Includes test leads, test clips, battery, and spare fuse**

**No. 1T166.** B&K Precision brand (875B). Shpg. wt. 1.5 lbs. Each ..... **$189.00**

### [E] B&K PRECISION No. 2T850

- **Used in component design, inspection, selection, and as a teaching aid**
- **Measures inductance, capacitance, resistance, and loss factor of electronic components**
- **23 capacitance, inductance, and resistance ranges**
- **Typical accuracy ±0.7% of reading**
- **Ranges: inductance, 0.1μH to 10,000H; capacitance, 0.1pF to 10,000μF; resistance, 0.001Ω to 10MΩ**
- **Dissipation and quality factor measurements at 120Hz or 1kHz**



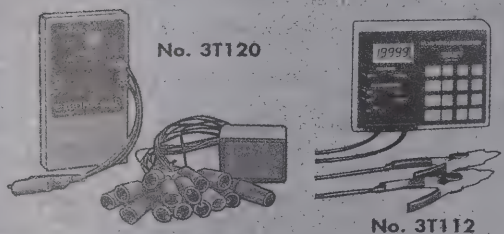
**No. 2T850.** B&K Precision brand (878). Shpg. wt. 4.5 lbs. Each ..... **$275.00**

## HI-VOLT PROBE METER

### [F] B&K PRECISION No. 1T235

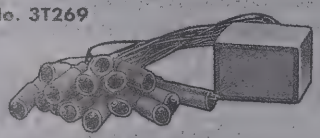
- **Measures voltages up to 40,000V DC; for use in low energy applications**
- **Factory calibrated at 25KV (±2% accuracy); full scale ±3% accuracy**
- **Positive polarity only**
- **Includes two tips: conventional round needle type and flat spring type to access CRT anode**

**No. 1T235.** B&K Precision brand (HV-44A). Shpg. wt. 1.0 lbs. Each..... **$109.00**

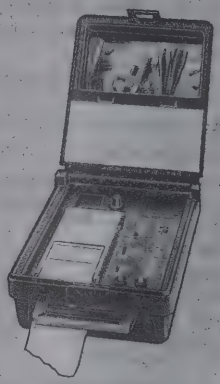


# WIRE SORTERS, WIRE LENGTH METER, AND SPIKE-SAG-SURGE RECORDER

GREENLEE® ETCON AMPROBE INSTRUMENT



No. 3T119



No. 3T120

No. 3T112

No. 3T269

No. 2T970

## WIRE SORTERS

### GREENLEE No. 3T119

- Sorts 10 wires simultaneously; ideal for one-man wire sorting; simplifying cable identification; indicating opens; identifying shorts to ground, conduit, or multiple lines
- Typical system applications: air conditioning control, telephone, computer harnessing, burglar alarm, fire control, and remote control systems
- Digital readout identifies each line at distances up to 3 miles
- Withstands accidental contact with up to 120V AC/DC
- Two-piece digital readout system in drop protected carrying case

**No. 3T119.** Greenlee brand (5775VS). Shpg. wt. 3.8 lbs. Each..... $345.00

### ETCON No. 3T120

- Sorts up to 15 wires with no known ground path, 30 wires using No. 3T269 additional remote unit (order above right)
- Maximum wire length based on 250Ω maximum load; (24 AWG) 1 mile, (12 AWG) 14.9 miles
- Open end short circuit indication
- LCD display
- Withstands accidental voltage up to 280V AC/DC
- Requires four "9V" alkaline batteries (not supplied)
- Includes identifier unit, remote unit, leads, and carrying case

**No. 3T120.** Etcon brand (WS144). Shpg. wt. 1.5 lbs. Each.....$355.00

## WIRE SORTER REMOTE UNIT

### ETCON No. 3T269

- Provides No. 3T120 wire sorter the capability of sorting up to 30 wires. Includes case

**No. 3T269.** Etcon brand (WS144-30). Shpg. wt. 0.5 lbs. Each..... $201.25

## SPIKE-SAG-SURGE RECORDER

- Monitors line and records voltage dips (sags), voltage increases (surges), and high frequency impulses (spikes)
- Determines if, and what type, line protection is necessary to protect electronic equipment
- 0-220/440/880V, full scale, 50 or 60 Hz, 1 phase
- Solid state circuit design
- Low battery indication
- Easy loading chart paper
- All three disturbances appear on the same chart
- Requires two "9V" alkaline batteries (not supplied)

### ACCURACIES

Voltages (nominal) are ±3%FS. Voltages (sag and surge) are ±3%FS, or ±2% reading based on sinusoidal waveforms, with a 1/2 cycle response time. Voltages (spike) are ±3%FS, ±10% reading, specified for a rectangular pulse with a rise time greater than 35 nanoseconds and with a sum of rise plus peak duration of at least 350 nanoseconds. Accuracy for more narrow spikes diminishes.

**Input Impedance:** 220V range—387K ohr (±1%)/15pf, for 440V range—784K ohr (±1%)/15pf, and for 880V range—158( ohms (±1%)/15pf. **Threshold Adjustme Range:** Surge and spike adjustable from to 100%. Sag is adjustable from 0% to 50 **Line Power:** 120 VAC, 60 Hz, 9 Watts (50 I Available). **Chart Speed:** 12"/Hour. **Line Fu** .2 Amp, 250V. **Input Overload:** 50% Full Sca for 1 min.

**No. 2T970.** Amprobe (LAS-800). Shpg. wt. 4.5 lbs. Each..... $1111.0

### REPLACEMENT CHARTS FOR 2T970

- 30 ft. long; 6 charts per box

**No. 2T982.** Amprobe brand (800SB). Shpg. wt 1.7 lbs. Each..... $78.2

## WIRE LENGTH METER

- Measures wire length on reel from 2 AWG to 1000 MCM, stranded and solid, in lengths of 15 ft. to 20,000 ft.; accuracy ±1%
- Useful for electrical contractors, utilities, and warehouses when determining inventories of wire
- Microprocessor based meter with a 4½ digit LCD readout
- Direct readout for both copper and aluminum wire
- Automatic internal adjustment for ambient temperature
- Unique calibration mode measures nonstandard gauge wire
- Only one alligator clip attachment required at each end of wire
- Includes case, alligator clip assemblies, test probe assemblies, two "9V" and four "D" alkaline batteries

**No. 3T112.** Etcon brand (WL140). Shpg. wt. 5. lbs. Each..... $1102.0

## DIGITAL LOGIC PROBE

### No. 1T231

**Multi-family compatible (TTL and CMOS)**

**Displays pulse presence and logic states**

**Memory mode latches single pulse transition**

**Captures pulses as narrow as 30nS and pulse trains to 20MHz**

**1 megohm input impedance**

**o. 1T231.** B&K Precision brand (DP-21).
hpg. wt. 0.3 lbs. Each..... $35.00

## DIGITAL PULSER PROBES

### B&K PRECISION No. 1T232

**Multi-family compatible (TTL or CMOS)**

**Produces 10μ pulse signal at 100mA**

**5Hz or 400Hz pulse rate**

**External square wave terminal and sync input point**

**o. 1T232.** B&K Precision brand (DP-31A).
hpg. wt. 0.3 lbs. Each..... $35.00

### B&K PRECISION No. 1T233

**Displays pulse presence, and logic states to 50MHz**

**Multi-family compatible (TTL and CMOS)**

**Captures 10nS pulse**

**o. 1T233.** B&K Precision brand (DP-52).
hpg. wt. 0.5 lbs. Each..... $45.00

## AC POWER SUPPLIES

### B&K PRECISION No. 1A835

**Variable-isolated output 0-150V AC**

**Power line leakage tester with expanded leakage scale**

**3 amp continuous, 4 amp intermittent output**

**Built-in solid state soldering iron temperature control**

**Circuit breaker overload protection**

**Displays volts, amps, VA, leakage**

**Volt/Amp ranges: 0-240 VA, 0-480 VA @ 120V AC**

**o. 1A835.** B&K Precision brand (1655).
hpg. wt. 22.0 lbs. Each..... $545.00

### B&K PRECISION No. 1T201

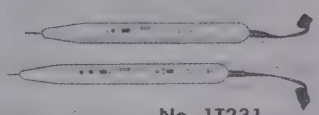
- **Variable-isolated 0-150V AC output**
- **2 amp continuous output**
- **Displays voltage or current readings**
- **Isolation transformer prevents shock hazard**

**No. 1T201.** B&K Precision brand (1653A)
Shpg. wt. 15.0 lbs. Each..... $319.00

## ISOLATION TRANSFORMERS

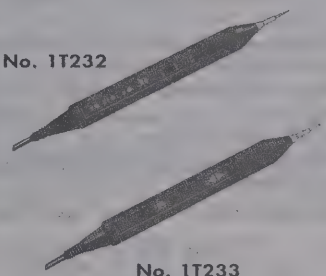
### B&K PRECISION No. 1T193

- **Provides safety factor when servicing "hot chassis" equipment**
- **Isolation leakage less than 0.1mA**
- **Output voltage of 117-124V nominal (120V input)**
- **Output current of 1.25A continuous (2A intermittent)**



**No. 1T193.** B&K Precision brand (1604A).
Shpg. wt. 6.0 lbs. Each..... $119.00

### B&K PRECISION No. 1T236



- **Provides safe testing of transformer-less equipment**
- **Direct output: 500VA continuous, isolated output: 350VA continuous, 500VA intermittent**
- **Two 3-position slide switches provide 9 combinations of voltage selection, 90-140V**
- **Self-contained power switch with pilot lamp**
- **Input required: 105-130V AC, 60 Hz**

**No. 1T236.** B&K Precision brand (TR110).
Shpg. wt. 11.0 lbs. Each..... $225.00

# SINGLE AND TRIPLE OUTPUT DC POWER SUPPLIES

## SINGLE OUTPUT DC POWER SUPPLIES

### [A] B&K PRECISION Nos. 3A366, 1T196, and 1T197

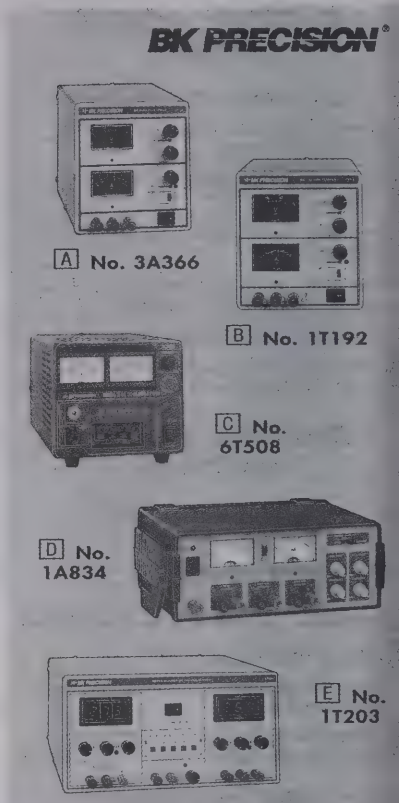
- Low ripple characteristics
- Regulated outputs for constant volt and current
- Pre-regulator limits internal dissipation
- Isolated output to float or ground either polarity
- Overload protection for circuits being tested and power supply
- Reverse polarity protection
- Parallel or series connection flexibility for dual hook-up
- Two current ranges on Nos. 3A366 and 1T196
- Includes instructions and spare fuse

### [B] B&K PRECISION Nos. 1T192, 4KF57, 4KF58, and 4KF59

- Reverse polarity, overload, thermal, and short circuit protection
- Current limiting
- Rated for continuous operation at maximum power output without overheating
- Constant current or voltage operation

### [C] B&K PRECISION Nos. 6T508 and 4KF56

- For servicing high-powered automotive electronic equipment
- Overload and short circuit protected
- Reverse polarity protection
- Operates continuously without overheating
- Connect two (or more) in parallel to double the current, or in series to double the voltage



## TRIPLE OUTPUT DC POWER SUPPLIES

### [D] B&K PRECISION No. 1A834

- Short circuit, overload, and reverse polarity protection
- Operates continuously at rated output
- Connects outputs in series for higher voltage output or in parallel for higher current output (switch selectable)
- Adjustable current limiting

### [E] B&K PRECISION No. 1T203

- Low ripple characteristics
- Independent or tracking operation of two 0-30V DC, 2A sections
- Switchable series/parallel operation
- Adjustable current limit controls
- Two 3½digit LED displays to read volts or amps of "slave" or "master" supply
- Constant current and voltage indicators

## SINGLE OUTPUT DC POWER SUPPLIES

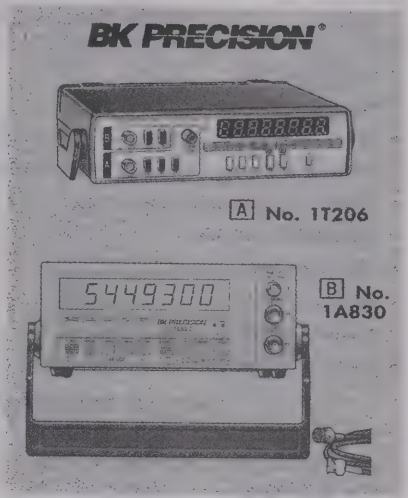
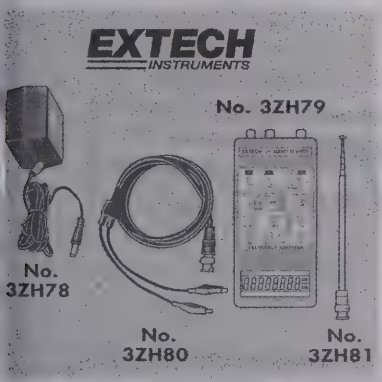
# FREQUENCY COUNTERS AND CIRCUIT BOARD TESTERS



## FREQUENCY COUNTERS

### [ B&K PRECISION No. 1T206



- Range: 5 Hz to 175 MHz
- Switchable low pass 10 KHz filter
- Frequency, period, period average and totalize functions
- Displays ratio of two frequencies
- Time interval functions include single event and averaging
- Totalize control includes manual reset, display hold, and start/stop input with standard TTL logic levels
- Switchable x1/x10 attenuator and positive or negative slope
- Trigger level and slope switch signal controls
- Selectable resolution, self-test mode, and overflow indicator

### [B] B&K PRECISION No. 1A830

- Range: 5 Hz to 2.4 GHz
- Switchable low pass filter and x1/x10 attenuator
- Frequency, period, period average, and totalize functions
- Remote start/stop function
- Prescale capabilities of 50 MHz to 2.4 GHz
- Selectable resolution of CH-A KHz/MHz modes, prescale and display
- Totalize function includes manual reset and hold

| Display | Max. Input Sensitivity | Input Impedance | Maximum Input | Bandwidth | Time Base Stability | B&K Precision Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|---|---|
| 8LED | 20mVrms | 1MΩ | 250 Vrms | 175 MHz | 10 PPM | 1823 | **1T206** | **$399.00** | 7.5 |
| 8LED | 10mVrms | 1MΩ(5Hz-100MHz)<br>50Ω(50MHz-2.4GHz) | 200V (DC + AC peak) | 2.4 GHz | 0.5 PPM | 1856B | **1A830** | **469.00** | 7.5 |

## HAND-HELD FREQUENCY COUNTER

### EXTECH No. 3ZH79

- Measures 10 Hz to 2.5 GHz
- Max., Min., and Average readings
- Data Hold and Relative measure function
- 0.5" 8-digit LCD display
- Period display from 10 Hz to 10 MHz
- Auto power OFF, manual override
- Includes batteries (AC operation optional)
- Optional carrying case 1H151. See Index

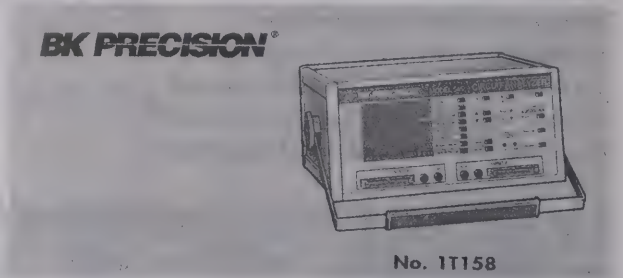
**No. 3ZH79.** Hand-Held Frequency Counter. Extech Brand (381235). Shpg. wt. 1.0 lbs. Each.....$249.00

#### ACCESSORIES

**No. 3ZH81.** Telescoping Antenna. Extech brand (3812RF). Shpg. wt. 0.1 lbs. Each .....$29.00

**No. 3ZH80.** Probe with Alligator Clip. Extech brand (3812AC). Shpg. wt. 0.2 lbs. Each .....$19.00

**No. 3ZH78.** 117VAC Adapter. Extech brand (381217). Shpg. wt. 0.5 lbs. Each .....$15.00



## CIRCUIT BOARD TESTER

### B&K PRECISION No. 1T158

- Test all active and passive components
- Tests digital and analog ICs up to 40-pins
- Autoscan mode gives a positive pass/fail indication
- Built-in pulse generator tests SCRs
- Built-in switcher automatically tests IC pins sequentially
- RS-232 interface

**1T158*.** B&K Precision brand (545). Shpg. wt. 6.0 lbs. Each.....$2950.00

*Limited Availability - contact local branch.

**DON'T DELAY... ORDER FROM GRAINGER NOW!**

Place your order with your local Grainger branch, and you'll be assured of prompt service, technical support, and our "No Hassle" return policy on any product ordered.

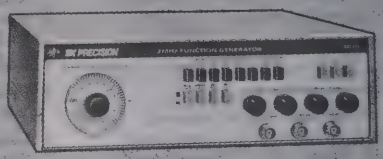
# FUNCTION GENERATORS

## [A] B&K PRECISION No. 1A833

- 0.2 Hz-2 MHz
- Function generator
- Sine, square, triangle, pulse, and ramp output
- 20Vp-p into open circuit, 10Vp-p into 50 ohms
- Wide range variable duty cycle
- Variable DC offset
- TTL and CMOS output
- External VCG
- Frequency dial accuracy within 5%
- Low distortion

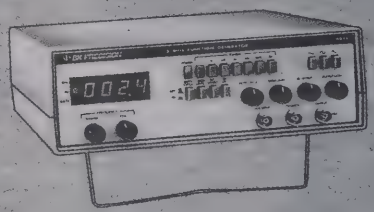
## [B] B&K PRECISION No. 1T226

- Includes all features of No. 1A833
- 0.5 Hz-5 MHz
- Function generator with digital frequency display
- 4-digital LED display
- Coarse and fine tuning for precision settability



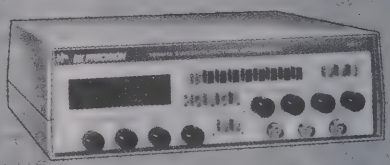
## [C] B&K PRECISION No. 1T225

- Includes all features of No. 1T226
- 0.1 Hz-10 MHz
- Sweep/Function generator with digital frequency display
- 5-digit LED display
- Linear or log sweep
- Sweep width and sweep time variable
- 100:1 sweep range



## [D] B&K PRECISION No. 6T507

- Includes all features of No. 1T225
- 0.2 Hz-20 MHz
- Deluxe sweep/function generator
- Operates as frequency counter to 30 MHz
- AM or FM modulation, internal or external
- Gated burst operation, internal or external
- Settable start and stop sweep frequencies



BK PRECISION®

## FLUKE 610 LAN CABLEMAPPER

**Quickly verify Unshielded Twisted Pair (UTP) cables to 400 ft.**

**Cable identifiers assist in locating termination points**

**Faults identified: Opens/Shorts/Reversed or Crossed Pairs**

**Detect Split Pairs**

**Varify any UTP cable terminated to a RJ-45 connector**

ıcludes one cable identifiers (#1), soft arry case, user manual, 9V battery and 6103 Cable Kit including one 24" RJ-45 to RJ-45 patch cable, Two RJ-45 to RJ-45 female couplers, and user manual.

**No. 6T609.** Fluke (610). Shpg. wt. 2.0 lbs.
Each ..... $429.00

**ADDITIONAL CABLE IDENTIFIERS #2, #3, #4**

**No. 6T610.** Fluke (N6101). Shpg. wt. 2.0 lbs.
Each ..... $125.00

**ADDITIONAL CABLE IDENTIFIERS #5, #6, #7, #8**

**No. 6T611.** Fluke (N6102). Shpg. wt. 1.0 lbs.
Each ..... $165.00

## FLUKE 620 LAN CABLEMETER

**One-person LAN cable verification tool tests if connection has been made properly without using a remote unit at the other end of the cable**

**Detects wiring problems, locates wiring and connections errors, and measures cable length**

**Measure cable 1 to 999 ft.; accuracy 7% + 3 ft.**

**Tests UTP, STP and coaxial cables**

**Two-line backlit LCD display**

**Portable unit with long battery life**

**Includes 4 ft. UTP patch cable, one RJ45F-RJ45F in-line coupler, cable identifier (#1), 2 "AA" batteries, and case**

**o. 5U831.** Fluke (620). Shpg. wt. 3.0 lbs.
ach ..... $595.00

**ADDITIONAL CABLE IDENTIFIERS #2, #3, #4**

**No. 5U839.** Fluke (N6201). Shpg. wt. 1.0 lbs.
Each ..... $90.00

**ADDITIONAL CABLE IDENTIFIERS #5, #6, #7, #8**

**No. 5U840.** Fluke (N6202). Shpg. wt. 1.0 lbs.
Each ..... $120.00

**STP (IBM type) Cable Kit.** Includes one IBM data connector to DB9 male cable (IBM Type 1, 3 ft. long), and one IBM data connector to RJ45 adapter.

**No. 5U841.** Fluke (N6203). Shpg. wt. 1.0 lbs.
Each ..... $140.00

## FLUKE 650 LAN CABLEMETER

**Troubleshoots coaxial and UTP (unshielded twisted pair) cables used in Ethernet, Token-Ring and other networks**

**Variety of capabilities allow unit to pinpoint faults such as opens, shorts, crossed pairs, split pairs, and reversed connections**

**Verifies and certifies cable to 10 MHz**

**Wire map detects both correct and faulty wiring**

**Built-in TDR finds cable length and distance to fault**

**Measures near-end crosstalk (NEXT) and detects split pairs**

**Time-stamped noise monitoring**

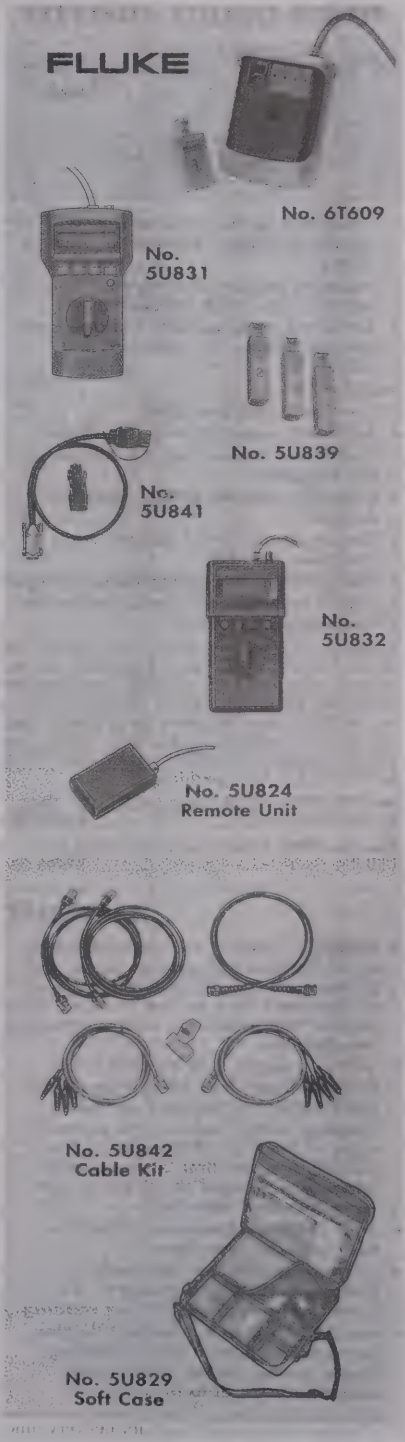
- **Save up to 50 test results for later use**
- **4 line LCD display**
- **Operates on batteries or 120V AC line power**
- **Includes remote unit, two RJ-45 patch cables, RJ-45 clip lead cable, two RJ-45 couplers, 50 OHM BNC cable, AC adapter, five "9V" batteries (2 for cablemeter, 1 for remote unit + 2 spares), soft carrying case and manual**

**No. 5U832.** Fluke (650). Shpg. wt. 8.0 lbs.
Each ..... $1795.00

## REPLACEMENT LAN CABLEMETER ACCESSORIES

or use with Stock No. 5U832 LAN ıblemeter.

**REMOTE UNIT**



**ı. 5U824.** Fluke (650R). Shpg. wt. 1.0lbs.
ch ..... $185.00

**ble Kit.** Includes two RJ-45 patch cables, o RJ-45 clip lead cables, two RJ-45 female couplers, one 50 OHM coaxial cable, and one printer cable (DB9 to DB25).

**No. 5U842.** Fluke (N6580). Shpg. wt. 2.0 lbs.
Each ..... $125.00

**SOFT CARRYING CASE**

**No. 5U829.** Fluke (C650). Shpg. wt.3.0 lbs.
Each ..... $100.00

# POWER HARMONICS METER, POWER QUALITY AND HARMONIC ANALYZERS

## POWER QUALITY ANALYZER

- **Combines the features of a power quality analyzer, mulitmeter, and scope**
- **Measure power consumption, harmonics, and catch intermittents**
- **Complete package with voltage and current probes, PC software and cable**

**Includes:**

- **Test leads and test clips**
- **500A AC current clamp (80i-500s)**
- **FlukeView Power Quality, software for Windows**
- **Optically Isolated RS232 Interface Adapter**
- **Rechargeable Ni-Cd Battery Pack (installed, BP120)**
- **Line Voltage Adapter/Battery Charger**
- **User's manual and application guide**
- **Power Quality Video**

Displays voltage, current, and power as digits, waveforms, and harmonic spectrums. Advanced recording capabilities make the Fluke 43 a great tool for capturing voltage sags as short as a single line cycle and multiple transients down to 200ns. Approvals: 600V CAT III; CSA Certified; UL 3111 pending.

***New*** **No. 4TP91.** Fluke brand (43 NIST)†. Shpg. wt. 13.0 lbs. Each ..... $2095.00

***New*** **No. 4TP92.** Fluke brand (43). Shpg. wt. 13.0 lbs. Each..... $1995.00

## POWER METER AND POWER HARMONICS ANALYZER

### POWER METER

- **Measures power and power factor on single phase or balanced three phase, three conductor, systems from one single phase measurement**
- **Measure KVAR and K-factor**
- **Display measurements in 3 ways: waveform, bar graph and numeric views**
- **Rated to 600V; meets IEC 1010-1 safety standards**
- **Display individual harmonics up to the 31st**
- **Accuracy (typ.): Volts—±0.3% + 3 digits; Harmonics—fundamental to 15th harmonic, ±2% + 3 digits + probe specs for amps and watts; 16th to 31st, ±3% + 4 digits + probe specs for amps and watts**
- **Measures RMS, peak and total harmonic distortion, and has minimum, maximum, and average recording**
- **Current input rated to 2000A peak. (500A with supplied clamp-on probe. 1000A continuous when used with No. 6T608 probe)**
- **0 to 600KW (KVA) average; 0 to 2000KW (KVA) peak**
- **Displays power factor 0 to 1.0**
- **Frequency displayed 5 Hz to 99.9 Hz**
- **Phase measurement –179° to 180°**
- **Backlit display**
- **Includes AC current probe, test lead set, 4 "C" batteries, and manual**

**No. 3LV94.** Fluke brand (39). Shpg. wt. 5.0 lbs. Each ..... $995.00

- **3LV93 is the same No. 3LV94, but includes NIST Certified Calibration**

**No. 3LV93.** Fluke brand (39 NIST)†. Shpg. wt. 5.0 lbs. Each ..... $1060.00

### HARMONIC ANALYZER

- **Same as No. 3LV94 above plus:**
- **Stores up to 8 measurement sets of voltage and current data**
- **Isolated serial interface to communicate with printer or MS DOS® or Windows™-compatible computer**
- **Includes RS-232 cable, and FlukeView™ software (for computer download), AC current probe, test lead set, 4 "C" batteries, and manual**

**No. 3LV96.** Fluke (41B). Shpg. wt. 5.0 lbs. Each ..... $1795.00

- **3LV95 is the same as 3LV96, but includes NIST Certified Calibration**

**No. 3LV95.** Fluke brand (41B NIST)†. Shpg. wt. 5.0 lbs. Each..... $1860.00

Carrying Case
Available/Order No. 4KD78
See Index for Listing

## HARMONIC ANALYZERS

- **Provide a simple, inexpensive analysis of harmonic distortion levels and power factor, help determine extent of problems such as hot neutrals, premature motor failures and overheated transformers**
- **Voltage range: 1 to 600V AC/DC; current range 1 to 1000 Amps max. (with current transducer included)**
- **Displays actual values and percentages of the first 19 harmonics (No. 5U775 displays first 31 harmonics when downloaded to PC using software included with unit)**
- **True RMS and frequency; displays two cycles of waveform**
- **Current transducer (included): range—1-1000A; frequency—20-2000 Hz; accuracy—±1% of reading**
- **No. 5U775 also has backlit display, provides all power data including watts, power factor, VAR's and downloads all data to a PC**
- **Accuracy (typ.): Volts—±2% of reading, current—±2% of reading (without current transducer). Harmonics: Voltage and current—±2% + 3 LSD; THD (<1%)—±6 digits, (>1%)—±1% of reading ±3 digits (when fundamental (f) is 60 Hz ±0.1 Hz**
- **21 protected memory locations; auto-ranging, auto-Off**

### ANALYZER No. 5U774

Includes voltage leads, current transducer, notepad and pencil, and carrying case. Amprobe brand (HA-1000).

**No. 5U774.** Shpg. wt. 5.5 lbs. Each ..... $649.00

### ANALYZER No. 5U775

Includes voltage leads, current transducer, data cord, computer download software, notepad & pencil, and carrying case. Amprobe brand (HA-2000).

**No. 5U775.** Shpg. wt. 6.0 lbs. Each ..... $989.00

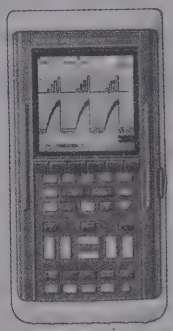
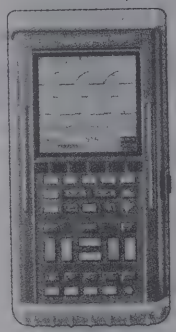
# PORTABLE DIGITAL STORAGE OSCILLOSCOPES

## FLUKE SCOPEMETER® 90 SERIES



No. 3LW01



No. 3LW03

FLUKE

1244

No. 3LW05

No. 3LV84

Fluke ScopeMeter 90 Series B is the most powerful family of handheld digital storage oscilloscopes used by more engineers worldwide than any other, in rugged industrial applications.

- Handheld format at just 4 lb. (10.8H x 5.5W x 2.5"D) makes it easy to carry and do measurements wherever you go with 4 hours battery operation. Rechargeable batteries and battery charger included. Will work with standard alkaline batteries
- 100 MHz bandwidth dual channel DSO and 5 GS/s repetitive sampling assures excellent signal fidelity
- Large, high brightness cold cathode fluorescent backlit display has excellent contrast and visibility from dark corners to broad daylight
- Extensive trigger capabilities include edge, video, event, n-cycle and external triggering. Time delay up to 20 divisions pre trigger view and up to 640 divisions post trigger view.
- Video triggering with selectable line number in Field 1 or Field 2 or all Lines. User selectable 2-Field or 4-Field sequence. TV Frame. Select from NTSC, PAL, PAL/M, SECAM or Non-Interlaced video with line selection up to 3200 lines and line frequency up to 65 kHz
- 30k deep memory ScopeRecord™ shows events as long as 125 scope screens to capture long events with good time detail. Use for motor starts, complete machine cycles, power systems, UPS systems
- Extensive memory to save up to 40 user setups, 20 waveforms and 10 screens to recall instantly for quick reference or printing. See selection chart on a nearby page for details
- Versatile cursor measurements include Vmean, VAC True-rms, Hz, Rise/Fall time, Vpeak-peak, Time between cursors, Time at cursors (Time of day or Time from start), Vmin-peak, Phase, dV between cursors, V at cursors. Measurements can be scaled to Amps
- ScopeMeter features AUTOSET, 40 ns Glitch capture and waveform mathematics. Includes add, multiply, filter, subtract, invert and integrate. Instantaneous or mean Watts with optional current probes
- True- RMS DMM with 3000 count 0.5% accuracy includes following measurements : VDC, VAC True-rms, Hz, Duty Cycle, Pulse Width, RPM, dBm, dBV, dBW, Audio or RF Watts, Amps, Temperature, Ohms, Continuity and Diode
- TrendPlot™ meter logging shows a simultaneous graph of the minimum, maximum and average readings of any of the above meter readings ove hours or days. Real time, time, and date stamp to help trace and identify intermittent problems
- Optional printer and PC interface as well as Windows software makes documentation tasks simple. Include in Model 105 B (3LV84, 3LV83)
- Rugged and splash proof design wit holster for long life and reliable ope ation in industrial environments
- Safety designed for measurements o 600 V industrial power systems with included probes. EN61010-1 Cat III, UL 1244, CSA C22.2 No 1010.1, ANSI/ISA S 82
- Comes complete with PM 8907 line adapter/charger, 10:1 600V safety designed probes (UL Listed), industri meter test leads, industrial alligator clips, protective holster, operator manual, soft accessory case and rechargeable battery pack
- 3LV83 and 3LV84 also include hard shell carrying case, optically isolate RS-232 interface cable, and FlukeView for ScopeMeter software.
- Three year warranty ; see "Manufacturers' Warranties" on pa opposite inside back cover

# HANDHELD DIGITAL STORAGE OSCILLOSCOPES COMBINATION MULTIMETER AND SCOPES

## FLUKE SCOPEMETER® 120 SERIES HANDHELD DIGITAL STORAGE OSCILLOSCOPES

e Fluke ScopeMeter 123 is the smallest d lightest weight handheld digital scope the world. It is an ideal choice for use by chnicians working in service, maintenance and installation applications.

- Handheld format at just 2.5 lb. (9.1"H x 4.5"W x 2"D) makes it easy to carry and fits comfortably in your hand. Small enough to fit in the pocket of most coveralls
- Intuitive ease of use so that everybody can work with it. Lets you concentrate on your work
- So affordable that every technician can have one
- 20 MHz, dual channel DSO and fully integrated dual channel DMM - single input probe able to access both functions on each channel
- Large, high brightness cold cathode fluorescent backlit display has excellent contrast and visibility from dark corners to broad daylight
- Rock stable automatic (and manual) triggering for "Connect and View" ease of setup. Triggers reliably on the most complex signals including motor drives or video
- ScopeMeter 123 features AUTOSET, 40 ns Glitch capture and non-volatile memory for 2 screen images or 10 user setups
- True- RMS dual channel DMM with 5000 count // 0.5% accuracy covers 26 measurements like VDC, VAC True-rms, Hz, Duty Cycle, Pulse Width, Phase A to B, Amps, Temperature, Crest Factor, dBV, dBm, Ohms, Continuity, Diode and Capacitance
- Dual channel TrendPlot™ shows a simultaneous graph of the minimum and maximum readings over hours and days with time and date stamp to trace intermittent problems. Dual channel TrendPlot capability shows cause and result
- Optional printer and PC interface as well as Windows software makes documentation tasks simple
- Battery powered to let you use ScopeMeter anywhere. 5 hours battery operation and fast recharge
- Rugged and splash proof design with an integral holster for long life and reliable operation in industrial environments
- Safety designed for measurements on 600 V industrial power systems with included test leads. Safety designed to IEC1010-1, EN61010-1 Cat III, UL 3111-1, CSA C22.2 No 1010.1, ANSI/ISA S 82
- Supplied complete with PM 8907 line adapter/charger, STL120 shielded test leads, BB120 shielded BNC adapter, AC120 Alligator Clips, HC120 Hook Clips, User Manual, and BP120 rechargeable battery pack
- Three year warranty; see "Manufacturers' Warranties" on page opposite inside back cover

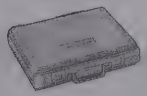
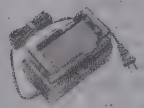
## EXTECH MULTISCOPE™ COMBINATION MULTIMETER AND OSCILLOSCOPE

- Oscilloscope display: 128 x 64 pixel graphical LCD
- Multimeter display: 3¾ digit (3999) LCD with Bargraph
- Oscilloscope functions: single channel, volts/division (1.5 to 800V), glitch capture, pre/post-trigger
- Oscilloscope frequency response: DC to 100kHz with a sample rate of 1 million samples/sec.
- Multimeter functions: AC/DC voltage/current, resistance, capacitance, frequency, timer/counter, TTL level generator, diode/continuity tests
- 4TM14 has Built-in RS-232 PC interface and software
- Record/recall MIN/MAX/AVERAGE
- Built-in timer/counter with 1 MHz range
- Generator output provides 10Hz to 20kHz TTL level output
- 15 step waveform storage with 4-step setup storage and continuous auto-set
- Over-range indication and auto power off
- Complete with test leads, alligator clips and six AA batteries



No. 4TM13



| Description | Extech Model | New! Stock No. | Each | Shpg. Wt. |

# 20 TO 100 MHz ANALOG OSCILLOSCOPES

## [A] B &K PRECISION Nos. 1A825 and 3A364

- Auto/norm triggered sweep mode with AC, TV-H, TV-V, and line coupling
- Dual trace with Ch-1, Ch-2, alt, line, and external trigger source
- XY mode with x10 magnification and + or – slope
- 23 step time base
- Polarity reversal, Ch-2
- Ch-1, Ch-2, alt/chop, and add operating modes
- Delayed sweep function on No. 3A364
- Built-in component tester for capacitors, inductors, diodes, and transducers on No. 3A364
- 6" CRT screen
- Includes test two 10:1 probes, power cord, and spare fuse
- Two year warranty (No. 1A825), 3 year warranty (No. 3A364); see "Manufacturers' Warranties" on page opposite inside back cover

## [B] B&K PRECISION No. 3A365

- Dual trace with Ch-1, Ch-2, V-mode, line, and external trigger sources
- Auto/Norm triggered sweep with FIX function to maintain trigger level at center of waveform
- 19 calibrated sweeps with x10 magnification and variable hold off
- Single sweep mode permits viewing of one-time events
- Operating modes: Ch-1, Ch-2, add, alt/chop, Ch-1 output
- High frequency filter and video sync separators
- XY operation with polarity reversal on Ch-2 only
- Z-axis input modulation and Ch-1 output
- 6" CRT screen
- Includes 2 each 1x/10x test probes

## [C] B&K PRECISION No. 3T009

- 8 x 10 CM internal graticule CRT screen
- 5mV sensitivity, sweep to 0.1μS/Div, 20 calibrated ranges main time base
- 20 calibrated range—delayed time base
- 12 KV accelerated voltage, single delay line; beam finder
- Component tester
- Channel B output
- Z-axis input, X-Y operation
- Includes 2 test probes, power cord, fuse, and instructions

## [D] B&K PRECISION No. 3T291

- Three channels, dual time base
- 1mV sensitivity
- 23 calibrated sweeps
- Rectangular CRT with internal scale
- 19 KV accelerating voltage
- True Dual Beam Operation
- Sweep mode with AC, TV-H, TV-V, and Line Coupling
- Channel 2 Output
- Probe calibrator
- Includes 2 test probes, power cord, fuse, and instructions

# 20 AND 100MHz ANALOG/DIGITAL STORAGE AND 150 MHz DIGITAL OSCILLOSCOPES

## 20 AND 100 MHz ANALOG/DIGITAL STORAGE OSCILLOSCOPES

- 2 Channels
- 100 MHz bandwidth on Nos. 4KF65 and 4KF66; 20 MHz bandwidth on No. 4KF62
- 40 MS/sec sampling rate per channel
- Autoset waveform display
- 17 Automatic waveform measurements
- Acquisition modes: Refresh, roll, single, pre-trigger, envelope (all models). Glitch capture on Nos. 4KF62 and 4KF66
- Extended trigger functions: TV trigger
- RS-232 interface
- IEEE-488 interface included on Nos. 4KF62 and 4KF66
- Four 8K memories (No. 4KF62 and 4KF66); two 4K memories on No. 4KF65
- Include two probes

No. 4KF66

### ANALOG/DIGITAL STORAGE OSCILLOSCOPE SPECIFICATIONS AND ORDERING DATA

| Sampling Rate | Real Time Bandwidth | Digital Storage Bandwidth | Vertical Resolution | Horizontal Resolution | Sweep Rate Real/Storage | Vertical Deflection | B&K Model | Stock No. | Each | Shpg Wt. |

## 150 MHz DIGITAL OSCILLOSCOPE

No. 4KF67

- 4 Channels; 200MS/sec sampling rate CH-1, 100 MS/sec sampling rate CH 1-4
- Autoset waveform display
- 16 Automatic waveform measurements
- Aquisition modes: Direct Sampling, Roll, Envelope, Glitch Capture (to 10n/S)
- Extended trigger functions: delayed trigger, event counter, acquisition delay, pre- and post trigger, TV rigger with selectable line trigger
- RS-232 and IEEE-488 interfaces
- 40K memory expandable to 1MB via PCMCIA card
- VGA output for external monitor
- Includes four probes

### DIGITAL OSCILLOSCOPE SPECIFICATIONS AND ORDERING DATA

| Sampling Rate | Real Time Bandwidth | Digital Storage Bandwidth | Vertical Resolution | Horizontal Resolution | Sweep Rate Real | Vertical Deflection | Manufacturer | B&K Model | Stock No. | Each | Shpg Wt. |

## DESK SPACE AT A PREMIUM? USE THE GRAINGER CD-ROM, ELECTRONIC CATALOG TO REVIEW THOUSANDS OF PRODUCTS!

Our Grainger Electronic Catalog is a state of the art CD-ROM selection guide which features products and information from our General Catalog. The perfect reference tool when you need product and technical information on the road. Contact your local branch for more information.

# 20 & 30 MHz ANALOG/DIGITAL OSCILLOSCOPES AND SPECTRUM ANALYZERS

## 20 MHz ANALOG/DIGITAL OSCILLOSCOPE

- Ch-1, Ch-2, or external trigger source with auto trigger
- AC, TV line, and TV frame trigger coupling
- + or – slope, X10 magnification and trace hold capacity
- Display modes: Ch-1, Ch-2, dual alt/chop, add, X-Y, and Ch-2 invert
- Digital display modes: roll, refreshed, armed, hold all/Ch2, and pre-trigger storage (50%, 100%)
- Digital storage of 2048 x 8 bits per channel with dot joining
- Plot output includes analog stored display, sweep rate, impedances, and pen lift
- 8 x 10 cm mono accelerator CRT screen
- Includes 2 each 10:1 test probes, spare fuse, power cord, and instructions

BK PRECISION

No. 1T185

3 YEAR LIMITED WARRANTY

See "Manufacturers' Warranties" on page opposite inside back cover.

### 20 MHz DIGITAL OSCILLOSCOPE ORDERING DATA

| Sampling Rate | Real Time Bandwidth | Digital Storage Bandwidth | Memory Size | Vertical Resolution | Horizontal Resolution | Sweep Rate Real/Storage | Vertical Deflection | B & K Precision Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|---|---|---|---|
| 10 MS/S | 20 MHz | 1 MHz | 2K/ch | 8 Bit | 200/ Division | 0.1µS/2 Sec. 0.05mS/50 Sec. | 5mV/5V | 2522B | 1T185 | $1099.00 | 13.0 |

## 20 AND 30 MHz ANALOG/DIGITAL STORAGE OSCILLOSCOPES

BK PRECISION

No. 4KF63

- Safely measures high common-mode voltage situations or allows direct viewing of line voltage and load current
- Two channels
- Full differential input on both channels and external trigger

- 20 MHz bandwidth on No. 4KF63; 30 MHz bandwidth on No. 4KF64
- Full feature analog and digital operation
- Autoset waveform display
- Automatic waveform measurements
- 40 MS/s sampling rate Ch-1, Ch-2
- Acquisition modes: Roll, Refresh, Single, Envelope
- RS-232 interface

No. 4KF71. Stand alone software package allows control of oscilloscope from a virtual front panel. For Nos. 4KF62, 4KF63, 4KF64, 4KF65, and 4KF68. Runs under Windows 3.1. Includes manual, software, and interface cable.

**No. 4KF71.** B & K Precision brand (AK-5100). Shpg. wt. 1.0 lbs.
Each ..... $75.00

### 20 AND 30 MHz ANALOG/DIGITAL OSCILLOSCOPE ORDERING DATA

| Sampling Rate | Real Time Bandwidth | Digital Storage Bandwidth | Memory Size | Vertical Resolution | Horizontal Resolution | Sweep Rate Real/Storage | Vertical Deflection | B & K Precision Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|---|---|---|---|
| 0MS/s/ch | 20 MHz | 20 MHz | 2 x 4K | 8 Bit | 100/Division | 0.5µS/200mSec. | 10mV/200V | 5024 | 4KF63 | $2290.00 | 21.0 |
| 0MS/s/ch | 30 MHz | 30 MHz | 2 x 4K | 8 Bit | 100/Division | 0.2µS/200mSec. | 10mV/200V | 5034 | 4KF64 | 2330.00 | 22.0 |

## 500 MHz AND 1.05 GHz SPECTRUM ANALYZERS

- Used to test cable TV signal levels and frequency response
- Also used to measure spurious and unwanted emissions, locate sources of RF interference, and locate hidden transmitters
- AM and FM demod included
- 150 kHz/hr stability
- Includes power cord and instruction manual

BK PRECISION

No. 4KF60

### SPECTRUM ANALYZER ORDERING DATA

| Frequency Range | Dynamic Range | Resolution | B & K Precision Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| 0 kHz to 500 MHz | 80 dB | 125 and 250 kHz | 2612A | 4KF60 | $1395.00 | 18.0 |
| 0 kHz to 1.05 GHz | 80 dB | 20 and 400 kHz | 2625 | 4KF61 | 2195.00 | 18.0 |

## FLUKE CLAMP-ON CURRENT PROBES FOR OSCILLOSCOPES AND POWER METERS

### No. 6T608

- Accurately displays current waveforms on oscilloscopes, as they occur
- AC Current Ranges 0.1A to 10A, 0.5A to 100A, 5A to 1000A, continuous (2000A instantaneous peak)
- Accuracy 0.5A to 1000A, 2% of reading; 0.1A to 10A, 3% of reading ±100 mA
- Usable Frequency Range (with current derating): 5 Hz to 100 kHz
- Built-in safety feature: 600V RMS rating at input jaws, output cable, and BNC connector for use in industrial and commercial power distribution systems

**No. 6T608.** Fluke brand (80I-1000S). Shpg. wt. 3.0 lbs. Each.....$395.00

### No. 5U825

- Measures AC current to 500A
- Accuracy: 1 to 20A, ±(5% + 0.3)A; 20 to 100A, ±5%; 100 to 500A, ±2%
- Protected to 600V
- Replacement probes for use with Nos. 3LV93, 3LV94, 3LV95 and 3LV96 power meters
- Fluke brand (80i-500s)

**No. 5U825.** Shpg. wt. 2.0 lbs. Each.....$170.0

### No. 1W499

- Measures AC and DC current in two ranges from 0 to 100A
- Accuracy: 3% of reading (dc to 5kHz 12% of reading (above 20kHz)

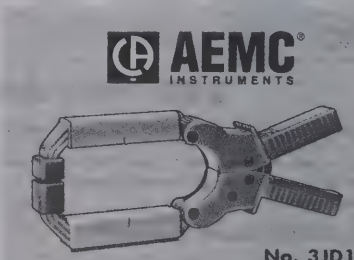
**No. 1W499.** Fluke brand (80I-110S). Shpg. wt. 3.0 lbs. Each.....$395.0

### No. 4PD23

- Measures AC current in three range from 1A to 2400A RMS
- Accuracy: 2% of reading + 2A at full scale
- Protected to 600V
- Includes BNC to banana adaptor

***New*** **No. 4PD23.** Fluke brand (I3000S) Shpg. wt. 6.0 lbs. Each.....$395.0

## AEMC CLAMP-ON CURRENT PROBE FOR OSCILLOSCOPES

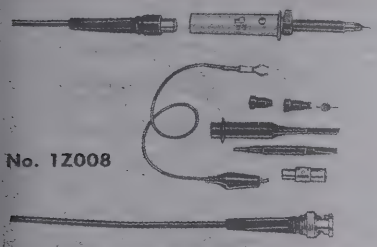


- Large jaw opening for up to 2.52" cables, cables or bus bars 1.97 x 5.31" or Bus bars 2.52 x 3.94"
- Accuracy (TYP): ±2% or reading ± 0.2 mV
- Frequency range 10 to 100 KHZ
- Load impedance: 1MΩ, 47pF; Rated working voltage: 660V AC

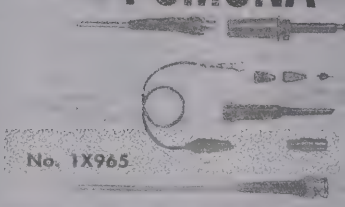
**THREE CURRENT RANGES**

| Input (A) | Output to Oscilloscope |
|---|---|
| 1 TO 30 | 10mV/A |
| 1 TO 300 | 1mV/A |
| 1 TO 2400* | 1mV/A |

(*) 3000A if temperature is below 95°F

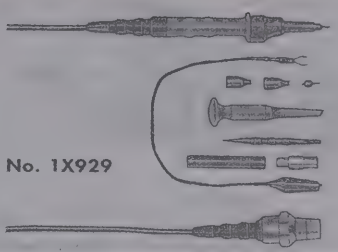


**No. 3JD14.** AEMC brand (JM861). Shpg. wt. 3.2 lbs.. Each .....$595.00



**DON'T FORGET THE BACK OF THE BOOK! MANY CROSS-REFERENCE GUIDES AND INDEXES HELP MAKE PRODUCT SELECTION EASIER**

**Besides complete National Brand and Product Indexes, the back section of this catalog contains a Terminology and Technical Data Section as well as a handy Stock Number/Page Number Cross-Reference Guide. And don't forget, if you need assistance with product selection, help is as close as a call to your local branch.**



POMONA

No. 1Z008

No. 1X965

No. 1X929

## INSULATED OSCILLOSCOPE PROBES FOR FLUKE SCOPEMETER

se this probe as a replacement for Fluke Series 90 Scopemeter. No. 1X931 contains two fully insulated, 600 volt, X10 probes, one ray and one red plug accessories. Nos. 1X927 and 1X929 are 600 volt, X1 / X10 switchable probes available in red (No. 1X929) or Gray No. 1X927).

| BW MHz | Attenuation | Input Impedance Resistance (MΩ) | Capacitance (pF) | Cable Lgth. (m) | Max. Voltage | Pomona Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|---|---|
| 200 | X10 | 10 | 15 | 1.2 | 360 | 6033 | 1X931 | $138.00 | 0.5 |
| 20/200 | X1/X10 | 1/10 | 47/15 | 1.2 | 360 | 6035-2 | 1X929 | 105.00 | 0.6 |
| 20/200 | X1/X10 | 1/10 | 47/15 | 1.2 | 360 | 6035-8 | 1X927 | 105.00 | 0.6 |

## MODULAR OSCILLOSCOPE PROBES

emi-modular probes are general purpose passive-voltage probes featuring dual band width performance for greater flexibility. omplete accessory kit included.

| BW (MHz) | Attn. | Cable Lgth. (m) | Input Impedance Resistance (MΩ) | Capacitance (pf) | Approx. Risetime (nsec) | Voltage (V Max.) | Compensation Range (pf) | Pomona Model | Stock No. | Each | Shpg. Wt. |

# STATIC GROUNDING SYSTEM

## ESD GROUNDING SYSTEM No. 3T890

- Continuously drains static from body
- Individual can handle static sensitive components without electrostatic discharge damage (ESD)
- Neon lamp indicators check ground circuit for wiring faults before components are handled
- Static prevention system can be purchased as a complete system or as individual components
- UL Listed (E64899)
- Includes grounding plug (No. 3T891), large wrist strap (No. 3T894), and 10 ft. lead set (No. 3T895)

**No. 3T890.** IDEAL brand (61-1076). Shpg. wt. 0.4 lbs. Each.....**$47.60**

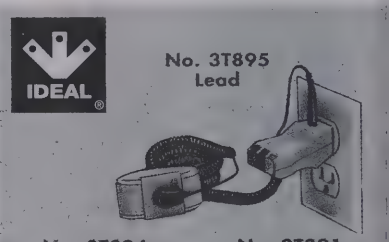
## REPLACEMENT LEAD SETS Nos. 3T895 and 3T896

- Built-in megohm resistor
- Silver conductive fibers for maximum static discharge
- Strain reliefs on both ends withstand flexing
- End-plug with spring contacts fits any standard banana-type jack
- UL Listed (E64899)

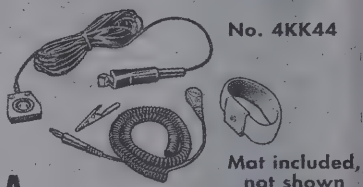
| Length (Ft.) | IDEAL Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|
| 10 | 61-1071 | 3T895 | $17.66 | 0.2 |
| 15 | 61-1072 | 3T896 | 18.78 | 0.2 |

## REPLACEMENT WRIST STRAPS Nos. 3T892, 3T893, and 3T894

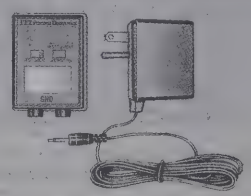
- Stainless-steel backplate and silver conductive fibers provide maximum absorption of static charges
- Comfortable elastic band is easy to put on and remove
- Washable with mild detergent and warm water
- Can be used with non-IDEAL static-prevention devices
- UL Listed (E64899)



| Size | IDEAL Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|
| Small | 61-1073 | 3T892 | $8.60 | 0.1 |
| Medium | 61-1074 | 3T893 | 8.60 | 0.1 |
| Large | 61-1075 | 3T894 | 8.60 | 0.1 |

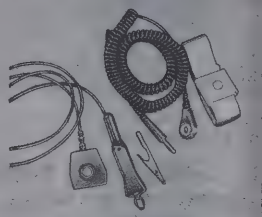


DESK SPACE AT A PREMIUM? USE THE GRAINGER CD-ROM, ELECTRONIC CATALOG TO REVIEW THOUSANDS OF PRODUCTS!



## REPLACEMENT GROUNDING PLUG No. 3T891

- UL Listed (E64899)
- ESD grounding plug provides for proper ground of static charges and prevents new charges from accumulating
- Positively indicates effective ground if 120V circuit is wired properly
- Bright long-life neon lamp indicators have wrap-around lens covers to provide visibility from all angles
- Checks all of these wiring faults on 3-wire, 125V circuits: open ground, open neutral, open hot, hot on neutral with hot open, reverse polarity, hot and ground reversed
- Push-pull shape assures easy use
- Ultrasonically welded impact-resistant case



**No. 3T891.** IDEAL brand (61-1070). Shpg. wt. 0.1 lbs. Each .....**$24.31**

POMONA

## POMONA GROUNDING ACCESSORIES

| Description | Features | Pomona Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| **Static Control Kit** | Field Service Kit contains an 18 x 22" static-safe work mat with grounding cord. | 6087 | **4KK44** | **$51.00** | 0.9 |
| **Static Control Kit** | Large Service Kit contains an 22 x 24" static-safe work mat with grounding cord. | 6088 | **4KK45** | **62.00** | 0.9 |
| **Static Control Kit** | Adjustable Elastic Wrist Strap Kit contains wrist strap, cord, and alligator clip | 6082 | **4KK39** | **18.40** | 0.2 |
| **Static Control Kit** | Adjustable Metal Wrist Strap Kit contains wrist strap, cord, and alligator clip | 6084 | **4KK41** | **28.35** | 0.2 |
| **Ground Terminal** | Attaches to any ground point for use with static control cords with banana plug. | 5531 | **4KK30** | **1.35** | 0.1 |
| **Ground Lug with Snap** | Attaches to any ground point for use with static control cords with snap or banana plug. | 5532 | **4KK31** | **2.50** | 0.1 |
| **Snap Stud with Screw** | Attaches to any ground point for use with static control cords with snap. | 5533 | **4KK32** | **0.85** | 0.1 |
| **Static Control Cord** | Connect static control wrist strap to ground point. Built in MegOhm resistor for safety. | 5534 | **4KK33** | **14.50** | 0.1 |
| **Static Control Wrist Strap** | Adjustable, conductive fabric wrist strap with 4mm snap. For use with 4KK33 cord. Adjusts to fit all sizes. | 6081 | **4KK38** | **7.35** | 0.1 |
| **Static Control Wrist Strap** | Speidel Twist-O-Flex adjustable metal wrist band with 4mm snap. For use with 4KK33 cord. | 6083 | **4KK40** | **17.35** | 0.1 |
| **Static Control Cord** | Grounding cord for use with static-safe work mat. In 4KK44 and 4KK45 kits. | 6085 | **4KK42** | **15.45** | 0.1 |
| **Static Control Wrist Strap Tester** | Touch Type On Demand Tester for wrist strap and ground cord. Provides ground point for continuous protection and convenient use. Test static control wrist strap for correct operation. | 6086 | **4KK43** | **72.00** | 0.8 |

## SOUND MEASURING SYSTEM

- Includes self-contained combination dosimeter/sound level meter (No. 1T835), nose cone, microphone clips, windscreen, calibrator (No. 1T833), calibration screwdriver, multi-spline wrench, parallel cable, battery, manual, and carrying case

**No. 2T409.** Simpson brand (12646).
Shpg. wt. 5.9 lbs. Each.....$1200.00

## RS-232 SERIAL CABLE No. 2T414

Adapts dosimeter/sound level meter (No. 1T835) to IBM compatible computers with 9 pin RS-232 serial port.

**No. 2T414.** Simpson brand (02233).
Shpg. wt. 0.3 lbs.Each.....$54.95

## SOUND LEVEL METER

- Measures noise levels to monitor compliance with OSHA regulations
- Two easy-to-read scales with single selection switch
- Special integrated circuits and signal oscillator calibration for reliability
- Ranges: 35 to 80 dB, 75 to 120 dB
- "A" weighted
- Accuracy (typ): ±3dB
- Capacitive microphone and low battery indicator
- Includes carrying case and 9V battery
- Limited lifetime warranty. See "Manufacturers' Warranties" on page opposite inside back cover

**No. 3T084.** Greenlee brand (93-20).
Shpg. wt. 0.7 lbs. Each.....$147.00

## OCTAVE BAND FILTER

- Provides active filtration over 10 selectable ranges from 31.5 Hz to 16 KHz when used with No. 1T832
- Gain can be set to 0 dB, + 10 dB, or + 20 dB
- Filter transmission characteristics meet ANSI S1.11-1966 (R1976) Type E Class II filter set requirements
- Mounts directly to No. 1T832 for handheld use or can be attached to a tripod for extended noise monitoring
- Calibration externally adjustable
- Includes 9V battery

**No. 3T883.** Simpson brand (02231).
Shpg. wt. 1.2 lbs. Each.....$479.00

## SOUND LEVEL METER

- MSHA approved; meets OSHA and Walsh-Healy requirements for noise control
- Conforms to ANSI S1.4-1983, IEC 651 specifications for meter type
- 40-140 dB, zero dB REF = 20μ PASCALS
- AC voltage output jack permits interfacing with recorders, analyzers and other testers
- Built-in tripod mount
- "A" weighting
- Microphone: omnidirectional, condenser-type, L size—per ANSI S1.12-1976
- Impedance: 350Ω ±20% at 23°C
- Screwdriver adjustable calibration using No. 1T831 calibrator
- Includes 9V batteries and instructions

**No. 1T832.** Simpson brand (40003).
Shpg. wt. 0.7 lbs. Each.....$400.00

## CALIBRATOR

- For calibrating No. 1T832 sound level meter
- 1000 Hz, ±1% acoustical output frequency
- 114 dB ±0.5 dB output sound pressure level at reference conditions
- Less than 1% distortion
- 0 to 50°C temperature range
- Reference conditions: 23°C, 760 mmHg and 30% to 50% RH; 0 dB = 0.0002μ bar
- Includes 9V battery

**No. 1T831.** Simpson brand (12890).
Shpg. wt. 1.2 lbs. Each.....$265.00

**No. 1T680.** Carrying Case for No. 1T832 and 1T831. Simpson brand (45022).
Shpg. wt. 3.0 lbs. Each.....$74.95

## SOUND LEVEL KIT

- Includes sound level meter No. 1T832, sound level calibrator No. 1T831 and attache carrying case No. 1T680, listed on this page

**No. 1T830.** Simpson brand (40006).
Shpg. wt. 5.0 lbs. Each.....$649.00

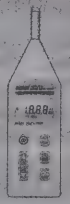
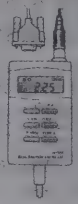
# SOUND LEVEL METERS AND DOSIMETERS



EXTECH INSTRUMENTS



Ⓐ No. 3ZH87

Ⓑ No. 3ZH88

Ⓒ No. 3ZH89

Ⓓ No. 4KC31

## Ⓐ ANALOG SOUND LEVEL METER No. 3ZH87

- **Ranges: High (80-120dB) and Low (40-80dB)**
- **Accurate to ±3dB**
- **Built-in 70dB calibrator based on frequency weighting A**
- **Includes pouch case, 9V battery and instructions**

**No. 3ZH87.** Extech brand (407703).
Shpg. wt. 0.7 lbs. Each.....$99.00

## Ⓑ DIGITAL SOUND LEVEL METER No. 3ZH88

- **Ranges: Low (35-100dB) and High (65-130dB)**
- **±1.5dB accuracy, 0.1dB resolution**
- **Fast/Slow response, A & C frequency weightings**
- **Large 0.5" display with Max Hold**
- **Built-in 94dB calibration check**
- **Analog 10mV/dB output for recorders**
- **Meets IEC 651 Type 2 and ANSI standards**
- **Includes hard vinyl case, 9V battery and instructions**

**No. 3ZH88.** Extech brand (407736).
Shpg. wt. 1.3 lbs. Each.....$249.00

## Ⓒ SOUND LEVEL METER DATALOGGER No. 3ZH89

- **Built-in datalogger stores 4048 measurements**
- **User selectable sample intervals**
- **±1.5dB accuracy and 0.1dB resolution**
- **Measures 30 to 130dB on LCD display with bargraph**
- **Meets IEC 651 and ANSI S1.4 Type 2 standards**
- **Max hold, auto self-test when turned on**
- **Selectable fast/slow response and A or C weighting**
- **Analog 10mV/dB for recorders**
- **AC adapter available, order No. 3JC92 (see Index in back of catalog for listing)**
- **Includes microphone wind cover, RS-232 port with Windows software, 9/9 pin cable, carrying case, 9V battery and instructions**

**No. 3ZH89.** Extech brand (407762).
Shpg. wt. 3.0 lbs. Each.....$599.00

## Ⓓ NOISE DOSIMETER No. 4KC31

- **Provides 6 front-panel slide switches and 4000 count LCD**
- **Measures and stores % dose, exposure time and sound level readings**
- **Ranges include 0.01 to 9999% dose and 70-140dB sound level**
- **5-Survey storage, RS-232 hardware/setup software, real time clock**
- **Adjustable criterion level, exchange rate and threshold parameters**
- **Windows™ software offers 8-hour % dose, flags (rms or peak), exposure time and peak events**
- **Includes belt clip, clip-on microphone, 4 AAA batteries, screwdriver, case, software, cables and instructions**

**No. 4KC31.** Extech brand (407355).
Shpg. wt. 1.9 lbs. Each.....$599.00

### ACCESSORIES

**No. 4KC33.** Sound Level Calibrator. Fits 1" and 1/2" microphones and provides 94dB 1kHz reference levels to 0.5dB. Extech brand (407769).
Shpg. wt. 0.6 lbs. Each.....$399.00

**No. 4KC28.** AC/DC Recorder Output Cable. Extech brand (40705X).
Shpg. wt. 0.1 lbs. Each.....$15.00

## UNIVERSAL NOISE DOSIMETER

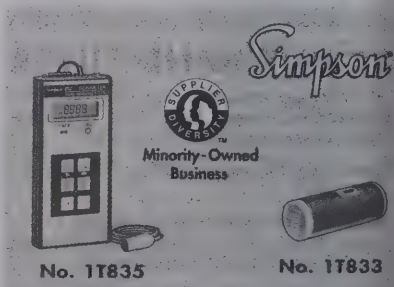
Dosimeter with integrated data logger measures OSHA requirements for noise levels in industrial environments. Can also be used as a sound level meter to survey areas and locations suspected of excess noise levels. Stored data can be viewed on a compatible computer monitor (order cable No. 2T414) or it can be documented via a compatible parallel printer port (cable included). Accuracies meet ANSI S1.4-1983, ANSI S1.25-1978, and IEC-651 (for slow response type S2A instruments).

**Dosimeter Mode**

- **Criteria levels: 70, 80, 84, or 90 dB**
- **Threshold levels: 50 through 99 dB**
- **Exchange data: 3, 4, 5 or dB**

**Sound Level Mode**

- **Input ranges: 50 to 100 dB, 80 to 130 dB, and 140 dB peak detection on either input range**



**Data Logger Function**

- **Records up to 31 hours at 1 minute intervals of Lavg and Lmax and number of detected 140 dB peak occurrences per minute; includes real-time information of time and date**
- **Data accumulation ceasing becomes retained in HOLD mode**
- **Output capability to Centronics compatible parallel printer with cable (included) or RS-232 serial port with No. 2T414 cable**

**INCLUDES:**

- **Nose cone, parallel cable, AC adapter (110/120/220/440V AC), microphone clip, wind screen, calibration screwdriver, multi-spline wrench, and manual**

**No. 1T835.** Simpson brand (12645).
Shpg. wt. 4.9 lbs. Each.....$849.00

No. 1T835 No. 1T833

## CALIBRATOR

- **For use with Universal Noise Dosimeter No. 1T835**
- **Includes calibration screwdriver, 9V battery and manual**

**No. 1T833.** Simpson brand (12648).
Shpg. wt. 1.0 lbs. Each.....$309.00

## VIBRATION METERS

ibration meters provide an early warning of developing defects machinery. This kind of maintenance prevents costly, unexected emergency shutdown of equipment.

**Applications† Include:**

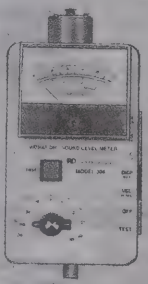
**Preventative Maintenance—locate machine troubles early**
**Engineering/Research—measure machine vibration in the lab, plant, or field**
**Noise Control—measure sound to comply with government regulations**
**Quality Control—inspect final product to reduce field problems**

## VIBRATION METER No. 1TC86

**Troubleshoots existing problems in rotating machinery or confirms normal operation**
**Measures vibration in velocity (inches/ second pk.) considered the best parameter for the overall condition of a piece of rotating machinery**
**Digital display**
**Pocket-sized; low battery indicator**
**Intrinsically safe for NEC Class 1, Division 1, Group C and D hazardous areas (Factory Mutual Approved)**
**Includes case and "9V" alkaline battery, data log and instructions**

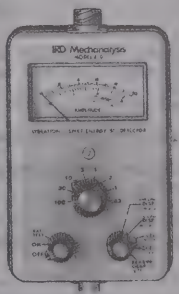
## VIBRATION/SOUND LEVEL METER No. 1TC87

**Rugged, durable meter**
**Measure vibration in velocity (inches/ second pk. or mm/sec pk), displacement (mils., pk.-pk. or microns pk.-pk.), and noise (dB)**
**Displacement measurements for low frequency related problems**
**Noise measurements for audio related problems; A, B, and C weighted scales**
**"Fast Response" pushbutton measures impact and rapid noise change**
**Analog display; output capability**
**Includes case, (2) 9V alkaline batteries, microphone, straight probe, vibration pickup, cable and instructions**



## VIBRATION-SPIKE ENERGY METER No. 1TC88

**Heavy-duty meter detects and measures "bursts" of spike energy (SE) from defects such as micro spalls/ cracks, and lack of lubrication in bearings and gears**
**Measures displacement (mils., pk.-pk.), velocity (inches/second pk.), acceleration (g's pk.), and bearing/gear check (g's SE)**
**Displacement measurements for low frequency related problems**
**Acceleration measurements for high frequency related problems**
**High-Low battery test for indicating remaining battery life**
**Output capability**
**Includes accelerometer, straight probe, pickup cable, case, and (2) 9V alkaline batteries and instructions**



## IRD Mechanalysis

No. 1TC86 Vibration Meter

No. 1TC87 Vibration/ Sound Meter

No. 1TC88 Vibration-Spike Energy Meter

# LIGHT METERS

## GREENLEE No. 3T082

- Measures incandescent lighting
- Digital meter with 3½ digit LCD readout
- Data hold function for easy readout
- Low battery display
- Sensor extension to 4½ feet
- Output terminal for permanent recording
- Accuracy 4% of reading ±0.5% full scale
- Range: 0 to 20, 0 to 200, 0 to 2000 footcandles; Conversion Equivalents: 1 footcandle = 10.76 lux
- Includes carrying pouch, 9V battery, and remote sensor
- Limited lifetime warranty

**No. 3T082.** Greenlee brand (93-1065F). Shpg. wt. 1.2 lbs. Each.....$146.00

No. 3T082

## EXTECH No. 1H153
## FOOT CANDLE/LUX METER

- Measures up to 50,000 lux or 5000 foot candles (Fc) in 3 ranges
- Accuracy 5% ±2 digits
- Large 0.5" LCD with Data Hold
- 1mV/count analog output for recording
- Includes sensor made of selenium photo voltaic cells and 9V battery
- Measuring ranges from 0-2000, 0-20,000, 0-50,000 lux (1 lux resolution); 0-200, 0-2000, 0-5000 FC (0.1 FC resolution)

**No. 1H153.** Extech brand (401025). Shpg. wt. 0.8 lbs. Each.....$119.00

**No. 1H151.** Extech brand (409996). Shpg. wt. 0.4 lbs. Each.....$15.00

No. 1H153

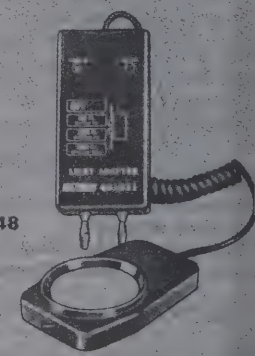
## EXTECH HEAVY-DUTY LIGHT METER No. 1M946

- Accuracy: 4% (0.4-second response)
- Ranges: 0-200.0; 2,000; 5,000 Fc; 0-2,000; 20,000; 50,000 lux
- Simultaneous display of foot candles or Lux Plus lighting type
- Large 1.4" LCD display with Data Hold
- Min./Max. and Avg. readings
- Selenium photovoltaic sensor provides cosine and color corrected readings
- 4 lighting types: Tungsten/Daylight, Fluorescent, Sodium, and Mercury
- Zero-adjust, % Differential, and Auto Shut-off
- Heavy-duty design
- Includes rubber holster with stand and 9V battery
- AC power adapter available, use 3ZH67
- Compatible with Datalogger Module No. 1M960 and No. 3ZH85 software

**No. 1M946.** Extech brand (407026). Shpg. wt. 1.4 lbs. Each.....$169.00

No. 1M946

### Vinyl Carrying Case for No. 1M946



**No. 1M940.** Vinyl Carrying Case. Extech brand (409997). Shpg. wt. 0.3 lbs. Each.....$19.00

## EXTECH MULTIMETER LIGHT ADAPTERS
## Nos. 1M948 and 1M950

- Turn any digital multimeter with a 200mV DC range into a light meter
- No. 1M948 measures 0 to 5,000 foot candles in the following ranges:
  0 to 200 FC (0.1 FC resolution) 1 mV/FC output;
  200 to 2000 FC (1 FC resolution) 0.1 mV/FC output;
  2000 to 5000 FC (10 FC resolution) 0.1 mV/10 FC output
- No. 1M950 measures 0 to 50,000 lux in the following ranges:
  0 to 2000 lux (1 lux resolution) 0.1 mV/lux output;
  2000 to 20,000 lux (10 lux resolution) 0.1 mV/10 lux output;
  20,000 to 50,000 lux (100 lux resolution) 0.1 mV/100 lux output
- Includes 9V battery and instructions

**No. 1M948.** Extech brand (401021). Shpg. wt. 0.5 lbs. Each.....$59.00

**No. 1M950.** Extech brand (401020). Shpg. wt. 0.5 lbs. Each.....$59.00

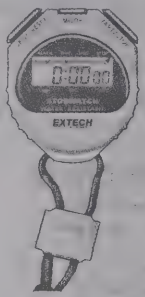
No. 1M948

# MECHANICAL AND DIGITAL TIMERS AND STOPWATCH/TIMERS

## EXTECH DIGITAL STOPWATCH/TIMER

- Stopwatch timing capacity to 9 hours 59 minutes and 59.99 seconds, built-in memory recalls up to 10 laps, dual display shows total and lap time
- 12 or 24 hour clock with alarm and chime displays day, month, and date
- Countdown timer with 1 minute to 9 hours, 59 minutes input range
- Water resistant
- Includes lithium battery and 39" neckstrap

**No. 3ZH74.** Extech brand (365528). Shpg. wt. 0.2 lbs. Each..... $29.00

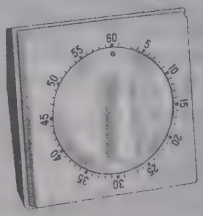


No. 3ZH74

## EXTECH DIGITAL STOPWATCH CLOCK

- Colorful, yellow stopwatch counts up to 23 hours, 59 minutes and 59 seconds
- Accurate to ±3 seconds per day
- Displays elapsed time and split time measurements
- Accurately time 2-contestant competitions
- 12/24 hour clock operation with settable hour chime
- Wake and snooze alarm
- Data hold freezes displayed value
- Water resistant housing; complete with 39" neckstrap and battery

**New No. 4TM11.** Digital Stopwatch Clock. Extech brand (365510). Shpg. wt. 0.2 lbs. Each..... $19.00



No. 4TM11

## TAYLOR COMPACT MECHANICAL TIMER

- 3" square plastic case
- One hour capacity
- Long bell alarm

**No. 4JZ09.** Taylor brand (5810). Shpg. wt. 0.3 lbs. Each..... $8.99

No. 4JZ09

## TAYLOR SMALL DIGITAL TIMER

- 2⅜ x 2" with 5/8 x 1/2" readout
- 20 hour countdown
- "Visual Logic" control buttons
- Continuous alarm
- Pocket clip, magnetic back, or stand
- Includes "AAA" battery

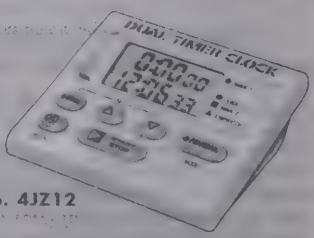
**No. 4JZ10.** Taylor brand (5811). Shpg. wt. 0.1 lbs. Each..... $8.99

No. 4JZ10

## TAYLOR LARGE DIGITAL TIMER

- 3 x 2¾" with 1⅞ x 3/4" readout
- 20 hour countdown
- "Visual Logic" control buttons
- Extra loud continuous alarm
- Magnetic back or stand
- Includes "AAA" battery

**No. 4JZ11.** Taylor brand (5812). Shpg. wt. 0.5 lbs. Each..... $17.99



No. 4JZ11

## TAYLOR LARGE DIGITAL STOPWATCH/TIMER

- 3½ x 3¼" with clock, stopwatch, and timer modes
- 24 hour countdown
- Dual readout of timer mode and second mode of choice simultaneously
- "Visual Logic" control buttons
- Continuous alarm
- Includes "AAA" battery

**No. 4JZ12*.** Taylor brand (5814). Shpg. wt. 0.3 lbs.Each..... $21.99

No. 4JZ12

Limited Availability, contact local branch.

# pH TESTERS, pH CALIBRATION TESTER, pH METER, AND TDS PEN TESTERS

## EXTECH POCKET pH TESTER

- Microprocessor based with Automatic Temperature Compensation
- Easy-to-read LCD display
- Wide measuring range of −1.0 to 15.0 pH up to 50°C
- Accuracy: 0.1 pH
- Can be calibrated at 4, 7 and 10 pH using buffer tripak No. 1H141 sold below.
- Features splash proof keypad, Hold function, and Auto Power OFF
- Includes three watch-type batteries

**No. 1H157.** Extech brand (050450). Shpg. wt. 0.3 lbs. Each .....$67.00

### VINYL CARRYING CASE (For Nos. 1H157, 3ZH68 & 3ZH69)

**No. 1H154.** Belt Loop Vinyl Case. Extech brand (392999). Shpg. wt. 0.1 lbs. Each .....$7.00

## EXTECH WATERPROOF pH PEN TESTER

- Waterproof and dustproof—meets or exceeds IP67
- −1.0 to 15.0 pH range, 0.1 pH resolution, +0.2 pH accuracy
- Replaceable electrode No. 3ZH63 included
- Microprocessor control, one button calibration
- Can be calibrated at 4, 7 and 10 pH using buffer tripak No. 1H141 sold below.
- Self-diagnostic, Auto-OFF, Hold function

**No. 3ZH62.** Extech brand (050560). Shpg. wt. 0.4 lbs. Each.....$68.00

### REPLACEMENT ELECTRODE

**No. 3ZH63.** Extech brand (050569). Shpg. wt. 0.1 lbs. Each .....$32.00

## EXTECH pH METER

- Measures pH to 0.01 resolution over full 0-14.00 pH range
- Accuracy: 0.02 pH
- "Flip up" display provides best viewing angle and auto shut-off when cover is closed
- Benchtop or handheld with neckstrap for "hands-free" operation
- Manual temperature compensation (0-100°C)
- Neckstrap, electrode, sample buffer solutions, case and 9V battery included

**No. 1H156.** ❸ Extech brand (120505). Shpg. wt. 1.8 lbs. Each ... $189.00

### ACCESSORIES

**No. 1H143.** Mini Electrode Replacement. Extech brand (60120B). Shpg. wt. 0.2 lbs. Each ..... $45.00

**No. 1H141.** ❸ Buffer Tripak pH 4.0, 7.0, and 10.0. Extech brand (650470). Shpg. wt. 0.3 lbs. Each ..... $20.00

❸ These products are covered by OSHA Hazard Communication Standard, and Material Safety Data Sheets (MSDS) are available. See page opposite inside back cover.

## EXTECH pH CALIBRATION TESTER

- Detects faults in electrodes, pH meters, recorders, transmitters, etc.
- Pushbutton switch simulates 4, 7, and 10 pH values
- High ohm range (1000 MOHM) for checking impedence values of pH devices
- Accuracy: 0.1% reading
- Compact size fits into shirt pocket
- Includes calibration cable with BNC connector, carrying case and 9V battery

**No. 1H142.** Extech brand (610022-B). Shpg. wt. 0.7 lbs. Each .....$89.00

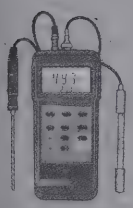
## HANNA CHECKER® 1 pH TESTER

- Large and easy-to-read LCD
- High accuracy with 0.01 pH resolution
- Replaceable screw-type, combination pH electrode No. 4KF26 included
- Two-point fast and accurate calibration
- 0.00 to 14.00 pH range
- Battery life: 3,000 hours of continuous use

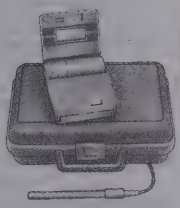
**No. 4KF20.** Hanna brand (CHECKER1). Shpg. wt. 0.5 lbs. Each... $34.50

### REPLACEMENT ELECTRODE

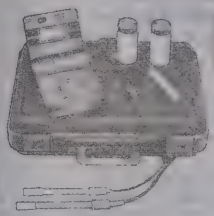
**No. 4KF26.** Replacement Electrode. Combination, single junction, screw-type. Hanna brand (HI1270). Shpg. wt. 0.1 lbs. Each ..... $16.00



## EXTECH TDS/CONDUCTIVITY PEN TESTERS



- Select PPM/PPT (TDS) or Siemens (conductivity) models
- Dual ranges: 10 to 1990 PPM, 2.0 to 19.99 PPT
- 20 to 1990 µS, 2.0 to 19.90 mS
- +2% accuracy full scale
- Microprocessor control, one button calibration
- Self-diagnostic, Auto-OFF, Hold function
- Includes batteries and instructions; optional carrying case No. 1H154 sold on this page



**No. 3ZH68.** TDS Pen Tester 10, PPM/PPT. Extech brand (321850). Shpg. wt. 0.3 lbs. Each ..... $95.00

**No. 3ZH69.** TDS Tester 20, Siemens. Extech brand (321950). Shpg. wt. 0.3 lbs. Each..... $95.00

# PH AND CONDUCTIVITY TESTERS

No. 3ZH86

No. 3ZH70

No. 3ZH72

No. 4KF21

## EXTECH HEAVY-DUTY pH/mV/TEMPERATURE METER KIT

- Extra large dual display LCD
- Read pH/temperature or mV/temperature in °F or °C
- Ranges: 0-14pH, 0-1999mV, 0-100°C, 32-212°F
- Min./Max./Average with Recall
- Auto OFF and Data Hold
- Easy slope and calibration adjustments
- Manual and auto temperature compensation
- Optional serial cable and data acquisition software (No. 3ZH85) and datalogger (No. 1M960)
- Includes pH electrode, temperature probe (No. 3ZJ04), protective holster, 9V battery, and carrying case

**No. 3ZH86.** Extech brand (407228). Shpg. wt. 1.4 lbs. Each ..... $269.00

### OPTIONAL FLAT SURFACE ELECTRODE

- Ideal for testing pH on solid products such as cheese or soils
- Polymer bodied electrode makes clean-up easy
- End mounted, large flat sensor for fast, efficient response
- Probe dimensions are 5mm Diameter x 114mm Long; includes 39" cable

**No. 3ZH98.** Flat Surface Electrode. Extech brand (60110B). Shpg. wt. 0.3 lbs. Each ..... $65.00

### ACCESSORIES

**No. 3ZJ04.** Stainless Steel Temperature Probe. Extech brand (850188). Shpg. wt. 0.2 lbs. Each ..... $49.00

**No. 3ZH67.** 117V AC Adapter. Extech brand (156119). Shpg. wt. 0.5 lbs. Each ..... $17.00

## HANNA DIST WATERPROOF CONDUCTIVITY AND DISSOLVED SOLIDS TESTERS

- Large and easy-to-read LCD
- Automatic temperature compensation
- Housed in waterproof ABS cases for the best protection against dust and humidity
- Manual one-point calibration through trimmer
- Accuracy: ±2% Full Scale
- Battery life: 350 hours of continuous use

### CONDUCTIVITY CALIBRATION SOLUTIONS

- Used to calibrate Hanna or other brands of instruments
- 30 ml bottles, 2 bottles per unit

**No. 4KF27.** ❸ 84 µS/cm @ 25°C. Hanna brand (HI7033P). Shpg. wt. 0.2 lbs. Each ..... $7.50

**No. 4KF28.** ❸ 5000 µS/cm @ 25°C. Hanna brand (HI7039P). Shpg. wt. 0.2 lbs. Each ..... $7.50

❸ These products are covered by OSHA Hazard Communication Standard, and Material Safety Data Sheets (MSDS) are available. See page opposite back cover.

| Range | Hanna Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|
| 1999 ppm | DiST WP 1 | 4KF21 | $46.70 | 0.6 |
| 10.00 ppt | DiST WP 2 | 4KF22 | 46.70 | 0.6 |
| 1999 µS/cm | DiST WP 3 | 4KF23 | 46.70 | 0.6 |
| 19.99 mS/cm | DiST WP 4 | 4KF24 | 46.70 | 0.6 |

## EXTECH TDS/CONDUCTIVITY METER KITS Nos. 3ZH70 and 3ZH71

- Economy models measure TDS (total dissolved solids) or conductivity
- TDS range: 10 to 19,990 PPM; Conductivity range: 10 to 19,990 µS
- +0.5% accuracy; cell adjust for calibration
- Adjustable LCD with Auto OFF when cover is closed
- Includes polymer cell (No. 3ZJ03) with 39" cable, hard vinyl carrying case, and 9V battery

**No. 3ZH70.** Oyster TDS Meter Kit. Extech brand (341150). Shpg. wt. 1.8 lbs. Each ..... $199.00

**No. 3ZH71.** Oyster Conductivity Kit. Extech brand (341250). Shpg. wt. 1.8 lbs. Each ..... $199.00

## EXTECH pH/CONDUCTIVITY/TDS METER KITS Nos. 3ZH72 and 3ZH73

- Measure pH, Conductivity and TDS (Total Dissolved Solids)
- Ranges: 0.01 pH to 14.00 pH, 10 to 19,990 µS, 10 to19,990 PPM
- Accuracy: +0.01pH, +0.5% µS and PPM
- Select Glass Cell (on No. 3ZH72) or durable Polymer Cell (on No. 3ZH73)
- Adjustable LCD with Auto OFF when cover is closed
- Complete with pH electrode, TDS/Conductivity cell, buffer solutions, carrying case, 9V battery, and instructions

**No. 3ZH72.** pH/Conductivity/TDS Kit, Glass Cell. Extech brand (341350). Shpg. wt. 2.9 lbs. Each ..... $379.00

**No. 3ZH73.** pH/Conductivity/TDS Kit, Polymer Cell. Extech brand (341350-P). Shpg. wt. 2.9 lbs. Each ..... $359.00

## CONDUCTIVITY ACCESSORIES

- Glass and polymer conductivity cells provide precise measurements from 0.01 to 200,000 µS/cm with 1.0K constant and automatic temp. control
- Conductivity cells are corrosion resistant with platinized electrodes
- Choice of conductivity solutions permits calibration close to measurement range

**No. 3ZH99.** Glass Conductivity Cell 0.5"Dx5.6"L (12mm x 137mm). Extech brand (800410). Shpg. wt. 0.4 lbs. Each ..... $95.00

**No. 3ZJ03.** Polymer Conductivity Cell 0.5"Dx6.4"L (12mm x 157mm). Extech brand (804010). Shpg. wt. 0.4 lbs. Each ..... $95.00

**No. 3ZJ02.** 1,000 mS/cm Solution, 500ml. Extech brand (800459). Shpg. wt. 1.2 lbs. Each ..... $22.00

**No. 3ZJ01.** 10,000 mScm Solution, 500ml. Extech brand (800458). Shpg. wt. 1.2 lbs. Each ..... $22.00

# CONDUCTIVITY, DISSOLVED OXYGEN, CHLORINE METERS, AND REFRACTOMETERS

## EXTECH CONDUCTIVITY/ TEMPERATURE METER No. 4KC30

- Dual display of conductivity and temperature
- Three Ranges: (200µS/2mS/20mS) with high resolution from 0.1µS and ±3% accuracy
- Measure temperature from 32° to 140°F (0° to 60°C)
- Manual or Automatic temperature compensation
- Super large 1.4" (36mm) LCD also displays recalled Min/Max/Avg readings
- Conductivity cell calibration adjustment
- Data Hold and Auto Power OFF
- Built-in RS-232 interface
- Windows Data Acquisition software (No. 3ZH85), Data Logger (No. 1M960), and AC Power Adapter (No. 3ZH67) available, order separately
- Includes 1K carbon cell with cable (No. 4KC54), rubber holster, 9V battery, and carrying case

**No. 4KC30.** Extech brand (407303) Shpg. wt. 2.5 lbs. Each.....$249.00

### ACCESSORIES

**No. 4KC54.** Replacement Conductivity Cell for No. 4KC30. Extech brand (804407) Shpg. wt. 0.3 lbs. Each.....$69.00

## EXTECH DISSOLVED OXYGEN METER No. 4KC32

- Dual display of dissolved oxygen and temperature
- Measure dissolved oxygen from 0 to 20.0mg/L or 0 - 100% oxygen
- Measure temperature from 32° to 140°F (0° to 60°C)
- Automatic temperature compensation via temperature sensor in oxygen probe (polarographic)
- Super large 1.4" (36mm) LCD also displays recalled Min/Max/Avg readings
- Probe compensation for Salt (0 to 39%) and Altitude (0 to 3900 meters)
- Data Hold and Auto Power OFF
- Built-in RS-232 interface
- Windows Data Acquisition Software (No. 3ZH85), Datalogger (No. 1M960), and AC Power Adapter (No. 3ZH67) available, order separately
- Includes sensor with cable, five membranes, holster, 9V battery, and case

**No. 4KC32.** Extech brand (407510) Shpg. wt. 2.5 lbs. Each.....$399.00

### ACCESSORIES

**No. 4KC52.** Replacement Membranes for No. 4KC32 (5/Pkg.). Extech brand (780407). Shpg. wt. 0.1 lbs. Each.....$15.00

**No. 4KC53.** Replacement KCL Solution for No. 4KC32. Extech brand (780408). Shpg. wt. 0.1 lbs. Each.....$12.00

## EXTECH SUCROSE REFRACTOMETER No. 3ZH96 AND SALINITY REFRACTOMETER No. 3ZH97

- Sucrose Refractometer Range: 0-32% brix, 0.2% resolution, refractive index of 1.333 to 1.384. Determines % solids in liquids
- Salinity Refractometer Range: 0 to 160 ppt, 0.5 ppt resolution refractive index of 1.333 to 1.373. Determines salt density in solutions
- Include carrying case, screwdriver for calibration, and instructions

**No. 3ZH96.** Sucrose Refractometer (0-32%). Extech brand (502132) Shpg. wt. 0.5 lbs. Each.....$249.00

**No. 3ZH97.** Salinity Refractometer (0-160 ppt). Extech brand (588306). Shpg. wt. 1.0 lbs. Each.....$299.00

## HANNA WATERPROOF DISSOLVED OXYGEN METER No. 4KF38

- Large, easy-to-read LCD
- One-point calibration
- Automatic temperature compensation
- Low battery indicator
- Accuracy: ±1.5% full scale
- Resolution: 0.1 mg/L; Range: 0.0-19.9 mg/L

**No. 4KF38.** Hanna brand (HI9142). Shpg. wt. 4.2 lbs. Each.....$495.00

### ACCESSORIES

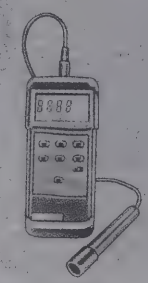
**No. 4KF37.** Replacement Teflon Membranes for No. 4KF38 (5/Pkg.). Hanna brand (HI76407A/P). Shpg. wt. 0.5 lbs. Each.....$69.00

**No. 4KF30.** Electrolyte Solution for No. 4KF37 (30 mL bottle). Hanna brand (HI7041S). Shpg. wt. 0.5 lbs. Each.....$10.90

**No. 4KF29.** Zero Oxygen Solution (230 mL bottle). Hanna brand (HI7040M). Shpg. wt. 1.0 lbs. Each.....$9.00

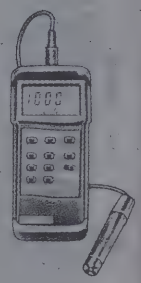
## HANNA FREE AND TOTAL CHLORINE COLORIMETER No. 4KF43

- Reads both free and total chlorine; large, easy-to-read tilted LCD display
- Reads in 0.01 mg/L increments
- Accuracy: ±0.03 mg/L ±3% of rdg.
- Range: 0.00-2.50 mg/L free; 0.00-3.50 mg/L total



**No. 4KF43.** ❸ Hanna brand (HI93711). Shpg. wt. 2.5 lbs. Each.....$152.00

### ACCESSORIES



**No. 4KF42.** ❸ Free Chlorine Reagent for No. 4KF43. Provides 100 tests. Hanna brand (HI93701-01). Shpg. wt. 0.1 lbs.Each.....$14.00

**No. 4KF44.** ❸ Total Chlorine Reagent for No. 4KF43. Provides 100 tests. Hanna brand (HI93711-01) . Shpg. wt. 0.1 lbs. Each.....$14.00

# MULTI-FUNCTION CONTACT AND NON-CONTACT TACHOMETERS

## CONTACT AND NONCONTACT POCKET TACHOMETERS

- Safe non-contact operation to 30" and 30° from reflective target
- Ergonomic design allows viewing target and display simultaneously
- Contact tip measures rotational and linear speed in english and metric units
- 2.4W x 5.86H x 1.23"D size fits in shirt pocket; weigh 6 oz.

**No. 3T179** Pocket-Tach 100 Non-Contact Tachometer:

- Accuracy: ±1 RPM
- Last measurement memory
- "9V" battery • 6" reflective tape
- Padded carrying case included

**No. 3T181 Pocket-Tach Plus Kit,** 30 Function Non-Contact Tachometer, Totalizer-Counter, Timer-Stopwatch:

- Inches, feet, yards, centimeters or meters per second, minute or hour
- Accuracy ± .01% of reading
- Min./Max. last measurement memory
- Totalizer: 1 to 999,999 counts
- Stopwatch: .01 second to 99 hours
- Includes "9V" battery, 5 ft. roll of reflective tape, contact tip assembly, linear speed wheel, instruction manual, and carrying case

| Range (RPM) | Monarch Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|
| 5-100,000 | Pocket-Tach 100 | 3T179 | $195.00 | 0.5 |
| 5-100,000 (Optical); 2.5-20,000 (Contact) | Pocket-Tach Plus Kit | 3T181 | 269.00 | 3.0 |

## MONARCH PISTOL GRIP DIGITAL PHOTOTACHOMETERS

- Safely measures up to three feet and at angles of up to 45°
- Range: 5-100,000 RPM
- Accuracy: ±1 RPM
- 1 RPM resolution
- Pistol grip convenience
- Trigger lock button for continual monitoring
- 1/4-20 threaded bushing in handle for tripod/bracket mounting
- On-target indicator assures proper aim
- Last measurement memory; low battery indicator
- 6 digit, 0.5" LCD display
- Display update is twice per second
- No. 3T178 also includes internal optics and remote optical sensor with 8 ft. cable and mounting clamp
- Both models include 4 NiCad "AA" rechargeable batteries, recharger, one 5 ft. roll reflective tape and rugged carrying case

| Monarch Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|
| PHASAR Kit | 5W182 | $394.00 | 5.0 |
| PHASAR-REMOTE Kit | 3T178 | 579.00 | 5.0 |

**No. 3A145.** Monarch Replacement Reflective Tape. For use with many phototachometers. 1/2" x ft. roll. Shpg. wt. 0.1 lbs. Each ..... $10.00

## HIGH ACCURACY/WIDE RANGE TACHOMETER/ TOTALIZER/COUNTER/TIMERS

### TACHOMETER FUNCTIONS

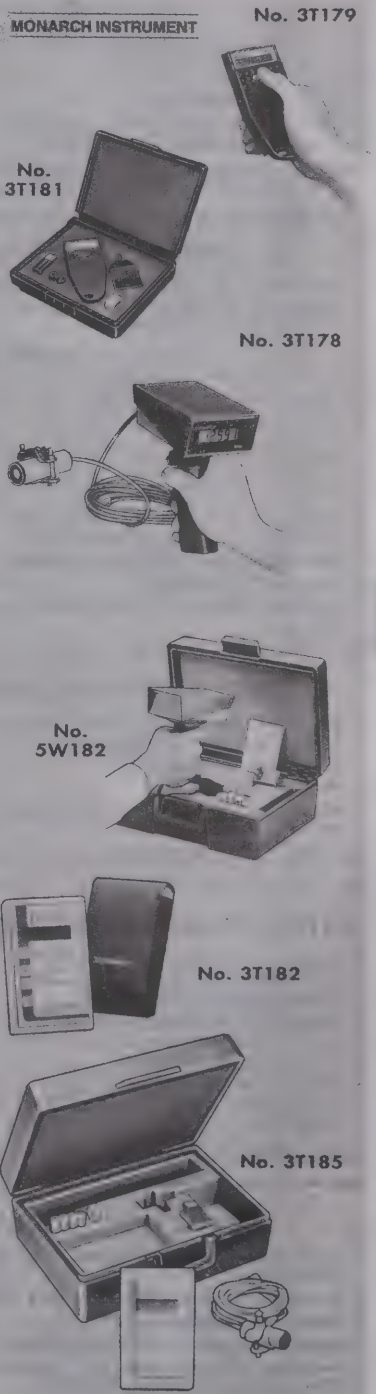
- Autoranging 5 to 500,000 RPM
- Accuracy ± 0.0001 RPM
- Non-contact operation to 3 ft. and 45° from target
- Minimum, maximum and last measurement recall
- NIST traceable certificate supplied
- 6 digit alphanumeric, backlit LCD display
- Single or multiple pulses per revolution and scaling

### TOTALIZER/COUNTER FUNCTIONS

- 1-999,999 counts
- Manual and optical incrementing

### TIMER (STOPWATCH) FUNCTIONS

- Autoranging 0.01 seconds to 100 hours
- Stores 3 lap times



**No. 3T183** includes recharger, reflective tape and carrying case.

**No. 3T184** includes remote optical sensor with 8 ft. cable, mounting bracket, and tape.

**No. 3T185** includes recharger, reflective tape , remote optical sensor with 8 ft. cable, mounting bracket and carrying case.

| Sensor | Battery Supplied (Qty. / Type) | Case | Monarch Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| nternal | 4/AA | Padded | TACH-4A | 3T182 | $395.00 | 1.0 |
| nternal | 4/Ni Cad | Latching | TACH-4A Kit | 3T183 | 520.00 | 5.0 |
| nternal & Remote | 4/AA | Padded | TACH-4AR/ROS-5P | 3T184 | 580.00 | 1.5 |
| nternal & Remote | 4/Ni Cad | Latching | TACH-4AR Kit | 3T185 | 705.00 | 5.5 |

MONARCH INSTRUMENT

# CONTACT AND NON-CONTACT TACHOMETERS

## STEWART-WARNER HAND-HELD DIAL CONTACT TACHOMETER

- Accuracy (typ.): ±3%
- Range: 50-4000 RPM
- For use on motors, saws, compressors, fans, pumps, and grinders
- Reads directly in RPM; 2½" scale 50 and 100 RPM increments, with large numerals every 500 RPM (clockwise or counter-clockwise)
- Fluid damper for pointer Indication
- Cup haaped tip for flat-end shaft
- cone-shaped tip for shafts with cebter holes

**No. 2X132.** Stewart-Warner brand. Shpg. wt. 0.6 lbs. Each.....$52.40

## AMETEK HAND-HELD DIGITAL TACHOMETER

- Accuracy (typ.): ±0.035% of reading
- Range: 6-25,000 RPM (contact) 6-99,999 RPM (noncontact)
- Contact or non-contact measurement
- 8-segment display with floating decimal

### 16 UNITS OF MEASURE

| Per Time | Units | | | | | | |
|---|---|---|---|---|---|---|---|
| | Rev | Inch | Feet | Yard | Mile | Cm | Meter |
| Second | Yes | Yes | Yes | Yes | — | Yes | — |
| Minute | Yes | Yes | Yes | Yes | — | — | Yes |
| Hour | Yes | Yes | Yes | Yes | Yes | — | Yes |

- Unit of measure always displayed
- Four memories—Last, Minimum, Maximum, and Average readings
- Power: "9V" battery
- Includes reflective tape kit and carrying case
- Photoelectric pickup. Also includes contact adapter utilizing interchangeable tips—conical, concave, and linear speed wheel
- 8-character dot-matrix LCD; 3/8" character height

**No. 2T719.** Ametek brand (1726). Shpg. wt. 2.0 lbs. Each.....$293.00

## TIF HAND-HELD DIGITAL PHOTOTACHOMETER

- Accuracy (typ.): 0.1% of reading or 1 RPM, whichever is greater
- Range: 80-20,000 RPM
- Memory hold feature
- Infrared light, not affected by ambient interference
- On-target indicator
- Auto power OFF
- 4½ digit LCD display
- Non-contact measurement
- One roll reflective tape, one "9V" battery, and case included

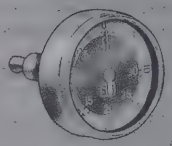
**No. 3X982.** TIF brand (780). Shpg. wt. 1.6 lbs. Each.....$214.00

**No. 1T982.** Reflective Tape. ½ x 30". TIF brand (TIF 773). Shpg. wt. 0.1 lbs. Each.....$5.25

## EXTECH COMBINATION PHOTO TACHOMETER/STROBOSCOPE

- Battery operated unit provides tachometer and strobroscope speed/motion analysis
- Large 0.4" full 5-digit LCD display with character reversal based on measurement mode
- Non-contact
- Tachometer range from 5 to 100,000 RPM/FPM
- Strobroscope range from 100 to 100,000 RPM/FPM
- Tachometer memory stores and recalls last, max., and min. readings
- 0.1% basic measurement accuracy with 0.1 RPM resolution
- Includes four 1.5V (AA) bateries, reflective tape and case

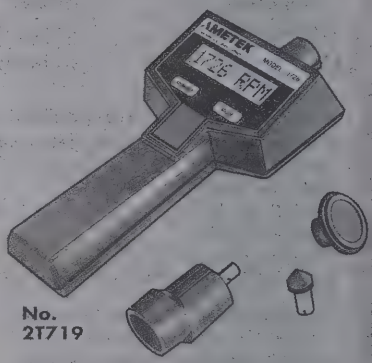
***New* No. 4PC67.** Extech brand (461825). Shpg. wt. 1.8 lbs. Each.....$329.00



***New* No. 4PC68.** Extech brand. (46185-NIST). Shpg. wt. 1.8 lbs. Each.....$429.00

## EXTECH TACHOMETER ADAPTER No. 1M920

- Turns any digital multimeter with a 200 mV DC range into a non-contact photo tachometer
- 2 ranges: 100 to 1999 RPM and 1000 to 19990 RPM
- Working distance: 2-12"
- Accuracy (typ.): ± 1.2% of reading
- Includes reflective tape, 50" cable with banana plugs to connect to multimeter, 4 "AA" batteries and instructions



**No. 1M920** Extech brand (461900). Shpg. wt. 0.8 lbs. List $119.00. Each.....$109.00

# PROGRAMMABLE TACHOMETER AND PICKUPS

## DIGITAL PROGRAMMABLE TACHOMETER

**Microprocessor based rate meter/tachometer/process time indicator. Measures linear speed, rotational speed, and units over time**

**Front panel programming**

**0.01% ±1 LSD accuracy**

**Memory recall of Min., Max., Ave. readings**

**0.5" five digit LED display**

**Floating decimal for maximum resolution**

- **Prog., Min., Max., Ave., Dir. modes**
- **"Power ON" self-test**
- **Cast aluminum, panel mount, NEMA, DIN, standard cutout (5.6 x 2.8")**
- **120V AC ±10%, 50-60 Hz operation**
- **Use with Ametek No. 2T972 magnetic or No. 2T973 photoelectric pickups**

**No. 2T724.** Ametek brand (1736). Shpg. wt. 3.0 lbs. Each ..... **$465.75**

AMETEK

## MAGNETIC PICKUPS

Convert mechanical motion to an AC voltage without the need for external power or mechanical linkage. Produce an external magnetic field which generates an AC voltage when disturbed by a ferrous object such as a gear tooth. The frequency of this voltage is proportional to RPM when the pickup is mounted in close proximity to rotating gear teeth. All models self generate a pulse when a ferrous object moves past the pickup tip . . . the faster, the higher the voltage (zero speed equals zero voltage). P-P (peak-to-peak) volts for 0.005" gap with a 20 pitch, 30 tooth steel gear moving at 1000 in./sec. is 90.0 volts.

Combination of pickups and tachometers provides a speed monitoring system for timing, synchronization, and vibration measurement applications.

- **1800Ω nominal coil resistance**
- **Use for slow surface speeds to 100 in./sec. where interference from nearby motors and transformers is not likely**
- **Epoxy potted for protection**
- **5/8"-18 threaded shell with lock nut to facilitate mounting**
- **Includes 8 ft. shielded cable and appropriate connector**

| For Model | Case Material | Connector | Pickup Length (In.) | Ametek Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| **1736** | Stnl.St. | Tinned | 2⅜ | 813-SXC | **2T972** | **$71.80** | 0.5 |

AMETEK

No. 2T736

## PHOTOELECTRIC PICKUPS

Photoelectric pickups are transducers providing a signal voltage output corresponding to a change in light reflected from a target object." Provide both the light source and sensing photocell. In general, the greater the light change on the cell, the greater its voltage output. Therefore, light reflected from a bright surface and a dull or black background will result in maximum output. Silicon cell sensors generate voltage when they "see" light. They are used in the range from 0 to 100,000 events per minute. Can be used with reflective tape—No. 3A145 and No. 1T982.

- **No. 2T738 has provision for threaded mounting**
- **3½" length**
- **Includes 8 ft. shielded cable and appropriate connector**

| Built-in Amplifier | Application Distance (In.) | Connector | Mounting (In.) | Use with Model | Ametek Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|---|
| **Yes** | 1/2 | MS-3106A | 3/4-20 Thrd. | 834 | 836-SXA | **2T738** | **$132.75** | 1.0 |
| **No** | 1/4 to 25 | Tinned | 7/8 dia. | 1736 | 995 SXC | **2T973** | **94.55** | 0.5 |

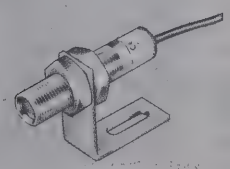
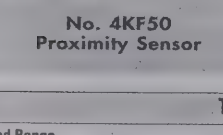
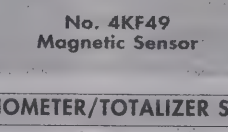
# TACHOMETER/TOTALIZERS AND SENSORS



## MONARCH INSTRUMENT



No. 4KF46



No. 4KF47

No. 4KF55
Optical Sensor

No. 4KF50
Proximity Sensor

No. 4KF49
Magnetic Sensor

**No. 4KF46:**

- **Economical RPM display with an input requirement of 1 pulse per revolution**
- **7-segment LED display**

**No. 4KF47:**

- **Panel tachometer is front panel programmable from one or multiple pulses per revolution with scaling**
- **Totalize independent scaling and count to 99,999**
- **Two alarm set points with High Alarm, Low Alarm, latching, non-latching, low limit lockout and hysteresis. All programmable independently for each alarm**
- **Recall minimum and maximum readings**
- **7-segment LED display**
- **Standard simultaneous outputs include: Offset Analog Voltage (12 bit resolution, 0-5V DC), Offset Current (12 bit resolution, 4-20 ma), Pulse Repeater (0-5V TTL) and RS232 bi-directional interface**
- **Nos. 4KF46 and 4KF47 have universal inputs are are compatible with optical, proximity, and magnetic sensors and direct 0-5V TTL or 200mV to 50V AC signals. See Sensors listed below**

## SENSORS

**Remote Optical Sensor.** 1-150,000 RPM. Visible red LED ligh source and green LED on-target indicator. Complete wit mounting bracket and 8 ft. cable. Operates up to 3 feet and 45 from reflective target. Stainless steel sensor 0.625" diameter x 2.90" long. Operating temperature -10 to 250°F (-23 to 121°C) Use with No. 3A145 reflective tape.

**No. 4KF55.** Remote Optical Sensor. Monarch brand (ROS-5W) Shpg. wt. 0.4 lbs. Each ..... $135.00

**Proximity Sensor.** 1-60,000 RPM. Inductive probe for use up t 0.200 inches to a metallic target. Generate pulses per revolutio from bolt head, keyway with an area of at least 0.5 sq. in Dimensions: M14x1 thread x 1.26" long. Operating temperature -4 to 140°F (-20 to 60°C). Meets IEC standard 144/855420 cate gory I.P. 67, dust-tight and protected against water at one mete immersion. Complete with mounting nuts and 6 ft. cable.

**No. 4KF50.** Proximity Sensor. Monarch brand (P5-11). Shpg. wt. 0.2 lbs. Each ..... $95.00

**Magnetic Sensor.** 1-100,000 RPM. Recommended for use with 6 tooth, 20 pitch gear, 0.05" gap. 0.106" pole piece diameter 1200Ω resistance, 190V p-p at 1000 ips. Dimensions: 5/8 x 1 UNF thread, 2" long. Operating temperature: -100 to 225°F (-7 to 107°C).

**No. 4KF49.** Magnetic Sensor. Monarch brand (M-190). Shpg. wt. 0.2 lbs. Each ..... $90.00

## TACHOMETER/TOTALIZER SPECIFICATIONS AND ORDERING DATA

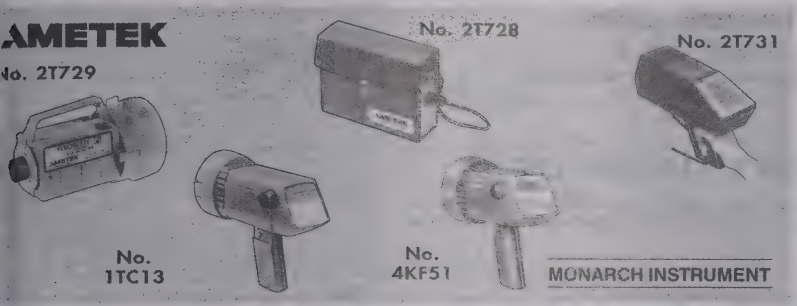
| Speed Range RPM | Accuracy | Input Configuration | Dimensions | Recommended Sensors | Monarch Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|---|
| 5-100,000 | ± 1 RPM | 1 pulse/revolution | 1/8 DIN x 4.5" D | 4KF50, 4KF55 | ACT-1B/115 | 4KF46 | $260.00 | 1.5 |
| 5-999,990 | ±0.001% of rdg. | 1 or multiple pulse/revolution | 1/8 DIN x 7" D | 4KF49, 4KF50, 4KF55 | ACT-3/115 | 4KF47 | 495.00 | 2.0 |

## MONARCH STROBOSCOPE ACCESSORIES

**No. 1TC14.** Digital Stroboscope Lamp. (L-1903). Shpg. wt. 0.1 lbs. Each ..... $75.00

**No. 1TC15.** Analog Stroboscope Lamp. (L-1902). Shpg. wt. 0.1 lbs. Each ..... $25.00

**No. 1TC39.** Fast Charger 115V AC, 50/60 Hz (3 hours). (FR-3A). Shpg. wt. 2.4 lbs. Each ..... $110.00



**No. 1TC40.** Latching Carrying Case. (CC-7). Shpg. wt. 2.0 lbs. Each ..... $75.00

**No. 4KF53.** Standard Charger. (R-5). 115VAC, (14 hours). Shpg. wt. 0.4 lbs. Each ..... $25.00

**No. 4KF52.** Power Supply/Battery Charger. (PSC-3). Allows Phaser-Strobe (4KF51) to operate continuously from line power and internal rechargeable batteries. 115VAC, (10 hours). Shpg. wt. 1.8 lbs. Each ..... $125.000

**YOUR PRODUCT SOLUTION RESOURCE...CALL GRAINGER TODAY!**

**Grainger will supply you with the dependable, brand name products you need to keep your operation running smoothly-plus the solutions you need to keep your operation running more profitably.**

## HAND-HELD DIAL STROBOSCOPE/TACHOMETER

- Adjustable dial varies flash rate
- Accuracy (typ.): ±3% FS; Range: 200 to 6000 flashes/minute
- As a stroboscope it optically slows or stops motion of any moving object
- As a tachometer it provides speed measurement of moving/rotating objects
- Flash duration approximately 10 to 100 microseconds
- High impact case. Plastic lens. Mirror type reflector
- 1/4-20 threaded provision for tripod mount
- 117V AC, 50/60 Hz operation. Optional portable power pack available; see No. 2T728

**). 2T729.** Ametek brand (1000). Shpg. wt. 5.0 s. Each..... $198.25

**). 1TC27.** Replacement Bulb. Ametek brand 10028). Shpg. wt. 0.1 lbs. Each..... $27.85

## AC/DC PORTABLE POWER PACK

- Designed for use as portable power source for Nos. 2T729 and 2T731 stroboscope/tachometers listed above
- Contains rechargeable lead-acid 12V DC battery and 120V AC adapter/charger
- Output power is square wave, 50-70 Hz, 120 Vrms min., fully loaded, via NEMA 5-15 receptacle

**). 2T728.** Ametek brand (996). Shpg. wt. 11.0 s. Each..... $568.50

## HAND-HELD DIGITAL STROBOSCOPE/TACHOMETER

- Versatile, portable, hand-held or stand mountable
- Accuracy (typ.): ±0.01% +1 LSD
- Internal Flash Range: 20.0 to 29,999 flashes/minute
- External Tachometer Range: 120.0 to 99,999 RPM
- Internal/external/line triggering
- LCD readout, 5 digits with floating decimal point
- Microprocessor controlled—no calibration required
- Ultra stable (time and temperature)
- Set-up memory
- Automatic brightness control
- Can be used with permanently mounted magnetic or moveable photoelectric pickup transducers, see Index. Input accessible through 5-pin DIN receptacle
- Flash duration, 70-100 microseconds
- Continuous duty, thermally protected strobe
- High temperature resistant molded noryl case with detachable handle and 1/4-20 socket for tripod mounting
- 115V AC, 50/60 Hz operation Optional portable power pack available; see No. 2T728

**No. 2T731.** Ametek brand (1965 Digistrobe III). Shpg. wt. 4.1 lbs. Each..... $547.00

## INTERNAL RECHARGEABLE BATTERY OPERATED (1TC12 and 1TC13) AND LINE POWERED (4KF45 and 4KF48) STROBOSCOPES/TACHOMETERS

Nos. 1TC13 and 4KF48 have remote synch, external input, trigger output, latching trigger. The 4KF48 and 1TC13 offer continuous internal Phase Shift adjustment through Phase Keys. Continuous cool operation—100% duty cycle. Hand-held or tripod/bracket mountable. 1TC12 and 1TC13 Low battery indication; includes standard 115V AC (14 hr.) charger. Dimensions: Body—3.66W x 3.56H x 9"L; reflector housing—4.8" diameter.

**No. 1TC12.** Battery Operated Analog Stroboscope/Tachometer. Monarch brand (AB 115) . Shpg. wt. 3.8 lbs. Each..... $335.00

**No. 4KF45.** Line Operated Analog Stroboscope. Monarch brand (AA115). Shpg. wt. 3.0 lbs. Each..... $225.00

**No. 1TC13.** Battery Operated Digital Stroboscope/Tachometer. Monarch brand DB+115) Shpg. wt. 3.8 lbs. Each..... $495.00

**No. 4KF48.** Line Operated Digital Stroboscope. Monarch brand (DA+115). Shpg. wt. 3.0 lbs. Each..... $425.00

## PHASE-SHIFTING STROBOSCOPE/TACHOMETER

Includes NIST Traceable Certificate with each instrument. Expanded range of 30 to 32,500 FPM with exceptional resolution up to ±0.05 FPM. External mode offers Dual Function Delay in degrees and seconds. Auto Flash Intensity maximizes brightness throughout the entire range. Auto Set-up Mode provides slow motion viewing for repetitive high speed events. Displays both flashes-per-minute and flashes-per-second on backlit LCD. Stores and recalls three full settings and last measurement in non-volatile memory. Multiply and divide flash rate by two with display panel pushbutton. Dimensions: body—3.66W x 3.56H x 9"L, reflector housing—4.8" diameter. See Chargers on nearby page under "Accessories" for ordering information.

**No. 4KF51.** Phase-Shifting Stroboscope. Monarch brand (PB115). Shpg. wt. 4.0 lbs. Each..... $695.00

CHECK THE INDEX AT THE BACK OF THE BOOK TO HELP YOU FIND THE PRODUCTS YOU NEED QUICKLY

| SPECIFICATIONS | 4KF51 | 4KF45 | 1TC12 | 4KF48 | 1TC13 |

# TIMING LIGHTS, AUTO TRACER, AND BATTERY TESTERS

## [A] INDUCTIVE TIMING LIGHT

- **Bright xenon flash tube**
- **Works on all 12 volt systems**
- **Chrome metal housing**
- **Inductive pick-up**

**No. 4A650.** Kal Equip brand (4155).
Shpg. wt. 3.3 lbs. Each ..... **$98.90**

## [B] ADVANCE INDUCTIVE TIMING LIGHT

Use with 12 volt connectional or electronic ignition systems on domestic and imported cars. Inductive pick-up. Full one-year warranty; see "Manufacturer's Warranties" on page opposite inside back cover.

- **Bright xenon flash tube**
- **Rubber nose cone**
- **Chrome metal housing**
- **Adjustable advance**
- **Detachable lead set**

**No. 4A651.** Kal Equip brand (4185).
Shpg. wt. 4.0 lbs. Each ..... **$102.60**

## [C] AUTO TRACER

Detects voltage in automotive wiring without having to puncture insulation. Consists of two parts, an injector and a hand-held detector. A connectionless unit that checks for continuity, detects shorts and emits a loud beeping signal. Locates broken wires in: trucks, trailers, automobiles, boats, RVs (or any vehicle employing 12V storage battery). Locates and determines if fuses to automobile circuits are good.

- **Locates shorts. Determines the exact location where a cable is accidentally "shorted" to ground (contact car/truck body)**
- **Hand-held battery powered (9V battery supplied)**
- **Determine if headlamps, signal lamps, parking lamps, etc., are functional (filament is good)**

**No. 1T976.** TIF brand (TIF400).
Shpg. wt. 1.6 lbs. Each ..... **$149.95**

## BATTERY TESTERS

### [D] TIF No. 1T987

Compact and portable for testing of batteries up to 600 cold cranking amps. Check battery conditions under load, battery connections and battery cable. Measures DC volts, state of charge, battery condition, and charge voltage. Will not discharge or damage battery. LED display built into a compact storage case.

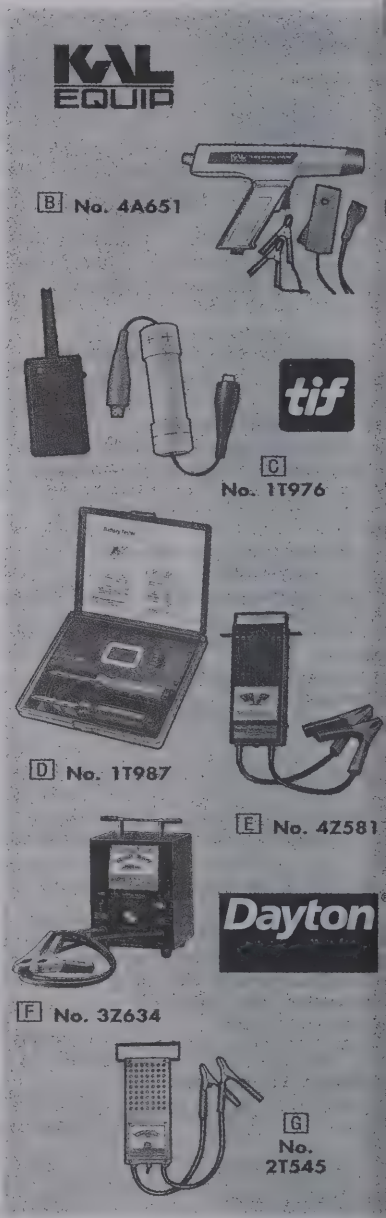
- **"Electronic load" replaces carbon pile**
- **Safer than carbon pile tester, less chance of explosion**
- **Powered by a battery under test. Protected against improper hook-up**
- **Volts range: 5.5 to 19.9V**
- **Accuracy: ±1 digit**
- **Load ranges: light, 200-300 CCA; medium, 300-450 CCA; heavy, 450-600 CCA**
- **Stainless steel, dual contact probes**

**No. 1T987.** TIF brand (TIF2500).
Shpg. wt. 1.9 lbs. Each ..... **$160.00**

### [E] DAYTON No. 4Z581

Tests 6 and 12 volt car batteries and output voltage of charging systems. Color-coded voltmeter with scale from 1 to 16 volts, 100 amp rated battery clips, and voltage selector switch. Heavy-duty toggle switch places 60 amp load on 6V batteries and 100 amp load on 12V batteries.

- **100 amp load type**
- **Measures 12½H x 6½W x 3½"D**



**No. 4Z581.** Dayton brand. Shpg. wt. 5.0 lbs.
List $79.81. Each ..... **$63.85**

### [F] DAYTON No. 3Z634

- **Load type tester with temperature compensation**
- **Easy-to-read face plate shows cubic inch displacement (CID), amp hour, and Delco watt ratings**
- **Pivot and jewel meter movement**
- **Steel case with aluminum instrument panel; measures 12½ x9W x 7¾"D**

Tests 12 volt automotive batteries with a minimum charge of 40% without recharging. Use to check vehicle starting and charging systems, indicate percent of charge, battery performance level, and detect short circuits.

**No. 3Z634.** Dayton brand. Shpg. wt. 11.0 lbs. List $238.75. Each ..... **$191.00**

### [G] KAL EQUIP No. 2T545

Checks battery voltage, cranking a charging volts. Works on 6 and 12-volt sy tems. Heavy-duty ventilated steel case.

- **100 amp internal load capacity**
- **Voltmeter: 0 to 7 & 0 to 15 volts DC**

**No. 2T545.** Kal-Equip brand (4260).
Shpg. wt. 3.1 lbs. Each ..... **$71.**

*Measure it, record it, calibrate it — You'll get it right with Grainger.*

# VACUUM/PRESSURE AND COMPRESSION/ LEAK TESTERS, & GAS/EXHAUST ANALYZER

## VACUUM/PRESSURE TESTER

- Engine diagnosis and fuel pump testing
- Full 3½" dial face
- US & metric scales: 0-30" and 0-800 mm (millimeters); 0-10 PSI and 0-700 G/CM²
- Includes universal adapter, "T" and screw-in adapter

**No. 2T553.** Kal-Equip brand (2511). Shpg. wt. 1.1 lbs.
Each ..... $30.80

## COMPRESSION TESTER

- Mechanical tester for domestic and import engine compression
- Screw-in adapter for accurate readings
- External pressure relief valve
- US & metric scales: 0-300 PSI and 0-21 KG/CM2
- Heavy-duty hose with integrated 14 & 18mm screw-in adapter

**No. 2T554.** Kal-Equip brand (2504). Shpg. wt. 1.2 lbs. List $46.09.
Each ..... $38.45

## VACUUM PUMP AND BRAKE BLEED KIT

- Bronze phosphorus bourdon tube (0-30 in. and 0-760 mm)
- Vacuum pump and one man brake bleed kit with all adapters
- Solid brass cyclinders, cyclinder head, and piston
- Vacuum release valve
- Steel handle and frame
- Replaceable O-ring head gasket and piston ring (kit included)
- Includes high-impact, molded carrying case and instruction manual

**No. 3T062.** Kal-Equip brand (2501). Shpg. wt. 5.0 lbs.
Each ..... $89.95

## HEAVY-DUTY COMPRESSION TEST KIT

- Extremely accurate bronze phosphorus bourdon tube
- Polished chrome gauge and all chrome adapters (14mm, 18mm, 14mm long reach, 18mm long reach, 12mm and 10mm)
- Compression: 0 to 300 PSI; 0 to 21 KG/CM²
- Screw on impact resistant lens
- Quick disconnect
- Release valve for quick rechecks
- Test capabilities: cylinder compression, worn piston rings, blown head gaskets
- Comes with high-impact carrying case and repair kit

**No. 3T063.** Kal-Equip brand (2505). Shpg. wt. 4.0 lbs.
Each ..... $106.90

NEW FLUKE PRESSURE/VACUUM MODULES ARE AVAILABLE FOR USE WITH MANY DIGITAL MULTIMETERS
See Index For Listings

## FOUR GAS/EXHAUST GAS ANALYZER

Vacuum leaks, ignition, and other engine mechanical problems show up as changes in exhaust gas not indicated by on-board computer. Optimizes engine exhaust. Peaks engine performance and prepares vehicle for state inspection.

- Test capabilities: air/fuel ratio (rich/lean mixture), propane, air pump, catalytic converter, carburetor/accelerator pump, manifold leak, feedback carburetor, oxygen sensor, ignition problems
- Ranges
  Carbon Monoxide: 0.00 to 9.99%
  Hydrocarbons: 0 to 1999 PPM
  Carbon Dioxide: 0.0 to 20.2%
  Oxygen: 0.0 to 25%
- Response time less than 10 seconds
- 3½ digit backlit digital display
- Standby/run mode, operates on 12V system
- 10 minute or less warm-up time
- 25 ft. sampling hose
- Automatic moisture drain
- Includes stand

**No. 3T053.** Kal-Equip brand (4650). Shpg. wt. 61.0 lbs.
Each ..... $3664.00

### OPTIONAL ACCESSORIES FOR No. 3T053

**CALIBRATION GAS**

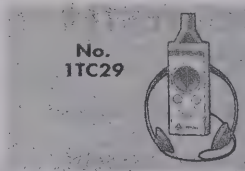
**No. 3T054.** Kal-Equip brand. Shpg. wt. 8.0 lbs. Each ..... $69.95

**REGULATOR KIT**

**No. 3T055.** Kal-Equip brand. Shpg. wt. 2.0 lbs. Each ..... $129.60

**POWER ADAPTER FOR STANDARD 120V OUTLET**

**No. 3T056.** Kal-Equip brand. Shpg. wt. 8.0 lbs. Each ..... $189.25



# ULTRASONIC LEAK DETECTORS, ULTRASONIC TRANSMITTER, & MAGNETIC FIELD MEASURING

## ULTRASONIC LEAK DETECTORS

### AMPROBE No. 1TC29

- Detects and pinpoints origin of ultrasonic sound emitted by leaks
- For use in refrigeration/air conditioning systems (valves, hoses, tanks), automotive A/C, vacuum and exhaust systems, and outdoors where conventional specific gas detectors can fail due to a light breeze
- Designed for use on positive pressure or vacuum compressed air or steam systems†
- Frequency response 20K Hz to 100K Hz ±3dB
- LED display; dimensions 1.62H x 2.56W x 7.68"L
- Includes "9V" alkaline battery (50 hour life) and earphone

**No. 1TC29.** Amprobe brand (ULD-100). Shpg. wt. 0.8 lbs.
Each ..... $189.00

### AMPROBE TESTMASTER KIT No. 1TC28

- Kit contains No. 1TC29 leak detector, transmitter, flexible extension with stopper, tubular extension, and headphones
- Useful in detecting automotive window and door leaks

**No. 1TC28.** Amprobe brand (TMULD-100). Shpg. wt. 7.5 lbs.
Each ..... $423.0

## MAGNETIC FIELD MEASURING INSTRUMENTS

### E.M.F./E.L.F. GAUSS METER No. 1H144

- Monitors electromagnetic radiation from CRTs, power lines, fans, etc.
- Single axis
- 0.1 to 199.9 milliGauss; 0.01 to 19.99μ Tesla; over 30-300 Hz
- Accuracy 4% (50-60 Hz range) • Large 0.5" LCD display
- Lightweight, portable, ideal for tool box storage

**No. 1H144.** Extech brand (480823). Shpg. wt. 0.5 lbs.
Each ..... $99.00

**VINYL CARRYING CASE**

**No. 1H152.** Carrying case for 1M918. Extech brand (409992). Shpg. wt. 0.2 lbs.
Each ..... $10.00

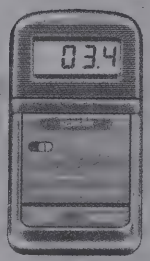
### EXTECH EMF MULTIMETER ADAPTOR

- Connects to any DMM for direct display of EMF (electromagnetic field) measurements
- Ranges: 0.1 to 199.9 milliGauss; 0.01 to 19.99 microTesla
- Adaptor output transmits 1.0m V per each unit of measure
- Remote probe provides single axis measurement with 30 to 300Hz optional bandwidth
- 4% basic measurement accuracy in 50 to 60Hz frequency range
- Includes remote probe with 36" (0.9m) cable and 9V battery

***New*** **No. 4PC69.** Extech brand (480824). Shpg. wt. 0.6 lbs. Each ..... $79.00

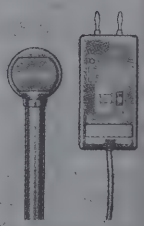
### GAS LAMP VOLTAGE TESTER

- Lights lamp with no power connection to determine whether bulb is good or bad
- Voltage range: 5/12/24/48/120V AC/DC, 208 to 240V AC/DC, 277V AC/DC, 440 to 600V AC/DC
- Frequency range, 60 Hz
- Tests fluorescent, metal halide, mercury vapor, high and low pressure sodium, and neon bulbs
- Audible continuity to 100KΩ and audible voltage indication
- Tests ballasts, capacitors, ignitors, starters, and photoelectric controls
- Telescoping antenna fully retracts
- Requires three "9V" alkaline batteries (not supplied)
- Includes leather case and leads



**No. 3T110.** Etcon brand (LT130). Shpg. wt. 2.0 lbs. Each ..... $187.50

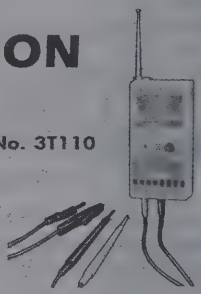
### GAS LAMP TESTER



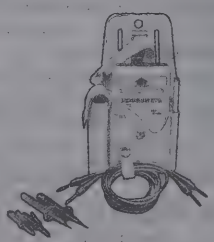
- Tests most gas-filled lamps (fluorescent, high and low pressure sodium, neon, mercury vapor, metal halide)
- Tests fluorescent bulbs in sockets
- Checks continuity in ballasts, ignitors, starters, capacitors, and resistors
- Includes leather holster and detachable antenna
- Limited lifetime warranty; see "Manufacturers' Warranties" on page opposite inside back cover

**No. 3T115.** Greenlee brand (5715). Shpg. wt. 1.8 lbs. Each ..... $205.00

EXTECH INSTRUMENTS *New*



No. 1H144



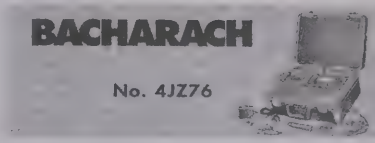
No. 4PC69

ETCON

No. 3T110

GREENLEE

No. 3T115



# INDOOR AIR QUALITY AND CO DETECTORS

## BACHARACH AIR QUALITY LABORATORY (AQL)

he Air Quality Laboratory (AQL) mea-
ıres, displays, graphs and datalogs up to
ve critical air quality parameters simulta-
eously. Standard sensors include CO2,
O, %RH and temperature. Graphic display
ffers ability to analyze each parameter
ır trend analysis. Second display shows
ach measured parameter independently
ır quick, on-site problem analysis.
ecords more than 25,000 data points to
rovide days and weeks of information.
ıcludes: probe and hose assembly for
emote sampling, communication cables
ır printer and PC linkup, AC adapter
115/230VAC) , rechargeable lead acid bat-
ry for dual power capability and soft-
are package.

- **Carbon dioxide sensor detects NDIR (non-dispersive infrared) with a range from 0-5,000 PPM and an accuracy of ±75 PPM**
- **Carbon monoxide sensor has an electrochemical sensor with a range from 0-100 PPM and an accuracy of ±3 PPM**
- **Relative humidity sensor has a capacitive detector with a range of 0-100% RH and an accuracy of ±3%**
- **Temperature sensor has a range of 32 to 122°F with an accuracy of ±1/2°F**

**No. 4JZ76.** Shpg. wt. 14.0 lbs.
Each.....**$3895.00**

### ACCESSORIES FOR No. 4JZ76

**No. 4JZ69.** Replacement CO Sensor. Bacharach brand (24-3011). Shpg. wt. 0.5 lbs.
Each.....**$295.00**

**No. 4JZ68.** Replacement Probe and Hose Assembly. Bacharach brand (24-3010). Shpg. wt. 1.5 lbs. Each.....**$60.00**

**No. 4JZ67.** Replacement Charger. Bacharach brand (24-0936). Shpg. wt. 0.8 lbs.
Each.....**$42.00**

## DICKSON $CO_2$ RECORDER

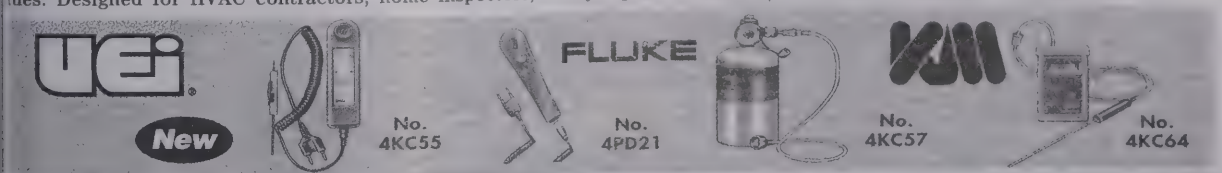
Measures carbon dioxide in PPM and documents the readings on a circular chart. Ideal for checking building ventilation levels to monitor indoor air quality. Keypad and dip switches set recording parameters, changeable as often as needed. Portable and easy-to-use.

- **Sensor: Non-dispersive infrared**
- **Accuracy (type.): ±5% of full scale high range**
- **Allows choice of rotation time (1 or 7-day) and carbon dioxide range 0-1100 PPM or 0-2200 PPM**
- **User calibration**

- **15-min. warm-up time, average**
- **Power supply: 120V AC**
- **Features high/low audio-visual alarm**
- **Includes pen and one box of 60 charts (0-2200/7 day)**
- **Dimensions: 10.5H x 13.2W x 2.8"D**

**No. 4B369.** Dickson brand ($CO_2$x). Shpg. wt. 7.0 lbs. List $979.00. Each.....**$979.00▲**

### ACCESSORIES FOR No. 4B369



**No. 3JG26.** Calibration Kit. Shpg. wt. 3.0 lbs. List $299.00. Each.....**$299.00▲**

**No. 3JG25.** Replacement CO Cylinder. Shpg. wt. 2.0 lbs. List $75.00. Each.....**$75.00▲**

(▲) Net price not subject to discounts.

## CARBON MONOXIDE SINGLE-GAS ANALYZERS

land-held, digital analyzer and monitors designed to measure arbon monoxide (CO) concentration in air, furnace and boiler lues. Designed for HVAC contractors, home inspectors, utility workers, plant safety and maintenance personnel who perform emission testing, safety testing, CO investigations, indoor air quality testing and boiler or furnace burner testing.

### CO DETECTOR ADAPTER

urns most digital multimeters into a CO
onitor. Plugs directly into the input jacks
f the DMM. Should not be used for flue
sting.

**0-1999 PPM range with 3½" digit DMM display**
**Works with any DMM with 10 megohm input impedance and 2 or 4 VDC range; 1mVDC = 1PPM CO.**
**ncludes 6 ft. coiled cord and adjustment tool**
**Field calibrateable using No. 4KC57 calibration kit**
**Operates on single 9V battery**
**Power and low battery indication**

**o. 4KC55.** UEI brand (ACO100). Shpg. wt. 3.0
s. Each.....**$200.00**

### CARBON MONOXIDE PROBE

- **Multimeter accessory or stand alone instrument**
- **Automatic sensor zeroing and self-test sequence upon start-up**
- **Replaceable sensor extends tool life**
- **Includes No. 2A431 soft case, battery and instructions**

***New*No. 4PD21.** Fluke brand (C0-210).
Shpg. wt. 1.0 lbs. Each.....**$199.00**

### CALIBRATION KIT AND REPLACEMENT CO GAS

For use with Nos. 4KC55. Includes 21 liters of 100 PPM CO gas (No. 4KC58), regulator, fittings, tubing and instrument cuff.

**No. 4KC57.** UEI brand (AJDMM1000). Shpg. wt. 3.0 lbs. Each.....**$185.00**

**No. 4KC58.** CO Calibration Gas includes 21 liters 100 PPM CO gas. UEI brand (CM0159). Shpg. wt. 2.0 lbs.
Each.....**$50.00**

### ELECTRONIC CO ANALYZER

- **Measures 0-2000 PPM CO concentration**
- **Continuous "pump driven" sampling provides quick response**
- **Unique pump standby switch**
- **Large backlit LCD display**
- **Rugged case, protective rubber boot**
- **Low battery indication**
- **Includes flue probe, 5 ft. flexible tube, particle filter and 4 "AA" batteries**

**No. 4KC64.** Kane-May brand (SGA91Kit). Shpg. wt. 6.0 lbs.
Each.....**$495.00**

# SINGLE-GAS ANALYZERS

## CO SINGLE GAS ANALYZERS

Quickly measure and indicate carbon monoxide (CO) concentrations in the air, furnace flues and boilers. Well-suited for use by HVAC-service contractors, energy auditors, plant engineers and utility workers who perform burner energy testing, furnace and boiler servicing, environmental emissions monitoring, indoor air quality (IAQ) testing and safety checks on combustion stack gases.

### MONOXOR II® ELECTRONIC ANALYZER

- Measures 0-2000 ppm CO concentrations
- Continuous sampling with accurate CO readings
- Includes detachable stainless steel probe with handle connected to 4-ft. flexible hose and carrying case
- Highly visible digital LCD display with backlighting
- Durable, impact-resistant case that withstands exposure to fuels and other corrosive liquids
- Operates on 4 replaceable "C" size batteries (not included) for approx 14 hours of continuous operation
- Low battery indication
- Uses 6T148 filter material

**No. 6T143.** Shpg. wt. 4.5 lbs.
Each ..... $499.00

CO Replacement sensor No. 6T134, Calibration Kit No. 6T135 and CO Calibration Gas No. 6T136 available. See Index.

## CO-220 CARBON MONOXIDE METER

- Newest generation of fast responding electrochemical CO sensors
- Measures CO levels from 0 to 1000 PPM with One PPM resolution on display
- Basic Accuracy of ±3%
- Rugged case and electronics
- Automatic sensor zeroing and self-test sequence upon start-up
- Automatic power-off after 20 minutes extends battery life

**New No. 4TP97.** Fluke brand (C0 -220). Shpg. wt. 1.0 lbs.
Each ..... $279.00

FLUKE

No. 4TP97

BACHARACH

New

No. 6T143

No. 4TJ84

## SNIFIT CO ANALYZER

- Offers continuous sampling for quick and accurate CO readings; range 0 to 1999 PPM
- Manual zero function reduces the error of zeroing in a contaminated environment
- Rugged, compact and easy to use; fits in your shirt pocket
- Auto power off feature provides worry-free usage
- Large illuminated display with 1 PPM resolution

**New No. 4TJ84. Bacharach brand (19-7060)** Shpg. wt. 1.0 lbs.
Each ..... $299.0

## NOx AND $O_2$ SINGLE GAS ANALYZERS

Hand-held digital analyzers measure and display levels of either oxides of nitrogen (NOx) or oxygen ($O_2$). Insert probe into stack or air being sampled, and analyzer continuously measures and displays readings of one specific gas. Ideally suited for energy audit testing, furnace and boiler servicing, environmental emissions monitoring, analyzing indoor air quality (IAQ), spot checking continuous emissions systems and performing safety checks on combustion stack gas. Factory calibrated.

Features include: Continuous sampling with accurate readings of the specific gas. Detachable stainless steel probe and 4-ft. flexible hose assy. "Low Battery" indication. Durable, impact-resistant case that withstands fuels and other corrosive liquids. Highly visible digital LCD display with backlighting.

### NONOXOR® II

- Measures 0-2000 PPM NOx in sample
- ±5% accuracy of reading
- Includes carrying case, sampling probe and instructions

**No. 6T144.** Bacharach brand (19-8006).
Shpg. wt. 8.2 lbs. Each ..... $995.00

### NOx REPLACEMENT SENSOR

**No. 6T147.** Bacharach brand (19-8001).
Shpg. wt. 0.5 lbs. Each ..... $315.00

### OXOR III®

- Measures 0-25% Oxygen in sample
- ±0.8% accuracy of reading
- Includes sampling probe and instructions

**No. 6T145.** Bacharach brand. (19-8005).
Shpg. wt. 4.5 lbs. Each ..... $495.00

### $O_2$ REPLACEMENT SENSOR

**No. 6T140.** Bacharach brand (24-7070).
Shpg. wt. 0.1 lbs. Each ..... $110.00

BACHARACH

No. 6T144

No. 6T145

### No. 6T148 FILTER MATERIAL

**No. 6T148.** Shpg. wt. 0.1 lbs.
Each ..... $8.00

**UPTOWN, DOWNTOWN, CROSSTOWN, GRAINGER IS NEARBY**
**Grainger has over 350 branches nationwide, so we're close by. To find the location nearest you, check the Branch Locations listed in the front of this catalog.**

# GAS PRESSURE KIT, COMBUSTION KIT, AND OIL AND GAS BURNER COMBUSTION TEST KITS

## DWYER GAS PRESSURE KIT

**Typical applications: checking pressures in virtually all gas appliances, such as water heaters, furnaces, stoves and dryers†**

**Complete kit containing 16" manometer (No. 3T302—for description see Index) includes:**

**-1/8 -1/4" pipe thread bushing**
**-3 ft. x 3/16" rubber tubing**
**-Rubber tubing adapter to fit standard**
**-7/16" dia. spud**
**-Two 1/8" pipe thread rubber tubing adapters**
**-3/4 oz. bottle fluorescein green color**
**-Concentrate with wetting agent**
**-Plastic case 8½ x 7 x 3⅛"**

**3T293.** Dwyer brand (1212). Shpg. wt. 1.7 lbs. Each.....$51.30

## DWYER COMBUSTION TEST KIT

**Typical applications: performs complete combustion efficiency tests on oil, gas, and coal-fired heating installations in residential, commercial, and industrial applications†**

**Test $CO_2$ content, stack temperature, draft and smoke**

**Accuracy to ± 1/2% $CO_2$**

**Stack thermometer has 200° to 1000°F range in 10° divisions, 2¼" dial and 5" stem**

**Differential pressure gage (No. 3T295) has 4" dial and dual scales 0.0 to 0.25" W.C. in 0.005 divisions and 300-2000 FPM velocity. Accuracy 4% of full scale**

**$CO_2$ indicator is made of clear acrylic plastic and has a 4" adjustable scale of 0 to 16% in 0.2 divisions**

**Smoke gage pump conforms with ASTM D-2156-XX standards for smoke density in flue gases from burning distillate fuels; determines the relative amount of smoke resulting from combustion**

**Combustion efficiency, slide rule demonstrates relationship of flame height, temperature, smoke sample, and gauge readings; laminated plastic construction**

**Test kit includes: $CO_2$ indicator, aspirator bulb, filter and tubing assembly, magnehelic® gage, smoke gage pump, smoke filter paper, awl, $CO_2$ absorbent solution, stack thermometer, gage oil, smoke chart, combustion efficiency slide rule, combustion data cards and impact resistant carrying case**

**3T299.** ❷ Dwyer brand (1200B). Shpg. wt. 7 lbs. Each.....$306.90

Always consult user manual and applicable local electrical and safety codes prior to use.

## BACHARACH OIL COMBUSTION TEST KIT

Economically measure and adjust oil burner efficiency in furnaces and boilers. Bacharach brand (10-5022).

**KIT INCLUDES:**

- **1 Fyrite $CO_2$ indicator (20% scale, filled)**
- **Carrying case**

**KIT ALSO INCLUDES INDIVIDUAL COMPONENTS:**

[A] No. 6T158 Fire Efficiency Finder/Stack Loss Slide Rule
[B] No. 6T160 Sampling Hose Assembly
[C] No. 6T148 Moisture Absorbent Material
[D] No. 6T162 Tempoint Thermometer
[E] No. 6T165 True-Spot Smoke Detector
[F] No. 6T164 MZF Draft Gauge

**Components [A] through [F] are also available separately. See Index.**

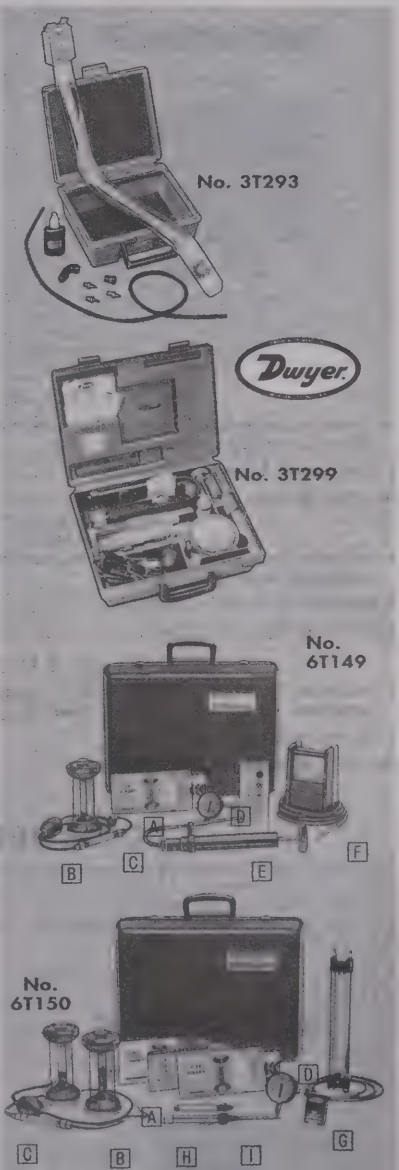
**No. 6T149.** ❷ Complete Oil Combustion Testing Kit. Shpg. wt. 11.0 lbs. Each.....$495.00

## BACHARACH GAS COMBUSTION TEST KIT

Efficiently measure and adjust gas burner performance in furnaces and boilers. Bacharach brand (10-5030).

**KIT INCLUDES:**

- **Fyrite CO2 Indicator (20% scale, filled)**
- **Fyrite Indicator (21% scale, filled)**
- **High Efficiency Finder. Use to test efficiency of condensing type combustion processes**
- **Gas Service Calculator. Use to size burner orifice for proper gas input at max. gas manifold pressure**
- **Gas Pressure Manometer. Use to determine if gas input and gas pressure adjustments are within recommended limits**
- **Sampling tube**
- **Carrying case**



**KIT ALSO INCLUDES INDIVIDUAL COMPONENTS:**

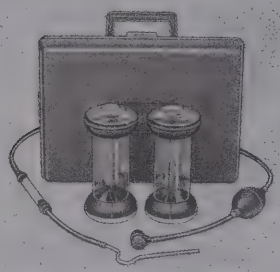
[A] No. 6T158 Fire Efficiency Finder/Stack Loss Slide Rule
[B] No. 6T160 Sampling Hose Assembly
[C] No. 6T148 Moisture Absorbent Material
[D] No. 6T162 Tempoint Thermometer
[G] No. 6T163 Draftrite Pocket Draft Gauge
[H] No. 19-7019 Monoxor® CO Detector
[I] No. 19-5002 Monoxor® Replacement Indicator Tubes

**Components [A] through [D] and [G] are available separately.**

**[H] and [I] available through Grainger Parts Operations.**

**No. 6T150.** ❷ Complete Gas Combustion Testing Kit. Shpg. wt. 11.0 lbs. Each.....$770.00

**BACHARACH**



**Replacement Parts Available 1-800-323-0620**

**INDIVIDUAL OIL AND GAS COMBUSTION KIT COMPONENETS AVAILABLE SEPARATELY. See Index.**

These products are covered by OSHA Hazard Communication Standard, and Material Safety Data Sheets (MSDS) are available. See page opposite the back cover.

# FYRITE GAS ANALYZER KITS AND COMBUSTION ANALYZER

BACHARACH

No. 6T153

## FYRITE GAS ANALYZERS

Fast, accurate, easy to use instruments for measuring and analyzing carbon dioxide ($CO_2$) or oxygen ($O_2$). Each Fyrite Analyzer contains Fyrite absorbing fluid, which is selective in the chemical absorption of carbon dioxide or oxygen. Each Fyrite Analyzer is suitable only for the particular gas for which it has been manufactured.

**TYPICAL APPLICATIONS† OF $CO_2$ ANALYZER**

- **0-20% $CO_2$: Flue gas combustion tests, $CO_2$ tests of heat treating atmospheres and incubator testing**
- **Checking $CO_2$ in insert gas blankets in tankers and barges carrying gasoline and other combustibles; $CO_2$ tests on lime kilns; checking $CO_2$ in sewage plant digesters**

**TYPICAL APPLICATIONS† OF $O_2$ ANALYZER**

- **0-21% $O_2$: Flue gas combustion tests, oxygen deficiency tests. Checking oxygen concentrations in hydrogen cooled generators and oil-sealed inert gas transformers**
- **Oxygen tests in connection with oxygen and gas anesthesiology**

(†) Always consult user manual and applicable local safety codes prior to use.

### No. 6T151 $CO_2$ KIT

- **Includes carbon dioxide Fyrite analyzer, aspirator sampling assembly and carrying case**
- **Bacharach brand (10-5000)**

**No. 6T151.** ❸ Shpg. wt. 5.0 lbs. Each ..... $265.00

### No. 6T152 $O_2$ KIT

- **Includes oxygen Fyrite analyzer, aspirator sampling assembly and carrying case**
- **Bacharach brand (10-5011)**

**No. 6T152.** ❸ Shpg. wt. 4.7 lbs. Each ..... $270.00

### No. 6T153 $CO_2$ & $O_2$ KIT

- **Includes 1 carbon dioxide and 1 oxygen Fyrite analyzer, aspirator sampling assembly and carrying case**
- **Bacharach brand (10-5020)**

**No. 6T153.** ❸ Shpg. wt. 6.6 lbs. Each ..... $400.00

### REPLACEMENT FYRITE FLUID ORDERING DATA

| Description | Range | Bacharach Model | Pkg. Qty. | Stock No. ❸ | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **Carbon Dioxide ($CO_2$) Fluid** | 0-20% | 10-5057 | 3 | **6T154** | **$46.00** | 1.5 |
| **Oxygen ($O_2$) Fluid** | 0-21% | 10-5060 | 3 | **6T155** | **82.00** | 1.5 |

### REPAIR KITS SPECIFICATIONS AND ORDERING DATA

| Description | Gas Type | Range | Bacharach Model | Stock No. ❸ | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **Contains 1 bottle $CO_2$ or $O_2$ gasket; top gasket, screws, diaphragm and envelope of filtering material** | $CO_2$ | 0-20% | 11-7052 | **6T156** | **$48.00** | 0.9 |
| | $O_2$ | 0-21% | 11-7054 | **6T157** | **59.00** | 1.0 |

❸ These products are covered by OSHA Hazard Communication Standard, and Material Safety Data Sheets (MSDS) are available. See page opposite inside back cover.

**FYRITE GAS ANALYZERS ARE ALSO INCLUDED IN GAS AND OIL BURNER COMBUSTION KITS. SEE INDEX.**

# COMBUSTION AND EMISSION ANALYZERS

Electronic combustion analyzers measure temperature and flue gas components to automatically or semi-automatically calculate combustion efficiency in boilers and furnaces. Others also measure gases considered air pollutants and will provide a printout of the flue gas makeup. Well suited for use by HVAC service contractors, energy auditors, plant maintenance and safety engineers, utility workers, and commercial and industrial contractors. The range of the electronic combustion analyzer provides an improved method for monitoring boiler processes.

BACHARACH

No. 6T139

## FYRITE® II COMBUSTION ANALYZER

Hand-held electronic combustion analyzer designed for testing furnaces and boilers. It measures oxygen and stack temperatures directly while calculating combustion efficiency. Also used for quick reading energy audits, plant maintenance, industrial and residential energy efficiency programs.

- **Temperature range 0-1000°F (538°C)**
- **Measures flue gas oxygen content from 0.1 to 25.5% (Accuracy ±0.8%)**
- **Computes and displays Combustion Efficiency (0-99.9%), $CO_2$ equivalent, (0-20%) excess air (0-250.0%) and stack loss (0-99.9%)**
- **Preprogrammed for seven selectable fuels**
- **Can be used on high efficiency and standard furnaces and boilers**
- **Performs self test when turned on**
- **Powered by two "9V" batteries (not included)**
- **Bacharach brand (24-7073)**

**No. 6T139.** Shpg. wt. 2.4 lbs. Each ..... $715.00

### FYRITE® II ACCESSORIES

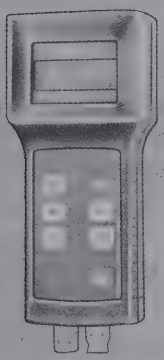
**No. 6T142 CUSTOM CARRY CASE**

**No. 6T142.** Bacharach brand (24-0457). Shpg. wt. 5.3 lbs. Each ..... $65.00

**No. 6T141 115 VOLT BATTERY ELIMINATOR**

**No. 6T141.** Bacharach brand (24-0460). Shpg. wt. 1.1 lbs. Each ..... $75.00

**No. 6T140 REPLACEMENT OXYGEN SENSOR**



**No. 6T140.** Bacharach brand (24-7070). Shpg. wt. 0.1 lbs. Each ..... $110.00

# COMBUSTION ANALYZERS

## PORTABLE COMBUSTION ANALYZERS PCA®

BACHARACH

New

No. 4JZ74

- Easy to operate tool to determine CO safety and combustion efficiency in fuel burning appliances
- Measure and display flue gas oxygen ($O_2$) and temperature (No. 4JZ75 also measures carbon monoxide (CO) and draft) (4TJ85 also measures NOx)
- Compute and display combustion efficiency, excess air, and carbon dioxide ($CO_2$), and CO in free air
- Up to 10 sets of tests can be stored and downloaded into an infrared printer (4JZ65) for permanent records
- Tests can be recalled to the display screen at any time
- Measurement Ranges: Oxygen, 0 to 20.9% auto calibration; Primary Air/Temperature, 0 to 999°F; Stack Gas Temperature, 0 to 2000°F; Carbon Monoxide, 0 to 2000 ppm; Draft, -8.0 to +8.0 inches water column; NOx, 0-1000 ppm
- Calculation Ranges: Combustion Efficiency, 0.1 to 99.9% (0.1% resolution); Carbon Dioxide, 0.1 to 20.0% (fuel dependent); Stack Gas Temperature, 0 to 2000°F; Carbon Monoxide (Air Free), 0 to 9999 ppm
- Include sampling pump, probe, hose assembly with filter and water trap, 4 AA batteries, carrying case, user guide, and instruction manual

**No. 4JZ74** Analyzer PCA 10 measures oxygen (O2) and temperature with combustion efficiency calculations.

**No. 4JZ74.** Bacharach brand (24-8040).
Shpg.wt. 7.0 lbs. Each..... **$935.00**

**No. 4JZ75** Analyzer PCA-25 measures oxygen ($O_2$), carbon monoxide (CO), temperature, and draft with combustion efficiency calculations.

**No. 4JZ75.** Bacharach brand (24-8043).
Shpg. wt. 7.0 lbs. Each ..... **$1495.00**

**No. 4TJ85** Analyzer PCA-35 measures Oxygen ($O_2$), carbon monoxide (CO), oxides of nitrogen (NOx), temperature, and draft with combustion efficiency calculations.

***New*** **No. 4TJ85.** Bacharach brand (24-8045).
Shpg. wt. 7.0 lbs. Each ..... **$2360.00**

### ANALYZER ACCESSORIES

**INFRARED PRINTER.** Includes one roll of paper.

**No. 4JZ65.** Bacharach brand (24-0886).
Shpg. wt. 1.5 lbs. Each..... **$285.00**

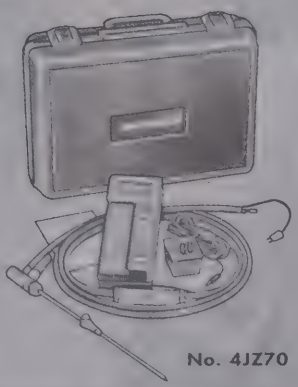
**REPLACEMENT PAPER.** For No. 4JZ65 printer. One roll per package.

**No. 4JZ66.** Bacharach brand (24-0887).
Shpg. wt. 0.5 lbs. Each..... **$9.45**

## PORTABLE COMBUSTION AND ENVIRONMENTAL ANALYZERS

For continuous sampling of flue gas in commercial furnaces and boilers

Multi-function instrument measures and displays oxygen ($O_2$), carbon monoxide (CO), gas temperature, and ambient temperature



Nos. 4JZ71 and 4JZ72 also measure draft; No 4JZ73 also measures draft and oxides of nitrogen (to meet emission compliance requirements)

Depending on model, units compute and display combustion efficiency, carbon dioxide ($CO_2$) excess air, net stack temperature, and oxides of nitrogen reference to zero percent oxygen

Nos. 4JZ72 and 4JZ73 have a RS232 port for downloading, memory capability to store up to 100 tests, real time clock and date of test, and switch for English, French, or Spanish language settings. Interconnect cable not included

- Measurement Ranges: Oxygen, 0 to 25% auto calibration; Primary/Air Temperature, -100 to 700°F; Stack Gas Temperature, 0 to 2000°F; Carbon Monoxide, 0 to 2500 ppm; Draft, -2.0 to 2.0 inches water column (Nos. 4JZ71, 4JZ72, & 4JZ73 only); Oxides of Nitrogen, 0 to 2000 ppm (No. 4JZ73 only)
- Calculation Ranges: Combustion Efficiency, 0 to 99%; Carbon Dioxide, 0.1 to 20.0% (fuel dependent); Excess Air, 1 to 250%; Stack Gas Temperature, 0 to 2000°F; Carbon Monoxide (Air Free), 0 to 9999 ppm; Oxides of Nitrogen (Ref. 3% $O_2$), 0 to 9999 ppm (No. 4JZ73 only)
- Nicad battery pack provides 8-10 hours of continuous operation when fully charged
- Analyzers include sampling probe and hose, calibrated sensors, battery charger, carrying case, and instructions
- 8H x 3.5W x 4.5"D (instrument only)

BACHARACH

No. 4JZ70

### ANALYZER ACCESSORIES

**PRINTER KIT.** For Nos. 4JZ72 and 4JZ73. Includes printer, printer cable, one roll of paper, and 120V charger.

**No. 4JZ64.** Bacharach brand (24-0730).
Shpg. wt. 5.3 lbs. Each..... **$450.00**

**REPLACEMENT PAPER.** For No. 4JZ64 printer. Package of five rolls of paper.

**No. 4JZ63.** Bacharach brand (24-0730).
Shpg. wt. 0.5 lbs. Each..... **$25.35**

### COMBUSTION AND ENVIRONMENTAL ANALYZER ORDERING DATA

| Description | Bacharach Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|
| ndard Model CA40H | 24-7118 | 4JZ70 | $1820.00 | 8.0 |
| ndard Model CA40H with draft | 24-7119 | 4JZ71 | 2150.00 | 8.0 |
| vanced Model CA40H with draft | 24-7141 | 4JZ72 | 2550.00 | 8.0 |
| vanced Model CA40H with draft and NOX | 24-7161 | 4JZ73 | 3100.00 | 8.0 |

# COMBUSTION ANALYZERS

## RESIDENTIAL AND SMALL COMMERCIAL ELECTRONIC COMBUSTION ANALYZERS

### KANE-MAY No. 4KC60

- Large LCD display is switchable between oxygen ($O_2$), net temperature, and remaining battery charge
- LED bargraph of carbon monoxide (CO) level with alarm at concentrations >400 ppm
- Temperature range: 0 to 1000°F (0 to 600°C)
- Measures oxygen ($O_2$): 0 to 25%
- Includes flue probe with 9 ft. tube, battery pack with recharger, water trap, particle filter, efficiency chart, carrying case, and instructions

**No. 4KC60.** Kane-May brand (KM9100) Shpg. wt. 14.0 lbs.
Each.....$1095.00

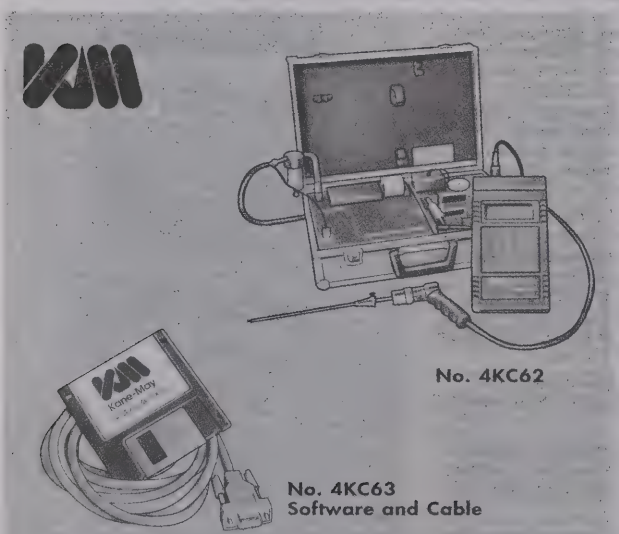
### KANE-MAY No. 4KC61

- Large LCD display is switchable between $O_2$, CO, net temperature, and remaining battery charge
- Measures oxygen ($O_2$), carbon monoxide (CO), and temperature
- LED bargraph of CO level with alarm at concentrations >400 ppm
- Temperature range: 0 to 1000°F (0 to 600°C)
- Measures carbon monoxide 0 to 2000 ppm
- Includes flue probe with 9 ft. tube, battery pack with recharger, water trap, particle filter, efficiency chart, and carrying case and instructions

**No. 4KC61.** Kane-May brand (KM9101). Shpg. wt. 14.0 lbs.
Each.....$1395.00

No. 4KC60

No. 4KC61



Replacement Parts Available 1-800-323-0620

## COMMERCIAL / INDUSTRIAL ELECTRONIC COMBUSTION ANALYZER

### KANE-MAY No. 4KC62

- Measures oxyen, carbon monoxide (CO), and temperature
- Automatically calculates efficiency, carbon dioxide ($CO_2$), and net temperature
- Remote handset with integral backlit 4-line display; operate analyzer up to 30 ft. from boiler flue access port
- Measures temperatures 0 to 2140°F, carbon monoxide 0 t 4000 ppm
- Includes flue probe with 15 ft. tube, handset with 15 ft. lead, battery pack with recharger, water trap, particle an sulphur dioxide filter, built-in printer, rugged carrying cas
- Serial interface for computer connection

**No. 4KC62.** Kane-May brand (KM9104/P). Shpg. wt. 19.0 lbs.
Each.....$3295.0

No. 4KC62

No. 4KC63
Software and Cable

### SOFTWARE AND CABLE

Connects No. 4KC62 to computer.

**No. 4KC63.** Kane-May brand (KM9104 PC KIT). Shpg. wt. 1.0 lbs.
Each.....$425.0

### REPLACEMENT PAPER AND RIBBON

Includes 10 rolls of paper and 5 ribbons.

**No. 4KC59.** Kane-May brand (DP12).. Shpg. wt. 3.0 lbs.
Each.....$72.0

### NATIONWIDE BRANCH NETWORK WITH LOCAL ACCESS IS YOUR SHOPPING ADVANTAGE

**Grainger's network of more than 350 local branches provides you nationwide access to our broad selection of product offerings. And with 30-minute "Will Call" service or 24-hour shipping on in-stock items, help is as close as a phone call away. Check the Branch Locations listed in the front of this catalog for the location closest to you.**

## BACHARACH MODEL 300 SERIES

ectronic Combustion Analyzers automatically calculate and splay combustion efficiency of any boiler or furnace. Multiple ;D readouts display stack temperature, ppm carbon monoxide O), percent oxygen ($O_2$), percent excess air, percent carbon oxide ($CO_2$) and percent efficiency on seven selectable fuels cluding natural gas, liquid propane, coal, wood, fuel oil 2, fuel 6, and bagasse. A micro-processor controls the sequence of eration while calculating burner efficiency. Programmed rou- ies lead the operator through the proper procedures, signaling e appropriate action, and waiting until correct steps are taken.

**ATURES COMMON TO ALL MODEL 300 SERIES UNITS:**

- **Factory calibrated to measure 0-25% oxygen, 0-3000 ppm CO, and 0-2000°F stack temperature**
- **Unit runs self-test on sensors when turned on**
- **High performance pump continuously draws filtered flue gas into unit for continuous monitoring**
- **Industrial hose, 12" stainless steel probe assembly**
- **120V AC, 60 Hz operation**
- **Compact polyethylene case (18L x 14W x 8"H)**

### No. 6T131 MODEL 300 WITH PRINTER AND BATTERY PACK

- **Runs off of rechargeable lead acid battery (12-16 hours continuous operation; charger included) or also operates on 120V AC line power**
- **Built-in thermal printer with 1½" roll paper**
- **Replenishment paper No. 6T137 available; see chart below**

### No. 6T132 MODEL 300 WITH PRINTER, BATTERY PACK AND ENVIRONMENTAL MONITOR

- **Additional sensors measure 0-2000 ppm sulfer dioxide ($SO_2$) and 0-2000 ppm oxides of nitrogen (NOx) for environmental emmisions monitoring**
- **RS232 output for computer interface**
- **6 easy-to-read digital displays**

No. 6T132

- **Includes time-of-day, date and unit serial number on each printed read-out**
- **Powered by rechargeable lead acid battery (12-16 hours continuous operation; charger included) or operates on 120V AC line power**
- **Built-in thermal printer with 1½" roll paper**
- **Replenishment paper No. 6T137 available; see chart below**

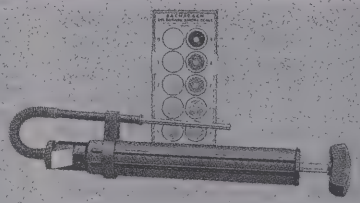
# OIL AND GAS BURNER COMBUSTION TEST KIT COMPONENTS & AIR VELOCITY MONITOR



## INDIVIDUAL COMBUSTION KIT COMPONENTS

F No. 6T164

D No. 6T162

E No. 6T165

G No. 6T163

In addition to serving as replacement items for components in the No. 6T149 Oil Combustion Test Kit and No. 6T150 Gas Combustion Burner Kit, these items can be used individually for a variety of industrial and residential applications. Key letters apply to items shown on this page and Bacharach kits on nearby pages.

### FIRE EFFICIENCY FINDER

A quick, uncomplicated means of determining combustion efficiency and stack loss from the results of the $CO_2$ and stack temperature test. Bacharach (11-5064).

**No. 6T158.** Shpg. wt. 0.2 lbs.
Each ..... $12.25

### SAMPLING HOSE ASSEMBLY

Means of extracting a gas sample from sampling location. Use with Bacharach $CO_2$ and $O_2$ Fyrite Gas Analyzers. 4 ft. 6" long. Bacharach brand (11-7029).

**No. 6T160.** Shpg. wt. 1.0 lbs. Each ..... $46.00

### REPLACEMENT ASPIRATOR VALVE

**No. 6T159.** (11-0138).Shpg. wt. 0.1 lbs.
Each ..... $6.95

### MOISTURE ABSORBENT MATERIAL

Replacement filtering for Sampling Hose Assemblies. Each pkg includes ten 5 ft. lengths. Bacharach brand (11-0121).

**No. 6T148.** Shpg. wt. 0.1 lbs.
Each ..... $8.00

### D TEMPOINT THERMOMETER

Use to obtain accurate temperature of a boiler or furnace. Range: 200° to 1000°F. Accuracy is within 10° at any point of indication. Sealed for dust and moisture protection. Bacharach brand (12-7014).

**No. 6T162.** Shpg. wt. 0.4 lbs. Each ..... $54.00

### E TRUE-SPOT SMOKE TESTER

3-component system (pump, scale and filter paper) provides accurate smoke reading in less than a minute. Determines efficiency combustion and evaluates smoke density in flue gases from distillate fuels. Bacharach brand.

#### COMPLETE KIT

**No. 6T165.** (21-7006). Shpg. wt. 1.0 lbs.
Each ..... $82.00

#### SPARE SCALE/FILTER PAPER KIT

Includes one replacement scale and 40 sheets of filter paper.

**No. 6T161.** (21-0020). Shpg. wt. 0.1 lbs.
Each ..... $31.00

#### SMOKE SCALE ONLY

**No. 6T166.** (21-0018). Shpg. wt. 0.1 lbs.
Each ..... $22.00

#### FILTER PAPER ONLY

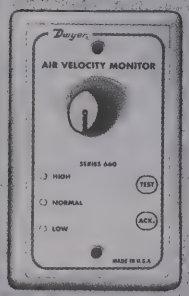
**No. 6T167.** 40 Sheets (21-0019). Shpg. wt. 0.1 lbs Each ..... $12.50

### F MZF DRAFT GAUGE

Highly sensitive instrument with remote sampling tube to measure draft in furnaces and boilers. Pointer's movement is directly proportional to magnitude of draft at test point. Range +0.05 to 0 to 0.25" W.C. Bacharach (13-7019).

**No. 6T164.** Shpg. wt. 3.0 lbs.
Each ..... $163.00

### G DRAFTRITE POCKET DRAFT GAUGE



Pinpoints draft trouble and indicates chimney defects. Easily held in one hand. Free floating pointer indicates sudden change from draft to pressure caused by "puffbacks." Range: +0.10 to −0.14" W.C. Bacharach brand (13-3000).

**No. 6T163.** Shpg. wt. 0.3 lbs.
Each ..... $77.00

**VISIT THE GRAINGER WEB SITE TO PLACE YOUR ORDER!**

**Link up with Grainger's Web site at http://www.grainger.com and tap into a fast, convenient way to access up-to-date information. Our Online Catalog allows you to search and display products as well as place orders online. . . day or night.**

## DWYER AIR VELOCITY MONITOR No. 1W415

No. 1W415

- **Alerts personnel of insufficient exhaust rates in typical laboratory fume hoods**
- **Meets OSHA guidelines for air flow requirements in fume hood applications**
- **Red LED indicates low flow condition and adjustable from 0 to 150 FPM; green LED indicates normal operation; yellow LED indicates high flow conditions and is adjustable from 0 to 275 FPM**
- **Equipped with an audible alarm**
- **No remote sensors or complicated wiring—just a single device with an integral flow sensor powered by 24V AC**
- **Constructed of white plastic; 2¾ x 4½ x 1.939"**

**No. 1W415.** Dwyer brand (660AVM).
Shpg. wt. 0.5 lbs. Each ..... $177.75

#### TRANSFORMER

Step down transformer from 120V AC to 24V AC.

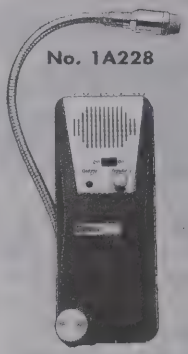
**No. 1W391.** Dwyer brand (A-699). Shpg. wt. 0.
lbs. Each ..... $15.5

#### INSTALLATION KIT

Includes 3 ft., 1½" flexible tubing, 90° bulkhead fitting and 2 nylon tie wraps.

**No. 1W407.** Dwyer brand (A-150). Shpg. wt. 1.
lbs. Each ..... $20.5

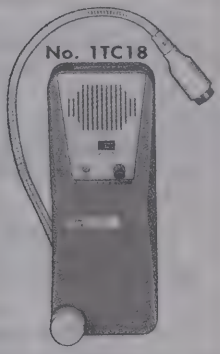
**WE OFFER A WIDE RANGE OF ENERGY SAVING PRODUCTS**



# COMBUSTIBLE GAS DETECTOR, CORONA DETECTOR, AND MICROWAVE LEAKAGE DETECTOR

## COMBUSTIBLE GAS DETECTOR

he TIF Model 8800 gas detector is a portable, battery-operated, olid-state electronic instrument used to identify the presence nd to locate the source of combustible gas leakage.†



- **"Geiger counter" ticking signal increases in frequency as the gas source is approached**
- **No. 1TC18 features visual leak size indicators**
- **Automatic warm-up**
- **Adjustable sensitivity**
- **Low battery indicator**
- **Long, flexible probe**
- **Includes sensing tip, 115V battery recharger, carrying case, and 2 NiCad batteries**
- **Optional plug-in cigarette lighter recharger available (No. 1T935)**
- **UL Classified only as to intrinsic safety in Class I, Groups A, B, C, and D hazardous locations**
- **MSHA approved. Tested for intrinsic safety in methane-air mixture only**

| Description | TIF Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|
| **Gas Leak Detector** | TIF8800 | **1A228** | **$200.00** | 2.9 |
| **Gas Leak Detector** | TIF8800A | **1TC18** | **230.00** | 2.8 |
| **Cigarette Lighter Adapter** | TIF8805 | **1T935** | **19.95** | 0.3 |
| **Recharger** | TIF8803 | **1T933** | **19.95** | 0.3 |
| **NiCad Batteries/Pair** | TIF8806A | **1T936** | **34.95** | 0.3 |
| **Case** | TIF447 | **1T905** | **14.95** | 0.3 |

tif

UL E93208

**TIF Models 8800 & 8800A Gas Leak Detectors Detect:**

**Hydrocarbons:** Methane (Natural Gas), Ethane, Propane, Butane, N-Butane, Isobutane, Pentane, Hexane, Benzene, Acetylene, Gasoline

**Halogenated hydrocarbons:** Methyl chloride, Methylene chloride, Tricholoroethane, Vinyl chloride

**Alcohols:** Methanol, Ethanol, Propanol, Butanol

**Ethers:** Methyl ether

**Ketones:** Methyl acetate, Methyl Ethyl Ketone, Acetone

**Other Gases:** Sulfur dioxide, ammonia, Carbon monoxide, Hydrogen sulfide, Hydrogen, Toluene, Naphtha, Chlorine

**Chemicals:** Industrial solvents, Dry cleaning fluids, Lacquer thinners.

## CORONA DETECTOR

ltrasonic Leak and Corona Detector is useful wherever electrical or pressurized equipment is used. The instrument is designed o locate electrical corona sources and gas leaks, all of which are naudible to the unaided ear.†

- **Can detect a 0.002" diameter gas or air leak at 5 ft. away with only 10 PSI pressure**
- **Ideal for detecting corona leaks on terminations, high voltage bus systems, bushings and transformers**
- **Screens out audible noise levels**
- **Supplied with transducer probe, directional pickup horn, headset, "9V" battery, and carrying case**

**o. 3T870.** Biddle brand (569001). Shpg. wt. 7.0 lbs. Each .....$1275.00

BIDDLE INSTRUMENTS

## MICROWAVE LEAKAGE TESTER

leets measurement requirements of the federal performance tandard for leakage from microwave ovens. Measures icrowave leakage from domestic, industrial, and commercial quipment operating at 2450 MHz. Fast or slow response time for est measurement. Tripod mount for stable measurements. onpolarized, handheld probe for power density measurement rovides automatic 5 cm spacing.†

- **Calibration frequency: 2450 MHz, ±10 MHz**
- **Power density ranges: 0 to 2.5, 10, 25, 100mW/cm² at ±1 dB accuracy**
- **Response time: fast, 1.2 sec. max.; Slow, 3.0 sec. max.**
- **Temperature coefficient: ±0.1 dB/10°C**
- **Power: one "9V" battery (included)**

**o. 1T817.** Simpson brand (40012) Shpg. wt. 5.0 lbs. Each .....$775.00

) Always consult user manual and applicable local electrical and safety codes prior to use.

Minority-Owned Business

# AIR VELOCITY METERS

## DWYER No. 3T297

- Typical applications: for service work on air conditioning, heating and ventilating equipment
- Determines supply and return grille velocities, duct air velocities, furnace draft, pressure drop across air filters
- Dual range capability for greater accuracy
- Includes air meter, return and supply grille probes, angle connector, cleaning materials, instruction card, air velocity calculator, carrying case and extra plastic ball in plastic tube

| Velocity Range FPM | Pressure Range Inches WC | Dwyer Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 260-1200<br>1000-4000 | ±0.005-0.09<br>±0.05-1.0 | 460 | 3T297 | $21.32 | 0.5 |

## ALNOR Nos. 3T092 thru 3T094

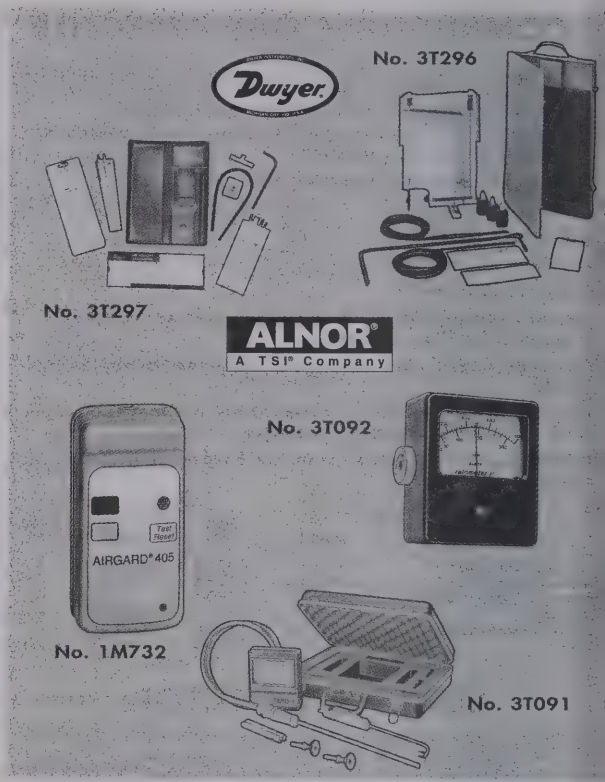
- Alnor 8100 Velometer Jr. is palm-sized and lightweight
- Measures 4H x 3W x 1½"D • Accuracy: ±5% FS
- Hold in air stream for hoods, spray booths, HVAC checks; OSHA compliance
- Requires no attachments or batteries
- Includes soft carrying case

| Velocity Range (FPM) | Alnor Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|
| 0-200/0-800 | 634.110.018 | 3T092 | $345.00 | 0.9 |
| 0-400/0-1600 | 634.110.025 | 3T093 | 345.00 | 0.9 |
| 0-500/0-2500 | 634.110.032 | 3T094 | 345.00 | 0.9 |

## ALNOR Nos. 4KG26 and 1M732

Airgard® Fume Hood Detectors measure true fume hood face velocity using thermal sensors located inside the instrument. An audible 85dB piezoelectric alarm and red indicator light warn of low air flow conditions. Surface mountable in minutes. Includes mounting hardware, tubing, sidewall adapter and "9V" DC power supply.

**No. 4KG26:**



- High/Low flow set points • Digital LCD display
- Datalogging • Operating Temp.: 55° to 86°F
- Usable to 250 FPM
- Alarm Range: 70 to 250 FPM
- Accuracy (typ.): ±10% of reading or 10 FPM (whichever is greater)
- Analog 0-5V DC or relay output • RS-232 computer interface

No. 4KG26. Alnor brand (480). Shpg. wt. 0.8 lbs. Each.....$625.00

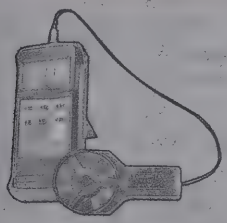
**No. 1M732:**

- Low flow set point • Operating Temp.: 55° to 86°F
- Alarm Range: As low as 70 FPM

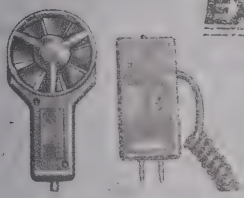
No. 1M732. Alnor brand (405). Shpg. wt. 1.8 lbs. Each.....$335.00

## ALNOR No. 3T091

- Velometer is a portable, nonelectrical instrument for all ai velocity measurements
- Air velocity range accuracy, ±2% full scale
- Static pressure range: 0-1" and 0-10" WC; accuracy ±5% full scale
- Completely mechanical, swinging vane type anemometer
- Includes 2 range selectors, lo-flow probe, pitot probe, diffuser probe, 2 static pressure probes, 2 hoses, and carrying case



| Velocity Range (FPM) | Alnor Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|
| 0-300<br>0-1250<br>0-2500<br>0-5000<br>0-10,000 | 6000AP | 3T091 | $1390.00 | 8.9 |



## DWYER No. 3T296

- Typical applications: balance air conditioning systems, measure pressure drop across filters, and test fan blower discharge and inlet pressures as well as air velocity in ducts
- Inclined section for high accuracy and vertical section for extended range
- Easy to read dual scale pressure marked in black, velocity in red
- Requires no reference tables
- Screw leveling adjustment and ground glass bubble level
- Suitable for total pressures to 100 PSIG
- Includes 18" stainless steel calibrated pitot tube (No. 3T087), 2 coils of 3/16" diameter rubber tubing with metal terminal tubes, steel carrying case, air velocity calculator and spare bottle of red gage oil

| Inches WC | Velocity FPM | Minor Scale Divisions and Ranges Inclined Section | Minor Scale Divisions and Ranges Vertical Section | Dimensions Inches | Dwyer Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|---|
| 0-10 | 400-12,600 | 0.01, 0-1" WC | 0.10, 1-10" WC | 16½H x 11W x 1¼D | 400-10 | 3T296 | $331.25 | 15.0 |

# VANE ANEMOMETERS

No. 1M944

No. 1M922

EXTECH INSTRUMENTS

New

No. 4TM17

No. 1H145

## EXTECH HEAVY-DUTY VANE THERMO-ANEMOMETER

- Air Velocity Measuring Ranges: 80 to 4925 ft./min., 0.9 to 55.9 mph., 1.9 to 38.8 knots, 0.4 to 25m/sec; 1.4 to 90.0 km/hr. with ±2% accuracy
- Temperature Range: 32.0 to 140.0°F; 0.0 to 60.0°C with ±1.5°F; ±0.8°C accuracy
- Large 1.4", 3½ digit LCD display with Data Hold
- Record/Recall and Min./Max./Ave. functions
- Vane is 2.83" diameter
- Includes rubber holster with stand, "9V" battery and instructions
- AC adapter available, use No. 3ZH67
- Uses RS232 Interface and Datalogger Module No. 1M960 or Windows™ data aquisition software No. 3ZH85

**o. 1M944.** Extech brand (407112). Shpg. wt. 1.5 lbs. Each.....$229.00

**o. 1M940.** Vinyl Carrying Case. Extech brand (409997). hpg. wt. 0.3 lbs. Each.....$19.00

## EXTECH VANE ANEMOMETER ADAPTER

- Turns any digital multimeter with at least a 200mV DC range into an air velocity meter
- 4 measuring ranges: 80 to 5910 ft. per minute, 0.4 to 25 meters per second, 0.7 to 108 kilometers per hour, 0.8 to 58.3 nautical miles per hour
- Vane is 2.83" diameter
- Accuracy (typ.): ±2% of reading
- Includes "9V" battery, 55" cable to connect to multimeter and instructions

**o. 1M922.** Extech brand (451212). Shpg. wt. 0.8 lbs. Each.....$129.00

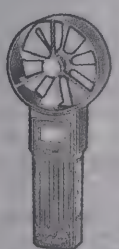
## EXTECH VANE THERMO-ANEMOMETER DATALOGGER

- Air velocity measurement ranges: 60 to 8800 ft./min.; 0.3 to 45 m/sec.; 0-88 knots; 1 to 140 km/hr.; 0-100 MPH
- Measures air volume in CFM (Ft3/min) and CMM (m3/min
- Internal 1000 point datalogger plus PC data transfer via built-in RS-232
- Precise temperature measurements via built-in thermistor (32 to 122°F (0 to 50°C) ± 1.5°F (± 0.8°C)
- Dual 4-digit (9999 count) LCDs displays "air velocity + temperature" or "air flow + air area"
- Record/recall MIN/MAX/AVG readings
- Data hold freezes displayed value
- Complete with Windows™ software, cable, 9V battery and case

*New***No. 4TM17.** Extech brand (451126). Shpg. wt. 1.0 lbs. Each.....$299.00

## EXTECH VANE ANEMOMETER

- Multi-function air velocity meter and K-type thermometer
- Wide ranges include 80-5910 feet/minute; 0.4-25 meters/second; 1.4-108.0 kilometers/hour; 0.8-58.3 knots; 32-140°F (0-60°C) temperature
- Low friction ball bearing vane design (2.83"D)
- Air Velocity Accuracy: 2% reading
- Temperature Accuracy: 1.5°F (0.8°C)
- Super large 0.7" LCD w/data hold
- Includes hard vinyl carrying case, 9V battery and instructions



**No. 1H145.** Extech brand (451112). Shpg. wt. 2.0 lbs. Each.....$199.00

# ROTATING VANE ANEMOMETERS

ALNOR® A TSI® Company

No. 4KF77

No. 1M782

No. 1M784

## FOR ALL UNITS:

- Velocity Range: 50 to 6000 ft./min., 0.25 to 30 meters per second
- Operating Temperature: 14° to 122°F
- Dimensions: 10.55 x 4.44 x 1.69"
- Battery: "9V" (NEDA Type 1604), standard, alkaline, or rechargeable

## ALNOR ANEMOMETER

- Intrinsically-safe construction
- Area Input Range: 0.08 to 900 sq. ft. (to measure and display CFM); 4 to 999,999 CFM; 0.002 to 3000 $M^3/S$
- Includes one "9V" battery and protective pouch

**No. 4KF77.** Alnor brand (RVR). Shpg. wt. 1.0 lbs. Each.....$899.00

## ALNOR ANEMOMETER

- Accuracy (typ.): ±1% of reading ±4 FPM
- Area Input Range: 0.08 to 900.0 sq. ft.
- Volume Range Displayable: 4.000 to 999,999 CFM, 0.002 to 3,000 $M^3/S$

Features a slide switch for selecting volumetric flow rate or velocity readout in English or metric units. Can be programmed to read volume (cubic feet per minute) by entering an area factor. Averages air velocity approximately every 3 seconds up to 12 minutes. Battery powered for 50 hours of continuous use.

**No. 1M782.** Alnor brand (RVA). Shpg. wt. 1.4 lbs. Each.....$699.00

## ALNOR ANEMOMETER

- Accuracy (typ.): ±20 FPM below 1000 FPM, 2% of reading above 700 FPM

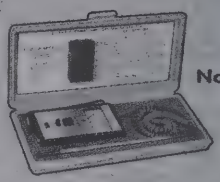
Single push-button control located in handle, averages air velocity over 6 seconds. Battery powered, 200 hours of continuous use.

**No. 1M784.** Alnor brand (RV). Shpg. wt. 1.4 lbs. Each.....$499.00

# ANEMOMETERS

## DWYER No. 1W431

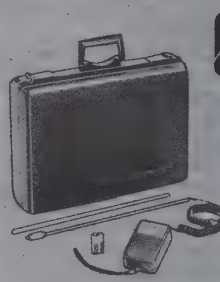
- Vane Anemometer meets OSHA standards of ventilation for smoke, dust or fume removal
- Measures velocities form 25 to 400 FPM
- Molded from ABS plastic
- For permanent mount or portable use



**No. 1W431.** Dwyer brand (480). Shpg. wt. 0.5 lbs. Each.....$21.32

## DWYER No. 2T651

- Ideal for a wide variety of air velocity measurements
- Applications: used to balance heating/air conditioning systems, measure velocity in HVAC ducts, read fume/exhaust hood face velocities, measure wind speed associated with agricultural, forestry, highway and recreational activities
- Two switch selected air velocity ranges; 0-600, 500-6000 FPM
- LED low battery indicator
- Stainless steel probe with depth scale
- ±5% full scale accuracy
- Operating temperature 32° to 160°F
- Response times: 1 sec. (velocity change), 5 sec. (temperature compensation)
- 11L x 5/16" dia. probe with 8" insertion depth and cover
- Includes two "9V" batteries and case



**No. 2T651.** Dwyer brand (470-1). Shpg. wt. 1.2 lbs. Each.....$276.25

## KANE-MAY No. 3T280

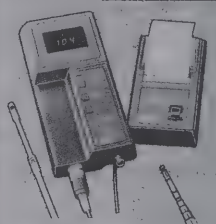
- "Hot-Wire," digital temperature/air velocity instrument
- Airflow probe range: airflow, 0 to 6000 FPM; temperature, 14° to 135°F
- Accuracy: airflow, 3% of reading, ±1% full scale
- Includes remote hot wire thermistor sensor probe, 16" probe extension, battery, and carrying case

**No. 3T280.** Kane-May brand (KM4107). Shpg. wt. 6.0 lbs. Each.....$610.00

## ALNOR No. 3T095

Digital temperature and airflow measuring instrument. Eliminates hand calculations. Includes probe, rechargeable batteries, battery charger, detachable straps, insulation duct sleeve, and case.

- Automatic averaging to 250 readings
- Digital readout: english or metric
- Temperature range 32° to 158°F
- Velocity range 20 to 3000 FPM
- Telescoping, 20" articulating probe extendable to 45" and locks at 90°
- Autoranging provides 1 ft./min. increments between 20-700 FPM; 10 ft./min. increments between 700 to 3000 FPM
- Optional micro-printer (No. 3T096) prints one line every 2 secs., 20 characters per line, incl. 2 rolls thermal paper

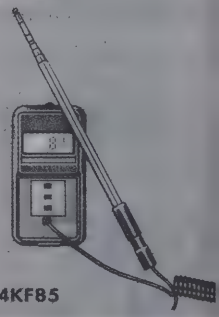


**No. 3T095.** Alnor brand (8565). Shpg. wt. 5.5 lbs. Each.....$1250.00

**PRINTER FOR NO. 3T095 ANEMOMETER**

**No. 3T096.** Alnor brand (8520). Shpg. wt. 3.0 lbs. Each.....$465.00

**THERMAL PAPER FOR No. 3T096**



**No. 6T510.** Black Print. Alnor brand (538-493-010). 5 rolls/pkg. Shpg. wt. 1.3 lbs. Each.....$49.00

## ALNOR No. 4KF85

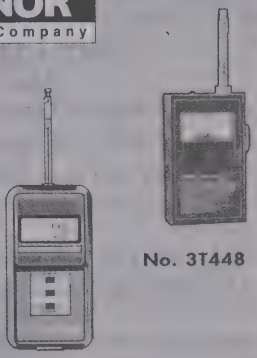
- Digital temperature and air velocity measuring instrument
- Temperature range 0 to 200°F
- Velocity range 0 to 4000 FPM
- Includes 37" probe, carrying case, and 4 AA batteries
- Dimensions: 5.2H x 2.75W x 1.3"D

**No. 4KF85.** Alnor brand (9870) Shpg. wt. 1.0 lbs. Each.....$560.00

### NATIONWIDE BRANCH NETWORK WITH LOCAL ACCESS IS YOUR SHOPPING ADVANTAGE

**Grainger's network of more than 350 local branches provides you nationwide access to our broad selection of product offerings. And with 30-minute "Will Call" service or 24-hour shipping on in-stock items, help is as close as a phone call away. Check the Branch Locations listed in the front of this catalog for the location closest to you.**

## ALNOR No. 3T448
## INTRINSICALLY SAFE THERMAL ANEMOMETER



UL Listed as intrinsically safe for Class I, Groups C and D; Class 2, Groups E, F, and G; and Class 3

Retractable 3" probe turns 180° for accurate air velocity readings

Measures from 0 to 300 FPM and 0 to 2000 FPM air flows

- Accuracy of ±3% of reading, ±1% of scale
- Features battery check and calibration without disassembly
- Includes 9V battery, belt carry case

**No. 3T448.** Alnor brand (9850). Shpg. wt. 0.8 lbs. Each.....$515.00

No. 3T448

## ALNOR No. 4KF86
## INTRINSICALLY SAFE THERMAL ANEMOMETER

UL Listed as intrinsically safe for Divisions 1 and 2 in Class I, Groups C and D; Class 2, Groups E, F, and G; and Class 3 when used with alkaline batteries

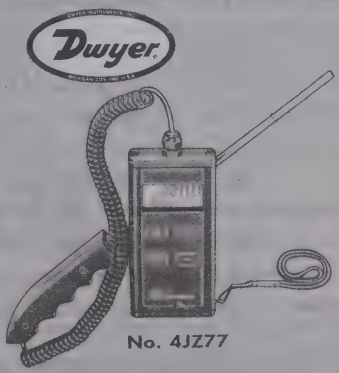
Velocity range 0 to 2000 FPM

- Includes 3.1" probe, carrying case, and 4 "AA" batteries
- Dimensions: 5.2"H x 2.75"W x 1.3"D

**No. 4KF86.** Alnor brand (9880). Shpg. wt. 1.0 lbs. Each.....$560.00

No. 4KF86

## DWYER No. 4JZ77
## DIGITAL THERMAL ANEMOMETER



Digital dual purpose instrument measures temperature and air velocity

Used for air balancing, clean rooms, or any other HVAC related application where direct air velocity measurements are required

Four field selectable air velocity ranges (see chart below) 0 to 15,000 feet per minute, 0-70 meters per second

- ±3% full scale accuracy
- Temperature measurement to 200°F (100°C)
- Six-foot coiled cord with 10" long, 5/16" diameter probe attached provides an easy way to get air flow readings in ductwork and traverses
- Kit includes battery, wrist strap, 6-step drill, carrying case, and instructions

| Range No. | Velocity FPM | Velocity MPS | Accuracy (Full Scale) | Dwyer Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| 1 | 0-500 | 0-3.0 | ±3% | | | | |
| 2 | 0-1500 | 0-7.0 | ±3% | 471-1 | 4JZ77 | $348.00 | 3.0 |
| 3 | 0-5000 | 0-30 | ±4% | | | | |
| 4 | 0-15,000 | 0-70 | ±5% | | | | |

No. 4JZ77

## EXTECH HEAVY-DUTY HOT WIRE THERMO-ANEMOMETER

Accurately measure temperature in ducts and ventilating systems and air speeds as low as 40 ft./min.

Displays 40 to 3940 ft./min., 0.2 to 20 m./sec., 0.7 to 72 km./hr., 0.5 to 44.7 miles/hour or 1.0 to 31.1 nautical miles/hour

Precise °C and °F temperature measurements via thermistor

Velocity accuracy to ±3%; temp. accuracy ±1.5°F, (±0.8°C)

Super large 1.4" (36mm) LCD indicates air velocity and temperature simultaneously

- Record/Recall, Min/Max readings, Data hold
- Built-in RS-232 interface compatible with optional Windows™ software No. 3ZH85 or Data Logger No. 1M960
- Complete with 37" telescoping probe and 40" cable, plus six AAA batteries, meter holster and instructions
- Optional soft carrying case No. 1M940

**No. 4KC29.** Extech brand (407123). Shpg. wt. 1.6 lbs. Each.....$349.00

No. 4KC29

CHECK THIS COMPREHENSIVE CATALOG
FOR YOUR NEEDS. THOUSANDS OF QUALITY PRODUCTS ARE LISTED

# THERMOANEMOMETER, MICROPRINTER, PROBES, AND ACCESSORIES

Using probes, the ThermoAnemometer and MicroPrinter work together to measure, store and document air velocity, volumetric flow rate, temperature and relative humidity.

## THERMOANEMOMETER No. 1M776:

- **Ambient Operating Range: 32° to 122°F**
- **Stores up to 300 sets of data**
- **LCD display with back lighting**
- **Uses 3 "C" rechargeable NiCad batteries (220 mAhr), included**
- **20 to 6000 FPM with supplied probe**
- **ThermoAnemometer automatically logs and averages up to 300 air flow or temperature readings**
- **Readings in the field can be downloaded to a computer**
- **Kit includes ThermoAnemometer, Air Velocity Temperature Probe No. 1M780, rechargeable batteries with charger, wrist strap, insulation duct sleeve, Instruction Manual with calibration data sheets, and carrying case (accommodates No. 1M774 MicroPrinter)**

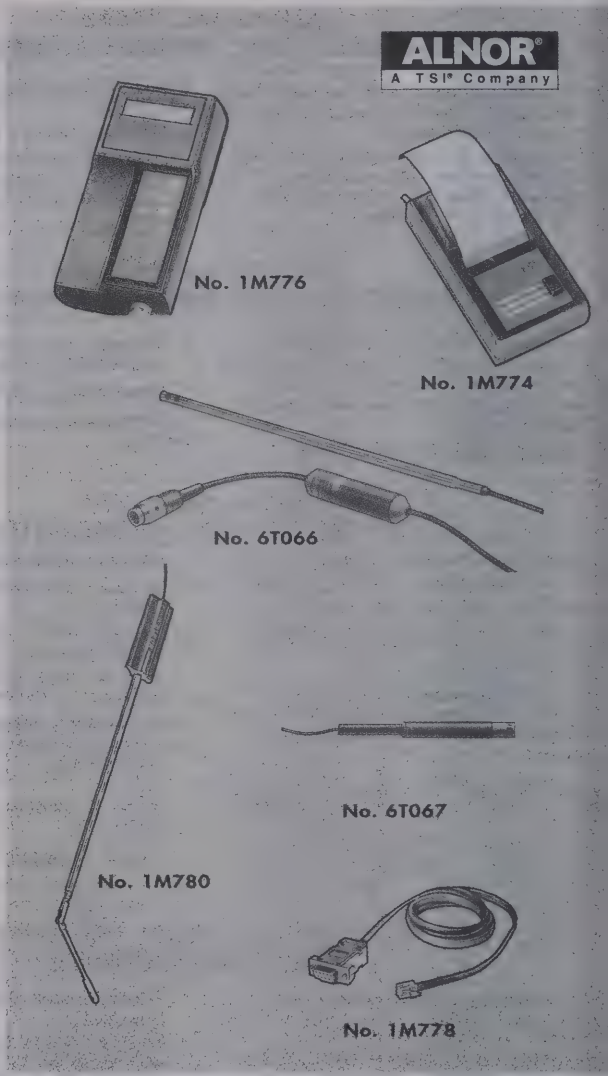
**ThermoAnemometer** communicates directly with PC using No. 1M778 interface cable. Features digital display with bar graph (to indicate trends), full calculations of air volume and density corrections, adjustable sensor response (for turbulent airflow).

**No. 1M776.** ThermoAnemometer. Alnor brand (8575). Shpg. wt. 7.0 lbs.
Each ..... $1595.00

## MICROPRINTER No. 1M774:

- **Ambient Operating Range: 50° to 104°F**
- **Prints 1 line per 2 seconds min., 20 characters per line**
- **Recharges in 5 hours with charger supplied**
- **Includes 2 rolls of thermal paper (No. 6T510), rechargeable batteries with charger, and instructions**

**MicroPrinter** provides instant printed documentation of all data taken. Built-in rechargeable power pack provides 500 lines of printing per charge. Thermal printing method.



**No. 1M774.** MicroPrinter. Alnor brand. (8521). Shpg. wt. 1.1 lbs.
Each ..... $465.00

## AIR VELOCITY AND TEMPERATURE PROBE Nos. 6T066 AND 1M780

- **Air velocity range 20 to 100 FPM with an accuracy of ±5 FPM**
- **Air velocity range 101 to 700 FPM with an accuracy of ±3% of reading ±2 FPM**
- **Air velocity range 701 to 4000 FPM with an accuracy of ±3% of reading ±20 FPM**
- **Air velocity range 4001 to 6000 FPM with an accuracy of ±3% of reading ±200 FPM**
- **Temperature Range: 32° to 122°F; Accuracy (typ.): 68° to 86°F ± 1.0 FPM**
- **No. 6T066 dimensions: Handle-4 x 1.8 x 1"; Probe tube-12" long x 0.36" dia.**
- **No. 1M780 has telescoping, articulating 0.355" dia. tip. 20" long when closed, extends to 45". Locking nut allows probe to remain straight or pivot to either 90° or 270°**

**No. 6T066.** Alnor brand (175). Shpg. wt. 2.0 lbs. Each ..... $495.00

**No. 1M780.** Alnor brand (275). Shpg. wt. 0.8 lbs. Each ..... $635.00

## TEMPERATURE AND HUMIDITY PROBE No. 6T067

- **Temperature Range: 32° to 140°F with an accuracy of ±0.4% of reading ±1.0 FPM**
- **Humidity Range: 0 to 100%; Accuracy (typ.): 10 to 96% ±2.5% RH**
- **Dimensions: Handle-4 x 1.8 x 1"; Probe tube-6" long x 0.75" dia.**

**No. 6T067.** Alnor brand (220B). Shpg. wt. 2.0 lbs. Each ..... $495.00

## COMPUTER INTERFACE CABLE No. 1M778

- **Used with Nos. 1M776 and 1M774 to transfer data to a computer**

**No. 1M778.** Alnor brand (634.493.404). Shpg. wt. 0.4 lbs.
Each ..... $55.00

# AIR VELOCITY INDICATORS AND VOLUME-AIRE AIR BALANCER

## AIR VELOCITY INDICATORS

### BACHARACH No. 6T179

**Pocket size air flow indicator, ideal for use where resolution of 50 ft./min. is adequate**

**Range 0 to 1000 FPM • Accuracy ±5% FS**

**Detects leaks around doors and windows**

**Instant readings from any held position; no leveling or zero balancing required**

**Entirely self-contained; no hose or probe required**

**Bacharach brand (16-7009)**

**o. 6T179.** Shpg. wt. 0.8 lbs. Each ..... $185.00

### BACHARACH Nos. 6T177 and 6T178

**Florite Air Velocity meters provide instantaneous, direct readings of air velocity without timing or calculations**

**Pocket-sized indicators useful for checking air flows through openings as small as 1/4" dia.**

**Easy to use; hold in air stream, either in open area or against face of flat-surfaced register**

**Grille Velocity Finder Chart converts air velocity to Cubic Feet per Minute (CFM) without calculations. (Additional Grille Velocity Finders, No. 6T180, available below)**

**Two models available. No. 6T177 has single scale ranges of 0 to 1000 FPM (accuracy of reading ±2% FS). No. 6T178 has dual scale range of 0 to 3000 FPM and 0 to 35 MPH (accuracy of reading ±2% FS)**

**Includes soft carrying case**

| Scale Type | Range | Bacharach Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| Single | 0-1000 FPM | 16-7001 | **6T177** | **$240.00** | 1.2 |
| Dual | 0-3000 FPM<br>0-35 MPH | 16-7002 | **6T178** | **240.00** | 1.2 |

### No. 6T180 GRILLE VELOCITY FINDER

rille Velocity Finder converts air velocity to Cubic Feet per inute (CFM) without calculations. Bacharach brand (16-0107).

**o. 6T180.** Shpg. wt. 0.4 lbs. Each ..... $7.50

## VOLUME-AIRE AIR BALANCER

### TIF No. 1T937

**Permits measuring CFM directly, easy system balancing**

**Use on any size grille, register, or diffuser**

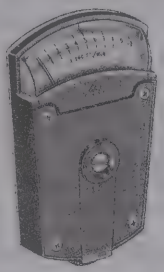
**Provides true average system outlet conditions**

**Converts turbulent jets to a controlled laminar flow**

**Averages velocity jets**

**Directly reads feet and cubic feet per minute**

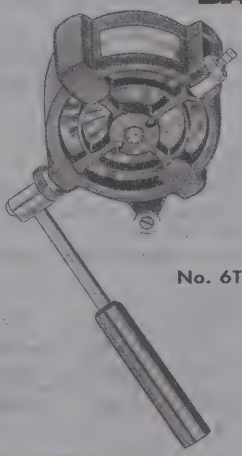
**Requires no power or maintenance**



**Measurements area: 50 to 500 sq. in., 300 to 3000 sq. cm**

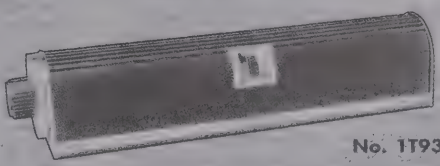
**Velocity: 250 to 1100 FPM, 125 to 560 cm/sec.**

**Volume: 70 to 3000 CFM, 40 to 1400 liters/sec.**



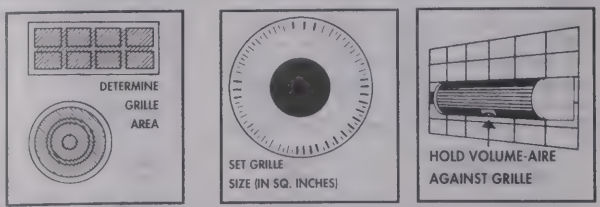
**Simple 3-step process**

**o. 1T937.** TIF brand (TIFVA105) Shpg. wt. 2.3 lbs. Each..... $149.95



No. 6T179

BACHARACH



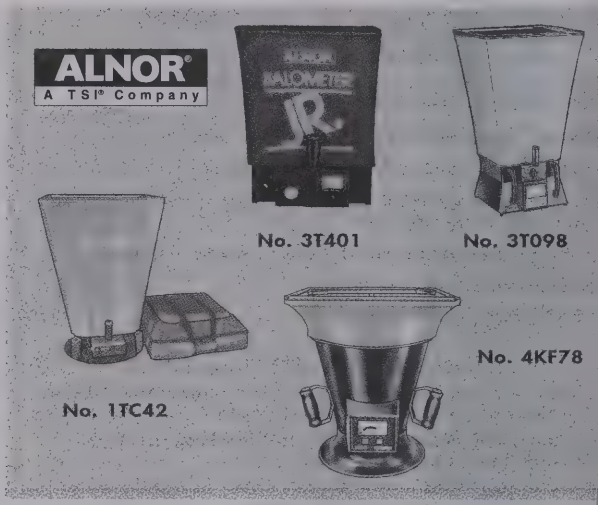
No. 6T177

tif

No. 1T937

**Volume-Aire Balancer Application Diagrams:**

### INSTANT READINGS OF CFM:



1. Determine grille area (see diagram A)
2. Set grille size (see diagram B)
3. a. Hold Volume-Aire directly against grille (see diagram C)
   b. Turn knob so yellow vane is centered in window
4. Read CFM (black digits on dial) at caret above dial

# BALOMETERS AND ACCESSORIES

## ALNOR BALOMETER JR.

- "Balometer Jr." is a compact lightweight model for measurements in tight spaces
- Base: 14 x 14"; height with 2 x 2 ft. hood: 36"; height with optional 16 x 16" hood (No. 3T402): 21"
- 6.5 lb. operating weight with 2 x 2 ft. hood
- One step readout, ±5% full scale accuracy for both supply and exhaust
- No need for K factor calculations
- CFM ranges: 0-200, 100-600, 400-1400
- Includes base, 2 x 2 ft. hood, two handles, and carrying case
- No. 3T402 16 x 16" hood and frame kit can be ordered separately

**No. 3T401.** Alnor brand (342). Shpg. wt. 18.0 lbs. Each.....$1330.00

## ALNOR ANALOG BALOMETERS

- Direct CFM air flow measurement of both supply and exhaust
- One step readout
- No need for K factor calculation
- ±3% full scale accuracy
- CFM ranges: 0-250, 200-500, 400-1000, 800-2000
- 9.8 lb. operating weight with 2 x 2 ft. hood
- Base: 17 x 17"; height: 40"
- All models include base, range selector, hoods, and carrying case

| Hoods Included (Measured in Feet) | Alnor Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|
| 2 x 2 | 6461 | 3T098 | $1840.00 | 30.0 |
| 2 x 2, 1 x 4, 2 x 4 | 6463 | 3T099 | 2200.00 | 36.0 |
| 2 x 2, 1 x 4, 2 x 4, 3 x 3, 1 x 5 | 6465 | 3T400 | 2560.00 | 39.0 |

## ALNOR LOW FLOW BALOMETER

- Lightweight balometer for use in low flow applications where space is tight
- Operating range: 10-500 cfm
- LCD simulated analog meter
- Accuracy: ±3% ±2 cfm
- Battery life: 20 hours (minimum)
- Resolution 0.1 cfm (10-99 cfm), 1 cfm (100-500 cfm)
- Includes base 2 x 2' hood, handles, carrying case and instructions

**No. 4KF78.** Alnor brand (6200). Shpg. wt. 20.0 lbs. Each.....$995.0

## ALNOR ELECTRONIC BALOMETERS

- Digital readings directly in volume; no time is lost on calculations; read supply and exhaust
- One person operation
- Hood fits over grilles or diffusers and channels air flow through a manifold to a specially designed base
- Air flow displayed directly in cubic feet per minute (CFM), cubic meters per hour ($m^3/h$), or liters per second (l/s)
- Ranges: 50 to 2000 CFM (85-3400 $m^3/h$, 24-945 l/s) on a single scale; no flow adapters needed
- Large LCD display is user selectable in English or metric units
- No. 1TC42, 1TC43, and 1TC44 read multiple probes allowing for a variety of applications such as air velocity, temperature, and relative humidity for air velocity readings order probe No. 6T066; for relative humidity readings order probe No. 6T067
- Auto-scaling capabilities for accurate readings in both supply and exhaust air flows at ceilings, walls, and floors
- Nos. 4KF82-4KF84 also enable direct balancing of VMA controller
- Includes base, meter, case, and hood

| Hood Included (Measured in Feet) | Alnor Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|
| 2 x 2 | APM 151 | 1TC42 | $2035.00 | 21.0 |
| | DB 151 | 4KF82 | 2135.00 | 28.0 |
| 2 x 2, 1 x 4, 2 x 4 | APM 153 | 1TC43 | 2395.00 | 25.0 |
| | DB 153 | 4KF83 | 2495.00 | 28.0 |
| 2 x 2, 1 x 4, 2 x 4, 1 x 5, 3 x 3 | APM 155 | 1TC44 | 2755.00 | 28.0 |
| | DB 155 | 4KF84 | 2855.00 | 28.0 |

# ACCESSORIES

## HOOD EXTENSION

Extends all 2 x 2Ft. hoods to 30" H.

**No. 4KF81.** Alnor brand (634593350). Shpg. wt. 2.0 lbs. Each .....$185.0

## 16 x 16" HOOD

Used with No. 3T401.

**No. 3T402.** Alnor brand (634543000 Shpg. wt. 2.0 lbs. Each .....$185.0

## HOOD KITS

For all balometers except Nos. 3T401 ar 4KF28. Includes two hoods and hardwa for adding hoods to balometer.

**No. 4KF79.** 2 x 4' and 1 x 4' kit. Alnor bra (634593115). Shpg. wt. 2.5 lbs.Each .....$360.0

**No. 4KF80.** 1 x 5' and 3 x 3' kit. Alnor brand (634593125). Shpg. wt. 2.5 lbs.Each .....$360.0

TELL US WHAT YOU NEED—WE'LL DO OUR BEST TO HELP YOU!

Measure it, record it, calibrate it — You'll get it right with Grainger.

## MARK II™ MOLDED PLASTIC MANOMETER

**Measures low positive, negative, or differential air, and gas pressures**

**Ranges: 0 to 3" WC (No. 2T650), 0 to 7" WC (No. 3T292)**

**Typical applications: dust collection systems, noxious fumes/airborne particulate exhaust systems, and building HVAC filter banks**

**Mounts on any vertical surface**

**Zero adjustment knob and built-in level indicator**

**Virtually indestructible molded plastic**

**±3% full scale accuracy, maximum working temperature, 140°F**

**Maximum internal working pressure, 10 PSI**

**Includes 2 static pressure taps, 8 ft. of double column plastic tubing, mounting screws, red indicating fluid used with No. 2T650/blue indicating fluid used with No. 3T292, red and green pointer flags**

**. 2T650.** ❸ Dwyer brand (25). Shpg. wt. 1.1 lbs.Each.....$24.63

**. 3T292.** ❸ Dwyer brand (26). Shpg. wt. 1.1 lbs. Each.....$47.10

**. 1TC33.** Stand for No. 2T650 and 3T292 Manometers. Dwyer brand 512). Shpg. wt. 1.0 lbs.Each.....$16.47

These products are covered by OSHA Hazard Communication Standard, and Material ety Data Sheets (MSDS) are available. See page opposite inside back cover.

## SLACK-TUBE® MANOMETERS

**Measures positive, negative, or differential pressure in inches of water column**

**Determines velocity and static pressures for leakage, fan/blower tests, calibrating control devices, and other applications; to check gas pressure, order No. 3T293**

**Magnetic clips firmly hold to any steel surface**

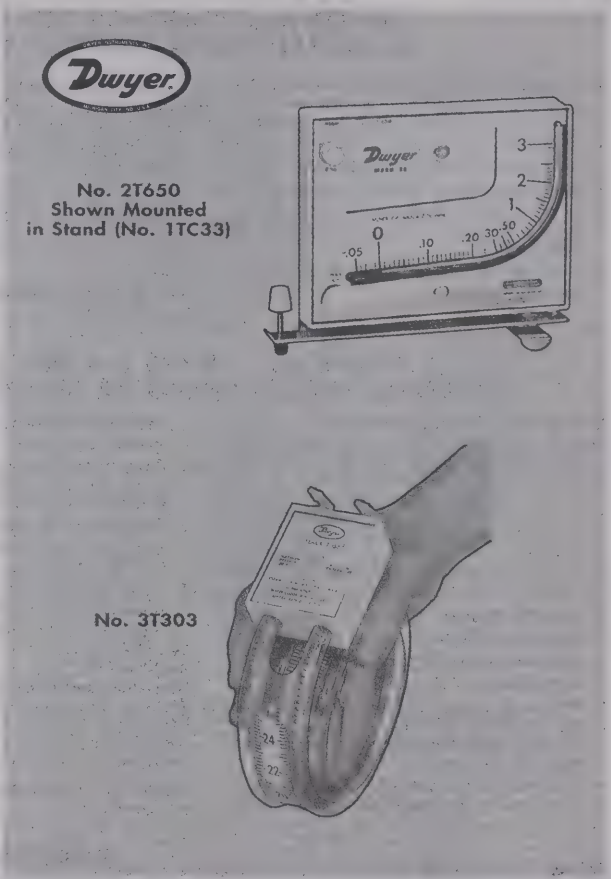
**Rolls up for easy storage**

**Center mounted scale provides sliding zero adjustment between columns**

**Use 3/16" I.D. hose (not supplied)**

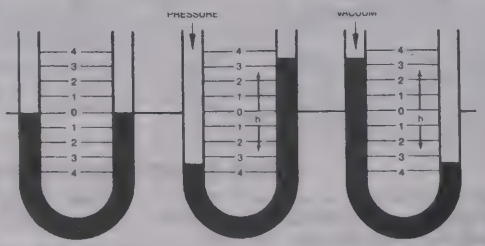
**Rapid shut-off tubing connections retain fluid in manometer**

**Has overpressure safety traps in the top of both columns**



**Can use tap water as the indicating fluid**

**Rated total pressure: 50 PSI intermittent, vacuum not to exceed 20"Hg**



**130°F maximum ambient temperature**

**Includes carrying case, one bottle of fluorescein green color concentrate with wetting agent**

| perating nge (In.) | SlackTube Length (In.) | Dwyer Model | Stock No. | Each | Shpg. Wt. |

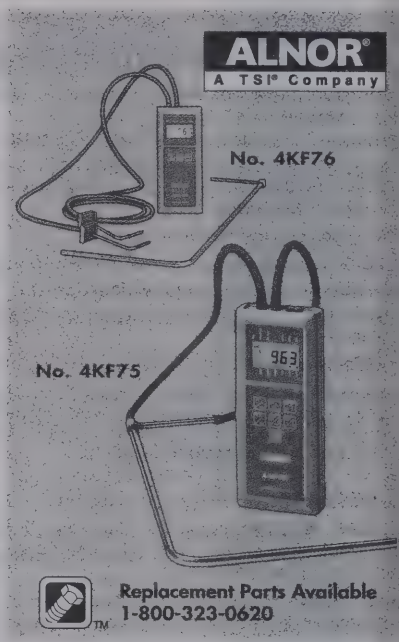
### MEASUREMENT OF PRESSURE WITH A MANOMETER

The simplest form of a manometer is a U-tube half filled with liquid. Both ends of the tube are open and the liquid is at the same height in each leg (Fig. A). When positive pressure is applied to one leg, the liquid is forced down in that leg and up in the other. The difference in height "h", which is the sum of the readings above and below zero, indicates the pressure (Fig. 2). When a vacuum is applied to one leg, the liquid rises in that leg and falls in the other. The difference in height "h", which is the sum of the readings above and below zero, indicates the amount of the vacuum (Fig. C).

# MICROMANOMETERS, DUAL RANGE MANOMETER, AND WIND METERS



## ALNOR Nos. 3T403 and 4KF76 MICROMANOMETER AND TEST KIT

- Measures differential pressure or air velocity in english or metric units
- Resolution of 0.01" WC or 10 FPM
- Differential pressure of (–1)" to 10"; air velocity 360 to 9990 FPM
- Accuracy (typ.): ±1% of reading (pressure), ±1.5% of reading (air velocity)
- Automatic electronic zeroing; LCD digital display
- Uses all standard pitot tubes, see nearby pages
- 2 Year warranty
- Operating temperature: 32° to 122°F
- Includes 3"AA" batteries, case

**No. 3T403.** Alnor brand (AXD 530). Shpg. wt. 1.0 lbs. Each ..... $515.00

**Micromanometer Test Kit includes:** No. 3T403 micromanometer, 18" pitot probe, two static pressure probes, 100 piece duct plug kit (4KF73), three AA batteries, and carrying case.

**No. 4KF76.** Alnor brand (AXD 532). Shpg. wt. 5.0 lbs. Each ..... $620.00

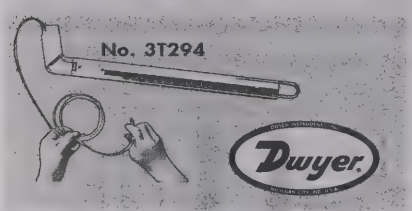
Replacement Parts Available 1-800-323-0620

## ALNOR Nos. 1M790 and 4KF75 PORTABLE MICROMANOMETER AND TEST KIT

**The Portable Micromanometer** is a compact, digital pressure instrument which uses microprocessor-based electronics to measure, record , and store differential pressure and air velocity readings. Average velocity readings can be displayed from memory and printed with No. 1M774 microprinter. Battery powered for 12 hours of continuous use. Includes meter, Operating Manual, and carrying case.

- Velocity Range: 400 to 17,910 FPM
- Pressure Range: –4.0 to 20.0 in $H_2O$
- Operating Temperature: 14 to 122°F
- Dimensions: 7.5 x 3.2 x 1.3"
- Accuracy (typ.): ±1% of reading from 59° to 95°F, ±4% of reading for rest of operating temperature range with manual zeroing
- Fits easily into a pocket for hands-free operation; position insensitive
- Measures negative pressures without switching hoses
- Automatic "power-down" feature activates after 20 minutes when no function is chosen
- Single button operation holds readings for input into memory; stores up to 100 readings
- 2 Year warranty
- Impact-resistant thermoplastic housing, use 3 AA batteries

**No. 1M790.** Alnor brand (AXD 550) Shpg. wt. 1.0 lbs. Each ..... $745.00



**Micromanometer Test Kit includes:** No. 1M790 micromanometer, No. 1M774 microprinter, 18" pitot probe, two 8 ft. hoses, 100 piece duct plug kit (No. 4KF73), three AA batteries, and carrying case.

**No. 4KF75.** Alnor brand (AXD 552). Shpg. wt. 5.0 lbs. Each ..... $1255.00

## ALNOR No. 4KF73 DUCT PLUG KIT

**100 Piece Sample Kit** includes 20 each o 1/4", 3/8", 1/2", 9/16", and 3/4" tapered duc plugs. Additional duct plugs available a Grainger Parts Operation.

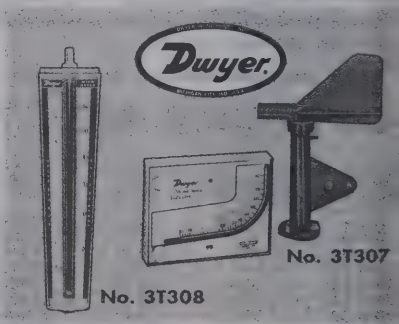
**No. 4KF73.** Alnor brand (593-000-000). Shpg. wt. 1.0 lbs. Each ..... $9.00

## DUAL RANGE FLEX-TUBE, U-INCLINED MANOMETER

- Determines velocity and static pressures for leakage, fan/blower tests, calibrating control devices, and other applications
- As U-tube it reads from 0 to 16" of water; as inclined gage it reads from –0.20 to 0 to 2.6" of water
- Markings 1" major, 0.2" minor
- graduations on high range; 0.02" graduations on low range
- Two magnetic clips to hold instrumen to metal surfaces
- Includes 4½' x 3/8" tygon tube for pressure source connection; 3/4 oz. red gage oil, and vinyl carrying case

**No. 3T294.** ❸ Dwyer brand (1227). Shpg. wt. 2. lbs. Each ..... $42.15

## WIND SPEED INDICATOR



- Reads wind velocity range of 0 to 80 MPH directly on liquid filled tube; calibrated in both miles per hour and Beaufort scales
- Includes 50 ft. of vinyl tubing and rooftop mounted pick-up
- Constructed of white plastic with gold color scale 7⅜ x 5⅞"

**No. 3T307.** ❸ Dwyer brand.. Shpg. wt. 3.0 lbs. Each ..... $63.55

## HAND HELD WIND METER

- Ideal for outdoorsmen, farmers, or yachtsmen—reads wind velocity directly in miles per hour
- Two scales: 2-10 and 4-66 MPH
- White ball in tube indicates wind speed
- Plastic construction; carrying case included

**No. 3T308.** Dwyer brand. Shpg. wt. 0.2 lbs. Each ..... $18.38

❸ These products are covered by OSHA Hazard Communication Standard, and Material Safety Data Sheets (MSDS) are available. See page opposite inside back cover.

# DIGITAL MANOMETERS AND PORTABLE MICROMANOMETER

## HAND-HELD DIGITAL MANOMETER KIT

**Measures positive, negative, or differential air pressure**
**Ideal for field calibration, monitoring, or trouble shooting HVAC systems, clean rooms, or low pressure pneumatic systems**
**Measures non-corrosive, non-toxic gases**
**1/2" LCD display with low battery indication**
**Provides air velocity measurement when used with a pitot tube**
**Dual size pressure connectors fit 1/8" or 3/16" I.D. vinyl or rubber tubing**
**User selectable ranges of 0-19.99" WC or 0-4.97 KPa**
**±0.5% full scale accuracy**
**Maximum pressure, 11 PSI or 75 KPa; ambient operating temperature, 32-122°F**
**Kit includes: 4JZ78, two 1W401 static pressure tips, two 9-ft. lengths 3/16" I.D. rubber tubing, No. 166-6 CF pitot tube, A-397 step drill, A-532 air velocity slide chart, and instruction bulletin. Packed in tough molded plastic carrying case with foam liner. 9V alkaline battery**

**No. 6T604.** Dwyer brand (475-1AV). Shpg. wt. 3.5 lbs. Each.....$360.25

## HAND HELD DIGITAL MANOMETERS

**Similar to 6T604 above, but kit is not included**
**Basic meter has the same features as meter No. 6T604, but different ranges**
**No. 4JZ78 range 0-19.99 water column or 0-4.97 KPa; maximum pressure 11 PSI (75 KPa)**
**No. 1W435 range 0-40.0" water column or 0-9.95 KPa; maximum pressure 11 PSI (75 KPa)**
**No. 1W433 range 0-199.9" water column or 49.7 KPa; maximum pressure 11 PSI (75 KPa)**
**No. 4JZ79 range 0-100 PSI or 0-6.89 bar; maximum pressure 150 PSI (10 bar)**
**Accuracy (typ.): ± 0.5% full scale**

**No. 4JZ78.** Dwyer brand (475-1). Shpg. wt. 1.2 lbs.Each.....$209.50
**No. 1W435.** Dwyer brand (475-2). Shpg. wt. 0.7 lbs. Each.....$209.50
**No. 1W433.** Dwyer brand (475-3). Shpg. wt. 0.7 lbs. Each.....$209.50
**No. 4JZ79.** Dwyer brand (475-7). Shpg. wt. 1.2 lbs. Each.....$209.50

## HAND HELD DIGITAL MANOMETERS

**Measure noncorrosive, non-toxic gases**
**Measure positive, negative, or differential pressures**
**Used for laboratory testing, field calibration, and HVAC systems**
**Dual size pressure connectors fit 1/8" or 3/16" ID vinyl or rubber tubing**
**Instant selection from up to nine English/Metric units**
**Store 20 readings in memory for later reference**
**Large, easy-to-read 0.4" LCD display includes switchable backlight for great visibility**
**Both audible and visual overpressure alarms**

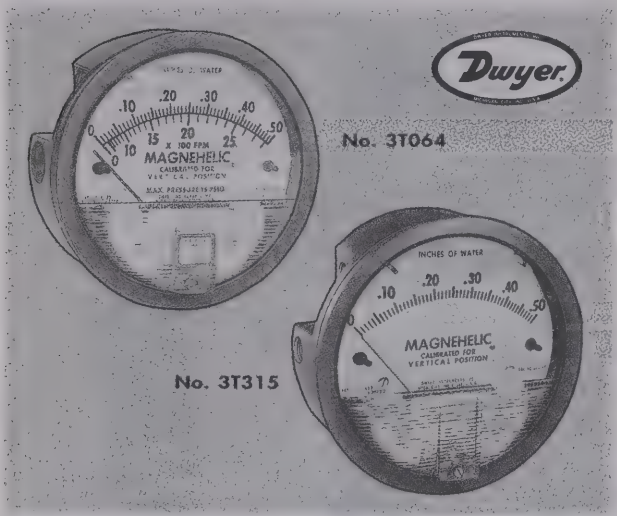
| Operating Range (English) Inches W.C. | Operating Range (Metric) KPA | Maximum Pressure PSI (bar) | Dwyer Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| 0-20 | 0-5 | 11 (0.75) | 477-1 | 4JZ80 | $275.50 | 1.2 |
| 0-40 | 0-10 | 11 (0.75) | 477-2 | 4JZ81 | 275.50 | 2.4 |
| 0-200 | 0-50 | 29 (1.99) | 477-3 | 4JZ82 | 275.50 | 2.4 |
| 0-10 PSI | 0-70 | 58 (3.99) | 477-4 | 4JZ83 | 275.50 | 1.0 |
| 0-30 PSI | 0-200 | 58 (3.99) | 477-5 | 4JZ84 | 275.50 | 1.0 |

## ACCESSORIES

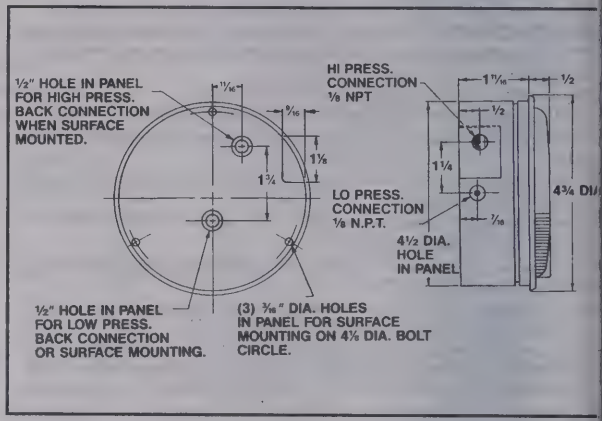
Gray nylon pouch for Nos. 1W435, 1W433, 4JZ78 through 4JZ79.
**No. 1W393.** Dwyer brand (A402). Shpg. wt. 0.8 lbs. Each.....$20.59

## PORTABLE MICROMANOMETER AND TEST KIT

- **Pressure Range: 0-19.99 in. $H_2O$**
- **Resolution: 0.01 in. $H_2O$**
- **Operating Temperature: 14 to 122°F**
- **Dimensions: 7.9 x 3.2 x 1.3"**
- **One 9V battery provides 100 hours of continuous use**
- **Accuracy: ±2.5% of indicated reading**
- **2 Year warranty**
- **Includes protective pouch and manual.**



**No. 4KF74.** Alnor brand (AXD 510). Shpg. wt. 1.0 lbs. Each.....$275.00



**Portable Micromanometer Test Kit includes:** No. 4KF74 micromanometer, 18" pitot probe, two static pressure tubes, 8 ft. rubber hose, 100 piece duct plug kit (No. 4KF73) and carrying case.

**No. 4KF87.** Alnor brand (AXD 512).Shpg. wt. 5.0 lbs. Each.....$358.00

# DIFFERENTIAL PRESSURE GAGES

## MAGNEHELIC® GAGES

- Typical applications: measures fan and blower pressures, filter resistance, air velocity, furnace draft, pressure drop across orifice plates, liquid levels with bubbler systems, fluid amplifier/fluidic system pressure
- 4" dials indicate low air or gas pressure—positive, negative (vacuum) or differential
- Dual scale models calibrated in inches water column and feet per minute for air velocity measurements using a pitot tube, see Index
- Pressure scale models calibrated in inches water column or PSI
- Rated total pressure:
  - 20" Hg to 15 PSIG, Nos. 3T314-3T323, 2T644, 2T646, 3T064, 3T295, 1W473-1W489
  - 20" Hg to 35 PSIG, Nos. 3T324, 3T325
  - 20" Hg to 80 PSIG, No. 3T326
- ±2% full scale accuracy
- High resistance to shock and vibration
- Side and rear pressure connections
- Includes instructions, two 1/8" NPT plugs, two 1/8" NPT to 3/16" I.D. rubber tubing adapters, and three mounting adapters with screws

### PRESSURE AND AIR VELOCITY SCALE MODELS

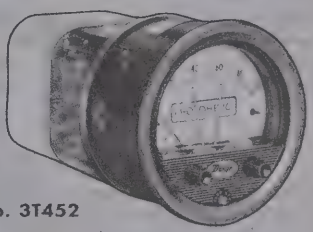
DESK SPACE AT A PREMIUM? USE THE GRAINGER CD-ROM, ELECTRONIC CATALOG TO REVIEW THOUSANDS OF PRODUCTS!

Our Grainger Electronic Catalog is a state of the art CD-ROM selection guide which features products and information from our General Catalog. The perfect reference tool when you need product and technical information on the road. Contact you local branch for more information.



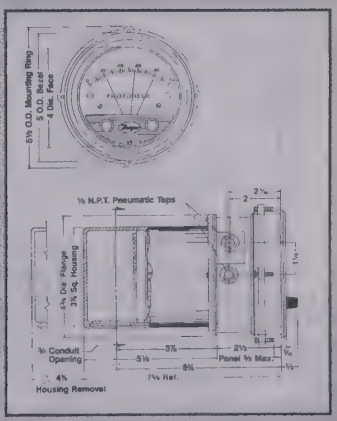
# PHOTOHELIC® PRESSURE SWITCH/GAGES

Typical applications: control pressures in air conditioning systems, clean rooms, fluidic and pneumatic control systems, material handling equipment; alarm or control fume exhaust systems; control pressure in air structures; used for low pressure air reading and control

2 phototransistor circuits and 2 DPDT relays permit both high and low alarms or limit controls

Relays are de-energized when gage pointer is to the left of respective set points

- Provides fail safe protection in the event of a loss of electrical power or pressure
- Rated total pressure:
  –20" Hg to 25 PSIG, Nos. 3T450 & 3T459, 1W449-1W463
  –20" Hg to 35 PSIG, Nos. 3T460 & 3T461
  –20" Hg to 80 PSIG, No. 3T462
- ±2% full scale accuracy
- Gage connections 1/8" NPT
- Power required 110V, 50/60 Hz
- Electrical rating of relays 10 amps @ 110/240V AC; resistive



No. 3T452

## PRESSURE AND AIR VELOCITY SCALE MODELS

# MAGNEHELIC® INDICATING TRANSMITTERS

Typical applications: ideal for control applications in building HVAC systems where local indication is desired during routine maintenance checks or necessary when troubleshooting the system; provides visual monitoring and electronic control of very low differential pressure

Current consumption: 38mA DC (maximum)

Power supply: 12 to 35V DC

- Output signal: 4 to 20mA, 2-wire
- Loop resistance: 0-1170 ohms from 12 to 35V DC
- Accuracy: ±2% of full span output
- Pressure connections 1/8" NPT female high and low pressure taps
- Includes span and zero adjust tool, mounting hardware kit

No. 3T311

## SPECIFICATIONS AND ORDERING DATA

| Pressure Range (In. W.C.) | Minor Divisions | Dwyer Model | Stock No. | Each | Shpg. Wt. |

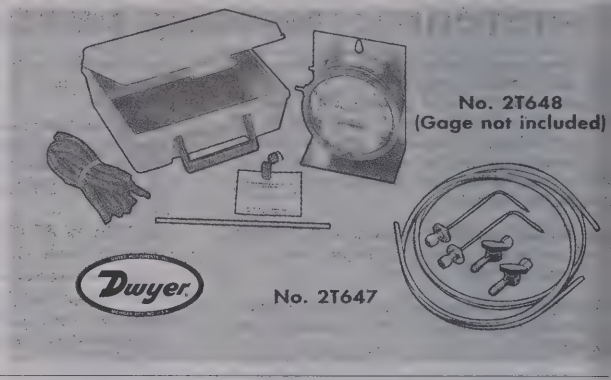
# DWYER ACCESSORIES

## MAGNEHELIC® PORTABLE KIT



- **Adapts Magnehelic® gage for portable use**
- **Includes carrying case, 9 ft. of 3/16" I.D. rubber tubing, terminal (sensing) tube with holder, and stand hang bracket**

**No. 2T648.** Dwyer brand (A-432). Shpg. wt. 1.4 lbs. Each .....$20.43

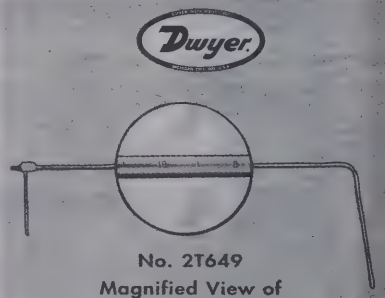
## AIR FILTER KIT

- **Adapts Magnehelic gage to an air filter gage**
- **Eliminates guess work of filter replacement when installed across filter bank**
- **Reduces maintenance expense, increases HVAC system operating efficiency**
- **Includes surface mounting bracket, screws, two molded plastic vent valves, integral compression fittings on tips and valves, two 5 ft. lengths of 1/4" I.D. aluminum tubing**

**No. 2T647.** Dwyer brand (A-605). Shpg. wt. 1.0 lbs. Each .....$20.43

## PITOT TUBES

Universally used to check air velocities and static pressures. Companion device for manometers and magnehelic gages. Includes air velocity calculator and direct reading velocity charts. Tube connections, 1/4".



**STANDARD 5/16" DIAMETER MODELS:**

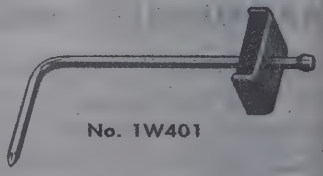
- **For ducts 10" and larger in diameter**
- **Inch graduations show insertion depth**
- **Maximum media temperature, 1500°F**
- **Comply with AMCA and ASHRAE specifications**
- **Test-confirmed unity co-efficients**

**POCKET-SIZE 1/8" DIAMETER MODELS:**

- **For ducts 4" and larger in diameter**
- **Geometrically scaled down per AMCA code**
- **Unity co-efficient design**
- **Withstands flexing without damage**
- **Resists temperatures up to 800°F**

| Insertion Length (In.) | Tube Diameter (In.) | Dwyer Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| **8** | 5/16 | 160-8 | **3T086** | **$35.45** | 0.5 |
| **12** | 5/16 | 160-12 | **2T649** | **36.55** | 0.4 |
| **18** | 5/16 | 160-18 | **3T087** | **38.60** | 0.5 |
| **24** | 5/16 | 160-24 | **3T088** | **40.65** | 0.5 |
| **36** | 5/16 | 160-36 | **3T089** | **46.70** | 3.0 |
| **48** | 5/16 | 160-48 | **3T090** | **47.95** | 2.0 |
| **6** | 1/8 | 167-6 | **3T309** | **36.55** | 0.2 |
| **12** | 1/8 | 167-12 | **3T310** | **37.60** | 0.2 |

## PITOT TUBE ACCESSORIES AND STATIC PRESSURE FITTINGS



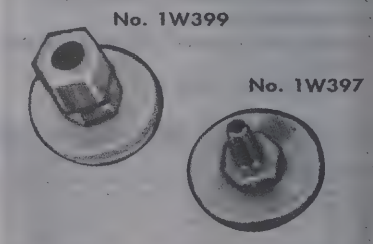
**Split Flange Assembly.** Includes gasket for mounting 5/16" pitot tubes on ducts.
**No. 1W405.** Dwyer brand (A-158). Shpg. wt. 0.5 lbs. Each .....$6.04

**Mounting Gland.** Stainless steel fitting with graphite bushing for 5/16" pitot tubes made after Dec. 1990. Includes washers and jam nut for duct mounting or install in 1/2" NPT flange.
**No. 1W403.** Dwyer brand (A-159). Shpg. wt. 0.5 lbs. Each .....$14.26

**Portable Static Pressure Tip.** Used for 3/16" I.D. rubber or plastic tubing on Dwyer manometers or Magnehelic® gages
**No. 1W401.** Dwyer brand (A-303). Shpg. wt. 0.1 lbs. Each .....$7.00

**Static Pressure Fitting.** Used for 1/4" metal tubing connection.
**No. 1W399.** Dwyer brand (A-307). Shpg. wt. 0.5 lbs. Each .....$2.15

**Static Pressure Fitting.** Used for 3/16" and 1/8" I.D. plastic or rubber tubing.
**No. 1W397.** Dwyer brand (A-308). Shpg. wt. 0.1 lbs. Each .....$2.06



## MANOMETER REPLACEMENT GAGE OIL

**Gage Fluid 0.826 S.G.** Red Gage oil used for Dwyer inclined and U-Tube manometers. 4 oz. bottle.
**No. 1TC00.** ❸ Dwyer brand (A-102). Shpg. wt. 0.2 lbs. Each .....$5.56

**Gage Fluid 1.0 S.G.** Violet gage oil for Dwyer manometers. 3/4 oz. bottle.
**No. 1W411.** ❸ Dwyer brand (A-120). Shpg. wt. 0.8 lbs. Each .....$14.26

**Gage Fluid 1.910 S.G.** Blue gage oil for Dwyer manometers. 3/4 oz bottle.
**No. 1W413.** ❸ Dwyer brand (A-110). Shpg. wt. 0.8 lbs. Each .....$23.60

**Water Coloring Agent.** Flourescein green concentrate for Dwyer manometers. Contains wetting agent to improve meniscus characteristics. Add to 1 qt. water. 3/4 oz. bottle.
**No. 1W409.** ❸ Dwyer brand. (A-126). Shpg. wt. 0.8 lbs. Each .....$3.59

❸ These products are covered by OSHA Hazard Communication Standard, and Material Safety Data Sheets (MSDS) are available. See page opposite inside back cover.

## AIR VELOCITY TRANSMITTER

**Permanent mount**
**4 field selectable ranges from 0-200 to 0-1200 FPM**
**Linear, 4-20mA output signal at ±2% accuracy**
**Rugged steel NEMA 13 housing with 12" stainless steel probe on 6 ft. connecting cable**
**Power Supply: 18-24V AC, 22-28V DC**
**Loop resistance from 0-300 ohms with 250mA maximum current consumption**
**Temperature Ranges**
**Dry Air Stream: 0° to 200°F**
**Operating: –32° to 160°F**
**Storage: 0° to 200°F**

**No. 1W417.** Dwyer brand (640 AVT). Shpg. wt. 4.5 lbs. Each..... $400.50

### PROBE EXTENSION ADAPTER

**Optional fitting allows mounting in probe in 1/2" pipe, up to 5 ft.**

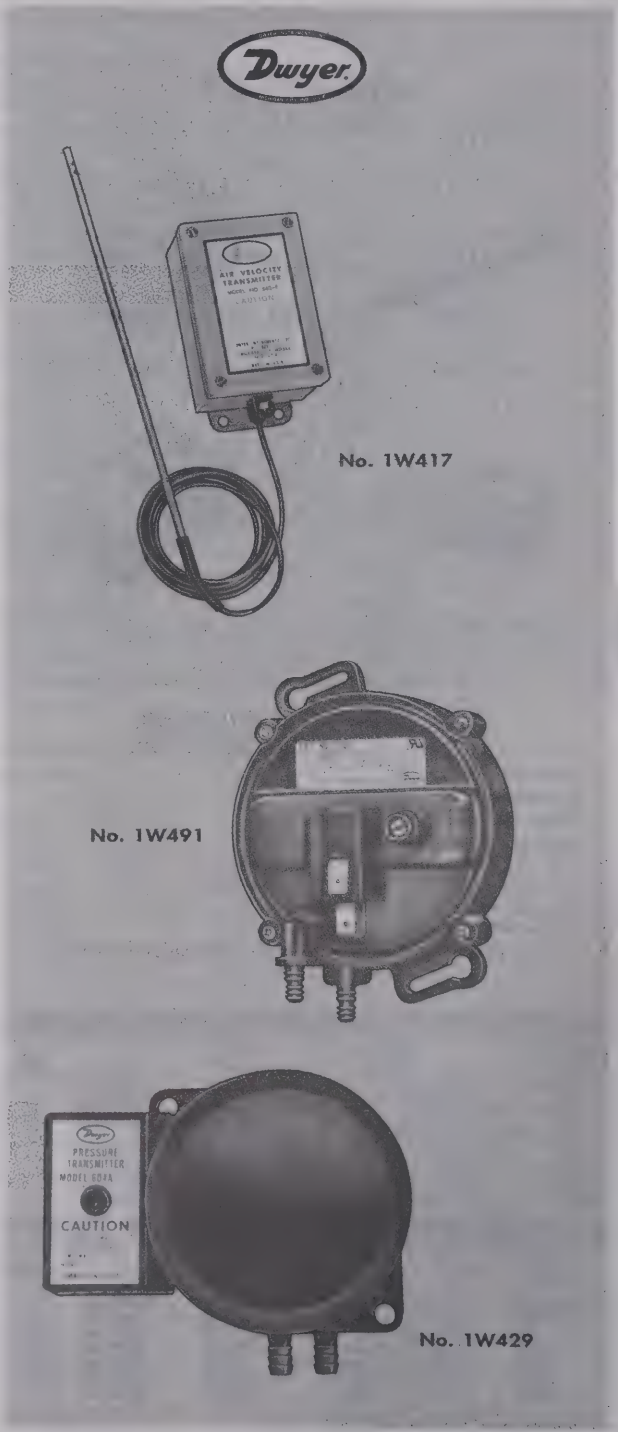
**No. 1W395.** Dwyer brand (A-398). Shpg. wt. 0.5 lbs. Each..... $9.13

## PRESSURE SWITCHES

**Ideal for replacing air flow switches in residential and commercial high efficiency furnaces**

**Adjustable set-points provide field flexibility**

**UL Listed and CSA Certified**



**Max. temperature limit of 190°F; max. static pressure rating of 2 PSI**
**Dual size pressure connections for 1/8" and 3/16" I.D. vinyl or rubber tubing**
**Electrical Rating: 5 amps, 125, 250, 277V AC, 1/10 HP 250V AC, 150 VA**
**Max. diameter 4 11/16" (including mounting slots)**

| Pressure Range (In.) | Dwyer Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|
| 0.15 to 0.5 | 1710-0 | 1W493 | $25.20 | 0.4 |
| 0.5 to 7.5 | 1710-5 | 1W491 | 25.20 | 0.4 |

## 604 SERIES TRANSMITTERS

**Non-indicating differential air pressure transmitters**
**4-20mA signal; 2, 3, or 4-wire operation**
**Accuracy: ±2% of full scale**
**Operating Temp.: 20° to 120°F**
**Thermal Errors: ±1%, 50°F typical**
**Power Supply: 13-35V DC, 2, 3, or 4-wire; 18-26V AC, 4-wire**
**4 screw terminal block connections**
**Output Signal: 4-20mA DC (limited at 38mA DC)**
**Loop Resistance: DC, 0-1100 ohms; AC, 0-1130 Ohms**
**Max. pressure: 50 PSIG surge, 30 PSIG continuous to either pressure connection**
**Media Compatibility: Air and non-combustible, non-corrosive gases**
**Includes 2 mounting screws, #10 x 1" long pan head sheet metal screws**

| Pressure Range (In.) | Dwyer Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|
| 0 to 0.5 | 604A-0 | 1W429 | $129.30 | 0.5 |
| 0 to 2.0 | 604A-1 | 1W427 | 129.30 | 0.5 |
| 0 to 10.0 | 604A-2 | 1W425 | 129.30 | 0.5 |

# TRANSDUCERS/TRANSMITTERS

## STAINLESS STEEL PRESSURE TRANSDUCER/TRANSMITTER

- Ashcroft brand
- All stainless steel construction
- NEMA 4X enclosure
- Accuracy (typ.): ±1% full scale
- 1/4" NPT male process connection
- 36" wire leads for electrical connection
- Superior long term stability
- –20/+180°F operating temperature
- For any process media compatible with stainless steel

**4 to 20mA OUTPUT 10 to 36V DC POWER SUPPLY REQUIRED**

| Pressure Range PSI | Ashcroft Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|
| 15 | K17M0242C1 15# | 2F257 | $277.00 | 0.5 |
| 30 | K17M0242C1 30# | 2F247 | 277.00 | 0.5 |
| 60 | K17M0242C1 60# | 2F253 | 267.00 | 0.5 |
| 100 | K17M0242C1 100# | 2F243 | 267.00 | 0.5 |
| 300 | K17M0242C1 300# | 2F249 | 267.00 | 0.5 |
| 1000 | K17M0242C1 1000# | 2F245 | 267.00 | 0.5 |
| 3000 | K17M0242C1 3000# | 2F251 | 267.00 | 0.5 |
| 5000 | K17M0242C1 5000# | 2F255 | 267.00 | 0.5 |

**1 to 5V DC OUTPUT 10 to 36V DC POWER SUPPLY REQUIRED**

| Pressure Range PSI | Ashcroft Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|
| VAC/100* | K17MO215C1 VAC&100# | 2F239 | $267.00 | 1.0 |
| VAC/300* | K17MO215C1 VAC&300# | 2F241 | 267.00 | 1.0 |
| 60 | K17MO215C1 60# | 2F235 | 267.00 | 1.0 |
| 100 | K17MO215C1 100# | 2F229 | 267.00 | 1.0 |
| 300 | K17MO215C1 300# | 2F231 | 267.00 | 1.0 |
| 3000 | K17MO215C1 3000# | 2F233 | 267.00 | 1.0 |
| 5000 | K17MO215C1 5000# | 2F237 | 267.00 | 1.0 |

(*) Compound range, 30" HgVAC and pressure.

## INDUSTRIAL LOW & DIFFERENTIAL PRESSURE TRANSMITTER

- Ashcroft brand
- Stainless steel NEMA 4X enclosure
- FM approved for intrinsic safe applications
- 4-20mA output signal
- 12 to 36V DC power supply is required
- Accuracy (typ.): 0.5% full scale
- Two 1/4" female NPT process connection
- Can be used only on clean, dry and non-corrosive gases. Not to be used on liquids
- Internal zero and span adjustable ±10% FS
- High over pressure protection

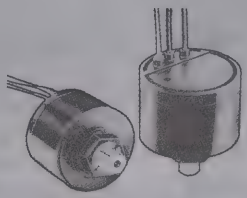
| Pressure Range (In.) | Ashcroft Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|
| 0.1 $H_2O$ | IX5F0242STP1IW | 2F213 | $515.00 | 1.0 |
| 0.5 $H_2O$ | IX5F0242STP5IW | 2F215 | 455.00 | 1.0 |
| 1.0 $H_2O$ | IX5F0242ST1IW | 2F217 | 440.00 | 1.0 |
| 2.5 $H_2O$ | IX5F0242ST2P5IW | 2F221 | 440.00 | 1.0 |
| 5 $H_2O$ | IX5F0242ST5IW | 2F225 | 440.00 | 1.0 |
| 10 $H_2O$ | IX5F0242ST10IW | 2F219 | 440.00 | 1.0 |
| 25 $H_2O$ | IX5F0242ST25IW | 2F223 | 440.00 | 1.0 |
| 50 $H_2O$ | IX5F0242ST50IW | 2F227 | 440.00 | 1.0 |

## ULTRA-LOW & DIFFERENTIAL PRESSURE TRANSMITTER

- Ashcroft brand
- NEMA 2 black steel enclosure
- 4-20mA output signal
- 12 to 36V DC power supply is required
- Exposed easy access terminal strip wiring
- Two hose barb pressure connections
- Accuracy (typ.): 0.5% full scale
- High over pressure protection
- Can be used only on clean, dry and non-corrosive gases Not to be used on liquids

| Pressure Range (In.) | Ashcroft Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|
| 0.1 $H_2O$ | XL5MB242STP1IW | 2F269 | $375.00 | 0.5 |
| ±0.1 $H_2O$ | XL5MB242STP1IWL | 2F277 | 340.00 | 0.5 |
| 0.25 $H_2O$ | XL5MB242STP25IW | 2F271 | 340.00 | 0.5 |
| ±0.25 $H_2O$ | XL5MB242STP25IWL | 2F279 | 315.00 | 0.5 |
| 0.5 $H_2O$ | XL5MB242STP5IW | 2F273 | 315.00 | 0.5 |
| 1.0 $H_2O$ | XL5MB242ST1IW | 2F275 | 300.00 | 0.5 |

## REDUCED SIZE ULTRA-LOW & DIFFERENTIAL PRESSURE TRANSMITTER



- Ashcroft brand
- NEMA 1 black steel enclosure
- 4-20mA output signal
- 12 to 36V DC power supply is required
- Small size can easily fit in a standard electrical workbox
- Accuracy (typ.): 1% full scale
- Two hose barb pressure connections
- High over pressure protection
- Exposed easy access terminal strip wiring
- Can be used only on clean, dry and non-corrosive gases Not to be used on liquids

| Pressure Range (In.) | Ashcroft Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|
| 0.1 $H_2O$ | RX7MB242STP1IW | 2F259 | $253.00 | 0.2 |
| 0.25 $H_2O$ | RX7MB242STP25IW | 2F261 | 238.00 | 0.2 |
| 0.5 $H_2O$ | RX7MB242STP5IW | 2F263 | 218.00 | 0.2 |
| 1.0 $H_2O$ | RX7MB242ST1IW | 2F265 | 218.00 | 0.2 |
| 2.5 $H_2O$ | RX7MB242ST2P5IW | 2F267 | 218.00 | 0.2 |

## INDUSTRIAL TRANSDUCERS

- Ruggedly designed for demanding applications in pumps, compressors, and hydraulic systems
- Shock and vibration resistant
- 1-5V DC output voltage
- Reliable bourdon/LVDT technology
- Weather/corrosion-resistant design with wetted parts
- Infinite resolution output, stable/repeatable output
- RFI resistant, microprocessor compatible
- 9-28V DC for voltage output units
- 15mA maximum supply current
- –40° to 85°C ambient operating temperature range
- 2000 ohms minimum load impedance
- Standard-beryllium copper brazed-to-brass connection bourdon tube
- 1/8-27 ANPT standard pressure connection
- Molded Ultem™ 2300 housing
- Standard 7½" long, 18GA leads electrical connection
- ±2% of span @ 25°C performance accuracy (includes linearity, hysteresis, and repeatability)
- 0.033%/°C typical on zero and span temperature effects (when operated within ambient operating range)

AMETEK

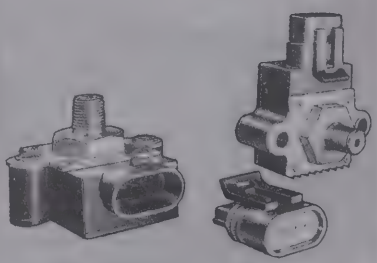
No. 1X738

### SPECIFICATIONS AND ORDERING DATA

| PSI Range | Gauge Type | AMETEK Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 0 to 30 | Pressure Transducer | P207 | 1X738 | $99.00 | 0.2 |
| 0 to 100 | Pressure Transducer | P207 | 1X740 | 99.00 | 0.2 |
| 0 to 200 | Pressure Transducer | P207 | 1X742 | 99.00 | 0.2 |
| 0 to 300 | Pressure Transducer | P207 | 1X744 | 99.00 | 0.2 |

## FIXED RANGE PRESSURE TRANSMITTER

- All welded 316 stainless steel construction and wetted parts for stability in tough environmental and media conditions (no aluminum)
- Miniature fixed range transmitter, economically priced
- Accuracy (typ.): ±0.3%
- 4-20mA output @ 12-30V DC
- 3/4" NPT Female conduit connection cable and 1/2" NPT Female port connection
- Includes 24" standard cable
- Liquid, gas or vapor service



No. 1X815

### SPECIFICATIONS AND ORDERING DATA

| PSI Range | Gauge Type | AMETEK Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 0 to 30 | Pressure Transmitter | 831TG0030LS | 1X815 | $295.00 | 0.8 |
| 0 to 100 | Pressure Transmitter | 831TG0100LS | 1X817 | 295.00 | 0.8 |
| 0 to 300 | Pressure Transmitter | 831TG0300LS | 1X819 | 295.00 | 0.8 |
| 0 to 1000 | Pressure Transmitter | 831TG1000LS | 1X821 | 295.00 | 0.8 |
| 0 to 3000 | Pressure Transmitter | 831TG3000LS | 1X823 | 295.00 | 0.8 |

## ISOLATED, AMPLIFIED OUTPUT PRESSURE TRANSDUCER

- General purpose industrial pressure transducer
- Media compatible with all 316 stainless steel wetted parts
- 5X burst pressure rating
- Accuracy (typ.): 0.25%
- Temperature compensated
- Rugged Ultem™ housing provides corrosion resistance
- Stable, solid state/industrial grade
- Amplified output (1-6V DC standard)
- Automotive-style packard connector

No. 1X873

### SPECIFICATIONS AND ORDERING DATA

| PSI Range | Gauge Type | AMETEK Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 0 to 25 | Pressure Transducer | SPT0025E | 1X873 | $230.00 | 0.2 |
| 0 to 50 | Pressure Transducer | SPT0050E | 1X875 | 230.00 | 0.2 |

| 0 to 3000 | Pressure Transducer | SPT3000E | 1X886 | 230.00 | 0.2 |

# PRESSURE AND VACUUM GAUGES

## 1½, 2, AND 2½" STANDARD PRESSURE AND VACUUM GAUGES

For Centrifugal Pumps, Air Compressors and Water Systems

No. 4X515
Back Connection

AMETEK

No. 4X512
Bottom Connection

- Phosphor bronze bourdon tube
- Brass socket
- Glass window on 2½"
- Plastic window on 1½ and 2"
- Galvalume Dial
- Aluminum pointer
- Painted steel case
- Ambient temperature 0° to 225°F

U.S. Gauge P-500K utility gauges provide economical, reliable service in a wide range of applications including pumps, compressors, and other equipment. Series P-500K utility gauges come in several ranges with accuracy of ±3-2-3%. Gauges are available in 1½", 2" and 2½" steel construction. General use with water, oil, air, and chemicals compatible with beryllium copper, phosphor bronze, and brass. Individually boxed. U.S. Gauge brand.

The P570K series is the same as P500K series except case is polypropylene with a cellulose acetate window. Available in back connection or lower connection.

*Measure it, record it, calibrate it — You'll get it right with Grainger.*

AMETEK

No. 1X571

No. 1X510

iel mount gauges can be flush mounted instrument panels, pressure test stands, am cleaners, sterilizers and many other es of equipment. Where a minimum of ice is available the 844 "U" clamp series desirable. All models utilize a unique e piece plastic threaded ring and win-w which can be removed, permitting in-iel pointer adjustment.

- Front flange is drawn steel case with three hole flange, black corrosion resistant paint
- U-clamp gauges are drawn steel case with studs, U-clamp and nuts, black corrosion resistant paint, furnished with two piece U-clamp and nuts, zinc plated
- Threaded, polycarbonate ring and window
- Aluminum, adjustable pointer with black finish
- Steel dial white background with black markings. Utilizes the "zero band" concept where the zero graduation and numeral are replaced with a band representing the total accuracy tolerance at zero
- 3-2-3% Accuracy
- Brass connection

## PRESSURE GAUGE CONNECTION SPECIFICATIONS

tional Pipe Thread (NPT) connections measure larger than y are described. This chart shows the connection name and actual measured outside dimension of the connection.

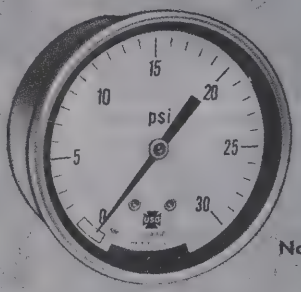
| Connection Size (In.) | Nominal Outside Measurement (In.) |
|---|---|
| 1/8 NPT | 0.405 |
| 1/4 NPT | 0.540 |
| 1/2 NPT | 0.840 |
| 3/4 NPT | 1.050 |
| 1 NPT | 1.315 |

## A NATIONWIDE NETWORK OF BRANCH LOCATIONS

ross the street or across the country, finding the Grainger branch location nearest you is a snap when you reference our anch Locations listed in the front of this catalog. We have more than 350 locations, ready to serve you in all 50 states.

# LIQUID FILLED PRESSURE AND VACUUM GAUGES

## SERIES 559L 2½" LIQUID FILLED PRESSURE GAUGES



Use with water, oil, air, and chemicals compatible with beryllium copper and brass.

- **Stainless steel case and crimped ring**
- **Polycarbonate window**
- **Phosphor bronze or Beryllium copper bourdon tube**
- **1/4" ANPT Brass connection**
- **±3-2-3% accuracy**
- **Glycerin-filled to dampen pulse and vibration**
- **Ambient temperature 40° to 160°F**

**No. 5A046.** Panel Mounting Kit for Series 559L back connection gauges. Contains bracket and bolts. Shpg. wt. 0.2 lbs. Each ..... **$4.20**

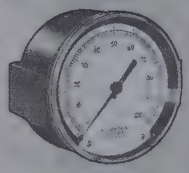
## MECHANICAL CONTRACTOR'S LEAD GAUGE

AMETEK

No. 1X734

The Series 5105 contractor's gauge is designed for a wide variety of industrial applications, but is especially suited for heating and air conditioning systems. Rugged gauge case is made of aluminum to provide the protection needed in corrosive atmospheres.



- 4½" size
- Aluminum case with blowout grommet, black finish
- Aluminum pointer, adjustable, black finish
- Steel dial, white background with black markings
- Acrylic window
- Precision geared brass movement
- Phosphor bronze bourdon tube
- 1/4" ANPT, LM, brass connection
- ±1½-1-1½% of span accuracy (exceeds Grade A ANSI-ASME B40.1)

| PSI Range | Smallest Graduation (PSI) | Ametek Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 0-30 | 0.2 | 5105 | 1X726 | $16.00 | 0.6 |

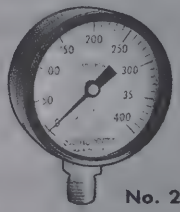
| 0-300 | 2 | 5105 | 1X734 | 16.00 | 1.0 |
| 0-1000 | 10 | 5105 | 1X736 | 16.00 | 1.0 |

## GENERAL PURPOSE RECEIVER GAUGES

Receiver gauges specifically designed for use with pnuematic transmission of process variables. The most commonly used transmission range is 3-15 PSI. Lowest value of variable measured creates 3 PSI pressure, highest value 15 PSI pressure. Pressure readings indicated with a dial calibrated for variable being measured. Receiver gauges provide a graduation arc of 270° for 3-15 PSI, or a 12 PSI span; and 25 PSI maximum input pressure.

AMETEK

No. 1X475



- Black finish, steel case (back connected with U/Clamp)
- On 2½" gauge threaded, polycarbonate ring and windo
- On 3½" acrylic, beveled window, brass, threaded, black finish ring
- Brass plates, pinion, arbor, link screw, sector, link, and minimum stop movement
- Phosphor bronze bourdon tube
- ±1% of span accuracy (.12 PSI) over middle half of scale Balance of scale is ±2% of span (.24 PSI)
- Dial has 3-15 PSI on outside and inner scale marked in terms of process variable

| Process Variable Range | Ametek Model | Stock No. | Each | Shpg Wt. |

# AMMONIA REFRIGERANT, LIQUID FILLED, AND FILTER REPLACEMENT GAUGES

## 2½ AND 3½" AMMONIA REFRIGERANT GAUGES

AMETEK

No. 1X469

- Drawn steel case black corrosion resistant paint
- Threaded, polycarbonate ring and window
- Aluminum pointer, adjustable, black finish
- Steel dial, white background with black markings. Refrigerant temperature scale in red.
- Glasstuf® movement with glass filled nylon link and stainless steel link rivets
- 316 stainless steel, soft soldered bourdon tube
- Smallest graduation 10" / 5PSI

Steel gauges are usually installed in ammonia refrigerant systems. These gauges can also be used to handle other chemicals not injurious to wetted parts. The unique Glasstuf® movement greatly extends gauge life, particularly on tough services like ammonia compressors. Temperature equivalent scale in red provides easy analysis of refrigeration systems.

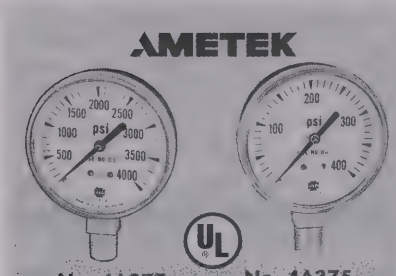
## FILTER REPLACEMENT GAUGE/INDICATOR

ASHCROFT®



No. 2C492

- Indicator is red-lined at 15 to 60 PSI
- ±3-2-3% full scale accuracy
- ABS case
- 1/8" NPT back connection compound
- Filter replacement indicator
- Brass socket and tube
- Polycarbonate window
- 2" diameter open face dial
- Ashcroft brand
- Enables operator to tell when filter gauge/indicator canister needs replacing

| Pressure Range PSI | Smallest Graduation (PSI) | Ashcroft Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| 60 | 1 | 20W1005PH | **2C492** | $22.25 | **$8.74** | 0.2 |

# WELDING, REFRIGERATION, BOILER AND SPRINKLER SYSTEM GAUGES

## 2" WELDING AND REGULATOR GAUGES

- Drawn polished brass case and threaded ring
- Polycarbonate window
- Phosphor bronze bourdon tube
- 1/4" Lower male brass socket
- ±3-2-3% accuracy
- High pressure gauge is UL Listed for compressed and LP gas service; cleanliness in accordance with Level IV ANSI B40.1
- High pressure gauge used on tank side to measure cylinder pressure; low pressure gauge used "downstream" of regulator to measure regulated pressure

| PSI Range | Smallest Graduation (PSI) | Gauge Type | AMETEK Model | Stock No. | | List | Each | Shpg. Wt. |

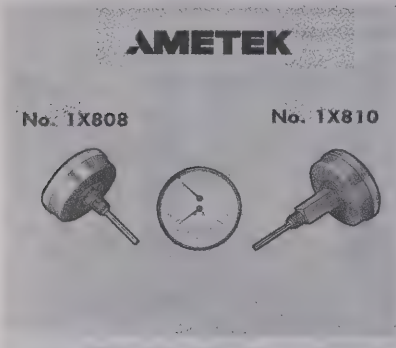
(*) Nos. 4A373, 4A374, 4A375, and 4A376 are UL Listed (UL 252A).
(†) No. 4A377 is UL Listed (UL 404).



## 2½" REFRIGERATION MANIFOLD GAUGES

- Ashcroft brand
- ABS case and threaded window
- Bronze tube
- For cooling systems or service manifolds
- Patented silicone dampened spring suspended movement
- 1/8" NPT male lower connection
- Polycarbonate window, removable
- Front zero set
- R12, R22 and R502 refrigerant scales
- Brass socket with restriction screw to provide dampening during pressure surges

| PSI Range | Smallest Graduations (PSI) | Case Color | Ashcroft Model | Stock No. | List | Each | Shpg. Wt. |

## BOILER GAUGES

Series 1088K utility gauges are especially constructed to withstand conditions normally encountered in domestic hot water heating systems, and are ideal for installations where mounting space is limited.

- Combination pressure and temperature range
- Brass socket and movement
- Corrosion resistant painted steel case
- Short or long 1/4" NPT center back mount shank
- One piece threaded polycarbonate ring and window
- Steel dial, white background with black markings
- 0 to 75 PSI pressure range. Smallest graduations 5 PSI
- 60 to 320°F (20 to 160°C). Smallest graduations 10°
- Helical bi-metallic temperature element enclosed in a brass bulb
- ±3-2-3% of span pressure accuracy; ±3% of span temperature accuracy

| Gauge Type | Shank Type | Shank Length | AMETEK Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| **Boiler** | Short | 7/8" | PT-1088K | **1X808** | $46.00 | **$17.90** | 0.4 |
| **Boiler** | Long | 1⅝" | PT-1088K | **1X810** | 53.00 | **20.70** | 0.5 |

## 3½" SPRINKLER SYSTEM GAUGES

- Black Xenoy® case
- Threaded, polycarbonate window
- Brass movement
- Phosphor bronze, soft soldered bourdon tube
- 1/4" ANPT LM, brass connection
- ±3-2-3% of span scarce (applies to retard portion). Accuracy at maximum indicated retard pressure is ±3% of that pressure

Factory Mutual System approved and listed by the Underwriters' Laboratories for use on wet or dry sprinkler systems. No. 1X746 retarded "air" gauge is used on the sprinkler head side of the control valve in dry system to accurately monitor line air pressure to 250 PSI upon system activation. No. 1X748 is used on the water supply side of the system to indicate available source pressure. On a wet system where water is available to the sprinkler heads at all times, only No. 1X748 should be used to monitor total system pressure before and during activation.

| PSI Range | Smallest Graduations (PSI) | AMETEK Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **0-80*** | 1 | R1590K | **1X746** | $78.00 | **$17.50** | 0.6 |
| **0-300** | 5 | P1590K | **1X748** | 71.00 | **15.50** | 0.6 |

(*) Retarded to 250 PSI.

**PLACE YOUR ORDER TODAY!**

*Measure it, record it, calibrate it — You'll get it right with Grainger.*

## SOLFRUNT 1919 4½" LOW PRESSURE PROCESS GAUGES

**esigned for pressure measurements** as low as few inches of water, ıese gauges utilize a unique sensing element, composed of a ack of diaphragm capsules, each consisting of two plates con- ıured into a convex-concave configuration to nest into one ıother. This results in a low internal mechanism in extremely w pressure ranges. Calibration adjustments (scale shape and nearity) are made from rear of case without removing internals. he pointer is adjusted by removing the front ring and window.

- **Phenolic turret case (black) with glass-filled, threaded, polypropylene ring and plastic pressure-relieving back for stem or wall mounting**
- **Acrylic window**
- **Knife edged, micrometer adjustable, black finish pointer**
- **Aluminum dial with white background and black markings**
- **Heavy brass movement with "U" frame construction with nickel silver rocker arm on stainless steel pivots. Brass sector and nickel silver pinion operate on brass bearings.**
- **Minimum and maximum stops prevent segment and pinion disengagement**
- **Accuracy ±1% of span (Grade A)**

| Range | Smallest Graduations | AMETEK Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|

*) Measures vacuum 30" HG to 0.
**) Measures vacuum 30" to 0, plus pressure.

## SOLFRUNT 1980 4½" PROCESS GAUGES

**4½" Solfrunt gauge** with phosphor bronze internals. Calibration adjustments (scale shape and span) can be accompanied from rear of case without disturbing the gauge internals. Pointer adjustments are easily made by removing ring and window.

- **Pet turret case (black) with glass-filled polypropylene threaded ring and pressure-relieving back**
- **High-temperature acrylic window**
- **Anodized aluminum pointer, micro-adjustable with black finish**
- **Aluminum dial with baked white background and black markings**
- **Geared ARC-LOC® movement with components of corrosion resistant 300 series stainless steel. Movement can be removed for examination and cleaning without disturbing span and scale shape adjustments**
- **Phosphor bronze bourdon tube**
- **Brass lower connection, 1/2" ANPT**
- **Accuracy ±0.5% of span (Grade 2A)**

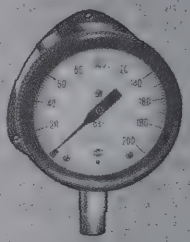
# PROCESS GAUGES AND DIGITAL PRESSURE METER

## SOLFRUNT 1901L 4½" LIQUID FILLED PROCESS GAUGES



Aluminum cased Solfrunt Series 1901 liquid-filled process gauges are designed to extend service life wherever corrosive atmosphere and/or severe operating conditions (such as compressors, pulsating pumps, machine tool applications, etc.) affect the performance of standard gauges. The liquid effectively dampens mechanism and pointer oscillation and vibration while providing continuous lubrication and protection from corrosion for the gauge internals. A vent for atmospheric pressure and temperature compensation is standard.

- **Cast aluminum, back-flanged case with aluminum bayonet ring, black finish; BUNA-N "O" ring-sealed, pressure relieving back**
- **High temperature acrylic window**
- **Anodized aluminum pointer with black finish**
- **Aluminum dial with baked white background and black markings**
- **Phosphor bronze bourdon tube**
- **Brass connection, 1/2" NPT, std.**
- **Standard liquid fill is glycerin**
- **Accuracy ± 0.5% of span (grade 2A)**

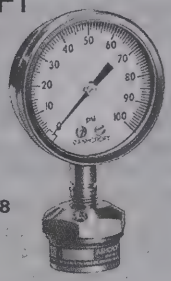
EXTECH INSTRUMENTS

No. 3JD01

## EXTECH PRESSURE METER

- **Heavy-duty pressure meter**
- **Measure or monitor up to 30- psi (0.1 psi resolution)**
- **Includes 316 stainless transducer, 1/8" NPT fitting, and 40" cable**
- **Dual display of value and engineering units (PSI, Bar, mm of Hg, Inches of H20 or Atmospheres)**
- **Accurate to 0.25% of FS +1 digit**
- **Records Max., Min. and Average**
- **Use with data logger 1M160 or windows software 3ZH85**
- **Includes: pressure transducer, holster, 9V battery, and instructions**
- **AC Power Adapter available use 3ZH67**



**No. 3JD01.** Shpg. wt. 1.5 lbs. List $525.00. Each.....**$499.00**

# INDUSTRIAL PRESSURE GAUGES WITH DIAPHRAGM SEALS

## INDUSTRIAL PRESSURE GAUGE WITH MINI DIAPHRAGM SEAL

- 1% full scale accuracy
- 316SS Bourdon tube
- Polished stainless steel case
- Polycarbonate lens
- 2½" dial size
- Designed to protect pressure gauge from corrosion, plugging or freeze up
- 1/4" NPT lower connection socket
- Polycarbonate window
- Compact size to fit confined areas
- Patented spring suspended movement
- Glycerin filled seal
- All-welded 316SS construction to prevent process leaks

## SANITARY INDUSTRIAL PRESSURE GAUGE

- Ashcroft brand
- 2½" & 3½" dial size
- 1½" & 2" Triclamp* process connection
- All stainless steel construction
- Diaphragm seal filled with 99.5% USP grade glycerin
- Meets 3A Standard 37-01
- 1.5% full scale accuracy
- Electropolished process connection
- Patented spring suspended movement

ASHCROFT®

No. 2C618

### 2½" DIAL, 1½" TRICLAMP™ CONNECTION

| Pressure Range (PSI) | Smallest Graduations (PSI) | Ashcroft Model | Stock No.* | List | Each | Shpg. Wt. |

) Clamps not included.

## 4½" 1980 PROCESS GAUGE WITH SB STEEL EXPOSED DIAPHRAGM SEAL

lansfield & Green SB steel exposed diaphragm seals are protective devices designed to solate a Ametek Series 1980 Solfrunt Process Gauge from potentially damaging process ıedia.

- Upper and lower housing material of seal is carbon steel
- Seal connected to a Series 1980 Solfrunt Process Gauge No. 1X825
- Dry gauge; seal is filled with M&G Instrument Oil (30°F to 300°F)
- Accuracy: ± 0.5% of span (grade 2A)
- 1/2" NPT connection

AMETEK

No. 1X831

### 4½" 1980 PROCESS GAUGE WITH SB STEEL EXPOSED DIAPHRAGM SEAL

| Pressure Range (PSI) | Smallest Graduations (PSI) | Seal Type | AMETEK Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| 30 | 0.2 | SB Steel Exposed | S1865-1 | 1X825 | $233.00 | $144.25 | 8.0 |

# PROCESS AND TEST GAUGES

## 4½" 1980 PROCESS GAUGE WITH SB STAINLESS STEEL DIAPHRAGM SEAL

Mansfield & Green SB stainless steel diaphragm seals are protective devices designed to isolate an Ametek Series 1980 Solfrunt Process Gauge from potentially damaging process media.

- **Upper housing material of seal is carbon steel**
- **Lower housing material of seal is a 300 Series Stainless Steel**
- **Seal connected to a Series 1980 Solfrunt Process Gauge**
- **Dry gauge; diaphragm filled with M&G Instrument Oil (30°F to 300°F)**
- **1/2" NPT socket**

### 4½" 1980 PROCESS GAUGE WITH SB STAINLESS STEEL DIAPHRAGM SEAL

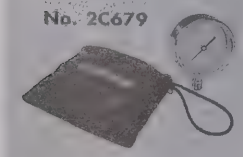
## ASHCROFT®

## PRESSURE INSTRUMENT TEST GAUGES



Test gauges can be used as a transfer standard for periodically checking the accuracy of pressure instruments or as a laboratory instrument for research and test lab. Widely used for process application where high accuracy in pressure measurement is essential.

- **Accuracy (typ.): ±0.25% full scale**
- **Stainless steel rotary design, Teflon™ (S) coated bearings, micrometer span adjustment, bi-metallic temperature compensator movement**
- **Stem or flush mounting, 1/4 NPT lower connection**
- **Features hinged steel ring and glass window**
- **Black aluminum pointer with red painted knife edged tip, friction adjustable and self-locking**
- **White coated aluminum dial with black numerals and polished mirror band**
- **Black epoxy coated aluminum case**
- **Exterior zero adjustment**
- **See ordering data below**

# PSYCHROMETERS AND RELATIVE HUMIDITY METERS

No. 2T703

No. 6T173

No. 3T811

No. 1M924

No. 1P124

No. 4JZ85

## PSYCHROMETERS

### TAYLOR No. 2T703

**Sling-type psychrometer for relative humidity measurement, range of 10 to 100%. Temp. range from 20 to 120°F**
**Weather bureau type wet/dry bulb thermometers**
**Self-contained case, slide rule design, pocket-size**

| Liquid | Taylor Model | Stock No.[2][3] | Each | Shpg. Wt. |
|---|---|---|---|---|
| Mercury | 1330 | 2T703 | $75.00 | 0.4 |

### BACHARACH Nos. 6T173 and 6T174

**Sling-type psychrometers determines % relative humidity over the range of 10 to 100%. Temp. range from 25 to 120°F**
**Built-in slide rule calculator correlates wet and dry bulb thermometer indications for direct reading of RH**
**1-piece construction prevents "fly-away" and requires no assembly prior to use**
**Highly portable; when not in use, thermometer case telescopes into handle for protection**
**Dual range (high and low temperature) for better resolution**
**Available with either red spirit filled tubes (No. 6T173) or mercury filled tubes (No. 6T174)**

| Liquid | Bacharach Model | Stock No.[3] | Each | Shpg. Wt. |
|---|---|---|---|---|
| Red Spirit | 12-7012 | 6T173 | $65.95 | 0.5 |
| Mercury | 12-7011 | 6T174 | 66.95 | 0.5 |
| **REPLACEMENT THERMOMETERS** | | | | |
| Red Spirit | 12-0266 | 6T175 | 25.00 | 0.1 |
| Mercury | 12-0267 | 6T176 | 26.50 | 0.1 |

### ERTCO Nos. 3T811, 3T812 and 3T813

**Sling-type psychrometer for relative humidity measurement, range of 10 to 100%**
**No assembly required, compact one-piece construction**
**Temperature range from 20 to 120°F except for No. 3T812 with temperature range of -5 to 50°C**
**Complete slide rule scale on one side**
**One-piece wick and water well assembly**
**Dimensions: 8¼H x 1¼W x 5/8"L**

| Liquid | ERTCO Model | Stock No.[3] | Each | Shpg. Wt. |
|---|---|---|---|---|
| Mercury | PS100F | 3T811[2] | $48.20 | 0.2 |
| Mercury | PS100C | 3T812[2] | 48.20 | 0.2 |
| Red Spirit | PS100FS | 3T813 | 48.20 | 0.2 |

[3] These products are covered by OSHA Hazard Communication Standard, and Material Safety Data Sheets (MSDS) are available. See page opposite inside back cover.

### EXTECH RELATIVE HUMIDITY 4-20MA TRANSMITTER

- **Transmits 4-20mA signal to remote devices such as panel meter and controllers**
- **Provides direct reading 10 to 95% RH measurement**
- **4-wire configuration for loop provides 3% measurement accuracy**
- **Includes banana plugs, probe with 36" cable, and 9V battery**
- **Uses vinyl carrying case No. 1H152**

Relative Humidity 4-20mA Transmitter. Extech brand (445604)
**New No. 4PC64.** Shpg. wt. 0.6 lbs. List $159.00. Each ..... $159.00

## RELATIVE HUMIDITY METERS

### AMPROBE DIGITAL HYGRO-THERMOMETER No. 1P124

- **Temperature range from –10 to 50°C ±1°C or 14 to 122°F with ±1°F**
- **Relative humidity from 5 to 95%; accuracy ±3% @ 25°C from 10 to 90% RH; ±5% all other ranges**
- **Min./Max. memory, data hold**
- **Auto power OFF after 20 min.**
- **80 second response time is typical**
- **Includes 2 "AAA" batteries, sensor cover with pocket clip, and instructions**

**No. 1P124.** Amprobe brand (TH-2). Shpg. wt. 0.3 lbs.
Each ..... $59.85

### AMPROBE POCKET HYGRO-THERMOMETER No. 1M924

- **Humidity range 0 to 100%; accuracy ±3% of reading**
- **Temp. range –10 to 50°C ± 1°C; 14 to 122°F ± 1°F**
- **Responds within 80 seconds**
- **Measures and displays wet bulb temperature or dew point**
- **Data hold, auto power OFF, and Min./Max. recall**
- **Includes pocket clip, 2 "AAA" batteries, protective cap and instructions**

**No. 1M924.** Amprobe brand (THWD-1). Shpg. wt. 0.3 lbs.
Each ..... $99.85

### DWYER THERMO HYGROMETER No. 4JZ85

- **Displays 0 to 100% humidity with ±2% accuracy and 0.1% resolution**
- **Integral probe provides field flexibility for measurements in ductwork or open environments**
- **Measures temperatures from -20 to 185°F (-30 to 85°C) at ±1°F (±0.5°C) accuracy and 0.1° resolution**
- **Low battery indicator, auto off, min/max, dewpoint, wet bulb and hold, backlit display**
- **Stores up to 25 readings in memory for later analysis**

**No. 4JZ85.** Dwyer brand (485-2). Shpg. wt. 3.0 lbs.
Each ..... $299.50

# RELATIVE HUMIDITY METERS AND THERMOHYGROMETER

## COOPER No. 6T444

- Measures relative humidity, calculates wet bulb temperature and differential temperature between probes 1 and 2
- –40° to 300°F with temp. probes
- Accuracy (typ.): ±0.3°F or ±0.5% of reading
- Humidity range 10 to 95%
- Accuracy (typ.): ±2% from 20 to 80% relative humidity (RH)
- Accuracy (typ.): ±3% from below 20% and above 80% RH
- Humidity probe temperature range 0° to 130°F
- Backlit display for dark environments; auto shut-off for extended battery life; sealed membrane touch pad
- Scan mode stores data until function is stopped
- Annunciators for over range, under range, battery discharged, and clear Min/Max memory

**No. 6T444.** Cooper brand (SRH77A). Shpg. wt. 2.0 lbs. Each ..... $299.75

## DICKSON No. 4PC72

- Range: –22° to 185°F (–30° to +85°C), 0 to 95% RH (non-condensing)
- Accuracy: temperature ±1.8°F (±1°C), ±2% RH from 0 to 60% RH, ±3% from 61 to 95%
- Large digital display, °F/°C switchable, min./max., hold key, low battery indicator
- Includes 1point NIST traceable certificate of calibration, 9V battery, carrying case and manual
- Stores and recalls 16 readings, including temperature, humidity and calculated dew point
- Smooth ergonomic body design

**New No. 4PC72.** Dickson brand (TH300). Shpg. wt. 1.0 lbs. Each ..... $389.00▲

### CALIBRATION KIT FOR No. 4PC72

**No. 3JG29.** Dickson brand (A834). Shpg. wt. 1.0 lbs. Each ..... $125.00▲

## KANE-MAY No. 3T331

- Instant humidity and temperature measurement
- 3 digit LCD display, low battery warning
- Integral hygropolymer capacitive humidity sensor and integral platinum RTD temperature sensor
- Measuring range: 0% to 98% RH; 32° to 160°F
- Accuracy: ±2% RH; 0.7% rdg. ±1°F
- Includes 9V alkaline battery

**No. 3T331.** Kane-May brand (KM8106). Shpg. wt. 1.0 lbs. Each ..... $395.00

## KANE-MAY No. 3T330

- Instant remote humidity and temperature measurement
- 3 digit LCD display
- Measuring range: 0% to 98% RH; 32° to 160°F
- Accuracy: ±2% RH; 0.7% rdg. ±1°F
- 1% RH sensor and temperature sensor located in detachable probe with 40" cord, wrist strap, 9V alkaline battery, and case

**No. 3T330.** Kane-May brand (KM8104). Shpg. wt. 6.0 lbs. Each ..... $670.00

## CHECK-IT SUPERHEAT-HUMIDITY SET No. 4KC12

- Accuracy: ±1% reading ±1 digit (-100 to 212°F), ±2% range ±1 digit (212 to 500°F), ±2% (0 to 100% RH)
- Resolution: 1°F/1% RH
- Instruction for three methods of measuring superheat, built-in humidity and ambient temperature sensors
- 3 Sensor jacks read 3 locations and differentials between them
- Includes meter, 9V battery, No. 4KC13 probe, No. 4KC14 probe, No. 4KC15 probe, No. 2T346 probe, three velcro straps, wet bulb/dew point calculator, and carrying case

**No. 4KC12.** Check-It brand (0628). Shpg. wt. 3.0 lbs. Each ..... $190.00

## HANNA PRINTING AND LOGGING THERMOHYGROMETER No. 4KF39

- Logging capacity: Stores up to 8,000 readings in memory—scroll on the LCD or download to a PC
- Download using cordless infrared transmission to No. 4KF40 RS 232 receiver
- Prints sample #, date, time, printing interval, RH, and °F
- Relative humidity: 5.0 to 95%; Temperature: -4 to 140°F
- Accuracy: ±2% full scale
- Includes No. 4KF31 (RH Probe), 4KF36 (Temp. Probe), carrying case and instructions
- Printer uses plain, non-fading paper (No. 4KF33)
- Uses 4 AA batteries (not included)

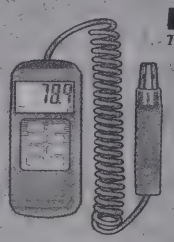
**No. 4KF39.** Hanna brand (HI91610F). Shpg. wt. 4.3 lbs. Each ..... $730.00

### ACCESSORIES FOR No. 4KF39

**Relative Humidity (RH) Probes.** Thin-film polymer capacitance. Rapid response and high accuracy. Screw-type connector. No. 4KF31 has 7 ft. (2m) cable. No. 4KF32 has 16.5 ft. (5m) cable.

**No. 4KF31.** Hanna brand (HI70604/2). Shpg. wt. 1.2 lbs. Each ..... $205.00

**No. 4KF32.** Hanna brand (HI70604/5). Shpg. wt. 1.2 lbs. Each ..... $250.00



**Thermistor Probe.** For air and liquid applications. Stainless steel with white handle. Temperature range: -58 to 302°F. Accuracy: ±0.4°F. 7 ft. (2m) cable.

**No. 4KF36.** Hanna brand (HI762L/2). Shpg. wt. 0.5 lbs. Each ..... $50.00

Includes 2 temperature and 1 humidity probe

# HYGROMETER, WATERPROOF THERMOMETER, AND COOKING THERMOMETERS

## EXTECH HEAVY DUTY HYGRO-THERMOMETER No. 1M942

- Accuracy (typ.): ±3% RH, ±1.5°F, ±0.8°C
- Rugged dual display for temperature and humidity
- Fast response using thin film capacitor sensor over 10 to 95% RH range
- °C/°F switchable 32° to 140°F (0-60°C) to 0.1°
- Thermistor sensor for temperature
- Compatible with Data Logger No. 1M960 and software No. 3ZH85
- AC power adapter available, use No. 3HZ67
- Max./Min. and Avg. readings
- Includes holster, 9V battery, remote probe (36" cable), and instructions

**No. 1M942.** Extech brand (407445).
Shpg. wt. 1.4 lbs. Each..... $199.00

## EXTECH RELATIVE HUMIDITY ADAPTER No. 1M926

- Turns any digital multimeter with a 200mV DC range into a relative humidity meter
- Measures relative humidity from 15 to 90% with ±4% accuracy
- Includes 9V battery, 54" connecting cord and instructions

**No. 1M926.** Extech brand (445602).
Shpg. wt. 0.7 lbs. Each..... $99.00

## HANNA EITH® WATERPROOF ELECTRONIC THERMOMETER No. 4KF25

- Easy-to-read LCD
- Temperature range: -58 to 338°F ±2°F accuracy
- Waterproof ABS case protects against dust and humidity
- Manual single-point calibration through trimmer
- Stainless steel probe
- 4 watch type batteries provide 700 hours of continuous use

**No. 4KF25.** Hanna brand (ELTHWPF).
Shpg. wt. 0.3 lbs. Each..... $37.45

# COOKING THERMOMETERS

## TAYLOR GRILL THERMOMETER No. 4JZ19

- 1⅝" dial
- Stainless steel case with magnetic back, safety spring handle

## TAYLOR HIGH TEMPERATURE THERMOMETER No. 4JZ20

- 2" dial with 15" stem
- Tempered glass crystal, pan clip with splash guard

## TAYLOR CANDY THERMOMETER No. 4JZ13

- 2¾" dial with 6" stem
- Heavy-duty stainless steel
- Adjustable pan clip, preset indicator
- Dishwasher safe. NSF Listed

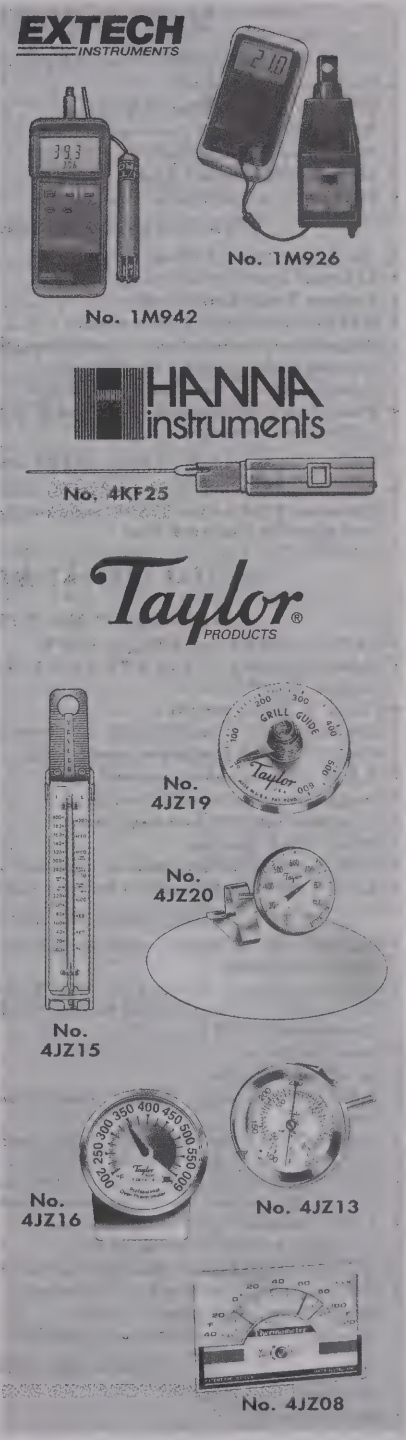
## TAYLOR CANDY THERMOMETER No. 4JZ15

- Heavy-duty stainless steel
- Also used for deep fry applications
- Insulated handle with pan clip
- Overall length 12"

## TAYLOR OVEN THERMOMETER No. 4JZ16

- 3" dial with bold color graphics
- Tempered glass crystal; stainless steel construction. NSF Listed

## TAYLOR COLD TEMPERATURE THERMOMETER No. 4JZ17



- 3" dial with bold color graphics
- Safe food storage zones for refrigerator and freezer
- Tempered glass crystal; stainless steel construction. NSF Listed

## TAYLOR MAXIMUM/MINIMUM THERMOMETER No. 4JZ08

- Compact design; 5¼ x 3½" plastic case
- Records present, highest, and lowest temperature
- For indoor use, wall or desk mount

## COOKING THERMOMETER ORDERING DATA

| Thermometer Type | Temperature Range (°F) | Taylor Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|

# 1" DIAL DIAMETER BIMETAL AND DIGITAL POCKET TEST THERMOMETERS

## BI-METAL MODELS

### A ASHCROFT Nos. 2A625 and 2A626

- Accuracy (typ.): ±1%
- External recalibration adjustment
- 304 stainless steel case and 5" stem
- Polycarbonate window
- Hermetically sealed case
- Protective polyethylene clip-sheath

### B TAYLOR Nos. 2T694 and 2T695

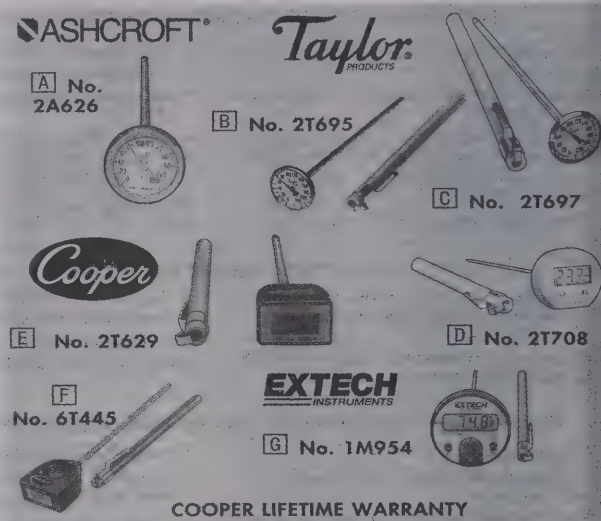
- Accuracy (typ.): ±1% of range
- External recalibration adjustment
- Unique 3-point calibration
- 304 stainless steel construction
- Polycarbonate window, 5" stem length
- Unique high visibility dial layout
- Dampened coil for shock protection
- Protective polyethylene clip-sheath with molded-in calibration wrench

### C TAYLOR Nos. 2T696 and 2T697

- Accuracy (typ.): ±1% at midpoint, ±2% at scale ends
- Same as 2T694 and 2T695 with single point calibration and glow-in-the-dark dial

## DIGITAL DISPLAY MODELS

### D TAYLOR No. 2T708



- -58° F to 302°F or -50°C to 150°C
- Accuracy (typ.): -58 to 13°F ±3.6°F, 14 to 221°F ±1.8°F, 222 to 302°F ±3.6°F
- °F or °C select switch
- Resolution: 0.1° to 199.9°F, 1°F from 200° to 302°F
- On/Off switch lengthens battery life
- 4.75" stainless steel pointed stem
- Large, easy-to-read LCD display
- 1 second update/fast response
- Non-rolling design
- Clip sheath provides stem protection, usable as a holder
- Extra 1.5V watch/camera battery included

### D TAYLOR No. 2T710

- Range: –58° to 500°F, –50° to 260°C, widest industry range available
- Accuracy (typ.): -58 to 13°F ±3.6°F, 14 to 221°F ±1.8°F, 222 to 302°F ±3.6°F, 303 to 500°F ±5.0°F
- Resolution: 0.1°F
- Recalibratable
- Thermistor sensor
- Max./Min. memory button—saves readings when power is turned off
- Can be left on indefinitely for min/max recording, manual instant off or 6 to 7 minute auto-off
- On/Update frequency select button displays in 1 to 2 second or 10 second intervals; resets Max./Min. memory
- 4.75" stainless steel pointed stem
- F/C slide switch located on side
- Clip sheath provides stem protection, usable as a holder
- Ribbed, plastic casing for secure grip
- Non-rolling, streamlined design
- 1.5V watch/camera battery installed

### E COOPER No. 2T629

- Accuracy (typ.): ±2°F
- Resolution: 0.1°F

**COOPER LIFETIME WARRANTY**

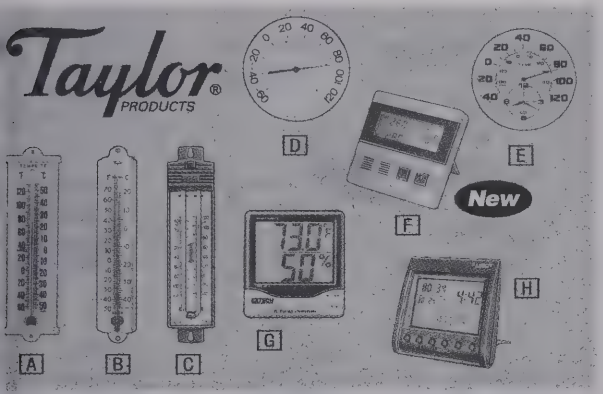
Cooper warrants Nos. 2T629 and 6T445 for life of the product. Text of warranty available on request. See "Manufacturers' Warranties" on page opposite inside back cover.

- Easy reading convenience of 5/16" digital LCD display
- Fast response
- Auto shut-off with instant update
- 304 stainless steel stem; 5" length
- 1.5V silver oxide watch battery installed and polypropylene clip-sheath

### F COOPER No. 6T445

- Flat case to better fit in shirt pocket
- 5/16" high LCD display with 0.1°F resolution
- Stainless steel stem
- Auto shut-off
- Instant update button
- Supplied with 1.5V silver oxide battery and protective pocket sheath with clip

### G EXTECH No. 1M954



- Accuracy (typ.): ±1°C/± 2°F
- Resolution: 0.1° (to 199.9°); 1° (over 200°)
- Wide °C/°F Switchable Measuring Range: –58° to 302°F; –50° to 150°C
- 0.4" LCD display, 2" diameter dial head
- 5" stainless steel thermistor probe
- On/Off switch saves battery life
- Includes plastic protective sheath, pocket clip, and button style battery

# WALL MOUNT AND DESKTOP THERMOMETERS, HUMIGUIDE, AND HYGROMETERS

### A UTILITY WALL THERMOMETER

White aluminum back, 9¼" long
Non-toxic liquid fill, °F and °C scales

### B COLD ROOM THERMOMETERS

Readable in poor lighting
Non-toxic liquid fill, °F and °C scales

### C MAXIMUM-MINIMUM THERMOMETER

Registers high and low readings from last setting
Push button or magnet reset
Plastic case, °F and °C scales

### D DIAL THERMOMETERS

12" (No. 3T194) or 18" dial (No. 3T195)
All metal construction with plastic crystal
Outdoor and indoor use
No. 3T194 large blue outer Fahrenheit and black inner Celsius scale
No. 3T195 white outer Fahrenheit and black inner Celcius scale

### E TIME/TEMPERATURE COMBINATION THERMOMETER

Weather resistant construction for indoor or outdoor use

### F EXTECH RECORDING THERMOMETER CLOCK

Records indoor & outdoor Max/Min temperatures with date-time stamp

- Case with built-in stand and wall mount brackets
- Indoor measurements from 14 to 122°F (-10 to 50°C)
- Outdoor measurements from -40 to 176°F (-40 to 80°C)
- Switchable °C/°F with ±1° accuracy and 0.5° resolution
- Includes outdoor temperature sensor with 79" (2m) cable, and three 1.5V (AAA) batteries

### G EXTECH BIG DIGIT HYGRO-THERMOMETER

- 1" digits on super large LCD displays %RH and temperature simultaneously
- Max/Min memory recall of temperature and humidity plus reset function
- Measurement ranges: 14 to 140°F (-10 to 60°C) and 10 to 99% RH
- Switchable °C/°F with ±1° (1.8°F) / 5% RH accuracy
- Dimensions: 4.3 x 3.9 x 0.78"
- Includes built-in tilt stand, wall mount bracket and battery

### H EXTECH HYGRO-THERMOMETER CALENDAR/CLOCK

- Large LCD displays %RH, temperature, time, date, monthly calendar, and clock alarm
- Portable desk- or bench-top unit displays numeric week, day, and month
- Alarm clock features 4 minute snooze function
- Measurement ranges: 14 to 140°F (-10 to 60°C) and 20 to 90% RH
- Switchable °C/°F with ±1° temperature and 5% RH accuracy
- Includes built-in stand, case, and two SG13 batteries

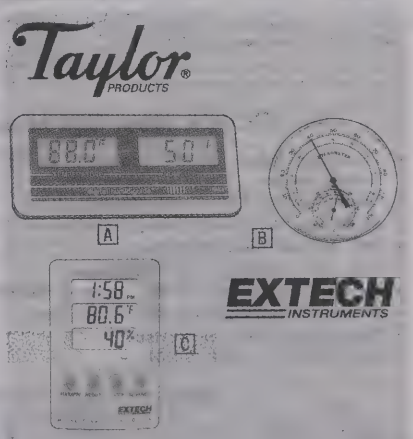
❷ These products are covered by California Proposition 65. California purchases or shipments, see first page of Grainger Branch Listing or call any California branch.

❸ These products are covered by OSHA Hazard Communication Standard, and Material Safety Data Sheets (MSDS) are available. See page opposite inside back cover.

### A DIGITAL HUMIDIGUIDE®

Temperature range –58° to 158°F; relative humidity range 20 to 95%
Accuracy: humidity ±5% from 35% to 75% at 25°C ± 0.5°C; temperature ± 3.6°F from –58°F to 122°F
Large, 1/2" digits for easy reading
Built-in desk stand and keyhole slots for desktop or wall locations
Includes 1 "AAA" size battery
No. 1TC16. Taylor brand (5566). Shpg. wt. 0.2 lbs. Each.....$70.00

### B TAYLOR DIAL HYGROMETER



Precision dial hygrometer
Direct reading of percent relative humidity from synthetic hair hygrometer movement
Accuracy: humidity ±5%; temp ±2°F
Measures 10-90% RH scale with 10° to 130°F, –16° to 55°C thermometer
- 5" diameter steel case with chrome bezel and glass crystal

No. 2T701. Taylor brand (5565). Shpg. wt. 0.5 lbs. Each.....$80.00

### C EXTECH THERMO-HYGROMETER CLOCK

- Simultaneous display of time, temperature and humidity
- Selectable 12-hour clock with °F or 24-hour clock with °C
- Min and max memory for both temperature and humidity
- Measures -4 to 122°F (-20 to 50°C) with ±1.8°F (±1°C) accuracy; 25 to 95% RH with 6% accuracy
- Includes a built in stand, wall mounting bracket, and (1) AAA battery

No. 3ZH92. Extech brand (445702). Shpg. wt. 0.3 lbs. Each.....$29.00

# PANEL MOUNT TEMPERATURE MEASURING

## [A] TAYLOR DIGITAL DISPLAY THERMOMETERS

- Accuracy: ±2.0°F • Resolution: 0.1°F
- 0.5" LCD display; white polystyrene housing
- Panel dimensions: 2⅝W x 1⅜H x 1½"D
- Sensor diameter: 9/32", 10 ft. cable
- Air/immersion probe • 10 second update interval
- Requires "1.5V-AA" battery (not supplied). 3¾" metal flange (where supplied) used to mount thermometer to cabinet walls, or flush mount without flange

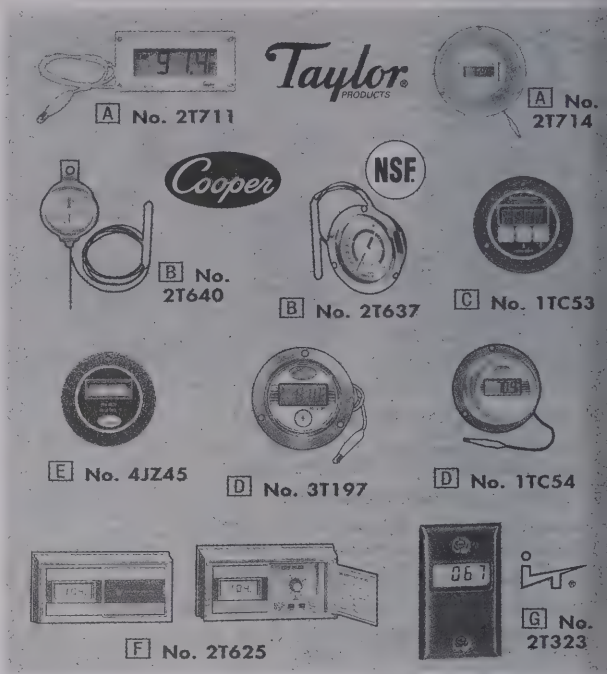
| Range | Flange | Taylor Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| –40 to 120°F | No | 9900 | 2T711 | $23.50 | 0.3 |
| –40 to 120°F | Yes | 9900-2 | 2T714 | 30.95 | 0.4 |
| 14 to 230°F | No | 9930 | 2T713 | 23.50 | 0.1 |
| 14 to 230°F | Yes | 9930-2 | 2T716 | 30.95 | 0.4 |

## [B] COOPER VAPOR TENSION–REMOTE THERMOMETERS

- Accuracy: ±2%
- 2" dial vapor tension–remote reading; can be recalibrated
- Color-zoned dual (F/C) scale dials; tin plated 48" capillaries with air/immersion probe
- Sensor dimensions: 2.2"L x 0.312" Dia. on Nos. 2T640 & 2T637; 3.6"L x 0.375" Dia. on Nos. 2T638 & 2T639
- Nos. 2T637, 2T638, 2T639 NSF listed

| Range | Mounting | Cooper Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| –40° to 60°F; –40° to 15°C | "L" Bracket | 6642-06 | 2T640 | $25.40 | 0.5 |
| –40° to 60°F; –40° to 15°C | Front Flange | 6142-20 | 2T637 | 25.55 | 0.4 |
| –40° to 120°F; –40° to 50°C | Front Flange | 6142-13 | 2T638 | 32.65 | 0.4 |
| 40° to 240°F; 10° to 115°C | Front Flange | 6142-06 | 2T639 | 34.35 | 0.4 |

## [C] COOPER PANEL TEMPERATURE DISPLAYS



- Front flange mounted 2¹³⁄₁₆" molded case diameter
- Programmable high/low temperature points
- Audio/visual alarm
- Nos. 4JZ43 and 4JZ44 have SPST relay for external alarm
- Thermistor sensors not supplied. Order by calling Grainger Parts Operations 1-800-323-0620
- Display warnings: open probe, high/low temperature

| Temperature Range | Type | LED Display | Operating Voltage | Cooper Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| –40° to 300°F | Thermistor | 0.3" | 115V AC | PM200A61 | 1TC53 | $207.75 | 0.3 |
| | | | 115V AC | PM200A76 | 4JZ44 | 204.00 | 0.5 |
| | | | 12V DC | PM200A01 | 4JZ42 | 183.50 | 0.5 |
| | | | 12V DC | PM200A16 | 4JZ43 | 179.25 | 0.5 |

## [D] COOPER Nos. 3T197 and 1TC54

- Accuracy (typ.): ±0.2°F from -4° to 77°F or ±4°F over entire range
- Resolution: 0.1°F
- Stainless steel front flange mounts in 2" cut-out
- 39" sensor lead included
- 3½ LCD display, 0.5" high
- Battery operated, "1.5V" battery included
- 2" diameter high impact plastic lens
- Thermistor type air sensor
- No. 3T197 is NSF listed

| Range | Mounting Type | Cooper Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| –40° to 120°F | Front Flange | DM120 | 3T197 | $35.70 | 0.3 |
| –40° to 120°F | Back Flange | DM120S | 1TC54 | 37.85 | 0.4 |

## [E] COOPER No. 4JZ45

- Accuracy (typ.): ±2°F or ±2% of reading; whichever is greater
- Range: -40 to 999°F
- Bright, easy to read LED display
- 115V AC operating voltage
- Accepts Type K thermocouples

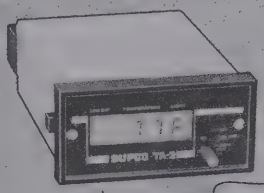
**No. 4JZ45.** Cooper brand (PM400K61). Shpg. wt. 0.1 lbs.
Each ..... $121.20

## [F] COOPER No. 2T625

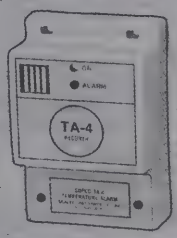
- Accuracy: ±1° • Resolution: 1°
- Range: –40° to 300°F (–40° to 150°C); thermistor based
- 3 digit LCD display °F/°C; Hi/Lo memory
- Monitors up to 12 remote locations up to 1000 ft. away by selector switch
- Requires 10KΩ thermistor probes (not supplied); order by calling Grainger Parts Operations at 1-800-323-0620
- Looks and mounts like a wall thermostat—beige, brown, and gold case; includes sub-base, ID stickers, and mounting hardware
- Requires 24V AC power at 150MA • Use transformer No. 3TZ67

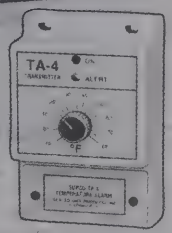
**No. 2T625.** Cooper brand (MP300). Shpg. wt. 1.0 lbs.
Each ..... $415.00

## [G] CHECK-IT No. 2T323



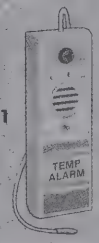
- Accuracy: ±1°F • Resolution: 1°F
- Range: –150° to 300°F; 3 digit, 1/2" high LCD display
- Mounts on standard 2" electrical box
- 1 reading per second; low battery indicator
- 3 ft. wire air/immersion probe included
- Modifiable to place sensor up to 1000 ft. away with 18-2 gauge thermostat wire such as No. 1W511
- Requires 9V battery (not supplied)





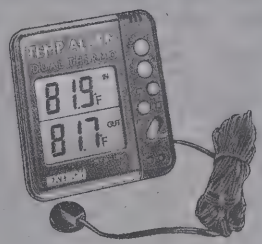
**No. 2T323.** Check-It brand (603). Shpg. wt. 0.3 lbs. Each ..... $65.9

# TEMPERATURE ALARMS



Supco

No. 3T186



No. 3T187

No. 3T188

No 4JZ60

No. 4JZ61

EXTECH INSTRUMENTS

No. 1M952

## SUPCO No. 3T186

- Alarm adjustment from −10° to 80°F
- Switch for temp rising or dropping
- Switch for alarm delay or no delay
- Light flashes for one hour before activating alarm
- Audible buzzer warning after 1 hour in delay mode, immediately in non-delay mode
- Remote connections: 120V AC, 5 amps activates with audible buzzer
- 120V AC operation; 6 ft. power cord
- Encapsulated sensor with 6 ft. cord
- Sensor wire can be extended with standard speaker wire (not supplied) up to 200 ft.
- 4⅞H x 3W x 1⅝"D

**No. 3T186.** Supco brand (TA-2). Shpg. wt. 0.8 lbs. Each.....$57.75

## SUPCO No. 3T187

- Alarm adjustment from −50° to 170°F
- Display blinks one hour before activating alarm
- LCD display of temperature
- Front panel switch to deactivate alarm; field select switch for rise or fall in temperature; field select switch for delay/no delay
- Supplied with locking arms for panel mount
- Remote connections: 120V AC, 0.1 amps
- 120V AC operation, "9V" battery backup (not supplied)
- Encapsulated sensor with 4 ft. cord. Can be extended to 1000 ft. using No. 6A852 thermocouple wire
- 1¹¹⁄₁₆H x 3⁹⁄₁₆W x 5⁹⁄₁₆"D

**No. 3T187.** Supco brand (TA-3). Shpg. wt. 1.8 lbs. Each.....$118.75

## SUPCO No. 4JZ61

- Alarm adjustment from −10°F to 80°F
- Slide switch for immediate alarm response or 1 hour delay
- Loud, audible alarm
- Automatic low battery beeper
- Encapsulated sensor probe with 6 ft. cord
- Fast one minute installation. Use adhesive pads provided or keyhole opening
- Sensor wire can be extended up to 100 ft. using standard speaker wire
- Uses standard "9V" battery (not included)

**No. 4JZ61.** Supco brand (TA-7). Shpg. wt. 0.5 lbs. Each.....$24.95

## SUPCO No. 3T188

- Sensing unit transmits signal to remote receiving unit
- Alarm adjustment from −10° to 80°F
- Switch for temperature rising or dropping
- Warning light flashes on transmitter above or below setting
- Audible buzzer warning on receiving unit after one hour or immediately
- Remote connections: 120V AC, 0.1 amps
- 120V AC operation
- Sensor has 6 ft. cord
- 4⅝H x 3W x 1⅞,"D

**No. 3T188.** Supco brand (TA-4). Shpg. wt. 4.5 lbs. Each.....$171.50

**No. 4JZ58.** Replacement Receiver. Supco brand (TA-4R). Shpg. wt. 1.0 lbs. Each.....$84.95

**No. 4JZ59.** Replacement Transmitter. Supco brand (TA-4T). Shpg. wt. 1.0 lbs. Each.....$84.95

## SUPCO No. 4JZ60

- Dual settings...warns of rising and falling temperatures
- For use in freezers, refrigerators, greenhouses and tropical aquariums
- Alarm variables from −10°F to 80°F
- Concealed "Delay" – "No Delay" alarm slide switch
- Remote alarm terminals
- Power "ON" indicator light
- Alert flashing warning light
- Audible alarm beeper
- 120V operation
- Encapsulated sensor with 6 ft. cord
- Probe wire can be cut in field and extended up to 200 ft. using any standard 22 gauge wire
- Remote alarm connections: screw type, 120VAC, 5 amp max. (dry contacts)

**No. 4JZ60.** Supco brand (TA6). Shpg. wt. 1.0 lbs. Each.....$89.95

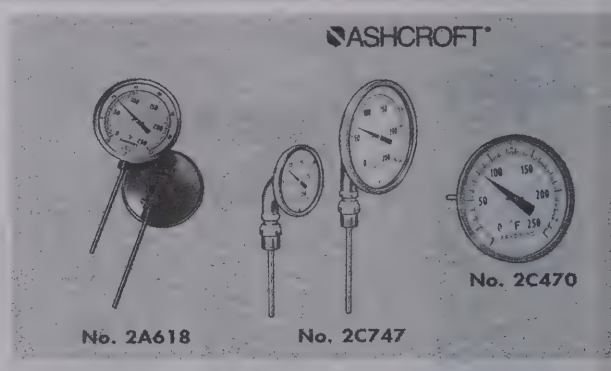
## EXTECH No. 1M952

- Indoor/outdoor temperature alarm
- Accuracy (typ.): ±2.5°
- Wide Measuring Range: −58° to 158°F
- Large 1.5" LCD display
- Single and dual pt. alarms
- Audible alarm alerts user
- Includes internal sensor, 10-ft. weatherproof external sensor with adhesive backing, built-in stand, "AAA" battery and wall mounting kit

**No. 1M952.** Extech brand (401012). Shpg. wt. 0.3 lbs. Each.....$19.00

# INDUSTRIAL DIAL THERMOMETERS

## BI-METAL 2" DIAL THERMOMETERS



- Ashcroft brand
- Single temperature scale
- 2" dial in stem lengths from 2½ x through 9"
- Back stem locations with 1/4" NPT connection
- Single scale maxivision dial to eliminate parallax
- Same features as 3" and 5" thermometers below

| Temp Range (°F) | Max.* Temp. (°F) | Stem Length | Ashcroft Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| 0 to 250 | 500 | 2.5 | 20E160R025 | 2C470 | $50.80 | $40.50 | 0.3 |
| 50 to 550 | 800 | 2.5 | 20E160R025 | 2C472 | 50.80 | 40.50 | 0.3 |
| -20 to 120 | 240 | 4 | 20E160R040 | 2C474 | 50.80 | 40.50 | 0.3 |

## BI-METAL 3" & 5" DIAL THERMOMETERS

- 2½, 4, 6, 9 and 12" stem lengths in a variety of temp ranges
- Connection locations on back, bottom, and EveryAngle™ with 1/2" NPT connection; stems are 1/4" Dia.
- Case rotation on EveryAngle™ models is achieved without need for pointer adjustment; dial can be rotated 360° and angled 180° (tipped to any side)
- Maxivision dial eliminates parallax by placing pointer on the same plane as graduations, allowing accurate temperature readings from any angle
- Dual scale dials in F° and C°
- Stainless steel cases and stems
- Cases hermetically sealed—prevent icing/fogging inside case
- Heavy-duty glass windows stay clear and, with maxivision dial, readings are precise
- Silicone on coil for superior time response and vibration dampening
- 1% FS accuracy with external adjustment for recalibration
- Thermowells available. Match stem length (4, 6, 9 and 12" models) with bore depth (dimension S)

*Measure it, record it, calibrate it — You'll get it right with Grainger.*

# 4½" INDUSTRIAL GAS-ACTUATED DURATEMP THERMOMETERS

- Ashcroft brand
- Unique direct drive bourdon tube silicone dampened to resist vibration and shock meets MIL-T-19646
- Mercury free inert gas-actuated
- No head or elevation error
- Zero adjustable
- High over range protection
- 300 stainless steel capillary and/or stem
- Thermowells available; see below
- Maxivision anti-parallax two-piece dial
- 1% full scale accuracy

# THERMOWELLS

Thermowells must be used on any application where the stem of a thermometer may be exposed to high pressure, corrosive fluids, or high velocities. Thermowells also allow instrument interchange and calibrate checks without interrupting the process. Use with Ashcroft thermometers above. Match bore depth (S) with stem length.

**Dimension Key**

S = Bore depth. Instrument element length includes threads
U = Shank length under threads.
P = Process connection NPT.
H = Hex size across flats.
B = Shank base diameter

## THREADED THERMOWELLS for Bimetals Thermometers—1/4" Nominal Bore

| Material | S (In.) | U (In.) | Dimensions P(NPT) | H (In.) | B (In.) | Ashcroft Model | Stock No. | Each | Shpg. Wt. |

# REFRIGERATOR/FREEZER AND INDUSTRIAL LIQUID THERMOMETERS AND SOCKETS

## TAYLOR DIAL REFRIGERATOR/ FREEZER THERMOMETER

- High visibility dial graphics
- Hang or stand; rotating case protected by shatterproof plastic crystal
- Temperature Range: –30° to 70°F with equivalent Celsius
- Stainless steel construction
- Meets National Sanitation Foundation specifications
- Food storage and freezing zone markings
- Dimensions: 2½ x 2¾"

**No. 1TC69.** Taylor brand (5923FC-10). Shpg. wt. 0.1 lbs. Each ..... $6.95

## TAYLOR FREEZE-GUIDE® THERMOMETER

- Stainless steel clips provide hang or stand use
- Range –40° to 80°F (–40° to 27°C)
- Shatterproof clear plastic lens
- Glass tube has non-toxic filling
- 4⅞ x 1¼"
- Meets NSF specifications
- Taylor brand (5925 F/C-10)

**No. 2T704.** Shpg. wt. 0.1 lbs. Each ..... $5.95

## H.O. TRERICE 9" SCALE CASES

- Adjustable angle and swivel
- Accuracy (typ.): ±1 scale division
- Coupling matches sockets listed below
- Die cast aluminum case; metallic blue black finish
- Red appearing mercury filled tube
- Clear acrylic window; Nos. 3T363, 3T364, 3T372, and 3T373 have glass window
- White background with black embossed scale markings
- 1⅛ x 18" straight thread
- Tapered bulb chamber to fit matched socket

| Temp. Range (°F) | Length (In.) Stem | Insertion | Scale Divisions | Window Type | H.O. Trerice Model | Stock No. ❷ ❸ | Each | Shpg. Wt. |

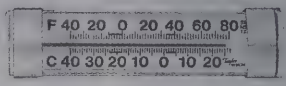
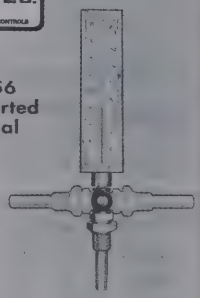
## TAYLOR OVEN THERMOMETER

- 2⅜" dial
- Temperature Range: 175° to 500°F
- Tempered glass crystal window
- Stainless steel construction
- Meets National Sanitation Foundation specifications
- Includes swivel case for stand or hang use

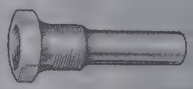


**No. 4JZ14.** Taylor brand (5931). Shpg. wt. 0.2 lbs. Each ..... $6.79

No. 4JZ14



No. 1TC69



No. 2T704

No. 3T356 Shown Inserted in Optional Socket

No. 3T374 Socket

*Measure it, record it, calibrate it — You'll get it right with Grainger.*

# THERMISTOR THERMOMETERS

**A** TAYLOR No. 3T917
- Accuracy: ±2.0°F
- Resolution: 0.1°
- Pocket size: 4½H x 2¼W x 11/16"D
- Switchable internal temperature sensor and external 34" extendable temperature probe
- Slide open cover for controls
- Includes 1.5V "AAA" battery
- Provides time and programmable High and Low temperature alarm limits within the 0° to 160°F range
- Built-in tilt stand and spring clip
- Selectable 1 or 10 sec. sampling period

**B** SUPCO No. 3T189
- Accuracy (typ.): ±0.2°F surface, ±1°F air
- Resolution: 0.1°F
- Probe senses air or surface temperature
- Reading hold
- Requires "9V" battery (not supplied)
- 6¼H x 1½W x 7/8"D

**C** COOPER Nos. 2T641, 2T619 and 4JZ46
- Accuracy: ±0.3°F or ±0.5% of reading
- Resolution: 0.1°F or °C
- No. 4JZ46 UL Listed Class 1, Groups C and D
- Backlit display easier to see in dark environments
- Sealed membrane touch pad; °F or °C selectable
- Hold button freezes reading; auto shutoff extends battery life; Min./Max. memory records highest and lowest temperature
- Annunciator for Low temperature, High temperature, and discharged battery
- General purpose insertion probe and case included.
- Nos. 2T641 and 4JZ46 include "9V" battery; No. 2T619 includes NiCad battery and recharger

**D** COOPER No. 2T618
- Accuracy: ±0.3° or ±0.5% of reading
- Resolution: 0.1°F or °C
- Measures up to three temperatures plus T1-T2 differential
- Backlit display easier to see in dark environments
- Sealed membrane touch pad; °F or °C selectable; auto shutoff extends battery life
- Min./Max. memory collects highest and lowest temperatures; scan feature stores Min./Max. data from all three probes
- Includes three interchangeable probes (air, surface, and insertion) and "9V" battery
- Built into moisture resistant polyurethane case with detachable cover
- Annunciators for overrange, under range, and battery discharged
- Auto shut-off for extended battery life

**E** COOPER PROVER KIT No. 4JZ39
- For checking calibration of thermistor thermometers
- Includes calibration box with connector cord

**No. 4JZ39.** Cooper brand (9315). Shpg. wt. 0.1 lbs. Each ..... $68.25

| Key | Type | Range* | Display | Probe Connector | Mfr. | Mfr's. Model | Stock No. | Each | Shpg. Wt. |

*) Instrument ranges shown span various probe types. The probe will determine the actual range.

# THERMOCOUPLE THERMOMETERS

## [A] COOPER No. 4TJ83

- For use in food processing plants, science labs, agriculture, and building maitenance
- Ergonomic, hand-held design
- Waterproof
- Sealed membrane keypad
- Field calibration
- Wall mount bracket
- -100° to 999°F/-73 to 537°C
- Quick response time
- Minimum 500 hours of "on time" battery life

## [B] COOPER No. 4JZ47

- Waterproof, suitable for wet and steam filled environments
- Sealed touchpad protects against spills and dust
- 3.25 x 5.62 x 1.5"
- Rugged polyethylene construction
- 9V DC NiCad battery runs about 50 hours on full charge
- Includes general purpose probe and battery charger

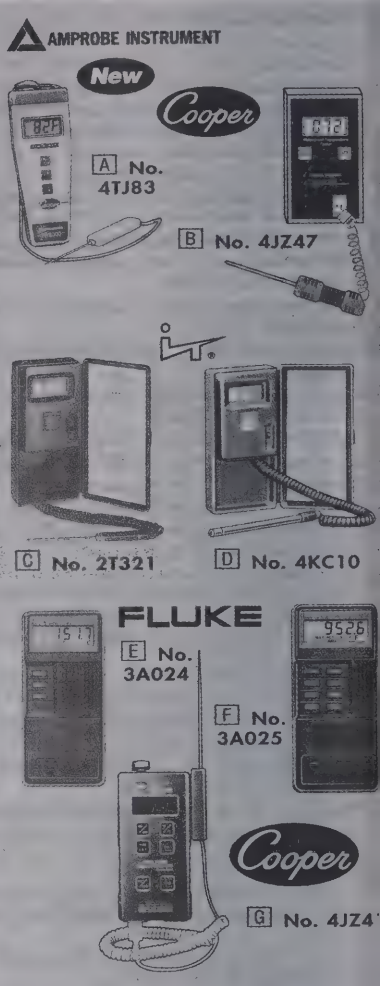
## [C] CHECK-IT No. 2T321

- Accuracy ±1% of reading ±1 digit (-100° to 1000°F) ±2% of reading ±1 digit full range (1000°F to 1999°F)
- Resolution: 1°F
- Sensitive 3-in-1 air, surface, liquid probe, retractable coil probe cord extends to 3 feet
- Black anodized aluminum housing built into high impact plastic case
- Annunciators for open probe, over-range and low battery
- Includes 9V battery and No. 2T348 3-in-1 probe

## [D] CHECK-IT STEAM TRAP TESTER No. 4KC10

- Accuracy: ±1°F of reading ±1 digit (-100 to 1000°F) ±2%°F of reading ±1 digit (1000 to 1999°F)
- Resolution: 1°F
- Quickly and accurately measures pipe temperatures at upstream and downstream sides of a steam trap
- Also measures welding preheat, interpass and postheat temperatures
- Increases efficiency and decreases energy loss
- Sensitive quick response, type K thermocouple, surface probe
- Includes meter, 9V battery, No. 4KC08 surface probe

## [E] FLUKE Nos. 3A024 and 1W559



- Accuracy: ±0.1% of reading +1.3°F
- Resolution: 0.2°F
- °F or °C select switch and data hold
- K or J-type thermocouple selectable
- 1 second per reading update
- Includes drop resistant case, 9V battery and K-type bead probe (No. 1T322); 1200 hour battery life
- CSA Certified (LR44340)
- Three year warranty; see "Manufacturers' Warranties" on page opposite inside back cover
- No. 1W559 same as No. 3A024 but NIST traceable calibration

## [F] FLUKE Nos. 3A025 and 3MC16

- Accuracy: ±0.1% of reading +1.3°F
- Resolution: 0.2°F (High) 1.0°F (Low)
- Same features as No. 3A024. Include 2 K-type bead probes (No. 1T322)
- Dual point or differential capability
- Min./Max. storage and view
- Scan mode and selectable resolution
- CSA Certified (LR44340)
- No. 3MC16 same as No. 3A025 but includes NIST traceable calibration

## [G] COOPER No. 4JZ41

- Accuracy: ±1°F or ±1% of reading
- Resolution: 0.1°F or °C
- Records temperature, time, and location; stores approximately 1000 data points
- Downloading feature allows data to be graphed and charted for review, analysis, or record-keeping
- Adhesive reader tabs for determining which locations will be monitored
- °F and °C selectable
- J, K, and T probes are attachable for one-hand operation
- Water resistant for wet environments, sealed keypad for easy cleaning
- Annunciators for over range, under range, battery discharged, and thermocouple type selected

- Includes 12 adhesive reader tabs, software, cable, 9V battery, and desk/wall bracket

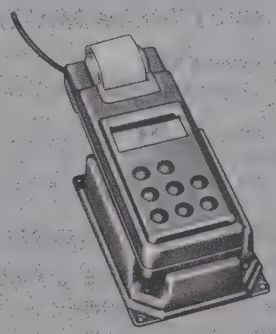
## EXTECH PRINTING THERMOMETER No. 4KC35 AND DATALOGGING THERMOMETER No. 4KC36



- Dual channel display T1, T2, or T1-T2 differential
- No. 4KC35 records Min./Max./Avg.; No. 4KC36 records Max./Min. and stores 5000 readings
- High/Low temp. alarm settings; real time calendar clock
- Go/No-Go digital signal outputs for control and automation
- Resolution to 0.2°F or 0.1°C
- Accuracy (typ.): ±0.1% +1.4°F (0.1% +0.8°C)
- No. 4KC35 includes: 6 AAA batteries, 2 rolls thermal paper, Go/No-Go mini DIN cable, carrying case and instructions
- No. 4KC36 includes: 6 AAA batteries, software, RS-232 interface cable, 9-pin to 25-pin adapter, Go/No-Go mini DIN cable and instructions

No. 4KC35

## HANNA THERMOCOUPLE LOGGING THERMOMETER No. 4KF41

- High resolution 4-channel datalogger
- Infrared data transfer system (using No. 4KF40) for downloading readings to your personal computer
- Accuracy: ±0.3% of reading or ±1°F
- Resolution: 0.1°F/1°F
- Logging intervals (min.): 1, 2, 5, 10, 15, 30, 60, 120, or 180
- Powered by 4 AA batteries
- Includes printer, carrying case and instructions
- Order probes on nearby pages

No. 4KF41

## ACCESSORIES FOR No. 4KF41

### INFRARED TRANSMITTER

- 25-pin RS232 connection
- For data transmission to your personal computer

**No. 4KF40.** Infrared Transmitter. Hanna brand (HI9200).

## EXTECH TYPE K AND DUAL J/K THERMOMETERS

- Super large 3½ (No. 4PC59) or 4½ digit (No. 4PC60) LCD (0.8") with resolution to 0.1°
- Rugged design with protective holster/stand
- Max and hold features (No. 4PC59); Max/Min/Avg, Relative mode, Hold, and Alarm (No. 4PC60)
- No. 4PC59 ranges from -58°F to 2000°F (-50°C to 1300°C)
- No. 4PC60 ranges from -328°F to 2498°F (-200 to 1370°C)
- Switchable °C/°F with basic accuracy of 0.3% (4PC59) and 0.05% (No. 4PC60)
- Watertight housing and backlit LCD (No. 4PC59)
- No. 4PC60 features two-channel (Type J or K) displays, elapsed time, and programmable HI/LO alarms
- Includes protective holster/stand, type-K temperature probe(s), and 9V battery
- Use case No. 1M940 (Not included)

***New*** **No. 4PC59.** Type K Thermometer. Extech brand (421500). Shpg. wt. 1.0 lbs. Each.....$89.00

***New*** **No. 4PC60.** Type J/K Dual Thermometer/Alarm. Extech brand (421502). Shpg. wt. 1.0 lbs. Each .....$119.00

## EXTECH RTD DUAL INPUT THERMOMETER

- Large 0.8" 4½ digit (19,999 count) LCD
- Displays two RTD channels, elapsed time and programming functions
- Accepts 100 ohm platinum RTDs with DIN connector for 3850 or 3926 alpha curves
- Measures and displays T1, T2, and T1 - T2 temperature functions
- Max/Min Avg, Relative mode, Data Hold, Alarm, and Auto power off functions
- Measures ranges from -58°F to 2000°F (-50°C to 1000°C)
- Switchable °C/°F with basic accuracy of 0.05%
- Programmable HI/LO alarms
- Rugged watertight housing
- Includes protective holster/stand, RTD probe, 9V battery

***New*** **No. 4PC61.** RTD Dual Input Thermometer with Probe. Extech Brand (421506). Shpg. wt. 1.2 lbs. Each.....$179.00

## EXTECH RTD THERMOMETER

- Large 0.5" 4½ digit (19,999 count) LCD display with Data Hold
- Accepts 4-wire 100 ohm platinum RTD with DIN connector (included)
- High, selectable 0.1/0.01° resolution with basic accuracy of ±0.1%
- Built-in fast responding linearity correction with 0.4 second sampling time
- Wide measurment range from -328.0°F to 1472°F (-199.99°C to 800.0°C)
- Switchable °C/°F with basic accuracy of 0.05%
- Includes RTD probe and 9V battery

***New*** **No. 4PC62.** RTD Thermometer. Extech brand (421708). Shpg. wt. 0.8 lbs. Each.....$299.00

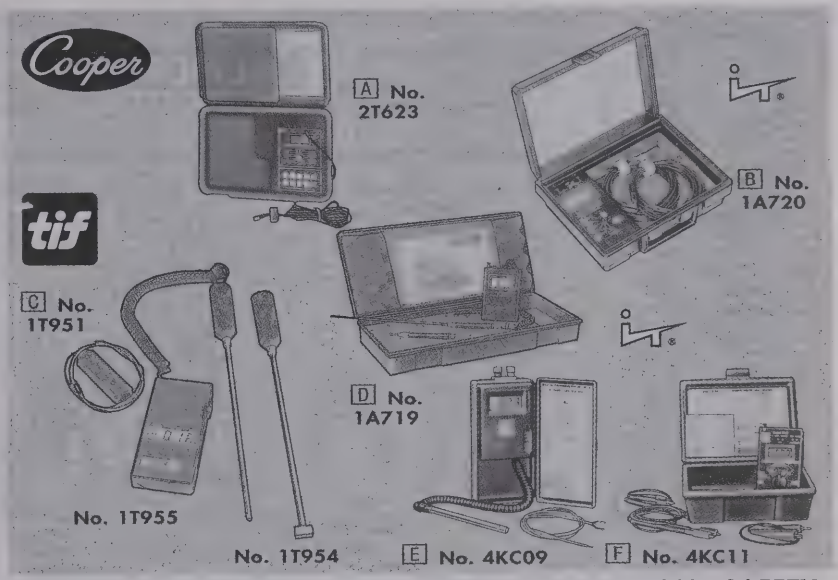
# THERMOCOUPLE THERMOMETERS AND SAFETY-FLAME CONTROL TESTER

## [A] COOPER No. 2T623

- Automatically calculates super heat–no chart needed
- Has Min./Max. of temperature and pressure for diagnostic readings
- High accuracy temperature ±0.3°F or ±0.5% of reading, Pressure ±1% full scale
- Pre-programmed with 16 of the most common refrigerants used currently
- Measures temperature, gauge pressure, and temperature differential (T1-T2)
- Auto shut-off, easy-to-read backlit numerals, pressure zero adjust
- Temperature in °F or °C; pressure in PSI, Bar, Kg/cm2
- Includes 6 "AA" batteries, surface probe, pressure probe, case and instructions

## [B] CHECK-IT No. 1A720



- Accuracy: ±1% of reading ±1 digit (–100°to 212°F) ±2% range ±1 digit full range
- Resolution: 1°F
- Superheat capability with full instructions for three methods of measuring super heat
- °C or °F selectable
- 3 inputs for interchangeable 15-foot color-coded sensors; provides 3 individual sensor temperatures plus A-B, B-C, and C-A differentials
- Includes 9V battery, (3) No. 2T343 15 ft. color-coded J-type wire sensors and (3) velcro attachment straps, dropproof molded case, and instructions

## [C] TIF Nos. 1T951 and 2T403

- Accuracy: ±1% (32° to 212°F) ±3% of full range
- Resolution: ±1°
- Type "K" thermocouple; telephone type cord and connectors
- Response time less than 1 second; 3 times/second display update
- Open probe and overrange indication
- Superheat capability with No. 2T403
- Switch selectable °F or °C
- Includes case, 9V battery, and three test probes
- No. 1T951 includes No. 1T954 air probe, No. 1T955 surface probe, and No. 1T956 immersion probe
- No. 2T403 includes No. 1T954 air probe, No. 1T955 surface probe, and No. 1T957 superheat probe
- Other probes available, see the Index under Temperature Probes

## [D] CHECK-IT No. 1A719

- Accuracy: ±1% of reading + 1digit (–100°F to 1000°F); 1001 to 1999°F ±2% of reading + 1 digit
- Resolution: 1°F

- Backlit display, probe storage well
- 1 second response, low battery indication
- Black anodized aluminum housing
- 1.5 update readings per second
- Kit includes thermometer, one No. 2T327 air probe, one No. 2T328 contact probe, 9V battery, and case

## [E] CHECK-IT No. 4KC09

- For high temperature oven testing
- Accuracy: ±1% reading ±1 digit (-100° to 1000°F) 1001 to1999°F ±2% reading ± 1 digit
- Resolution: 1°F
- Stainless steel band surface probe usable from -100° to 1200°F included; wire probes for -100° to 1999°F depending on insulation
- Simple instructions included to make your own wire probes to any length needed. Use No. 3HL41 through 3HL44 thermocouple wire (see Index for listing)
- Binding posts to connect type K thermocouple wire probes
- Includes meter, 9V battery, No. 4KC16 surface probe, and sample wire probe

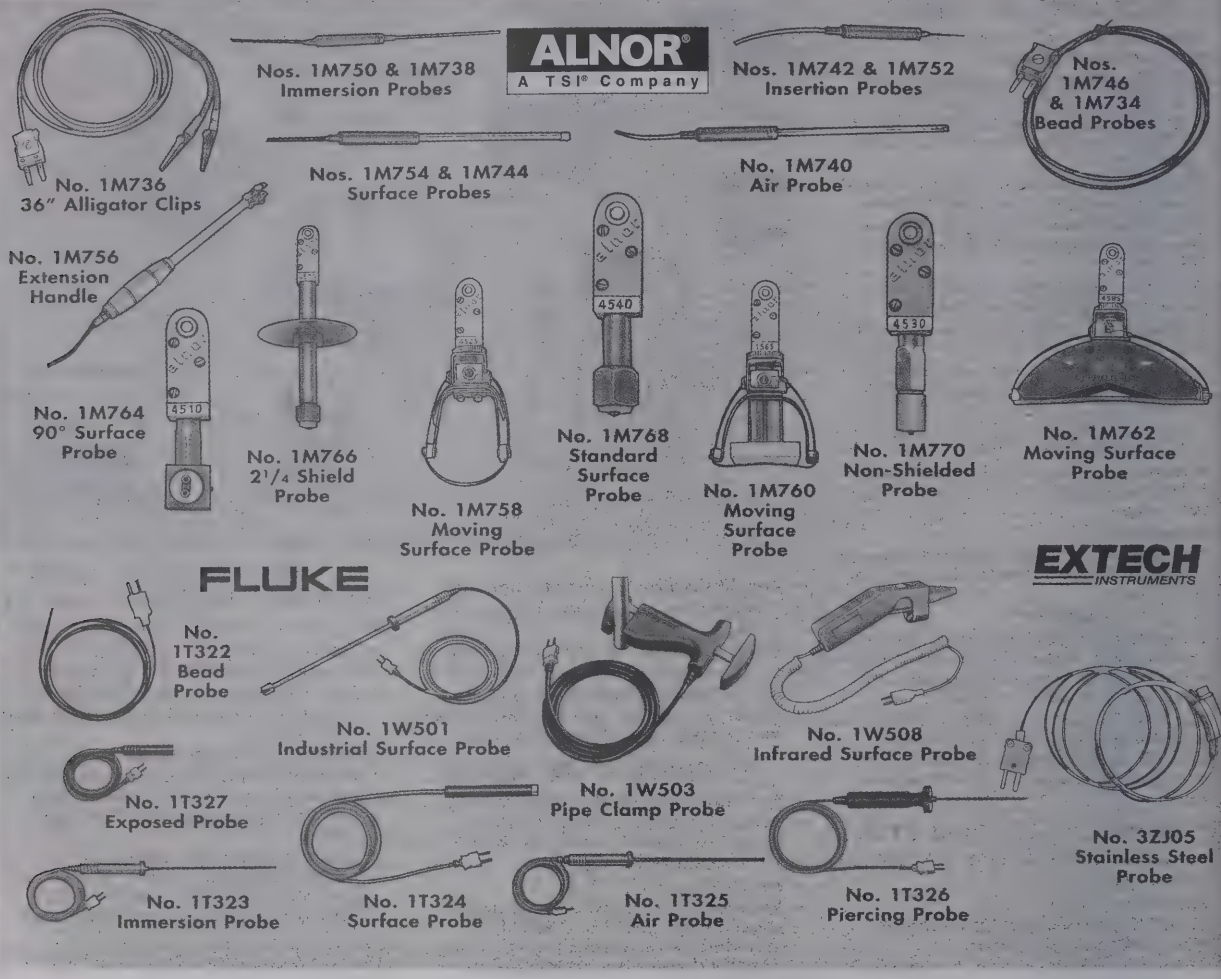
## [F] CHECK-IT FLAME SAFETY CONTROL TESTER No. 4KC11

- Accuracy: ±1/2% reading ±1 digit
- Full range digital multimeter, measures currents to 0.01 microamps
- For testing burner controls, flame safety controls, and intermittent ignition systems
- Audible continuity tester
- Equipped with protection circuitry to prevent burnout should the power line voltage be connected on any range
- Includes meter, 9V battery, No. 4KC17 test lead set, No. 4KC18 current plug cable, No. 4KC19 flame simulator cable, and carrying case

**No. 4KC11.** Flame Safety Control Tester. Check-It brand (0619). Shpg. wt. 2.1 lbs.
Each ..... $184.50

### ACCESSORIES FOR No. 4KC11

**No. 4KC17.** Test Lead Set. Check-It brand (1288). Shpg. wt. 0.2 lbs.
Each ..... $40.35



**No. 4KC18.** Current Plug Cable. Check-It brand (1290). Shpg. wt. 0.1 lbs.
Each ..... $33.75

**No. 4KC19.** Flame Simulator Cable. Check-It brand (1292). Shpg. wt. 0.1 lbs.
Each ..... $38.00

| Key | Type | Range* | Display | Probe Connector | Mfr. | Mfr's. Model | Stock No. | Each | Shpg. Wt. |

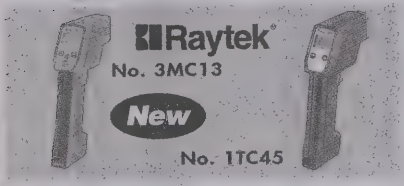
# INFRARED THERMOMETERS AND ACCESSORIES

## FLUKE INFRARED TEMPERATURE PROBES Nos. 6T607 and 4KD75

- DMM Compatibility—Any DMM with 10MΩ input impedance accepting .160" (4mm) diameter safety-shrouded test leads
- Temperature ranges: 6T607 0° to 500°F (–18° to 260°C), 4KD75 -32° to 1000°F (measures °F only)
- Internal selection switch for °F or °C (No. 6T607 only)
- Accuracy ±3% of reading or ±5°F (±3°C), whichever is greater
- 5" spot size at 20"
- Ambient operating range 32° to 150°F (0° to 260°C)
- Response time 1 second

**No. 6T607.** Fluke brand (80T-IR). Shpg. wt. 1.0 lbs. Each ..... $159.00

**No. 4KD75.** Extended Range Probe. Fluke brand (80T-IR/E). Shpg. wt. 1.0 lbs. Each ..... $195.00



## AMPROBE INFRARED SCANNING PROBE No. 5U776

- Check electrical connection by non-contact infrared probe
- Worked with almost any DMM
- Automatic emissity adjustment
- No battery needed—works off power from DMM
- Drop proof, completely sealed with no movable parts
- Field of view, 4:1
- Output signal on temperature rise
- Target temperature range: –50° to 1200°F (–46° to 650°C)

**No. 5U776.** Amprobe brand (IR100). Shpg. wt. 0.5 lbs. Each ..... $116.45

## RAYTEK RAYNGERS

**No. 1TC45:**

- Accuracy: ±1% or 2°F, whichever is greater
- Lightweight, hand-held with digital display
- 8:1 optical resolution
- F or C temperature display, switch selectable
- Emissivity fixed at 0.95
- Backlit display with On/Off switch
- Trigger actuated
- Includes 9V battery

**No. 3MC10:**

- Same features as 1TC45 but also includes hard carrying case

**No. 3MC11:**

- Same features as 1TC45 but also includes NIST Certified Calibration

**No. 4PD54:**

- Laser sighting for target pinpointing
- Accuracy: ±1% or 2°F, whichever is greater
- 8:1 optical resolution
- MAX Temperature (displayed simultaneously)
- Emissivity fixed at 0.95
- Tenth-degree display to 199.9F (or C)
- LCD backlit display
- Laser (Class II)
- C of F selectable
- Includes 9V battery, hard case and instructions

**No. 3MC13**

- Laser sighting for target pinpointing
- Accuracy: ±1% or 2°F, whichever is greater
- 8:1 optical resolution
- °F or °C selectable temperature display
- Max scan with audible buzzer (buzzer can be switched off)
- Recalls last reading (minimum/maximum, differential and average temperature calculation)
- Backlit display with on/off switch
- Audible and visual alarm for highes temperature sensed
- Emissivity 0.3 to 1.0 digitably adjustable
- Includes 9V battery, hard case and instructions

**Nos. 4TP88 and 4TP89:**

- 30:1 optics. Increases distance from target
- Accuracy: ±1% or 2°F, whichever is greater
- MAX, MIN, DIF and AVG temperatur
- Audible, visible and Hi/Lo Alarms
- Emissivity 0.3 to 1.0 digitally adjustable
- No. 4TP89 has NIST Certified calibra tion
- Tenth-degree display to 199.9F (or C
- LCD backlit display
- Laser (Class II)
- C of F selectable
- Includes 9V battery, hard case and instructions

## ST SERIES ACCESSORIES

Pouch Carrying Kit includes wrist strap, belt clip, and padded pouch with 2 belt loops, and built-in cable loop for holster.

**No. 1TC48.** Raytek brand (STACPK). Shpg. wt. 0.4 lbs. Each ..... $30.00

**Hard Case.** Water resistant, dustproof hard case that holds unit. Measures 9.6 x 6.6 x 2".

**No. 3MC15.** Raytek brand (STACHC). Shpg. wt. 0.5 lbs. Each ..... $30.00

# INFRARED THERMOMETERS

### RAYTEK RAYNGER® SERIES

**Nos. 4KM98 & 4TP76**
- New innovative circular laser
- 60:1 optical resolution
- Backlit display shows actual and maximum temperature, °F or °C switchable. Accuracy ±1%. Adjustable emissivity. High alarm is audible and visible; buzzer can be switched off. Lockable trigger
- Includes 2 "AA" batteries and carrying case
- No. 4TP76 includes NIST certified calibration

**Nos. 4KM99 & 4TP77**
- All features of No. 4KM98, plus:
- Digital (RS-232) and analog (1mV/degree) outputs
- Data logging of up to 100 points
- Time or date stamp
- Can display max/min, differential and average temperatures
- Inputs include J or K thermocouple, thermistor; as well as power
- Memory recall, high or low alarms
- No. 4TP77 includes NIST certified calibration

**Nos. 4KN01 & 4TP78**
- All features of No. 4KM99, plus:
- 100-point datalogging memory interface
- Specialized software which includes custom emissivity tables, help screens, graphs, tables, IR theory and glossary
- Temperature probe and computer cable
- Power supply (110V or 220V)
- No. 4TP78 includes NIST certified calibration

### ACCESSORIES

**No. 4TP79—Pouch and Carrying Kit**
- Soft pouch protects unit during transportation
- Easy to pack in with other tools

**No. 4TP86—Thermistor (NTC) Probe**
- Probe allows temperature measurement
- Metal tip is easy to insert
- Cleans up easily

**No. 4TP80—RS232 Interface Cable**
- Allows digital communications
- Facilitates downloading of temperature information
- Permits transfer up to 10,000 data points

**No. 4TP81—Printer Cable**
- Portable printer RS232 cable allows transfer of temperature data
- Works with all enhanced units
- 5-ft. long cable allows remote measurements

**No. 4TP82—Windows™ Software**
- Use for temperature analysis
- Allows table and graph creation
- Customized log locations alarms and emissivity for reports

**No. 4TP83—Printer Paper**
- Ideal for recording data

- Easy to read and store
- Sufficient supply for most applications

**No. 4TP84—Printer, Hardcase, Adapter & Cable**
- Portable printer provides temperature data
- Data format can be a single point of multi-points
- Each point is time and date stamped for accuracy

**No. 4TP85—Thermocouple K Probe**
- Ideal for surface temperature measurement
- Allows corrections for emissivity
- Sturdy and easy to use

**No. 4TP87—110VAC Adapter**
- Allows the use of 110 volt current for less wear on batteries
- Ideal for long term measurements

| Range | Spectral Response | Focus Spot Size & Distance | Repeatability | Response Time | Ambient Operating Range | Raytek Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|---|---|

## NON-CONTACT INFRARED THERMOMETER WITH PULSE LASER

- Temperature Range: -40° to +950°F, (-40° to +510°C)
- Accuracy: Less than 0° ±3°C, 0° to 510°C ±2°C; or 1% of reading less than +32°F ±4.5°F; +32° to 950°F ±3°F; or 1% of reading
- Large 1/2" digital display, °F/C° switchable
- Adjustable (Bright/Dark) emissivity Bright (.70), Dark (.95)
- Data hold of last reading for 20 seconds
- Field of View: 1" @ 10 in.
- Includes two AA batteries and instruction manual
- Pocket size design
- Offset pulse laser sighting method

*New* **No. 4TK90.** Dickson brand (D161). Shpg. wt. 1.0 lbs. List $279.00. Each....**$279.00▲**

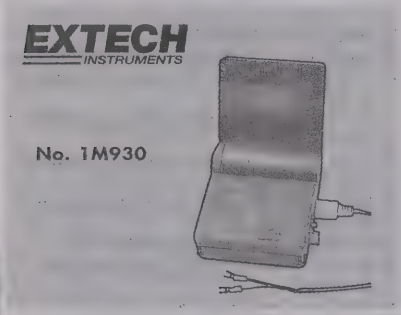
# THERMOCOUPLE THERMOMETERS AND CALIBRATORS

## THERMOCOUPLE CALIBRATION TESTERS

- **Instantly determines if measuring device needs calibration or sensor needs replacement**
- **Simulate Type J thermocouple ranges: 32°F (0°C); 212°F (100°C); 392°F (200°C); 752°F (400°C)**
- **Simulate Type K thermocouple ranges: 32°F (0°C); 212°F (100°C); 932°F (500°C); 1832°F (1000°C)**
- **Temperature accuracy: +(0.25% +1°C or F)**
- **Compact size fits into shirt pocket**
- **Includes calibration cable, carrying case, and 9V battery**



**No. 1H150.** Type J Thermocouple Tester, Subminiature Connector. Extech brand (41233J-P). Shpg. wt. 0.7 lbs. Each ..... **$99.00**

**No. 1H149.** Type J Thermocouple Tester, Spade Lug Connector. Extech brand (41233J-S). Shpg. wt. 0.7 lbs. Each..... **$99.00**

**No. 1H148.** Type K Thermocouple Tester, Subminiature Connector. Extech brand (41233K-P). Shpg. wt. 0.7 lbs. Each ..... **$99.00**

**No. 1H147.** Type K Thermocouple Tester, Spade Lug Connector. Extech brand (41233K-S). Shpg. wt. 0.7 lbs. Each ..... **$99.00**

## THERMOCOUPLE THERMOMETERS/CALIBRATORS

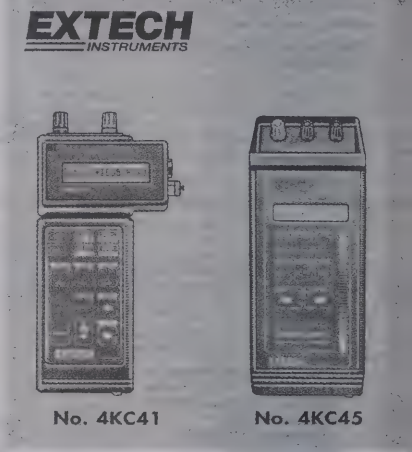
- **Calibrates and measures Thermocouple Types J, K, T, E, C, R, S, and N. Switches from °F/°C**
- **Accuracy (typ.): Microprocessor based for ±0.15% of reading ±1°**
- **Resolution: 0.1°/1° for J ,K, T, and E Types; 1° for C, R, S, and N Types**
- **Displays output in terms of millivolts or temperature based on thermocouple tables**
- **Bright 4-digit LED display built into adjustable cover**
- **Optional vinyl carrying case No. 1M966**
- **Includes copper calibration cable, "9V" battery, neckstrap and AC adapter/recharger**

**No. 1M930.** 115v Microprocessor Calibrator Thermometer. Extech brand (433201). Shpg. wt. 1.4 lbs. Each ..... **$299.00**

- **Calibrated for K-type thermocouple**

**No. 1M928.** Calibrator Thermometer with NIST Certificate. Extech brand (433201-NIST). Shpg. wt. 1.5 lbs. Each ..... **$404.00**

## EXTECH UNICAL CALIBRATOR SERIES



- **Precise single-function calibrators source or measure thermocouples, RTD**
- **Temperature ranges for 12 thermocouples (Nos. 4KC41 and 4KC42) from -202°F to 4172°F (-130°C to 2300°C)**
- **RTD temperature ranges for 8 types (Nos. 4KC43 and 4KC44) from -328 to 1562°F (-200 to 850°C)**
- **Membrane keypad and ABS plastic housing for rugged, shock-proof durability**
- **High contrast 16 character alphanumeric LCD for output, input and programming displays**
- **Quick-access fuse protection and slide-off battery compartment**
- **Gold terminals for banana plug or bare wire connection minimizes thermo-electric errors**
- **Programmable ramp time with memory**
- **Optional bi-directional RS-232 PC interface and software (No. 4KC48) see Index**
- **Includes batteries, case and instructions**

**No. 4KC41.** Unical Thermocouple Calibrator. Extech brand (423408). Shpg. wt. 2.2 lbs. Each ..... **$849.00**

**No. 4KC42.** Unical Thermocouple Calibrator with NIST Certificate. Extech brand (423408-NIST). Shpg. wt. 2.2 lbs. Each..... **$949.00**

**No. 4KC43.** Unical RTD Calibrator. Extech brand (423412). Shpg. wt. 2.2 lbs. Each ..... **$899.00**

**No. 4KC44.** Unical RTD Calibrator with NIST Certificate. Extech brand (423412-NIST). Shpg. wt. 2.2 lbs. Each ..... **$999.00**

## EXTECH PRECISION MULTIFUNCTION CALIBRATORS

- **2 Handheld, precise thermocouple, RTD, resistance and process (mV/mA) calibrators**
- **Source or measure on Nos. 4KC45 and 4KC46, simultaneously source and measure on Nos. 4KC49 and 4KC50**
- **13 Thermocouples, 3 RTD, (12 thermocouple, 2 RTD on Nos. 4KC49 and 4KC50) plus mV, mA and resistance**
- **16-Character LCD (2 line display with backlight on Nos. 4KC49 and 4KC50)**
- **Program and store 7 simulations with up to 60 values (1 simulation on Nos. 4KC49 and 4KC50)**
- **3 Non-isolated banana terminals (5 isolated on Nos. 4KC49 and 4KC50) or bare wire color coded connections**
- **Accuracy 0.03% declared for 1 year**
- **Optional bi-directional RS-232 PC interface with software (No. 4KC47)**
- **Includes AC adapter/recharger, NiCad batteries and leather case**

**No. 4KC45.** Extech brand (423901). Shpg. wt. 4.3 lbs. Each..... **$1699.00**

**No. 4KC46.** With NIST Certificate. Extech brand (423901-NIST). Shpg. wt. 4.3 lbs. Each ..... **$1849.00**

**No. 4KC49.** Extech brand (423940). Shpg. wt. 4.2 lbs. Each..... **$1899.00**

**No. 4KC50.** With NIST Certificate. Extech brand (423940-NIST). Shpg. wt. 4.2 lbs. Each ..... **$2049.00**

**No. 4KC47.** RS-232 Interface, Cable and Software. Extech brand (423923). Shpg. wt. 0.3 lbs.Each ..... **$199.00**

# ANSWERS TO THE MOST COMMON QUESTIONS ABOUT 2-WAY RADIOS

**Q: How do VHF and UHF Radios compare to Citizen Band and 49 MHz?**

| A: | UHF | VHF | 49 MHz Walkie Talkie | CB Citizen Band |
|---|---|---|---|---|
| Uses Commercial FM Channels | Yes (460 MHz FM) | Yes (150 MHz FM) | No (49 MHz FM) | No (27 MHz AM) |
| Talk Range Outdoors | 2 to 5 mile | 2 to 4 mile | 1/4 to 1/2 mile (Line of sight) | 1/2 to 1 mile |
| Talk In and Around Buildings | High Performance | Medium Performance | Low Performance (Line of sight) | Low Performance |
| Talk in Buildings with Many Floors | High Performance (Up to 15-30 floors) | Medium Performance (Up to 5-10 floors) | Low Performance (Line of sight) | Low Performance |
| Talk in Industrial Buildings | High Performance (Up to 250,000 sq. ft.) | Medium Performance (Up to 150,000 sq. ft.) | Low Performance (Line of sight) | Low Performance |
| Interference from Electrical | None | None | Some | Extreme Amount |
| Channels Shared With | Jobsite Business Users | Jobsite Business Users | Cordless Phone, Baby Monitor | Any Consumer |
| FCC License Required | Yes | Yes | No | No |

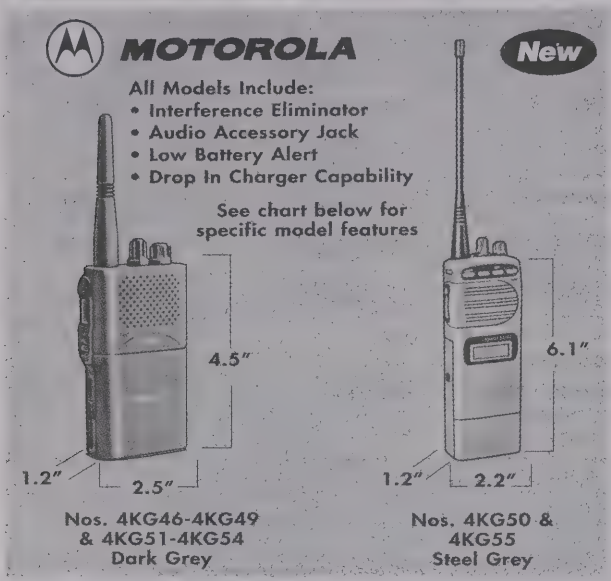
**Q: Do the VHF or UHF radios featured require a FCC license to operate?**
**A:** These radios do require a FCC license, consult the products owners manual, or contact the FCC information line at 888-225-5322 for additional information.

**Q: When do I use VHF or UHF?**
**A:** VHF and UHF frequencies offer similar range and coverage in most cases. However, UHF band radios are recommended for use in steel and concrete structures.

**Q: Which frequency should I use?**
**A:** If you are operating within a 75 mile radius of registered address, use local. If you are operating beyond a 75 mile radius, use itinerant.

**Q: How many radios can I use in my group?**
**A:** You can have as few as 2 radios or as many as you want. As long as you are on the same channel and in range of each other, you will be able to communicate.

**Q: What is "Coded Squelch" and "Quiet Call"?**
**A:** When this feature is added to each of your radios, all your radios will communicate with each other while electronically ELIMINATING OTHER RADIOGROUP'S CHATTER. Also known as "Private Line".



**Q: How long will the rechargeable battery last?**
**A:** The battery should last about one year with normal 8-12 hour daily use. The battery lasts 8-13 hours on a single charge based on 90% standby, 5% transmit, and 5% receive. It takes 10 hours to completely charge battery while in radio, if radio is off.

**Some business applications will require complex equipment that is beyond the capabilities of the low cost, low power radios offered in this catalog. If your application is beyond the above requirements, contact the manufacturer.**

## NATIONWIDE BRANCH NETWORK WITH LOCAL ACCESS IS YOUR SHOPPING ADVANTAGE

Grainger's network of more than 350 local branches provides you nationwide access to our broad selection of product offerings. And with 30-minute "Will Call" service or 24-hour shipping on in-stock items, help is as close as a phone call away. Check the Branch Locations listed in the front of this catalog for the location closest to you.

# MOTOROLA SPIRIT PROFESSIONAL 2-WAY RADIOS

Nos. 4KG46-4KG49 & 4KG51-4KG54 Dark Grey

Nos. 4KG50 & 4KG55 Steel Grey

**Motorola's Spirit Two-Way Radios** are the ultimate communication tools for your application. With more features and frequencies, these radios are specifically designed to increase the productivity and flexibility of work group operations.

**Motorola's Spirit Features: (see chart below for specific model features)**

**Multiple Channels:** Great for separate work groups; allows you to easily communicate between different groups within your company by turning a knob on the top of the radio.

**Selectable Frequencies:** Choose from up to 9 frequencies for 1 watt VHF models, 6 frequencies for 2 watt VHF models, and 8 frequencies for 2 watt UHF models.

**Channel Scan:** Don't miss any conversations. Hear voice transmissions on different channels without manually switching channels.

**Hands Free:** Keep your hands free with voice activated transmission by using headset w/swivel boom mic No. 6T485 or earpiece w/mic No. 6T486. **Models without Internal Vox require the use of No. 6T487 VOX adapter. See page 399.**

**Multi-functional LCD Screen:** Know at a glance your channel, signal strength, low battery alert and much more.

**Voice-assisted Programming:** Audio messages tell you the frequency and interference eliminator code settings.

**Interference Eliminator (PL)/Coded Squelch:** Blocks out uninvited channel chatter.

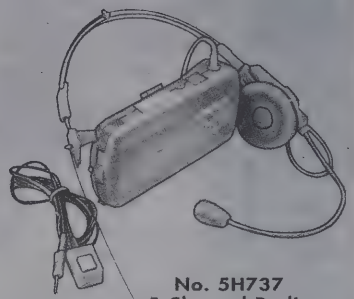
# 49 MHz HANDS-FREE 2-WAY RADIOS



- Voice activated (VOX) radios provide hands-free operation. Transmit as you talk; stop talking and you receive
- Can be switched to manual "push-to-talk" transmission
- Average outdoor range between 1/4 to 1/2 mile. Range indoors will be reduced depending on structure
- Adjustable headset holds boom microphone, earphone, and antenna
- Low battery indicator. Nos. 5H598 and 5H599 use two "AA" size batteries. No. 5H737 uses three "AA" size batteries
- No. 5H737 has an additional remote "push-to-talk" switch and has a helmet adaptable headset

**Note:** Communication must be made on same type channel. For example, those communicating on Channel A models cannot communicate to those communicating on Channel E models. Maxon brand. Batteries not included.

OLYMPUS

SUPPLIER DIVERSITY

Woman-Owned Business

- Durable, 200 denier nylon fabric meets government standards
- Stars are embroidered; stripes are sewn with two rows of lock stitching
- Fly-end of flag is finished with four rows of lock stitching
- Canvas header and two brass grommets

**OLYMPUS 90-DAY LIMITED WARRANTY**

Olympus warrants U.S. Flags for 90 days. Text of warranty available on request. See "Manufacturers' Warranties" on page opposite inside back cover

## U.S. FLAGS

**Recommended flag size:** Width of the flag should be approximately 25% of flag pole height.

**Longevity:** Government standards indicate that a nylon flag will last approximately 90 days, based on daily usage during daylight hours, but not during periods of inclement weather. Tests have shown that in some cases a flag flown 24 hours a day will last only one fourth as long as a flag flown during daylight hours only. Regular maintenance will extend flag life.

**Maintenance:** Flags should be checked periodically and taken down for repair when the fly-end begins to tear. Rotating flags on a regular basis will allow for maintenance repairs extending the life of the flags. Olympus brand.

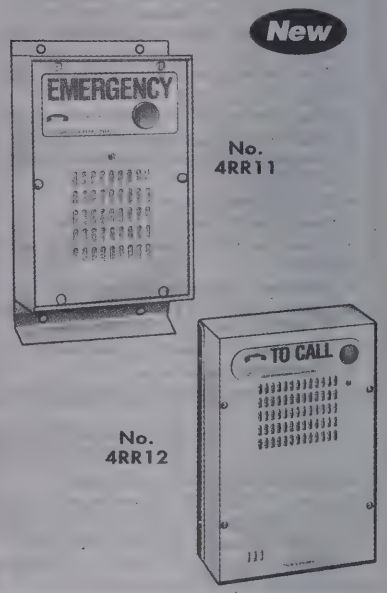
### ADA COMPLIANT ELEVATOR EMERGENCY PHONE No. 4RR11

- **Installs easily in standard elevator phone box**



### ADA COMPLIANT EMERGENCY/ACCESS PHONE No. 4RR12

- **For indoor or outdoor use**
- **Ideal for access control at gates, doors or any location where remote communication is needed**
- **Has auxiliary input and two outputs to permit connection to accessories such as CCTV, gate openers, and strobe lights**

**Both units provide easy installation** for new construction, or as a retrofit for existing properties to comply with the Americans with Disabilities Act (ADA). Features a built-in auto-dialer that calls a primary number and then calls a second number if the first one doesn't answer, or is busy. Once answered, these units automatically transmit a location identifier recorded message, which can be entered and/or changed by the administrator remotely via telephone.

**Operates on regular phone line or PBX.** Phone line powered to eliminate the need for battery back-up and/or an external power source.

## BOGEN SPEAKER SELECTION GUIDE

### SELECTING THE PROPER TYPE OF LOUDSPEAKERS

| Type of Area: | Type of Speaker: | Stock Nos. |
|---|---|---|
| Manufacturing areas | Horn loudspeaker | 5H805, 5H806*, 5H807 |
| Shipping docks | Horn loudspeaker | 5H805, 5H806*, 5H807 |
| Warehouses | Horn loudspeaker | 5H805, 5H806*, 5H807 |
| Office/Store (no ceiling mount) | Wall-mount loudspeaker | 5H809 |
| Office/Store (can mount in ceiling) | Ceiling loudspeaker | 4PD75, 4PD76** |
| Outdoors | Horn louddspeaker | 5H805, 5H806*, 5H807 |

(*) If system requires NO MORE than 2 horns, these 8 ohm models can be used. Connect them in parallel to the amplifier's 25 vct output.

(**) 4PD76 has integral volume control know; Model 4PD75 and 4PD76 sound better/provide conduit connection when installed with 4PD74 back box/enclosure

### DETERMINING QUANTITY OF LOUDSPEAKERS

| Type of Speaer/Stock No. | Coverage (Sq. Ft.) | Spacing |
|---|---|---|
| Horn speaker (5H805-5H806) | 5,000 | 50 ft. centers |
| Wall Mount (5H809) | 500 | 20 ft. centers |
| Ceiling speaker (8 ft.) 4PD75-76 | 250 | 16 ft. centers |
| Ceiling speaker (10 ft.) 4PD75-76 | 400 | 20 ft. centers |
| Ceiling speaker (12 ft.+) 4PD75-76 | 575 | 25 ft. centers |

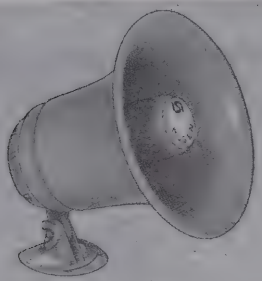
### DETERMINE PROPER AMPLIFIER TO USE

**Multiply power taps x number of each type of speaker = Total watts required**

| | 1-35 Watts | 1-60 Watts | 1-100 Watts | 1-150 Watts |
|---|---|---|---|---|
| Use Stock No. | 4PD78 | 4PD79, 5H800 | 5H799 | 4PD72 |

### DETERMINING POWER TAPPING OF SPEAKERS

| Type | Description | dB |
|---|---|---|
| Low | Quiet Office | 50 |
| | Hospital | 55 |
| | Hotel Lobby | 55 |
| | Doctor's Offfice | 55 |
| | Normal Conversation | 60 |
| Medium | Bank/Public Area | 65 |
| | Department Store | 65 |
| | Quiet Restaurant | 70 |
| | Noisy Office | 75 |
| | Shipping/Warehouse | 75 |
| | Supermarket | 75 |
| Med/High | Noisy Restaurant | 80 |
| | Assembly Line | 80 |
| High | Printing Shop | 85* |
| | Noisy Manufacturing | 85* |
| Very High | Machine Shop | 90* |
| | Construction Site | 100* |



(*) Consult with Bogen Applications Engineering - may be too loud to effectively cover with paging system.

| Type | Stock No. | Low Noise | Medium Noise | Med/High Noise | High Noise |
|---|---|---|---|---|---|
| Horn | 5H805<br>5H806 | .9 watt tap | 3.8 watt tap | 7.5 watt tap | N/A |
| Horn | 5H807 | N/A | N/A | 7.5 watt tap | 15 watt tap |
| Wall | 5H809 | 1/2 watt tap | 1 watt ap | N/A | N/A |
| Ceiling | 4PD75<br>4PD76 | 1/2 watt tap | 1 watt tap | N/A | N/A |

## A TALK-BACK SPEAKER

- For indoor/outdoor use; 8 ohm, 15 watt
- Dimensions: 6½" dia. x 6⅝" deep
- Bogen brand (IH-8A)

**No. 5H798.** Shpg. wt. 2.6 lbs. List $50.82. Each ..... $50.55

## B MATCHING TRANSFORMER

- 8 ohm/70V or 25V
- Power taps 4, 2, 1, 1/2, 1/4, 1/8 on 70V systems
- Small size 2⅜" by 1½"
- Color coded tap wires
- Flange mount

***New*** **No. 4PD77.** Shpg. wt. 0.5 lbs. List $9.95. Each ..... $7.55

## C PAGING SPEAKERS

- Indoor/outdoor use
- No. 5H806 is 8 ohm impedance type
- Nos. 5H805 and 5H807 are transformer type

| Power Watts | Power Taps @25V | Power Taps @75V | Bogen Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| 15 | 15, 7.5, 1.8, 0.94, 0.48 | 15, 7.5, 3.8, 1.8, 0.9 | SPT-15A | 5H805 | $82.72 | $81.70 | 4.2 |

## D WALL-MOUNT SPEAKER

- For indoor use; 1/8, 1/4, 1/2, 1, 2, 4 watt
- Includes 25/70V constant voltage line transformer
- Walnut vinyl with black grille
- Dimensions: 9½W x 11⅝H x 6⅝"D
- Bogen brand (WBS810T725)

**No. 5H809.** Shpg. wt. 4.9 lbs. List $40.46. Each ..... $36.95

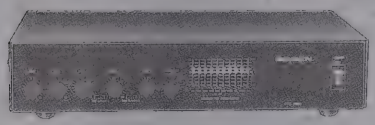
## E 70/25V CEILING SPEAKERS WITH GRILLE

- Steel ceiling grille finished in white semi-gloss enamel
- Includes 4-watt transformer for 70V & 25V audio systems
- 1/8 Watt through 4W power taps
- 70Hz - 15Khz frequency response
- Efficiency of 96dBspl (1 w)

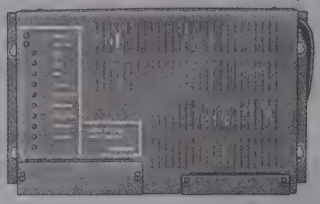
Eight inch ceiling speaker with transformer for connecting to 70V and 25V sound systems. Speaker has 10 oz. magnet with 1 inch voice coil. Speaker is pre-assembled onto grille. No. 4PD76 features volume control with knob mounted on grille. Bogen brand.

***New*** **No. 4PD75.** Ceiling Speaker with Grille. (S810T725PG8W). Shpg. wt. 5.0 lbs. List $38.50. Each ..... $28.15

***New*** **No. 4PD76.** Ceiling Speaker with Grille and Volume Control. (S810T725PG8WVK). Shpg. wt. 5.0 lbs. List $59.00. Each ..... $38.35



## F CEILING SPEAKER ENCLOSURE



High quality steel speaker backbox designed for 8" ceiling speaker installations. One-piece enclosure measures 9⅝" dia. x 4" deep. Includes integral mounting ring and foam insert to reduce metallic resonance. Sound absorbing inner liner. Finished in rust-resistant black primer. Bogen brand.

***New*** **No. 4PD74.** Shpg. wt. 2.0 lbs. List $23.00. Each ..... $16.56

# PA AMPLIFIERS, TELEPHONE PAGING, AND ZONE PAGING UNITS

No. 5H813

## PUBLIC ADDRESS AMPLIFIERS

- **Up to 5 input signals; output 8-16 ohms or 25 VAC or 70 VAC constant voltage**
- **For background music, use AM/FM tuner No. 5H801**
- **Dimensions: 3¾H x 16¼W x 12¾"D**
- **UL Listed (E15903); CSA Certified (LR64890)**

| Output Watts | Bogen Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| **60** | CTS1060 | **5H800** | $527.21 | **$492.50** | 19.0 |
| **100** | CTS1100 | **5H799** | 601.29 | **577.50** | 22.0 |

## MIXER/AMPLIFIER

- **7 Inputs – 4 Mic, 1 Aux, Mic/Tel and Mic/Aux**
- **4, 8-ohm, 25V, 70V outputs**
- **Dual function 10-band graphic equalizer**
- **Voice-activated Aux muting on Tel input**
- **Aphex® Aural Exciter for improved intelligibility**

Dual function equalizer allows for either sound shaping or feedback control. Aphex Aural Exciter circuitry improves the intelligibility of announcements. UL and C-UL Listed. Dimensions: 3½ H x 16½ W x 12" D. Bogen brand (GS150).

***New* No. 4PD72.** Shpg. wt. 33.0 lbs. List $1189.00. Each.....**$860.00**

## TELEPHONE PAGING AMPLIFIERS

- **Designed for easy integration with telephone systems**
- **Wall-mount design**
- **Inputs for 600-ohm balanced telephone line, LO-Z balanced microphone, and background music**
- **Built-in Night Ringer**
- **Voice-activated, variable level, music muting/fading circuit**

Features Aphex® Aural Exciter circuit for improved intelligibility. 16-ohm, 25V, 25VCT, 70V outputs. Permits paging from telephone and/or microphone, telephone input has automatic level control. The signal-activated paging channel automatically mutes background music when paging from a telephone. The muting level of background music during a page is adjustable, and the music gradually returns to its normal level after a page.

### *New!* AMPLIFIER SPECIFICATIONS AND ORDERING DATA

## ZONE PAGING DEVICE

- **Touch tone controlled with All Call**
- **3 Separate paging zones**
- **Field programmable paging groups**
- **100W Total power switching capacity**
- **Direct connection to telephone systems**
- **Preannounce & confirmation tones; built in night ringer**

Telephone-compatible zone paging device with all call and talk back capabilities. Background music input, auxiliary relay contacts and telephone style punch bock. Emergency override and night ringer inputs from 90V ring signal or contact closure. Requires 24V power supply No. 4PD73. Dimensions: 9⅛ W x 7¼ H x 1⅝" D. FCC registered. Bogen brand (ZMP3).

***New* No. 4PD80.** Shpg. wt. 3.0 lbs. List $536.00. Each.....**$303.75**

## 24VDC POWER SUPPLY

- **Use with No. 4PD80 Zone Paging Device**
- **35 mA loop current source for telephone applications**
- **24V/450mA regulated supply**
- **24V Loop current source**
- **Usable as interface to PBX and Key telephone systems**

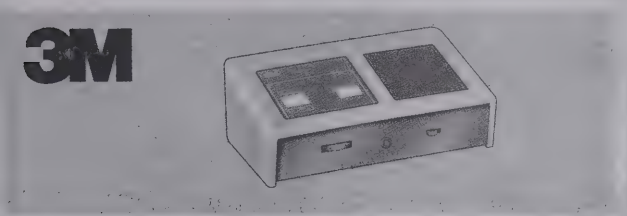
3 Ft. power cord. UL Listed and CSA Certified. Bogen brand.

***New* No. 4PD73** (PRSASAC). Shpg. wt. 3.0 lbs. List $136.00. Each.....**$76.35**

## DIGITAL AM/FM TUNER

- **18 FM and 12 AM presets**
- **Lighted LCD display**
- **UL Listed; CSA Certified**
- **Dimensions: 10½ W x 1⅝ H x 7¼" D**
- **Bogen brand (TP30D)**

**No. 5H801.** Shpg. wt. 7.0 lbs. List $210.18. Each.....**$200.25**



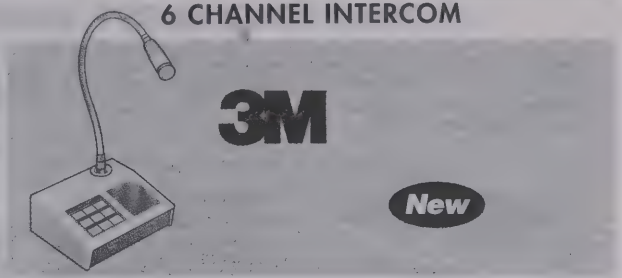
## DESK MICROPHONE

- **Press-to-talk bar with locking mechanism**
- **Bogen brand (MBS1000)**

**No. 5H813.** Shpg. wt. 4.0 lbs. List $160.23. Each.....**$155.25**

# SPECIALTY INTERCOMS

## SINGLE CHANNEL INTERCOM



- **Point-to-point communications; touch panel switches**
- **Red, yellow, and green indicators for Power-On, Standby, Presence Alert, Talk and Listen**
- **Separate Talk, Listen, and Alert Tone volume controls**
- **High-impact console**

5 Watts talk channel. 2.5 Watts listen channel. Measures 5 1/16" D x 8 9/32" W x 3 3/32" H. 120VAC at 60 Hz. Class 2 plug-in cord connected power supply, UL Listed (E84666). 3M brand (D-15).

**No. 5H619.** Shpg. wt. 5.6 lbs. List $738.07. Each ..... $686.50

## 6 CHANNEL INTERCOM

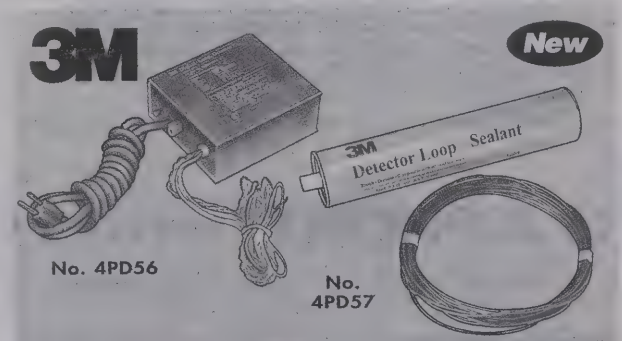
- **Hands-free, voice-activated communication**
- **Communicates to 6 seperate locations**
- **Accepts external music and message source**
- **Annunciator and lights indicate calls**

Speak with all 6 stations simultaneously. Combines rugged design with call device compatability. 5 Watts talk channel. 2 to 5 watts listen channel. 120VAC, 60 Hz Plug-In Transformer at 14VAC. Size is 7 1/16" diameter x 3 3/32" high x 8 9/32" wide. Made in USA. UL Listed. 3M brand (D20V).

***New*** **No. 4PD55.** Shpg. wt. 6.8 lbs. List $1073.00. Each ..... $998.00

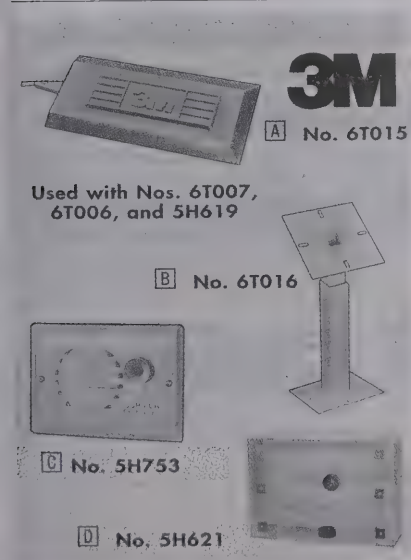
## MAGNETIC LOOP DETECTOR

- **Used with buried loop**
- **Self-tuning**
- **Grounded loop operation**
- **Intermittent loop monitor**
- **Two delay time settings**
- **Made in USA**



Detects vehicles at drive-thru windows, loading docks, and weigh-in facilities. Requires Magnetic Loop Saw-In Kit, No. 4PD57, to operate. UL Listed.

***New*** **No. 4PD56.** 3M brand (5111140079). Shpg. wt. 1.7 lbs. List $446.15. Each ..... $415.00



## MAGNETIC LOOP SAW-IN KIT

For existing road surfaces. Includes sealant. Approximate size: 54 x 18". Made in USA.

***New*** **No. 4PD57.** 3M brand (5111149387).. Shpg. wt. 8.0 lbs. List $169.55. Each ..... $157.75

## INTERCOM ACCESSORIES

### A No. 6T015 FOOT SWITCH

- **Heavy-duty foot-operated switch permits hands-free operation for controlling the Talk/Listen functions of the intercom**
- **Brown molded vinyl rubber, totally immersible**
- **Can be used to switch other electronic circuits**
- **Activation pressure: 8-12 lbs.**
- **Normally open contacts**

**No. 6T015.** Foot Switch. 3M brand. Shpg. wt. 2.0. Each ..... $112.05

### B No. 6T016 INTERCOM PEDESTAL MOUNT

- **Adjusts to 30, 45, or 60° angle**
- **Adjustable height 7-12"**
- **Protects all cables**

For use with intercom No. 5H519 above. 3M brand.

**No. 6T016.** Shpg. wt. 3.0 lbs. List $105.00. Each ..... $101.35

### C No. 5H753 SPEAKER/MIC AND CALL SWITCH ASSEMBLY

- **Indoor/outdoor**
- **Pushbutton triggers call signal and provides hands-free communication to master intercom**
- **Flush mount or attach to back box (No. 5H621, sold below)**
- **3 1/2" cone speaker, 8 ohms, 5 watts**
- **Dimensions: 5 1/4 x 7 1/2"**

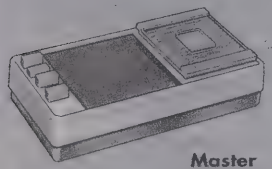
For use with No. 5H619 above. 3M brand.

**No. 5H753.** Shpg. wt. 1.5 lbs. List $130.50. Each ..... $120.50

### D No. 5H621 STAINLESS STEEL BACK BOX

- **Indoor/outdoor**
- **Includes wiring grommets**
- **Dimensions: 2D x 5 1/4H x 7 1/2"W**

For use with No. 5H753 above. 3M brand.



**No. 5H621.** Shpg. wt. 1.3 lbs. List $57.89. Each ..... $53.50

# INTERCOMS AND SPECIALTY INTERCOMS AND INTERCOM SYSTEM WIRE CHART

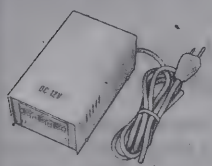
# INTERCOM SYSTEMS



## SELECTIVE CALLING OPEN VOICE INTERCOM SYSTEM

No. 4PD58

AIPHONE® New

No. 4PD63

No. 4PD61

No. 4PD68

No. 4PD70

- 3-, 5-, & 10-call, masters, fully intermixable with other master or sub stations up to maximum capacity
- 1- and 3-call sub stations with privacy
- 3-call substation selectively calls up to 3 masters
- Selective calling from any master with hands-free reply
- Room monitoring capability from a master
- Selective door release on 5-, 10-call masters (*12VDC, 100mA relay for each door)
- Order 1 power supply, No. 4PD68, per system
- AiPhone Intercom System Wire Chart can be found on page 908

A wide variety of business applicatons require a system that provides door answering, selective calling between stations, and hands free response. The LEF System can provide time saving communications between multiple locations. Voice and call tone volume controls. LED and momentary electronic call tone indicate an incoming call from a remote station. The 5 and 10-call masters can selectively release multiple doors.

## LAMP MEMORY AND CALL INTERCOM SYSTEM

- 20-call Console master station with handset
- Lamp memory: call-in LED and tone signal remains until answered
- Press-to-talk or handset communication at master, hands-free at remotes
- Selective calling, group call (up to 5), or All Call
- Heavy-duty, rugged console for years of trouble-free service
- Order 1 power supply, No. 4PD69, per system

Commercial intercom for selective internal calling and two-way communications, with facility-wide all call for up to 20 stations (expandable with other items). Lamp memory function provides a tone and light indicating which remote is calling, remaining on the master until answered. Applications: parking garage, auto service centers, factories, schools, day care centers, bowling alleys, general commercial facilities.

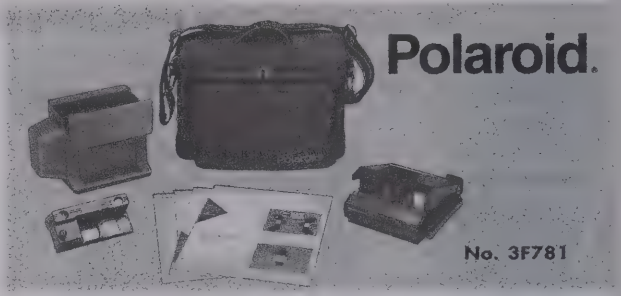
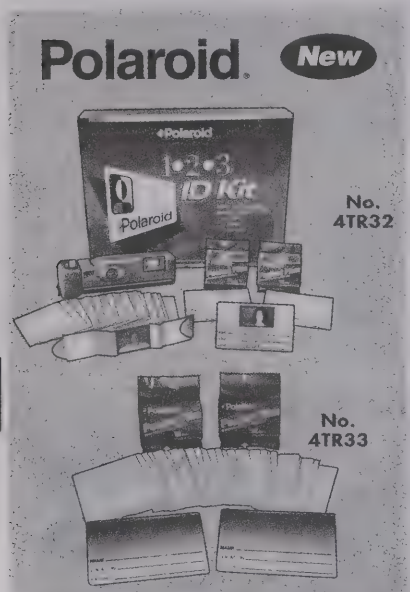
COMMUNICATIONS EQUIPMENT



# INSTANT INDUSTRIAL DOCUMENTATION CAMERA AND MAINTENANCE SOFTWARE



## INDUSTRIAL DOCUMENTATION KIT

- **Includes Polaroid Spectra™ Instant camera**
- **Use to record assembly and manufacturing processes; visual aid for training instructions; ISO 9000 documentation; quality management/improvement**
- **Polaroid Spectra™ instant camera has a variable focus lens with clear focus of small objects as close as 10". Uses Spectra Platinum™ film No. 6W718**

Instant imaging camera kit specifically designed for manufacturing and industrial documentation needs. Includes the Polaroid Spectra™ instant camera, close-up lens, copy stand (allows 1:1 ratio), carrying case, and instructions. Polaroid brand (619212).

**No. 3F781.** Shpg. wt. 7.8 lbs. List $349.00. Each.....**$299.00▲**

## PHOTO IDENTIFICATION CARDS/BADGES

### POLAROID INSTANT PHOTO ID 1-2-3 CAMERA KIT

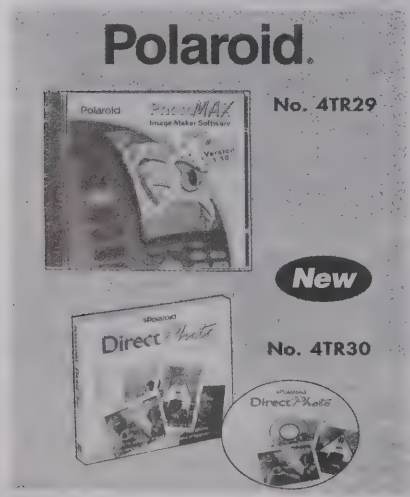
**INCLUDES THE FOLLOWING:**

- **Fixed-focus instant ID camera with flash (uses single AA battery-included)**
- **2 packs (12 ID portraits per pack) instant color ID film**
- **30 pre-printed employee data cards and 30 tamper-resistant clear plastic laminates with easy-to-follow instructions**
- **Polaroid brand**

New instant photo ID kit that lets you make instant, tamper-resistant, color photo ID cards or badges for employees, vendors or visitors. No special equipment or training required. Includes everything you need to make 24 instant photo ID cards or badges.

***New*** **No. 4TR32.** Instant Photo ID Camera Kit (630656). Shpg. wt. 0.5 lbs. List $69.99. Each.....**$64.05▲**

### INSTANT PHOTO ID RE-ORDER KIT



**INCLUDES THE FOLLOWING:**

- **2 packs (12 ID portraits per pack) instant color ID film**
- **30 pre-printed employee data cards and 30 tamper-resistant clear plastic laminates with easy-to-follow instructions**
- **Polaroid brand**

Re-order supplies kit for Polaroid Instant Photo ID 1-2-3 Camera. Includes everything you need to make 24 instant photo ID cards or badges (camera not included).

***New*** **No. 4TR33.** Instant Photo ID Re-Order Kit (630657). Shpg. wt. 0.3 lbs. List $34.99. Each.....**$32.05▲**

(▲) Net prices, not subject to discounts.

## DIGITAL PHOTO SOFTWARE

### POLAROID PHOTOMAX SOFTWARE

Edit, retouch...even add text and special effects to your photographs with Polaroid's PhotoMax Retouch Photo tools.

Minimum system requirements: IBM PC or compatible computer, 486 CPU or higher, Microsoft Windows 95 or higher, CD-ROM drive, 8 MB RAM (16 MB recommended), 60 MD available on hard drive, color monitor-16-bit display card (24-bit display card recommended), mouse.

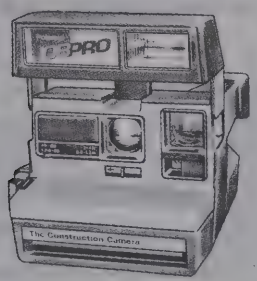
Compatible with: Digital Cameras: All TWAIN-complaint cameras including Polaroid PDC 300 and PDC 2000, Apple Quicktake 150, Epson photo PC, Kodak DC40, DC50 and DC120. Scanners: All TWAIN-complaint scanners including most popular models from Polaroid, Agfa, Nikon, Epson, Hewlett-Packard, Microtek, Mustek, Umax. Polaroid brand (624208).

***New*** **No. 4TR29.** PhotoMax Software. Shpg. wt. 0.6 lbs. List $55.99. Each.....**$50.75▲**

### POLAROID DIRECT PHOTO SOFTWARE

A powerful, easy-to-use utility for capturing, enhancing, e-mailing and merging photos from your scanner or digital camera.

Minimum System Requirements: IBM compatible 486 processor, (Pentium Processor Recommended), 16 MB RAM, 20 MB available hard-disk space, 640 x 480 screen resolution, 256 color display, Windows 3.1 or Windows 95 operating system. Polaroid brand (625374).



***New*** **No. 4TR30.** Direct Photo Software. Shpg. wt. 0.4 lbs. List $35.99. Each.....**$33.30▲**

(▲) Net prices, not subject to discounts.

# INSTANT CAMERA KITS

## POLAROID JOBPRO™ INSTANT CAMERA

Polaroid

JobPro Camera
No. 3W837

- Designed exclusively to meet the demands of the industry
- Provides instant photography for: documentation, estimating, sales, communication of job status, liability settlements, "before and after" shots
- Rugged, high impact construction with yellow and black finish for high visibility
- Focus-free lens; special two-foot close-up option
- Never needs batteries
- Automatic flash; flash override
- Film not included; sold separately.

Full lifetime warranty with "no questions" camera repair or replacement. Includes handy quick-tips and operating instructions. Polaroid brand (616873).

**No. 3W837.** Shpg. wt. 2.2 lbs. List .....$54.95.
Each .....**$49.50▲**

### POLAROID 600™ 4-PACK INSTANT FILM

**600 Platinum™** economy pack contains four instant film packets, 10 shots per pack. For use in No. 3W837 instant camera above, and any Polaroid camera that shoots 600 film. Polaroid brand (627324).

**No. 3W838.** Shpg. wt. 1.5 lbs. List .....$55.00.
Each .....**$49.50▲**

(▲) Net prices, not subject to discounts.

## POLAROID ALTERIMAGE 600™ FILM

Polaroid

New

New matte finish enables user to write or draw directly on photo surface. Finger print resistant. 10 instant pictures. For use in No. 3W837 Instant Camera, or any Polaroid camera that uses 600 film. Polaroid brand (625712).

***New*** **No. 4TR31.** AlterImage Film. Shpg. wt. 0.3 lbs. List $15.99.
Each .....**$14.35▲**

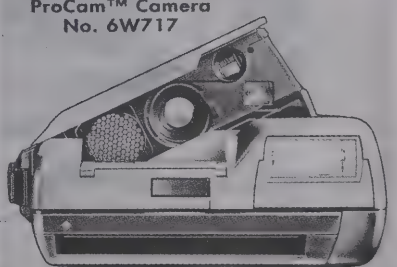
## POLAROID PROCAM™ INSTANT CAMERA

- Designed exclusively to meet the demands of the business user
- Rugged, reliable, and durable; protected against moisture and dirt
- Features include wide-angle lens and close-up capability to 10 inches (auxiliary lens included), automatic focus with manual overide, date imprint option, automatic flash; flash range from 18" to 18'
- Never needs batteries
- Polaroid Spectra Platinum Instant Film sold separately.

Full lifetime warranty with "no questions" camera repair or replacement. Polaroid brand (617314).

**No. 6W717.** Shpg. wt. 2.2 lbs. List.....$299.00.
Each .....**$199.50▲**

### POLAROID SPECTRA™ 4-PACK INSTANT FILM



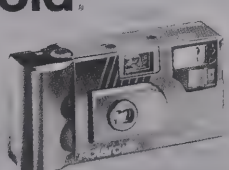
**Spectra Platinum™** economy pack contains four instant film packets, 10 shots per pack. Fits Procam instant camera No. 6W717, and all other Spectra cameras. Polaroid brand (627323).

**No. 6W718.** Shpg. wt. 1.5 lbs. List.....$55.00.
Each .....**$49.50▲**

(▲) Net prices, not subject to discounts.

Polaroid

ProCam™ Camera
No. 6W717



4-Pack Spectra/ProCam™
Instant Film No. 6W718

## POLAROID SIDE KICK MINI FLASH CAMERA

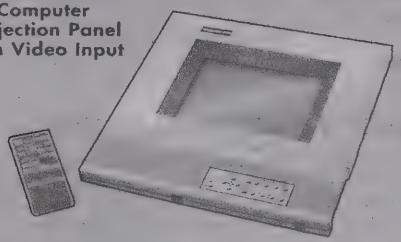
Polaroid

New

- Single use camera with flash
- Use indoors or outdoors
- No loading

Comes with Polaroid 35mm ISO400, 27 exposure high definition film. Polaroid brand (619900).

***New*** **No. 4TR28.** Shpg. wt. 0.25 lbs. List ..$12.25.
Each .....**$8.99▲**



(▲) Net prices, not subject to discounts.

# POLAROID COMPUTER PROJECTOR PANELS AND CIRCULAR POLARIZING FILTERS

## COMPUTER PROJECTION PANELS

Polaroid

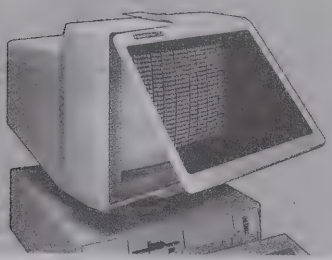
No. 3ZJ42
Computer
Projection Panel
with Video Input

- **Compatible with Cyclops interactive pointer, IBM, Macintosh, and other personal computers**
- **Fast response time ideal for video, animation, and rapid mouse movements**
- **Easy-to-use remote control**
- **Lightweight & compact for portability**

**Polaroid Polaview LCD Projection Panels** add impact to your electronic presentations. Simple to use—just place on an overhead projector, connect to your computer, and start. The active-matrix LCD panel projects two million colors for sharp vivid images. Offers 640 x 480 pixel resolution on a 8.4" diagonal display area.

**Panel No. 3ZJ42** (Polaview 1900)has built-in video compatibility supporting worldwide video standards (NTSC, PAL, and SECAM).

**Panel No. 3ZJ43** (Polaview 1700) can add video compatibility with an external video adapter.



**No. 3ZJ42.** Computer Projection Panel with Video Input Compatibility. Polaroid brand (621792). Shpg. wt. 19.0 lbs. List $3995.00.
Each ..... **$3796.00▲**

**No. 3ZJ43.** Computer Projection Panel. Polaroid brand (621793). Shpg. wt. 16.0 lbs. List $2495.00. Each ..... **$2371.00▲**

(▲) Net prices, not subject to discounts.

## POLAROID CIRCULAR POLARIZING FILTERS

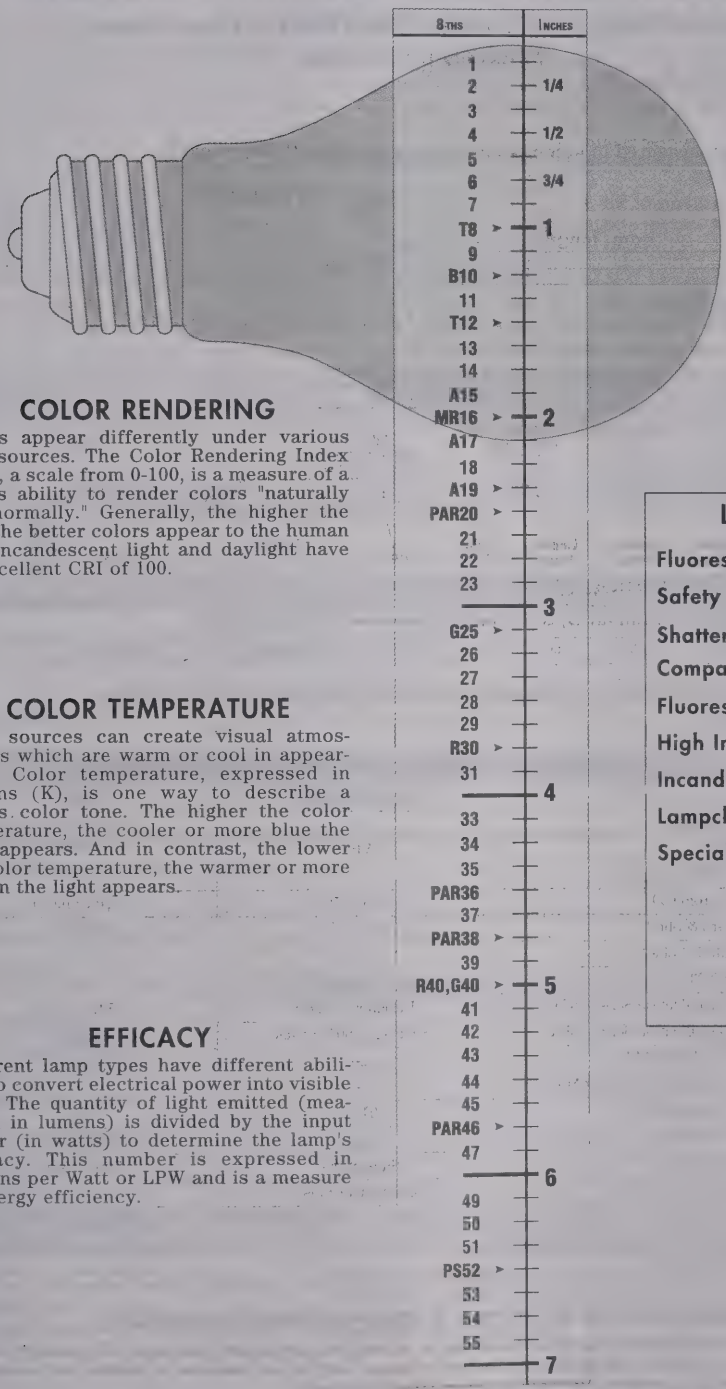
No. 5M633
Triacetate Filter

Polaroid

**Circular Polarizing Filters** solve computer screen glare problems by suppressing up to 99% of reflected light, and improving contrast up to 14 times that of other filters.

No. 5M635
Glass Filter

### POLARIZING FILTERS SPECIFICATIONS AND ORDERING DATA



| Type | Description | Diagonal Monitor Size | Polaroid Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| **Triacetate Filters** | Reduces glare, improves contrast. | 13-15" | CP-60 | **5M633** | $39.95 | **$32.00** | 1.0 |
| | Reduces glare & ELF radiation, improves contrast, eliminates static. | 13-15 | CP-60SC | **5M634** | 59.95 | **48.00** | 1.0 |

# AN INTRODUCTION TO LAMPS

## LAMP SIZE AND COMPARISON FEATURES

### LAMP SIZE

Lamp size (maximum lamp diameter) is expressed by the letter "A" and then a number representing eighths of an inch (⅛ in. = 3.2mm). For example: an "A17" size bulb is 17-eighths of an inch or 2⅛ in. (54mm) in diameter at its maximum dimension.

### COLOR RENDERING

Colors appear differently under various light sources. The Color Rendering Index (CRI), a scale from 0-100, is a measure of a lamp's ability to render colors "naturally and normally." Generally, the higher the CRI, the better colors appear to the human eye. Incandescent light and daylight have an excellent CRI of 100.

### COLOR TEMPERATURE

Light sources can create visual atmospheres which are warm or cool in appearance. Color temperature, expressed in Kelvins (K), is one way to describe a lamp's color tone. The higher the color temperature, the cooler or more blue the light appears. And in contrast, the lower the color temperature, the warmer or more golden the light appears.

### EFFICACY

Different lamp types have different abilities to convert electrical power into visible light. The quantity of light emitted (measured in lumens) is divided by the input power (in watts) to determine the lamp's efficacy. This number is expressed in Lumens per Watt or LPW and is a measure of energy efficiency.

# FLUORESCENT LAMP INTRODUCTION

## HOW TO USE THE FLUORESCENT LAMP PRODUCT SECTION

- **Our Fluorescent lamp section is organized by lamp length, order of diameter/lamp shape and lamp wattage.**

1. **Identify lamp length*, and go to that section**
2. **Identify lamp diameter/shape**, you can utilize the shape icon found to the side of the product chart**
3. **Identify lamp wattage**

* Fluorescent lamps are measured in nominal length, which includes lamp sockets:

** If unsure of of lamp diameter/shape, refer to p. 913 and measure your lamp diameter

**Special Features:** points out unique aspects of Fluorescent lamps: aquarium use, germicidal, black-light, reduced mercury, etc.

**Rated Average Life Hours:** Average Life Hours figure represents the lamp's median value of life expectancy @ 3 hours per start.

**Lumens Initial:** Lamp's approximate light output after 100 hrs. of operation

**Lumens Mean:** Light output at 40% of rated lamp life.

**Color Temp:** "Warmth" or "Coolness" of the lamp, measured in Kelvins (K). The higher the temperature, the cooler the appearance of the light.

**CRI:** Color Rendering Index. The higher the number, the truer the color.

Ⓔ Meets Federal Minimum Efficiency Standards.

| Lamp Designation | Description /Special Features | Rated Avg. Life Hours | Lumens Initial | Lumen Mean | Color Temp | CRI | Stock No. | List | Ⓔ | Each | Ship. Case Qty. | Shpg. Wt. Each |
|---|---|---|---|---|---|---|---|---|---|---|---|---|

ATTENTION: This brand name cross-reference chart is provided only as a quick reference. Other lamp company brand listings may only represent a near equivalent, versus an identical match to GE Lighting brands. Individual lamp manufacturer's performance specifications should be consulted. Lamp performance may be affected by environmental conditions, ballast type, and/or auxiliary equipment.

### NATIONWIDE BRANCH NETWORK WITH LOCAL ACCESS IS YOUR SHOPPING ADVANTAGE

**Grainger's network of more than 350 local branches provides you nationwide access to our broad selection of product offerings. And with 30-minute "Will Call" service or 24-hour shipping on in-stock items, help is as close as a phone call away. Check the Branch Locations listed in the front of this catalog for the location closest to you.**

# FLUORESCENT LAMPS

## COLOR SELECTION GUIDE

### Better Color Rendering for Better Appearance

The color rendering of a light source describes that source's ability to accurately render the colors of perceived objects—people and things. As a general rule, the higher a light source's color rendering index (CRI or Ra) number, the better the lamp will make things appear. SP Lamps have CRI's of 70+ making them better color-rendering light sources than older, standard fluorescent lamps. SPX lamps have a CRI of 80+ for even higher color rendering with the same high efficiency.

### Great Color — Without Giving Up Light

Specially developed rare-earth phosphors provide what conventional phosphors cannot—both high efficiency and good color rendering lamps, made with conventional phosphors, produced only 60% to 70% of the light of their standard counterparts. Now, in SP and SPX lamps GE technology has produced color-enhancing fluorescent lamps that actually deliver more light than older, standard lamp designs.

- **SP lamps use a double coat of conventional and rare-earth phosphors for a moderately priced, good color rendering lamp**
- **SPX lamps use much more of the rare-earth phosphors for a premium-price, very good color rendering lamp**

### SP and SPX Fluorescent Lamps

| IF YOU NEED: | Better color emphasis than color white or warm white, plus higher light output... | Brighter, more vibrant colors than even the SP colors, plus the same high light output |
|---|---|---|
| **CHOOSE:** | **SP** | **SPX** |
| **A WARM TONE:** | SP30—Especially good for low light levels. Use where you want people and furnishings to look good. | SPX30—Warm, but brings out high color contrast. Especially good for low light levels where colors must look very good - dining areas, exclusive stores etc. |
| **A MODERATE TONE*:** | SP35—A tone acceptable to nearly everyone. Good for for nearly any application where you want people and furnishings to look good. | SPX35—Moderate tone acceptable to nearly everyone. Brings out colors stongly. Especially good for all kinds of merchandising and areas such as executive suites, conference rooms... Use wherever colors must look very good. |
| **A COOL TONE:** | SP41—A tone similar to cool white, but better color. Especially good for higher light levels wherever people and furnishings must look good. | SPX41—Cool tone and very good color. Renders all colors well, but emphasizes blues and greens. Use for offices, merchandising areas, and color-important industrial applications |
| **A VERY COOL TONE: (Daylight-simulating)** | SP65—A tone similiar to Daylight lamps, but more efficient. | SPX50 and SPX65—Provide a unique crisp clean look and blend well with outdoor daylight. Use for daylighted spaces, industrial clean rooms, special retailing and commercial areas. Renders all colors well, but emphasizes cool tones. May be too cool for some applications—especially at low light levels. |

*The moderate color temperature of the SP35 and SPX35 is usually acceptable to both those who like warm or cool environments. These colors are also useful for well-shielded lighting systems (wedge louvres, deep-cell parabolics) which tend to "cool off" the space visually.

**LOOK FOR THE MANY NEW PRODUCTS WE HAVE ADDED!**

**Check your frequently-ordered product categories for line extensions and new product offerings. Look for the "New Products" header at the top of the page and the "New" designation next to the stock number.**

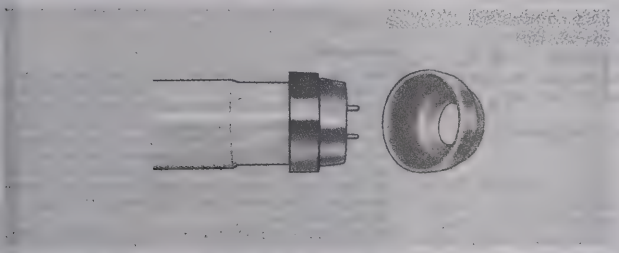
# FLUORESCENT SHATTERPROOF LAMPS

shat-r-shield

ENERGY RIGHT®



- Coated with tough, clear surlyn coating
- High output lamps have special combination of Teflon® which coats the cathode ends, and surlyn that coats the center of the lamp
- Lamps block all UV emissions from 180 to 390 nanometers
- T-8 fluorescent lamps offer energy savings and higher color-rendering index than T12 lamps; for use with electronic ballasts only

USDA approved and meet FDA and OSHA requirements. Lamps will not shatter, explode, or contaminate when damaged. Virtually all glass fragments and phosphors stay contained within safety skin. Shat-R-Shield brand.

# ARM-A-LITE™ SAFETY SLEEVES

Arm-A-Lite Safety Sleeves are used in food processing plants, bakeries, dairies, schools, warehouses, factories, restaurants, and stores. Sleeves slip easily over fluorescent tubes and retain shattering glass and phosphors if the tube breaks, falls, or bursts. Fail safe cap assures a snug fit between tube and sleeve. Colored sleeves may be used to mark exits, fire extinguishers, safety zones, etc. Meets safety standards prescribed by NEC (National Electric Code), USDA, OSHA. When used outdoors, or indoors in low temperature applications, Arm-A-Lite sleeves maintain a warm "air zone" around the lamp for more effective and efficient lighting. Thermoplastic Processes, Inc. brand.

NATIONWIDE BRANCH NETWORK WITH LOCAL ACCESS IS YOUR SHOPPING ADVANTAGE

**Grainger's network of more than 350 local branches provides you nationwide access to our broad selection of product offerings. And with 30-minute "Will Call" service or 24-hour shipping on in-stock items, help is as close as a phone call away. Check the Branch Locations listed in the front of this catalog for the location closest to you.**

# FLUORESCENT LAMPS

GE Lighting

### General Information

#### Nominal Lumens

The nominal lumen rating is an approximation based on the performance of lamps operated under laboratory conditions within industry standard tolerances. A self-ballasted lamp is measured using its integral ballast. Lamps without an integral ballast are measured using reference ballasts.

Lumens produced by lamps operated on commercial ballasts may not be equivalent to reference ballast ratings. For lighting design calculations, refer to the ballast manufacturer's published data for the appropriate "Ballast Factor."

#### Nominal Initial Lumens

The nominal light output of the lamp after 100 hours of operation.

#### Nominal Mean Lumens

The nominal light output of the lamp after it has been operated for 40% of its rated life.

#### Nominal Watts

Catalog wattage is classified in accordance with ANSI standards and may not be the same as the wattage run on a reference ballast. Watts consumed by lamps operated on commercial ballasts may not be equivalent to reference ballast ratings. The watts shown for self-ballasted lamps are nominal system watts.

#### Rated Life

The rated life (hours) is the approximate median life when lamps are operated for three hours per start under laboratory conditions using ballasts which meet industry standards or GE Lighting specifications where no industry standards exist. Rated life for self-ballasted lamps is the approximate median life when operated for three hours per start under laboratory conditions.

#### Color Temperature/Chromaticity

Color temperature/chromaticity is measured in Kelvins using industry standard measurements.

Color temperature describes the overall warmth or coolness produced by the source.

- **3000 Kelvin (K) and lower are described as "warm" in tone and slightly enhance reds and yellows**
- **3500 K is considered moderate in tone, producing a balance between warmth and coolness**
- **4100 K and higher are considered "cool" in tone, slightly biased towards blues and greens**

#### Color Rendering Index (CRI)

The color rendering index shows how well (normal and natural) a source makes objects appear. Generally, the higher the CRI, the better it makes people and objects appear. The CRI of different sources can be compared only if the sources have the same color temperature. The nominal (or approximate) CRI rating is an approximation based on the performance of lamps operated under laboratory conditions within industry standards tolerances.

#### Dimensions

The nominal lamp length shown in inches is the overall dimension of the lamp, including the lampholders in which it is seated, except as noted.

#### Operation

All GE fluorescent lamps should be used only with auxiliary equipment designed to produce proper characteristics. Specifications for auxiliary equipment are covered by ANSI. Specifications for auxiliary equipment not included in ANSI Standards are available from Technical Support.

#### Ratings

**Ratings published in this catalog are based on laboratory tests conducted under controlled conditions. Design improvements are frequently made in fluorescent lamps, which tend to obsolete ratings after a period of time.**

### Factors Affecting Lamp Performance

#### The Ballast

The three basic types of ballasts for fluorescent lamps are Preheat (PH), Instant Start (IS) and Rapid Start (RS). In general, lamps identified as preheat, rapid start or instant start should be used only on the corresponding ballast type. Electronic ballasts are presently available in both instant start and rapid start designs.

Operating Characteristics — The life of a fluorescent lamp is strongly affected by the ballast. The American National Standards Institute has set standards for fluorescent ballasts that will ensure proper operation of fluorescent lamps. Ballast characteristics that have a significant effect on lamp life are Current Crest Factor, Starting Time, Cathode Voltage and Open Circuit Voltage.

**Ballast Factor** — This is the percentage of a lamp's rated lumen output that can be expected when operated on a specific, commercially available ballast. For example, a ballast having a ballast factor of 0.93 will result in the lamp emitting 93% of its rated lumen output.

**High Frequency** — All fluorescent lamps operate more efficiently when driven at frequencies greater than 15 kHz. Four-foot fluorescent lamps operate approximately 10% more efficiently, while eight-foot lamps improve by about 5%. This efficiency improvement is one reason for the popularity of electronic ballasts.

### Other Factors

**Temperature** — The characteristics of a fluorescent lamp — light output and watts — are affected by the ambient temperature, or by drafts. Most fluorescent lamps reach their maximum light output at room temperatures or at "luminaire temperatures." All-Weather fluorescent lamps are designed with glass jackets that permit them to reach optimum performance at outdoor and sub-zero temperatures.

**Luminaire** — The design of the lighting fixture (luminaire) affects the ambient temperature in which the fluorescent lamps will be operating. A fixture that operates too cool or warm will result in lower light output from the lamps and reduce illumination levels.

**Switching** — The life of a fluorescent lamp is affected by the number of times the lamp is started. Frequent switching results in shorter lamp life, while continuous operation will provide the longest lamp life. All fluorescent lamps, except where noted, have life ratings based on 3 hours per start.

### Footnotes

1. Watt-Miser® lamps are recommended for use only on high power factor, indoor ballasts that meet ANSI standards. They are not recommended for drafty areas or where thelamp ambient temperature is below 60°F (16°C). Watt-Miser® lamps are not recommended for use on low power factor ballasts, reduced current or reduced light output bal lasts or dimming ballasts. They are not recommended for use on inverter operated emergency lighting systems. Use on high frequency ballast systems may sometimes result in lamp starting difficulties.
2. F40 Watt-Miser ® Plus lamps are not recommended for use with cathode cut-out ballasts. The F40 Watt-Miser® Plus lamp is not recommended for use with electronic ballasts and may require up to one minute to restart if a circuit inter ruption of up to 60 seconds occurs.
3. F40T17/CW/IS lamps are for use only in fixtures equipped with instant start ballasts.
4. Because Power Groove and Very High Ouput lamps are most used in commercial applications, the life rating is based on 12 hrs. per start.
5. When base pins or Recessed Double Contact bases are hori zontal, the window opening is centered in a vertical plane through the lamp axis.
6. Cold Temperature lamps are designed for use where ambi ent temperatures drop below 60°F (16°C).
7. Performance data based on engineering estimates.
8. Engineering estimates.

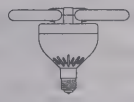
# HOW TO USE THE COMPACT FLUORESCENT LAMP PRODUCT SECTION

- **Our compact fluorescent lamp section is organized by lamp shape. Within each section, lamps are sorted by wattage and base type.**

1. **Identify your lamp by looking at illustrations below**
2. **Turn to catalog page referenced under illustration**
3. **Identify lamp wattage**
4. **Identify lamp base**

**Genura EL23/R25**

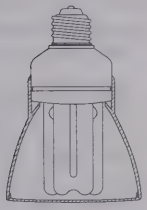
**FLG/E**



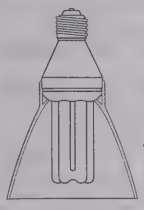
**FLG**

**FLB**

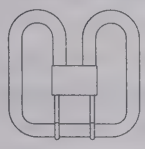
**FLA**



**FEA/2D**



**FLE Quad Biax**

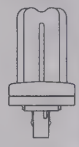


**FLE Triple Biax**

**FLE Triple Biax R30 Med**

**FLE Triple Biax R40 Med**

**2D**



**High Lumen Biax**

**Biax**

**Double Biax**

**Triple Biax**

**Special Features:** Point out unique aspects of compact fluorescent lamps such as "75W Incandescent Equivalent".

**Initial Lumens:** Lamp's approximate light output after 100 hours of lumination.

**Color Temp:** "Warmth" or "Coolness" of the lamp, measured in Kelvins (K). The higher the temperature, the cooler the appearance of the light.

**Rated Average Life Hours:** Average Life Hours figure represents the lamp's median value of life expectancy @ 3 hours per start.

**Mean Lumens:** Light output at 40% of rated lamp life.

**CRI:** Color Rendering Index. The higher the number, the truer the color.

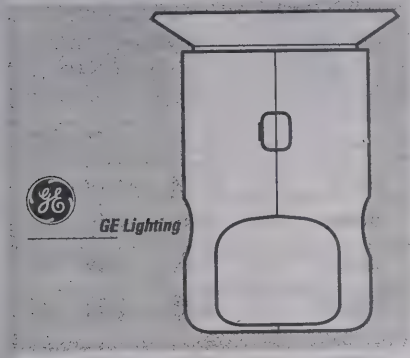
(*) See Compact Fluorescent Lamp footnotes on page 933. (†) Excluded product. (↝) Denotes energy efficient product.
Note: Minnesota Mercury Emission Legislation states that fluorescent and HID lamps contain mercury, a hazardous substance regulated by law.

When it comes to lighting, no distributor outshines Grainger.

# COMPACT FLUORESCENT LOCKING DEVICES AND FLUORESCENT STARTERS



GE Starters meet all IEC 15S standards as well as meet the 6000 cycle switch test established by UL.

GE Starters have a capacitor for RFI suppression, which also serves to protect the glow switch starter mechanism.

GE Starters are listed under UL Standard WS-755C, and are Certified by ETL, Certified by CSA, and conform to ANSI Spec. C78.180.

## FLUORESCENT STARTERS

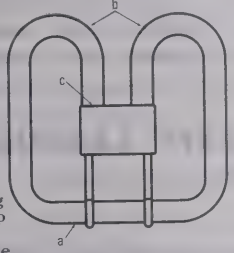
## GE LOCKING DEVICES



- **Designed to secure GE FLE Series screw-in compact fluorescent lamps into base to prevent theft**
- **Fits into standard medium screw base**
- **Priced each, sold in packages of 10 only**

### GE LOCKING DEVICES

| Description | For use w/stock no. | GE Product Code | Stock No. | List | Each | Ship Case Qty. | Shpg. Wt. Ea. |
|---|---|---|---|---|---|---|---|
| Standard Shell CFL Compatible | 3V748, 1E563, 1E591, 2D022, 1E589, 1E559 | 25454 | 4HP27 | 2.58 | 2.46 | 30 | 0.4 |
| Short Shell CFL Compatible | 3V746, 3V747, 1P069, 4LV96 | 25455 | 4HP28 | 2.58 | 2.46 | 30 | 0.4 |

**Footnotes:**

1. Fluorescent lamp lumens decline during life.
2. Based on 60Hz reference ballast.
3. Engineering estimates.
4. 10-watt, 16-watt and 28-watt 2D lamps may be operated in any position. 21-watt and 38-watt 2D lamps must not be used with the leg marked (a) in the diagram below the bend (b), in order to avoid overheating the end of the cap marked (c).

5. Life ratings for the F18BX Preheat lamps are based on operating the lamp at 3 hrs. per start on a preheat type circuit. Operation on rapid start and instant start ballasts is not recommended. Life ratings for all other Rapid Start High Lumen Biax lamps are based on operating the lamp at 3 hrs. per start on a rapid start type ballast. Life rating on a preheat type of ballast is 25% lower. Life ratings for the F40/30BX is 15,000 hours when operated on an instant start ballast.
6. Cold cathode resistance is approximately 6.0 Ohms.
7. Typically not used in under cabinet applications.
8. 4-pin lamp minimum starting temperature is a function of the ballast. Magnetic ballast minimums are 50°F (10°C). Electronic ballast minimums can be as low as -20°F (-29°C).
9. One-piece screw-in lamps for incandescent sockets and plug-in lamps with screw-in adapters do not work with clip-on shades.
10. Lumens on one-piece lamp systems are measured base up. Lumen output when operated base down may be more than 5% less.
11. Best performance if operated base up and at 77°F (25°C) ambient temperature.
12. Use only on 120V 60Hz circuits. Do not use on dimming circuits. Use indoors and do not use in wet locations. Not for use in totally enclosed recessed fixtures.
13. Fits most R30 applications.
14. Adapters rated at 40,000 hours.
15. Typically not used in enclosed outdoor applications
16. Lumen measured with reflector lens.
17. This product may cause interference to radio equipment operating in the frequency range of 2.2-2.8Mhz. Avoid placing this product near these devices. To reduce the possibility of radio interference to maritime safety communications, this device should not be installed: (1) on board cargo vessels of more than 300 tons, (2) on board vessels carrying more than 12 passengers for hire, and (3) at any medium frequency public coast station Further, installation is not recommended on board vessels equipped with medium frequency single side-band marine radios. If interference occurs, move this product away from the device or plug either into a different outlet. Such interference com plaints should be reported to: Technical leader, Regulatory and Industry Standards at the General Electric Company, 1975 Noble Road, Cleveland, Ohio 44112, or call toll free (800) 435-4448 from 8:00am-6:00pm EST.

**ENERGY SAVING PRODUCTS FOR HOME, FARM, AND INDUSTRY**
Including blowers, fans, furnaces, heaters, lighting, motors, controls, thermostats, water heaters, and other items. See Index under Energy Saving Products.

LEVITON

UL E5833

CSA LR5863

## A MINIATURE BI-PIN FOR T5 LAMP

- White surface mount
- Includes 6" 18 AWG 105 C AWM-TEW leads

## B MEDIUM/MINIATURE BI-PIN

- White surface mount
- Includes 9" long leads #18 AWG, 105°C plastic

## C MEDIUM BI-PIN FOR U-SHAPE LAMPS

- White slide-on mount
- Quickwire push-in wire terminals

## D MEDIUM BI-PIN SLIDE-ON & SCREW MOUNT

- No. 5C402 is short, slide-on with captive nut
- No. 5C403 is slide-on with captive nut

## E & F COMPACT TWIN-TUBE

- No. 5C404 is horizontal snap-in
- No. 5C405 is vertical snap-in
- White color

## G & H HIGH OUTPUT PLUNGER & FIXED

- Recessed, double contact double pedestal type
- Silver plated contacts
- Straight-in wiring through wireways or screw terminals
- Order in pairs (1) 5C399 and (1) 5C400

## I THRU N SNAP-IN LAMPHOLDERS

- Available for Slimline, Medium Bi-pin, and High Output 800ma thru 1500ma lamps
- Snap-in 1.52" diameter opening
- Quickwire push-in wire terminals accept #18 AWG solid or tinned wire
- Order in pairs

## O & P SLIMLINE FLUORESCENT PLUNGER & STATIONARY

- White slide-on mounting for 20 ga. panels
- Quickwire push-in wire terminals accept #18 AWG solid or tinned wire
- Order in pairs (1) 3ZK89 and (1) 3ZK90

# HIGH INTENSITY DISCHARGE (HID) LAMP INTRODUCTION

## HOW TO USE THE HIGH INTENSITY DISCHARGE LAMP PRODUCT SECTION

Our HID lamp section is organized by lamp type and then order of wattage

1. **Identify HID lamp type (Metal Halide, High Pressure Sodium (HPS), Low Pressure Sodium (LPS) or Mercury Vapor)**
2. **Identify lamp wattage**
3. **Identify lamp shape (by utilizing icons on side of product chart)**
4. **Identify lamp base (by utilizing icons on top of product page)**

**Color Temp:** "Warmth" or "Coolness" of the lamp's appearance, measured in Kelvins (K). The higher the temperature, the cooler the appearance of the light.

**Lumens Initial:** Lamp's approximate light output after 100 hours of operation.

**Special features:** points our unique aspects of HID lamps: open or enclosed fixtures, ceramic metal halide, self-extinguishing incandescent retrofit.

**Rated Average Life Hours:** Average Life Hours figure represents the lamp's median value of life expectancy.

**CRI:** Color Rendering Index. The higher the number the truer the color.

**Lumens Mean:** Light output at 40% of rated lamp life for Metal Halide, 50% for Lucalox and Mercury.

**ANSI Ballast Code:** Reference only.

| ANSI Ref. No. | Lamp Designation | Description/ Special Features | Rated Avg. Life Hours | Maximum Overall Length (In.) | Light Center Length (In.) | Lumens Initial | Lumens Mean | Color Temp. | CRI | Energy Right | Stock No. | List | Each | Ship Case Qty. | Shpg. Wt. Ea. |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| **Metal Halide Lamps** | | | | | | | | | | | | | | | |
| **32 Watt, ED17, Medium Base** | | | | | | | | | | | | | | | |
| **M100** | MXR32/C/VBU/O | Coated, VBU +- 15(3)* | 10000 | 5 7/16 | 3 1/16 | 2500 | 1900 | 3200 | 70 | ✓ | **1E279** | $101.38 | **$96.40** | 1 | 0.2 |

**Note:** Lamp drawings are not to scale. Be sure to check size and dimension information when identifying each lamp. All ratings are subject to change without prior notice.

### QUICK GUIDE TO COLOR:

| Color Temperature | Color Designation |
|---|---|
| 1800K | Orange |
| 1900-2200K | Warm Yellow |
| 2700K | Soft White |
| 3000-3200K | Warm White, SP30 |
| 3400-3700K | Neutral White |
| 3800-4500K | Cool White |
| 5200-5700K | Blue White |

## A NATIONWIDE NETWORK OF BRANCH LOCATIONS

**Across the street or across the country, finding the Grainger branch location nearest you is a snap when you reference our Branch Locations listed in the front of this catalog. We have more than 350 locations, ready to serve you in all 50 states.**

# HIGH INTENSITY DISCHARGE (HID) LAMPS

All metal halide lamps, except I-Line, will start at ambient temperatures of -22°F(-30°C) when used on ballasts meeting these specifications. Halarc ®MXR32 lamps will start at ambient temperatures of -22°F (-30°C). I-Line Multi-Vapor® will start at ambient temperatures of 5°F (-15°C) when used on approved mercury ballasts.

### Start Characteristics.

Full light output does not occur immediately when power is applied. Instead, there is a time delay for the lamp to reach 90% total light output. The starting delay for Lucalox is 3-4 minutes, for Multi-Vapor 2-5 minutes, and for mercury 5-7 minutes.

### Restart Characteristics.

With a power interruption of half cycle or more the arc will extinguish. When power is immediately reapplied, full light output does not occur immediately. For HPS lamps there is a delay of 1 minute to reach 90% total light output; however, the Lucalox® LU1000 requires 2 minutes and the E-Z Lux® lamps require 3 minutes to reach 90% total light output. For Multi-Vapor lamps, when the power is immediately reapplied, there will be a delay of 15 to 20 minutes before the lamps reach the 90% light output level. The restart delay for mercury lamps is 3 to 6 minutes to reach 90% total light output.

### E-Z Lux® Lucalox® Lamps Operating Notes

Use 150-watt E-Z Lux only with H39 175-watt mercury ballasts: high reactance lag-type auto transformer, 240-volt or 277-volt reactor. Use 215-watt E-Z Lux only with H37 250-watt mercury ballasts: high reactance lag-type auto transformer, 240-volt or 277-volt reactor type meeting current ANSI H37 ballast specs. Do not use either with CW (lead-type) or CWA ballasts.

### Lucalox® Export Base Lamps

Note: Export Only lamps have a non-domestic (U.S.) base and are not intended for use in the United States due to potential shock hazard.

### Halarc® Operating Notes - Electronic Ballasts

The 32-watt Halarc lamps must be operated on special GE lighting-approved ballasts. A suitable high power factor electronic ballast is Hal 32/120 (No. 1E089) for 120 volt applications. The outside dimensions are 9.25" (235mm) long, 3.125" (78mm) wide and 1.75" (45mm) high.

### I-Line Multi-Vapor Lamps—Operating Position

Universal—U: Burn any position, but in positions other than vertical base up or base down, use only in enclosed fixtures which can contain fragments of hot quartz or glass.
Vertical—VBU/VBD: Vertical base up or vert. base down—lamp must be operated only within 15° of vertical.

### Saf-T-Gard® Multi-Vapor and Mercury Lamps Operating Notes

Caution: If the outer glass envelope of a Saf-T-Gard lamp is broken, although the arc tube will have self-extinguished, its supporting structure will still be electrically connected. Be sure power is off and the lamp has cooled before removing to avoid possible electrical shock from contact with the arc tube support or burn from the hot arc tube.

### Arcstream™ Metal Halide Lamps Operating Notes

It is important the tubular shaped lamps are operated in suitably enclosed luminaires with a UV absorbing cover glass. Full enclosure will also retain any fragments of quartz in the unusual event of the outer bulb shattering. All Arcstream™ lamps can operate on the relevant double-ended metal halide ballasts.

### Multi-Vapor® Export Base Lamps Wattage Range: 32 - 1000

Export Only lamps have a non-domestic (U.S.) base and are not intended for use in the United States due to potential shock hazard.

### Caution Notice - Metal Halide Lamps

The following operating instructions must be complied with to help avoid possible shattering and early failure of the lamp. Metal Halide lamps are constructed of an outer bulb with an internal arc tube made of quartz. The arc tube operates under high pressure at very high temperatures—as high as approximately 1100°C.
The arc tube and outer bulb may unexpectedly rupture due to internal causes or external factors such as a system failure or misapplication.
—Lamp may only be operated in the types of fixtures prescribed in the applicable specification bulletin. Fixture lens/diffuser material must be able to contain fragments of hot quartz or glass (up to 1100°C). If in doubt, contact your fixture manufacturer.
—Electrically insulate any metal to glass support in fixture to avoid decomposition of the glass.
—Protect lamp from direct contact with liquids (such as water) to avoid breakage from thermal shock.
—In continuously operating systems (24 hours/day, 7 days/week), turn lamps off once per week for at least 15 min. Failure to comply increases risk of rupture.
—Screw lamp firmly but not forcibly into the socket to minimize loosening due to vibration. Do not use excessive force as the glass bulb may break.
—Do not scratch glass bulb because it may break during installation or later during lamp operation.
—Relamp fixtures at or before the end of rated life. Beyond rated life, light output diminishes while energy consumption and risk of rupture increase.
—Turn power off and let lamp cool before removal to avoid potential burn and electrical shock hazard during lamp replacement.
—Use In Enclosed Fixtures. For lamps requiring enclosed fixtures, fixture lens/diffuser material must be able to contain fragments of hot quartz or glass (up to 1100°C).
—Use In Open Fixtures. For lamps operated in the vertical position that are not designated "Enclosed Fixtures only," lamp may be used in an open or enclosed lighting fixture depending upon the application and operating environment. For example, if the lamp is located near combustible material or in an area which is unoccupied for extended periods, an enclosed fixture which can contain fragments of hot quartz or glass is recommended.
Arcstream™ tubular lamps must be used in enclosed fixtures with UV absorbing glass. Enclosed fixtures must be capable of containing fragments of hot quartz or glass (up to 1100°C).

### Important Notice

In accordance with Federal Standard 21 CFR 1040.30, the following notice applies to the Multi-Vapor, Halarc, and Arcstream™ PAR 64 (those having Ordering Codes beginning with the letters "MVR...," "MXR..." or "MBI150PAR64..."):"WARNING. This lamp can cause serious skin burn and eye inflammation from shortwave ultraviolet radiation if outer envelope of the lamp is broken or punctured, and the arc tube continues to operate. Do not use where people will remain for more than a few minutes unless adequate shielding or other safety precautions are used. Certain types of lamps that will automatically extinguish when the outer envelope is broken or punctured are commercially available from General Electric Company." These are the self extinguishing Saf-T-Gard Mercury and Multi-Vapor lamps.

### Mercury Export Base Lamps Wattage Range: 250 - 1000

Note: Export Only lamps have a non-domestic (U.S.) base and are not intended for use in the United States due to potential shock hazard.

### Caution Notice - Mercury Lamps

Mercury lamps are constructed of an outer bulb with an internal arc tube made of quartz. The arc tube operates under high pressure at very high temperatures—as high as approximately 1100°C. The arc tube and outer bulb may unexpectedly rupture due to internal causes or external factors such as a system failure or misapplication.
—Lamp may be operated in any position. Lamp must only be operated with compatible electrical equipment in the types of fixtures prescribed in the applicable specification bulletin. Fixture lens/diffuser material must be able to contain fragments of hot quartz or glass (up to 1100°C). If in doubt, contact your fixture manufacturer.
—Electrically insulate any metal to glass support in fixture to avoid decomposition of the glass.
—Protect lamps from direct contact with liquids (rain, sleet or snow) to avoid breakage from thermal shock.
—Screw lamp firmly but not forcibly into the socket to minimize loosening due to vibration. Do not use excessive force as the glass bulb may break.
—Do not scratch glass bulb because it may break during installation or later during lamp operation.
—Turn power off and let lamp cool before removal, to avoid potential burn and electrical shock hazard during lamp replacement.
—Relamp fixtures at or before the end of rated life. Beyond rated life, light output diminishes while energy consumption and risk of rupture increase.

### Important Notice

In accordance with Federal Standard 21 CFR 1040.30, the following notice applies to all Standard Mercury Lamps (those having Ordering Codes beginning with the letters "HR..."):"WARNING: This lamp can cause serious skin burn and eye inflammation from shortwave ultraviolet radiation if outer envelope of the lamp is broken or punctured, and the arc tube continues to operate. Do not use where people will remain for more than a few minutes unless adequate shielding or other safety precautions are used. Certain types of lamps that will automatically extinguish when the outer envelope is broken or punctured are commercially available from General Electric Company." These are self-extinguishing Saf-T-Gard mercury and Multi-Vapor lamps.

### Footnotes

1. Design Factor 1.1
2. Design Factor 1.05
3. Design Factor 1.0
4. Design Factor .90
5. Design Factor .85
6. Design Factor .80
7. Design Factor .75
8. Design Factor .70
9. Do not use this lamp in fixtures designed for less than rated lamp wattage.
10. When operated on ANSI specification "S56" High Pressure Sodium ballasts, lumen ratings will decrease by about 50%.
11. When operated on ANSI "S55" High Pressure Sodium ballasts, intermittent cycle and short lamp life will occur.
12. On suitable mercury ballasts, lamp wattage will slowly drop as the lamp ages.
13. For use only in 175-watt metal halide luminaires that do not exceed maximum temperatures of 160°C at the point where metallic base meets the heat resistant collar and 245°C on the solder button of the plastic collar for this lamp.
14. Life shown is for vertical ±15°C operation.
16. Approx. Lumen Ratings at 45°. Burning position initial - 145,000, mean - 135,500.
17. Mean lumens and rated life based on 5 or more burning hours per start.
19. Mean lumens shown are for operation on approved CW/CWA mercury ballasts at 10 hours per start. For continuous operation, mean lumens are 22,800 for vertical burning and 21,000 for horizontal.
20. Mean lumens shown are for operation on approved CW/CWA mercury ballasts at 10 hours per start. For continuous operation, mean lumens are 22,000 for vertical burning and 20,200 for horizontal.
21. When operated vertically on metal halide-type ballasts at 10 hours per start, approximate mean lumens are 27,000. This value also applies when lamp is operated continuously on approved CW/CWA ballasts. When operated horizontally, initial and mean lumens decrease by about 2000 lumens
22. When operated vertically on metal halide-type ballasts at 10 hours per start, approximate mean lumens are 26,300. This value also applies when lamp is operated continuously on approved CW/CWA ballasts. When operated horizontally, initial and mean lumens decrease by about 2000 lumens.
23. Mean lumens shown are for operation on approved CW/CWA mercury ballasts at 10 hours per start. For continuous operation, mean lumens are 21,650 for vertical burning and 19,850 for horizontal burning.
24. Mean lumens shown are for operation on approved CW/CWA mercury ballasts at 10 hours per start. For continuous operation, mean lumens are 21,100 for vertical burning and 19,350 for horizontal burning.
25. Mean lumens shown are for operation on approved CW/CWA mercury ballasts at 10 hours per start. For continuous operation, mean lumens are 25,700 for vertical burning and 23,600 for horizontal burning.
26. Mean lumens shown are for operation on approved CW/CWA mercury ballasts at 10 hours per start. For continuous operation, mean lumens are 25,500 for vertical operation, 22,600 for horizontal burning.
27. Data shown are for operation on typical CW/CWA mercury ballasts. On lag-type mercury ballasts: approx. initial lumens 109,200; mean lumens 87,350; lamp wattage approximately 970 watts. On M47 metal halide ballasts; approximate initial lumens 115,000; mean lumens 92,000; lamp watts 1000.
28. Use only 1000-watt H12 or H34-type ballasts. Do not use on 1000-watt H36-type ballasts.
29. Operate only on magnetic-regulating ballasts or CWA ballast with ignitors.

When it comes to lighting, no distributor outshines Grainger.

# INCANDESCENT LAMP INTRODUCTION

## HOW TO USE THE INCANDESCENT/ HALOGEN LAMP PRODUCT SECTION

**Our Incandescent/halogen lamp section is organized by lamp wattage and then lamp shape.**

1. **Identify lamp wattage and go to that section**
2. **Identify lamp shape by utilizing the icons on the side of the product chart**
3. **Identify the base by utilizing the icons on the top of the product page**

**Special Features:** Point out unique aspects of compact fluorescent lamps such as "75W Incandescent Equivalent".

**Rated Average Life Hours:** Average Life Hours figure represents the lamp's median value of life expectancy @ 3 hours per start.

**Lumens:** Lamp's approximate light output after 2 hours of operation.

Ⓔ Lamp meets Federal Efficiency Standard

| Lamp Designation | Description | Special Features | Volts | Watts | Rated Avg. Life Hours | Max. Overall Length (In.) | Lumens | Stock No. | Ⓔ | Priced Ea. Sold Only in Pkg. Qtys. List | Each | Pkg. Qty. | Ship Wt. Each |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| **135 Watts** | | | | | | | | | | | | | |
| **150A21/135WM/TS,** | Watt-Miser®, Clear, Traffic Signal, Krypton BDTH (23)‡ | | 120 | 135 | 700 | 4 11/16 | 1750 | **6V258** | | $11.87 | **$9.50** | 1 | 0.1 |

**NOTE:** Lamp drawings are not to scale. Be sure to check size and dimension information when identifying each lamp. All ratings and data are subject to change without notice.
To save energy costs, find the bulbs with the light output you need then choose the one with the lowest watts.

When it comes to lighting, no distributor outshines Grainger.

# INCANDESCENT LAMP CHANGERS

**Designed for industrial and commercial applications.** Changes high and hard-to-reach lamps safely and quickly without using ladders or platforms. A variety of sizes are available to fit the most commonly used lamps. Styles include rubber suction cup models for lamps where space surrounding the lamp is limited. To determine proper selection, match lamp changer to bulb size. Lamp changers are lightweight for ease of use and poles are insulated to protect against shock.

**Accessories** include a 5 ft. insulated, steel pole section with spring-loaded button enabling quick and secure assembly of poles to desired lengths. Up to 4 poles can be securely locked together to reach heights up to 25 ft. The broken base remover has a plastic shield designed to catch fragments and help protect the user. The broken base remover fits the lamp changer pole to provide a safe and sure way to remove broken medium and mogul base lamps. Made in USA. McGill brand.

## LAMP CHANGER SELECTION GUIDE

| Bulb Size | A | G | P | PS | T | FLE15/T19 | PAR | R | ER | E/BD | BT |

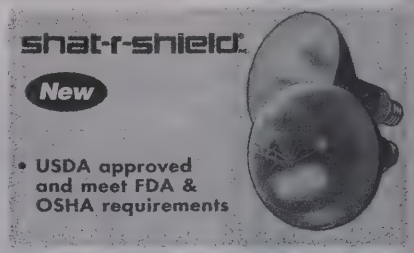
| K | Broken lamp base remover | N/A | N/A | 200 | **3V699** | 12.53 | **11.51** | 0.3 |

(*) Includes jointed angle adapter for easy removal of horizontally or angle mounted bulbs. Use with small headed bulbs only. (†) Use on smooth surfaced bulbs only.
Note: Bulb size, not wattage determines changer to be used.

# SHATTERPROOF INCANDESCENT LAMPS



- **Clear Teflon® coating is resistant to chemical contamination**
- **Easy to clean; shatter resistant**

**INFRARED HEAT LAMPS**

- **Withstand temperatures up to 500°F for over 2000 Hrs.**
- **Red bowl filters undesirable white light**
- **Applications include food warming, thawing, bathrooms, heating, and animal brooding areas (except fowl-chickens, turkeys, birds, etc.)**

| Watts | Bulb | Base | Volts | Description | Rated Avg. Life (Hrs.) | Lamp Designation | | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|---|---|---|---|
| **100** | PAR38 | Med.Skt. | 120 | Incandescant, Flood | 2000 | 100PAR38FL | *New* | **4LV86** | $20.51 | **$14.99** | 0.9 |

| **250** | BR40 | Med. | 120 | Heat Lamp Clear (3)* | 5000 | 250BR40/1 | | **4VC45** | 16.36 | **11.55** | 0.5 |

(*) See footnote on page 985.

## General Information

### INCANDESCENT

#### Protection From Moisture

When HRG (Heat Resistant Glass) or footnote designation (15)* appears in the Lamp Designation or Description column, the outer bulbs are made of special thermal-shock-resistant glass. However, sometimes external protection of the lamps is also needed to eliminate the chance of bulb breakage due to contact with water during operation. Footnotes will indicate when external protection is needed. Where HRG or footnote designation (15)* is not shown, the bulb glass is such that the lamps require protection from exposure to mist or condensation as well as direct contact with water during operation. Cov-R-Guard™ lamps and some Saf-T-Gard™ lamps (lamps coated with Teflon®) need no such protection from water. (Teflon® is a registered trademark of DuPont.)

#### Rated Life

Values are based on a large number of representative lamps under controlled conditions. Individual lamps or groups of lamps may vary from the Rated Life shown. Rated Life is a median value of life expectancy — the total operating time at which under normal conditions, 50% of any large group of initially installed lamps are expected to be still burning.

#### Bases

When Footnote 23 or BB (Brass Base) appears in the Lamp Designation or Description column, the lamp is supplied only with a brass base. If Brass Base (Footnote 23 or BB) does not appear, the lamp is supplied only with an aluminum base. Brass Bases are recommended for outdoor lighting applications.

#### Burning Position

Unless otherwise stated, the lamp can be burned in any position. Limitations on lamp operating position are shown in the Description column.

The following abbreviations are used:

**BDTH** (Burn lamp in Base Down To Horizontal Position)

**BUTV** (Burn lamp in Base Up To Vertical Position).

### HALOGEN LAMPS

#### Halogen Lamp Operating Precautions

The lamps listed in this catalog are filled to high internal gas pressures to maximize lamp efficacy (lumens per watt). Some general cautions are given below.

#### High Operating Temperatures

Since operating temperatures are critical to the effective self-cleaning properties of halogen lamps, filament tube wall temperatures should not go below 482°F (250°C). Hot spots on the bulb wall itself can go as high as 1230°F (700°C) in normal operation.

Substantial heat is generated in all halogen lamps, so equipment design should make allowance for the dissipation of excessive heat. Certain lamps and extremely confined fixtures may require additional ventilation or heat sinking to ensure proper operation of the halogen cycle and to prevent damage to the fixture. It is a good practice to test the lamp in the operating environment early in the design cycle to ensure adequate performance. Precautions must be taken in the selection of materials for lampholders, reflectors and lamp housings because the 1230°F (700°C) bulb wall temperature is greater than the kindling temperature of many materials. Lamp base temperatures should not exceed 662°F (350°C) because, above that point, lead wires may deteriorate and the basing cement loosen, causing premature lamp failure.

#### Distribution of Spectral Radiation

Halogen lamps offer large amounts of visible and infrared energy from a small light source, with about 90% of the energy in the infrared. Some halogen lamps can be used for special applications where small amounts of ultraviolet energy are required. The slight ultraviolet radiation that comes from unprotected sources could cause skin and eye irritation following extended direct exposure. Passing the light through ordinary glass or plastic provides adequate protection. The lenses of the PAR, TAL or Cover Glass Precise lamps provide this protection.

#### Quartz Heat Lamps

GE standard quartz heat products are primarily pressurized halogen lamps. Many standard tungsten coil filaments have been converted to a deflection coil winding design that eliminates the need for filament supports through an integral coil/support construction. These changes will improve lamp life as well as keep the bulb wall cleaner during operation and throughout the life of the lamp.

In general, halogen lamps are more efficient than ordinary incandescent lamps. Halogen-IR lamps are the most efficient halogen lamps we offer. For each application, check life, lumens, wattage, beam spread and lamp dimensions to determine proper bulb selection.

GE has added a reflectorized heat lamp with a patented design that directs the infrared to a surface rather than in 360° angle.

### HALOGEN LAMPS - CAUTION NOTICE

The filament tubes or bulbs used in all halogen lamps generate intense heat, are pressurized and could shatter if scratched or damaged. Glass halogen bulbs should be protected against liquids when in use. Provide glass or plastic protective shielding with equipment in which halogen bulbs are installed or used. PAR, TAL and Cover Glass lamps have integral shields and do not require extra protection. Do not operate in proximity to substances or materials that are flammable or adversely affected by heat or drying.

#### For satisfactory performance:

- Do not operate above rated voltage
- For 2 Pin (GU4, GU5.3) lamps, care must be taken to ensure that the lamp seal area is not strained, cracked, chipped or otherwise damaged to avoid premature lamp failure
- GU5.3 lamp caps are compatible with GX5.3 lamp holders; GU4 caps are compatible with GZ4 lamp holders.
- Limit seal and outer lead wire temperature to 662°F (350°C) to avoid lead wire deterioration, except for high temperature (HT) lamps
- Maintain a minimum bulb wall temperature of 482°F (250°C) for operation of the halogen cycle
- Remove grease or fingerprints from quartz halogen bulbs with a grease-free solvent before use

Use appropriate protection to avoid risk of injury when handling or disposing of all halogen bulbs. Wear eye protection. Turn power off when installing and before removing lamp. Allow lamp to cool before removal.

Halogen PAR lamps use an inner halogen bulb. If the outer sealed envelope is broken replace the entire unit. Do not use even though it appears to be operable.

Remove carefully and dispose of the lamp by placing it in a closed container.

A complete statement of precautions is provided with each halogen lamp.

#### Operating Notes

Low voltage tungsten-halogen lamps are sensitive to voltage variations. Even a small change in voltage can have a considerable impact on lamp life. Designers should match fixture transformer ratings to actual line voltages to ensure that the lamps operate at as close to 12 volts as possible.

Rapid cycling can also shorten lamp life, and designers should check before using these lamps in flashing or blinking applications.

The lamps may be dimmed by reducing voltage. However, this may cause the bulbs to blacken. If this occurs the lamp should be run at full voltage for fifteen minutes, thereby clearing the problem. Note that the nature of low voltage lighting systems requires the use of fluorescent-type dimmers. Lamp can be operated on AC or DC currents.

# INCANDESCENT AND HALOGEN LAMP FOOTNOTES

## Footnotes

. Burning position - base down only
A. Do not allow the bulb to be dragged across or to strike a hard surface since this action may cause minute cracks. Do not place lamp directly over the exposed person unless a protective screen or mesh is between lamp and user.
. Burning position - horizontal
. Burning position - base up.
. Avoid contact of hot glass bulb with liquid or metal, as glass may shatter.
. Design life in excess of 5000 hours. Actual life depends on service conditions.
. Base pins approximately parallel to plane of lead wires.
. For use only in equipment specially designed to maintain bulb and base temperatures within safe limits.
. Indicates total sold in 2-lamp packs only. End caps not included.
0. Single contact medium bayonet base without pins, with a lug focusing sleeve as indicated. LCL and A.A. tolerance: 1/64 in.
1. To protect persons against risk of breakage, use a protective screen external to the lamp.
2. Not recommended for horizontal burning.
3. Unsatisfactory lamp operation is likely to occur in burning position between horizontal and base up, particularly between 45° from base up and base up.
4. In "base up" use, heat eventually may deteriorate paper-lined or plastic sockets.
5. Lamp is made of heat resistant glass (HRG).
8. Operating position horizontal with locating lug up or down and with lamp supported by bulb rim.
9. Burn within 25° of vertically base up.
0. Recommended burning position: any within 60° of vertically base up or down; but lumen maintenance is best when burned vertically base up.
1. May not give satisfactory performance if any accessory equipment is attached to or touches the glass bulb. The bulb, although made of heat-resistant glass, may break if moisture falls on it.
3. Lamp base is a brass base (BB).
5. To produce all three levels of light, this lamp should be tightened firmly but not forcibly in the socket to assure that all contacts are connected.
8. For use only in porcelain sockets and fixtures so designed that the temperatures of the lamp and fixture do not exceed limits for satisfactory operation.
9. Average laboratory life is 200 hours for vacuum cleaners and 600 hours for sewing machine services.
1. Bulb top selected for minimum glass imperfections.
2. This 277-volt lamp should be enclosed if it is used on high-capacity low impedance electrical distribution systems. At the end of lamp life on such systems, the lamp may shatter, with risk of injury to persons or property if it is not suitably enclosed.
3. Light output is maintained best when burned within 45° of vertically base up.
4. May not give satisfactory performance if any accessory equipment is attached to or touches the glass bulb.
5. Should not be used in equipment where the base temperature will exceed 500°F (260°C)
6. Should be shielded against moisture falling on the bulb.
7. The plane containing the base axis and the major locking eyelet (the eyelet that is equidistant from the other two eyelets) is at right angles to the plane of the filament or lead wires. Distance from bottom base contact to bottom of the collar is .406.
0. Operate base down within 45° of vertical. Any tilt should be in direction in which the filament plane faces.
3. Design volts of range: 240
4. Indicates sold in 4-lamp packs only.
6. This lamp produces base temperatures which may deteriorate paper-lined or plastic sockets. Use only in fixtures approved for this type and wattage bulb.
7. Teflon® coated. Teflon® is a registered trademark of DuPont.
2. Operate base up, within 30° of vertical.
3. Use lamp only on circuits supplying the same voltage as marked on the bulb. DO NOT insert in household sockets.
5. Lamp base is a nickel plated brass base (NPBB).
6. Avoid use at short distances on materials that are inflammable or susceptible to heat damage.
8. For use only with heat-resistant connector and with lamp supported by bulb rim or metal shell of base.
9. For use only with heat-resistant connector and with lamp supported by bulb rim.
1. Maximum Excursion Radius: 5/8 in.
2. Wattage shown is nominal. Design current is 0.139 amps at 120 volts.
6. Rated average life based on 14V operation.
9. Light center length and A.A. tolerance: 1/16 in.
0. Light center length and A.A. tolerance: 1/64 in.
1. Burning position – plane through lamp axis and base terminals is horizontal.
2. Burning position - plane through lamp axis and base prongs is horizontal. Base is without insulator.
3. Collector grid.
4. High Intensity (Supplementary Lighting) lamps should be replaced only with an equivalent lamp having correct volts and watts for the fixture used. Substituting higher wattage lamps may cause damage to fixture.
6. Burn base up to horizontal.
8. Use only in fixtures rated for Cool Beam lamp operation.
9. For use only in fixtures that adequately dissipate heat. Blue and green lamps should be protected from falling rain and snow if aimed above horizontal.
0. Do not use lamp in application where it may be exposed to direct water splash. If lamp is used outdoors, it must be protected by an enclosed fixture or an overhang. Failure to properly protect the lamp can result in premature failure of the lamp.
3. Will operate in any burning position, but fixed-socket usage other than base up or continuous burning in any position in ambient temperatures above 150°F (66°C), may result in some loss of protective coating. Reflectors and accessories may raise bulb temperature and cause some loss of protective coating.
8. If lamp is cracked or broken, replace immediately. The lamp may continue to light, but the inner bulb is pressurized and could unexpectedly shatter. Dispose of with care.
9. Insertion in "twist-in" type sockets requires only a slight clockwise turn - excessive force may break the bulb.
2. Lamp should be screwed firmly into the socket, although not forcibly so that it will not loosen and fall out. Use lamp-grip sockets or wire guards where vibration is present, particularly if lamp is used above or close to people. Do not attempt to use the lamp if the filament has been broken even though ends of filament are in contact. Also, have circuits properly fused. Do not use if glass is cracked.
3. Use only in swimming pool fixtures that comply with applicable safety standards and codes.
4. Observe operating and exposure limitations stated on packaging material, fixture and/or instruction booklet enclosed.
5. Do not use in hazardous locations such as near gasoline or other combustible materials or vapor.
6. Under moist conditions, metal parts of lamp and lampholder may become a shock hazard. Therefore, disconnect from circuit before touching.
7. While this lamp was carefully inspected before shipment, the glass bulb may crack when subjected to abnormal pressure. Therefore, it is recommended that the bulb be grasped with a cloth or glove when removing or installing the lamp in a tight-fitting socket.
9. For use only in equipment designed for lamps of this type and wattage, having ventilation adequate to maintain bulb and base temperatures within safe limits.
0. For use only where seal temperature does not exceed 662°F (350°C). For satisfactory lamp operation a minimum bulb wall temperature of 482°F (250°C) is required.
3. Life dependent on service conditions.
5. For a more uniform lighting pattern in display applications calling for ENL, use Precise lamp (Q50MR16/NFL30 (EXK).
6. Although made of heat-resistant glass, the bulb and lens should be protected from moisture or breakage may result. The lens or bulb may break during usage under certain other conditions beyond the control of the manufacturer. Therefore, screening techniques are recommended where appropriate to protect people and surroundings from hot fragments.
8. The bulb, although made of heat-resistant glass, may break if moisture falls on it. Lamp not recommended for use in enclosed close-fitting housings.
1. Flexible leads not included in maximum overall length.
2. This lamp is made of heat-resistant glass. It can be used indoors in an open fixture, and outdoors without moisture protection if burned base up to base horizontal in a neck sealed gasketed-type lampholder. In other burning positions outdoors, protect lens and bulb from moisture, or breakage may result. Lamp is not recommended for enclosed, close-fitting housings.
3. Continuous operation of the lamp at full amperage for extended periods (longer than 100 hours), or high duty cycle at high temperature may cause coating to delaminate (peel) near the center of the lamp lens.
4. Nickel plated brass base (NPBB).
0. Initial Avg. Max. Candlepower (Average over a 5 cone for SP and NSP and over a 10 cone for FL and NFL).
2. 36mm stranded leads with lug terminals.
3. Can be operated in any position, even vertically; however, when burned other than horizontally, the end marked "This End Up" on the sleeve base must be higher than other end of lamp.
5. Generally limited to intermittent burning in special equipment.
9. D.C. Bayonet (Ba15d) base with ring collar added. Light Center Length measured from plane of the three bosses on ring collar.
1. For use only with heat-resistant connector and with lamp supported by bulb rim.
2. For use only in equipment designed for lamps of this type and wattage, having ventilation adequate to maintain bulb and base temperatures within safe limits.
3. Lamp provides maximum filament straightness under severe operating conditions.
4. MOL dimension includes only length of quartz.
5. Filament: diameter, 3.6mm; length, 5.5mm (10%).
7. Filament: diameter, 1.5mm; length, 4.5mm (10%).
8. Filament: diameter, 1.5mm; length, 10mm (10%).
9. Filament: diameter, 3mm; length, 10mm (10%).
0. Filament dimension: diameter, 1.9mm; length, 6.4mm (10%)
1. Filament offset 0.0359 from center axis of lamp.
1. Approx. 1" (25mm) ribbon leads extending along axis of the lamp.
2. Initial average beam candlepower within cone is 15, 500.
5. Approx. 1" ribbon leads extending normal to lamp axis in same plane as seals.
6. Recessed Single Contact base with metal ferrule. Designed for use only in special equipment.
7. Average laboratory life in excess of 5000 hours in-service life depends upon service conditions.]

**OUR PRODUCT SELECTION IS BIGGER AND BETTER THAN EVER!**

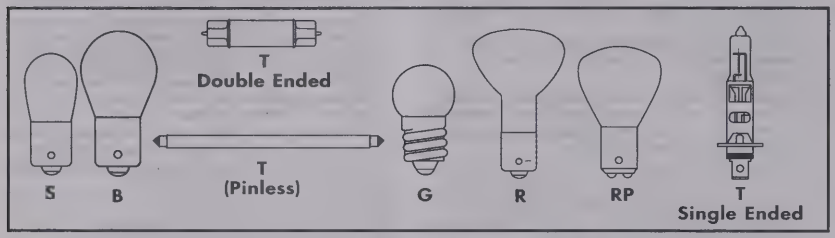
**In addition to our new product listings from the leading brand names, Grainger now offers you more than 78,000 products to meet your maintenance, repair, or operation supply needs.**

# MINIATURE LAMP INTRODUCTION

## HOW TO USE THE MINIATURE LAMP PRODUCT SECTION

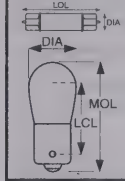
- **Our miniature lamp product section is organized alpha-numerically by Industry Trade Lamp number.**

1. Identify the industry trade number found on the lamp in order to search for a match



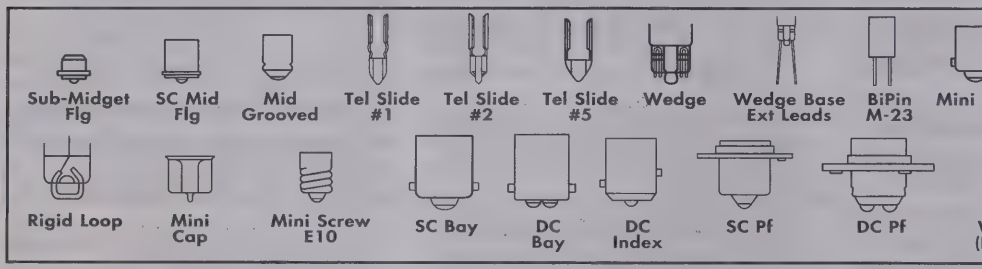
**Trade Lamp Number:** The lamp's identification code.

**Design-Voltage & Watts/Amps:** Voltage at which the lamp is designed.



**Approximate Mean Spherical Candle Power:** Light output at design voltage.

**Rated Average Life Hours:** Average Life Hours figure represents the lamp's median value of life expectancy.



| Trade Lamp Number | Bulb | Base | Description | Voltage | Design Watts/Amps | Approx. Spherical C.P. | Rated Avg. Life Hours | Maximum Overall Length (In.) | GE Product Code | Stock No. | Priced Ea. Sold Only in Pkg. Qtys. List | Each | Pkg. Qty. | Ship Case Qty. | Shpg Wt. Ea. |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| H3-55/BP1 | T-3 1/2 | PK22S | Auto ECE | 13.20 | 6200W | 115.00 | 225 | 1.65 | 12239 | 1E757 | $6.61 | $6.28 | 6 | 1 | 0.1 |

**Lamp Size Identification**

**DIA.:** Diameter of bulb (from outer edge to outer edge).
**MOL:** Maximum Overall Length in inches.

GE miniature lamps are designed for those applications requiring specific size, long life, and low cost.

- **Wide range of voltages**
- **Wide variety of filament constructions and bases**
- **Designed for operation on low voltage power sources—battery generator systems, dry cell or storage batteries, or transformers**

Glass Halogen Miniature Lamps

- **Increased range in candlepower & wattages of these halogen-cycle lamps allows for many new & current design applications**
- **Lamp design consists of a hemispherical bulb top with more uniform light output than a top-tipped halogen lamp**
- **Sturdy nickel-plated iron leads in two-pin types allow for positive electrical connection, minimizing voltage drops due to intermittent connections**
- **Although these lamps can be damaged by thermal shock, they are not subject to devitrification**
- **Electrical connections to lamps offered with molybdenum leads can be made by crimping or welding**

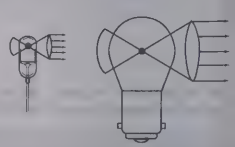
Quartzline® Fused-Quartz Miniature Lamps

- **Normally used in special applications, but can also be used in many general applications**
- **Can withstand thermal shock — i.e. it will not crack or break even when suddenly exposed to water or ice**

Halogen-Cycle Lamps

Higher Light Output from Less Energy and a Smaller Lamp Package

- **Typical halogen-cycle miniature lamp rated at 45 watts produces as much light as a standard 60-watt household bulb... yet the halogen-cycle lamp is 1/6 the size of the household lamp**



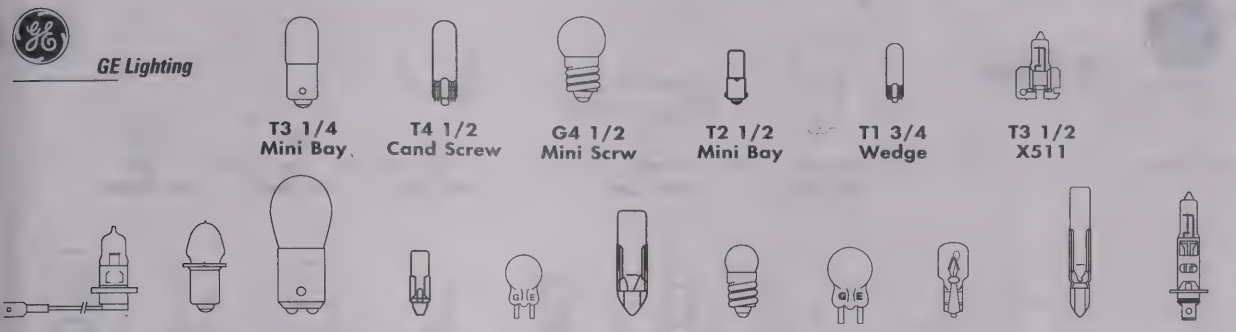
Higher Maintained Light Output Over Life

- **Can be operated at high wattages without sacrificing the light output over life**
- **Most halogen-cycle lamps produce 85 to 95% of their initial light output at 70% of their life expectancy**
- **Bulb blackening due to tungsten deposits on the bulb wall is virtually eliminated**

Available in Full Range of Types and Sizes

- **GE halogen-cycle lamps are available in voltages ranging from 4 to 32**
- **Candlepower ranges from 3.8 to 660**
- **Lamp sizes range from 7.5 mm to 16 mm miniature diameters**
- **Sockets for GE halogen-cycle lamps are commercially available from a number of manufacturers**

- **Halogen-cycle lamps are much smaller in size than conventional incandescent lamps**



When it comes to lighting, no distributor outshines Grainger.

ORDER DIRECT FROM GRAINGER

You can order directly from Grainger, call your local branch and place an order. To find the branch nearest you, check the Branch Locations listed in the front of this catalog. You can pick your order up or we'll ship it today.

*Ordering is easy — Call, fax, visit or go online @ www.grainger.com*

GE Lighting

### High Operating Temperatures

Because operating temperatures (watts plus environment) are critical to the effectiveness of the self-cleaning properties of halogen-cycle lamps, bulb wall temperatures should not go below 250°C. Hot spots on the bulb wall itself can go as high as 700°C in normal operation.

Substantial heat is generated in all halogen-cycle lamps, so allowances should be made for the dissipation of excessive heat in equipment design. Certain lamps and extremely confined fixtures may require additional ventilation or heat sinking to ensure proper operation of the halogen cycle and prevent damage to the fixture. It is a good practice to test the lamp in the operating environment early in the design cycle to ensure adequate performance. Precautions must be taken in the selection of materials for lamp-holders, reflectors, and lamp housings because the 700°C bulb wall temperature is greater than the kindling temperatures of many materials. Lamp base temperatures should not exceed 350°C because, above that point, lead wires may deteriorate and the basing cement may loosen, causing premature lamp failure.

### Distribution of Spectral Radiation

Halogen-cycle lamps offer great amounts of visible and infrared energy from a small light source, with about 90% of the energy in the infrared. Some GE lamps can be used for special applications where small amounts of ultraviolet energy are required.

**Footnotes:**

3. Useful hours.
7. Entire bulb selected for minimum glass imperfections.
8. Bulb top selected for minimum glass imperfections.
10. At 5 volts.
12. Average overall length.
13. Supported.
14. This lamp is specially designed for a particular purchaser and may not be suitable for other uses because of its excessive wattage requirements for the bulb size.
15. This lamp is specially designed for a particular purchaser and may not be suitable for other uses because of its limited mechanical strength.
17. Filament shielded.
21. Top of bulb light outside frosted.
32. Designed and rated for operation in supplementary cathode preheat circuits for which specifications are available from the lamp manufacturer.
42. Actual life depends upon use and environment. Theoretical design average life is 25,000 hours.
43. Actual life depends upon use and environment. Theoretical design average life is 50,000 hours.
44. At 6.6 volts.
52. Light center length measured from open end of base to filament center. Three-part base with inner sleeve approximately 7/32" long, and with outer part of base threaded and knurled.
62. Tolerance for light center length ± 1/32" and axial alignment ± .060".
69. Not recommended for new OEM applications—suggested for new design are wedge base lamps such as GE Lamp Numbers 159, 259, and 161.
70. These lamps produce a random flashing indication only. While the majority should flash between 40-160 flashes per minute at normal room temperature, some will be outside this range. As ambient temperature and/or input voltage changes, the flash rate may vary considerably. At rated voltage and room temperature most lamps will flash within 60 seconds.
71. Use these lamps with auxiliary equipment specially designed to produce proper electrical values conforming to established specifications. For total load, add auxiliary watts to lamp watts.
72. CAUTION: This is a low-voltage lamp and is not for use in ordinary household circuits. The bulb may shatter if used in circuits of 110-120 volts or higher.
73. CAUTION: While this lamp is carefully inspected before shipment, the glass may crack when subjected to abnormal pressure. Therefore, it is recommended that the bulb be grasped with a cloth or glove when removing or installing the lamp in a tight fitting socket.
74. This butt seal wire terminal lamp is normally considered a subassembly. The glass-to-metal seal and glass tip are fragile. Therefore, any bending or soldering of the wire terminal closer than 1/8" from glass should be avoided since the bending or heat can cause leaks in the seal. Solderability may be adversely affected by storage for an external period in excess of six months or by storage in a high humidity environment. Lamps with tinned leads would not be subject to these storage restrictions.
75. Estimated. Based on limited test information.
78. GE Lamp #385 is not interchangeable with other manufacturers' lamp #385. ANSI specifies .38" light center length and .63" maximum overall length.
79. Life shown is AC voltage only. DC life will be approx. 50% of AC.
109. Special fixture required for highway use.
110. To be used with variable load flasher in applications where bulb outage indication is not required, or with an appropriate fixed load flasher. Bulb outage indication not required on a truck, bus, or mullet-purpose passenger vehicle 80 or more inches in overall width; on a truck that is capable of accommodating a slide-in camper; or any vehicle equipped to tow trailers. Flash rate may be altered if used with incorrect fixed load flasher.
114. CAUTION: This halogen-cycle bulb could shatter if scratched or damaged. Use appropriate protection for eyes and exposed skin when handling, using or disposing. Use in fixtures designed for the high temperature required for proper operation and that offer protection in case the bulb shatters. Turn power off when changing lamps. Allow lamp to cool before removal. For satisfactory performance: 1) limit seal and outer lead wire temperature to 350°C or lead wire deterioration may occur; (2) maintain a minimum bulb wall temperature of 250°C for operation of the halogen cycle; (3) remove fingerprints from bulb by cleaning with a grease-free solvent; (4) operate at design volts.
116. Life tests are performed on DC voltage only.
120. This lamp is specially designed for a particular purchaser and may not be suitable for other uses because of its nonpermanent color coating.
121. To minimize the possible adverse effects on lamp life due to excessive wattage in relation to bulb size: Burn Base Down to Base 45° Above Horizontal. Regardless of burning position, this excessive wattage will abnormally decrease light output during life.
122. This is a wire terminal lamp. The glass-to-metal seal (and tip where applicable) are susceptible to damage by thermal shock, and soldering or welding within 1/8" of the glass should be avoided as glass cracks and air leaks may develop. Solderability may be adversely affected by storage for an extended period in excess of six months or by storage in a high humidity environment. Lamps with tinned leads would be subject to these storage restrictions. Nickel-plated leads are not recommended for soldering; however, their ability to be welded is not affected by these storage restrictions.
124. .028" metal pins spaced 44mm (.157") apart. GE's all-glass two-pin lamps might not be compatible with all G-4 sockets since many sockets do not provide clearance for the exhaust tip.
126. Intermittent service only.
127. LCL measured to top of filament.
128. Minimum 1/4" spot at .100" from bulb top.
129. Leads cleaned and solderable.
130. Subminiature wedge base lamps under 12 volts have copper-clad outer lead wires to decrease contact resistance at the expense of corrosion resistance in severe environments.
131. CAUTION: This halogen-cycle lamp is pressurized and may shatter. Do not operate lamp in excess of rated voltage as this will increase lamp pressure and the risk of shattering. Protect lamp against abrasions and scratches and against liquids when lamp is operating. To guard against personal injury, wear protective eyeglasses and clothing when handling lamp. Provide protective screen or shield with equipment in which lamp is installed or used. Turn power off when installing and before removing lamp. Dispose of lamp with care. Because of heat generated by lamp, use only with sockets and housing designed to withstand the lamp's high operating temperatures. Do not operate in proximity to substances or materials that are flammable or adversely affected by heat or drying. Allow lamp to cool before removing. If further processing of the leads, such as bending, welding, crimping, etc., is required, care must be taken to assure that the lamp seal area is not strained, cracked, chipped, or otherwise damaged, or premature lamp failure may occur. For satisfactory performance: (1) limit seal and outer lead wire temperature to 350°C or lead wire deterioration may occur; (2) maintain a minimum bulb wall temperature of 250°C for operation of the halogen cycle; (3) operate at design volts.
133. Satisfactory for use when noise requirements apply.
144. Potentially limited availability in large quantities at certain times of the year.
147. Differs from ANSI.
155. CAUTION: This halogen bulb contains gas under pressure and could shatter (with resultant flying fragments). Protect bulb against abrasions or scratches and against liquids when lighted. Turn on the bulb only when installed in a headlamp. Replace headlamp if damaged or cracked. Keep bulb out of the reach of children and dispose of used bulb with care.
156. CAUTION: This halogen-cycle inner bulb is pressurized. It may shatter if glass is cracked or scratched, or if moisture or liquids hit hot bulb. Never operate outside of housing.
160. Filament will generate specified MSCP in a non-shielded bulb.
161. MSCP measured with black top.
162. Based on three hours of burning per start.
164. Life to approximately 50% of initial output. Values shown apply to use on AC unless otherwise shown. Life on DC is approximately 60% of AC values when DC current is equal to R.M.S. (Root Mean Square) AC value. When equal DC and R.M.S. AC voltages and equal resistances are utilized, life will be approximately the same.
165. For DC operation of high, brightness lamps, use minimum of 150 circuit volts. Maximum initial breakdown voltage—95V AC, 135V DC in light.
168. High brightness.
170. Dark effect reduced.
171. Values shown apply to use on AC unless otherwise shown. End of life occurs when breakdown voltage increases to line voltage and lamp will no longer start. With equal DC and R.M.S. AC current life will be somewhat lower than the 60% value quoted for standard brightness lamp, and current and wattage will increase over AC values shown.
200. Normally an acceptable substitute for a 1978X.

# SEALED BEAM LAMPS

## HOW TO USE THE SEALED BEAM LAMP PRODUCT SECTION:

- **Our sealed beam lamp section is organized numerically by Industry Lamp Trade number.**

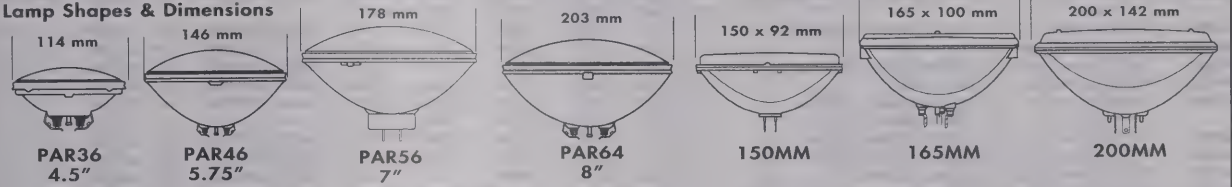
1. Identify the industry trade number found on the lamp in order to search for a match.

**Industry Code:** The lamp's identification code.

**Approximate Initial Maximum Beam Candle Power:** Maximum light intensity at a point in the beam.

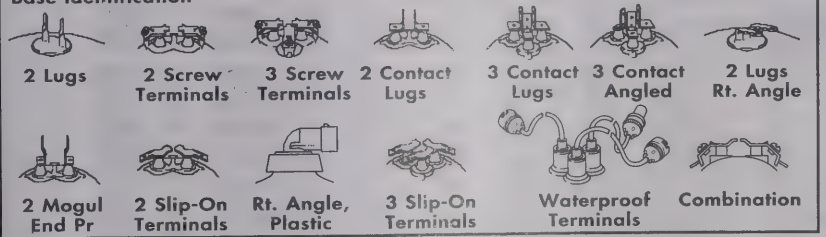
**Rated Average Life Hours:** Average Life Hours figure represents the lamp's median value of life expectancy

| Industry Code | Bulb | Base | Description | Design Voltage | Design Watts | Appr. Init. Max. Beam Candle Power | Rated Avg. Life Hours | Maximum Overall Length (In.) | GE Product Code | Stock No. | List | Each | Ship Case Qty. | Shpg. Wt. Ea. |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| **4000** | PAR46 | 3 Lugs | Auto Headlamp, Hi/Lo Bm (4,26)* | 12.8 | 37.5 | SAE | 200 | 4.00 | 18511 | **6VH84** | $7.34 | **$5.88** | 6 | 0.5 |



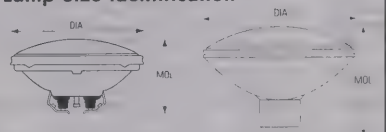
**Note:**
Lamp drawings are not to scale. Be sure to check size and dimension information when identifying each lamp.

All ratings and data are subject to change without notice.



SAE –

**SAE:**
SAE specifications are found in SAE Ground Vehicle Light Standard Manual SAE HS-34



### Lamp Shapes & Dimensions

### Base Identification

### Lamp Size Identification

**DIA.: Diameter of bulb (from outer edge to outer edge).**

**MOL: Maximum Overall Length in inches.**

GE Lighting

### Sealed Beam Lamps

GE sealed beam lamps are designed for those applications requiring specific size, projected light and basically the same light output throughout life.

- **Wide range of voltages and watts**
- **Wide variety of filament constructions and bases**
- **Designed to operate on low voltage power sources—battery generator systems, dry cell or storage batteries or transformers**

### Glass Halogen and Quartzline® Fused-Quartz Sealed Beam Lamps

- **Designated in this catalog by the prefixes H and Q**
- **Can be used in many applications to take advantage of their higher light output compared with standard incandescent sealed beam lamps**
- **Standard PAR36, PAR46, PAR56, PAR64 and rectangular 140 mm, 150 mm, 165 mm, and 200 mm sizes allow possible use in existing housings**
- **Several different beam patterns are available for a variety of applications**
- **Sealed to prevent moisture, dust and dirt from deteriorating the reflector**

### Consider These Factors When Selecting GE Halogen-Cycle Sealed Beam Lamps

#### Lamp Efficacy and Operating Precautions

The lamps listed in this catalog are filled to high internal gas pressures to maximize lamp efficacy (candlepower or lumens per watt). Because both lamp bulb material and pressure vary by lamp design, different CAUTION notices apply. Be sure to see the appropriate notice(s) for the lamp(s) you select.

#### High Operating Temperatures

Because operating temperatures (watts plus environment) are critical to the effectiveness of the self-cleaning properties of halogen-cycle lamps, bulb wall temperatures should not go below 250°C. Hot spots on the bulb wall itself can go as high as 700°C in normal operation.

Substantial heat is generated in all halogen-cycle lamps, so allowances should be made for the dissipation of excessive heat in equipment design. Certain lamps and extremely confined fixtures may require additional ventilation or heat sinking to ensure proper operation of the halogen cycle and prevent damage to the fixture. It is a good practice to test the lamp in the operating environment early in the design cycle to ensure adequate performance. Precautions must be taken in the selection of materials for lampholders, reflectors, and lamp housings because the 700°C bulb wall temperature is greater than the kindling temperatures of many materials. Lamp base temperatures should not exceed 350°C because, above that point, lead wires may deteriorate and the basing cement may loosen, causing premature lamp failure.

#### Distribution of Spectral Radiation

Halogen-cycle lamps offer great amounts of visible and infrared energy from a small light source, with about 90% of the energy in the infrared.

Some GE lamps can be used for special applications where small amounts of ultraviolet energy are required.

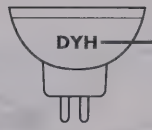
(*) See Sealed Beam Lamp footnotes below.

### Sealed Beam Lamp Footnotes

4. At 14 volts.
14. This lamp is specially designed for a particular purchaser and may not be suitable for other uses because of its excessive wattage requirements for the bulb size. Consult the nearest Grainger sales office for application information.
15. This lamp is specially designed for a particular purchaser and may not be suitable for other uses because of its limited mechanical strength. Consult the nearest Grainger sales office for application information.
20. Slightly rounded cover.
23. At 7 volts.
26. Lower beam filament shielded.
81. 90° spherical shield above filament which masks all upward direct light.
82. Hemispherical shield in front of filament which masks all direct light.
83. 120° cylindrical shield positioned to the side of the filament.
92. Filament segments parallel.
94. Trapezoidal beam, spread to 10% measured through the center of the beam pattern.
96. Lens stippled.
98. Not for highway use.
108. The process of applying this permanent red finish may impart a slight iridescence and gradation of color to the lens, but this will not affect lamp's performance.
109. Special fixture required for highway use.
118. CAUTION: This sealed beam lamp has an inner halogen-cycle bulb. This pressure-filled inner bulb could shatter if scratched or damaged. If the outer sealed envelope is intact, this will be no problem. If the outer sealed envelope is broken, however, do not operate the lamp. Instead, carefully remove and dispose of the lamp by placing it in a used headlamp carton or other closed container.

INFORMATION NOTICE: The inner bulb will continue to burn if the outer envelope is cracked or broken. Cracked or broken envelopes will result in reflector deterioration such as the discoloration and disappearance of the aluminized coating. This deterioration will also reduce light output. Promptly replace any sealed beam lamp showing reflector deterioration.



134. Wide flood beam lamps are used for forward illumination as well as for lighting implements at the rear of the tractor.
138. Life under specified test conditions: Cycled 5 minutes off.
146. Ceramic bridge.
151. Alternative construction may be adhesive seal.
163. Plastic lens and reflector.
166. Contact lugs are angled.

# PROJECTION LAMPS

## HOW TO USE THE PROJECTION LAMP PRODUCT SECTION

- **Our projection lamp section is organized alphabetically by the three-letter ANSI industry code.**

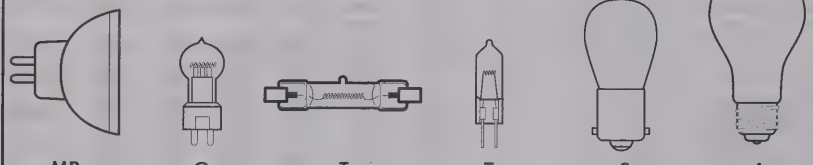
1. Identify the ANSI code found on the lamp in order to search for a match.

**ANSI Code:** The lamp's identification code.

**Rated Average Life Hours:** Average Life Hours figure represents the lamps median value of life expectancy.

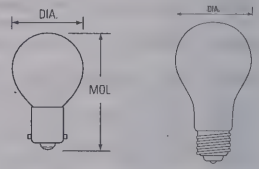
**Initial Lumens:** Lamp's approximate light output after 100 hours of operation.

**Color Temp:** "Warmth" or "Coolness" of the lamp measured in Kelvins (K). The higher the temperature, the cooler the appearance of the light.



| ANSI Code | Bulb | Base | Description | Watts | Volts | Rated Avg. Life Hours | Maximum Overall Length (In.) | Initial Lumens | Color Temp. | Filament | GE Product Code | Stock No. | List | Each | Ship Case Qty. | Shpg. Wt. Ea. |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| BAK | A21 | Med | Frosted | 300 | 120 | 20 | $4^{15}/_{16}$ | 9000 | 3200 | — | 40886 | **1C466** | $4.66 | **$4.62** | 24 | 0.3 |

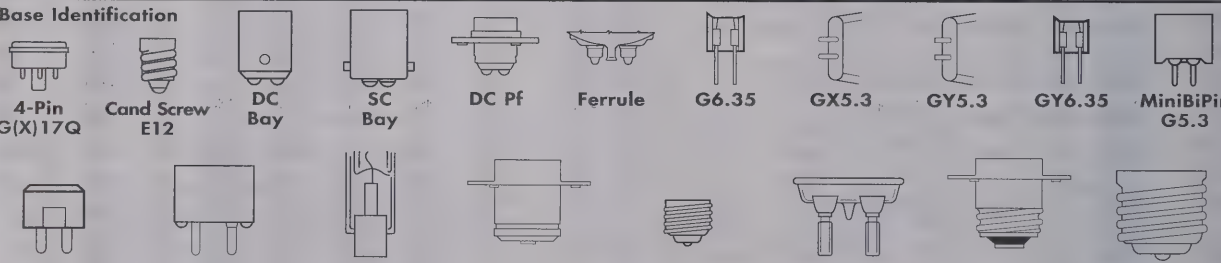
Identifies ANSI Code



**Note:** Lamp drawings are not to scale. Be sure to check size and dimension information when identifying each lamp.

All ratings and data are subject to change without notice.

### Lamp Shapes



### Lamp Size Identification

**DIA.:**
Diameter of bulb (from outer edge to outer edge)

**MOL:**
Maximum Overall length in Inches.

### Base Identification

### GE Projection Lamps...Quality products that fill many needs

**Introduction**

GE Projection Lamps are designed for a wide variety of applications, extending well beyond the original picture-taking and audio-visual projection uses into such fields as: fiber optical systems, graphic arts, video camera lights, airport runway markers, micrographics, photo printers and enlargers, medical/scientific instruments, and many others.

GE Lighting

**GE Projection Lamps Feature:**

- **Precisely manufactured, tailored filaments that maximize source brightness, for optimum performance in precision optical devices**
- **High light-generating efficiency (lumens per watt) to help minimize power requirements and heat generation**
- **Prefocus type bases, or rim-reference mounting for Multi-Mirror® lamps to position the filament accurately in relation to the associated optics**
- **Designed life Rated Average life (per ANSI Standard)**
- **Lamps with internal or external reflectors (as in Multi-Mirror® and some 4-pin projection lamps) permitting high-efficiency illumination system designs with a minimum of additional optical control elements**

*When it comes to lighting, no distributor outshines Grainger.*

(*) See Projection Lamp footnotes below.

### Caution Notice: Incandescent Projection, Enlarger, and Printer Lamps

**Caution—General Electric Glass Projection Lamps with three-letter ANSI codes operate under pressure, above room temperature and may unexpectedly shatter. Protect people and surroundings from the possibility of injury or fire from hot, flying fragments with a suitable enclosure, shield, lens or screen. Do not operate projection equipment with the lamp compartment open. Observation of the following operating instructions will help avoid early lamp failure.**

1. Use lamp only in equipment specifying this lamp type and which provides adequate ventilation to maintain lamp within safe operating temperatures. If in doubt, contact equipment manufacturer.
2. Operate lamp only in the position indicated by the instructions on the lamp or lamp package, or as noted in the GE catalog description of the lamp.
3. Do not bump or bounce equipment during operation.
4. Protect lamp from moisture, scratches or abrasions.
5. Replace lamp if it blisters or prematurely darkens.
6. Replace lamp socket if deterioration of socket is noticed. To avoid electrical shock or burns, be sure power is off and lamp has fully cooled before replacing lamp.

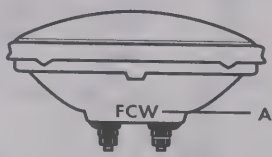
### Caution Notice: Quartzline Projection Lamps

**Caution—General Electric Quartzline® (tungsten halogen) Projection Lamps operate under pressure at high temperature and may unexpectedly shatter. Protect people and surroundings from the possibility of injury or fire from hot, flying fragments with a suitable enclosure, shield, lens or screen. Do not operate equipment with lamp compartment open. Observation of the following operating instructions will help avoid early lamp failure and possible shattering of the lamp.**

1. Use lamp only in equipment specifying this lamp type and which provides adequate ventilation to maintain lamp within safe operating temperatures. If in doubt, contact equipment manufacturer.
2. Operate lamp only in the position indicated by the instructions on the lamp or lamp package, or as noted in the GE catalog description of the lamp.
3. Do not operate equipment in excess of 110% of rated voltage.
4. Do not bump or bounce equipment during operation.
5. Protect lamp from moisture, scratches or abrasions. Avoid touching bulb or inside of reflector since fingerprints may affect performance.
6. Replace lamp if it blisters or prematurely darkens.
7. Replace lamp socket if deterioration of socket is noticed. Extended direct exposure to Quartzline Projection lamps not enclosed in an outer glass envelope may case ultraviolet irritation of skin and eyes. Use of a glass or plastic lens will provide adequate protection from this ultraviolet light. To avoid electrical shock or burns, be sure power is off and lamp has fully cooled before replacing lamp.

### Footnotes:

4. Operate base down to 22° base up.
10. For these tungsten halogen lamps (unless completely enclosed within a projector or other optical device), screening techniques should be used where appropriate to protect people and surroundings in case of shattering.
11. Should not be operated for less than 3 minutes. Short operating cycles reduce life and degrade performance.
12. Special power supply required.



When it comes to lighting, no distributor outshines Grainger.

# STAGE & STUDIO LAMP INTRODUCTION

## HOW TO USE THE STAGE AND STUDIO LAMP PRODUCT SECTION:

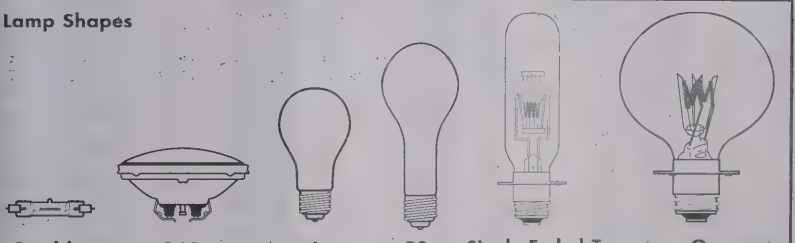
- **Our stage & studio lamp section is organized by lamp wattage. Within the wattage section, these lamps will be alphabetically listed by the ANSI lamp industry code.**

1. Identify the lamp wattage
2. Identify the ANSI lamp industry code

**ANSI Code**
The lamp's identification code.

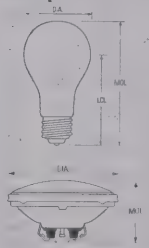
**Rated Average Life Hours:**
Average Life Hours figure represents the lamp's median value of life expectancy

**Max. Overall Length:**
Expressed in inches.



**Light Center Length (LCL)**

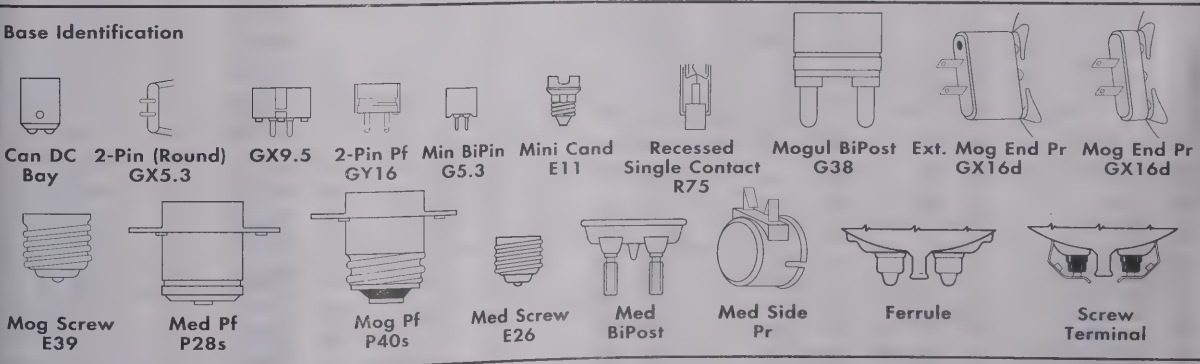
**Initial Lumens:**
Lamp's approximate light output after 100 hours of operation.



**Color Temp:**
"Warmth" or "Coolness" of the lamp measured in Kelvins (K). The higher the temperature, the cooler the appearance of the light.

| Watts | Lamp Designation | Bulb | Base | Description | Volts | Rated Avg. Life Hours | Max. Overall Length (in.) | Light Center Length (in.) | Initial Lumens | Color Temp. | GE Product Code | Stock No. | List | Each | Ship Case Qty. | Shpg. Wt. Ea. |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| **500** | FDF-Q500T3/4CL | T3 | R7S | Clear (31)* | 120 | 400 | 4 1/16 | 2 3/8 | 13250 | 3200 | 23735 | **1G922** | $000.00 | **$000.00** | 0.3 | 0.5 |

### Lamp Shapes



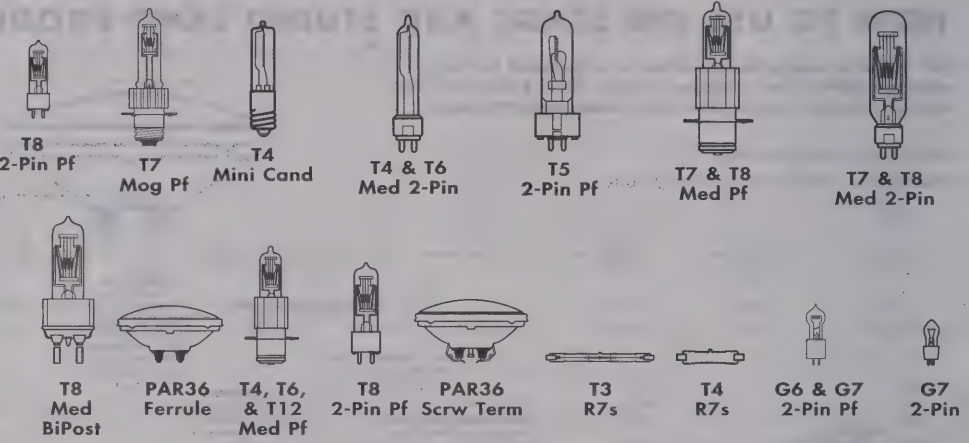
### Lamp Size Identification

**DIA:** Diameter of bulb (from outer edge to outer edge).

**MOL:** Maximum Overall Length in inches.

### Base Identification

GE Lighting



**GE Stage/Studio Products Provide:**

- Outstanding color rendition
- Excellent versatility in existing fixtures
- Dimmability
- Long life
- Reliability ...scene after scene

# STAGE & STUDIO LAMPS

### General Information

### Operational Characteristics

Quartz halogen lamps are designed to be operated within close voltage tolerances, and excessive voltage can lead to drastically shortened life, albeit with significantly higher light output.

A second important variable is temperature. The tungsten halogen cycle does not operate properly below about 482°F (250°C) and quartz may begin to devitrify above about 1832°F (1000°C). Bulb envelopes should therefore be held in the range 482-1472°F (250-800°C).

The rate of oxidation of the sealing foil carrying current from the base to the filament through the quartz envelope increases with temperature above 662°F (350°C), and lamp life may be severely curtailed by premature seal failure if this temperature is exceeded.

The contact pins are plated to ensure good electrical connection with the lampholder. However, at temperatures above 662°F (350°C), the plating may lose adhesion, leading to deterioration in contact and possibly local hot spots, arcing and consequent irreparable damage to both lamp and holder. Note that if there is evidence that this has occurred, the lampholder should be replaced before the next lamp is fitted, otherwise it is likely to fail prematurely for the same reason.

Lamps normally fail by fusing of the filament. This is often followed by arcing, leading to very high currents which can cause the envelope and seals to fail and the lamp to shatter. A quick-acting, high-breaking capacity fuse should therefore be connected to the supply line in all applications. Suitable types are given in IEC 127, 241 and 269.

### Lamp Codes

GE Stage & Studio lamps are coded as such:

Lamp Designation. This may be either an American National Standards Institute (ANSI) three letter code such as EJG, or a descriptive code in the general form Q750T3/4CL. ANSI codes are assigned to lamp specifications—mechanical, electrical and photometric characteristics—filed with the Institute.

They ensure interchangeability among similarly coded lamps from different manufacturers. Most of these lamps are rated for 120-volt operation. In a few cases a pair of ANSI codes are given (e.g. BFL/BFK), where the first is the official code for the lamp and the second code describes lamps the specifications of which are met or exceeded. In such cases, the lamps may be used to replace lamps with either code. Base designations conform to IEC standards.

### Footnotes

1. Hemispherical shield in front of filament masking all direct light.
2. If lamp is cracked or broken, replace immediately. It may continue to operate, but the inner bulb is pressurized and could shatter unexpectedly. Dispose of with care.
3. Although made of heat-resistant glass, the bulb and lens should be protected from moisture or breakage may result. The lens or bulb may break during usage under certain other conditions beyond the control of the manufacturer. Therefore, screening techniques are recommended, where appropriate, to protect people and surroundings from possible hot fragments. If lamp is cracked or broken, replace immediately. It may continue to operate, but the inner bulb is pressurized and could shatter unexpectedly.
4. Operate at or near horizontal.
5. Although this lamp is made of heat-resistant glass, the bulb and lens should be protected from moisture or breakage may result. To protect persons against risk of breakage, use a protective screen external to the lamp.
6. To protect persons against risk of breakage, use a protective screen external to lamp.
7. Use only in fixture designed for Cool Beam PAR lamps.
8. Burning position - vertical base down ±30°.
9. Burning position - vertical base down ±45°.
10. Has blackening protector grid.
11. Non-stock item available to special order.
12. 21mm max bulb.
13. Staggered filament.
14. Frosted bulb.
15. Universal operating position.
16. Ultra-violet absorbing bulb.
17. Burning position—Base Down To Horizontal (BDTH).
18. Top end of bulb is opaque-coated to absorb upward light.
19. Life depends on service conditions; for use only in equipment specially designed to maintain bulb and base temperatures within safe limits.
20. To avoid possible overheating, this lamp is not recommended for use without force-cooling in deep-bowled fixtures.
21. Blue glass bulb; apparent color temperature may vary from lamp to lamp.
22. Silica coated.
23. Burn BDTH but avoid horizontal burning with support spine beneath filament to prevent premature arcing.
25. 15mm max bulb.
26. Apparent lighted length slightly longer than similar clear lamp.
27. No filament support rod.
28. Hot (instant) restrike; other lamps require 10-minute pause before restrike.
29. Low noise construction to minimize generation of audible noise when operated on A.C. circuits.
30. Operate base down within 30° of vertical. Any tilt should be in direction in which the filament plane faces.
31. Burning position—horizontal ±4°.

GE Lighting

### Fresnel and Spotlight Lamps

The CP, T and allied ranges of quartz halogen lamps feature small, efficient lamps with long lives and virtually constant color temperature through life. The lamps, rated from 300 to 10,000 watts, are offered with a wide variety of commonly used bases, providing a degree of interchangeability (subject of course, to the physical compatibility of bulb and fixture). Fixture manufacturers are taking advantage of the smaller size and greater efficiency of new lamp technology to design smaller, lighter and more efficient luminaires.

The format of the filament has an effect on the beam performance, particularly of Fresnel-lensed luminaires. Spotlights benefit from the smaller light source offered by biplanar (C-13D) filament arrays, giving a narrower spot with slightly higher peak intensity than a monoplanar filament. The converse is true in medium and flood positions since minimal light is lost through "shadowing" by filament elements. Ellipsoidal optics are designed around a specific filament area and GE lighting offers a wide variety of filament configurations to match luminaire design as well as user preference. Note: Most lamps with planar or grid-form filaments may be operated at an angle to the vertical (from base down to 30°—90° depending upon the particular lamp); however, the axis of rotation must always be in the filament (or electrode) plane.

The majority of lamps in these groups are designed either for use with color film balanced for a cooler temperature of 3200K, or for use in the theater, where a lower color temperature is usually appropriate. GE Lighting's theater lamps have extended average lives, which is a considerable advantage when they are installed in hard-to-reach auditorium or proscenium spotlights.

Special lamps have been developed for use in ellipsoidal spotlights, where the optics of the systems can result in some of the reflected light being directed onto the lamp base, leading to overheating and, on occasions, to premature lamp failure. GE's solution has been to reduce the size of the base and at the same time lengthen the neck of the lamp, thereby removing the critical seal area from reflected radiation and prolonging lamp life.

GRAINGER HAS OVER 350 BRANCHES NATIONWIDE

We're well stocked with items you use everyday and our salespeople are knowledgeable, courteous professionals who care about your business. To find the branch nearest you, check the Branch Locations listed in the front of this catalog.

# LIGHTING DEFINITIONS

**Amps—**
Measure of electrical current. In incandescent lamps, amps are related to voltage and power as follows: Current (Amps) = Power (Watts) / Voltage (Volts)

**ANSI—**
American National Standards Institute: Coordinates voluntary standards to promote the interchangeability of lamps, lamp holders, bases and ballasts.

**Average Rated Life—**
Median value of life expectancy - the total operating time at which under normal conditions, 50% of any large group of initially installed lamps are expected to be still burning.

**Ballast—**
An auxiliary piece of equipment required to start and operate gas discharge light sources like fluorescent and high intensity discharge (HID) types.

**Base Type—**
The contact point of the lamp that goes into socket of the fixture. See respective lamp sections for pictorial references.

**Beam Spread—**
Measure of the angular spread of light from reflectorized lamps such as R and PAR types, typically including the central part of the beam within 50% of the maximum intensity (center beam candlepower - CBCP).

**Beam Angle—**
Same as beam spread measured at 50% of the maximum intensity, often included in the lamp ordering code.

**Biax™ Lamp—**
GE registered trademark for some Compact fluorescent lamp families.

**Candela (CD)—**
The International System (SI) unit of luminous intensity. The term has evolved from considering a standard candle, similar to a lumber's candle, as the basis of evaluating the intensity of other light sources. Sometimes the term "candlepower" is used to describe the relative intensity of a source. (See Lumen.)

**Candlepower—**
A measure of intensity of light in a given direction (see candela).

**Center Beam Candlepower (CBCP)—**
Light intensity in the center of the beam which is usually the maximum intensity.

**CBM—**
Certified Ballast Manufacturers Association (CBM) approval on ballasts indicates that ballasts are tested by ETL to meet the requirements of ANSI specifications.

**Coefficient of Utilization (CU)—**
A percent of initial lamp lumens that reaches the work plane as determined by surface reflectances, room shape (RCR), and fixture efficiency.

**Color Rendering Index (CRI)—**
A measurement of the color shift an object undergoes when illuminated by the light source, as compared to a reference source at the same color temperature. Color rendering is measured on an index from 0-100, with natural daylight and incandescent lighting both equal to 100. Objects and people viewed under lamps with a high color rendering index (CRI) generally appear more true to life.

**Color Temperature (Chromaticity)—**
A scientific measurement of the balance of wavelengths making up any "white" light. The unit of measurement is the Kelvin, abbreviated K. Although it may not seem sensible, a higher color temperature means a cooler, bluer light source. Typical color temperatures are 2800K (incandescent), 3000K (halogen), 4100K (cool white fluorescent) or SP41, and 5000K (daylight-simulating fluorescent) such as SPX50 or Chroma 50.

**Compact Fluorescent Lamp (CFL)—**
The general term applied to families of smaller diameter fluorescent lamps (e.g. T4, T5), some of which have built-in ballasts and medium screw bases for easy replacement of incandescent lamps.

**CSA—**
Canadian Standards Association. Canada's largest standards writing, testing, and certification organization. It can test and certify per its own standards and per the standards of others, such as UL. Canadian provincial law mandates that all electrical products sold for consumer use must bear a CSA Certification mark or the equivalent.

**Electromagnetic Spectrum—**
An orderly arrangement of radiant energy by wavelength or frequency. In the visible spectrum, the eye is sensitive to radiant energy between 380 nanometers (violet) and 770 nanometers (red) by wavelength.

**Elliptical Reflector (ER)—**
A lamp with an elliptical-shaped reflector designed to focus light in front of the lamp. Used in deeply shielded downlights.

**Energy Policy Act (EPACT)—**
Comprehensive energy legislation passed in 1992 which includes lamp labeling and minimum energy efficiency requirements for many commonly used incandescent and fluorescent lamp types.

**FCC—**
Federal Communications Commission. A Federal agency; part of the legislative branch. Mandatory regulation FCC - Part 18 deals with EMI (electromagnetic interference) from all lighting devices with operating frequencies higher than 9kHz. Typical electronic compact fluorescent lamps operate at a range of 24-100kHz.

**Fluorescent Lamp—**
A lamp in which electric discharge of ultraviolet energy excites a fluorescing coating (phosphor) and transforms some of that energy to visible light.

**Footcandle (FC)—**
The unit used to measure how much total light is reaching a surface, such as a wall or table. One lumen falling on one square foot of surface produces illumination of one footcandle.

**Halogen Lamp (Tungsten Halogen Lamp)—**
A more energy-efficient incandescent lamp containing a halogen gas which recycles tungsten (which would ordinarily be deposited on the bulb wall) back onto the filament surface.

**Halogen IR™ (HIR) Lamp—**
GE designation for a new form of high-efficiency tungsten halogen lamp. HIR lamps utilize shaped filament tubes coated with numerous layers of materials which selectively reflect and transmit infrared energy and light. Reflecting the infrared back onto the filament reduces the power needed to keep the filament hot.

**High-Intensity Discharge Lamp (HID)—**
A general term for mercury, metal halide (GE Multi-Vapor, MXR or Arcstream) and high-pressure sodium (GE Lucalox) lamp. HID lamps contain compact arc tubes which enclose various gases and metal salts operating at relatively high pressures and temperatures.

**High-Pressure Sodium Lamp—**
A high-intensity discharge light source in which the light is primarily produced by the radiation from sodium vapor. (GE tradename Lucalox® Lamp).

**Illuminance—**
The "density" of light (lumens/area) incident on a surface. Illuminance is measured in footcandles or lux.

**Incandescent Lamp—**
A lamp that provides light when a filament is heated to incandescence by an electric current. Incandescent lamps are the oldest form of electric lighting technology.

**Infrared Radiation—**
For practical purposes, any radiant energy within the range 770-106 nanometers. This energy is sensed as heat.

**Instant Start—**
A circuit used to start specially designed fluorescent lamps without the aid of a starter. To strike the arc instantly, the circuit utilizes higher open-circuit voltage than is required for the same length preheat or rapid start lamp. Slimline lamps operate on instant start ballasts.

**Kilowatt (kw)—**
A larger unit of power; a thousand watts (watts x 1000 = kilowatts).

**Kilowatt Hour (kwh)—**
The measure of electrical usage from which electricity billing is determined. For example, a 100-watt lamp operated for 1000 hours would consume 100 kilowatt hours, (100 watts x 1000 hours = 100 kwh). At a billing rate of $0.10/kwh, this lamp would cost $10.00 (100 kwh x $0.10/kwh) to operate.

**Lamp—**
This is actually the technical word meaning light bulb or tube - the part that provides light until it burns out. However, "lamp" is also commonly used to refer to a type of fixture, such as a desk lamp.

**Light—**
The term generally applied to the visible energy from a source. Light is usually measured in lumens or candlepower. When light strikes a surface, it is either absorbed, reflected or transmitted. Light is said to travel in straight lines.

**Light Center Length (L.C.L.)—**
The distance between the center of the filament and the L.C.L. reference plane.

**Lumen—**
The international unit of luminous flux or quantity of light. For example, a dinner candle provides about 12 lumens. A 60-watt Soft White incandescent lamp provides 840 lumens.

**Lumen Maintenance—**
How a lamp maintains its light output over its life, often expressed as percent initial lumens vs. percent rated life.

CONTINUED ON NEXT PAGE

# LIGHTING DEFINITIONS

**Lumens Per Watt (lpw)—**
A measure of the efficacy of a light source in terms of the light produced for the power consumed. For example, a 100-watt lamp producing 1750 lumens gives 17.5 lumens per watt.
Examples:
Edison's first lamp .....1.4 lpw
Incandescent lamps .....10-40 lpw
Fluorescent lamps.....35-100 lpw
Halogen lamps .....20-45 lpw
Mercury lamps .....50-60 lpw
Metal halide lamps.....80-125 lpw
High-pressure sodium lamps .....90-140 lpw

**Luminaire—**
A complete lighting unit consisting of a lamp (or lamps), together with the parts designed to distribute the light, position and protect lamps and connect them to the power supply.

**Luminaire Efficiency—**
The ratio of lumens emitted by a luminaire to those emitted by the lamp or lamps used.

**Luminance—**
Formerly, a measure of photometric brightness. Luminance has rather complicated mathematical definition involving the intensity and direction of light. It should be expressed in candelas per square inch or candelas per square meter although an older unit, the "footlambert"; is still sometimes used. Luminance is a measurable quantity whereas brightness is a subjective sensation.

**Lux—**
The SI (International System) unit of illumination: one lumen uniformly distributed over an area of one square meter.

**Maximum Overall Length (M.O.L.)—**
The maximum extent of a light source measured end-to-end, expressed in inches or millimeters.

**Mean Lumens—**
The average light output of a lamp over its traded life. For fluorescent and metal halide lamps, mean lumen ratings are measured at 40% of rated lamp life. For mercury, high pressure sodium and incandescent lamps, mean lumen ratings are measured at 50% of rated lamp life.

**Mercury Lamps—**
A high-intensity discharge light source in which radiation from the mercury vapor produces visible light.

**Metal Halide Lamp—**
A high-intensity discharge light source in which the light is produced by the radiation from mercury, together with halides of metals such as sodium and scandium. GE trade names include: Multi-Vapor™, Halarc™, Arcstream™, etc.

**Nanometer—**
A unit of wavelength equal to 10-9 meter.

**Parabolic Aluminized Reflector (PAR) Lamp—**
PAR is an acronym for parabolic aluminized reflector. A PAR lamp which may utilize either an incandescent filament, a halogen filament tube or HID arc tube is a precision pressed-glass reflector lamp. PAR lamps rely on both the internal reflector and prisms in the lens for the control of the light beam.

**Phosphor—**
A coating, deposited on the inner bulb surface of fluorescent and some mercury and metal halide lamp types, which converts ultraviolet energy typically into visible light.

**Power Factor (PF)—**
A measure of how efficiently a device uses power. Power factor may range from 0 to 1, with 1 being the ideal. A device that converts all the power supplied to it by the power utility into "watts" is said to have a power factor of 1. Devices with PF greater than or equal to 0.90 are referred to as High Power Factor (HPF) devices, whereas devices with PF less than 0.60 are referred to as low power factor devices.

**Precise™—**
GE trade name for MR-16 and MR-11 low voltage halogen dichroic "cool beam" reflectorized spots and floods.

**Preheat—**
A circuit used on fluorescent lamps wherein the electrodes are heated or warmed to a glow stage by an auxiliary switch or starter (can be a glow switch, thermal type, or a mechanical device like a push button) before the lamps are lighted.

**Quartzline™—**
GE registered trademark for some halogen lamp families.

**Rapid Start—**
A circuit designed to start lamps by continuously heating or preheating the electrodes. Unlike preheat, the ballast does not require a separate starter. In the rapid start two-lamp circuit, one end of each lamp is connected to a separate starting winding. The other end of each lamp is connected to a common winding.

**Reflector (R) Lamp—**
An incandescent lamp with a built-in reflecting surface. The glass bulb is blow-molded in one piece and may be of soft or hard glass.

**Specification Series (SP)—**
Tri-phosphor fluorescent lamp colors that provide good color rendering without the sacrifice in light output normally associated with deluxe colors. CRI ranges from 70 to 75. Available color tones include Warm (SP30), Moderate (SP35), Cool (SP41), and Very Cool (SP65).

**Specification Series Deluxe (SPX)—**
Tri-phosphor fluorescent lamp colors that provide very good color rendering (even better than Specification Series colors) without the sacrifice in light output normally associated with deluxe colors. CRI ranges from 80 to 84. Available color tones include Warm (SPX27, SPX30), Moderate (SPX35), Cool (SPX41), and Very Cool (SPX50, SPX65).

**Spectral Power Distribution (SPD) Curves—**
A visual profile of the color characteristics of a light source. It shows the radiant power emitted by a light source at each wavelength or band of wavelengths over the visible region.

**Total Harmonic Distortion (THD)—**
A measure of the distortion of the sine wave on alternating current (ac) systems caused by higher order waves superimposed on the fundamental (usually 60Hz.) frequency of the system. THD is expressed in percent and may refer to individual electrical loads (such as a ballast) or a total electrical circuit or system in a building. The ANSI recommendation is for THD to be no greater than 32% although some electrical utilities may require lower THD's on some systems. Excessive THD's on electrical systems can cause efficiency losses as well as overheating and deterioration of system components.

**Voltage—**
A measurement of electromotive force or the pressure of electricity. This is analogous to the pressure in a waterline; i.e., pounds per square inch. The voltage of a circuit is the electrical pressure it provides. In an incandescent lamp, "voltage" designates the supply voltage to which the lamp should be connected, and is related to current and power as follows: Voltage (Volts) = Power (Watts) / Current (Amps).
In other lamp types, it may refer to "operating voltage" of a lighted arc discharge lamp.

**Watt—**
Unit used to measure power consumption. For Incandescent lamps, Watts is related to voltage and amps as follows: Power (Watts) = Voltage (Volts) x Current (Amps).

**Watt-Miser® (WM) Lamp—**
GE registered trademark for a direct replacement energy-saving lamp. Available in a wide range of incandescent, fluorescent, and HID lamps.

**UL—**
Underwriters Laboratories. A not-for-profit independent U.S. organization that tests products and materials for public safety and security. It can test and certify per its own standards and per the standards of others, such as CSA. UL Listing or Recognition, or the equivalent, of potentially hazardous products and materials is required by most U.S. municipalities.

**Ultraviolet Radiation—**
Radiant energy in the range of about 100-380 nanometers (nm). For practical applications, the UV band is broken down further as follows:
Ozone-producing .....180-220nm
Bactericidal (germicidal).....220-300nm
Exrythemal (skin reddening).....280-320nm
"Black" light .....320-400nm
The Internal Commission on Illumination (CIE) defines the UV band as UV-A (315-400 nm); UV-B (280-315 nm) and UV-C (100-280 nm).

### Lumens, Candlepower, and Footcandles

In lighting, the basic measure for the amount of light produced by a light source is called a lumen. As with any unit of measure, one must start with a standard. The starting point for lumens is historically a candle. If it is of specific composition and size, it emits 1 candlepower. If this candle is placed in a sphere with a 1-foot radius, 1 lumen by definition will fall on 1 square foot of the sphere's surface. Since, from geometry, the total surface area of a 1-foot-radius sphere is 12.57 square feet, there are 12.57 lumens given off by that candle. One lumen falling on 1 square foot of a surface produces illumination of 1 footcandle.

When it comes to lighting, no distributor outshines Grainger.

# INTRODUCTION/HOW TO USE THE BALLAST SECTION

**The Ballast Section** is organized to help you find the right ballast based on *Lamp Compatibility* (lamp type), *Number of Lamps per Ballast*, and *Voltage*.

**Select a Ballast** by using the ballast tables; finding a compatible lamp, and knowing how many lamps per ballast and what voltage you will need.

**To determine an Electronic Ballast**, check for the Energy Right symbol (✓) next to the Grainger stock numbers. To know what type of Ballast you have, check the Ballast Code.

**Ballast Codes** let you know what type of Ballast you have, i.e. Rapid Start Normal Light Output is RS-N. Ballast Codes are defined on the top of every Ballast page.

**Lamp Quantity** — **Voltage** — **Lamp Compatibility** — **Ballast Code** — **Energy Right Electronic Ballast**

Some of our larger sections might have *No. of Lamps* (Lamp Quantity) in the header due to the large number of ballasts that go with that particular lamp type.

**RS-CIC** - Dimmable electronic ballast. Works on occupancy sensors, and automated building system. Compatible w/10V controls, AC/DC and 50/60 Hz. Soft start feature for extended lamp life.

**RS-IC** - IC chip allows for AC/DC and 50/60Hz operation. Soft start feature for extended lamp life.

**IS-N** - Same as RS-N except instant start circuit which reduces rated avg. life by 25%.

**DIM. MAG.** - Non-electronic ballast that dims to 20% of full light output. Requires compatible dimmer.

**RS-H** - Ballast that produces 40% more light than normal light output. Ballast rapid start circuit maintains rated avg. lamp life.

**DIM. ELEC.** - Continuous dimming to 10% light level compatible with 1-10V controls.

**BALLAST CODES**

| | | |
|---|---|---|
| **RS-CIC** - Rapid Start Controllable Integrated Circuit | **RS-IC** - Rapid Start Integrated Circuit | **DIM-MAG** - Dimmable Electromagnetic |
| **RS-H** - Rapid Start High Light Output | **IS-N** - Instant Start Normal Light Output | **DIM. ELEC** - Dimmable Electronic |
| **RS-N** - Rapid Start Normal Light Output | **IS-H** - Instant Start High Light Output | **HYBRID** - PowrKut® Electromagnetic |
| **RS-L** - Rapid Start Low Light Output | **IS-L** - Instant Start Low Light Output | **MAG** - Electromagnetic |

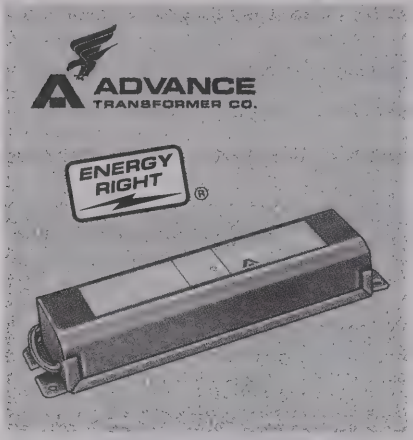
**RS-N** - Ballast that produces normal light output as listed in catalog under Lumen Ratings. Rapid start circuit maintains rated avg. lamp life.

**HYBRID** - Magnetic ballast that cuts out cathode heating circuit in ballast saving up to 20% on energy.

**RS-L** - Ballast that consumes 20-25% less energy than RS-N ballasts. Reduces lumen output by the same amount. Rapid start circuit maintains rated avg. life.

**IS-H** - Same as RS-H except instant start circuit which reduces rated avg. life by 25%.

**IS-L** - Same as RS-L except instant start circuit which reduces rated avg. life by 25%.



**MAG** - The most basic non-electronic ballast available.

## NATIONWIDE BRANCH NETWORK WITH LOCAL ACCESS IS YOUR SHOPPING ADVANTAGE

**Grainger's network of more than 350 local branches provides you nationwide access to our broad selection of product offerings. And with 30-minute "Will Call" service or 24-hour shipping on in-stock items, help is as close as a phone call away. Check the Branch Locations listed in the front of this catalog for the location closest to you.**

CHECK THIS COMPREHENSIVE CATALOG FOR YOUR NEEDS.
THOUSANDS OF QUALITY PRODUCTS ARE LISTED

# ADVANCE FLUORESCENT BALLASTS

## ADVANCE STANDARD ELECTRONIC BALLASTS

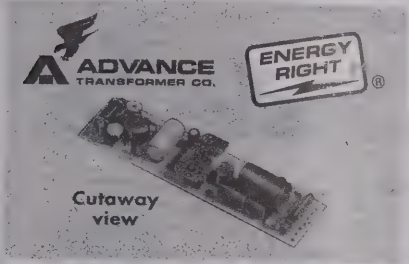
Advance electronic ballasts save energy, reduce maintenance, operate cooler, and last longer.

- **Maximum energy savings; 26-38% more energy efficient than conventional ballasts**
- **30°C (54°F) cooler operating temperature than conventional ballasts**
- **75% quieter than "A" sound rated conventional electromagnetic ballasts**
- **Total harmonic distortion of less than 20%**
- **Double the life expectancy of conventional ballasts**
- **LW (low wattage) models feature extra energy savings with slightly reduced light output (ballast factor 0.75)**
- **"S" in model number indicates series operation, "P" indicates parallel operation; parallel ballasts will instant start rapid start lamps, allow remaining lamps to stay fully lit if companion lamps fail**
- **Fully potted design allows high temperature ratings for superior reliability and application flexibility**
- **Advance Standard ballasts can be identified by the codes REL (120V) or VEL (277V) found in the manufacturer's model number**
- **Five-year limited warranty on Advance electronic ballasts and up to 3 years for GE lamps when used together. See "Manufacturers' Warranties" on page opposite inside back cover**

## ADVANCE CENTIUM™ ELECTRONIC BALLASTS

Advance Centium electronic ballasts are high-value, high-performance units that provide all the energy savings of Advance Standard electronic ballasts, plus very low total harmonic distortion (under 10%).

- **Maximum energy savings; 26-38% more energy efficient than conventional ballasts**
- **Total harmonic distortion of less than 10%; exceeds all electric utility specifications**
- **LW (low wattage) models available for extra energy savings at slightly reduced light output (ballast factor 0.76-0.79)**
- **HL (high light) models provide extra light output (ballast factor 1.15) with slightly higher input wattage**
- **"S" in model number indicates series operation, "P" indicates parallel operation; parallel ballasts will instant start rapid start lamps, allow remaining lamps to stay fully lit if companion lamps fail**
- **75% quieter than "A" sound rated conventional electromagnetic ballasts**
- **Fully potted design allows high temperature ratings for superior reliability and application flexibility**
- **High frequency operation eliminates annoying lamp flicker**
- **Double the life expectancy of conventional electromagnetic ballasts**
- **Advance Centium ballasts can be identified by the codes RCN (120V) or VCN (277V) found in the manufacturer's model number**
- **Five-year limited warranty on Advance electronic ballasts and up to 3 years for GE lamps when used together. See "Manufacturers' Warranties" on page opposite inside back cover**



## ADVANCE MARK V INTEGRATED CIRCUIT (IC) ELECTRONIC BALLASTS

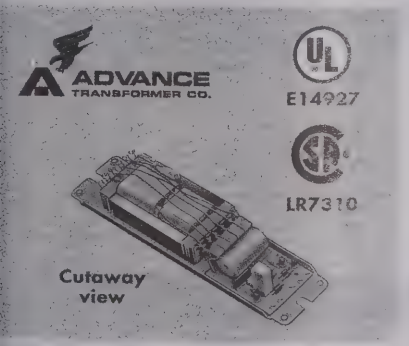
These ballasts offer the same features as Advance Standard Electronic Ballasts, plus the following:

- **0°F minimum starting temperature for extended lamp life in low temperature applications**
- **Total harmonic distortion <10%**
- **Maintains constant light output over operating ranges of 100V to 145V (120V ballasts) and 200V to 305V (277V ballasts)**
- **AC/DC operation; 50/60 Hz**
- **Features sequenced "soft start" for extended lamp life**
- **Five-year limited warranty on Advance electronic ballasts and up to 3 years for GE lamps when used together. See "Manufacturers' Warranties" on page opposite inside back cover**

## ADVANCE MARK VII CONTROLLABLE INTEGRATED CIRCUIT (CIC) ELECTRONIC BALLASTS

Feature the same advantages as Advance Mark V (IC) ballasts, plus lighting controllability. Can be used with compatible remote or manual dimming controls, ambient light sensors, occupancy/motion sensors as well as emergency lighting controls.

- **Controls light output from 5% to 100% of maximum in response to compatible controls**
- **May be used with compatible dimming systems, occupancy sensors, and daylight sensors**
- **All the lamp and energy saving features of Advance Mark V, plus controllability, making total energy savings of up to 45% possible**
- **Available for 1, 2 and 3 lamp F25T8 and F32T8 applications only**



## ADVANCE MARK X ARCHITECTURAL DIMMING ELECTRONIC BALLASTS

Advance Mark X ballasts are cost-effective, electronic architectural dimming ballasts for T8 lighting systems. They combine long life, energy efficiency and other advantages of electronically ballasted fluorescent lamps, with the controllability and full-range dimming capability of incandescent systems. Mark X ballasts are controlled by the Mark X two-wire phase-cut style dimmer or other compatible dimmers.

- **Available for 1, 2, and 3 F32T8 and F25T8 rapid start linear and U-bend fluorescent lamps only**
- **Delivers continuous, flicker-free full-range dimming from 100% to 5% of rated lumen output**
- **Operates from Mark X two-wire and other compatible dimmers; no extra wiring required when retrofitting for ease of installation**
- **Energy efficient with lighting efficacies 40-50% higher than Magnetic T12 dimming ballasts**
- **Provides lamp ignition at any light output setting; ballast does not have to ramp up to full light output and then dim**
- **Operates above 42 kHz, reducing potential for interference with infrared remote control systems**
- **Advance Mark X ballasts can be identified by the codes REZ (120V) or VEZ (277V) found in the manufacturer's model number**

No. 3VK05
Mark X Dimmer
sold on page 1019

## ADVANCE POWRKUT® ENERGY-SAVER BALLASTS

Advance PowrKut® low-frequency electronic (hybrid) ballasts provide energy savings in most cases equivalent to those provided by high frequency electronic designs. To maximize power savings, an internal electronic switching circuit cuts off power to lamp electrodes after lamps are started.

- **PowrKut® ballasts for T8 lamps provide savings equivalent to electronic designs at equivalent light output levels**
- **PowrKut® ballasts for T10 and T12 lamps provide energy savings equivalent to electronic designs at 93-95% of their light output**
- **PowrKut® Mark IV ballasts for T10 and T12 lamps save 17% in energy over conventional ballasts while maintaining full light output**
- **PowrKut® ballasts for T12 high output lamps save 20% in energy over conventional ballasts at equivalent light output**
- **Low total harmonic distortion (less than 15% for T8 lamps)**
- **Low frequency operation minimizes potential for EMI/RFI interference**
- **UL Listed (E14927); CSA Certified (LR7310)**

## ADVANCE MARK III ELECTROMAGNETIC FLUORESCENT BALLASTS

Mark III ballasts provide energy savings while delivering full light output consistent with rigid CBM standards. Replaces standard ballasts and can be used with either energy-saving or standard fluorescent lamps. UL Listed (E14927), CSA Certified (LR7310), and CBM Certified to meet ANSI specifications. Non-PCB capacitor. Class P ballast protection, High power factor.

- **10% more energy efficient than conventional ballasts**
- **Operates 20°C cooler than conventional ballasts reducing air conditioning costs**
- **Double life expectancy reducing changeouts**
- **Ballast factor of 0.95 operating standard lamps**
- **CBM Certified assuring maximum light output and longest lamp life**
- **Sound Class rating A**
- **Three-year limited warranty. Text of warranty available on request. See "Manufacturers' Warranties" on page opposite inside back cover**

## ADVANCE MARK X DIMMERS

- For use with Advance Mark X architectural dimming ballasts only
- For use with 1, 2, or 3 F25T8 or F32T8 lamps
- Maximum wattage single gang is 500W; double gang or higher is 400W
- Almond color

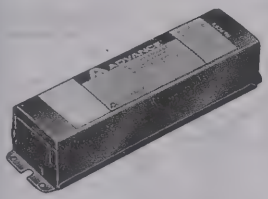
## FLUORESCENT BALLAST NOTES

1. Also operates 32W Circline lamp.
2. Also operates F25T12 DSM lamp.
3. Also operates U-Shaped T8 lamps.
4. Will not operate F40BX lamps.
5. Will not operate T8 U-Shaped Watt-Miser® lamps.
6. Not suitable for use with U-shaped lamps.
7. P.F. is 75% for lamps less than 48".
8. P.F. is 70% for lamps less than 48".
9. P.F. is 75% for lamp combination less than 84".
10. Also operates 1 or 2 F84T12/HO lamps.
11. P.F. is 80% for lamp combination less than 72".
12. P.F. is 85% for 72" lamps.
13. CBM approved for 2-F48T12/RS/HO lamps only.
14. Also operates T10 or T10J lamps. P.F. is above 75% for total lamp length less than 10 ft.
15. P.F. for total lamp length is 60" or less is above 75%.
16. P.F. above 70% for total lamp length less than 96".
17. Also operates 2-F48T10 or 2-F48T10J lamps.
18. Also operates F96T10 lamps; not CBM approved.
19. Also operates 2-F72T10 or 2-F72T10J lamps.
20. CBM approved for 96" lamps at 0°F and above.
21. P.F. 83% with 2-F72T10 or 2-F72T10J lamps.
22. Lead Lag Ballast.
23. 24" lamp corrected to 85% P.F.
24. CBM approved for 96" lamps only.
25. Not UL Listed for 60 or 64" lamps.
26. Series Ballast.
28. CBM with 72 and 96" lamps only.
30. Special 4-lead ballast for replacement applications only.
31. Core and coil with cover.
32. Requires circuit-interrupting lamp holders.
33. Ballast includes built-in starter.
35. Also operates Energy-Saver Plus lamps.
36. May be used with F40 lamps for residential use only, per NAECA of 1988.
37. Will not operate lamps remote from ballast.
38. Class "A" insulation.
39. PowrKut® Companion design.
41. Reduced light output. For residential use only.
43. Remote mounting--one or two lamp remote mounting. For single lamp remote mounting, only "red lead" lamp can be mounted remote from fixture. Maximum remote mounting, 20 ft.
44. Supplied with Circline sockets
45. Also operates 2-F48T10 or 2-F48T10J lamps.
46. When used with 1-F96PG17 or 1-F96T12 SHO or VHO, minimum starting temperature is 50°F.
47. Also operates F96T10 lamps.
48. Parallel lamp connections allow remaining lamps to stay fully lit if companion lamps fail.
49. 110% light output.
51. PowrKut® Mark IV ballasts deliver full light output.
52. Minimum starting temperature is for standard lamps. Energy-saving lamp starting temperature per lamp manufacturer's specification.
53. Not for use with F60 or F64 type lamps.
54. RH suffix indicates ballasts maintain "total harmonic distortion" <20%.
55. Will instant start rapid start lamps.
56. Ballast factor 75-80%.
57. Average ballast factor 86% with Energy Saving lamps; 89% with Standard lamps.
58. Total harmonic distortion less than 10%.
59. High Power Factor.
60. Normal Power Factor.
61. Not suitable for use with T10 lamps, or 34W lamps.
62. Not UL Listed.
63. PowrKut® and PowrKut® Companion Design ballasts for T12 lamps deliver approximately 8% less light than energy-saving CBM ballasts operating energy-saving lamps.
64. May only be used with F40 Energy Saving lamps (34W).
65. Not for use with Energy Saving lamps.
66. Leadless ballast for plug-in installation.
67. Includes integral bracket for mounting.
68. Also operates F8T5.
69. Also operates (1) F8T5. and (1) F13T5.
70. Not on label – potential reduced lamp life in frequent starting applications.
71. Includes end of lamp life protection circuit.
72. Remote mounting or tandem wired using 18 AWG or larger wire to maximum of 20 Ft. overall lead length between ballasts and lamps.

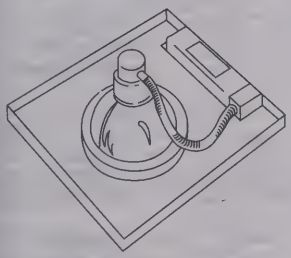
When it comes to lighting, no distributor outshines Grainger.

# HOW TO SELECT PROPER HID BALLASTS

**Identify type of ballast** needed from the diagram shown. Select one and turn to the appropriate catalog section.



**Identify lamp type, number of lamps, and wattage of lamp.** Ballasts are designed to operate only specific lamp types and lamp wattages. Use the appropriate number of ballasts for the number of lamps. Incorrect matching of ballast and lamp will cause premature lamp and ballast failure.



**Identify line voltage.** Many of the core and coil ballasts listed are "Quadri-volt", and can be operated at either 120, 208, 240, or 277 volts. Refer to wiring diagram on previous ballast.

**Identify circuit type.** Check ballast label. CWA type ballasts can replace all CWA, HX-HPF, HX-NPF, and R circuit type ballasts. HX-HPF ballasts can replace all HX-HPF. HX-NPF, and R circuit type ballasts.

**Check dimensions** of existing ballast and fixture ballast housing against new ballast dimensions. Core and coil kits include an all-purpose mounting bracket that accommodates varied mounting installations.

# BALLAST IGNITORS

ADVANCE TRANSFORMER CO. No. 3A533

**An ignitor is an electronic component** found in the circuitry of all high pressure sodium (HPS) and low wattage metal halide (MH) lighting systems. The ignitor provides a pulse of at least 2500 volts peak to initiate the lamp arc, thus generating light. When the system is energized, the ignitor provides the required pulse until the lamp is completely lit and then automatically stops pulsing. Under normal conditions the life of an ignitor is 10,000 ignition hours. Includes mounting bracket and hardware. Advance brand.

(*) Usable with ballast rated from 35 watt to 150 watt S55 (55 volt lamp).
(†) Usable with ballast rated from 150 watt S56 to 400 watts (100 volt lamp).

## WE OFFER A WIDE RANGE OF ENERGY SAVING PRODUCTS

Electric motors, controls, blowers, fans and ventilators, lighting, boilers, ballasts, pumps, furnaces, water heaters, and other products. See Index under Energy Saving Products for complete listings.

# ADVANCE HID BALLASTS

## CORE AND COIL BALLAST KITS (71A SERIES)

- Designed for mounting to HID fixtures
- Ballast may be mounted in the fixture utilizing the mounting holes which run through the laminations, or through holes in the multi-position bracket (included)
- Replacement kits include core and coil, capacitor, ignitor (where applicable), and multi-position mounting bracket. Use only capacitor and ignitor included with kit
- 3VJ90 through 3VJ97 feature plug-in ignitor and poke-in capacitor connectors for fast, easy installation
- All ballasts except No. 6V615 are CWA and HX-HPF circuit type ballasts which are high power factor to allow more units on a circuit load
- Not for use on recessed HID fixtures

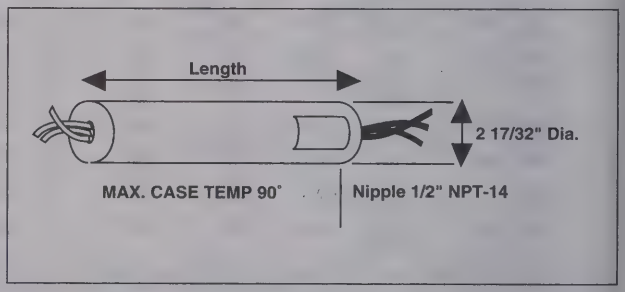
## PROTECTED DUAL-VOLT F-CAN BALLASTS (72C SERIES)



- Can be used in indoor applications and with recessed HID lighting
- Fluorescent case housing provides convenient installation
- Utilizes Class A (90°C maximum) insulating material which minimizes ballast noise
- Designed for dual-volt (120/277) input
- Built-in, automatic reset thermal protection
- Includes capacitor within ballast housing; where required includes integral ignitor

## POSTLINE BALLASTS (74P SERIES)

- For fixtures mounted on slender poles which require ballasts to fit into the poles
- Special, elongated core and coils are encased and potted in high temperature resin (180°C maximum) in cylindrical cans having a 2 9/16" outside diameter
- Ballasts rated 100 watts and above include spring clip/chain attachment for optimal positioning within pole
- Includes 1/2" NPT threaded nipple for vertical mounting
- Leads extend from both ends of the housing for ease of installation
- Ballasts should be mounted with 1 to 3 ft. of air space above the ballast, and should be positioned against the post interior wall to prevent overheating and provide a heat sink

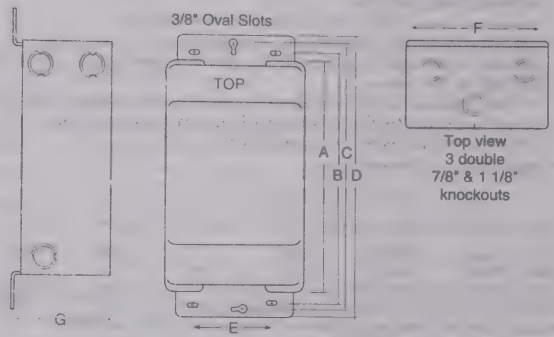
When it comes to lighting, no distributor outshines Grainger.

# INDOOR ENCLOSED BALLASTS (78E SERIES)

**Designed for indoor use where ballast must be mounted remote from the fixture (often where high ambient temperatures would shorten ballast life if mounted in the fixture)**

**Core and coils are encased and potted in heat dissipating resin (180°C maximum) within the ballast compartment**



**Case assemblies are constructed of heavy gauge steel, phosphated, painted, and baked for a long-lasting finish**

**7/8" and 1⅛" knockouts in both ends of the case facilitate hook-up**

**Wall mounting is accomplished through flanges on the top and the bottom of the case**

**Includes capacitor and ignitor within ballast housing, where required**

# ADVANCE HID BALLASTS & HID BALLAST NOTES

## OUTDOOR WEATHERPROOF BALLASTS (79W SERIES)

- Designed for remote, pole-top mounting outdoors under all weather conditions
- Includes capacitor and ignitor where required
- All components enclosed in a corrosion-resistant aluminum case with anodized aluminum cover, gasketed and bolted to the base
- 1" NPT threaded nipple with locknut on the base facilitates hook up to the mounting bracket (optional No. 1N131) when used on a pole-top
- Not water submersible

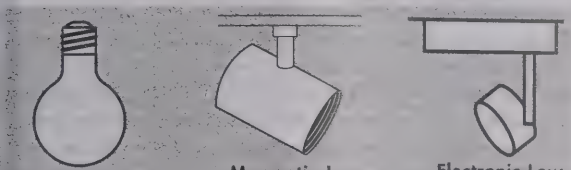
## HID BALLAST NOTES

1. Advance Quadri-Volt Ballasts with pre-insulated lead for each voltage choice.
2. Equipped with an automatic resetting thermal protector to prevent ballast overheating in the event of lamp failure.
3. All Advance dual-volt, F-can ballasts include auto reset thermal protection for 120V and 277V types.
4. Thermal protection included.
5. All Weatherproof High Pressure Sodium Lamp Ballasts are furnished with an Advance Long-Life Ignitor. Maximum lamp-to- ballast distance of 50 ft. (except No. 6V814, distance 35 ft.).
6. 001D; includes Advance dry capacitor, no grounding necessary.
7. Features plug-in-ignitor.

When it comes to lighting, no distributor outshines Grainger.

# DIMMER SELECTION GUIDE



## INCANDESCENT DIMMING

ljusting the amount of lighting to suit the activity increases the ability of every room. It creates a more attractive, warmer, endlier room appearance, producing a more relaxed atmosere. Ideal for use in private offices, conference rooms, lobes/reception areas, restaurants, hotels, retail areas, showoms, and galleries

| Light Level | Electricity Saved | Lamp Life Extended |
|---|---|---|
| 90% | 10% | 2 Times |
| 75% | 20% | 4 Times |
| 50% | 40% | 20 Times |
| 25% | 60% | Greater than 20 Times |

## INCANDESCENT DIMMER SELECTION GUIDE

### LAMP SOURCES—SELECT THE RIGHT DIMMER FOR THE TYPE OF LAMP TO BE DIMMED:

**Incandescent or Halogen (120V) Lamps**

**Magnetic Low Voltage - Magnetic Transformer Supplied 12V**

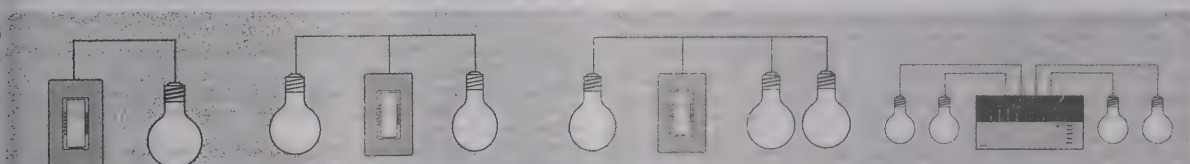
**Electronic Low Voltage - Electronic Transformer Supplied 12V**

### DIMMER STYLE

Select the preferred dimming action and styling to match your room decor and preferred application:

**Specification Heavy Duty Controls** - Attractive Integral faceplate over cooling fins for higher wattage applications.

**Designer Style Controls** - Use with decorator style wallplate (not included) for commercial and residential applications. Wallplates found on p. 732.



**Traditional Style Controls** - Use with toggle style wallplate (not included) for residential applications. Wallplates found on p. 732

**Slide-to-Off Controls** - Light is off when slider is moved to the full down position.

**Rotate-to-Off Controls** - Light is off when rotary knob is turned completely to left (counter clockwise).

**Preset Controls** - A preferred lighting level can be preselected, bringing the lights to a particular level everytime they are used.

### SWITCH TYPES Select the switching that meets the application:

**Single Pole Controls - Allow full range dimming from one location**

**3-Way Controls - Allow full range dimming from one location (using a 3-way dimmer), and on/off switching from a second location (using a 3-way switch)**

**Multi-Location Controls - Allow full function dimming from up to ten locations for hallways and rooms with multiple entry points**

**Multi-Zone Controls - Allow full function simultaneous dimming of two to six lighting circuits**

## LIGHTING LOADS - Select the right dimmer based on the total lamp wattage on the circuit

dding Hi-Power Modules 4LZ35, 4LZ36 or 4LZ37 allows a single 00W dimmer control to increase to 30,000W on a single circuit.

**anging and derating** - Ganging is the mounting of two or more candescent controls side-by-side in a series of connected wallboxes. When two or more controls are ganged, some controls may equire removing a scored section along adjacent sides of the mounting plate or fins. Removing sections of the mounting plate or fins may reduce the maximum capacity (load) a dimmer can reliably handle. Fluorescent dimming controls do not require derating when used with electronic dimming ballasts.

### DIVA, SKYLARK, MAESTRO, ARIADNI, GLYDER, AND BASIC ROTARY

| Full Rating | Rating with 1 Side Removed | Rating with 2 Sides Removed |
|---|---|---|
| Incandescent 600W | 500W | 400W |
| Incandescent 1000W | 800W | 650W |
| Magnetic Low Volt 600VA (450W) | 450VA (300W) | 250VA (200W) |
| Electronic Low Volt 300W | 250W | 200W |

thena dimmers have no removable side sections. No derating is required when ganging.

### NOVA AND CENTURION

| Full Rating | Rating with 1 Side Removed | Rating with 2 Sides Removed |
|---|---|---|
| 600W | 600W | 500W |
| 1000W | 900W | 700W |
| 1500W | 1250W | 1000W |
| 2000W | 1800W | 1500W |

## GENERAL INCANDESCENT DIMMER INFORMATION

se only one wallbox dimmer per circuit. For two or more dimers in a circuit use Maestro multi-location controls 4LZ38 or LZ39 that feature up to 9 additional remotes (4LZ40 or 4LZ41).

Vhen 3 phase use is required, a separate neutral for each phase ontaining a dimming circuit is recommended. Operation of a immed low-voltage circuit with all lamps burned out or removed ay result in current flow in excess of normal levels. To avoid ossible transformer failure, do not operate dimmed low voltage circuits with inoperative lamps in place. Use transformers that incorporate thermal protection or fused transformer primary windings.

Some lamp types may buzz when dimmed. To decrease the buzzing, use physically smaller lamps or rough service lamps.

During normal operation, dimmers generate heat. The higher the lighting load, the warmer the dimmer will feel. This is normal and safe.

# DIMMER SELECTION GUIDE

## FLUORESCENT DIMMING

Save energy by adding a fluorescent dimmer. You'll be able to adjust light levels to compensate for a particular task at hand or to compensate for outside light sources. Glare will be reduced, especially in computer terminal areas, alleviating eye strain. Productivity can be improved if light levels possess the ability to be adjusted according to visual needs. Ideal for use in rooms that require variable light levels such as conference rooms, classrooms, and meeting rooms. Installation requires dimming ballast and fluorescent dimming control.

**Perceived Light vs. Dimmed Light** - Because the human eye compensates for diminished light by opening the pupil to let more light enter, there is a difference between the amount of light the eye perceived and the actual dimmed light as measured by a light meter. For example, when there is 25% light you see 50%; 10% light, you see 32%. At 1% light you see 10%.

## FLUORESCENT DIMMER SELECTION GUIDE

**Fluorescent Dimming ballasts** are required for installation. Simply select the dimming ballast type for the application.

**Hi-Lume Dimming Ballasts** are used for full range dimming applications such as conference rooms, lecture halls, audio/visual presentation areas, private offices, computer rooms, CAD areas, classrooms, lobbies, and museums. Dimming range of 100% to 1% light output.

**Eco-10 Dimming Ballasts** are used to save energy and are best utilized in situations where moderate dimming is sufficient. Some ideas areas may be open office spaces, computer work stations, perimeter offices, and multi-use work stations. Dimming range of 100% to 10% light output.

**Voltage** - Ballasts are available for 120V or 277V installations. Match the lamp type and length.

**Lamp Type** - Ballasts are available for T-8 or T-12 rapid start lamps

**Lamp Length** - Ballasts are available for 24", 36" or 48" lamps Match the number of lamps in the fixture and the voltage.

**Number of Lamps** - Ballasts are available for 1, 2, or 3 lamp applications. 4 lamp fixtures will require two 2-lamp ballasts

**Note:** Fixtures with instant start sockets should be converted to rapid start sockets for best performance.

**Fluorescent Dimming Controls** - Select the right control for the application.

**NOVA Manual Controls** - Wallbox dimmer allows light level changes for tasks and activities requiring less light. Specification grade heavy-duty controls with attractive integral faceplate over cooling fins for long life. Single pole, 120V or 277V.

**PERSONNA Remote Dimmer** - Dim fluorescent fixtures individually or in groups with a handheld remote control. Controls individual fixture(s) directly above workstations in open, shared office spaces or private offices. Reduces glare created by computer screens, alleviating eye strain. Reduces fatigue, increasing productivity and overall personal comfort. Accommodates differences in age, sensitivity to light and personal preferences. Adjusts to the correct light level for a particular task at hand. Applications include open cubical areas and private offices, customer service, CAD areas, order entry, accounting departments, computer departments, telephone operators, engineering, and general office work.

**MicroWATT Automatic Energy Control System** - Maximizes savings by reducing light output when possible and turning lights off when not needed. Modular system is easily customized by linking to many types of sensors, controls and systems:

**Daylight Sensor** - Lighting may be dimmed automatically in offices illuminated by natural light.

**Occupancy Sensor** - Lights automatically dim or turn on/off in unoccupied areas, then return to the on or brighter position when motion is detected.

**Time Clock** - Lights can be programmed to turn on/off during off peak hours.

**Emergency Fire/Safety System** - Lighting may be linked to safety and security systems to trigger all lights to turn on in the event of an emergency.

**Load Shedding Monitor** - Lighting can be reduced to save peak demand charges in response to building management systems.

**Manual Controls** - Allow lights to be dimmed for tasks requiring less light or to temporarily override time clock programming during off hours.

## DIMMER SELECTION CHART FOR INCANDESCENT & FLUORESCENT LIGHTING

| Dimmer Type | Lamp Compatibility | Dimming Action | Switching | Page No. |
|---|---|---|---|---|
| NOVA | Incandescent/Halogen | Slide-to-Off | Single Pole | 1047 |
| | | Preset, Slide Dim | 3-Way | 1047 |
| | Fluorescent | Slide-to-Off | Single Pole | 1051 |
| Centurion | Incandescent/Halogen | Rotate-to-Off | Single Pole | 1047 |

# INCANDESCENT DIMMING CONTROLS

## SPECIFICATION SERIES INCANDESCENT DIMMERS

:commodate demanding loads in conference rooms, offices, bbies, and reception areas, stores, restaurants, hotels, show-oms, hospitals, homes and other commercial and institutional ghting installations. For use in conjunction with incandescent id halogen lamps. Conserves energy by choosing appropriate ght levels for particular tasks or adjusts light levels according amount of outside lighting. Improves productivity by adjusting ghting to meet visual needs. Increases lamp life up to 20 times. eavy-duty components supress power surges, providing longer mmer life. Voltage compensation circuitry for consistent, nooth lighting control. Superior radio frequency interference FI) filtering to reduce interference with computer systems, tercoms, sound systems, and other electrical equipment. ooling fins prolong dimmer life. Memory feature returns lights previous setting in the event of a power failure. Air gap switch echanism for added safety and reliability. Rated 120VAC, 60 Hz. L Listed, CSA Certified.

### A NOVA SLIDE DIMMER

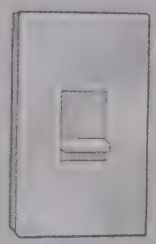
is full range rugged linear slide dimmer makes precise lighting djustments quick and easy. Available in slide-to-off dimmer odels and preset push on/off slide dimmer models. Includes tractive integral faceplate.

### NOVA LINEAR SWITCHES

atches the Nova style dimmers with the linear slide on/off vitch in a wallbox cluster. Includes attractive integral face-ate.

### B CENTURION ROTARY DIMMER

eatures a full range contemporary rotary style dimmer with cap-ve knob and is operated by rotary on/off style controls. cludes an elegantly styled integral beige faceplate.



### C ATHENA ROTARY DIMMER

ie Athena dimmer is controlled by a full range rotary mecha-sm with a black radar sweep knob. On/off function is con-olled by the same rotary mechanism. Includes a integral gold-iodized aluminum faceplate.

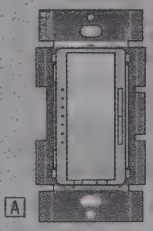
# INCANDESCENT DIMMING CONTROLS

## DESIGNER SERIES DIMMERS

**Applications:** Use in conference rooms, offices, lobbies, and reception areas, stores, restaurants, hotels, showrooms, hospitals, homes and other commercial, institutional and residential lighting installations. For use in conjunction with incandescent and halogen lamps. Use decorator style wallplates (not included, see page 732). Saves energy by using proper light level for task at hand or to adjust for outside lighting. Increases lamp life up to 20 times. Radio frequency interference (RFI) filtering to reduce interference with intercoms, radios, sound systems, and other electrical equipment. Memory feature returns lights to previous setting after power failure. Rated 120VAC, 60 Hz. UL Listed, CSA Certified.

A **Maestro & Maestro Remote.** Multi-location dimmer offers full range dimming from up to ten locations. Tap switch turns lights on to the preset level or to the off position. Side rocker dims or brightens lights at the touch of a button. LEDs indicate preset light level, and glow softly to double as a night light when light is off. Simple touch operation. Tapping the switch once causes lights to fade up or down smoothly. Tapping the switch twice directs the lights to illuminate at full brightness. Press and hold switch for slow ten second fade to off. 40 watt minimum circuit load.



**For multi-location dimming:** Required to use only one Maestro dimmer (either Stock No. 4LZ38 or 4LZ39) per circuit. Up to 9 Maestro Remote dimmers (Stock Nos. 4LZ40 or 4LZ41) can be used. Each location should be wired similar to a standard 3-way switch. Allow 300 ft. for maximum wire length between Maestro dimmer and last Maestro Remote.

B **Diva.** The Diva dimmer consists of a large paddle mechanism used to turn lights on and off, a side mini slider to dim or brighten lights and a convenient soft glow night light feature.

C **Skylark.** Available in slide-to-off dimmer models and preset slide dimmer with mini On/Off rocker switch models. A large linear slider knob makes adjusting light levels easy and fun.

# INCANDESCENT DIMMING CONTROLS

## TRADITIONAL SERIES DIMMING CONTROLS

These traditional series dimmers are designed for use in residential and light commercial settings for applications up to 1000W. Use in conjuction with incandescent and halogen lamps. Toggle style wallplate recommended, but not included. Conserves energy by using appropriate light levels for particular tasks or adjusting light levels according to amount of outside lighting. Increases lamp life up to 20 times. Superior radio frequency interference (RFI) filtering to reduce interference with intercoms, radios, sound systems, and other electrical equipment. Memory feature returns lights to previous setting in the event of a power failure. Rated 120VAC, 60 Hz. UL Listed, CSA Certified.

### A ARIADNI TOGGLE DIMMER

The Ariadni dimmer features a toggle switch and mini slide dimmer that allows user to turn light on/off at selected light levels. Unit is easily wired with a push in or screw terminal.

### B GLYDER SLIDE DIMMER

Features a smooth operating linear slide action dimmer mechanism. Slide-to-off and preset push on/off models are available. Available in 600W and 1000W power models.

### C BASIC ROTARY PUSH ON/OFF DIMMER

This basic dimmer switch operates by pushing on/off, then turning to the right or left to control light levels. Returns to last light level selected when pushed to the on position. Available in 600W power.

### D REPLACEMENT KNOBS FOR ROTARY DIMMERS

Never fear—replacements are available for those times when the knobs are just pushed too hard or too much. Available in neutral white or ivory colors to match any decor. For use with 4X603, 4X852, 4LX92, and 4LX93.

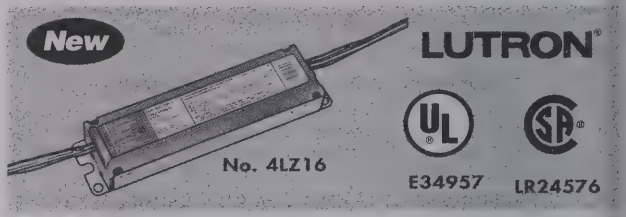
# FLUORESCENT DIMMING BALLASTS AND CONTROLS

## ELECTRONIC DIMMING BALLASTS



The electronic dimming ballasts provide smooth, quiet, flicker-free dimming. Has a better than Class A sound rating and is Class P thermally protected. Superior line transient protection that meets ANSI C62.41 (IEEE 587, category A) to withstand 4000V surges. Meets FCC part 18 RFI/EMI regulations. Ballasts strike lamps at any light level without first flashing to full light. 50°F (10°C) minimum starting temperature. Ballasts contain no poly-chlorinated biphenyls (PCBs). UL Listed, CSA Certified.

## GENERAL FLUORESCENT BALLAST INSTALLATION INFORMATION

Use these fluorescent ballasts with only rapid start fluorescent lamps. T-12 energy saving lamps are not recommended for usage. Mount each ballast in the fixture with the lamp(s) it is controlling. Restrict the lead length between ballast and lamps under 7 ft. New lamps must be initially operated at full intensity for 100 hours to achieve optimum dimming performance. Please note that all wiring from dimming control to the ballast is Class 1 and may be conveniently combined in the same conduit. Eco-10 and Hi-Lume ballasts protect against damage by miswiring of control wire input. Do no mix magnetic dimming ballasts with electronic ballasts on the same control. Combining Eco-10 and Hi-Lume ballasts on the same control is not recommended, due to the production of different light intensities. Ballast inrush current may not exceed 3A at 277V or 7A at 120V to avoid nuisance circuit breaker trips and control contact malfunctions.

## HI-LUME ARCHITECTURAL DIMMING BALLASTS

Use Hi-Lume architectural dimming ballasts for full range dimming from full light output to 1% of full light in lobbies, audio/visual presentations areas, conference rooms, classrooms, computer rooms, museums and other areas requiring full range dimming. They feature a dimming range of 100%-1% light level output; 100%-10% perceived light level. Ballast factor is equal to .93. The total harmonic distortion consists of less than 10% of full light output and diminishes as dimmed. Lamp current crest factor is less than or equal to 1.6. Frequency of operation is greater than 25Khz.

## ECO-10 WORKPLACE DIMMING BALLASTS

Eco-10 Dimming Ballasts are best used for energy management and moderate range dimming down to 10% of full light output in open office spaces, computer work stations, perimeter offices, multi-use work stations and lecture halls. It features a dimming range of 100%-10% light level output; 100%-32% perceived light level. It has a power factor of greater than .95. The ballast factor is equal to .85. Total harmonic distortion consists of less than 10% at full light output and diminishes as dimmed. Lamp current crest factor is less than or equal to 1.6. Ballasts strike lamps at any light level without first flashing to full light.

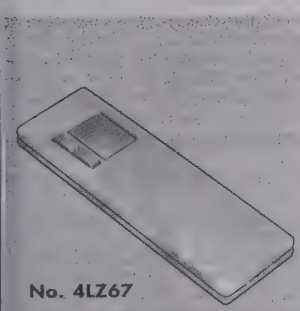
# FLUORESCENT DIMMING BALLAST AND CONTROLS

## NOVA SPECIFICATION SERIES FLUORESCENT DIMMERS



This dimmer has a full range rugged linear slide dimmer for easy, precise lighting adjustment. Heavy duty components surpress power surges and provide longer dimmer life. Voltage compensation circuitry for consistent, smooth lighting control. Features superior radio frequency interference (RFI) filtering, which reduces interference with computer systems, intercoms, sound systems and other electrical equipment. A convenient memory feature returns lights to previous setting after a power failure. Take control of individual fixture(s) directly above workstations in open shared office spaces with this dimmer. Glare from computer screens will be significantly reduced to alleviate fatigue and to increase productivity and personal comfort. Individual controls enable people to adjust lighting levels according to their needs or preferences. The correct light level can be achieved for each task at hand. Ideal for use in open cubical areas, private offices, customer service, CAD areas, order entry, accounting departments, computer departments, telephone operator areas, engineering and general office work areas. Cooling fins have been added to prolong dimmer life. Dimmer includes an integral attractive faceplate that keeps its appearance clean and uniform. Single pole. Neutral white color matches virtually any decor. UL Listed, CSA Certified.

## PERSONNA FIXTURE MOUNTED REMOTE CONTROL DIMMER SYSTEM

Fluorescent fixtures can be dimmed individually or in groups with a convenient handheld wireless remote control. System provides precise control of individual fixture(s) directly above workstations in open shared office spaces according to individual preference. Glare from computer screens will be significantly reduced to alleviate eye strain and fatigue, increasing productivity and performance. Light levels can be easily adjusted to suit changing tasks and personal needs. Ideal for use in work stations, open cubical office spaces, perimeter offices, multi-use work stations, and for office areas that are subject to frequent changes. 1 to 20 ballasts may be connected to a single dimmer/receiver to control one fixture or a group of fixtures. Maximum total wire run between dimmer/receiver and last dimming ballast is 250 ft. Standard wiring is used to connect all light fixtures to the wall switch. Operates at a voltage of 100 - 277VAC, 50/60Hz.

[A] **Dimmer/Receiver** wires are quickly and easily installed directly into existing light fixtures. Fixture must be equipped with HI-Lume or Eco-10 dimming ballasts (not included, see page 1050 for lists of ballasts).

[B] **Remote Controller** - handheld, wireless operation allows you to raise or lower light levels from up to 8 feet away — no more interrupted presentations or meetings.

[C] **Tether/Holster Bracket** may be mounted to a desktop or computer side for fast and easy access. Neutral gray color.

| Key | Description | Lutron Model | New! Stock No. | List | Each | Shpg. Wt. |

| C | Tether/Holster Bracket | RCTH-GR | 4PL34 | 10.00 | 9.00 | 0.1 |

# MULTI-ZONE LIGHTING DIMMING SYSTEM

## GRAFIK EYE MULTI-ZONE LIGHTING DIMMING CONTROLS

Provide preset dimming control of multiple lighting zones. A lighting zone is a single light or a group of lights that is controlled by the same dimming circuit. A combination of user defined light level settings may be stored as a scene. Scenes can be stored in memory and recalled at the touch of a button.

- **Lighting zone levels displayed by LEDs**
- **White base with translucent black, hinged cover concealing pushbutton lighting zone controls**
- **Retrofittable into existing switch boxes or new construction.**
- **Power failure memory: After a power outage, the control retains scene settings and returns to the scene in use prior to outage.**
- **UL Listed, CSA Certified**

## GRAFIK EYE 2000 SERIES DIMMING CONTROLS

Designed for use with incandescent and magnetic low voltage lighting. Light commercial and residential applications. Units available to control 2, 3, or 4 lighting circuits. Memory feature stores up to four scenes. Includes hand held infrared wireless remote to turn on, select and raise/lower any of the 4 scenes on main unit or to simply turn lights on from anywhere in the room. Impressively smooth 3 second fade to on (or between scenes) feature and a 10 second fade to off. User adjustable scenes are initially set at factory to 25%, 50%, 75% and 100% light levels. Maximum capacity of each individual zone is 6.7A, 800W/VA.

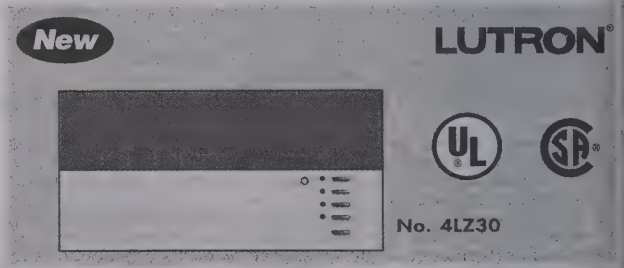
## ACCESSORIES

Wireless Hand Held Remote. This infrared wireless remote is used to turn on, select, and raise/lower any of 4 scenes on main unit or turn all lights off. Use for audio/visual presentations, lectures, projection rooms, conference rooms and other applications. Neutral white color matches any decor. Lutron brand (GRX-IT-WH).

***New* No. 4LZ34.** Shpg. wt. 0.2 lbs. List $100.00. Each.....**$88.25**

**Mounting brackets for Wireless Remote.** Easy wall or table top mounting. Available in black or cream color.

***New* No. 4LZ69.** Black Holster Bracket (PNH-BL). Shpg. wt. 0.1 lbs. List $6.00. Each.....**$5.29**



***New* No. 4LZ70.** Cream Holster Bracket (PNH-CR). Shpg. wt. 0.1 lbs. List $6.00. Each.....**$5.29**

**Single Scene Entrance Control.** Additional switch to turn main unit on/off in a 3-way application. Single push button turns lights on to scene 1 or turns all lighting off. Operates with 3 zone 4PL31 and 4 zone 4PL32. Provides easy retrofit in an existing 3-way installation. Line voltage control must not be connected to low voltage terminals on the main unit. Neutral white color matches any decor. UL Listed, CSA Certified. Lutron brand (NTGRX-1S-WH).

***New* No. 4LZ65.** Shpg. wt. 0.4 lbs. List $100.00. Each.....**$88.25**

## GRAFIK EYE 3100 SERIES

The Grafik Eye 3100 series dimming controls are designed for use with fluorescent (with Hi-Lume dimming ballast and interface accessory), magnetic low voltage, electronic low voltage, (with interface accessory), and neon cold cathode lighting. Use in specification grade commercial applications such as conference rooms, small auditoriums, restaurants, and residences. Choose the unit that best suits your needs. Units listed below are available to control 3, 4, or 6 lighting circuits. Up to 16 scenes can be stored in main unit memory. Use up to 3 additional four scene control stations, Stock No. 4LZ66, to access scenes 5-16. Fade times between scenes are programmable from 0-59 seconds or 1 to 60 minutes. Maximum capacity of each individual zone is 6.7, 800W/VA.

ew No. 4LZ70. Cream Holster Bracket (PNH-CR). Shpg. wt. 0.1 lbs. ist $6.00. Each.....$5.29

] **Power Booster.** Increases the lighting zone capacity to 16A 920W/VA. Use when exceeding 800W per zone or rated capacity f total unit. For use with incandescent, magnetic low voltage or eon cold cathode lighting only. Neutral white color. UL Listed, SA Certified. Lutron brand (NGRX-PB-WH).

ew No. 4LZ64. Shpg. wt. 0.9 lbs. List $230.00. Each.....$203.00

E] **Fluorescent Lamp Dimming Interface.** Connects between 3100 eries Grafik Eye and Hi-Lume or Eco-10 dimming ballast(s). One nterface required per fluorescent lighting zone. Maximum capacty 1920W/VA, 16A. Lutron brand (GRX-FDB1-16A120).

ew No. 4PL33. Shpg. wt. 0.3 lbs. List $210.00. Each.....$189.00

E] **Electronic Low Voltage Lighting Interface.** Connects between 3100 Series Grafik Eye and electronic low voltage lighting transformer. One interface is required per low voltage lighting zone. Incandescent and electonic low voltage sources may be powered on the same zone through this interface. Up to 300W of the 1000W can be incandescent. Maximum capacity 1000W. Lutron Brand (ELV1-1000).

New No. 4PL29. Shpg. wt. 0.3 lbs. List $210.00. Each.....$189.00

F] **Accessory Interface Control.** Allows auxiliary equipment such as projection screens, time clocks, security systems, or occupancy sensors to both access and be controlled by the Grafik Eye.

Unit can be configured for one of four functions at a time:

**Scene Selection Control:** the 4-scene selection control function offers remote control for the main unit to select any 4 scenes or to turn all lighting off. Also allows outputs of up to 5 maintained contact closures or momentary contact closures to projector screens, window shades, or other A/V equipment.

**Special Function Control (Sequencing, Zone Lockout, Scene Lockout, Panic):** Features sequencing through the preset scenes looping indefinitely using the programmed fade times for each scene. Zone Lockout allows only temporary modifications to set light levels. Scene Lockout prevents changing the selected scene or preset light levels. Panic function activates Scene 16 in emergencies and places it in Scene Lockout until toggled again.

**Partition Control:** Provides independent (partion closed) or paralled (partition open) operation of multiple Grafik Eye 3100 series units.

**Occupancy Sensor Control:** May be set to allow occupancy sensor to turn lights on/off or can be programmed to require user to turn lights on manually and sensor to turn lights off. Scene changes are still possible once lights are turned on.

Use Class 2 18 AWG low voltage wiring for installation of system. Easily mounts to 4" square junction box or directly to wall. Unit is configured using DIP switches. UL Listed, CSA Certified. Lutron brand (GRX-AV).

New No. 4LZ33. Shpg. wt. 2.4 lbs. List $350.00. Each.....$309.00

# DIMMING POWER MODULES AND LIGHTING ENERGY MANAGEMENT SYSTEM

## HI-POWER FLUORESCENT AND INCANDESCENT DIMMING MODULES

Increases load capacity of any wallbox dimmer. Enables a standard 120V incandescent dimmer to control 120V incandescent, 120 & 277 fluorescent (with dimming ballast), 120 & 277V magnetic low voltage, 120V electronic low voltage, and 120V neon cold cathode lighting. Ideal for use in conference rooms, lobbies, restaurants, lecture halls, theaters, houses of worship, and ballrooms. Now multi-ganged wallbox dimmers can be replaced with a single control. For use with wallbox dimmers, Grafik Eye controls or other Class 2 raise/lower control. Each individual circuit must be of the same type. The unit has the capability to control 120 & 277V non-dim applications. Maximum and minimum light levels are fully adjustable. A special filtering feature suppresses interference with radio, audio/video equipment and minimizes lamp buzz. Up to 30,000W/VA per single circuit can be controlled by connecting up to 5 modules. Any combination of the three available modules may be connected together to meet total required lighting load. Use standard wiring to connect a dimming control (not included) with module to existing fixtures for proper installation. Each Hi-Power module controls single zone of 12V or 277V lighting.

LUTRON® New

Control up to 30,000 W/VA of virtually any light source

## ENERGY MANAGMENT SYSTEM FOR FLUORESCENT LIGHTING

Saving energy is a snap with the Energy Management System for fluorescent lighting. Save up to 70% of lighting operational costs with this microprocessor controlled energy management system to minimize the energy use of a fluorescent lighting circuit. The controller can combine signals from photosensors, occupancy sensors, time clocks, security and safety systems, manual controls and other building energy management systems for peak period load shedding.

A MicroWATT Lighting Controller continuously monitors all connected inputs to adjust the light level to the lowest level requested by the connected manual or automatic controls. For 120V & 277V (60 Hz) circuit up to 16A. Easy installation on a 4" square junction box. Adjustable trim limits maximum light output from 100% to 60% to save energy and significantly reduce glare. Fixtures must be equipped with Hi-Lume or Eco-10 dimming ballasts (not included) to operate properly.

***New* No. 4LZ43.** Lutron brand (MW-LC). Shpg. wt. 2.8 lbs. List $390.00.
Each ..... **$344.25**

LUTRON® New

No. 4LZ43

No. 4LZ45

## OPTIONAL SYSTEM COMPONENTS

**Daylight Sensor.** Ceiling mounted photocell saves energy when daylight reduces the need for electric light in applications such as perimeter offices, open offices, retail stores and classrooms.

***New* No. 4LZ45.** Lutron brand (MW-PS-WH). Shpg. wt. 0.3 lbs.
List $100.00. Each ..... **$88.25**

**Manual Dimming Controls** may be connected to reduce light levels for reducing glare at computer terminals and other tasks that require less light. Dimmers will temporarily override a time clock, if present, when work occurs during off hours. Up to 5 controls may be connected to the system.

**No. 4LZ42 Diva Manual Controller** has a decorator style paddle on/off switch and preset mini slide dimmer and uses a decorator style wallplate (not included). Neutral white color.

***New* No. 4LZ42.** Lutron brand (MW-DV-WH). Shpg. wt. 0.2 lbs.
List $50.00. Each ..... **$44.15**

**No. 4LZ44 Nova T Manual Controller** has low profile linear slide dimmer with an integral attractive faceplate (included) that provides a clean, uniform appearance. Neutral white color. Manual Dimming Controls may be connected to reduce light levels for reducing glare at computer terminals and other tasks that require less light. Dimmers will temporarily override a time clock, if present, when work occurs during off hours. Up to 5 controls may be connected to the system.

***New* No. 4LZ44.** Lutron brand (MW-NT-WH). Shpg. wt. 0.4 lbs.
List $100.00. Each ..... **$88.25**

**Occupancy sensors**, see page 696, may be connected to a lighting controller to dim or turn off lights in unoccupied areas automatically. Up to 3 sensors may be connected to the system.

**Time clock**, see pages 576 - 580. May be used to trigger lighting controller to dim or turn off lights, saving energy when full light level is not needed. Lights can be left at a dim level for security reasons during off-peak hours in applications such as corridors, open office spaces, retail stores, schools, and municipal buildings.

# I.E.S. INDOOR RECOMMENDED FOOTCANDLE LEVELS

# COMMERCIAL FLUORESCENT FIXTURES

## PARABOLIC RECESSED FLUORESCENT TROFFER

- **Compatible with popular ceiling systems**
- **Safety lock T-hinges allow hinging and latching of either side for easy access**
- **3" deep louver is die formed of semi-specular, vertical grain aluminum**
- **Lighting grade, 86% reflective baked white enamel finish**
- **Pressure lock lampholders**

**Applications:** Parabolic louver technology reduces glare. Use in commercial office spaces, schools, hospitals, or retail merchandising areas.

**Housing:** Nominal 5½" deep, para-contoured housing of die-formed code gauge, prime cold rolled steel. Die-embossed housing has full length die-formed stiffeners for added strength.

**Installation:** Deep "V" ballast/wireway cover is easily removed without tools. Lampholder bracket fully encloses lampholder wiring permitting easy lampholder replacement. Heavy end plates are securely attached with interlocking tabs and screws. Four auxiliary fixture and suspension points provided. Knockouts for continuous row wiring. End plates have integral Grid-Lock feature for safety and convenience.

**Ballast:** CBM/ETL Class "P" ballasts are positively secured by mounting bolts. Black steel latches are positive cam action spring loaded and self locking.

**Lamps not included:** For better results use energy saving, high color rendering lamps such as Staybright XL, SP, or SPX lamps from GE. See Index under Lamps, Fluorescent.

**UL Listed (E77214) and CSA Certified. Made in USA.**

(*) U-bent with 6" spacing. (†) Will operate 34W energy saving lamps.

## COST OF A KILOWATT PER YEAR

**ANNUAL ENERGY COST FOR ONE KILOWATT OF ELECTRICITY**

| 5 Day Usage Hours Of Operation | Cost Per Kilowatt Hour ($KWH) .05 | .06 | .07 | .08 | .09 | .10 | .11 | .12 |
|---|---|---|---|---|---|---|---|---|
| 8 | $104 | $125 | $145 | $166 | $187 | $208 | $229 | $250 |
| 10 | 130 | 156 | 182 | 208 | 234 | 260 | 286 | 312 |
| 12 | 156 | 187 | 218 | 250 | 281 | 312 | 343 | 374 |

### Utility Rebate Reminder

Many utilities offer rebate programs for commercial and industrial applications. By utilizing lamps, ballasts, and fixtures that comply with local programs, a significant cost reduction can typically be realized. Added to the cost savings of energy efficient fixtures, significant total savings and reduced simple payback period can be achieved. A utility rebate is usually a one time credit.

For example:

**5 Days x 10 Hours Of Operation x 52 Weeks x $.09 ($KWH) = $234.00 for One Kilowatt of Electricity for One Year.**

NOTE: 1 Kilowatt = 1000 Watts

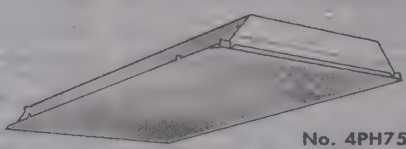
# RECESSED GRID-TYPE TROFFER FIXTURES

## RECESSED GRID-TYPE TROFFER FIXTURES

**COOPER** Lighting
**METALUX**

New



No.4V375

For Indoor Use Only

ENERGY RIGHT®

UL E77214

No. 4PH75

Replacement Parts Available
1-800-323-0620

**pplications:** Grid T-bar applications in areas such as offices, chools, institutions, and residences.

**ousing:** Fully assembled one-piece housing made of 22 gauge, die mbossed steel for rigidity. Full length of housing mechanically esigned to eliminate door frame light leaks. End plates are crewed to the housing. Snap-in ballast covers. Baked white namel finish provides minimum reflectance of 86%. Pressure ock lamp holders.

**nstallation:** Hook tabs on end plate can be pried out and used to ecure fixture on grid.

**ens/Door Frame:** Die-formed flat white steel door with mitered orners. Frame can be hinged and latched from either side for ase of cleaning and relamping. Door frame features positive cam atching and safety hinges. 100% acrylic prismatic lens (No. 12 attern).

**Ballast:** Prewired with standard energy-saving or reduced harmonics electronic ballasts (THD <20%). Complies with Federal Energy Efficiency Standards. Ambient temperature 50°F minimum, 122°F maximum. Units with two ballasts are wired for dual level switching to provide 50% or 100% light output. Includes 4 wires—ground, neutral, and 2 load wires. Nos. 6F563 and 6F564 have one, 2 lamp and one, 1 lamp standard energy saving ballast.

**Lamps not included.** (except pre-lamped fixtures): For better results use energy-saving high color rendering lamps such as Staybright-XL, SP, or SPX lamps from GE. See Index under Lamps, Fluorescent. Pre-lamped fixtures have 3500K lamps installed, except Nos. 3V515 and 6V447 which have cool white (4100K) lamps installed.

**UL Listed (E77214). IBEW label.**

**Metalux brand.**

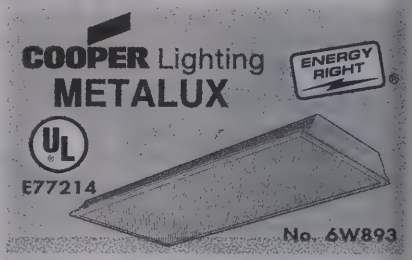
# COMMERCIAL FLUORESCENT FIXTURES

## RECESSED GRID-TYPE TROFFER FIXTURES

**Applications:** For grid T-bar applications in areas such as schools, institutions and residences.

**Housing:** Fully assembled, one piece housing made of 22-gauge steel. Silver lining applied to housing, ballast/wireway cover and end plates produces efficiency levels of up to 84%.



**Installation:** Hook tabs on end plate can be pried out and used to secure fixture on grid. End-plate grid lock feature.

**Lens/Door Frame:** Die formed flat white steel door with mitered corners. Frame can be hinged from either side for ease of cleaning and relamping. Door frame features positive cam latching and safety hinges. 100% acrylic prismatic lens.

**Ballast:** Prewired reduced harmonic electronic T-8 ballast. Complies with Federal Efficiency Standards (<20% THD).

**Lamps not included:** Requires T-8 lamps. See Index under Lamps, Fluorescent.

**UL Listed (E77214).**

## RECESSED FLANGE-TYPE TROFFER FIXTURES

**Applications:** For offices, recreation rooms, and hallways with plaster or drywall ceilings.

**Installation:** Install in ceiling recesses over plaster drywall or concealed-frame ceiling systems. Mounting brackets are fully adjustable over 3¼" range from within installed fixture; shallow 3¾" depth saves space. Snap-in access panels permit wiring without opening fixtures.

**Housing:** Die-formed, heavy gauge, cold rolled steel; baked on white enamel finish. Minimum reflectance is 86%.

**Lens/Door Frame:** Prismatic acrylic diffuser on hinged frame makes relamping easy (hinges from either side).

**Ballast:** Energy-saving ballast. Complies with Federal Energy Efficiency Standards.

**Lamp not included:** For better lighting results use energy-saving, high color rendering lamps such as Staybright-XL, SP, or SPX lamps from GE. See Index under Lamps, Fluorescent.

**UL Listed (E77214). IBEW label.**

(*) For standard wattage lamps. Data may vary for energy saving lamps. (†) Will operate 34W energy saver lamps. (✓) Denotes energy efficient product.

## ECONOMY RECESSED GRID-TYPE TROFFER FIXTURE

**Applications:** Low cost economy grid lights. For residential use only.

**Housing:** Features rotating lock, medium bi-pin sockets, and white baked enamel finish. 9" reflector.

**Ballast:** Complies with Federal Energy Efficiency Standards. 120V, 60 Hz. Operating temperature 60-104°F. For operating on grounded system only.

**Installation:** May be mounted individually or in continuous rows. Requires 3" clearance above T-bars.

**Lamps not included:** Uses 2 F40T12 lamps, see Index under Lamps, Fluorescent.

**UL Listed (E79102).**

**American Fluorescent brand.**

(*) For residential use only. Not recommended for use with 34W Energy Saver lamps. UL Listed (E79102). Requires some assembly.

When it comes to lighting, no distributor outshines Grainger.

# RECESSED RECTANGULAR FLUORESCENT FIXTURE

**Applications:** Typically used as an energy-saving alternative to incandescent lighting, in areas such as kitchens, bathrooms, basements, and soffits.

**Housing:** 22 gauge steel with baked white enamel finish. Flat white trim with glass lens eliminates glare.

**Ballast:** Prewired with 120V, 60 Hz trigger start ballast. Complies with Federal Efficiency Standards.

**Installation:** Suitable for drywall and suspended ceilings.

**Lamps not included:** Uses two 20 watt, T12 lamps. For better lighting results use energy-saving, high color rendering lamps such as Staybright-XL, SP, or SPX lamps from GE. See Index under Lamps, Fluorescent.

**UL Listed (E80574).**

**Halo brand.**

| 2 | 20 | F20T12 | 24⅛ | 6¼ | 4½ | H1260P | **6VCT6** | $130.16 | **$72.30** | 16.0 |

# HEAVY-DUTY INDUSTRIAL FIXTURES

**Applications:** Use where task lighting is needed in work stations, storage areas, and utility rooms. Appropriate for mounting heights between 8 & 15 ft..

**Housing:** Heavy-duty metal-clad, spring loaded turret lampholders assure positive lamp contact, allow wider lamp spacing. Channels die-formed from heavy 20 gauge steel. High gloss baked white enamel finish.

**Reflector:** Die-embossed reflectors for extra strength. Slotted aperture reflector models provide 20% uplight to reduce glare and light contrast between task and surroundings as well as lessen dirt accumulation on fixture. Apertured reflectors also provide greater heat dissipation for prolonged fixture life and a self cleaning effect that permits air to flow over lamps and interior reflector surface.

**Ballast:** Prewired 120 and 277V, 60 Hz ballast. Complies with Federal Energy Efficiency Standards.

**Installation:** Channel connectors for continuous row installation. All 96" fixtures are comprised of two 4 ft. reflectors, secured by channel connectors. Captive fingergrip fasteners secure reflectors to channel without tools. All fixtures are surface or suspension mounted except Nos. 3V384, 3V385, 3V386, 3V926, 3V927, 3V928 and 3V929 which are suspension mounted only.

**Lamps not included:** For better lighting results use energy-saving, high color rendering lamps such as Staybright-XL, SP, or SPX lamps from GE. See Index under Lamps, Fluorescent.

**UL Listed (E71514); IBEW Label.**

Unistrut metal framing is ideal for supporting fluorescent lighting fixtures. See Index under Metal Framing.

2½" spacers No. 132-5075 are available thru Grainger Parts Operation. For fastest service call 1-800-323-0620.

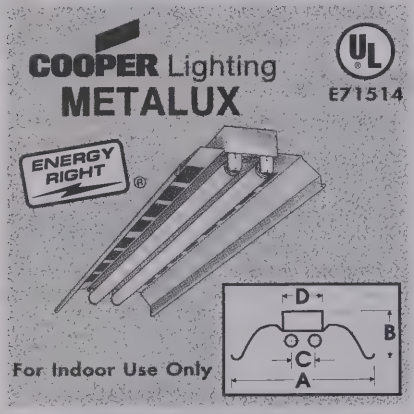
# COMMERCIAL FLUORESCENT FIXTURES

## APERTURED VS. NON-APERTURED

Non-Apertured (below) and Apertured (right)



All industrial fluorescent fixtures have reflectors which reflect light for more efficient illumination as well as provide protection for the lamps.

**Non-Apertured Reflectors** (solid reflectors) are designed to reflect 100% of the light directly downward toward the work surface.

**Apertured Reflectors** have slots cut into their tops, allowing approximately 10-20% of the light to be directed upward toward the ceiling. This "uplighting" can help improve the overall illumination of a work area — especially when used with a highly-reflective ceiling. These slots also allow air to circulate through the reflector, keeping the fixture cooler (enhancing ballast and lamp life) and cleaner than those with non-apertured reflectors.

## GENERAL PURPOSE INDUSTRIAL FIXTURES

**Applications:** Light-duty industrial lighting fixtures. Use where task lighting is needed in work stations, storage areas, and utility rooms. Appropriate for mounting heights between 8 to 15 ft..

**Housing:** Rotating pressure lock lampholders. Nos. 3V471, 3V377, and 3V378 feature metal-clad lampholders with spring loaded sockets. High gloss white baked enamel finish.

**Reflector:** Die-formed reflectors and channels for extra strength. Slotted aperture reflector models provide 8% uplight to reduce glare and soften light; No. 3V377 20% uplight. Apertured reflectors provide a cleaning effect, permitting air to flow over lamps and interior reflector surface.

**Ballast:** Prewired ballasts. 120V and 277V models. Complies with Federal Energy Efficiency Standards. T8 energy-saving models utilize energy efficient electronic ballasts with reduced harmonics and total harmonic distortion <20%.

**Installation:** 1/4 turn latch assembly for fast, easy installation without tools. Channel connectors for continuous row installation. All 96" fixtures are comprised of two 4 ft. reflectors secured by channel connectors. Surface or suspension (H.O. fixtures for suspension mounting only). H.O. fixtures can be used in cold temperature applications.

**Lamp not included:** For better lighting results use energy-saving, high color rendering lamps such as Staybright-XL, SP, or SPX lamps from GE. See Index under Lamps, Fluorescent.

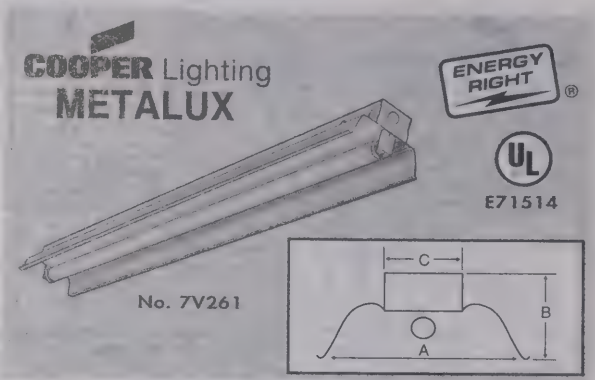
(*) Std. ES=Standard Energy Saver. Std.=Std. Elec.=Electronic. (**) Will operate energy saving lamps. (†) For standard wattage lamps. May vary for energy saving lamps.
(‡) Four lamp tandem fixture. One pair of lamps in-line (one ballast). (✓) Denotes energy efficient product.

When it comes to lighting, no distributor outshines Grainger.

## GENERAL PURPOSE STRIP FIXTURES

**plications:** Multi-purpose, high performance fixtures used in siness and industry.

**using:** Made of die-formed, 20-gauge cold rolled steel. Rotating essure lock lampholders. High gloss white baked enamel ish.



**mps not included:** Requires T8 lamp. See Index under Lamps, uorescent.

**flectors:** 4 foot long, 6" symmetrical semi-specular/aluminum, n-apertured reflectors. Provide more efficient lighting than ndard white reflectors.

**llast:** Prewired reduced harmonic electronic T8 ballasts (120V d 277V) <20% THD comply with Federal Energy Efficiency andards. Minimum start temperature 50°F.

**stallation:** For surface or suspension mounting. Channel connec- rs permit continuous row installation.

**Listed (E71514).**

Two lamp tandem fixture. Two single lamps, in-line (one ballast).

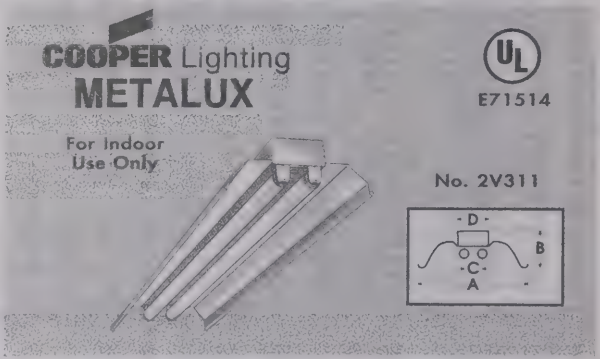
(✓) Denotes energy efficient product.

## INDUSTRIAL WORKSHOP FIXTURES

**plications:** General purpose 24 or 48" fluorescent fixtures pro- de abundant light over workshop benches, tools.

**using:** All steel die-formed channels with full width reflectors. gh-gloss baked white enamel finish.

**flector:** One-piece die-formed reflectors have full length range d rolled edges for extra rigidity. Reflectors attach without ols.



**llast:** Prewired 120V, 60 Hz ballast. Complies with Federal nergy Efficiency Standards.

**stallation:** Includes 3 ft., 3-conductor cordset and 4 ft. chain for spension mounting only.

**mps not included:** For better lighting results use energy-saving, gh color rendering lamps such as Staybright-XL, SP, or SPX mps from GE. See Index under Lamps, Fluorescent.

# COMMERCIAL FLUORESCENT FIXTURES

## GENERAL PURPOSE STRIP FIXTURES

**Applications:** Multipurpose strip lighting used in wide strip lighting for utility areas.

**Housing:** Pressure lock lampholders on 15 to 40W fixtures; spring-loaded lampholders in 75W and 110W fixtures. Baked white enamel finish. Die-formed, 20-gauge, cold rolled steel. Channel covers can be removed without tools. Nos. 6W880-6W883 have narrow housing.

**Ballast:** Prewired ballasts. Nos. 2V317, 2V339, 2V809, and 2V810 are preheat models; require preheat lamps. All others are prewired with standard energy-saving or reduced harmonic electronic ballasts (THD <20%). Complies with Federal Energy Efficiency Standards.

**Installation:** Fixtures can be surface or suspension mounted. H.O. fixtures suspension mounted only. Channel connectors for continuous row installations.

**Lamp not included:** For better lighting results use energy-saving, high color rendering lamps such as Staybright-XL, SP, or SPX lamps from GE. See Index under Lamps, Fluorescent.

**UL Listed (E71514) for Metalux and (E75501) for American Fluorescent. IBEW Label.**

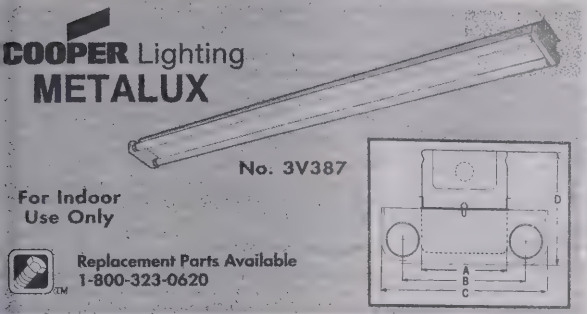
### FIXTURE ACCESSORIES

| Description | Mfr. | Mfr's. Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **Gripper Hanger for SS Strips** | Metalux | GRPSSU | 3JN25 | $1.39 | $1.19 | 0.1 |
| **Gripper Hanger for STN Strips** | Metalux | GRPSTN | 3JN26 | 2.43 | 2.07 | 0.1 |
| **24" Stem & Canopy Set. For suspending fixtures from ceiling. Need 2 for 4 ft. fixtures, 3 for 8 ft fixtures.** | American Fluorescent | PMSL-24 | 2V122 | 11.20 | 9.24 | 1.5 |



(*) Two lamp tandem fixture. Two single lamps, in-line (one ballast).

(†) Minimum temperature based on standard wattage lamps

(††) Four lamp tandem fixture. One pair of lamps in-line (one ballast).

All Energy Saver lamps have minimum temperature rating of 60°F. (**) Will operate energy saving lamps. (✓) Denotes energy efficient product.

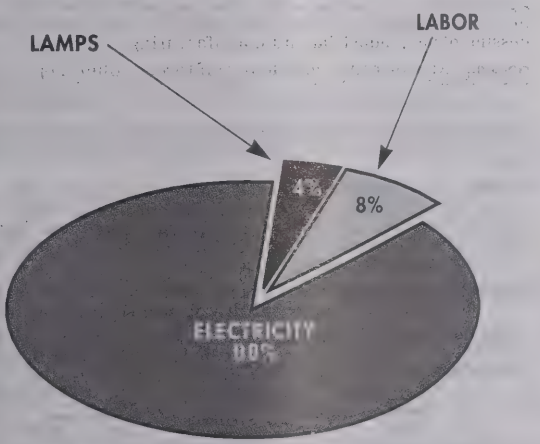
## HEAVY-DUTY UNSHIELDED STRIP FIXTURES

**Applications:** Multipurpose strip lighting used in narrow and wide strip lighting for utility areas.

**Housing:** Metal-clad spring-loaded turret sockets assure positive lamp contact. Wide spacing of lamps provides better light dispersement and heat dissipation. Die-formed, 20 gauge, cold rolled steel, baked white enamel finish. Channel covers can be removed without tools.

**Ballast:** Prewired 120V, 60 Hz ballasts. Complies with Federal Energy Efficiency Standards.

**Installation:** Channel connectors for continuous row installation. No. 3V387 is surface or suspension mounted: Nos. 3V388 and 3V254 are suspension mounted only.



**Lamp not included:** For better lighting results use energy-saving, high color rendering lamps such as Staybright-XL, SP, or SPX lamps from GE. See Index under Lamps, Fluorescent.

**UL Listed (E71514); IBEW Label.**

| Lamps (Not Included) Watts | Type | Amb Temp (°F) Min. | Max. | Line Amps | Dimensions (In.) Length | A | B | C | D | Metalux Model | Stock No. | Less Lamps List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| 75* | F96T12 | 50 | 122 | 1.35 | 96 | 4 1/4 | 6 | 8 1/8 | 5 1/8 | STM296120VLE3 | **3V387** | $61.18 | **$55.75** | 25.0 |

* Will operate 60W energy saving lamps.

## COST OF LIGHT

The smallest part of the cost of light is actually the purchase price of the lamp, electricity accounts for 88% of the cost of light. By choosing a more efficient lamp, even one that costs more, you can save money over the life of the lamp.

For example:

| Fixture Stock No. | 3V420 | 3V656 |
|---|---|---|
| Watts/Fixture | 172 | 112 |
| Lamp Type (Stock No.) | F40CWRSWM (3V477) | F32T8SP41 (6VR66) |
| No. of Lamps | 4 | 4 |
| Price of Lamps (Each) | $1.56 | $2.48 |
| Price of Fixture | $34.80 | $62.95 |
| Total Price (Fixture & Lamps) | $41.04 | $72.87 |
| Cost of Electricity | $275.20* | $179.20* |
| Total Comparison Cost* | **$316.24** | **$252.07** |

(*) At $0.08/KWH over average Lamp Life.

# INDUSTRIAL FLUORESCENT FIXTURES

## HIGH PRESSURE HOSEDOWN LUMINAIRES

**Application:** For areas subject to extreme humidity or wet conditions such as food processing plants, laundries, washing areas, and loading docks. Withstands water penetration even when subjected to a 1200 PSI high pressure hosedown test.

**Housing:** High impact resistant, DR-blended acrylic tube enclosing heavy gauge aluminum ballast channel and stainless steel ballast channel end plate. 1/2" thick opaque PVC endcaps are fully sealed with closed cell silicone gasketing. Watertight connectors ensure the integrity of the seal at the point of power supply.

**Power Connections:** Five foot, three-wire cord and watertight connector standard.

**Installation:** Stainless steel sash chain and S-hooks standard.

**Reflector:** Heavy gauge aluminum reflector finished with high reflectance white powder coat paint.

**Ballast:** High power factor 120V or 277V electronic ballast, 60Hz. Min. start temperature -20°F, except for 4HP53 and 4HP54 which is 50°F.

**Lamps not included.**

**UL Listed and CSA Certified** for wet locations.

## WET LOCATION, DUST-RESISTANT FLUORESCENT FIXTURES

**Applications:** Use in areas where dust and/or moisture are present or where sanitation is important such as in kitchens, food processing plants, industrial and manufacturing environments.

**Housing:** Noncorrosive seamless reinforced fiberglass body for indoor/outdoor use. Continuous polyurethane gasketing provides a seamless seal against elements and moisture. Cam latches for a positive seal between housing, gasket, and diffuser. Water tight hubs on each end; accepts 1/2" conduit. UL Listed for wet locations.

**Ballast:** Prewired with standard energy-saving 60 Hz ballast except for No. 6F554 which uses a normal power factor trigger start ballast. Nos. 5U964 and 5U965 use a reduced harmonic (THD <20%) T-8 electronic ballast. Complies with Federal Energy Efficiency Standards. IBEW Label.

**Installation:** Internal/external brass mounting studs. Die formed steel mounting brackets for surface or suspension mounting.

**Lamps not included:** For better lighting results use energy-saving high color rendering lamps such as Staybright-XL, SP, or SPX lamps from GE. See Index under Lamps, Fluorescent.

# LOW PROFILE LINEAR LIGHTING SYSTEM

**plication:** Designed to provide an attractive, energy efficient, d low brightness lighting system for retail merchandising, commercial and industrial aisle lighting applications. Thin-baffled uver provides visual appeal for surface, stem or cable mounted stallations. The profile appearance of the luminaire and the uver aesthetics blend to create an effective linear lighting sysm. The luminaire can be used as a single lighting element or is excellent choice when the specification calls for a continuous w system.

**using:** Housing, socket track, and ballast cover are die-formed de gauge, prime cold rolled steel. Smooth sides and soft corred housing permits flush joint for continuous row mounting. ousing back has numerous knockouts for easy installation. allast cover easily removed without tools for electrical access. ecorative injection molded white end plates. Couplers for conuous row mounting. Electrostatically applied baked white olyester enamel finish. Iron phosphate coating with rust hibitor. Minimum reflectance 90%.

**ffle:** Thin-blade, baffled louver has a baked white matted finish. uver cross vanes are "scooped" below each lamp to maximize ficiency. The louver is positively secured by spring steel clips d can be easily removed for wiring access and re-lamping. sitive light seal around entire perimeter of louver. Louver has effective lengthwise shielding angle of 40°.

**allast:** prewired with electronic ballasts. Complies with Federal nergy Efficiency Standards. Ambient temperature 50°F minium; 122°F maximum.

**stallation:** Fixture can be surface, stem or cable mounted.

# SEMI INDIRECT FIXTURES

**Applications:** Provide direct/indirect illumination for a wide range of applications—school classrooms, libraries, drafting areas, and rooms with computer terminals.
**Ballast:** Prewired, HPF, high output, energy-saving ballast.
**Housing:** Die-formed rugged steel with white Lektrocote® finish. Die cast socket box with spring loaded coated sockets for easy installation.
**Lens/Louver:** Clear prismatic pattern (No. 12) acrylic lens for widespread distribution or 1/2" x 1/2" x 1/2" silver acrylic parabolic louver provides excellent cutoff. Both closures provide a visual comfort probability (VCP) over 70.
**Lamps (Not Included):** For best lighting results use improved color rendition HO lamps from GE. See Index under Lamps, Fluorescent. CSA Certified (LR94675).

**Accessories:**

**12" Stem & Hanger Assembly.** (Includes stem with hardware, swivel hanger bracket, and decorative canopy). Hangers have 1½" vertical adjustment to allow for uneven ceilings. Up to 25° swivel action from vertical. Hanger may be attached to fixture prior to attaching to ceiling. 3 required per fixture. Hubbell brand.
**No. 3V884.** 12" Stem & Hanger Assembly. (STH12RW). Shpg. wt. 1.0 lbs. List.....$28.71. Each.....**$19.46**

# SURFACE MODULAR CEILING FIXTURES

**Applications:** Low profile "box type" surface modular fixtures are designed to provide excellent light and appeal to offices, schools, corridors, hallways, and other institutional applications.

**Housing:** All metal sides for clean, crisp appearance. Full seam welded corners. Die-formed, heavy gauge steel construction. 90% minimum reflectance provided by an electrostatically-finished, high gloss baked white enamel. Snap-in pressure lock lamp holders.

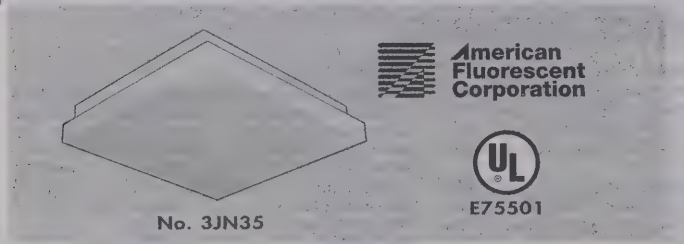
**Lens/Door Frame:** 100% acrylic, nonyellowing prismatic diffuser for even, glare-free light distribution (No. 12 pattern). Diffuser framed in heavy gauge steel door. Door frame can be hinged and latched from either side for easy cleaning and relamping. Urethane foam gasket in frame door prevents light leaks, keeps dust out. **No. 4V374** has one-piece acrylic prismatic lens (No. 18 pattern).

**Ballast:** Prewired with 120V, 60 Hz ballast. Complies with Federal Energy Efficiency Standards.

**Installation:** Surface or stem mounted, unit or row installation.

**Lamps not included:** For better lighting results use energy-saving high color rendering lamps such as Staybright-XL, SP, or SPX lamps from GE.

**UL Listed (E71514). IBEW Label.**



**Metalux brand.**

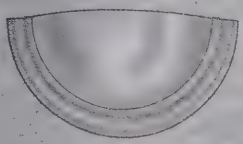
# FLUORESCENT WALL SCONCES

PROGRESS



ENERGY RIGHT®

No. 7A431

No. 7A432

No. 7A433

Surface Mount Backplate Included

**Applications:** For use in commercial and residential locations for lighting hallways, lobbys, reception areas, living rooms, dining areas and family rooms. Use sconces where the effects of indirect lighting are desired. Casts light upward.

**Housing:** No. 7A431 has opal white acrylic cloud diffuser. No. 7A432 is polished brass with opalescent white acrylic quarter-sphere. No.7A433 is sandstone white acrylic diffuser with sandstone banding.

**Ballast:** 120V 60Hz normal power factor.

**Lamps not included:** Uses two 13W compact fluorescent lamps (No. 2V835).

**Installation:** Surface mount backplate mounts directly onto junction box.

**Progress brand.**

# DECORATIVE VANITY FIXTURES

American Fluorescent Corporation

ENERGY RIGHT®

UL E75501

No. 6VW85

**Applications:** For use above vanities, in hallways, corridors or in closets, wall or ceiling mounting.

**Housing:** Baked white enamel, heavy gauge die formed metal.

**Ballast:** Prewired, high power factor, rapid start ballast (No. 3JN39 uses T8, high power factor magnetic ballast). 120V, 60 Hz. Complies with Federal Energy Efficiency Standards. Operating temperature 60-104°F. For operation on grounded system only.

**Lens:** Distinctive white acrylic diffuser with stylish rounded edges presents a floating cloud look. Fits flush to wall or ceiling.

**Lamps not included:** For better lighting results use energy-saving, high color rendering lamps such as Staybright-XL, SP, or SPX lamps from GE. See Index under Lamps, Fluorescent. UL Listed (E75501).

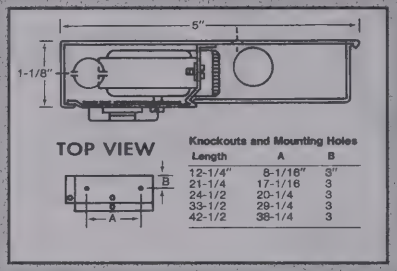
# COMMERCIAL/RESIDENTIAL FLUORESCENT FIXTURES

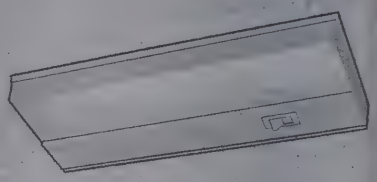
## "TRIM LITE" UNDER CABINET FIXTURES

**Applications:** Used for lighting work surfaces in kitchens, offices, computer workstations, and workshops. Add extra illumination in dark countertop corners and anyplace extra light is needed.

**Housing:** 20 gauge die-formed steel housing with white bonderized finish resists scratching and marring. On/Off rocker switch. All models 5" wide by 1" deep.



**Ballast:** Preheat 8 or 13 watt normal power factor ballast. Operating temperature 60-104°F. For operation on grounded system only. 120V 60Hz.



**Lens:** Nonyellowing smooth white acrylic diffuser provides soft glare-free illumination.

**Installation:** Flush ends for continuous row mounting. Slim, 1" profile allows the fixture to be hidden from view in most installations. Hinged and unitized wire-ways. 3/16" diameter mounting holes and four 1/2" diameter knockouts. Combination flex romex conduit connector included.

**Lamp not included:** Use suggested lamp listed in chart or see Index under Lamps, Fluorescent.

**American Fluorescent brand.**

## 15W CHROME STRIP FIXTURE

American Fluorescent Corporation

E75501

For Indoor Use Only. Lamp Not Included

**Applications:** Widely used with bathroom mirrors, in kitchens, displays, under cabinets, etc.

**Housing:** Chrome finish on heavy 2½" wide steel channel. On-Off switch and grounded convenience outlet. 19½L x 2½W x 1¾"H.

**Ballast:** Prewired with normal power factor, preheat, 120V, 60 Hz ballast. Complies with Federal Energy Efficiency Standards. For indoor use only. Operating temperature 60-104°F. For operation on grounded systems only. Max. line amps 0.34.

**Lamp not included:** For better lighting results use energy-saving, high color rendering lamps such as SP or SPX lamps from GE. See Index under Lamps, Fluorescent. Fixture uses one, lamp type F15T8. Suggested lamp 1V173.

**UL Listed (E75501).**

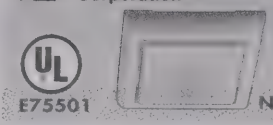
**American Fluorescent brand** (SCA115C0).

**No. 2V308.** Chrome Strip Fixture.

Shpg. wt. 2.5 lbs. List.....$25.27.
Each $18.50; Lots 3.....$17.58

## CLOSET/HALLWAY FIXTURES

Slim styling designed for closets, under cabinets or hallways. High impact, injection molded polycarbonate plastic housing. Prewired, pre-heat type ballast. 120V, 60 Hz. Operating temperature 60-104°F. For operation on grounded system only. Complies with Federal Energy Efficiency Standards.



**Lamps not included:** Uses 2 Biax twin tube lamps, use suggested lamp listed below or see Index under Lamps, Fluorescent.

**UL Listed (E75501):** Meets National Electrical Code requirements for closet lighting.

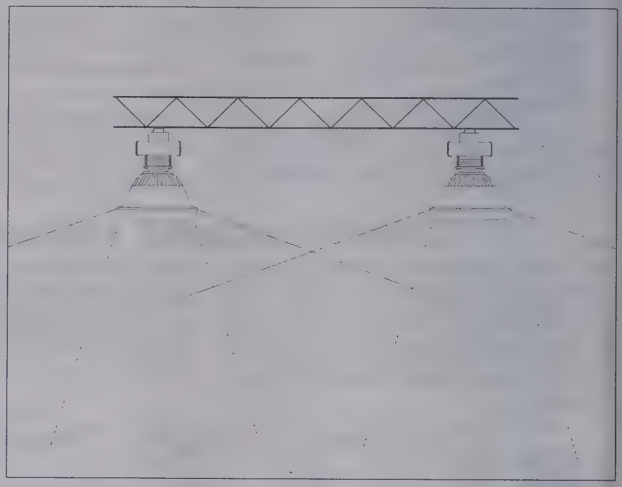
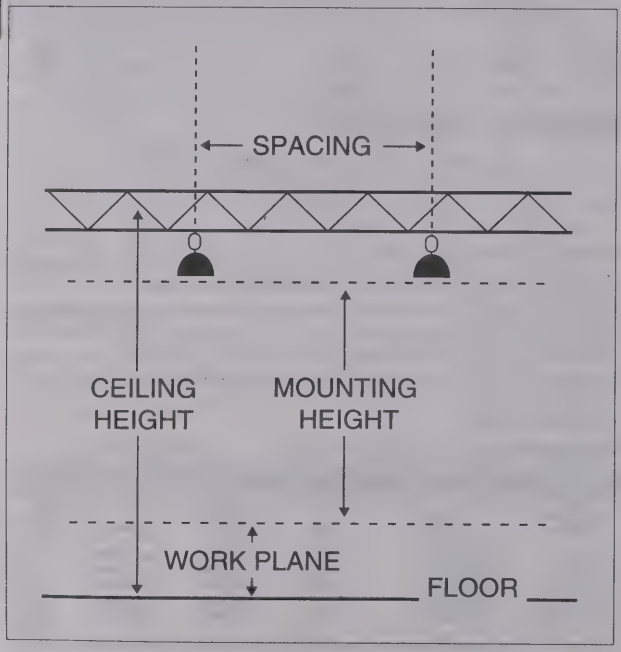
# INDUSTRIAL HID FIXTURE GUIDE



## HIGH BAY VS. LOW BAY HID FIXTURES

### HIGH BAY FIXTURES



**High Bay Fixtures** are designed to deliver the maximum amount of light onto the work plane. They are not recommended for mounting heights below 20 ft. To accommodate these higher mounting heights, high bay fixtures feature reflectors that produce a concentrated light beam in order to provide effective horizontal illumination. If mounted below 20 ft., high bay fixtures can cause glare, eye fatigue, harsh shadows, and dark spots on the work plane.

### LOW BAY FIXTURES

**Low Bay Fixtures** are designed to deliver a more evenly-spread light onto the work plane. They are recommended for mounting heights below 20 ft. The reflector of low bay fixtures has an acrylic lens on the bottom to diffuse the light and provide excellent horizontal and vertical illumination. This helps to reduce glare while providing a wider beam pattern to accommodate for lower mounting heights.

## HID FIXTURE TECHNICAL INFORMATION

**Ceiling Height** is the measurement from the floor to the ceiling.

**Mounting Height** is the measurement between the work plane to the bottom of the fixtures.

**Work Plane** is a measurement, usually between 2½ to 3' above the floor. This is the level at which foot-candle readings are taken. If readings were to be taken at floor level, then the floor would be considered the work plane.

**Spacing** is the distance between fixtures.

### SPACING TO MOUNTING HEIGHT RATIO

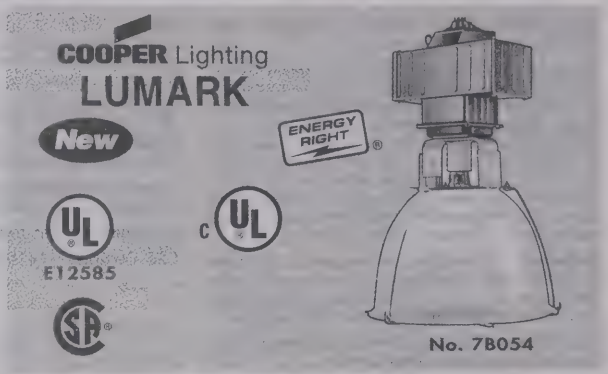
**Spacing to Mounting Height Ratio (S/MH)** determines the optimal spacing between fixture centers for uniform lighting. If the spacing between fixtures exceeds the optimal spacing determined with the S/MH ratio, then dark spots may occur on the work plane. All indoor HID fixtures have a S/MH ratio.

Optimal spacing is calculated by multiplying the S/MH ratio by the mounting height. For example: If the S/MH ratio is 1.5 and the mounting height is 15 ft., then the distance between fixtures should not exceed 1.5 x 15', or 22½'.

| Spacing to Mounting Height ratio (S/MH) | x | Mounting Height | = | Optimal Spacing |
|---|---|---|---|---|

### RECOMMENDED FIXTURE WATTAGES/MOUNTING HEIGHT

| Mounting Height (Ft.) | Recommended Fixture Wattage and Type |
|---|---|
| Under 10 | 70 - 100W Low Bay |
| 10 - 12 | 150 - 175W Low Bay |
| 12 - 15 | 150 - 250W Low Bay |
| 15 - 20 | 250 - 400W Low Bay or 250W High Bay |
| 20 - 25 | 400W Low Bay or 250-400W High Bay |
| 25 - 35 | 400W High Bay |
| 35 or higher | 1000W High Bay |



When it comes to lighting, no distributor outshines Grainger.

# INDUSTRIAL HID FIXTURES

## PRISMATIC GLASS REFLECTOR HIGH BAY FIXTURES

**Application:** Retail stores, wholesale warehouses, grocery chains, malls and auto service areas.
**Mounting:** Easy slide-on die-cast aluminum mounting box with tapped opening for 3/4" conduit.
**Housing:** Heavy-duty, formed steel housing with an open air ballast for cooler operation is finished in a dark bronze polyester powder coat.
**Safety Cable:** Safety cable attached from housing to reflector standard
**Ballast:** High power factor ballast with class H insulation. UL listed for 65°C (149°F) ambient temperature operation. Minimum starting temperature -40°C (-40°F) for HPS and -30°C (-20°F) for MH CSA certified.
**Socket:** Mogul-base porcelain socket.
**Reflector:** Easily mounted prismatic borosilicate reflector has three adjustable distribution patterns in 400W and down for precise control. Zinc-plated wire form with optional safety glass bottom for durable performance.

**All models metal halide except 7B056 and 7B057 are HPS.**

## STEELER™ ACRYLIC PRISMATIC HIGH BAY FIXTURES

ACCESSORIES FOR LOW AND HIGH BAY FIXTURES ON PAGE 1086

**Applications:** Provides 22% uplighting to illuminate the ceiling and deliver a clean, bright appearance in commercial applications. Designed for use in retail stores, wholesale warehouses, grocery chains, mall lighting, and automobile showrooms.
**Housing:** Heavy-duty, die-formed steel housing. Embossed for cooler operation and extended ballast life. Mogul base porcelain sockets. Polyester powder coat dark bronze finish.
**Reflector:** Prismatic acrylic reflector for a bright appearance and ample uplight. Field-adjustable reflector allows for 5 distinct beam patterns for precision control.
**Ballast:** High power factor, constant wattage autotransformer type, 60 Hz. Multi-tap ballast allows for field selection of voltage (120/208/240/277). Maximum ambient operating temperature of 55°C (131°F). Minimum starting temp. -40°C (-40°F) for high pressure sodium, and -30°C (-20°F) for metal halide.
**Installation:** Designed for pendant mounting. Features slide-on mounting box with tapped opening for 3/4" conduit.
**Lamp not included:** Use suggested lamp listed below or see Index under Lamps, HID. No. 7B053 requires (1) 2V658 and (1) 2V703.
**UL Listed (E12585); CSA Certified (LR1787).**

# INDUSTRIAL HID FIXTURES

## ENCLOSED AND GASKETED WET LOCATION HIGH BAY FIXTURES

**Applications:** Gyms, foundries, hangars, and industrial/processing areas.

**Housing:** Durable die cast aluminum housing for lasting performance in the harshest environments. **Totally enclosed assembly features gasketing at three points:** door to reflector; reflector to neck; and neck to housing, for sealing out external contaminants. Unique design allows air flow between isolated electrical components for cooler operation. Textured black polyester powder coat finish.

**Reflector:** Computer designed, faceted reflector for maximum photometric performance and beam efficiency. Protective finish for stain and corrosion resistance.

**Lens:** Tempered glass lens with hinged and latched aluminum door frame.

**Ballast:** High power factor ballast with class H insulation. UL Listed for 65°C (149°F) ambient temperature operation. Minimum starting temperature is -40°C (-40°F) for high pressure sodium and -30°C (-20°F) for metal halide.

**Installation:** Heavy duty die cast aluminum mounting box tapped for 3/4" conduit.

**Lamp not included:** Use suggested lamp listed below or see Index under Lamps, HID.

**UL Listed** for wet locations (E12585).

**CSA Certified (LR41075).**

## BENCHMARK™ EX PRISMATIC HIGHBAY FIXTURES

**Description:** Durable heavy-duty die-cast aluminum ballast housing and prismatic acrylic reflector and drop refractor system for specification-level performance.

**Application:** For applications requiring vertical and horizontal illumination on multiple surfaces, including fabrication, manufacturing, assembly areas or retail/commercial/industrial warehousing.

**Mounting:** Easy slide-on die-cast aluminum mounting box tapped opening for 3/4" conduit.

**Housing:** Heavy-duty die-cast aluminum housing for lasting performance in harsh environments. Unique design allows air to flow through isolated components for cooler operation. Finished with textured black polyester powder coat.

**Ballast:** High power factor ballast with class H insulation. Listed for 40°C (140°F) ambient temperature operation. Minimum starting temperature is -40°C (-40°F) for HPS and -30°C (-20°F) for MH.

**Socket:** Mogul-base porcelain socket.

**Reflector:** Acrylic reflector system mounts directly to housing and provides full, even illumination.

# INDUSTRIAL HID FIXTURES

## STEELER™ HIGH BAY FIXTURES

**Applications:** Warehouses, foundries, gymnasiums, assembly areas, hangars, manufacturing, and automobile service areas.

**Housing:** Features heavy-duty, die-formed steel housing. Embossed for cooler operation and extended ballast life. Mogul base porcelain sockets. Polyester powder coat dark bronze finish.

**Reflector:** Spun aluminum. Screws to mounting bracket on housing to ensure safety. Five field adjustable settings provide concentrated to wide light patterns. Fluted reflector design limits maximum lamp arc tube voltage rise on HPS units to 4.2 volts which promotes lamp life.

**Ballast:** High power factor, constant wattage autotransformer type, 60 Hz. Available with Multi-tap ballast which allows for field selection of 120/208/240/277V. 480V ballast also available. Nos. 7B051 and 7B052 feature a quartz restrike (does not strike at cold start.) All units maximum ambient operating temperature 65°C (149°F), except Nos. 7V197 & 7V272 55°C (131°F). Minimum starting temp. -40°C (-40°F) for high pressure sodium, and -30°C (-20°F) for metal halide.

**Installation:** Designed for pendant mounting. Features slide-on mounting box with tapped opening for 3/4" conduit.

**Lamp not included:** Use suggested lamp listed below or see Index under Lamps, HID. Nos. 7B051 and 7B052 also require one No. 2V703 restrike lamp.

UL Listed (E12585); CSA Certified (LR1787).

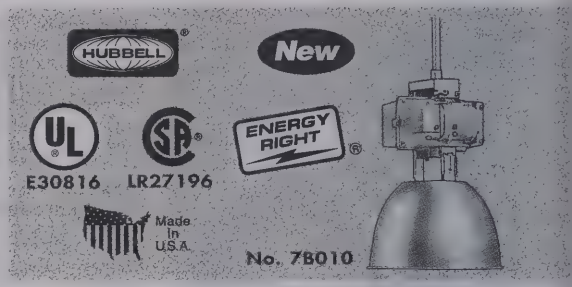
# INDUSTRIAL HID FIXTURES

## STANDARD HIGH BAY FIXTURES

**Applications:** For use in heavy and light industrial plants, warehouses, retail centers.

**Housing:** Corrosion-resistant Lektrocote finish on housing.



**Reflector:** 14" or 19" diameter reflector. Field adjustable reflector brackets and porcelain mogul base socket.

**Lamp not included:** Use suggested lamp listed below or see index under lamps, HID.

**Mounting:** Choice of premium pendant, or ceiling through-wire Slick-on® (Nos. 7B022, 7B024, 7B026, 7B028, 7B030, 7B032 0nly) or Standard Pendant Quick-on® mounting system.

**Approvals:** UL Listed (E30816) 55° C, damp location; CSA Certified (LR27196).

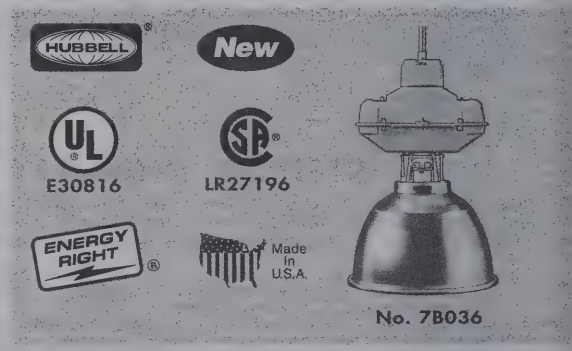
## TRIBAY™ OPEN AND ENCLOSED REFLECTOR HIGH BAY FIXTURES

**Applications:** Produces primarily horizontal footcandles in manufacturing plants and storage areas.

**Housing:** Heavy duty die-cast Lektrocote® finished aluminum housing. Nos. 7B043, 7B044, 7B045, and 7B046 have a charcoal filter to keep the optical assembly cool while alleviating heat build-up.

**Reflector:** Superior 19" Anodal® finished aluminum reflectors.



**Ballasts:** Reliable long-life ballasts (Class H insulated) for either metal halide starting down to -20°C, for high pressure sodium starting down to -40°C. All ballasts are quad tap (120, 208, 240, 277 volt).

**Mounting:** Universal mounting box, allows for flexible installation.

**Lamp not included:** Use suggested lamp listed below, or see index under lamps, HID.

**Approvals:** UL Listed (E30816); CSA Certified (LR27196), UL thermal listing; 65°C for long life.

# INDUSTRIAL HID FIXTURES

## ENTERPRISE™ CIRCULAR LOW BAY FIXTURES

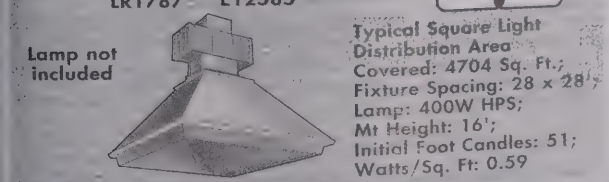
**Applications:** Warehouses, foundries, gyms, assembly areas, and hangars.

**Housing:** Heavy-duty die-formed steel. Embossed housing for cooler operation and extended ballast life. Mogul base porcelain socket. Polyester powder bronze coat.

**Reflector:** Spun aluminum with reflective white polyester powder coat and injection molded prismatic acrylic lens. Enclosed and gasketed assembly. Designed to maximize optical lamp performance with minimal voltage rise.

**Ballast:** High power factor, constant wattage auto transformer type, 60 Hz. Multi-tap ballast units allow for field selection of voltage (120/208/240/277V). 480V ballast also available. Maximum ambient temperature 55°C (131°F). Minimum starting temperature is -40°C (-40°F) for high pressure sodium and -30°C (-20°F) for metal halide.

**Installation:** Features easy, slide-on mounting box with tapped opening 3/4" conduit. Reflector attaches to housing with quick release latches and can be lowered on retaining springs for hands free maintenance. Dimensions: 25" high. No. 7A544 is 24" high with a 28" reflector. Mtg. Ht.: Min. 12 ft., max. 25 ft.



**Lamp not included:** Use suggested lamp listed below or see Index under Lamps, HID.

UL Listed (E12585); CSA Certified (LR41075).

## APOLLO™ SQUARE LOW BAY FIXTURES

**Application:** Warehouses, foundries, assembly areas, hangers, manufacturing and automobile service areas.

**Housing:** Features heavy-duty die-formed steel. Housing is embossed for cooler operation and extended ballast life. Mogul base porcelain socket. Polyester powder coat bronze finish.

**Reflector:** Die-formed steel reflector with prismatic acrylic lens provides 83% efficiency and a 1.8 spacing to mounting height ratio on HPS models and 1.7 on metal halides. Enclosed and gasketed optical assembly. Superior design limits lamp voltage rise to maximum 5.9 volts in 400 watt HPS lamps which promotes lamp life.

**Ballast:** High power factor, constant wattage auto transformed type, 60 Hz. Multi-tap ballast allows for field selection of voltage (120/208/240/277V). Maximum ambient temperature operation 55°C (131°F). Minimum starting temperature is -40°C (-40°F) for high pressure sodium, and -30°C (-20°F) for metal halide.

**Installation:** Easy, slide-on mounting box with tapped opening for 3/4" conduit. Reflector assembly latches to ballast housing for easy relamping. Dimensions 24" high with a 23 1/4" square reflector. Mtg. Ht.: Min. 12ft. Max. 25ft.

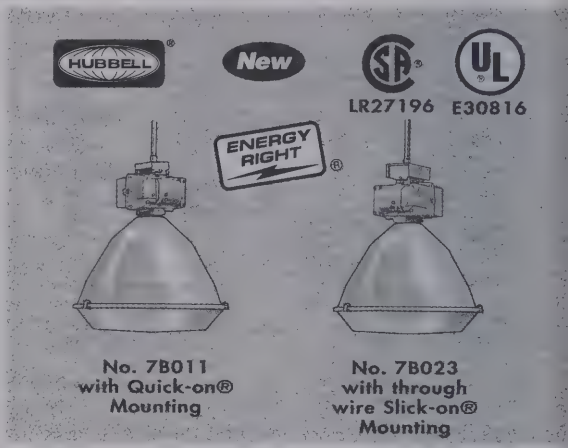
# INDUSTRIAL HID FIXTURES

## SUPERBAY I™ LOW BAY FIXTURES

**Applications:** For low to medium mounting heights in areas requiring good horizontal uniformity and high vertical illumination. Quick-On® pendant mounting on units 7B011, 7B013, 7B015, 7B017, 7B019 and 7B021. Slick-On pendant or through-wire mounting on units 7B023, 7B025, 7B027, 7B029, 7B031 and 7B033.

**Housing:** Ballast module is rugged, die-cast aluminum with corrosion resistant Lecktrocote® finish. All electrical components are mounted directly to the module for cool, long life operation.

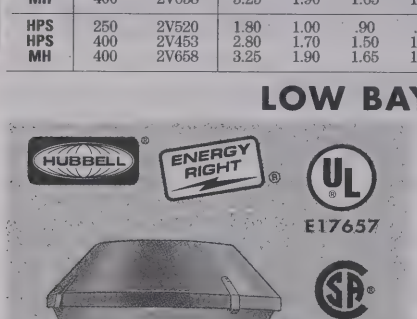
**Reflector:** Spun from high purity, heavy gauge aluminum with Lecktrocote® finish.



**Refractor:** Hinged and latched with corrosion resistant steel hardware. UV stabilized for long life and durability. Provides square distribution to enhance uniformity and increase fixture spacings.

**Ballast:** High power factor, copper wound, constant wattage regulator, QuadTap® for line voltages of 120, 208, 240 and 277.

**Additional features:** Easy to install. UL listed for 55°C ambient operation in damp locations. Porcelain mogul base socket.



**Lamp not included:** Use suggested lamp below or see index under lamps, HID.

**Approvals:** UL Listed (E30816); CSA Certified (LR27196)

## LOW BAY FIXTURES 250 AND 400 WATT

**Applications:** Used in manufacturing plants, machine shops, assembly areas, warehouses, aisle lighting, and other areas where three dimensional, high illumination levels are required.

**Housing:** High purity spun aluminum with gray corrosion resistant Lektrocote® polyester acrylic powder paint finish.

**Refractor:** Injection molded of high performance acrylic that provides up to 25% uplight, supurb glare control in the 60° to 90° zone, and wide light distribution for excellent vertical illumination. The use of multiple units assures all tasks are illuminated thereby reducing harsh shadows.

**Ballast:** High power factor, copper wound, constant wattage regulator, QuadTap® for line voltages of 120, 208, 240, and 277. UL Listed for 40°C (104°F) ambient operation.

**Installation:** Shipped pre-wired with lamp installed for quick and easy balanced pendant mounting with 3/4" conduit hub installed.

**Dimensions:** 17⅛H x 22¼" Dia.

**Approvals:** UL Listed (E17657); CSA Certified (LR27196) for damp locations

**NOTE:** All Units are Shipped Pre-Wired with Lamp Installed.

When it comes to lighting, no distributor outshines Grainger.

# VERTIMARK II™ LOW BAY FIXTURES

**Applications:** Warehouses, assembly or manufacturing areas, parking garages.

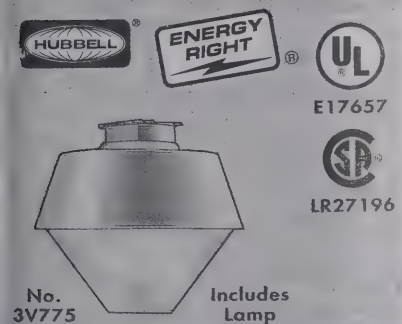
**Housing:** Die-cast aluminum housing has durable bronze polyester powder coat finish.

**Refractor:** Acrylic prismatic refractor controls light for high vertical and horizontal foot-candles. Refractor is hinged to permit easy relamping without removal of refractor.

**Ballast:** High power factor, constant wattage autotransmitter type for 175W and 250W MH lamps. High power factor high-reactance type for 150W HPS lamps. Minimum starting temperature is -40°C (-40°F) for high pressure sodium, and -30°C (-20°F) for metal halide.

**Installation:** Quick-mounting plate for 3/4" IPS conduit frees both hands to complete wiring.

**Dimensions:** 12½"H x 17" Dia.



**Approvals:** UL Listed(E12585); CSA Certified (LR41075)

# LOW BAY FIXTURES 70 TO 175 WATT

**Applications:** Low wattage luminaires are used in parking structures, manufacturing facilities, kitchens, food processing areas, laboratories, assembly areas, machine shops, low level aisle lighting, and other applications requiring three dimensional, high illumination levels.

**Housing:** High purity spun aluminum with corrosion resistant Lektrocote® polyester acrylic powder paint finish.

**Refractor:** Enclosed injection molded high performance acrylic, except Nos. 3V778, 3V782, and 3V786 which have an open bottom protected with a stainless steel screen.

**Ballast:** High power factor, copper wound, constant wattage autoregulator, QuadTap® for line voltages of 120, 208, 240, and 277 volts. All units UL Listed for 40°C (104°F) ambient temperature operation.

**Installation:** Three mounting methods available. Junction box mounting style includes fast mounting adapter plate for 4" junction boxes. Pendant mounting style includes balancing 3/4" conduit hub. Ceiling mounting includes two 3/4" conduit hubs for through-wire mounting and a 3/4" conduit top hub.

**Approvals:** UL Listed (E17657); CSA Certified (LR27196) for damp or wet locations

**Hubbell brand.**

**NOTE:** All Units are Shipped Pre-Wired with Lamp Installed.

# INDUSTRIAL HID FIXTURES

## MICROLUX™ LOW BAY FIXTURES

**Housing:** Low profile heavy-duty die-cast housing provides cooler operating temperatures for longer life. Three stainless steel latches retain optical system to housing. Patented optical design-high efficiency and glare control. Square light distribution-superior uniformity.

**Ballast:** Minimum start temperature is -40°C (-40°F) for high pressure sodium, and -30°C (-20°F) for metal halide.

**Reflector:** Low brightness reflector provides high vertical illumination and efficiencies over 80%. UV stabilized acrylic refractor.

**Lamps not included:** Use 4V550 for 7B034 and 2V452 for 7B035 or see Index under Lamps, HID.

**Approvals:** UL listed (E17657), CSA Certified (LR27196). Wet location listed.

### NATIONWIDE BRANCH NETWORK WITH LOCAL ACCESS IS YOUR SHOPPING ADVANTAGE

**Grainger's network of more than 350 local branches provides you nationwide access to our broad selection of product offerings. And with 30-minute "Will Call" service or 24-hour shipping on in-stock items, help is as close as a phone call away. Check the Branch Locations listed in the front of this catalog for the location closest to you.**

### UL LISTING AND CSA CERTIFICATION

When choosing products from this section, look for the UL and CSA symbols. Those Listed and/or Certified products meet or exceed rigid standards established for personal safety and maximum product life. UL file number and CSA Certification are indicated in the individual listings.

## PREMIUM HIGH BAY AISLELIGHTER

**Applications:** Warehouses, distribution or assembly areas, hangars, cold storage areas requiring narrow light distribution.

**Housing:** Features heavy-duty, die-formed steel. Embossed for cooler operation and extended ballast life. Mogul base porcelain socket. Polyester powder coat bronze finish.

**Reflector/Refractor:** Spun aluminum reflector with injection molded prismatic acrylic refractor. Optical system produces a long/narrow light pattern for maximum fixture spacing and reduces the fixtures required. The prisms project light up and out at high angles to provide an even light distribution on the vertical face of stacks eliminating dark areas between fixtures. Open bottom design allows easy relamping.

**Ballast:** High power factor, constant wattage autotransformer type, 60 Hz. Multi-tap ballast for field selection of voltage (120/208/240/277V). Maximum ambient temperature operation 65°C (149°F). Minimum starting temperature is -40°C (-40°F) for high pressure sodium and -30°C (-20°F) for metal halide.

**Installation:** Features easy, slide on mounting box with tapped opening for 3/4" conduit.

**Dimensions:** 29" high with a 16" diameter reflector.

**Lamp not included:** Use suggested lamp listed below or see Index under, Lamps, HID.

**UL Listed (E12585); CSA Certified (LR41075).**

**Lumark brand.**

## ECONOMY HIGH BAY AISLELIGHTER

**Applications:** Warehouses, distribution centers, and assembly areas requiring narrow light distribution.

**Housing:** Features heavy-duty die-formed steel. Embossed housing for cooler operation and extended ballast life. Mogul base porcelain socket. Polyester powder coat bronze finish.

**Reflector:** Spun aluminum reflector with internal anodized baffles to redirect light. Five field adjustable settings provide concentrated wide light distributions. Reflector redirects light to achieve high vertical lighting levels on stacks and maximum horizontal footcandles in aisles.

**Ballast:** High power factor, constant wattage autotransformer type, 60 Hz. Multi-tap ballast for field selection of voltage (120/208/240/277V). Maximum ambient temperature operation 65°C (149°F). Minimum starting temperature is -40°C (-40°F) for high pressure sodium and -30°C (-20°F) for metal halide.

**Installation:** Features slide-on mounting box with tapped opening for 3/4" conduit.

**Lamp not included:** Use suggested lamp listed below or see Index under Lamps, HID.

**UL Listed (E12585); CSA Certified (LR1787).**

# OUTDOOR FIXTURES GUIDE

## GUIDE TO DETERMINING NUMBER OF AREA AND FLOODLIGHT FIXTURES NEEDED

Step 1: Determine footcandle level from Outdoor Footcandle Level table below.

Step 2: Determine square feet of area to be lighted (length x width).

Step 3: Determine type of fixture to be used and proper mounting height.

Step 4: Identify initial lumens of fixture type (listed with lamps, see index for specific lamp type desired).

Step 5: Use formula with data derived from steps above.

Formula: Number of fixtures = 3 times number of footcandles needed x sq. ft. of area to be lighted ÷ initial lumens of selected fixture type.

Step 6: Determine dirt depreciation factor of fixture from Light Depreciation Chart below. Multiply number of fixtures by factor which is applicable. Final number is the approximate number of floodlights needed to light a given area for an indicated task. All fractions should be rounded off. Follow all general guidelines for installation. **Note:** This is not a precise lighting guide.

### RECOMMENDED MOUNTING HEIGHTS (FT.)

| Watts | H.P. Sodium | Metal Halide | Mercury Vapor | Tungsten Halogen |
|---|---|---|---|---|
| 50 | 8–13 | 8–13 | — | — |
| 70 | 10–15 | 10–15 | — | — |
| 100 | 15–20 | 10–15 | — | — |
| 150 | 20–25 | — | — | — |
| 175 | — | 15–20 | 18–23 | — |
| 200 | 20–25 | — | — | — |
| 250 | 22–27 | 20–25 | 20–25 | — |
| 400 | 30–35 | 25–30 | 20–25 | — |
| 500 | — | — | — | 15–20 |
| 1000 | 40–50 | 40–45 | 35–40 | 20–25 |
| 1500 | — | 45+ | - | 25–30 |

### LIGHT DEPRECIATION CHART

| Cleaning Every Year Environment | | | Cleaning Every 3 Years Environment | | | Cleaning Every 6 Years Environment | | |
|---|---|---|---|---|---|---|---|---|
| Clean | Medium | Dirty | Clean | Medium | Dirty | Clean | Medium | Dirty |
| .90 | .93 | .96 | .96 | 1.01 | 1.06 | 1.06 | 1.29 | 1.54 |

## RECOMMENDED OUTDOOR FOOTCANDLE LEVELS

**Recommended Illuminating Engineering Society (IES) Minimum Light Levels For Outdoor Usage. Values Are Minimum Average Maintained Footcandles (FC) on application at all times.**

| Commercial/Industrial Lighting | Minimum Footcandles |

# HID FLOODLIGHT FIXTURES

## NIGHTHAWK™ HEAVY-DUTY 400 AND 1000 WATT FLOODLIGHTS

**Housing:** Constructed of die-cast aluminum. Meets NEMA heavy-duty type classification. Aerodynamic design has low wind resistance. 1/4" steel trunnion has aiming scale to simplify directing light. Dark bronze polyester powder coat finish. Dimensions: 22½H x 20½W x 9½"D (400 watt models); 10½"D (1000 watt models). Includes capped photocell receptacle for use with locking thermal type photocell sold separately. Order No. 5U792.

**Latches:** Formed aluminum flush draw action latches offer easy access to lamp compartment without tools.

**Reflector:** Three-piece optical design has two distinct finishes for better light control and superior beam efficiency. Foam-in-place silicone gasket provides maximum protection of interior components and allows fixture to be used in areas that require above horizontal aiming.

**Lens:** Thermal shock, heat and impact-resistant glass. All external hardware is stainless steel.

**Ballast:** High power factor multi-tap 120/208/240/277 volt ballast. Ambient temperature: Minimum -20°F (-40°F for high pressure sodium); Maximum 131°F.

**Socket:** Mogul base porcelain socket.

**Approvals:** UL Listed (E12585) for wet locations; CSA Certified (LR41075). IBEW label.

**Lamp Not Included:** Use recommended lamp listed below or see Index.

## THE WARRIOR™ CUTOFF FLOODLIGHT

**Applications:** Parking lots, construction and storage sites, rail yards, light industrial locations, marinas, and service areas.

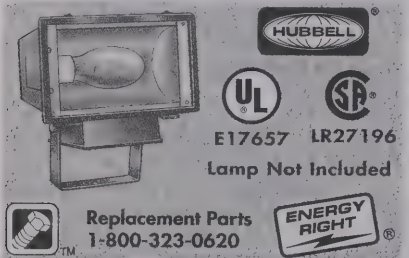
**Housing:** Die-cast aluminum housing with integral door hinges and watertight housing door. Features 3/16" galvanized steel trunnion mount. Mogul base porcelain socket. Acrylic enamel powder coat bronze finish.

**Lamp not included:** Use suggested lamp listed below or see Index under Lamps, HID.

**Reflector:** Aluminum reflector provides sharp cutoff of light source. Heat and impact-resistant tempered glass lens.

**Ballast:** High power factor, constant wattage auto-transformer type, 60 Hz. Multi-tap ballasts allow field selection of voltage (120/208/240/277V). Minimum starting temperature: -20°F (-40°F for high pressure sodium).

**Installation:** Single bolt mounting for easy installation. Field adjustable aiming angle.



**Dimensions:** 15W x 17H x 7"D.

**Approvals:** UL Listed (E12585) and CSA Certified (LR41075) for wet locations.

## 150, 250 AND 400 WATT GENERAL PURPOSE FLOODLIGHTS

**Housing:** Die-cast aluminum housing with bronze Lektrocote® finish. Three hole trunnion yoke. Center 1⅛" clearance hole allows mounting to 1/2 or 3/4" nipple. Yoke has two ½" dia. holes for bracket mounting. Dimensions: 14⅝H x 14W x 10⅛"D.

**Reflector:** Linear parabolic three piece reflector assembly.

**Lens.** Tempered glass lens in die-cast aluminum door frame with silicone gasket and two stainless steel "no tool" latches for weathertight seal, easy lamp access.

**Ballast:** High power factor, QuadTap™ ballast has heat sink design for cooler operation. Easy-access isolated wiring chamber.

**Socket:** Mogul base porcelain socket.

**Lamp Not Included:** Use recommended lamp listed below or see Index under Lamps, HID.

**Ambient Temp:** Min. -20°F (-40°F HPS); Max. 131°F

**Approvals:** UL Listed (E17657) for indoor/outdoor use; CSA Certified (LR27196) for 120 or 277V, wet locations.

# HID FLOODLIGHT FIXTURES

## FALCON™ LOW WATTAGE FLOODLIGHTS

**Applications:** For all commercial, industrial and residential low-wattage HID lamp floodlighting applications.

**Housing:** Die-cast aluminum housing finished in weather- and abrasion-resistant dark bronze polyester powder coat. Medium base porcelain socket for HID lamps.

**Reflector:** Formed-aluminum stippled reflector optimizes beam efficiency and control.

**Lens:** Tempered glass lens is impact-resistant and thermal shock-resistant.

**Installation:** Can be wall or pole mounted. Adjustable stem mounting arm fits 1/2" NPS outlet box cover.

**Lamp Included:** For replacement lamp use suggested lamp below or see Index under lamps, HID.

**Minimum Start Temperature:** -40°F for high pressure sodium; -20°F for metal halide

**UL listed** (E12585).

| HID Type | Watts | Suggested Lamp Stock No. | Starting Amps @ 120V | Operating Amps @ 120V | Falcon Model | New! Stock No. | Lamp Included List | Lamp Included Each | Shpg. Wt. |

## BANDIT™ MINI-FLOODLIGHT

**Applications:** Landscapes, signs, building facades, homes, and commercial buildings.

**Housing:** Features die-cast aluminum housing with captive, recessed screws and gasketing. Polyester powder coat bronze finish. Dimensions: 7H x 10W x 10"D. Medium base socket.

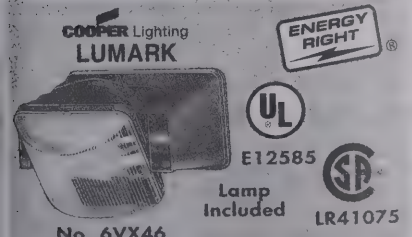
**Reflector:** Aluminum reflector produces maximum beam efficiency.

**Lens:** Thermal shock and impact-resistant tempered glass lens.

**Ballast:** Nos. 2V861 & 2V862 include normal power factor reactor type ballast for 120V only. No. 4V262 includes high power factor multi-tap ballast for field selection of voltage (120/208/240/ 277V). Minimum starting temperature is -40°F except for metal halide fixture which is -20°F.

**Installation:** Unit can be wall or pole mounted. Ball joint swivel permits adjustable horizontal/vertical aiming, in 9° increments. Adjustable arm fits any 1/2" NPS cover.

**Lamp Included:** For replacement lamp use suggested lamp listed below or see Index under Lamps, HID.



**UL Listed** (E12585) and CSA Certified (LR1787) for wet locations.

**Lumark brand.**

## CARETAKER™ COMPACT HID FLOODLIGHT

**Applications:** Apartment buildings, shopping centers, hotels, stairways, and other residential or commercial uses.

**Housing:** Injection molded, high-impact polycarbonate housing with weathertight gasket. Medium base porcelain socket.

**Reflector:** Polycarbonate reflector has ratchet-type aiming device that locks in place.

**Lens:** Rotatable polycarbonate lens is impact resistant. Prismatic pattern duplicates light distribution of two 150W PAR lampholders.

**Ballast:** Normal power factor reactor type ballast for 120V only. Minimum starting temperature is -40°F.

**Installation:** Unit can be wall or ceiling mounted either horizontally or vertically; easily installed to existing junction boxes.

**Lamp Included:** For replacement use lamps listed below or see Index; Lamps, HID.

**UL Listed** (E12585) for wet locations; CSA Certified (LR41075).

# HID FLOODLIGHT FIXTURES

## 70 TO 175 WATT COMPACT FLOODLIGHT FIXTURES

**Applications:** For small area, sign, or facade lighting. Comparable to 300/500 watt quartz fixtures. 12⁹⁄₆₄H x 9¹⁵⁄₆₄W x 7¹⁄₃₂"D size is easily hidden behind shrubbery.

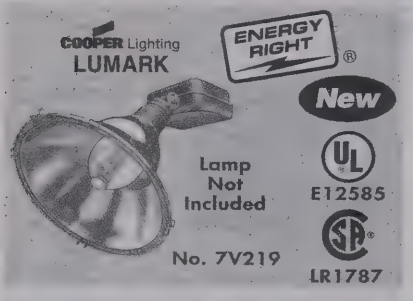
**Housing:** Rugged, die-cast aluminum with dark bronze Lektrocote® protective finish. Cast lens door with hex head twin screw retention. Tempered glass sealed to housing with silicone gasketing for weather seal. Aim light in any position.

**Reflector:** High reflective Anodal® finish for high efficiencies and uniform wide beam spread. Field adjustable rotatable optics.

**Mounting:** 1/2" knuckle mounts to box or trough.

**Ballast:** 70 and 150 watt HPS models are 120V NPF with -40°F starting. 70 to 175 watt metal halide models are QuadTap (120, 208, 240, 277) HPF with -20°F starting.

**Socket:** Heavy-duty spring loaded porcelain medium base.



**Lamp Included.** Use replacement lamps listed below or see Index under Lamps, HID.

**Approvals:** UL Listed (E17657) for wet locations; CSA Certified (LR27196) for 120 or 277 volt, indoor/outdoor use.

## SPORTS FLOODLIGHT

**Applications:** All outdoor sports facilities including football, baseball, softball and soccer fields, and tennis courts.

**Housing:** Features heavy-duty die-cast aluminum housing. Mogul base socket housing is die-cast aluminum and ribbed for maximum heat dissipation. Polyester powder coat bronze finish is weather-resistant.

**Lamp not included:** Use suggested lamp listed below or see Index under Lamps, HID.

**Reflector:** Spun aluminum reflector features NEMA beam type 4 and 5. Tempered glass lens resists heat and shock.

**Ballast:** High power factor, constant wattage auto-transformer type, 60 Hz. Multi-tap ballasts allow field selection of voltage (120/208/240/277V). Minimum start temperature -20°F.

**Installation:** Single-bolt mounting for fast easy installation. Vertical aiming system enables unit to be pre-aimed, then repositioned after maintenance.

**Dimensions:** Reflector—21¹⁵⁄₁₆" diameter x 20⅞" long; Ballast—5⅝H x 11W x 9¼"D.

**Approvals:** UL Listed (E12585) and CSA Certified (LR1787) for wet locations.

## SPORTSLITER® ENVIRONMENTAL LIGHT CONTROL

- **Reduces glare to surrounding area**
- **Lowers light trespass lighting**
- **Addresses environmental lighting specifications**

For general lighting areas using 40 ft. or higher poles. **Applications include:** tennis courts, parking lots, truck terminals, ball fields, and large storage areas. Horizontally lamped with internal louvers. Medium flood beam distribution. Made in USA. Hubbell brand. Not suitable for above horizontal aiming.

# QUARTZ FLOODLIGHT FIXTURES

## LARGE QUARTZ FLOODLIGHT

**Applications:** High-output instant-on lamps are ideal for small parking lots, signs and billboards, auto sales lots and other outdoor display areas, loading locks, construction areas, and small outdoor sports areas.

**Housing:** Durable die-cast aluminum housing has screw fasteners to provide weatherproof seal. Door is hinged for easy lamp removal.

**Finish:** Flat black paint.

**Lens:** Clear tempered glass lens is heat- and impact-resistant.

**Installation:** Adjustable stem mounting arm fits 1/2" NPS outlet box cover.

**Lamp Not Included:** No. 4PK94 accepts 1500W Quartz lamp (No. 2V617) for 208V; or (2V618) at 240V or (No. 2V619) at 277V. No. 4PK95 uses 500W Quartz lamp No. 2V384.

**UL Listed (E7009)**

| Watts | Volts 60 Hz | Dimensions (In.) Height | Width | Depth | Lumark Model | New! Stock No. | Less Lamp* List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|---|---|
| **1500** | 208/240/277 | 8½ | 15 | 2½ | QB1500 | **4PK94** | $76.50 | **$56.50** | 35.0 |
| **500** | 120 | 8½ | 15 | 2½ | QB500 | **4PK95** | 79.90 | **36.90** | 22.0 |

(*) Do not install near combustible materials. For outdoor use only.

## WEDGE SMALL QUARTZ FLOODLIGHT

**Applications:** The white light from this quartz unit is ideal for small outdoor floodlighting jobs where color rendition is critical.

**Housing:** Die-cast aluminum housing with heat- and weather-resistant gasket. Hinged door frame has toolless entry latch.

**Finish:** Black paint.

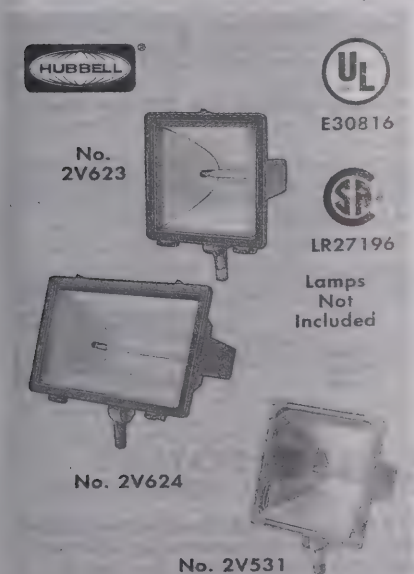
**Reflector:** Anodized aluminum reflector for maximum beam control and efficiency.

**Lens:** Tempered heat- and impact-resistant glass lens.

**Installation:** Adjustable stem mounting arm fits 1/2" NPS outlet box cover.

**Lamp:** 500 W quartz included. Suggest No. 2V384 replacement.

**UL (E19201) and CSA Listed** for wet locations.



| Watts | Volts 60 Hz | Dimensions (In.) Height | Width | Depth | Lumark Model | New! Stock No. | Less Lamp* List | Each | Shpg. Wt. |

| **500** | 120 | 6¼ | 9 | 4 | QZ5L | **4PK96** | $48.60 | **$19.10** | 3.0 |

(*) Do not install near combustible materials. For outdoor use only.

## 300 TO 1500W QUARTZ FLOODLIGHT FIXTURES

**For Low Cost, Instant-On, Directed Light Installations. UL Listed for Wet Locations**

### HEAVY-DUTY FIXTURES

**Housing:** One-piece die-cast aluminum with cast-in fins for efficient heat dissipation. Adjustable die-cast degree marked 1/2" NPS threaded knuckle mounting with gripping, serrated teeth/lock nut. High temperature leads are connected directly to lamp sockets. Spring loaded socket design eliminates binding while ensuring efficient heat dissipation. Bronze finish.

**Reflector:** Parabolic three-piece aluminum reflector for maximum efficiency and beam distribution.

**Lens:** Tempered, thermal shock and impact-resistant clear glass. Die-cast aluminum door frame is sealed by weathertight gasket and latches—allows easy servicing. Units can be aimed (glass side up) without risk of moisture breaking hot lens while fixture is operating (except 2V624).

**Lamp not included:** No. 2V624 accepts 1000W lamp (No. 2V616) at 240V only, or 1500W (No. 2V617) at 208V, (No. 2V618) at 240V or (No. 2V619) at 277V.

### ECONOMY FIXTURE

**Housing:** Die-cast aluminum with cast-in fins for efficient heat dissipation. Adjustable mounting with 1/2" NPS threaded knuckle. Hardware is corrosion resistant. Socket design eliminates binding while ensuring efficient heat dissipation. Gray finish.

**Reflector:** One-piece parabolic aluminum reflector.

**Lens:** Thermal shock, impact-resistant glass lens held in place by 4 corrosion-resistant pre-galvanized clips. Fixture can be aimed (glass side up) without hazard of breaking hot lens while fixture is operating. Lens is sealed to housing by high temperature silicone rubber gasket.

**Lamp not included:** Nos. 2V623 and 2V531 accept 300W lamp (No. 2V529), or 500W (No. 2V384).

**UL Listed** (E30816); CSA Certified (LR27196).

| Type | Watts | Volts 60 Hz | Dimensions (In.) Height | Width | Depth | Hubbell Model | Stock No. | Less Lamp* List | Each | Shpg. Wt. |

(*) Do not install near combustible materials. For outdoor use only.

# QUARTZ FLOODLIGHT FIXTURES, HID FLOODLIGHT ACCESSORIES AND HID WALL PACKS

## MINI QUARTZ FLOODLIGHT FIXTURES

**Applications:** Outdoor accent and facade lighting, landscape lighting, sign lighting, and security around office buildings, shop ping centers, hospitals, motels, restaurants, schools, and residential buildings. May be used for above horizontal aiming.

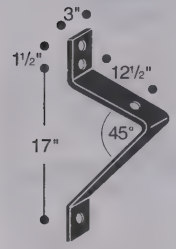
**Housing:** Precision die-cast aluminum housing. Spring loaded bayonet base socket. Tempered glass lens sealed to die-cast lens frame. Mounting base and cast aluminum baffle are included.

**Finish:** Housing has architectural bronze polyester powder finish.

**Reflector:** Die-formed semi-specular segmented aluminum reflector surrounds lamp providing wide, smooth light distribution. Black baffle reduces glare.

**Installation:** Mounting plate with cast-in template for retrofitting over recessed boxes allows flexibility in positioning fixture. Serrated teeth on adjustable mounting arm locks fixture in place after aiming.

**Dimensions:** With mounting plate—5L x 5W x 6¾"D.

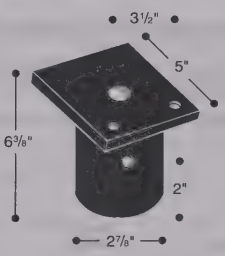


**Lamp included:** Supplied with 250W lamp. No. 2V703 is recommended. Accepts any T-4 bayonet base quartz lamp up to 250W, see Index under Lamps, Incandescent. Rated for 120V.

**UL Listed** (E57163) for wet locations and above horizontal aiming.

**Stonco brand** (MLQ250DXL).

**No. 3V594.** Shpg. wt. 3.1 lbs. List.....$132.78. Each.....**$84.95**



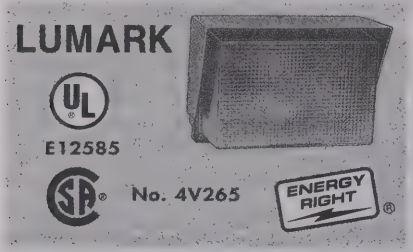
## HID FLOODLIGHT ACCESSORIES

No. 2V645

LUMARK

HUBBELL

No. 2V790



**No. 2V645.** HID Floodlight Mounting Bracket. For use only with 1N003-1N006 and 6VX57-6VX60. Lumark brand (SAB). Shpg. wt. 9.4 lbs. List $76.42. Each.....**$47.30**

**Nos. 2V711 & 2V790. HID Slip Fitters.** Allow floodlights to be attached to 2" dia. (2⅜" O.D.) floodlight poles.

**No. 2V711.** For use only with 2V676, 2V677, 2V709, 2V710, and 3V829. CSA Certified. (LR27196). Hubbell brand (4024C). Shpg. wt. 3.6 lbs. List $37.64. Each.....**$24.77**

**No. 2V790.** For use only with 1N003 -1N006. Lumark brand (TKS). Shpg. wt. 4.0 lbs. List $42.40. Each.....**$28.55**

## 70 & 100 WATT MICRO-PAC MINI WALL FIXTURE

**Applications:** Loading docks, underpasses, tunnels, stairways, building entrances, public garages, and vehicle ramps. For mounting heights up to 15 feet.

**Housing:** Die-cast aluminum housing. Stainless steel external hardware. Fully sealed and gasketed. Architectural dark bronze finish.

**Reflector:** Designed for optimum light distribution. Clear, vandal-resistant prismatic polycarbonate refractor. Medium base lamp socket.

**Lamp included:** Use replacement lamp listed below or see Index under Lamps, HID.

**Ballast:** Normal power factor reactor type for 120V, 60 Hz input. Minimum start temperature -40°F except metal halide model, which is -20°F.

**UL Listed** (E12585) and CSA Certified for wet locations. Suitable for outdoor installations.

**Installation:** Easy and economical to install. Mounts to any vertical surface or 4" octagonal junction box. Knockouts located in side for surface mounted conduit.

**Dimensions:** 10W x 7H x 6¾"D.

# HID AND WAL-EYE™ AREA WALL PACKS

## 70 TO 400 WATT HID HEAVY-DUTY WALL PACKS

LUMARK

No. 4V267

ENERGY RIGHT®

E12585

LR41075

**Applications:** Loading docks, underpasses, tunnels, stairways, building entrances, public garages, and vehicle ramps. For mounting heights up to 25 feet.

**Housing:** Die-cast aluminum housing. Stainless steel external hardware. Foam in place silicone gasket provides maximum protection of interior components. Hinged door frame with safety chain. Architectural dark bronze finish.

**Reflector:** Coilzak aluminum reflector. Prismatic glass refractor. Adjustable mogul base socket position and choice of two beam patterns.

**Lamp not included:** Use recommended lamp listed below or see Index; Lamps, HID.

**Ballast:** High power factor multi-tap 120/208/240/277 volt ballast (except No. 4V267 which is 120 volt normal power factor). Minimum starting temperature is -20°F for metal halide models, and -40°F for high pressure sodium models.

**UL Listed** (E12585) and CSA Certified (LR41075) for wet locations and suitable for outdoor use.

**Installation:** Back mount, either 4" outlet box or 3/4" conduit. Also 3/4" tapped entry provided for power supply through surface-mounted conduit.

**Dimensions:** 16W x 9⅝H x 10½"D.
